Mail Orders Receive Our Most Careful Attention.

Carpets and Linoleums

The shipment of Carpets and Linoleums we have been waiting for have arrived. You will find them conveniently located on the Second floor and will make the viewing easy. This is a direct importation and you will find the prices greatly to your advantage for the class and qualities shown.

Stoves, Ranges, Screen Doors, etc.

On the same floor you will find Stoves, Ranges, Roller Window Shades, Screen Doors, Window Screens, Pillows, Mattresses. When up town take a walk through the store and view the different departments. You are welcome whether you make a purchase or not.

Ready-To-Wear Hats

We have a consignment of Ladies and Misses Ready-to-Wear Straw Hats that arrived late. If you require anything in this line you may have them for half price. You will find them on sale in the Dry Goods department at 50c and 75c.

China and Glassware Department

The China and Glassware department has just opened a beautiful lot of Cut Glass and Limoges China. We will be pleased to show these hand-some goods.

RAILWAY WORKS.

Diversions of Line at Summit Lake.
Three Tunnels to be Driven.

Owing to the trouble experienced with snowslides at Summit lake west of Revelstoke last winter, the C. P. R. have decided on changing the course of the track from the south to the north side of the lake. The work involves construction of a mile of new track and driving three tunnels. Already the company are getting bids on the work, a Nelson man having been over the ground the other day. The proposed work will entirely remove the danger from this piece of road such as was experienced last winter when the dining-car and pullman were thrown off the track by a slide. It will also lessen the cost of maintenance in winter, as the existing section of road required continuous work by the rotary in bad weather.

THE MINES.

A smelter will be built at Quatsino.

A. Smith has bonded the Gibson group on Kaslo creek.

The Copper King at Kamloops has

arranged to ship to Crofton smelter.

The Knob Hill in Boundary has

shipped 442,281 tons of ore to date.

Grainy Smelting Co. propose ex-

pending another \$300,000 in enlarging the smelter.

Mining is looking up in the Slocan.

Five concentrators will shortly be working in and around Sandon.

By an accident the Northwestern

electrical plant's electric drills had

to be discontinued for the present.

S. S. Fowler, M. E., who has been

at the Paradise mine on Gold

creek, reports the property continuing to turn out well under development.

C. M. Keop of Idaho says it is hard

to see the activity in lead mining

across the border as compared with

present conditions in British Colum-

bia.

E. A. Bradley has arranged with

Pittsburg people to take a controlling

interest in the Consolidation and El Dorado claims on French creek and

will start work as soon as possible. J. Sweeney being foreman.

The owners of the Banner, Lola,

Lexington, Lone Star and Alma

claims, on Lexington creek, intend

doing considerable development work

this year. \$10,000 will be spent on

the Banner and a similar amount on

the Lone Star.

One of the leading investors in the

Northwest Development company's

property at Camborne writes regarding the new manager:

"We have in Mr. Blackwell a very good and capable man and one who will make us a good

superintendent."

The annual report of the mines de-

partment shows the mineral produc-

tion of this province for the past year

to be greater than that of the Yukon;

but we have in our mineral deposits a

"Klondike" of our own; and a perman-

ent and growing one of that.

The Yukon is credited with an output of

\$18,000,000, while British Columbia

produced \$20,000,000.

There has been much excitement over discovery of free gold at Rapid

creek near Gerard. Many prospectors

are camped there waiting for snow to

go. R. A. Upper brought up a fine

sample of the ore on Saturday. It is

a vitreous quartz—the most promising

looking free gold quartz yet found in

the district. Mr. Upper secured a

claim and J. Ernest and partners, of

Camborne, have located five claims at

the discovery.

J. Souds, who came in from the

Gold this week, informed Supt. Bradie

the old channel of Smith creek for

which a long search has been made

has now been struck. In this channel

was also found a quartz vein about

nine feet wide looking well mineralized.

As much of the gold on the Blue Jay

and F. McCarty's claim below is asso-

ciated with quartz, it was evident that

gold had not traveled far and this new

discovery may prove to be the source

of the Smith creek gold.

The local branch of the Mining As-

sociation was reorganized Monday with

the following officers: President, H. A.

Brown; first vice president, W. M.

Brown; second vice president, F. B.

Wells; secretary, J. I. Woodrow; treas-

urer, Messrs. Scott, Ogilvie, McCarter

Kinch, Higgins and Adair. The ex-

ecutive was instructed to prepare by

laws and arrange room for meeting

W. M. Brown was appointed to repre-

sent branch on central finance com-

mittee.

METAL MARKET.

Copper—New York, electrolytic 14c

to 14c; London, £61 7s.

Lead—New York, \$4.30 to \$4.35;

London, £11 15s. 6d. to £11 15s. 6d.

Silver—New York, 54c.

Copper was weaker but led stronger

during the week.

BRITISH

BY LAWS.

Bylaws to remove Chinese laundry

from lot 15, block 18, lot 19, block 16,

lot 6, block 27, and to confine Chinese

laundry to boundary already defined

passed third reading.

Date of tax sale under bylaw was al-

tered to Aug. 14th, and bylaw finally

passed.

Bargains in Real Estate.

\$1,200—1-story dwelling on Comox Ave., 2 rooms.

\$1,500—1-story cottage, 3 rooms, 10x15, front in varicose.

\$1,300—Confortable 2-story, ground floor and 2 lots, newly painted and fenced.

\$1,050—2-roomed cottage with bathroom, 10x15.

\$1,550—Large 2-story house, 11 rooms, all modern conveniences. A genuine bargain.

\$2,000—Restaurant building on First Avenue, 10x15, front in varicose, for right party, good terms.

\$1,800—2-story residence, well built, containing 8 rooms.

\$950—1-story cottage, 3 rooms and bath, room, near C. P. R. shops.

\$1,000—2-story house, 3 rooms, near McLean Avenue.

\$1,300—2-story house, containing 8 rooms, cellar full size.

\$1,100—1-story cottage, 6 rooms, lot 10x15.

\$3,000—good modern residence 3 lots, in good condition.

\$3,500—2-story residence complete and up to date, with fine grounds.

We are prepared to loan money on any of the above properties on the monthly re-

turns we have for sale on improved farm near the city, stock, implements, etc. Price \$2,000. Cash required \$1,000.

A 150-acre unimproved land near Salmon Arm, price \$300 on good terms.

LEWIS BROS. Real Estate Agents

The Kootenay Mail

SATURDAY, JUNE 6, 1903.

The Colonist is the latest advocate of a repudiation law in the shape of a bankruptcy act.

We hope to see a renewed effort made to provide the city with a public library. The city council has generously provided a building for the purpose, and the citizens should meet and appoint a committee to take in hand the organization of the institution.

It is time Canada passed a law to prevent the importation of undesirable immigrants. If steps are not taken in this direction Canada will become the dumping ground not only of what the old Crimean admiral described as the "seum of hell and Newgate" but of the slums of the United States cities as well.

Just as the C. P. R. says it will build no more railways in B.C. the Great Northern has declared its intention of building into the Okanagan and Similkameen without a bonus of any kind. It is well that the day of bonuses is ended when they are attended with the corruption exposed in the recent legislative investigation at Victoria.

In Hon. A. G. Blair Canada has a minister of railways of whom the dominion should be proud. He has pressed his bill for a railway commission against all the opposition the Grand Trunk and C. P. R.

have been able to bring against him. That bill will result in a very different state of affairs in railway matters. It will prevent recurrence of the abuses of the past. It will protect the public interest against the imposition of railway corporations. The bill will no doubt pass the Commons and Senate in a form embodying the powers Mr. Blair has deemed necessary for the protection of the public interest.

In a well-written article to the Nelson News, R. Campbell, Johnston of Sloane, urges that in asking a higher tariff on lead products the silver-lead men are barking up the wrong tree. He contends British Columbia can compete in the world's market for lead with fair rates for transportation and the abolition of the tariff on mining plant and supplies. We believe he is right.

The dawn seems to be opening for a new era in the history of the British empire. Chamberlain says he will carry his idea of imperial unity with reciprocal tariff or retire into private life. The German attitude towards Canada, he declares, has forced to the front the question of an imperial fiscal policy. England must show Germany that she cannot walk alongside on Canada without suffering payment in kind.

The world makes the serious charge against government officials at Victoria that during several years past it has been virtually impossible to get legitimate business matters through with promptitude in at least two of the most important departments of the government without paying substantial tribute to such officials of these departments as are in a position to facilitate or hamper the matters in question. This charge should undergo the most stringent investigation for if true the officials guilty should be severely punished.

THE STRIKE.
There is no sense in the C. P. R. maintaining the U. B. & B. strike. The company's attitude has aroused a spirit of intense indignation among business men on account of the way in which business has been disorganized and it has been felt that parliament has not done its duty by failing to investigate the matter at an early stage. For instance if the members were required to furnish to parliament a statement of the claims for lost and damaged freight since the strike began it would be an eye-opener to the company's shareholders and the public generally as showing how utterly regardless the C. P. R. has been of the loss and inconvenience which the public has sustained. The men ask nothing more than the right to organise, and they are entitled to that right in any civilised country. The maintenance of the trouble can only be due to a dishonorable determination on the part of the company to break up the organisation, but men can at least vote votes appoint legislators, legislators make and unmake laws, and laws do or undo "corporations." We venture to say that in present and prospective losses and restrictions this strike will cost the C. P. R. ten times more than the losses sustained by the employees involved and by the public, however serious these may now appear.

RAILWAY DEVELOPMENT.

The abuse by railway corporations of the powers given them by the state is opening the eyes of public men and of the people to the necessity of government ownership of railways. The people have already built one railway and given it uncontrolled to a private corporation as a gift only to have the powers which it has created used to abuse the public trust and to despoil the public estate, as exposed by the evidence taken at the recent land investigation at Victoria. An end must be put to this state of affairs. The Laurier government deserves the thanks of the people for the stand which it has taken in regard to the Grand Trunk Pacific scheme. The government has said not an acre of land shall be given, and that any state assistance shall only be in the form of a guarantee of bonds secured by a first mortgage on the road. That is the first business railway policy introduced in Canada, and secures the rights of the people and the opening up of the country at the same time. We consider the government could well go a step further and insist on the board of directors in proportion of the amount guaranteed to the actual paid-up capital of the company.

The Laurier government, however, announces an even bolder railway policy. In bringing in his report on the Intercolonial last week Hon. A. G. Blair was able to announce the success of the government railways by the fact that the Intercolonial had made a profit of \$125,000 for the year. He also argued in favor of government ownership of railways and the extension of the Intercolonial railway to the Pacific coast. That is a policy that every lover of his country, be he liberal or conservative, should endorse. It is a policy

of patriotism and progress, a lever for preventing tyranny and injustice by existing railways, a strong arm outstretched to build up enterprise and industry, a stimulant to the cultivation of the soil, the development of the mine, the marketing of the lumber output, and the stretching across this wide dominion the national bands of steel that shall bind its people in closer union and integrity of purpose from the Atlantic to the Pacific shore.

Now that the local branch of the Mining Association has been reorganized we hope to see it well supported by the people of the district. The most important officer in such an organization is the secretary. In Mr. Woodrow it is the secretary, and in Mr. Woodrow the association has been fortunate in securing a first-class man who can be depended on to leave nothing undone to advance the best interests of the association.

The dawn seems to be opening

for a new era in the history of the British empire. Chamberlain says he will carry his idea of imperial unity with reciprocal tariff or retire into private life. The German attitude towards Canada, he declares, has forced to the front the question of an imperial fiscal policy. England must show Germany that she cannot walk alongside on Canada without suffering payment in kind.

The world makes the serious

charge against government officials

at Victoria that during several

years past it has been virtually

impossible to get legitimate busi-

ness matters through with prompt-

itude in at least two of the most

important departments of the govern-

ment without paying substantial trib-

ute to such officials of these depart-

ments as are in a position to facil-

itate or hamper the matters in ques-

tion. This charge should undergo

the most stringent investi-

gation for if true the officials guilty

should be severely punished.

THE STRIKE.

There is no sense in the C. P. R. maintaining the U. B. & B. strike. The company's attitude has aroused a spirit of intense indignation among business men on account of the way in which business has been disorganized and it has been felt that parliament has not done its duty by failing to investigate the matter at an early stage. For instance if the members were required to furnish to parliament a statement of the claims for lost and damaged freight since the strike began it would be an eye-opener to the company's shareholders and the public generally as showing how utterly regardless the C. P. R. has been of the loss and inconvenience which the public has sustained. The men ask nothing more than the right to organise, and they are entitled to that right in any civilised country. The maintenance of the trouble can only be due to a dishonorable determination on the part of the company to break up the organisation, but men can at least vote votes appoint legislators, legislators make and unmake laws, and laws do or undo "corporations." We venture to say that in present and prospective losses and restrictions this strike will cost the C. P. R. ten times more than the losses sustained by the employees involved and by the public, however serious these may now appear.

IN EXILE.

It was a hard struggle to maintain the rights of the people against the greed and oppression of "The Family Compact." In the struggle the sword was unsheathed and Papineau and his son were exiled with the leaders of the reform movement of 1837.

After ten years of exile this father of liberalism returned on the issue of the amnesty proclamation, and so great was the faith of the people in their old champion that he was again returned to parliament, and represented them until his retirement ten years later.

"It is in such fashion," remarks Mr. Willison, "that the decisive blow has been dealt to tyranny and privilege all down the splendid pages of British history."

OTHER CHAMPIONS

of the liberal cause followed in his train, and the names of McKenzie, Baldwin, Lafontaine, Holton, Dorion, Brown, Blake, and Mowat respond to the roll call of Canadian liberalism. To them belongs the honor of subjecting the executive to the control of parliament and the people, driving from the council the nominees of the governor, and the interpolation of checks against presumptuous interference in our domestic affairs by imperial authorities. The party that has a record of such achievements is a party of whom its adherents may be proud.

CONFEDERATION

is not the child of the conservative party as is so often claimed. It owes its maturity to the liberals. George Brown was its progenitor. He got a federal policy adopted at a great federal convention at Toronto in 1859. Sir John Macdonald opposed confederation, and did not adopt the liberal child till it was well grown, though he did great service in accomplishing the union of the provinces. Brown and Macdonald joined hands to effect this union. To the liberals under George Brown were also due the abolition of clergy reserves, representation by population, and incorporation of Northwest Territories in the dominion.

Thus has the liberal party to its credit the institution of some of the grandest achievements of Canadian statesmanship, forming a record of reform of which every liberal may well be proud.

(To be continued.)

Some Results of Impure Blood.

A blotched, pimply, disfigured face, feeling of exhaustion, cracked nerves, headache and a dull brain. The proper cure is one Ferrozone Tincture after each meal. Ferrozone clears and beautifies the complexion by making rich, pure blood. It restores the enfeebled brain and unstrung nerves to a healthy vigorous condition. It invigorates all the physical and mental powers; brings strength and ambition to the depressed. Relieve a substitute for the Ferrozone—It's the best tonic, restorer and invigorator known. Price 50c. in Druggists or Poison & Co., Kingston, Ont.

Fair Play Replies.

Editor Kootenay Mail.

Sir.—The various obliquities

which my letter has provoked

should convince the most skeptical

of the crying need of more forceful

measures in dealing with a large class

of the workers of this country, who are overeducated

and in consequence dissatisfied with

the station in life wherein it has

pleased Providence to place them.

Personally I am not opposed to

when these individuals give vent to

such virulent effusions in response

to my temperate and well-motived

license reached.

Those who opposed the extension

of education in the early 70s

were regarded by the masses as

egocistical and prejudiced, but the

objectivists have clearly demonstrated

that they were gifted with extra-

ordinary foresight and rightly

understood what the harvest would

MALAKWA.

From our own Correspondent.
There shows every appearance of a good crop of fruit this year.

The weather still keeps very refreshing, and is making the river and streams rise to the occasion.

The C. P. R. stock is watered in this district anyway, but will not affect the sale on the market we hope.

Our local sportsmen have dropped quite a few bats late. T. S. Wolsey secured one, S. Loftus got two, C. Hartshorn one, and all of these being black bears. Then an Indian knocked one drumhead bear over after it had made him try playing round and round the cedar tree. The Indian came out best after 11 shots.

NAKUSP.

From our own Correspondent.
R. Thompson leaves today for Nelson.

The lake here has risen about five feet since Friday night.

The freight train has been taken back to Nelson as the rush of freight is over.

Albert Corthead, who has been painting here for C. P. R., left for Nelson Monday.

J. St. Denis was home last Sunday for a short stay, leaving on Monday for Sicamous.

The train from Sandon did not arrive yesterday on account of a washout at Three Forks.

Mr. Billings of the Yale-Columbia Timber Co. came in last week with lumber for the mill.

There is good instilling being done here now. One was brought in the other day which weighed 8 lbs. 10 oz.

The steamer Rossland left for Arrowhead yesterday where they will transfer her and she will take her summer run.

BEATON.

From our own Correspondent.
Business continues good, the hotels being full of strangers.

John Gillon is trying to purchase lots on the east of the touristic strip which he has been buying up.

It is very warm, the lake is rising rapidly and if it does not turn cool soon we shall have very high water.

In the last week there has been a time of change here. Of all the old-timers Andy Craig is the only one who continues to do business at the old stand.

Mr. and Mrs. J. Groat will move into their new house on Beaton street Wednesday and have extended an invitation to all their numerous friends an invitation to a house warming.

Things are quiet politically here so far but I expect the pot will soon commence to boil. J. M. Kettle is the only prospective candidate mentioned here so far. He will likely lead in this part of the district in case the chiselers fail.

Many of our residents have been scheming to outside points for their supplies, claiming they could do better. This is a very poor way to build up a town and we trust the new firm will be able to quote prices that will be satisfactory and so retain the trade in the town.

Messrs. Anderson and Fulmer have purchased the Phoenix Hotel from Mr. Bates and intend to turn it into an office. They have also rented the Prospectors Exchange and will take charge tomorrow. Mr. Evans is to open the reception in Kimberley and Mr. Bates is going to the Northwest.

Messrs. McLenan and Fraser last week rather hastily decided to close out their business at Beatton, and as they declined to grant their store building another had to be secured on short order so Mr. D. G. Ball purchased a building and removed it to the lot adjoining the Exchange on Craig street. He has already taken over the post office and telephone and will open a new stock of goods Wednesday.

ILLECILLIWAET.

From our own Correspondent.
Weather is very unsettled. Clouds are late but look very well considering all things.

Mr. Smith, foreman of Jap gang here, has been appointed section foreman at Glacier, while J. Olson, late of Bear Canyon, has assumed charge of the Orientals.

V. Carlson came in from the hills a few days ago bearing among other trophies, two grizzlies, one of which measured nine feet. Otto Steele was also fortunate in securing four "silver tips."

Our genial and efficient storekeeper Mr. Forbes is still doing business at the old stand. He has had his store repainted and built an addition thereto, and has on his shelves a very fine stock of goods. Call on him and get the latest goods at the lowest prices.

R. Mariani, who has been section foreman at Illecilliwaet for last four

A GUARANTEED CURE

For all Forms of Kidney Disease.

We the undersigned, Druggists, are fully prepared to give the following guarantee: A guaranteed, safe, and effective remedy for all forms of Kidney Disease. It is the only remedy in the world that positively cures all troubles arising from weak kidneys.

Money cheerfully returned if the sufferer is not relieved and improved after use of one bottle. Three to six bottles effect a toning-up and permanent cure. If not relieved, and cured you waste no money.

Canada Drug & Book Co., Revelstoke, B.C.

J. A. Miller & Son, Revelstoke, B.C.

Walter Bews, Revelstoke, B.C.

years, has been transferred to Nelson where he takes charge of another section. Mr. Mariani will be much missed as he has always been a faithful and conscientious employee and a kind and obliging neighbor.

The Merchants Hotel has changed hands. Our old friend "Teddy" has accepted the position of circuit manager at Sicamous Junction and handed over the management to Mr. Schull. We predict for George a successful career as he is already noted for his amiable disposition and winning ways.

POLITICAL.

Sir Thomas Shaughnessy may be appointed to the Senate.

Premier McBride expects to hold an election in four months.

R. Hall has introduced a bill to extend the franchise to women.

Houston is very adverse to McBride and sees nothing but defeat ahead if he leads the Tories in Kootenay.

The socialists will put up a full ticket for Vancouver, whether endorsed by the Trades and Labor Council or not.

The local Liberal Association has secured a portion of J. Sampson's block on Second street for offices and meeting room.

Of five members of the McBride cabinet three are lawyers. It is a government of lawyers, by lawyers, for lawyers.

The Times says: "We predict for Hon. Richard McBride a short, inglorious political career, with an end in harmony with the manner of his elevation."

A meeting of the Liberal Association was held Tuesday. W. M. Graham was president in the chair. The association is preparing for an active campaign.

It turns out the payment of \$30,000 on account of Point Ellice bridge to city of Victoria was under circumstances which forbade Mr. Wells as chief commissioner O. King, the vendor.

J. M. Scott may be nominated as the conservative candidate for Revelstoke. J. M. Kettle is mentioned as the liberal-labor nominee. T. J. Graham may run as a straight labor candidate, and J. W. Bennett as a straight socialist.

Another scandal is unearthed in Ontario politics. Capt. Sullivan having avowed he paid Taylor, chief clerk of Wood & Forest's branch, \$4,000 for his share in a timber deal for which the government received \$250 and it was sold for \$0,000.

Oliver and Paterson, having been explicitly promised portfolios in any government, McBride might form a naturally quiet speechless, as are also Bowell, Duff and Powell, who are notorious scoundrels, after they had virtually brought about success for McBride.

Joseph Martin is entitled to the thanks of the liberal party for the course he has taken in reluctantly resigning the leadership, seeing that his maintenance of that position was making it difficult for the party ranks. The party will now be taking place and may hear when spoken to, and yet feel no pain.

Dr. Hurd only made his discovery a few months ago and the fact that it is now being adopted by the leading practitioners is a proof of its value.

Painless dentistry is no longer a dream or a reality and this discovery will save one of the unpleasant realities of life.

As is known, this method of producing anesthesia has a much wider field than that of dental surgery and will to a great extent take the place of ether and chloroform. Already many operations including the amputation of limbs have been performed most successfully by these means. It produces no nausea or vomiting. It does not affect respiration or depress the action of the heart, and there are no secondary effects on the lungs or other organs. Within a minute after the inhaler is removed the patient regains complete consciousness and their normal condition.

The people of North-East Kootenay are determined that W. C. Wells shall again represent them if he will accept nomination. Mr. Wells stands so high in the estimation of his constituency there that no one could be put in the field by the conservative party to successfully oppose him.

Many leading conservatives preferring to remain in the party, as are Bowell, Duff and Powell, who are

virtually brought about success for McBride.

Joseph Martin is entitled to the thanks of the liberal party for the course he has taken in reluctantly resigning the leadership, seeing that his maintenance of that position was making it difficult for the party ranks. The party will now be taking place and may hear when spoken to, and yet feel no pain.

Dr. Hurd only made his discovery a few months ago and the fact that it is now being adopted by the leading practitioners is a proof of its value.

Painless dentistry is no longer a dream or a reality and this discovery will save one of the unpleasant realities of life.

As is known, this method of producing anesthesia has a much wider field than that of dental surgery and will to a great extent take the place of ether and chloroform. Already many operations including the amputation of limbs have been performed most successfully by these means. It produces no nausea or vomiting. It does not affect respiration or depress the action of the heart, and there are no secondary effects on the lungs or other organs. Within a minute after the inhaler is removed the patient regains complete consciousness and their normal condition.

Says the Word: "Hon. Col. Prior informed the legislature in plain terms Wednesday that when he went into politics he had his firm incorporated as a limited liability company in order that he might capture all the business that was to be obtained from governments. Such a statement, if made in the imperial parliament would have ended the public career of the maker."

A meeting of the executive of the Provincial Liberal Association was held at Yahsahay Saturday. As the party was not united on him as leader, Joseph Martin tendered his resignation to enable the party to unite when the members of the party elected could elect their leader.

H. Hall, M. B. P. said: "While the member for Delta was now very ready to sink all differences that had so disturbed him during recent months, there was no avoiding the fact that Mr. McBride had been quite as much mixed up in the Columbia & Western transaction as had Premier Prior or himself." The present turn of publicity else. The present turn of the political wheel he attributed to a little clique of lawyers."

"The Times says the new government will come into power in a manner worthy of the name it bears. It was born in treachery and deceit. Its leader is unstable in water. He has been bending to every wind that blows and cutting a most miserable figure in the legislature. He had no part whatever in the defeat of the Prior government. This was accomplished by the men who are now commanding to take their places on the opposition side."

The C. P. R. have imported eight Swiss guides for this season's mountaineering.

The demand for Swiss Guides—C. P. R. Hotels.

The demand for Swiss guides will be greater this year than last. Most parties are going south up the valley of the Spray river or are hunting expeditions with the great almost unexplored ranges to rise from the ice fields of the continental divide.

The addition to Mount Stephen

house at Field is now completed, and the resources of this prosperous mountain hotel are certain to be taxed this season to their utmost capacity, as Field is the point of departure for Emerald lake and the Yoho valley.

The extensive alterations and ad-

ditions to Glacier House have been completed and the hotel thrown open for reception of guests.

The C. P. R. have imported eight

Swiss guides for this season's

mountaineering.

If You Fail to Remove Your Burden of Disease in June, Your Life Is Not Secure.

PAINES CELERY COMPOUND

Will Do For You What It Did

For Mr. J. B. Butts.

There was never a remedy so highly recommended for making sick people well in summer time as Paine's Celery Compound. It successfully cures all the ailments common in summer time, and never fails to remove long standing chronic diseases that have baffled the skill of physicians. When Paine's Celery Compound is used there is no longer waiting for results. It tones the stomach, improves the appetite, assists digestion, gives sweet sleep, excites the bowels to healthy action, expels all foul humors from the blood and braces the nervous system. Mr. J. B. Butts, Spadina Avenue, Toronto, Ont., says:

"I had a very bad attack of la grippe

ANAESTHETICS.

New Method of Performing Dental and Surgical Operations Without Pain.

(By W. J. Curry, D.D.S.)

What is without doubt the most important discovery in anaesthesia within recent years is known as the Hard method of inhaling nitrous oxide gas. This is the discovery that complete and prolonged anaesthesia can be produced by inhaling gas through the nostrils while air is at the same time being inhaled through the mouth.

T. Jones, a lawyer for Lawyer's, says his compound is in the market for all the patients can secure in British Columbia.
