BIG LAWSUIT.

Case To Be Heard at Revelstoke.

Mrs. E. J. Duchesnay Sues C. P. R. For $25,000 Damages.

Twenty-five thousand dollars is the amount of compensation which is being claimed through the supreme court, by Mrs. C. E. J. Duchesnay, wife of the late Mr. Duchesnay, from the C. P. R. Company. It will be remembered that on September 4 of last year, the late C. E. J. Duchesnay was killed at the approach to a tunnel some distance up the line, by a stone falling on his head. It is claimed that his death was due to negligence on the part of the railway company's employees, and on this ground an action has been entered for damages to the above amount.

The statement of claim issued by H. J. Senkler, of Messrs. Wilson, Senkler & Bloomfield, on behalf of the plaintiff, points out that the deceased was at the time assistant general superintendent of the division of the company's line from Kamloops to Laggan, and at the time of the accident was not at his regular service, but was bound to Vancouver. He was requested by H. J. Cambie, engineer of the C. P. R., to look at the works at the tunnel and to give advice and assistance for the benefit of the defendant company. It was while doing this that a stone, claimed to be negligently placed, fell, causing his death.

The sum of $25,000 is sued for under the Families' Compensation Act, and as an alternative damages as compensation under the Employers' Liability Act. The plaintiff proposes that the case be tried at Revelstoke. Messrs. Davis, Marshall and MacNeill are the solicitors for the C. P. R.—World.

ILLECILLIWAET.

From our own Correspondent.

Swan Anderson is at Revelstoke on a business trip.

Miss Hobbs has accepted the school at Hope Station.

Weather is beautiful, nights are cold, but days are simply perfect.

Miss Hattie Brown, of Albert Canyon, was in town a few days ago renewing acquaintances.

The farms around are gathering in the crops fast as possible and report very fair returns.

Nothing has been done yet towards having the skating rink fixed up, but we hope it will not be neglected.

Miss A. W. Griffiths has returned from the normal and taken charge of the school here as per arrangements made beginning of school year.

The town has been pretty lively of late owing to the presence of three extra gangs. The C. P. R. are having a great deal of work done in this vicinity.

Mr. Moore, who was general manager of this last year, is not here at present, but is expected to return shortly when everything will move in the old time business state.

Winter is fast approaching. The long cold nights remind us that summer is gone, and that we must propose some way of passing the winter months. Arrangements are being made for the organization of a quadrille club, which we hope will be successful.

THE MINES.

J. D. Scott, secretary to the Prince Mining and Development company's property, paid a visit to the mine last week, returning Wednesday. He reports No. 4 tunnel in 165 feet and that excellent progress is being made. Foreman Wilcox returned with him.

J. W. Sibbald left on Sunday for McCullough creek to start men at work repairing the flume and to get ready for work.

Raymond Allen has completed the ditch to bring in water from Camp creek to the workings on the old Channel. Raymond is well pleased with the prospects of this property in which F. B. Wells, J. I. Woodrow, Dr. Carruthers and J. D. Molson are interested with him. He has worked hard on it and none better deserve success.

We hear on reliable authority most encouraging reports from the deep workings on the Blue Jay on Smith creek. Verily the Big Bend is coming to the front again.

We have not advanced the price of our tobacco. Amber smoking tobacco, Bobs, Currency and Fair Play chewing tobaccos are the same size and price to the Consumer as formerly. We have also extended the time for the redemption of Snowshoe tags to January 1st, 1904.

THE EMPIRE TOBACCO Co. LIMITED

SOCIALISTIC CONVENTION.

Revolutionary Platform Adopted.

J. W. Bennett returned on Monday from attending the Socialist convention at Vancouver. He reports the meeting harmonious, both moderate and revolutionary sections of the party being represented It was resolved that in the election of parliamentary representatives the party should be guided by the principle as to how far the proposals of candidates would benefit the laboring classes, with a view to supporting such proposals, and to work against any other line of political conduct.

In political matters it was decided to adopt the motto "no fusion, no compromise."

Delegates will report back to their locals and hold another meeting.

THE SCHOOL BUILDING

Government Satisfied With the Work.

The government are evidently quite satisfied with the specifications for the city schools, as prepared by Architect Henderson, and also with the way in which the work has been carried out by Smith Bros., contractors, as they have intimated to the school trustees they will take no further action in the matter. Provincial Engineer Gamble, who examined the work, informs us that in his opinion the building is substantial in every way.

EVA MINE.

Denial of Damaging Reports.

A 20 Stamp Mill to be Installed.

In consequence of reports in circulation at Camborne and vicinity as to trouble over the deal for the Eva mine, we communicated with the head officials of the company and are able to publish the following authoritative statement:

"Replying to your favor of the 6th inst., we beg to state that the Eva group of gold mines, owned by the Imperial Development Syndicate, was recently bonded to A. F. Rosenberger, representing the Mines Exchange. A company has been organized known as the Calumet and British Columbia Gold Mines, Limited, to acquire and handle the property. The organization of the company has been completed, and the Eva group has been re-bonded by Mr. Rosenberger to the Calumet and British Columbia Gold Mines, Limited.

That the property was bought by one company to be transferred to another is untrue and without foundation, reports to the contrary notwithstanding.

It is the intention of the new company to commence work at once and erect a 20 stamp mill early next spring. The machinery for the mill will be taken in during the winter."

BIG LUMBER DEAL

Philadelphia Capitalists Acquire 600,000,000 Feet of Timber.

The Philadelphia capitalists who are interested in the Blue Jay mine on Smith Creek have a big deal on hand.

L. Kinman has, on their instructions, located twenty square miles of timber at Trout Lake, the limits being estimated to contain 600,000,000 feet. A big sawmill will be built at Trout Lake and one of the biggest lumbering concerns in the province established there. W. Cowan will probably have the management of the enterprise.

CANOE RIVER TRAIL

Work Being Pushed Along at a Rapid Rate.

News comes from the Big Bend that W. Fleming is pushing the Canoe river trail with remarkable success, building over a mile a day. Camp is moved as the work proceeds every other day. Ed Adair is blazing the trail line ahead. About 30 men are engaged on the work.

FISH CREEK.

A $90,000 Deal—New Sawmill Started.

From our own Correspondent.

The Hotel Lardeau has changed hands, M. McCollom having taken it over from J. A. Cameron, who has gone to Colorado for his health.

The Ophir Lade Syndicate, owners of the Oyster and Criterion, are still steadily developing the properties which are turning out richer than ever.

Mr. Gamble, the government engineer, was here inspecting the old Fish River bridge between Lardeau and Beaton with a view of having it repaired.

There is every indication of the Eva opening up in good shape in the course of a few days. The new Company will no doubt put on a large force of men as soon as possible.

The sawmill at Camborne, being built by the Fred Robinson Lumber Company, started to saw lumber last Saturday, and now expects to be able to furnish all the lumber required for building purposes.

A dance was given by M. McCollom at the Lardeau Hotel, on the evening of the 7th and was a most enjoyable affair. It was well attended and dancing was kept up until the early hours of the morning.

It is reported the owners of the Lucky Jack group, on Lexington Mountain, have given an option on their property for $90,000 with every indication of it being taken up. This will add another good property to the roll of those working on the famous gold belt.

The North Western Development Syndicate have their sawmill at work and are busy getting out lumber for several houses, and hotel for their own use. They are also installing the aerial tram, the cables for which are being hauled up to the mine by J. A. Magee's teams.

The Kootenay Mail

FRIDAY, OCTOBER 10, 1902.

Canada continues to flourish under liberal rule. For the year ending June 30th there was a surplus of over $7,000,000.

The government are doing good work in improving the roads in Fire Valley, the most valuable agricultural district of West Kootenay. Considerable work was done in the spring and these improvements are to be extended this fall.

Times of crises do much to educate people in the direction of government and civic control. Owing to the fuel famine in the east Ottawa and other cities propose to acquire a large fuel supply for the benefit of their citizens during the coming winter.

The tide of immigration from the States will not be confined to the Northwest Territories, but is spreading west to British Columbia. Last week a large party of immigrants arrived at the boundary from Great Falls, Mont., with the intention of settling at Salmon Arm.

Hon. A. J. Balfour's education bill, which is creating so much diversity of opinion in Britain, would appear to be a retrograde movement, in that it substitutes denominationalism for a national system of education. The church of England will be the great beneficiary under the bill, but the Roman Catholics will receive £200,000 from local taxation if the bill be passed without amendment.

We stand for the removal of all customs duties from machinery and requisites for mining. This policy will do for the mining industry what nothing else can do. The Granby mines use 30 tons of powder a month, and the Le Roi 20 tons a month. The tariff on powder is three cents a pound, which for these two mines totals $30,000 per annum for duty alone. The same applies to fuse, candles, steel, etc. It is the customs tariff and not the small provincial tax, which cuts the throat of the mineral industry. Off with the duties.

THE MINERAL INDUSTRY.

The Rossland Miner talks buncombe when it says:

"We can expect no relief from the Dunsmuir government. It is wedded and belongs body and soul to the island city."

While the cabinet is composed of a majority of island members the interests of the mainland have been well looked after by Hon. J. D. Prentice and Hon. W. C. Wells, and Kootenay has no kick coming on that score. Then our contemporary howls about throttling the mining industry, when the fact is no government could do more to encourage mining industry and development of the country than the Dunsmuir government does with the means at its disposal. The desire of the government to ascertain any causes of dissatisfaction and to bring about any remedy within its power was well exemplified by the extensive tour of Hon. Col. Prior, Minister of Mines, through the mining districts. The fact is some of the Rossland mine managers attempt to throw on to the Dunsmuir government the blame attaching to their own incompetence. As a matter of fact the remedies which are mainly sought for by these same managers are removal of tariff on machinery and mining supplies, or an increased tariff on lead and lead products. These are matters solely within the jurisdiction of the dominion, and with which the provincial government has nothing to do. The Miner evidently does not know anything of fairness and justice in dealing with public questions.

THE ANTHRACITE SITUATION

The Anthracite coal position in the States is the most disgraceful affair in the history of the relations between capital and labor that has occurred for years. The men have shown a fair and manly spirit in offering to leave the settlement of their grievances to a fair and independent tribunal. The mine owners have shown themselves a set of blackguards who will be satisfied with nothing less than the serfdom of their workmen. This affair has caused, and is causing suffering to millions of innocent people and is one of the most powerful arguments ever heard of against the power of the American trust. It will lead to a vigorous crusade for the nationalisation of the coal mines in the States, and for state ownership of monopolies.

Hon. J. D. Prentice, Provincial Treasurer, is on the right track to encourage settlement and the promotion of the agricultural and fruit growing interests of the province. Speaking at Kamloops, Hon. Mr. Prentice expressed himself in favor of the Government acquiring large tracts of arable land from private owners, and dividing it into small holdings so as to attract settlers. This scheme was adopted in the Australian Colonies with great success, and there is no reason why it should not work well in this province.

A fast Atlantic service is one of the most important features in the development of Canada, and is now about to be achieved. The British government has awarded the contract to the Cunard Company with a subsidy of $750,000 a year for 20 years. The new Cunard boats will be capable of steaming 25 knots an hour, and this will mean that Great Britain will wrest from Germany the laurels for speed and supremacy on the Atlantic.

A SNAP TO THE RIGHT PARTY

Owing to a change in business and our inability to properly attend to it, we will lease to any industrious person the Aylwin market garden, Union bay, for a short or long term, at an extremely low rental. The gardens embrace five acres, and are planted with 300 fruit trees—plums, cherries and apples—200 will be bearing next year; 300 currant bushes, 200 blackberry bushes; 100 gooseberry bushes, 200 rhubarb roots and 10,000 strawberry plants. All yielding good crops. Ample ground for garden truck under the hoe. No chinese gardens to compete with. This is a rare opportunity. For terms, etc., apply to

A BRIGHT PROSPECT.

American Capital Coming Into British Columbia.

A. F. Rosenberger who has returned to Nelson from his eastern trip stated to the News that while away from Nelson he had visited Chicago, St. Paul, Duluth, Hancock and Calumet, in connection with the flotation of the Calumet and British Columbia Gold Mines, Limited, which had been most successfully accomplished. Mr. Rosenberger stated there was no difficulty in interesting eastern capital in legitimate mining in British Columbia. In fact that it was far easier to obtain money for British Columbia than for investment in the states. The new company had been organized in the middle of a mining community at Calumet, who were enthusiastic as to its prospects. In connection with it, on the twentieth of the present month an excursion party of business men from the cities mentioned will leave for Nelson, from here to inspect the mines of the district. They have chartered two cars for the journey, and their visit will be one of the best advertisements the district has received. There was a stronger demand than ever for developed properties in the east, and the Eva, which has been taken over by his company suited the business men of the cities he had visited exactly. The party who are coming will be composed of directors, shareholders and underwriters of the Calumet and B. C. and directors of the Northwestern Development syndicate.

HERALD LIES REFUTED.

Editor KOOTENAY MAIL.

SIR:—The Herald is again on the coon hunt, and has probably discovered another mare's nest, with the long lost sea serpent in it. Five dollars a day on the drill hall (so it says) and $3.50 per day and expenses on river work, running concurrently! This large sum (per day) salted down by a political opponent who does not wear the party badge of our friends the peanuters. No wonder the Herald weeps tears of anguish and howls with rage at the awful sight. Ye gods! what a spectacle! Eight dollars and fifty cents per day would feed a lot of peanutters.

And now, Herald, I am waiting for you to substantiate the charges you made—that I had promised three gentlemen in this riding the position of gold commissioner during the election of 1898, or an apology. Produce the proof or have the moral courage to retract them. Or will you crawl into your den like a whipped cur and spring some other cock-and-bull story? It is up to you, Herald, to do one thing or the other.

And now, Herald, why does your jaws hanker so strongly for that job on the drill hall? Is the soup so thin in the Herald's sanctum that your eyes covet your neighbor's loaf of bread. To ease your mind I may say I am not getting $5 per day on the drill hall. I am not under salary on river work. The two jobs do not run concurrently. Gus Hedstrom is getting $3.50 per day, and not I.

Will you retract your statements, or will you turn tail, and take to the woods? You seem to have a wonderful imagination—one with a blossom that never matures into fruit. Take a friend's advice. Poultice your head (if you have one) and draw the inflamation out of your imagination.

Not one word of qualification has the Herald uttered over McLaughlin's appointment. It roareth like a lion when one protests, but when the lion's skin is taken off the Herald there is nothing left but a vacuum. In conclusion British Columbia politics have got to a low ebb, indeed, when civil servants have no protection from the rapacious maws of ward politicians. The parties responsible for cutting off Armstrong's official head, and forcing him out of his position, have nothing to their credit but shame. That act was a cold-blooded political action that merits the condemnation of every lover of fair play. There are few men in this wild and wooly west who would have accepted office under such conditions.

Yours respectfully,
J. M. KELLIE.

BABY'S FIRST TOOTH.

A Family Event That Does Not Always Bring Unmixed Joy.

Baby's first tooth does not come unannounced. Inflamed gums and impaired digestion produce a feverish and fretful condition about which the mother often feels concern. The baby boy of Mrs. George McGregor, of Hamilton, Ont., was troubled with diarrhoea while teething and was cross and restless. He did not sleep well and matters became serious. The mother writes as follows:—"My sister had used Baby's Own Tablets for her baby and advised me to try them. I got a box and after giving the Tablets to the baby a few times he began to improve and was soon well. He is now a big, healthy baby and whenever he gets fretful or does not feel well I give him a Tablet and he is soon all right again."

Baby's Own Tablets replace with great advantage castor oil and other nauseous, griping drugs. They sweeten the stomach, quiet the nerves and promote healthful sleep. They are guaranteed to contain no opiate and to be absolutely harmless. If your druggist does not keep them you can obtain a full-size box by mail, post paid by sending 25 cents to the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

[ESTABLISHED 1811]

WE wish to open accounts with all bona fide Colonial buyers who are not already on our books, and on receiving precise details of their exact requirements, we shall be pleased to forward quotations for any European or American goods. Our reference books contain several million names, and our extensive connection enables us to make special terms with the most suitable wholesale manufacturers of each class of goods, so that even after adding our shipping commission of 1½ to 5 per cent (according to amount) our prices still compare favorably with those of the manufacturers.

We supply goods made specially to any style, quality or price; and on receipt of indent, with full and clear instructions, and remittance of cash, or produce to cover, our knowledge of the trade enables us to place the order at once in the best hands, and the goods are promptly forwarded.

We make up sample cases of most goods from £5 upwards; and, as we utilise our long experience in choosing such goods as are most likely to suit the market for which they are intended, we confidently recommend buyers to order these sample cases, for by doing so they will obtain the latest and most taking novelties.

Consignments of produce receive careful attention and we give advances to any extent.

Prompt and painstaking attention to the interests of correspondents, together with exceedingly moderate charges, and plain and straight forward dealings, have enabled us to maintain for the greater part of a century, a reputation which we value too much to allow it to be tarnished by the unsatisfactory execution of a single transaction. RIPANS

For twenty years I had been a sufferer from bronchial troubles accompanied with a hacking cough. Last times suffered from extreme nervous prostration. About four years ago I began taking Ripans Tabules, and since then I have used them pretty constantly. I rarely retire at night without taking my Tabule and I find they keep my digestive organs (which naturally are weak) in good order, and they also allay my tendency to nervousness and make me sleep.

AT DRUGGISTS.

The five-cent packet is enough for an ordinary occasion. The family bottle, sixty cents, contains a supply for a year.

NAKUSP MURDER.

Henry Rose's Statement.

PRISONER SENTENCED TO DEATH

The Nakusp murder case was opened at Nelson on Friday and continued on Monday. The evidence for the prosecution was the same as was given at the preliminary hearing at Revelstoke and fully reported in the MAIL. Of the case the Nelson News says:

TWO POSITIVE WITNESSES.

"There were a couple of the witnesses who owe something to the consideration of the court. Not that it was not coming to them, but with other judges on the bench they would still have it coming. One of these was Walter Scott, the mining recorder at Nakusp. He is a Scotchman and as peppery as they make them. He knew just what he had to say and how he was going to say it, and any attempt to give his testimony a turn which he did not propose it should have was resented in the warmest kind of a way. When he has a chance he is able to take care of himself, and he had a chance yesterday.

The other witness was Dr. Cross, of Revelstoke, who is also corner, and who in the discharge of his duty as coroner gave the case considerable attention. He had a theory as to how the crime charged was committed, and he would not let anything interfere with it."

THE PRINCIPAL WITNESS

was Nels Demars.

NEW WITNESSES

were Leo Simmons, who described the condition of Demars, when found, and also the scene of the crime, of which he had taken photos.

Mr. Simmons went on to say that the body of Cole was fully dressed, and his hat lay on his stomach, as if it had been placed there. He asked Rose on the finding of the body how he thought it happened. Rose told him: "I left them here, and was rowing down the lake, and when about a quarter of a mile out I heard cries of murder." I came back as fast as I could and found Cole dead and Demars badly knocked up. I said to him 'For God's sake, what's happened, Nels?' He said, 'Two men came out of the bush and beat us with clubs.' Simmons went on to say that he pointed to Cole, and remarked "That man has been choked, but Rose said "No, I don't think so."

NOT A WHISKEY EXPERT.

Walter Scott, in giving evidence, was asked by prisoner's counsel whether the bottles found contained Scotch whiskey or rye, and he pointed off his interrogation with the observation that he would presume that the witness was not a strict temperance man. Mr. Scott above all things declined to pose as a whiskey expert. If the lawyer wanted to find out what was in the bottles he could take a drink out of them and not bother him, or if he wanted an expert on whiskey he could call in an hotel-keeper.

NEW LIGHT ON THE CASE.

C. H. Mann had been on a trapping expedition in January around Mosquito lake, with Rose. He told of a quarrel between Rose and Demars in the course of which Rose struck Demars a couple of times with his open hand. While on the trapping trip Mann said Rose spoke of Cole and

THREATENED TO FIX HIM

before the year was out. The trouble between Rose and Cole was that Rose thought Cole had helped Demars to spend money that was coming to him out of a telegraph pole contract in which they were interested. Rose spoke frequently of the telegraph pole money.

DR. CROSS

was positive it was impossible for Demars to have inflicted the injuries upon Cole after he had received his own injuries, and equally impossible for Cole to have inflicted the injuries to Demars after he had received the blows indicated on his body. In Cole's case he thought death ensued shortly after he was struck.

The doctor suggested that one bruise upon the top of the head had been caused by a kick. The lawyer suggested the wound had been caused by Demars falling. This was indignantly repudiated by the doctor, who said he could not conceive how a man could stand on the ground and fall on his head.

Being asked if he ever heard of a man falling on his head, the doctor made matters slightly worse for the lawyer by retorting that a man might fall on his head if he fell off a house.

PRISONER'S STATEMENT.

In the box Rose was the most collected witness examined in the case. He gave his age as 64. He went to Nakusp to live two years ago. First worked for Genelle, and later took up a ranch. Met Cole a year ago in Nakusp, and had known Demars about the same time. Had mined and trapped with Demars and trapped with Mann. On the day before the affair Rose hailed him from the steamer to go to Nakusp. He went, and described how Demars, Cole and he had been drinking there. Demars, Cole and himself had dinner at the Leland, and in the course of it he agreed to give Cole some plants from his ranch, Cole to go back with him for them. The three of them went to the wharf, when he put the whiskey in the boat.

About 100 yards out Demars and Cole commenced

"CHEWING THE RAG,"

Heard Demars call Cole the meanest man on the lake, never saw him with a cent. Rose told them to pass the bottle, and all hands had a drink, but Demars kept on "chewing the rag." Demars said he would go ashore. Rose tried to get him to remain in the boat, as the water was getting calm, and it would not take long to reach the ranch.

RAN THE BOAT ASHORE

and jumped out. Cole followed and Demars got out last. Demars walked straight to the bushes, and Cole's dog followed him. Cole said he would remain with Demars if Rose would come back that night with the stuff from the ranch. Rose got into boat and was paddling away when Cole called out to him to know if he was not going to leave them any whiskey, but Rose replied they had enough. When out 100 yards Rose set out his trolling line. After he had his line well stretched he heard a yell. Was then quarter of a mile from shore. Steadied himself and heard a dog bark. Kept paddling on until he

HEARD A SCREAM.

Then drew in his line and started paddling for shore as quickly as possible. Made the second landing about 300 or 400 feet below where he landed the boat. Started on a run through the bushes in the direction of the place. The first man he saw was Demars, standing up with his hands to his face. Cole was stretched out on his back. Rose said to Demars: "Did you kill Cole?" Demars said: "Two men came from the woods with a club." Rose said: "I do not see any here." Rose told Demars to get into boat and go back to Nakusp. Demars replied: "For God's sake, Rose, build a fire and stay here until to-morrow." Rose

BUILT A FIRE

for Demars.

Body of Cole was five or six feet away from the fire. There was a lot of blood on the face of Demars. Looked as if he had been cut with a knife. Rose took hold of Cole's right wrist to see whether he was dead or not. Cole's hat was about where Rose built the fire and he threw it between Cole's body and Demars.

Rose then told of his return to Nakusp and the visit to scene of murder. Never had any trouble with Cole and was on terms of friendship with Demars.

THE CROSS-EXAMINATION

of prisoner was very severe. He was first taken to task for that part of his story respecting the hailing of himself by Demars from the steamer, when he was from three quarters of a mile to a mile distant, but heard what Demars said to him. Counsel for the crown also laid great stress upon the manner in which Rose had beached his boat upon the first occasion, and the trouble he had gone to in hauling it out, as showing that he intended staying with Cole and Demars at the time. Also the suggestion that Rose should leave the two men on the beach with nothing to eat and go fishing in rough water.

Rose denied he had said he heard the

CRY OF "MURDER,"

or "they are killing me." The depositions of the witnesses taken at the inquest were then read, in which both these statements occurred, but Rose denied having made the statements attributed to him, or at least did not remember having made them.

Rose was asked how he knew Cole was dead when he saw the body on the ground. His reply was that he saw the blood on Demars' face and he saw no move in Cole's body.

A NASTY JAR.

Counsel for the crown reminded prisoner that Matthew Whitlock was not dead when he lay unconscious at Nakusp after he had been choked by Rose. Prisoner winced a little.

DR. CARRUTHERS

gave evidence similar to that given at the inquest. The doctor gave his opinion it would be impossible for Demars to receive a blow like that which took away his eye without being knocked out, and that after receiving it he must have been unconscious for some time. He would be inclined to put the period of time that he would be unconscious in hours rather than minutes.

J. A. Macdonald—"Could a man running from the direction of Cole's body, and jumping from that log (pointing to the picture), if he struck against a sharp stick, receive injuries similar to Demars'?"

Dr. Carruthers—"Yes, as far as the eye is concerned."

THE DEFENCE.

W. J. Kane gave evidence that Demars had taken four or five drinks before leaving Nakusp, and J. E. Christie repeated Rose's story when he came to Nakusp. At Nakusp it was suggested it would be too dark to find Demars, but Rose said he was in such shape that he would be dead before morning unless rescued. The party composed of Christie, Simmons, Bourne, Scott and Rose then started. When they reached the place, Christie said he and Simmons went to pick Demars up. Demars said "Christie, you old ——, leave me alone." Then "—— you Watt, leave me alone." Witness explained that Watt was foreman of government work on which Demars had been employed. Demars then asked if they had any blankets, and also wanted a fire.

THE CLOSE.

On Monday Capt. Kane and Christie were recalled for the defence to say that Demars admitted what Rose said was correct, but the manner in which they gave this evidence was severely censured by the bench.

Prisoner was severely examined by the Chief Justice and admitted he did not expect the jury to believe that Demars killed Cole.

Chief Justice—You think if you did this you should be punished? Prisoner—Ought to be punished, yes. Strung up.

Frank Bourne gave evidence that Rose was sober on his return to Nakusp.

THE VERDICT.

The jury arrived at a verdict of guilty.

When asked if he had anything to say, the prisoner replied that he had nothing further to say than that he was not guilty.

The chief justice then passed the sentence of the court upon him which was that he be hanged on the 21st day of November.

INDUSTRIAL NOTES.

J. Reilly of the Ottertail Sawmill, is building a sash and door factory at Kault.

THE MINES.

Thee Old Gold has shipped 15 tons of ore to Trail smelter.

Montreal capitalists will develop an amber discovery in B. C.

The Le Roi mine is now earning $100,000 to $150,000 a month.

The Le Roi mine is shipping fifty dollar ore to the Northport smelter.

J. McDowell, the railway contractor, is removing a steam shovel to mine on Perry Creek.

It is reported that M. S. Davys has struck a bonanza in the Silver King mine at Nelson.

A syndicate has been formed at Vancouver to develop the oil fields of south-east Kootenay.

A rich deposit of cinnabar is reported to have been struck in surveying the Nanaimo-Alberni railway.

The Laborers Co-operative Association expect to blow in their smelter at Golden on New Years Day.

The Providence mine in Boundary is earning a great reputation. The last shipment of 15 tons realized $1800 net.

The prospects of the Ashnola Coal Co. are good, two seams of six and four feet respectively having been struck by boring.

The Stemwinder and associated mines have been sold to an English Company for $800,000. The mill will be increased to 60 stamps.

Mr. Nichols says of the Knob Hill and Ironsides:—"They are the largest ore bodies I ever inspected and I have had occasion to visit a great many mines."

Judge Miller says there is a disposition in the district to believe that the Vulcan smelter at Ferguson will not successfully treat silver-lead ores in its present shape.

The property known as the Bennison on the headwaters of the Duncan and Spillimacheene rivers, and which is best reached from Golden is being sold to an English syndicate.

We shall be glad if owners of mining properties will send us samples of ores to be added to the British Columbia collection in the office of the Commissioner of Immigration at Winnipeg.

G. P. Wells and partners have received an offer of $5000 cash and half stock in an English Company formed to work their properties on Ice river but had previously bonded the property to a Chicago company.

A mammoth lead combine has been formed with a capital of sixty million dollars. All the leading lead concerns in the states are interested in the new deal. This ought to improve the prospects of the silver-lead industry.

Huntilite has been found on the Silver Glance claim on Carpenter Creek, Slocan. It is a black, powdery ore, half silver and the only other place where it has been found in Canada is at Silver Islet, Lake Superior.

H. N. Coursier, who returned from the south a few days ago, reports great activity at Camborne. J. Lade showed him magnificent specimens of free gold ore obtained from Oyster-Criterion, now being developed by the Ophir Lade Company.

Judge Miller says—"The Lardeau country has made greater advances this year than in any two previous years of its history. The Canadian Pacific railroad has done twice or thrice the business it expected to do when the line was under construction which is an excellent indication of the country's advance."

G. S. Flindt, who is interested in several mining projects in this district, endeavored when in England to enlist capital for the development of the mineral resources of the district, but found that owing to the Le Roi and other financial disasters in this Province English investors will not look at British Columbia.

W. H. Nichols, president of the Nichols Chemical Co., New York says of his visit to B.C.: "The trip has proved a revelation. British Columbia is so new that my first big surprise was in regard to the wonderful way the very latest mining inventions are being applied to local needs and conditions, and it is also remarkable that one should come so far west to see the art of smelting so far advanced. The Granby smelter is away ahead of most of the smelters I have seen as regards the prime attributes of economy and management.

On Wednesday a meeting in connection with the Oriental Degree was held and six new members joined.

The C. P. R. having decided to do away with the big hill at Field, engineers will be put on to lay out a new grade between Field and Laggan. The new route will be by way of the north fork of the Kicking horse, which gives ample room for obtaining a good grade. The deviation will be a costly piece of work as it is largely rock cutting, but it will effect immense economy of traffic as compared with the present cost of operating on the big hill.

GRAZING REGULATIONS

For Manitoba, the Northwest Territories and the Railway Belt in British Columbia.

Leases for grazing purposes are issued for a term of twenty-one years, and the rental is at the rate of two cents an acre per annum, payable half-yearly in advance.

Lands included in a grazing lease may be withdrawn for homestead entry, sale or railway purposes, but no rental is charged on such lands from the date upon which they are withdrawn from the lease.

A lessee of grazing lands is not entitled to the hay thereon, but he may, upon application to the agent of Dominion Lands, obtain each year the first permit to cut on his leasehold whatever quantity of hay he may require for his own use, free of dues, the department reserving the right to issue permits to other applicants.

Applications for grazing leases should be made to the Secretary, Department of the Interior, Ottawa.
