COAST-KOOTENAY RAILWAY

No Longer a Matter or Doubt or Supposition, Says the Province.

The Victoria, Vancouver and Eastern Railway and Navigation company was Wednesday formally organized. The question of the building of a coast to Kootenay line is no longer a matter of doubt or supposition. It is now a plain everyday fact that the road will be built. Up to the present time all the work that has been done along the line of perfecting arrangements for this road has been under the old syndicate agreement, but with the organization now completed work will begin in earnest and with as little delay as possible. The new company is so far practically a local concern as it is in the hands of Vancouver, Victoria and New Westminster capitalists, with Alexander Ewing, New Westminster, W. L. Nico, Vancouver, and J. T. Bethune, of White Horse, as the first board of directors.

The new company will operate under both dominion and provincial charters and is the only concern with power to run to the international boundary line. It is in connection with the provincial subsidy that the only hitch occurs in the way of beginning active work at once. The government, however, stands pledged to reinstate the subsidy of $4,000 per mile for 330 miles which was removed some time ago, and it is with the definite understanding that this will be done that the organization was to-day completed.

It is the desire of all interested in the new company to have it thoroughly understood that the building of the road is in no sense of the word a political question, but a business proposition pure and simple. The country to be opened up is one of the richest in British Columbia, and the benefits to be derived from the building of such a line is so far reaching as to be almost beyond calculation.

As soon as the provincial house opens it is understood that the pledges regarding the restoration of the subsidy will be fulfilled and the actual construction will be begin immediately thereafter. All financial difficulties have been put out of the question entirely by the arrangement of to-day, and by early spring time the grader's pick will be busy solving the remainder of the problem.—Province.

The Good Roads Association.

The annual meeting of the Association was held in Victoria on Tuesday 18th, Mr. F. J. Deane, president, in the chair. There was a large attendance of delegates, including the Hon. Mr. McBride, Mr. J. R. Anderson, Deputy Minister of Agriculture; Messrs. Gilmour, Munro and Kidd, M.P.P.'s, Col. Tracey and Colonel Warren, of Vancouver; Mr. H. Cuthbert, of Victoria, Reeve Ladner, of the Delta, and many other representative men.

A resolution favoring the establishment of County Councils for main road management and other purposes was rejected as premature, and an amendment carried urging the Government to divide areas of the Province, outside municipalities, into Road Districts, administered by elected Commissioners, to aid the Government in supplying estimates of road work needed and supervising local expenditures.

It was also resolved that the work of establishing district good roads committees be continued, and another resolution was passed urging the Provincial Government to appoint a Provincial Inspector of Highways, part of whose duties should be municipally educational in the matter of road-making.

It was afterwards [illegible] the G[illegible] a M[illegible]

for the coming year; President Deane was re-elected, together with the other executive officers, and the following gentlemen were on ballot chosen directors of the Association; Mr. Donald Graham, Vernon; Mr. Robt. Balfour, Langley; Mr. W. H. Wood, Greenwood; Col. Tracy, Vancouver; Mr. Metcalf, Port Hammond; Ald. Cocking, Nanaimo, and Ald. Gilley, New Westminster.

The general ideas which received assent at the meeting were that road making in extra-municipal districts should be kept out of Provincial party politics and that the work of the Association must for the immediate future be mainly educational.

Recruits Wanted for South Africa.

Lord Minto has received a cable from Mr. Chamberlain, asking for 1,000 recruits for General Baden-Powell's Transvaal Police Force, in Canada, at five shillings per day. If this number can be recruited in the Dominion, then ten captaincies and fifteen lieutenancies in the Imperial Army will go to the Dominion Militia.

The Militia Department will shortly cause notices to be posted up throughout the country calling for recruits for General Baden-Powell's Transvaal Constabulary Force. The pay for the men will be five shillings per day from the date of landing at Cape Town, with free transportation to Africa.

A London cable says: "Lord Kitchener has evidently made earnest appeals to the British Government to despatch immediately large drafts of Mounted Infantry to hasten the end of the guerilla warfare. Some say he has asked for 40,000 men.

"New Zealand is sending another contingent and Anglo-Canadians are wondering whether, as Canada has no national force in South Africa now, the Strathconas being the result of private munificence, Canadians may not wish to send a second corps of five hundred mounted men from the North West to be raised and equipped by the Canadian Government."

DESTRUCTIVE FIRE

Visits Calgary Christmas Morning.—Loss $100,000.

Calgary was visited by a very destructive fire early Tuesday morning, several of the finest business blocks of the town falling a prey to the flames. The blaze broke out about 2 a. m., in the basement of the Clarence Block, and the three-storey stone building was soon gutted. Then the fire spread to the Eau Claire Company's Block, and the Norman Block adjoining. Both buildings were badly damaged. The chief sufferers by the fire are the Calgary Clothing Company, Glanville & Robertson, general dry goods, and Senator Lougheed, the latter owning both the Clarence and Norman blocks. The senator lost all of his valuable law library and papers. Among other losers are the Alberta Music Company, pianos and organs; Watts & Company, cigars; Calgary Wine & Spirit Company; G. H. Mitchell, groceries and chinaware; Crispin E Smith, and H. W. H. Knott, law offices; Dr. Sullivan, dentist, Messrs. Dodd, Evans and other tenants. The Norman block was just completed last week, and was a handsome stone structure. The total loss is about $100,000. Most of the losses are insured.

Revelstoke Good Roads Association.

A meeting of those interested in the formation of a Good Roads Association for Revelstoke was held on Thursday, Dec. 20th. There were present Messrs. Adair, Kilpatrick, A. N. Smith, Grogan, Fraser, Gordon and Bennison. Ed. Adair was appointed chairman and Fred Fraser secretary of the meeting.

The chairman spoke at some length upon the objects of the Good Roads Association, of the good done in different parts of Canada and pointed out the advisability of naming a good sized committee to work with the officers (when elected) of this Association.

It was then moved and carried that this meeting form itself into a branch of the Provincial Good Roads Association, to be known as the "Revelstoke Good Roads Association."

Moved and carried that the following gentlemen be invited to meet in the city hall, Wednesday, January 2nd 1901 at 20 o'clock, to co-operate with the city council and members now present, to elect officers, draft by-laws and transact such other business deemed necessary for the good of the Association thus formed. The following gentlemen were named and the secretary instructed to notify them:

T. W. Bain, H. J. Bourne, W. M. Brown, L. H. Buck, B. R. Campbell, W. Cowan, H. Donnelly, T. Downs, N. T. Edwards, T. J. Graham, G. E. Grogan, C. Holten, T. E. Horne, A. Johnson, J. M. Kellie, G. B. Nagle, John Robinson, R. Tapping, T. E. L. Taylor, Revelstoke; J. McCallum, W. E. McLaughlin, Laforme Creek; F. McCarty, Smith Creek; C. B. Hume, Goldstream; J. D. Boyd, A. W. McIntosh, Keystone; C. B. Rumens, Standard Basin; J. T. Brewster, E. McBean, Carnes Creek; D. Woolsey, J. P. Kennedy, Illecillewaet; O. Sandberg, Albert Canyon; E. Adair, Greely Creek; S. Crowle, Revelstoke Farms; J. J. Foley, Arrowhead; W. Ogilvie, Isaac Creek; D. Hall, Hall's Landing.

The meeting then adjourned.

Comaplix Clippings.

On Thursday night the 20th inst. a very enjoyable party was given by the school children of Comaplix which reflects great credit on them, and on [illegible] music was very good and was supplied by those two able virtuosos Messrs. Diamond and Cameron. After the performance, Santa Claus came on the scene, and distributed the toys, etc., with which the Christmas Tree was laden, to the delighted children. The wonderful get up of Santa Claus, with his sage remarks, in a rich Irish Brogue, convulsed the audience.

During the dance which followed, it was discovered that the house of J. H. Young, the Engineer of the S. S. Lardeau, was on fire. There was a general rush, but unfortunately too late, as the house had evidently been on fire for a considerable time, and was completely enveloped in flame. The men worked hard, but not a stick was saved and it was with great difficulty the adjoining house was kept from burning. Mr. and Mrs. Young have the entire sympathy of the community. The origin of the fire is unknown.

Albert Canyon.

At the Springs Hotel on Thursday evening the departing school teacher Miss A. W. Griffiths was the recipient of a complimentary dinner and presentation from the residents of this place. An elaborate menu prepared under Mrs. Carlson's able supervision having been discussed, Mr. B. Green, on behalf of the residents, presented Miss Griffiths with a gold watch and chain, expressing in a few well chosen words the high esteem in which Miss Griffiths was held and the universal regret at her departure. Wishing her every success the company adjourned to the hall where dancing was kept up to a late hour.

Arrowhead School Closing Examinations

The pupils at Arrowhead public school held their closing examinations last Friday when the pupils took advantage of the opportunity of presenting their teacher Miss McNaughton with an address and a handsome toilet case. Mr. Thomas McNaught, J. P., Halcyon Hot Springs presided. The presentation was made in a neat and appropriate address by Mr. Paul McCreary one of the pupils. There was a large attendance of parents and friends The pupils acquitted themselves with great credit. Recitations and songs were given and each pupil was presented with a handsome Christmas card by their teacher.

The result of examinations for the first place in school and for the medals presented by Mr. Thomas McNaught was also announced, Mr. Malcolm Johnston being first among the boys and Miss Hilda Richards being first among the girls.

Ten Tons a Day.

About 200 sacks of ore a day is being mined at the Nettie L., the greater part of which is sacked in the workings. The new winze in the crosscut from the southeast drift is now down about 55 feet and Foreman Crilly says the lead is getting stronger and richer if anything. The connection between the long tunnel and this winze will be made shortly thus facilitating matters considerably. Some 20 men are on the pay roll at the mine, while others are busily engaged in rawhiding the ore down to the ore house here. The four-horse teams are also making two trips a day to Baty's hotel, while the teams between there and Thomson's Landing are moving the ore as quickly as possible under the bad condition of the [illegible] big hill.—Eagle.

The Municipal Council.

The city council met on Friday evening with Ald. Abrahamson in the chair and Aldermen Gordon, Newman, Kilpatrick and Patrick present.

The minutes of previous meeting were read and adopted.

A communication was received from R. Tapping asking that an inspector of weights and measures be appointed.

R. H. Trueman wrote in regard to photos of Revelstoke and vicinity.

C. P. R. Supt. Duchesnay wrote as follows: Your letter of 20th ult. re reservoir site for city waterworks. The proposed site of the reservoir, being outside of the right of way lands but within the company's property, will have to be arranged through the company's land department with headquarters at Winnipeg. The right of way for the proposed pipes leading out of the proposed reservoir across the company's station ground and yard tracks—I am authorized to say will be granted to your corporation, to be leased for 50 years, renewable for a similar term, only subject to cancellation in case the said lands traversed by this pipe line may be wanted for railway smelting or such purposes and that it would interfere with same. In this case the matter of compensation, unless otherwise arranged, would be settled by arbitration. The lease will also be subject to the usual condition of indemnity to the company in case of damage being caused by the failure of your reservoir or pipe line. I have no doubt the site for the reservoir would be granted on similar terms.

A motion was passed to the effect that the offer of the C. P. R. re land lease is satisfactory to council pending the passing of a by law for purchase of water works.

The council then adjourned.

Public School Closing Exercises.

The closing exercises in the public school were held last Friday morning a larger number of parents being present than on any previous occasion. Marked progress was shown in the advancement made by the classes in the various rooms, reflecting credit on the teachers who for the term just ended have so successfully labored in the school work. At the close of the examinations the scholars were collected in the room of the third division where a programme was rendered together with drills by the children of the fourth and fifth divisions. Several speeches were made by visitors all of which dwelt on the necessity for the establishment of a high school in Revelstoke.

First Payment on Blue Jay.

The owners of the Blue Jay placer claim, Smith creek, received a very welcome Christmas present on the 24th inst. when they received the first payment of their property from E. A. Bradley, representing the new syndicate of Philadelphia and Pittsburg people who have bonded this claim for $15,000. They will commence operations as soon as possible in the spring with a force of men and promise to prosecute development work with vigor next season. The merits of this property are already established and with the capital this syndicate can command they will undoubtedly receive big returns. Adjoining claims being worked on the creek have returned handsome profits to owners during the past season. The second payment on the Blue Jay is due in June.

Atlin Votes Maxwell.

The steamer Victorian arrived at Vancouver Monday morning direct from Skagway, which port she left Wednesday morning, making a fast run down. She brought news of the result of the election in northern Barkard—in fact Mr. A. M. Pound, returning officer for Atlin and Bennett, was a passenger. Mr. Pound was given authority to hold the election so late as the tenth of the month in case he could not get to Atlin before, and it was upon this date that the election was held. The vote was as follows:

Atlin—Maxwell 56; Garden 59.

Surprise—Maxwell 7; Garden 0.

Maxwell's majority at Discovery was 13.

At Bennett Maxwell got 10 and Garden 14.

The total gives Maxwell a majority of 13 in the district, and his total majority will therefore be now somewhere in the neighborhood of 650.—Province.

B. C. Ore for England.

The coming of the overdue British ship Castle Rock, 1787 tons, will have no small amount of interest to local shipping men because she is chartered to load a full cargo of ore for the United Kingdom. While several small shipments of ore, from 50 to 500 tons, have been made in some of the home bound salmon ships, the charter of the Castle Rock marks the initial shipload of British Columbia ore. The news of this charter comes as a surprise to many of those who have never considered anything but grain, lumber or salmon for round-the-Horn business.

Just what effect the chartering of sailing vessels to carry ore will ultimately have on the freight market is uncertain as yet, but if the business swells into the proportions reached by the New Caledonia ore shipment, it will be but a question of time before the ore from British Columbia will have almost as much influence on the grain freight market as the lumber carriers.—Colonist.

The Wages of Teamsters in Revelstoke.

EDITOR KOOTENAY MAIL:

SIR,—In your issue of Dec. 13th last is given the schedule of wages to be paid by contractors on public buildings in Kamloops, the same to be enforced by the Dominion Government. I should like, through your columns, to call the attention of Revelstoke City Council and the Provincial Government to a few items in the schedule and to compare the wages paid in Revelstoke with those in the schedule for Kamloops. Eight hours and one hour for dinner constitute a day's work, which is the same in both places. The schedule of wages for Revelstoke is based on a day of ten hours, while in Kamloops it is based on a day of nine hours, which equals $6\frac{2}{3}$ for a day of ten hours. Here is a difference of $1\frac{2}{3}$ per day in wage in favor of Ka[illegible] is much cheaper t[illegible] This means that a horses are paid fully hours, less here th[illegible] Kamloops pays its [illegible] the same rate that [illegible] him which is $2.50 per day of ten hours. Now a driver has to work at least two hours per day longer than the ordinary laborer and as he should be skillful he should command a higher rate of wage $3.25 per day should not be too much to pay him. This leaves $1.75 to the horse owner to feed his team and pay all incidental expense such as blacksmithing, stabling, etc., and he has the remainder (?) for profit. How does he live? you may ask. Well he has to do as much of his own blacksmithing as he can. He hires a driver not always skillful, as you may see for yourselves, and pays smaller wages to him than the ordinary laborer gets, and, last but not least, he will not work for the city unless there is no other work to do, in which case he makes expenses if no more. So far as I am aware every other branch of labor is as well paid here as elsewhere. Why then is the horse owner discriminated against to such an extent? Can the New Year not be made to "Ring happy bells across the snow"?

Corrected Returns.

The official count of the ballots cast in the Yale-Cariboo election on December 6th was held on Wednesday at Kamloops by Returning Officer Macdonald. The returns from the different polling divisions were all received with the exception of Deer Park in the Slocan Riding and Gladstone in Rossland Riding. The Otter Valley (West Yale) papers were incorrect and therefore not counted. The total vote polled, with the above named places to hear from, was 8,418, of which Galliher received 3,076; Foley 2,646; McKane 2,571; rejected ballots 42; spoiled ballots 83. Galliher's majority over Foley is 430, and over McKane 505. An adjournment was made for one week in order to obtain the ballot boxes from the places not heard from. The following is a correct statement of the official count:

"Mark all Your Baggage."

"Mark all your baggage," that is the injunction of every man in any way connected with the baggage depaartment of railroads. It means so little to the passenger and, yet its fulfilment would relieve much care on the part of the little army of men who toil hard from one end of the day to the other, and in hundreds of instances assist very materially in facilitating matters when it comes to making close connections, as is often the case in these days of railroading.

A man who has made the handling of baggage a study, said:

"Why is it so many people do not have some initial, name or other identifying mark put on their trunks and valises? Simply because they have the greatest of faith in the railway baggage men. That is a compliment, but if they had any idea how greatly this would assist us in preventing baggage going astray they might all possibly be induced to have some mark on their baggage.

"Telescopes, dress suit cases and trunks in these days nearly all look alike to the baggage clerks and handlers, and, it may be said, also to the owners. Hundreds of instances could be cited of where two and often as many as five persons claimed the same piece of baggage before the checks were put on. This generally results in a search through the boxes, which is an annoying procedure to the men as well as to the passenger. My advice is: Mark your baggage."
