OTTAWA, March 28 - There is no truth in the report that Duncan Ross teaches a Sunday School in this city.

Failed to Put up

The case of Munroe Archibald Ga. vs. Knight and Nouak was recently decided by Mr. Justice Morrisson, sitting in the supreme court at Vancouver. It seems that Archibald got a sixth interest in the famous Transvaal group of six mineral claims in Highland Lake district, south of Asheroft. In the bill of sale the date of location and the recording were omitted, and he evidently thought that this flaw would aid him to evade the payment of his portion of the assessment work. Archibald was advertised Mr. Novak for failing to contribute his share of the as sessment work from 1890 till 1904 when the crown grants were being applied for. At no time did he adverse any of the claims of the advertisements, although the grants were being secured by Messrs. Novak, Knight and Hos-

Archibald claimed that the feet above the sea, that every time his share of the assessment work should have been. On the other hand, the defendants claimed in the advertisement that they expended \$109, all they desired was for him to pay his share of this which he failed to do.

Following is the text of Mr. disturbance but this must be a base of Mr. Justice Morrison's decision: The defendant has wholly failed to substantiate his claim herein I find that he failed to contribute his portion of the assessment work upon the claims in question. I also find that he was aware of the condition of affairs throughout; that the defendants were perform-Tun legislature of California ing the work and urging him to must be granical in its formation contribute his share, and that he for when it adjourned the Frisco was delinquent and knew that he Star thanked God for the riddance, was in consequence of being adwith no honesty and no character. tached little or no importance to It was the most greedy, shameless his interest in these claims, or apporate hirelings that ever assembled evade contributing owing to the The editor of the Star has never the failure, which he claimed, on peeped at the "machine" in Ot- the part of the defendants to fide manner throughout and conplied substantially with the mineral act. ### bout Float

Float is not a periodical. It is a book containing 86 illustrations, all told, and is filled with sketches and stories of western life. It tells how a gambler cashin after the flash days of Sandon; how it rained in New Denver long after Nosh was dead; how a parson took a drink at Bear Lake in early days; how justice was dealt in Kaslo in '93; how the saloon man outprayed the women in Kalamazoo, and graphically depicts the roamings of a western editor amongst the tenderfeet in the cent belt. It contains the early history of Nelson and a romance of the Silver King mine. In it are printed three western poems, and dozens of article too numerous to mention. Send for one before it is too Inte. The price is twentyfive cents, postpaid to any part of the world. Address all letters to

Tenderfoot Mine Bonded

The Tenderfoot mine, situated in the judge, but little in the railit Copper Creek, near Savona, on road, and he pondered the query the north side of Kamloops take, in his mind, why the railroad gave bas been bonded to Henry Croft and H. G. Ashby, Mr. Croft is the property. He will visit the the judge the following letter : camp accompanied by an expert at onco taken up. 😽

district will receive a timely stimu- this check return the railroad pass.

Arrangements are being made check. by Mr. Croft for re-opening the Pothook. Several adjoining claims thing. The judge had as much tended to sink a 300-foot shaft. der why the people are clamoring The outcrop on the Iron Vault and for an anti-pass law. - Coffeyville other claims in the group now included in the Pothook property is a large vein of magnetite. A shaft has been sunk some distance on the vein and the magnetite is being gradually replaced by copper pyrites.

There is an 18-foot vein in the old Potbook carrying 5 per cent. copper and \$4 in gold and silver. This is, with the present price of copper, equivalent to \$20 ore and should yield a good profit after paying freight and smelter charges. Owing to the large proportion of lime carried by the ore it is selffluxing.

#### For You and Me

I have rome to speak to you bout your work, said the angelwho-attends-to-things. It appears o be unsatisfactory.

see how that can be. Perhaps you will explain.

I will, said the angel. To begin with, the work is slovenly. I was born heedless, said the

man. It is a family failing which I have always regretted.

It is ill put together, too, said the angel. The parts do not fit.

I pever had any eye for proportion, said the man, I admit it is unfortunate.

The whole thing is a botch, said the angel. You have put neither brains nor heart into it, and the do you propose to do about it?

I credited you with more com- build: prehension, said the man. way I was made; do you see?

I see! said the angel. He put out a strong white hand, and, takhim neck and crop into the ditch.

What is the meaning of this? earnestly: cried the man, as he scrambled out breathless and dripping. I never for drinking and culinary purwhat you have done. You have hour. ruined my clothes and nearly drowned me besides.

Oh yes said the angel, this is the way I was made .- Laura E. Richards, in the Silver Crown.

#### The Farmer was Wise

A story is told of a Nebraska farmer who had a suit for damages against a Nebraska railroad. As the cause approached the day for trial the farmer man casually learned that the judge who would preside over the trial carried an annual pass over the defendant railroad's lines.

The information worried the soil tiller. He thought about it by day and cogitated over it by night. He figured that the annual pass FRANK SPRARING, Fig. Sec'y, must be worth about \$500 a year

the judge \$500 a year for nothing.

He finally concluded that the now in England and has succeeded railroad must know what it was in interesting English capital in about, and he sat down and wrote

to the judge. He had confidence

Dear Judge-1 am told that you mining engineer, who will examine carry an annual pass over the Bur- dog's disposition, and I find that the mine on behalf of those willing lington railroad. As near as I can to finance the enterprise, and if his figure it, this pass is worth to you eport is favorable the bond will be about \$500 a year. I don't believe that this will influence you in A considerable amount of work favor of the railroads against me has been done on the Tenderfoot in my case, but to be on equal footand the ore has been proved to ing with the railroad, I enclose carry high values. Should the my check for \$500. I do not do deal go through; and the outlook this to influence your decision in is most promising for its materiali- any way. I do not ask you to rezation, the mining industry in this tain my check. But if you return

The farmer did exactly the right have been acquired, and on one of business with the check as with the those, the Iron Vault, it is in pass Vet some politicians won-Journal. - Nelson News.
