A trial will convince you

JOHN MEYER - Proprietor

A friend told the other day how he almost lost a good nurse. The girl was excellent in her position, but when she answered the telephone she spoke into it as if she was standing on the back steps shouting across lots. It was pointed out to her that the telephone was a very responsive instrument and all that was necessary was to speak in an ordinary tone of voice.

"I guess I know how to answer the telephone," she replied with a little heat. And it took a couple of hours to pacify her.

How do you answer the telephone?

WM. JENKS,
Phone 7L. Greenwood

Miss Mabey, of Nelson, traffic supervisor B.C. Telephone Co., and Norman MacDonald, Plant Superintendent of the same company, visited the local exchange this week.

A crowd motored up to Mr. and Mrs. Chas. Graser, Kerr creek, on Sunday afternoon and had a real good time. After spending a very pleasant day left in the evening, the host and hostess proving to be jolly good fellows and hoping that they would all return soon.

Around Home

Mrs. J. M. Ryan, of Nelson, is the guest of Mrs. A. Sater.

Mrs. L. Portmann went to Halcyon Springs on Wednesday.

Service will be held in St. Jude's church next Sunday at 7.30 p.m.

W. H. Docksteader has bought a Dodge commercial motor truck.

Cash paid for hides at Brown's Midway.

G. A. Bryan is now employed at Grand Forks with Jeff Davis & Co.

Little Ethel Wilson is improving after a very virulent attack of dysentry.

D. G. McDonald, No. 7 road, is having his large residence beautifully painted.

BORN—At Myncaster, to Mr. and Mrs. Blain, on Oct. 2, twins, boy and girl.

Dr. Wm. Wood has been appointed health officer for the city of Greenwood.

Mr. C. J. McArthur, of Trail, is in town this week the guest of Mrs. T. Rowe.

Rev. W. R. Walkinshaw attended a meeting of the Presbytery in Nelson this week.

Mrs. A. Sharpe, of Nelson was the guest of Mrs. Wm. Jenks for a few days this week.

Robt. Murray returned to Kimberley last Friday after a week's visit to his mother here.

J. A. McKelvie, M.P., and T. A. Love, editor of the Grand Forks Gazette, were in town on Saturday.

Three car loads of people are expected from Grand Forks at the dance in the Masonic Hall on Friday night.

While returning from Phoenix this week Wm. Walters encountered three bear on the road. He shooed them away.

Miss Louise McDonald returned to town on Wednesday after visiting her sister in Denver, Col., for several months.

A. Legault is installing machinery in the new sub-station at Kelowna for the West Kootenay Power and Light Co.

There is no epidemic of measles here. In spite of the many wild rumors going abroad there is only one case in town and that is a very mild form.

The dance tomorrow (Friday) night promises to be an enjoyable affair. The proceeds will go towards the school library. The cause is a good one and everyone should be present.

The following is a further additional list of the wedding presents received by Mr. and Mrs. G. Graser: ½ doz. silver spoons, W. E. Crause, hand painted berry dish, Mr. and Mrs. A. N. Docksteader.

On Sunday evening Hugh McKee met with a nasty accident. While leading a horse to water, the horse playfully reared and kicked Mr. McKee on the jaw with its fore foot inflicting a big gash which necessitated twelve stitches.

The little old stove has come around once more, and the time of the year when we require artificial heat in our rooms is not altogether gloomy. It is then that the neighbors are most friendly and make the most frequent calls. Then, too, we have time for reading and to become acquainted with the family. Then too the pestering flies have departed, and the lawn mower's song is hushed. And the wind comes laden with the vast wilderness of the north, comforting us with its energy and ozone. There are no more lawns to mow, no more weeding and hoeing. There is nothing but the day's work, then home for rest and comfort and peace.

Midway News

Midway had a few successful competitors at the Rock Creek fair.

Fred Roberts left last week for Penticton, where he has a wood contract to fill.

Mrs. T. L. Kerr is visiting with her sister, Mrs. Macklin, prior to leaving for Los Angeles.

Mr. Macklin left last week for Vernon, B.C. to finish harvesting his potato crop and apples.

Owing to Mrs. R. D. Kerr's absence, Mrs. Macklin and Mrs. Pannell took over the Sunday school work.

Do not forget the Ladies Aid Bazaar, Nov. 25th. Plain and fancy sewing, home cooking, fish pond, etc.

Mrs. R. D. Kerr left on Saturday for Trail, to nurse her daughter Mrs. C. McArthur, who has been very ill.

Mrs. W. Stewart left on Sunday for Grand Forks accompanied by her little daughter Catherine. She expects to be away a month.

The school children are having a fancy dress Hallowe'en party among themselves on the 31st. Ghosts, witches and black cats will predominate.

The Mayer Bros., new owners of the Midway ranch are expected in any day with a car load of stock and implements from the North West. Messrs. Norris & Salmon have removed to their new quarters (the McNames house.)

On Saturday last Harold, eldest son of Mr. and Mrs. Chas. Moll, fell from the roof of their house and broke the wrist of his right arm. The lad suffered intensely all Saturday night, but rested a little on Sunday. Monday he left for Grand Forks, to have the X-Ray put on it. His friends wish him a speedy recovery.

Potato Crop Competition

Quite an interest was taken in the Potato Crop Competition held under the auspices of the Rock Creek Farmers' Institute. Prizes to the value of $30 were kindly donated by the Hon. J. D. MacLean, F. A. Welstead and Major F. E. Glossop.

One quarter acre of potatoes were judged as they were growing on each individual ranch.

Wm Johnson won the first prize of $15 and the second and third prizes were awarded to J. C. Madge and A. Johnson, with $7.50 each.

The following is the score of competitors:

	Grower	Score
1st	Wm. Johnson	92
2nd	J. C. Madge) Equal	
	A. Johnson)	86½
4th	S. & F. Bubar	84
5th	J. Jacques	83½
6th	E. R. Martin	81
7th	H. Martin	80½
8th	E. W. Harker	74
9th	A. D. McLennan	73½
10th	H. P. Wilson	68½

H. D. GREENWOOD,
Potato Inspector.

At the Greenwood theatre next Saturday, Mildred Harris, the well known and favorite actress will be seen in "Polly of the Storm Country." This six reel popular play should draw a big house. There will also be a one reel Chester comedy and one reel Christie comedy.

Dont forget that the fourth annual G. W. V. A. masquerade dance will be held on Friday, Nov. 10th. Already many have started on their costumes, This has always been the biggest dance of the year and everything promises that this year it will will be up to all expectations.

This year the Flanders Poppy will again be the "flower of remembrance," but steps have been taken that will make it doubly significant. The flowers are now being made by disabled soldiers and dependents in Canada, and any revenues derived from their sale on Armistice Day will remain entirely in Canada, and thus benefit those whose need is greatest. Those who wear the poppy on Armistice Day will be remembering the honored dead by helping the living. Five hundred poppies is Greenwood's quota.

ROCK CREEK FALL FAIR

Home Cooking and Fancy Work Vies with Product of Field and Garden in Holding Interest of Crowds

Ideal weather of last Friday favored the 6th annual Fall Fair held in Larsen's Hall, under the auspices of the Rock Creek Farmers' and Womens' Institutes The entries were almost double that of last year and keen competition was general.

The popularity of the great annual gathering of residents from far and near has not waned. Indeed it was said on Friday that so many cars and teams had never before been seen in Rock Creek.

Viewed from the platform the hall presented a wonderful carpet of colour. All the variations of the rainbow were there, not merely in a glorious collection of flowers, but in the other lines as well, while the exhibits as a whole were as pleasing to the eye as inciting to the palate.

Outside friends from far and near met again. From the social point of view Friday afternoon was a pronounced success.

Major F. E. Glossop, the painstaking secretary, achieved another success. Complaints were few and the arrangements worked very smoothly. For providing the public with a first rate fair he and his staff, together with the officers and various committees, deserve many thanks and hearty congratulations.

There was a good collection of home cooking which took some time to judge. All were of very uniform quality. The butter was of good texture and of excellent flavour.

There was a fine exhibit of vegetables this year. The quality was very good, free from inset troubles and few blemishes.

The ladies exhibits were far larger than last year. It was noticeable however, that there were very few knitted exhibits. Nowadays everyone knits and, by constant practice, some have achieved almost perfection.

Another attractive division was the childrens' exhibits and drew quite a large number of entries.

All the judges were most thorough and conscientious in their work. P. C. Black, government horticulturist, judged fruit, vegetables and childrens' vegetable exhibits; W. Tippie and T. Clark the field produce, Mrs. John Docksteader and Mrs. C. J. Lundy, dairy produce, flowers, fancy work, sewing and childrens exhibits.

The childrens' sports und competitions were greatly enjoyed by participants and spectators alike. Racing and skipping contests were enthusiastically entered into.

During the afternoon tea was served by the ladies.

The Fair wound up with the usual big dance at which there was a large attendance.

The following is a complete list of the prize awards:—

SECTION A—FRUIT

Plate Apples

Wealthy—1, Major Glossop; 2, W. Jenks; 3, J. A. Clarke.
McIntosh Red—1, J. A. Clarke; 2, Major Glossop.
Wagner—1st, Major Glossop.
Johathan—1, J. Caldwell; 2, J. C. Madge
Ben Davis—1, G. Lord; 2, J. Caldwell.
Snow—1, J. Caldwell; 2, Stanley Bubar
Bismark—1, J. A. Clarke
Greening—1, S. Bubar
Northern Spy—1, J. Caldwell; 2, S. Bubar
Baldwin—1, S. Bubar
King of Tompkins—1, S. Bubar
Russet—1, S. Bubar
Wolf River—1, S. Bubar; 2, A. D. McLennan
Delicious—1, Com'dr N. Lewis
Winter Banana—1, S. Bubar
Any fall variety—1, G. Lord; 2, G. Lord
Any winter variety—1, J. A. Clarke; 2, J. Caldwell

Pears

Flemish Beauty—1, J. Caldwell; 2, J. A. Clarke
Any other variety—1; W. Jenks; 2, E. Harker

Plums

Any variety—1, J. Lindsay; 2, J. A. Clarke

Crabs

Hyslop—1st, Major Glossop

Box Exhibits

Best 3 boxes—1, G. Lord; 2, E. R. Martin
Best box—1, G. Lord; 2, Major Glossop; 3, E. Harker
Best box packed by lady—1, Mrs. J. C. Madge

SECTION B—VEGETABLES

Potatoes, white, 10 lbs—1, W. Johnson; 2, E. Hatton; 3, E. Heed
Early Rose, 10 lbs—1, A. Johnson; 2, E. Heed; 3, J. C. Madge
Carmen No 2, 10 lbs—1, Major Glossop; 2, W. Johnson; 3, S. Bubar
Potatoes, any variety—1, A. Johnson; 2, E. Hatton; 3, W. Johnson
Potatoes, largest, any variety—1, A. Johnson; 2, T. Henderson
Carrots, Intermediate—1, W. Jenks; 2, H. D. Hamilton
Carrots, Short Horn—1, W. Johnson; 2, G. Lord
Turnips, White—1, A. D. McLennan
Turnips, Purple Top—1, Major Glossop
Parsnips—1, Mrs. Rusch; 2, A. Johnson
Onions, yellow—1, W. Jenks; 2, J. S. Harrison
Onions, red—1, W. Jenks; 2, J. S. Harrison
Cucumbers, 6 garden—1, A. Johnson; 2, Major Glossop
Beets, globe—1, Major Glossop; 2, W. Johnson
Beets, long—1, W. Jenks; 2, A. Johnson
Cabbage, winter—1, E. R. Martin; 2, A. Johnson
Cabbage, red—1, W. Jenks; 2, S. Pittendrigh
Citrons—1, Mrs. O'Donnell; 2, J. C. Madge
Tomatoes, 10—1, A. Johnson; 2, W. Johnson
Corn, squaw 6—1 A. Johnson; 2, Major Glossop
Corn, any variety 6—1, J. Lindsay; 2, F. Bubar
Squash 2—1, W. Johnson; 2, Mrs. Rusch
Pumpkin 2—1, J. S. Harrison; 2, F. Burdick
Marrows 2—1, E. R. Martin; 2, E. F. Wilson
Beans, qt shelled—1, W. Johnson; 2, Mrs. Henderson

Children's Competition

Potatoes—1, Fred Fernstrom; 2, David Smyrl; 3, Warren O'Donnell
Corn—1, Margery Bubar; 2, Ethel Thompson

SECTION C—FIELD PRODUCE

Wheat, fall 1 bushel—1, A. D. McLennan
Wheat, spring 1 bushel—1, J. C. Madge; 2, A. D. McLennan
Oats, 1 bushel—1, A. D. McLennan
Rye, 1 bushel—1, A. Johnson; 2, J. C. Madge
Beets, sugar—1, J. C. Madge; 2, A. D. McLennan
Carrots, red—1, A. D. McLennan; 2, F. Bubar
Carrots, white—1, W. Jenks; 2, S. Bubar
Turnips, cattle—1, E. R. Martin; 2, A. Johnson
Mangold Wurtzel—1, E R Martin; 2, A Jolinson
1 sheaf oats—1, A Johnson
1 sheaf wheat—1, T T Henderson; 2, A D McLennan
1 sheaf alfalfa—1, S Pittendrigh; 2, A D McLennan

The Man Who Works Hard Should Follow This Advice

Perseverance and will power he should have, but whether he has strength and vigor is another question. Hard working men often have headaches and suffer from bilious fits. The occasional use of Dr. Hamilton's Pills keeps a man feeling fit and fine, keeps him always at his best. Headaches, indigestion, poor color are quickly remedied by Dr. Hamilton's Pills. Dr. Hamilton's Pills keep the system clean and pure, tone up the blood, drive away tiredness and lassitude. No medicine for men is better than Dr. Hamilton's Pills, 25c, all dealers or The Catarrhozone Co., Montreal.

History Recorded On Lebanon Cliffs

Victories of Rameses and Allenby Carved Side by Side

On the face of a cliff in the Lebanon hills Rameses II., King of Egypt, well over 3,000 years ago ordered his stone carvers to inscribe a tablet setting forth his conquest of the land. The figure of the ancient Egyptian ruler and his men still are visible. A few feet away one may see, carved in the same rock by a British stonecutter, a record of the coming in September, 1918, of Field Marshal Sir Edmund H. H. Allenby, G.C.B., commander of the Allied forces in Asia Minor. And the passage of the centuries from B.C. 1300 to A.D. 1918 is recorded by various other carvings, in all not less than 12, each describing the march of a victorious army.

The cliff selected for the carving of these historic records is at the mouth of the Dog River, 10 miles northeast of Bierut, in Syria. This strip of country lying between the Lebanons and Egypt has been the bridge between the ancient empires of the Valley of the Nile and Mesopotamia, and over it has passed the armies of the ancient, medieval and modern worlds. The narrowest point is where the Lebanon Mountains come close to the sea, and at this place Rameses II. set the precedent of commemorating his conquests by hewing out a panel on the face of the cliff. His example has been followed by others through the centuries until now there are a dozen of them. They are all cut about four to five inches deep, from five to nine feet high, and from two to four and a half feet in width. The storms of more than 3,000 years have beaten upon some of them, but still the figures of the ancient Egyptian conquerors are easily discernible as they stand with their right arms uplifted in an attitude of victory. The hieroglyphics have long since disappeared except to the trained eye of the archaeologist.

Several Assyrian conquerors led their armies through this pass, including the great Sennacherib, who threatened Jerusalem, but whose army was smitten by "the breath of the Lord," and for a century and a quarter the city was saved from its foes.

Alexander the Great led his conquering hosts through the same defile on his way to Egypt, and Greek and Latin tablets tell of the conquests of the great kingdoms of Southern Europe when the march of empire passed from Asia to Europe.

Coming down to recent history, a tablet tells of the coming of the army of Louis Napoleon in 1860, when the massacres in the Lebanons called for European interference and France first set her foot in Syria. Nearly 60 years passed and then the British army led by General Allenby and assisted by the French, swept up like a whirlwind from the south four years ago.

A panel has been cut in the cliff near those of the ancient Egyptians, telling of this great victory and bringing this wonderful cliff-record of history up to date.

Headaches Gone

Perhaps you can imagine what this means to one who had suffered terribly with headaches for ten years.

Read about it in this latter.

Mrs. Tena A. Smith, Country Harbor Cross Roads, N. S., writes:

"I feel that if anyone can recommend Dr. Chase's medicines I certainly can. I suffered for ten years from severe headaches, and although I took all kinds of headache powders they just relieved me at the time. I became very nervous and run-down, and everything seemed to trouble me. I have taken eighteen boxes of Dr. Chase's Nerve Food and it has made an entirely new person of me. I felt that I could not have lived without it. I do not have one headache now for every hundred I used to have, and my nerves are good and strong. I just weighed 109 pounds when I began using Dr. Chase's Nerve Food, and now I weigh 121. Knowing what this treatment has done for me, I cannot too highly recommend it to others."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Concerning a Terror Inspiring Moth

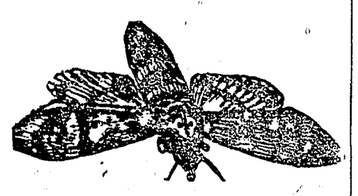
HAVE you ever seen a human skull? It is not, I admit, an attractive thing to look at, or even a cheerful thing, but I am going to tell you about a lovely little creature that even though it has a very clearly drawn likeness of a skull decorating the top of its soft velvety body is perfectly gay, happy and beautiful, and all that in spite of its being The Death's Head Hawk Moth.

I know a little boy who was sitting up quite late one night studying his history lesson, as he wanted to be the best in his class for the examination. It was late spring when exciting things such as examinations occur in school. It also was quite a warm evening, so that the windows were open and the boy was grateful for the breeze that blew in from the garden.

Suddenly something else blew, or, I should say, flew, in with such a loud whirring of wings that the boy was startled. He jumped up, with no thought for his history, but quite intent on what he at first thought was a bat, for it was bumping itself now here, now there against the ceiling and walls. Finally it was caught, and the boy was so amazed and delighted that, very gently holding it in his careful hands, he ran to show it to his family.

It was a Death's Head Hawk Moth, but they didn't know that. To them it was merely a terrible thing, for wasnt there a distinct skull outlined atop it?

The little boy's old aunt burst into tears, his mother seemed anxious and even his father, who as a rule was a most sensible person, looked slightly uncomfortable, while the aunt between loud sobs wailed that it was an awful sign of misfortune—of death. She was all for killing it, but the boy ran back to his room and carefully let the Moth out of the open window back into the velvet black of the night. Instead then of directly returning to his history, he first opened another book, one about Moths and Butterflies. After searching through the innumerable pages he found an exact copy of his little winged visitor. Having read all about it, he returned to his history.



But no misfortune fell on the boy or on his frightened family. On the contrary, they were very happy, and particularly so was the boy on account of his experience. Every evening he hoped his Hawk Moth friend would again flutter through the window toward his light, but as this Moth is quite rare it never returned. Others came, however—ever so many others—of all colors, shapes and sizes, and the boy always looked them up in his book and learned all about them before releasing them back to the darkness. This boy later became a great naturalist; just because a wonderfully tinted Moth flew to him one evening with its message of wild sweetness.

* * * * * * * * * * *

The Hawk Moth or Sphnx family is a very large one of which there are many different kinds, the best known of which are the Poplar Hawk Moth, the Privet Hawk Moth, the big and little Elephant Hawk Moths, the Humming Bird Hawk Moths, and, last and largest, the Death's Head. This one is seldom seen and only flies at night. It is protected during daylight by cleverly choosing a resting place that is like its own coloring. If disturbed it has the unmothy gift of squeaking an angry protest. The young of this Moth, when full grown and just before spinning their cocoons, are large, five-inch long Caterpillars. They are lemon green, with seven swerving purple yellow stripes on either side. They fed mostly on potato plants and dig several inches down into the soil when they intend spinning the cocoon, where they remain for several months before returning to the world as Moths.

Estimates of Wheat Crop

Yield Placed Above that of 1915 by Some Authorities

As the wheat crop moves eastward at the rate of nearly two million bushels a day, a wide variation still exists in the estimates of the actual yield, states the monthly circular of the Royal Bank of Canada. The circular continues:

"These estimates gradually mounted as the harvest drew to a close, and some authorities have placed the yield above the 393,000,000 bushel crop of 1915, which was the largest in the history of the country. Although the acreage sown to wheat this year is considerably greater than that of 1915, the average yield an acre will be somewhat lower.

At the beginning of September, the Dominion Bureau of Statistics published a preliminary estimate of the yield of cereals, placing the wheat crop all over Canada at 388,733,000 bushels from a sown acreage of 22,630,900.

"This is an average of 17.25 bushels to the acre in comparison with 13 bushels to the acre last year, when the total yield was 300,858,100 bushels from an acreage of 23,261,224.

"The visible supply of wheat in Canada on September 9 was 13,865,000 bushels greater than at the same time a year ago. The American visible supply on the same date showed a decrease of 10,934,000 bushels from that of September, 1921. According to Broomhall's estimate, the world surplus at the first of September was 776,000,000 bushels, and of this amount North America had 488,000,000 bushels.

Citizens Should Stand Together

United Effort in Business Helps to Build Up Town

The best way to build up a town is for each and every man in it not to strive to rend and tear it down. Whenever a man in the town is doing well do not strive to tear him down. All residents of the town are partners, not opponents. In all likelihood the more business done by your rival the more you will do. Every gentleman who treats his customers honestly, courteously and fairly will get his share, and the more business that can be done by united effort, the better it will be for all. When a town ceases to grow it commences to die, and the more the people try to kill off each other in their business and good name, the more rapidly will utter ruin come to all. Stand together for the advancement of every citizen.

Alberta Coal Production

Coal production in the Drumheller fields has mounted to 6,325 tons daily and will shortly be increased to between 8,000 and 9,000 tons. All the coal camps in Alberta and Eastern British Columbia are now working, and much of the product is being shipped to Saskatchewan and Manitoba. It is expected ample coal will be mined to meet all the requirements of Western Canada.

Biggest Air Liner of Britain

The largest air liner yet built in Great Britain has passed official tests. It accommodates 24 passengers and three-quarters of a ton of luggage. At top speed the machine makes 100 miles an hour.

Did Great Britain Receive Lion's Share

War Spoils Not Evenly Divided Says Writer in London Paper

According to Mr. Ira E. Bennett's letter in a recent issue of the Times, the real trouble over the American debt is that a war with common resources for a common end, involves also a pooling of the fruits of victory, and "many Americans believe that Britain's share of the spoils was the lion's share." If that is all that is the matter, it is easily put right. Let us hand over the lion's share to America in settlement of the lion's debts. Sir Robert Horne ought to lose no time in ascertaining what the United States will allow us for German East Africa and all the mandated territories—especially Mesopotamia and Palestine. If Americans can point to any other plunder which they grudge us, let us disgorge it at once. We have got the German fleet somewhere. If Americans have a fancy for it, no one in this country is likely to object to their removing it, the Washington agreement notwithstanding. It seems a great pity that no American has told us before that we are regarded over there as a nation of war profiteers. By the way, how do the present American charges for the war compare with the amount which profiteers are paying in income tax and super-tax?—From the London Truth.

Amundsen's Ship May Be Crushed By Ice

Schooner Will Go to Pieces is Veteran Trader's Opinion

Captain Roald Amundsen's schooner Maud, in which he set out from Seattle last June on an expedition to the North Pole, is sure to be crushed in the ice pack off Wrangel Island, where Captain Amundsen left her, in the opinion of Captain R. T. McIntyre, veteran fur and ivory trader. Captain McIntyre, who for 18 years navigated the Arctic Ocean, recently arrived from the East Cape, Siberia. "I cannot believe," said McIntyre, "that Amundson will attempt to fly over the North Pole this season."

McIntyre declared Capt. Oscar Wisting, navigator of the Maud, and his crew will be lucky if they can get back to land alive over the ice in the spring.

Captain McIntyre and Captain Joe A. Barnard were marooned at East Cape last winter after narrowly escaping alive when the schoner Teddy Bear went to pieces on the shore.

TIRED AND RUN DOWN

Lydia E. Pinkham's Vegetable Compound Helped Where Other Medicines Failed

Vancouver, B. C.—"I took Lydia E. Pinkham's Vegetable Compound because I was tired and run down. I had headaches and no appetite and was troubled for two years with sleeplessness. I tried many medicines but nothing did me any real good. While I was living in Washington I was recommended by a friend to take the Vegetable Compound. I am stronger and feel fine since then and am able to do my housework. I am willing for you to use these facts as a testimonial."—Mrs. J. C. Greaves, 771 Hornby St., Vancouver, British Columbia.

Many women keep about their work when it is a great effort because the work must be done. Lydia E. Pinkham's Vegetable Compound has brought relief to thousands of tired housewives by removing the troubles which cause annoying symptoms.

If you are suffering from nervousness, headache and backache, pains in right or left side, tired and run-down feelings, take Lydia E. Pinkham's Vegetable Compound.

Just bear in mind this medicine has been used by women for nearly fifty years. That is a long record of service, and stands upon the foundation of merit.

Livestock Receipts At The Leading Markets

Heavy Increase Shown In Western Shipments of Livestock

According to the Dominion Livestock Branch weekly report, some of the principal livestock markets of the Dominion show considerable decreases in cattle receipts from the first of the year to early in September, as compared with the receipts during the same period of last year. The important yards at St. Boniface, Manitoba, however, is reported as showing heavy increases, the numbers marketed during the present year to date as compared with last year being greater by 7,000 head, when compared with offerings of the same period of 1921. The increases in cattle marketings in the western provinces are duplicated by the calf, sheep and hog marketings and more than offset any decreases in marketings in the eastern provinces. The result is that the combined receipts at all yards in the Dominion are in every class in excess of those of the same period of last year. The Toronto and Montreal markets are behind in cattle receipts, Montreal is off in calves and Toronto in sheep, but the combined receipts to September 7th at Toronto, Montreal, Winnipeg, Calgary and Edmonton, as compared with the receipts of the same period last year are: 451,597 cattle, against 377,620; 156,476 calves, against 138,200; 510,953 hogs, against 403,777; and 253,467 sheep, against 239,461.

Top prices on September 14th show as 25c to 75c per hundredweight lower on cattle than on the same date of 1921, excepting at Calgary where the market appeared to be 25c stronger. Calves showed a relatively sharp decline. Hogs were higher at Toronto and Montreal but lower at Winnipeg, Calgary and Edmonton. The prices on choice sheep and lambs were higher at all markets excepting Winnipeg, where the quotations for lambs were on a somewhat weak basis.

Discoverer of Radium Needs Assistants

Staff Has Been Reduced by Economy Of Government

Mme. Curie is reported to be hard hit by the wave of economy that has struck the French Government. The abolishment of 50,000 Government positions does not leave her famous radium laboratory unscathed. One of the most serious obstacles the discoverer of radium has always faced was the shortage of qualified assistants. It is now urged in the interests of science that some philanthropist of science forward the few hundred dollars needed annually to keep Mme. Curie's staff at even its present inadequate proportions.

Civilization

What was once the lower class is gradually absorbing and identifying itself with what was once the middle class. Ultimately, as social conditions improve still further, it will proceed to identify itself with the aristocracy. There will no longer be blue blood or green blood or yellow. The only blood that will run in our veins will be the blood of a free and competent citizen of a great democracy. We shall, in other words, have arrived at the exact position reached by Athens twenty-five hundred years ago.—London Daily Express.

Divided By Earthquakes

"How is the earth divided?" asked the teacher of the class.

"By earthquakes," replied one boy promptly; and the teacher passed on quickly to another scholar.

Alberta Coal for Quebec

The longest distance that Alberta coal has been shipped was recorded at Edmonton when a local colliery company forwarded a carload of egg coal to Levis, Quebec.

London's women police cost the city $150,000 a year, although they have no real authority to make arrests.

An Automatic Car Detective

New Invention Will Make Robbery a Difficult Matter

The robbing of motor cars has greatly increased of late. Sometimes the whole car is taken, and sometimes a rug, bag, or some other object in the car, is removed while it stands waiting.

These thefts have been particularly difficult to detect, but a new invention which has just been perfected and approved by the police authorities will make it difficult for the robber to escape.

An automatic detective is attached to the car—it may be placed in any part—and when it is set the slightest shaking or movement of the car will start a loud, long-range, electric hooter.

The authorities in places where the automatic detective is at work have agreed to give instruction that any motor car sounding this note will be stopped.

When the owner, after making a call, returns to his car he touches a switch which renders the detective inoperative and quite unaffected by any movement. But when he leaves his care he turns on the switch by means of a kind of Yale key, which he takes away with him.

It is a splendid idea, and there will certainly be some excitement when the first of these "Stop, Thief!" sirens sounds.

MOTHER!

Your Child's Bowels Need "California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup", which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Automobile Export Trade

About thirty-four per cent. of the automobiles now being used in India are made in Canada, according to a report from H. A. Chisholm. Owing to the British preferential tariff Canada is rapidly becoming the centre for the export of motor vehicles, and each year sees new companies from the United States establishing plants in Canada to take care of their export business.

Keep Minard's Liniment in the house

Wanted to Know

"Mamma, how much do people pay a pound for babies?"

"Babies are not sold by the pound, dear."

"Then why do they always weigh them as soon as they are born?"

The Grand Central Station in New York receives between 15 and 18,000 lost articles every year.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

BAYER OK

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Refuses a Pension

Lord Strathclyde Voluntarily Relinquishes Assured Income of 3,750 Pounds

Lord Strathclyde has astonished the official world by voluntarily relinquishing the pension of £3,750 a year that was granted him seven years ago when he retired from the office of Lord Advocate for Scotland, where he was getting £5,000 a year.

He is 69 years old and declares his reason for giving up the pension is that he is unable, owing to weak health, to take part in the judicial work of the House of Lords. That has only increased the surprise his action has occasioned. Such an exhibition of public spirit is rare indeed.

The British Government makes generous provision for the future welfare of its best-paid office-holders when they join the ranks of those who have retired. The speaker of the House of Commons has a salary of £5,000 a year; he may retire whenever he wants to and enjoy a life pension of £4,000 a year. The Lord Chancellor, who fills a role in the House of Lords analagous to the speaker of the House of Commons, receives a salary of £10,000 a year and retired pay of £5,000.

Honey Production in Manitoba

Within the past two years Manitoba has developed practically a new industry in beekeeping, which this year will bring to the province a revenue of $400,000, according to the provincial apiarist Floyd. Next year, declares this official, if the present development continues, this figure will be doubled. Approximately 1,000 beekeepers in Manitoba have produced 2,000,000 pounds of honey this year.

Decrease in Debt of Dominion

A further decrease in the net debt of Canada amounting to almost five million dollars, is shown in the statement for August issued by the Finance Department. The net debt August 31 was $2,387,676,265, as compared with $2,392,542,628, at the end of July.

The density of population in India varies from 800 to the square mile to five persons only.

How Indians Harvest Grain

Wild Rice Used By Indians of North America

Mah-Noh-Min, the wild rice of the north, the Indian's grain for winter consumption, is gathered today as it was in the days of Hiawatha and Minnehaha. Canoes are piloted through miles of rice beds. The rice is either snipped off on the stem or pulled from the water. Taken into the canoe, it is dislodged from the stem by beating with a paddle. The hulling is done by heating the rice in its shell, and while it is yet hot it is treaded by moccasined feet.

Wild rice is a tall aquati perennial grass of North America and of Asia. Its grain or seed has been used by the Indians for food since time out of memory.

The work of gathering the rice is so tedious that few white people attempt it.

PUT STOMACH IN ORDER AT ONCE

"Pape's Diapepsin" for Gas, Indigestion or Sour Stomach

Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases, palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for a few cents.

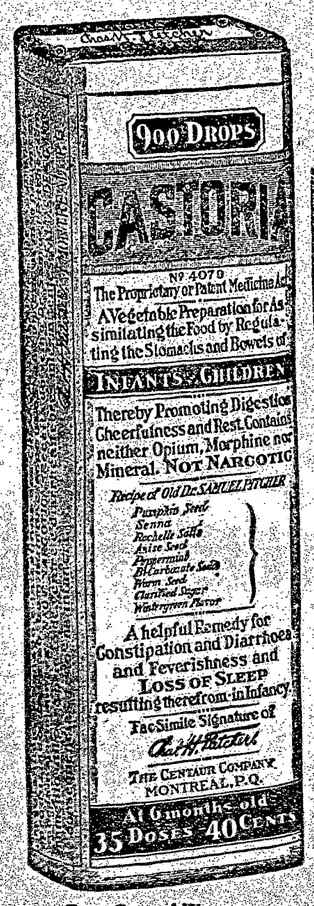
What Did He Mean?

A dramatic story can be told in very few words. A small boy returned home one evening and when his mother asked him why his hand was bleeding, he said:

"Those were awfully sharp teeth Billy Wright used to have."

Greeks Foretold Weather

The ancient Greeks were well versed in weather lore, especially the relationship between wind directions and weather sequences.



Exact Copy of Wrapper.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of

THE CENTAUR COMPANY, NEW YORK CITY.

Grain Growers Ask For Abrogation Of Coastal Regulations

Winnipeg.—Immediate abrogation of the coasting laws is urged by the Saskatchewan Grain Growers' Association as a result of the increased rate of eight cents with shippers are demanding on wheat from Fort William to Georgian Bay ports.

A. J. MacPhail, Central Secretary of the Association, speaking for the executive at a meeting in Winnipeg, stated that the following message had been wired to Hon. J. A. Robb, Minister of Trade and Commerce:

"Under today's date, Winnipeg papers report shippers demanding eight cents per bushel on wheat, Fort William to Georgian Bay ports, as compared with 2½ cents a year ago. Quotations today, Fort William to Buffalo, five cents. This is an intolerable situation, and we believe fully justifies immediate abrogation of the coasting laws."

At the present time American vessels are not allowed to carry grain between Canadian ports, but if the coastal regulations were suspended they would have the privilege, thus permitting of competition for Canadian shipping interests.

Fort William.—The blockade of the lower lake ports with grain created a situation here which is unique for this time of the year. This port has been filled, which rendered it necessary for grain to be loaded on cars here and sent all rail to Montreal instead of being shipped by water either direct to Montreal or through Georgian Bay ports. The Canadian National Railways have contracted for the shipment of 200,000 bushels of wheat all rail, which is now being loaded.

REFUGEES FROM FIRE ZONE TELL OF MANY MIRACULOUS ESCAPES

North Bay, Ont.—One trainload of refugees arrived here from the fire swept areas of North Cobalt and Haileybury composed of 236 men, women and children. They presented a pathetic figure as they dragged themselves from the train and to the waiting automobiles. Most of them even the comparatively small children, had been up all night, some cluttered in the few remaining houses at Haileybury, others wandering around, a number on board the rescue train, and one old lady passed the night out on Burnt Island, in the middle of Lake Tamiskaming.

A particularly interesting interview was that given by Mr. Justice J. F. Orde, of Toronto, who was conducting non-jury assizes at Haileybury when the fire burst upon the town.

"The smoke was very dense even on Tuesday," said Justice Orde. "However, the residents did not appear to think there was cause for danger, and hearings proceeded without interruption. Bush fires were burning in the vicinity, and on Wednesday the situation looked even more disconcerting. However, we continued until after 2 o'clock in the afternoon, when a man entered the court room and whispered to Sheriff Calbeck that the fire had crossed the railway tracks. The court was closed as we felt the witnesses should have an opportunity to look after their families if they should be in danger. We went to the hotel, packed our bags and started. Even then we were told there was no danger. A terrific wind was blowing, the smoke became dense and breathing so difficult that we hurried to the shore where hundreds of men and women had sought refuge with all sorts of belongings, with their sick and physically unfit.

"The smoke became more and more uncomfortable, so that we began to wonder how long a person could survive suffocation. We put our handkerchiefs in the water and breathed through them. I hesitate to say what might have happened had the wind at this moment not veered. The smoke began to lift, and the suffering subsided. One great trouble was keeping our clothing from catching fire from the embers before the wind changed. After this the party was able to proceed to the home of Judge Hayward, junior judge of the district."

"The hospital at New Liskeard was not injured," said A. H. Wilson, of Montreal. "I was through the fire and back over the district today. Nearly all the houses on the west side of the track around the hospital were burned, but the hospital was not even scorched."

Moose Jaw Member Unseated

Election Declared Void on Conviction of Corrupt Practices

Moose Jaw.—R. M. Johnson, member of the Federal House of Commons for Moose Jaw, loses his seat according to a judgment given at Moose Jaw by Mr. Justice Embury and Mr. Justice Mackenzie following the hearing recently of a petition to unseat him.

The judgment declares the election to be void and disqualified Mr. Johnson.

The specific charges preferred against Mr. Johnson were first, that a false return was made in alleging that certain expenses were paid under authority of an official agent when, as a matter of fact, they were not; second, failure to show as election expenses two certain payments of expenses, properly to be classified as election expenses, made by the responsible person through the official agent.

Will Ask Preference For Dominion Fruits

Delegation of Growers From Australia Going to England

London.—A Reuter dispatch from Sydney, Australia, says it is understood a delegation of fruit growers, accompanied possibly by Premier Lawson, of the State of Victoria, will proceed to England about the end of this month to plead for a preference in the British market for dried and canned fruits from the Dominions.

Sir Henry Thornton Appointed New Head Of Canadian National Road

Ottawa.—Major-Gen. Sir Henry Worth Thornton, K.B., general manager of the Great Eastern Railway of England, is the new head of the Canadian National Railways. An order-in-council appointing him and other members of the board, and formally consolidating the Canadian Northern and Grand Trunk lines into the Canadian National Railway System, passed the Cabinet Council and was approved by the acting Governor-General.

Sir Henry was in Ottawa when final arrangements for his appointment were made. He will return almost at once to England to settle up his affairs there, returning to Canada to take over the direction of the National System within about a month.

In introducing Sir Henry to the newspapermen, Premier King pointed out that the act provided that members of the board must not be shareholders in, or connected with companies in any way dealing with the railways in question or selling them supplies. This had been observed, said the Prime Minister, both in regard to the executive board and also in regard to the other members of the board. The Prime Minister also stressed the fact that Sir Henry Thornton would be the man responsible for the administration of the railways. They would be operated without any interference from the Government and must be kept outside of politics altogether.

A contract was signed extending over three years, under which he is to be paid $50,000 per annum. Clauses in the contract, it was stated, give protection to both the Government and the new president and general manager of the railways in the event of either side wishing to terminate the agreement before the end of three years.

The resignations of the existing board of directors of the Grand Trunk System were accepted by the Government and the new board was appointed to administer the joint system. The board consists of the following, in addition to Sir Henry, who is president of the system and chairman of the board of management:

John H. Sinclair, K.C., of New Glasgow, N.S., former member of parliament for Antigonish.

Richard P. Gough, of the firm of Sellers-Gough, Toronto and Montreal.

James Stewart, of Winnipeg, former chairman of the Canada Wheat Board, and now president of the Maple Leaf Milling Company.

Ernest R. Decarry, ex-president of the Montreal civic committee, Montreal.

Frederick G. Dawson, wholesale merchant of Prince Rupert, B.C.

Tom Moore, president of the Canadian Trades and Labor Congress, Ottawa, representing labor.

Graham A. Bell, deputy minister of railways.

Gerald G. Ruel, general managing counsel.

W. N. U. 1441

SITUATION IN INDIA IS BECOMING SERIOUS

AUTHORITIES ANXIOUS OVER SPREAD OF ANTI-BRITISH PROPAGANDA

London.—The Daily News of Allahabad, India, according to a Reuter dispatch, states that the daily reports from the Punjab show that the Akali agitation is rapidly developing into a formidable revolutionary movement. The gravity of the situation was recently increased by secretive broadcast propaganda throughout India, including the India regiments.

Although heretofore no call has openly been made on the Sikh soldiers, a most undesirable impression has been made on them and this is the cause of much anxiety to the authorities.

The implacable attitude of the Indian Moslems, led on by Hindu extremists and a venomous Anti-British press, is adding to the seriousness of the situation.

The Allahabad Daily News says it understands that the All-India Central Khalifat Committee is inviting the Governments of Angora, Constantinople, Irak, Egypt, Persia and Afghanistan and other Moslem countries to send delegates to a Khalifat conference at Gaya, Bengal, in December.

SHOULD DOMINIONS HAVE DIRECT NEGOTIATION

QUESTION RAISED IN REFERENCE TO TREATING WITH FOREIGN NATIONS

London.—Should Canada and the other Dominions treat directly with foreign nations? This question is directly raised by Sir John J. Almond, who represented New Zealand at the Washington conference, and Sir Joseph Cook, Australian delegate to Geneva.

New Zealand strongly favors the system under which her representative is but one of "a single undivided unity, without right of vote or expression, save through the mouthpiece of all empire delegations."

Sir Joseph Cook emphasizes the useful individual work of Dominion delegations at Geneva and elsewhere. He says that it does not conflict with imperial unity in times of real crisis.

The Times says "the empire attends these conferences as a mighty alliance, bound by ties of kinship and sentiment, rather than as a ruling power with a following of dependencies. It is the symptom of a new epoch in imperial history."

End of Navigation at Dawson

Thousands of Wild Caribou on Annual Migration

Dawson City.—Tens of thousands of wild caribou are now swarming over the hills through the suburbs of Dawson for a radius of 50 miles. The great herd, which annually treks through this district, is now moving northward. Large herds swimming the Yukon have interfered with the passage of steamers in the river. The herd is so vast that the hunting of men, women and children, who have provided nearly every home with deer meat for the winter, has made no noticeable effect upon it.

Navigation in the Yukon is drawing to a close. The last steamers from St. Michael and Lower River points left for Dawson on Saturday. These steamers are the Seattle and the Alaska.

Klondikers who are planning to spend the winter "outside" will all have left this week-end and sail from Skagway on October 15 on the Princess Alice.

Recent heavy rains have maintained high water right up to the present in the Yukon and its tributaries. There is no ice in these rivers yet.

Berlin Thieves Strip Billboards

Increased Value of Waste Paper Makes Business Profitable

Berlin.—Billboard strippers constitute a new type of thief on Berlin's police blotter. Due to the increased value of waste paper, the plundering of street advertisements has set in.

The thieves work at night, and, so far, have confined their activities mainly to the round poster pillars which dot the city's thoroughfares, adorned with vari-colored bills advertising theatres, restaurants, dance halls, etc. One young man was found to have torn down 50 kilograms of old paper and stored it at home for future sale.

Killed When Car Overturned

Royal Insurance Superintendent Meets Death Near Portage la Prairie

Portage la Prairie, Man.—W. Watts, of Montreal, superintendent of agencies for the Royal Insurance Company, was killed near Poplar Point, when a motor car in which he was riding was forced from the road by another car and overturned in a six-foot ditch. Major G. K. Killam, of Winnipeg, driver of the car, and W. W. Watson, of Winnipeg, another passenger, were painfully injured.

New currency issued in Germany during the last week in September totalled 26,200,000,000 paper marks, it is announced.

BANDITS ADD MURDER TO LIST OF CRIMES

MAKE GETAWAY AFTER RUNNING GUN FIGHT WITH POLICE PATROL

Regina—Bandits operating in Southern Saskatchewan added murder and two robberies to the long list of crimes now placed to their credit, when Paul Mattoff, an employee of the Regina Wine and Spirits Company, was shot and instantly killed in the C.P.R. station at Bienfait.

While his companions cowered under the menace of threatening guns, $6,000 in cash was removed from the pockets of the dead man. The murderers fled eastward in a big Cadillac car. On the road between Hirsch and Frobisher they overtook and passed the police patrol car. While the cars passed, shots were rained on the bandits from rifles and revolvers carried by the police patrol, and the running gun fight was continued until the robbers were out of range.

Within a short time the same crew is believed to have held up and robbed a rum running truck at Roche Percee, on the international boundary. It is the same liquor, it is claimed, for which Mattoff was accepting payment when killed.

Disastrous Floods In Bengal

Thousands Are Reported Drowned in Affected Area

London.—A terrible loss of life has been taken by the recent flood in Bengal, says a Reuter cable from Calcutta.

It is impossible to estimate the extent of the disaster at present, but from the fact that an important junction point was for days inundated by five to ten feet of water while crowded with refugees from surrounding villages, which had been completely destroyed, it seems probable that in the whole affected area several thousand people have been drowned.

An outbreak of cholera is adding to the difficulties of the situation.

Bootleggers Using New Device

Land and Seaplanes Are Equipped With Trap Bottoms

Washington.—Land and seaplanes equipped with trap bottoms, so as to dispose quickly of their illegal cargoes of liquors in event of detection, are appearing in the bootleg trade between Montreal and New York and between ships at sea and Long Island, Prohibition Director Day of New York, informed Commissioner Hayes during a conference on prohibition enforcement in New York.

Director Day estimated that twenty-one bootleg planes were in operation.

Find Lost Document

London.—The Athens correspondent of the Times says that Constantine's act of abdication has been found in the possession of his aide, Col. Nicolaide. It will be published immediately.

MAY ADOPT POSTAL AREAS

PLAN FOR DIVISION OF CANADIAN CITIES INTO ZONES TO EXPEDITE SERVICE

Ottawa.—Plans for the division of the larger Canadian cities into postal areas, following the system in vogue in the larger European cities, were submitted at the closing sitting of the conference of Dominion postal officials.

E. J. Underwood, chief of the post office division, postal service branch, Ottawa, who submitted the scheme, argued that by the adoption of postal areas, delivery of mail would be expedited.

Postal officials from Calgary, Vancouver, Winnipeg, London and Hamilton did not think division of their cities into postal areas could be undertaken with advantage at the present time. In the western cities, particularly where development was rapid, it was argued, maps would quickly be out of date and have to be revised.

Bracken Has Big Majority

Deferred Election In Pas Constituency Results in Landslide

The Pas, Man.—The deferred election held in The Pas constituency was a complete landslide for Premier John Bracken, who polled an overwhelming plurality for election to the Manitoba Legislature over his three independent opponents, G. Fingar, P. T. Robertson and R. H. MacNeil.

With two or three scattered polls to hear from, the Premier had 406 votes, Fingar 81, Robertson 79 and MacNeil 25.

This election completed the deferred elections and by-elections created by the appointed of members-elect to the Government.

Th Legislature is composed as follows:

Farmers and Progressives, 28; Liberals, 9; Conservatives, 7; Labor, 6; Independents, 5. Total, 54.

Shipping Grain Via Vancouver

Considerable Portion of Alberta's Crop Being Handled Through Pacific Seaport

Fort William.—Reports from the west indicate that a considerable portion of the 1922 grain crop in the province of Alberta will be shipped out of the country for export to United Kingdom, European and Orient ports, via Vancouver. Last year 7,500,000 bushels of Alberta grain were shipped via the Pacific seaport and the probabilities are that this year that figure will be substantially exceeded. Grain being shipped now by way of Vancouver from Alberta is of exceptionally high grade, 95 per cent. of it grading No. 1 Hard and One, Two and Three Northern.

Bar Women From Pulpit

Will Not Be Permitted to Become Pastors of Methodist Churches

Toronto.—Once again the women have lost out in their efforts to gain admittance to the Methodist ministry. By a vote of 17 to 16, the discipline committee of the general conference decided against recommending their admission to the pulpits of the Methodist Church.

There were three women on the committee, and they put up a vigorous fight to allow the women to become pastors.

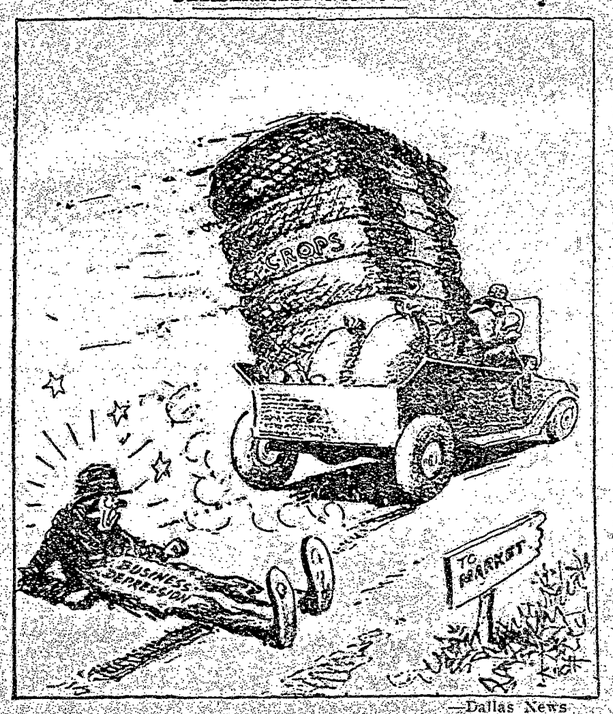
One of the arguments against women becoming ministers advanced before the committee was that it would tend to "rob the cradle."

Forest Fires Take Big Toll

Ottawa.—What Canada loses by forest fires is shown in a statement issued by the Canadian Forestry Association.

"Last year," says the statement, "Ontario lost 700,000 acres for forest resources by fire, and during the past summer 4,000 fires, mostly started by human agency, swept through the very limited stock of Canadian timber. Canada has lost more money from forest fires since Confederation than all other types of fires combined."

DELIBERATELY RUN OVER



—Dallas News

Destructive Forest Fires Cause Immense Loss In Northern Ontario

Toronto.—Haileybury, North Cobalt and several smaller places north of these points have been wiped out by forest fires, which have reached great proportions. Great destruction has been caused throughout the entire country, according to advices received from Cobalt.

It is understood that Heaslit and Elk Lake, two small mining towns, are among the places destroyed by the flames.

As far as can be learned by telegraph and telephone communication with points within reach of the fire zone, the fires sprang up in the bush within a radius of 60 miles, between Cobalt and Dane, which is 160 miles north of North Bay, and were joined by a strong wind at a point half way between these two towns. Within the territory threatened with extinction are the thriving towns of Cobalt, Haileybury, Englehardt, New Liskeard, Charlton, Uno Park, Earlton Junction and Elk Lake.

Haileybury has a population of about 4,000; New Liskeard has about 2,000; Englehardt about 1,500; and Elk Lake about 1,000. These populations, with those of the smaller districts affected, are estimated to comprise a total of 25,000 persons. It is estimated that there is a population of 75,000 north of North Bay.

Over 5,000 people have been rendered homeless. The loss of life is considerable and the property loss will obviously run into many millions of dollars.

Cobalt, Ont.—Thirty-three people are now known to be dead as a result of one of the most devastating fires in the history of the Northern Ontario district, which swept an area along the line of the Temiskaming and Northern Ontario Railway bounded by Englehart on the north, and a point just outside Cobalt on the south, a distance of approximately 38 miles.

In addition to the known dead, a great number of people in the fire-ravaged districts are reported missing, but it will be some days before an estimate can be made with any degree of accuracy. It is thought possible that 50 persons have met death either from burns, suffocation or drowning.

Heavy rains have resulted in the fires being extinguished practically all over the stricken country, and people are growing calmer and beginning to take stock of the tremendous damage. Conservative estimates place the property loss at between four and five millions of dollars.

Sign Protocol to Save Austria

Geneva.—Ignāz Seipel, the Austrian Chancellor, and the representatives of Great Britain, France and Italy, signed the protocol making effective the plan of the League of Nations to save Austria.

Dr. Seipel had tears in his eyes as he signed the document, and the representatives of the other states were scarcely less affected.

Prefers Sea to Politics

Paris.—Admiral Coundouriotis has refused the Greek premiership according to a Havas despatch from Athens. When approached in regard to the matter the former minister of marine replied that he preferred to remain in command of the navy.

Grenfell Ship Lost

St. Johns, Nfld.—The Grenfell Mission steamer Strathcona, which has completed twenty years of service along the coasts of Labrador, sank recently a few miles off Cabot Island. The crew of six was saved.

Vessel Crew Escape

Prince Rupert, B.C.—The American fishing vessel Bartalone has been burned off Cape Muson, Alaska. Captain Harry Selig and the crew of the vessel rowed 14 miles to a loggers' camp after leaving their ship.

McGill Honors Memory Of Colonel McCrae

Montreal.—An imposing ceremony took place at McGill University, when a memorial in the form of a stained glass window of three lights, to the memory of three of the teaching staff of the faculty of medicine who were killed in the Great War, was unveiled in the medical building. The window is dedicated to Lieut.-Col. John McCrae, Canadian author of the poem, "In Flander's Fields," to Lieut.-Col. R. P. Campbell and to Lieut.-Col. H. B. Yates. General Sir Arthur Currie, principal of McGill University, performed the unveiling, while the dedication address was given by Rev. Canon Almond, former chaplain of the Canadian corps.

THRACE HANDED OVER TO TURKEY

SUCCESSFUL ISSUE OF CONFERENCE IS LOOKED FOR

London.—The Allies have agreed to return Thrace to the Turkish army in 30 days.

News received that M. Franklin-Bouillon, the French envoy, and Hamid Bey, the Nationalist representative, has decided to return to Constantinople from Mudania immediately, strengthened the hope of the successful issue of the conference.

The delegates agreed to establish a definite line of demarcation between the British and Kemalist forces in the Chanak zone. The space between the opposing forces will be sufficient to place them out of rifle shot, thus lessening the danger of immediate conflict.

A message from Athens says that the Greek Government has ordered general mobilization of the classes of 1917 and 1918. It has also cancelled all leave.

Chinese Students Receive Ultimatum

Victoria School Board Gives Scholars Chance to Return

Victoria, B.C.—Following the conference between the school board and the Chinese on the deadlock that has kept Chinese children out of school for some weeks, the board issued an ultimatum.

Unless the striking Chinese pupils return to school at once, the board will close all schools for Chinese in the public school system, and opportunities for registration will not be afforded until January, after the Christmas vacation.

Will Honor Canadian Club

London.—The Prince of Wales has consented to be the guest of the Canadian Club of Great Britain at a luncheon to be given at Strafford Place on Nov. 10. The members are delighted at the honor conferred upon their young club, which in a short time has more than justified its existence.

Western Students Awarded Degrees

Kingston, Ont.—Degrees announced at Queen's University include the following:

Degree of B.A., Robert Nichol Anderson, Saskatoon; Barbara Robina Morrison, Regina, Sask.; Claude Hill Robinson, Camrose, Alta.; Lloyd Fleming Smith, Moose Jaw, Sask.

Degree of B. Com.—Clarence Laverne Yoerger, Humboldt, Sask.

Patronize your local merchants and thereby help to build up your home town and community.

Both Turks And Greeks Are Still In Defiant Mood

Constantinople.—The question of the evacuation of Thrace was the cause of the rupture in the Mudania conference. The attitude of the Turks and Greeks was very bellicose, threatening the success of the conference.

Ismet Pasha, in a fiery mood, upset the conference. He declared that the Turkish army must enter Thrace immediately, and his tone was determined and defiant.

General Harrington attempted to reason with him after the fashion which had proved so effective in dealing with minor preliminaries, but Ismet was adamant.

Ismet's position was completely at variance with the terms of the Allied note which is the basis of the negotiations, General Harrington explained, partly to the Turkish leader and partly to the Allied associates.

General Mombelli endorsed and supported the British General's statements, when suddenly a new bombshell was thrown into the gathering by General Charpy, the French representative, who announced abruptly that he had been instructed by his Government to support the Turkish demands.

General Charpy was followed by M. Franklin-Bouillon, the special French envoy, who similarly supported the Turkish position, explaining with some rhetorical effect that "France places a different interpretation on the terms of the Allied note than her confreres."

It was evident that the Allied camp was divided against itself, and that the situation had become untenable.

There was another interesting side to the conference. The Greek delegates also had spoken, and they brought no palm of peace. They threw down the gauntlet of defiance, declaring that the Greek army was ready and willing to fight for Thrace intent on saving the honor of Greece.

THE LEDGE

Is $2.00 a year strictly in advance, or $2.50 when not paid for three months or more have passed. To Great Britain and the United States $2.50, always in advance.

SOME men take hold of themselves and make themselves work, whilst others are alert and active all the time. It is all a matter of heart action, or else the exercise of a strong will. The man with a strong heart can keep going all the time quite easily, the man who has not this priceless possession has to force himself to keep at it. If he lacks the will power also he will be a failure. A great many men and some women are afflicted with laziness. A lazy man is some use in society. He can ornament a bench or a window sill, but a lazy woman has no useful place in society whatever.

A boy should be taught to work with his hands when he is young and he should be kept at it as long as he is a boy. This is part of his education. The other part he will get in the schools. Some educationists are trying to mix these two branches, but there are quite as many leaders who think that these efforts cannot succeed. The world is coming back to the old idea that our leaders in every department of life must have a thorough high school education at least. Trades and even professions cannot be learned in any other way than by working at them. Theories should be mastured first and technical knowledge acquired, but practice alone will give perfection. It is, therefore, vastly important that every boy should get a decent education before he is grown up, and that he should be taught to work with his hands and acquire persistence in the completion of a task before he leaves the home of his parents.

Kettle Valley Notes

G. W. Nicholson left Thursday for Vancouver, to remain for several months.

Mrs. Ed Richter has recovered from her recent accident and is able to be about again.

Miss Mary Burdick left on Sunday's train for Grand Forks, where she intends spending the winter.

The Women's Auxiliary held their first meeting for the winter at the home of Mrs. F. E. Glossop.

A Masquerade Dance will be held in the Co-Operative Hall on Oct. 27, Proceeds to benefit Rock Creek school.

Don't forget the Dance and Sale of Work, under the auspices of the Women's Auxiliary, in the Riverside Hall, on Oct. 20th.

Christian Valley

Dave Rose is visiting his sister in Alberta.

Mr. Gwyer and family returned to Penticton last week.

Guner Lindgreen is back home after helping Alec. Waddell.

Joe Christian was down to Rock Creek on business this week.

Steve Peterson has returned after spending some weeks on the prairies.

The heavy frosts in the valley these mornings warn us that winter is not a very long way off.

Boy Scouts

Troup meets on Friday at 7 p.m.

CUBS

The Cubs will meet this week at the usual place on Saturday at 2.30 p.m.

Rock Creek Fall Fair

Synopsis of
Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may be cause of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvement to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptors holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time in which the heirs or devisees of a deceased pre-emptor may apply for title under this act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provisions for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31st, 1920.

SUB-PURCHASERS OF CROWN LAND

Provision made for insurance of Crown Grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers up to ten head.

Kettle River Assessment District

I HEREBY GIVE NOTICE, that, on Tuesday, the 7th day of November, 1922, at the hour of 2 o'clock in the afternoon at the Provincial Police Court, Penticton, B.C., I shall offer for sale at Public Auction the Crown Granted Mineral Claims hereinafter set out, of the persons in said list hereinafter set out for the delinquent taxes unpaid by the said persons on the 30th day of June, 1922, and for costs and expenses, including the cost of advertising said sale, if the total amount due is not sooner paid.

The Collector will be pleased to receive any information respecting the following list where the owner is or was a member of the Allied Forces, and is entitled to the benefits of Section 29 of the "Taxation Act Amendment Act, 1918."

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, $76,177,403; Lode Gold, $105,557,977; Silver, $55,259,485; Lead $48,330,575; Copper, $166,393,488; Zinc, $21,884,531; Coal and Coke, $225,409,505; Building Stone, Brick, Cement, $34,072,016; Miscellaneous Minerals, $1,210,639; making its Mineral Production to the end of 1921 show

An Aggregate Value of $734,259,619

Production for the Year Ending December, 1921, $28,066,641

The Mining Laws of this Province are more liberal, and the fees lower, than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
VICTORIA, British Columbia.
