"Wonderful indeed is the power of the voice."—Cicero.

The power of the voice is the success of the telephone. It was in the endeavor to transmit sound that the telephone was invented, and the great factor of its development into an article of very common use is that direct conversation may be carried on.

Because it enables one's personality to be sent is the reason that the telephone promotes friendships and intimacy, and brings about closer relations between those in business. The pleasure of hearing the voice you know makes long distances the casual practice of every one.

Around Home

Chief J. A. Fraser is on business trip to Vancouver.

Skating has been good on the ponds during the past week.

Wm. Jenks, of Eburne, is spending a few days in town.

Mrs. James Lindsay, of Rock Creek, is the guest of Mrs. Jas. Kerr.

Miss M. Smythe, of Grand Forks, was a visitor to town on Friday.

Chas. Martin, of Oliver, will open a shoe repairing shop in Greenwood.

Miss M. A. McLoughry spent the week end with friends in Grand Forks.

A number of Greenwoodites attended a dance in Grand Forks on Monday night.

Miss Mude, of Grand Forks, was visiting friends in town during the week end.

The Knights of Pythias will give a dance in the Masonic Hall on New Year's Eve.

It is reported that 70 deer have been taken out of the Main Kettle River section this season.

Normam MacDonald, of the B. C. Telephone Co., Nelson, was in town on Wednesday.

Miss Nellie Keir returned to Grand Forks on Monday after a few days visit to home here.

Bert Mussatto, of Kelowna, formerly of Phoenix, was a visitor in town during the week end.

The British House of Commons will dissolve on Friday and a general election will be held next month.

Mr. and Mrs. G. F. Killam, of Grand Forks, were the guests of Mr. and Mrs. J. A. Fraser on Monday.

The Ledge can supply your every need in the printing line and at prices consistent with first-class work.

Mrs. C. Olson and daughter, Irene, of Rock Creek, spent the week end in Anaconda, the guests of Mrs. E. Granberg.

John McDonald of Bonnington, spent a few days in town during the past week with his sister, Miss Cassie McDonald.

Miss Ethel Sales returned to Billings on Wednesday after spending a few days in town the guest of Mr. and Mrs. E. F. Keir.

E. H. Hanley, of Nelson, and H. A. Sheads, of Grand Forks, representing North American Life Assurance Co,, were in town on Tuesday.

Greenwood had a large number of visitors during the week end. Many coming from the Bell and Sally mines, Beaverdell, Carmi, Grand Forks, Cascade and other places in the district.

D. Cavaye was the guest of Mr. and Mrs. P. H. McCurrach on Sunday and Monday. Mr. Cavaye is now located in Grand Forks having been transferred from the Bank of Commerce in Trail.

A sawmill at Carmi owned by Sam Matthews, of Grand Forks, was destroyed by fire on Friday evening last. The lumber in the yard and part of the conveyor were saved. The loss is partially covered by insurance.

Paul Johnson, a well known smelter man, died in Stockholm, Sweden, on Oct. 14, at the age of 66 years, after a long illness. The late Mr. Johnson was a old timer of Greenwood having lived here in the early days. He was smelter manager when the B. C. Copper smelter was built. Previous to coming here he built a smelter in Nelson. The deceased is an uncle of Miss E. A. Olson of this city and a brother-in-law of the late Martin Anderson.

Mr. and Mrs. Wm. Walmsley motored to Rossland, Trail and Castlegar on Sunday morning, returning Monday evening accompanied by Mrs. J. McKinnon, of Castlegar, who is spending the week in this city. Mr. Walmsley reports the new road in fine shape and that very high grade ore is being take out of the I.X.L. mine at Rossland.

District Deputy Grand Master, D. C. Manly paid an official visit to K. of P. Lodge, No. 29, on Wednesday evening. He was accompanied by more than 20 members of the Grand Forks lodge. First rank was conferred upon a candidate by the two lodges. A very fine supper was served during which there were speeches, song and stories.

D. R. McElmon, J. P., (watchmaker), for many years a resident of Greenwood and district writes from Blaine, Washington, that he is steadily improving in health. His many friends here hope that he will entirely recover and be able to return to the district once more.

The case of the Rock Creek Trading Co. vs H. Snell came up before His Honor J. R. Brown at the local Court House on Saturday, Nov. 10th. I. H. Hallett acted for the plaintiff, no counsel appearing for the defendant. Judgment of $416.04 and costs was given for the plaintiff and the counter claim was dismissed.

A Stenographer's Examination for British Columbia Civil Service will be held on Saturday afternoon and evening, December 8th, 1923. Intending competitors in this district should apply to the Government Agent, Court House, Greenwood, for application forms and further information, or to W. H. MacInnes, Civil Service Commissioner, Victoria, B.C. Applications will be received at Victoria up to November 28th.

F. L. Christian, whose home is in the Kettle Valley, but who is assisting Len LeLeivre in packing for Steven's survey party on the transprovincial highway, arrived in town yesterday afternoon suffering from rather painful scalds about the face and neck. It appears that the boys were cooking a meal on the trail when a tight-fitting lid blew off a kettle in which they were boiling water and spattered the lad with the steam and hot water. He was brought into the hospital by a car which met him on the road this side of Nine Mile.—Princeton Star.

A pretty reception was held in honor of Mrs. John G. B. Mowatt, formerly Miss Cecilia Marjorie McIntosh, on Tuesday afternoon at the home of her sister-in-law, Mrs. Jacob V. Lightheart, 1591 Twenty-ninth avenue west. The rooms were decorated with roses, chrysanthemums and autumn leaves. The tea table, centred with a bowl of yellow chrysanthemums amid yellow tulle, was presided over by Mrs. D. McIntosh, Mrs. J. W. Hislop, Mrs. Spankie, Mrs George E. Lightheart, Mrs. W. J. Wilcox, Mrs. James Muir, and Mrs. Mulligan. Cutting the ices were Mrs. C. Austin, Mrs. Mason Miller, Mrs. W. J. Duffield, Mrs. George Sutherland and Mrs. Hislop, while serving the guests were Miss Mary McIntosh and Miss Madge Hislop. Receiving the guests were Mrs. Duncan McIntosh, mother of the bride; Mrs. Mowatt and Mrs. Lightheart. Musical items were given by Mrs. Ecales, Mrs. Duff, Miss Jean Paterson and Mrs. Thompson.—Vancouver Province.

Boy Scouts

Troop meets on Friday at 7:30 p.m. in the Fire Hall.

Have you paid your subscription to The Ledge?

Masquerade Dance

Greenwood has witnessed many successful dances but the Masquerade in the Masonic Hall on Friday night, arranged by the G.W.V.A. was without doubt the best ever held in many a long year. One of the most largely attended balls, it was delightful to see that fully 95 per cent of the dancers were in costume, a statement which cannot always be made of fancy dress affairs. There was really very little duplication in the costumes, considering that there were nearly three hundred present.

Eye witnessess will agree that it would be difficult to find a district that possesses so many ladies capable of turning out such ingenious and clever dresses. The judges were Mr. Rylett, of Fife, Mr. Smith, of Cascade and E. R. Workman, of Stewart, B.C. Their task was a difficult and delicate one considering that there were so many costumes nearly equally as good as the winners: They awarded prizes to:

Best dressed lady, Mrs. T. W. Clarke, of Carmi, "butterfly."

Best lady, comic, Miss Nora Jackson, of Midway, "Jonteel Talcum Powder."

Best dressed gent, L. Keir, Greenwood, "rooster."

Best gent, comic, Thos. Williamson, Anaconda, "tramp."

Best dressed child, Miss Olive Mowat, Greenwood, "fairy."

The costumes seen on Friday night were a treat to the eyes. Among nearly two hundred costumes it was not easy to pick out all the outstanding characters because they were all good.

Bush's melody orchestra of four pieces won more laurels for the really excellent music supplied for the dancing. Mrs. T. W. Clarke and Miss V. Shillcock very kindly played the supper extras.

To supply the refreshments for this large crowd was no easy task, but Mrs. Axam and Mrs. Blundell, the caterers, did remarkably well. There were four sittings and all were fed within two hours. It was a splendid supper, ably managed and the Boy Scouts did the waiting.

Provincial Police To Wear Uniforms

Attorney-General Manson has introduced a bill into the Legislature, now in session in Victoria, to re-organize the provincial police. All summer plans have been under way and it is aimed to divide the province into four police districts, Prince Rupert, Nelson, Kamloops and Vancouver Victoria. Inspectors will be in charge of the first three districts, while sub-inspectors will have control at the coast. The police constables will wear khaki uniforms, similar, except for color, to those of the Royal Canadian Mounted Police.

Constables will sign on for three years but may buy their release at any time for $100. They will have their own finger-print and secret service departments. It is planned to have half the service in uniform by next March and the balance by the end of 1924.

Mining News

E. A. Wanke made a trial shipment of ore from the Preston to the Trail smelter last week.

The Jubilee Mining Company, N. P. L., with head office in Greenwood, was incorporated last week. This company is operating the Spotted Horse on the hill west of Greenwood.

"Why," said the American, "we grow cabbage so big that an army of soldiers can camp under one."

"That's nothing," said the Scotchman, we make copper kettles so big that a thousand men can be riveting one and yet be so far apart they can't hear each others hammer."

"Go on," said the American, "what would anyone use a kettle of that size for?"

"Why, to boil your American cabbage in," said the Scotchman.

Kettle Valley Notes

Mrs. Ed. Richter left last week for Rochester, Minnesota.

Miss Yonge, of Grand Forks, who has been visiting Mrs. Brew returned home last week.

Service in the Anglican Church on Sunday, Nov. 18th. Matins and Holy Communion at 11 a.m.

Mr. and Mrs. Taylor, who have been visiting Mrs. Smith of Westbridge, sailed on the "Makura" for New Zealand.

John Caldwell, Maurice Jewell, J. Warrington and David Caldwell spent a few days in Christian Valley hunting.

A colored glass octaganal window has been presented by Messrs. Harker & Pawsey to the Church and placed in position at the east end over the existing stained glass windows.

The Banff orchestra will again visit Riverside on or about Dec. 18th next, when a Pierrot Fancy Dress Dance will be held in the Riverside Hall under the auspices of the Rock Creek Women's Auxiliary. The exact date will be announced later.

War Memorial

On account of the "granite block" not having been received from the makers, the unveiling of the Memorial at Ingram Bridge has been postponed. The committee hope, however, that the unveiling will take place at any early date and as soon as the date is definitely settled, a notice will be broadcasted throughout the district so that as large a number as possible may have the opportunity of being present.

Sale of Work at Rock Creek

The Rock Creek Farm Women are holding a Sale of Work at the Co-Operative Hall, on Saturday, Nov. 17th, opening at 1.30 p.m. When the Farm Women do a thing, they do it well and they have undoubtedly excelled this time. The Farmers are keenly interested in it as well and are running two of the stalls—Produce and Second-hand. The Work Stall is a special feature this year. It will be packed with dainty, exclusive and intimate articles, which should find a ready sale—do not order your Xmas presents until you have seen this stall. The Farm Women, at great trouble and expense, think they have secured the services of the famous fortune teller who was so successful and in such favor with Lord Renfrew when at Calgary.

Reserve sufficient money for afternoon tea, which will be a specialty and dont forget the date Nov. 17th.

"Lorna Doone"

The famous "Doone country" of Devonshire, England, to which hundreds of tourists makes pilgrimages annually, is shown in Maurice Tourneur's film version of "Lorna Doone," which will be shown at the Greenwood Theatre on Saturday, Nov. 17th. Taken from the novel written by R. D. Blackmore, the story relates the exciting adventures and romance of a maid of high birth who is captured by the Doone outlaws. The scenes are laid in Exmoor where ruins of the ancient Doone village are still pointed out. Because of its historic background, the picture is attracting nation wide attention.

A Soft Rejoinder

A western evangelist makes religious mottoes on rocks and fences along the public highways. On one big flat rock he painted these words:

"What will you do when you die!"

An advertising gazabo came along and painted underneath that question:

"Use Delsa oil; good for burns."

RED ROSE COFFEE

For particular people

All the qualities of superfine coffee—roasted to a turn, *crushed* to small, clean grains—every can perfect coffee. 20

Bovril makes you feel a new man

The Greatest Of All Assets

The award of the Nobel prize this year to Dr. F. G. Banting, of Toronto, the discoverer of the insulin treatment for diabetes, is a well deserved tribute and recognition of what has been hailed throughout the medical world as the greatest boon conferred on mankind in preventative medicine since the discoveries of Pasteur. And Dr. Banting has conferred additional honor upon himself by immediately donating $10,000 of his prize money towards the establishment of a Fund for medical research in Canada.

The whole world is at last beginning to take seriously to heart the truth of the old saying that an ounce of prevention is worth a pound of cure. Governments the world over, assisted by great voluntary organizations like the anti-Tuberculosis Associations, the Red Cross Society, and kindred bodies, and men of great wealth, are engaged in work of the most energetic kind not only to find scientific means of combatting and preventing disease, but in educating the masses of the people everywhere that by the adoption and adherence to simple health rules most of the sickness and disease, and consequent suffering that now afflicts the human race can be completely banished.

Yellow fever, once the scourge of certain countries, is now practically unknown. It has been isolated into a few small areas and successful efforts are now in progress to stamp it out entirely. It has been established that through the use of toxin anti-toxin people can be made immune from diphtheria. Smallpox, once a common disease which carried off people by the thousands, is now quite rare, and most of the cases which develop of a mild type. It, too, is being wiped out.

Tuberculosis is still a terrible scourge, but it has now been demonstrated that it is not an incurable disease, and if treated in its earlier stages can be successfully overcome. More important still is the arousing of people generally to a knowledge that tuberculosis can be prevented by the adoption of simple rules of living, plain wholesome food, lots of fresh air and sunshine.

In fact, nature has provided free of charge all the essentials of good health if people would only make use of them. Sleeping in rooms with windows open and kept fresh and clean by sunshine and fresh air, instead of closing them up like prison cells, if followed in all homes would do more to eradicate tuberculosis than all the sanatoria ever built. It would result in stronger, healthier children both physically and mentally. Next in importance to fresh air and sunshine comes the plentiful use of water and milk.

The adoption of habits of cleanliness, washing the hands before handling food, care of the teeth, protection of the homes against flies, the careful disposal of all refuse and rubbish, and the guarding against contamination of the water supply—these things do not cost much money and if systematically followed do not take much time. If persisted in they will result in better health and in the saving of countless dollars in doctor, drug and hospital bills, to say nothing of the greater prosperity accruing to the home and individual through increased earning power resulting from good health, a strong body and a clear mind.

Many people complain of hard times and of accumulated debts, and all too frequently give as an excuse that they have had much sickness, with consequent heavy expense on the one hand and loss of earning power on the other. But they never stop to consider that, instead of such sickness being an excuse, it in many instances merely constitutes an indictment of themselves; that they are not only themselves responsible for the hard times and accumulated debts, but for the sickness from which they or their families have suffered and which brought on their financial difficulties.

The average employer of large staffs of male and female help loses more through lost time and disorganization of his business caused by the absence of employees through sickness than he does through strikes or the general dislocation of business caused by economic depression. But because such losses are not of a spectacular kind, possibly small in themselves but going on like an unnoticed leak in a pipe, he pays little attention to them or to the provision of preventative safeguards.

It is encouraging, however, to note that a general awakening is taking place, that the work of education on health matters is having its effect, that legislative enactments are following closely on the heels of medical discoveries; in a word, that the Twentieth Century Crusade for Good Health is proving more and more effective, and that people are beginning to realize that health is more important and a far greater worldly asset than wealth; that the latter without the former is of little value to the possessor of it.

Coachman Did Not Understand

An Irish coachman of days gone by said in answer to a question: "Mr. Bradley has gone to take a ride in his interim, sir. An hour ago he says to me, Michael," says he, 'I'm expectin' Mr. Brown this morning, but as he won't be here for some time, I'll just go down town in the interim.' And with that he got into what I always called his 'buggy' and off he drove. They do be havin' strange names for things these days."

Apples Breathe

Although it sounds utterly impossible scientists have been conducting experiments on the breathing of the seeds of Newton pippins. The actual taking in of oxygen and giving out of carbon dioxide just as our own lungs do have been measured by a respiration apparatus, many new things have also been discovered about the production of sugars and acids within the apple.

Chinese Use Peanut Oil

Peanut oil is one of the prime necessities of the average Chinese in South China. As a cooking oil and foodstuff it means to the Chinese what olive oil does to the Spaniard or Italian and lard to the American. Large stocks of peanut oil are always maintained in Hong Kong. Most of the local oil is crushed from nuts grown in the colony, South China and in North China.

Banking On Alberta

If we were asked to guess what province of Canada has the greatest future we would say Alberta. To win the game she holds wheat, coal, cattle, oil and timber and in the language of poker, that is a straight flush.—Ottawa Journal.

Marriage is often a failure because neither of the interested parties has sense enough to take an occasional vacation from the other.

"I Now Feel Fine"

Mrs. P. G. Murdoch, Box 433, Portage la Prairie, Man., writes:

"I was troubled for years with biliousness, constipation, kidney and liver troubles. I tried many different kinds of medicine, but nothing did me much good until I tried Dr. Chase's Kidney-Liver Pills. I now feel fine, but am never without these pills in the house. Dr. Chase's Ointment has relieved my husband of piles, from which he used to suffer badly."

DR. CHASE'S KIDNEY-LIVER PILLS

One pill a dose, 25 Cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

Medical Research Fund

Banting Medical Research Foundation To be Launched

A great research organization is to be started in Toronto, to be known as the Banting Medical Research foundation. The first contribution for its founding comes from the discoverer of insulin, Dr. Fred G. Banting, who will contribute $10,000, a portion of his share of the 1923 Nobel prize.

Meanwhile a committee of five has been formed to take preliminary charge of the foundation and its financing. Its members are: John Rogers, of Toronto, chairman; Prof. Fitzgerald, of the University of Toronto; Dr. Stewart, president of the New York Academy of Medicine; George W. Ross, Toronto; and a fifth man yet to be named. G. H. McCormack, of Toronto, is honorary secretary, although not a member of the committee.

An appeal for funds in Canada and the United States is to be made. At least one million dollars is required for the scheme, and its originators hope that a two-million-dollar fund will be established. Already many well known people in both countries have signified their willingness to participate actively in the work of the foundation. These include Lord Byng, United States Secretary of States Hughes, whose daughter was one of Dr. Banting's first patients, and ex-President Woodrow Wilson. Heads of several large universities in the United States also are connected with the movement.

"The idea," said Dr. Ross, "is to give assistance to young ambitious scientists who like research work, but who cannot follow this bent because of lack of finances. Such people would be required to go before a scientific committee and state what they desired to do in the way of research. This committee in turn will pass upon the application and the applicant's fitness for the work, and either dismiss the idea or encourage it."

Will Send Relief to Germany

Drive in U.S. to Feed Two Million German Children this Winter

Leading America in an endeavor to succor a distressed people, Major-General Henry T. Allen, who commanded the United States army of occupation in Germany, has announced a nation-wide drive to carry relief to at least 2,000,000 children in Germany during the coming winter.

Food and fuel, administered through the American Society of Friends (Quakers), will form the chief commodities of the American relief work. Contributions to finance the undertaking will be solicited by the American Committee for Relief of German Children, of which Gen. Allen is chairman. More than 100 prominent persons have accepted places on the national committee. Local organizations in the principal cities of the country will be formed as rapidly as possible.

The plan of the American committee as regards feeding only will cover the period from November 5 to April 16, including 141 actual feeding days. It will cost approximately two cents to supply one meal a day to each child, and on this basis it is estimated that "the immediate problem" of feeding 2,000,000 children will require $5,480,320, Gen. Allen declared.

A letter from Secretary of Commerce Hoover, endorsing the movement, was read by Gen. Allen.

"The breakdown in currency and the rapidly-spreading unemployment in Germany are such that hunger and under-nourishment are already spreading," the secretary wrote.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Origin Of "Two Bits"

Is American Equivalent for Spanish Coin Worth 12½ Cents

Many have wondered why 25c should be referred to as "two bits," and may be interested to learn how it originated. A bit is the American equivalent to the old Spanish real, which was used in California back in '49. When it disappeared finally, it had become part of the language. When American silver replaced the real it was reckoned in terms of bits, which were worth 12½ cents. Two of them made two bits, which equalled the American quarter. It was also used in company with Chinook, the western-made language of early days. Difficulty arose when anything smaller than a quarter was produced in payment. The bit was the universal standard. Hence, a dime was known as a short bit and 15 cents as a long bit. Copper was taboo. If a customer bought a bit's worth of tobacco and gave the storekeeper a quarter he'd get a dime change. If he had a dime it would be accepted, but if he didn't he was penalized 2½ cents.

B.C. Apple Crop

The British Columbia crab apple crop, which was approximately ten per cent. greater than last year, has been marketed. A considerable amount of Wealthies are on their way to the British market and there has been found to be quite a demand for secondary grade of apples in Norway, Sweden, South Africa, New Zealand and Shanghai. If cold storage steamers could be secured for the Argentine, a large market, according to reports, could also be found there.

Lots of men after telling the truth try to lie out of it.

Minard's Liniment for Coughs

A Popular Soprano

Miss Una Bishop, daughter of Mr. and Mrs. A. J. Bishop, of Kamsack, who is being well received as a soprano vocalist in Regina. Miss Bishop sang very acceptably at the banquet tendered by the Leader Publishing Co., Ltd., to the weekly newspaper men during their recent convention at Regina.

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

NERVILINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. E. Normand, from Georgetown, who writes: "I was fairly crippled with aching joints and Rheumatism. Nerviline must have been what I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 35c bottle of Nerviline to-day; it will make you well quickly.

Indian Family Has First Train Ride

Accepted Unique Experience With Stoicism of the Race

The first passenger train to be operated north of the former Trans-Continental line in Ontario provided some descendants of the country's original inhabitants with the thrill of their lives. When the T. and N.O. train No. 102 pulled out of Island Falls Junction on its return trip to Cochrane, it carried among its passengers a family of Indians from the lower reaches of the Abitibi River, who were having their initial experience of this form of locomotion. They accepted the event with the stoicism of their race.

SAVED BABY'S LIFE

Mrs. Alfred Tranchemontagne, St. Michel des Saints, Que., writes:—"Baby's Own Tablets are an excellent medicine. They saved my baby's life and I can highly recommend them to all mothers." Mrs. Tranchemontagne's experience is that of thousands of other mothers who have tested the worth of Baby's Own Tablets. The Tablets are a sure and safe medicine for little ones and never fail to regulate the bowels and stomach, thus relieving all the minor ills from which children suffer. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadian Cattle Exports

Large Increases Shown in Exports to Britain Over Last Year

Canadian exports of cattle and beef to Great Britain for the nine months ending with September both show large increases over the same period of the previous year, according to a report prepared by the Department of Agriculture. From January to September last there were 14,136 head of cattle exported to Great Britain, as compared with 14,906 during the corresponding period of 1922. The export of beef to Great Britain for the nine months this year was over 5,000,000 pounds, as compared with 3,618,000 pounds in the same period last year.

Air Travel Popular With Invalids

Austria now has an aerodrome at Mauer, half an hour's ride by automobile from the centre of the city. Planes may be had at all hours for any destination within the country. Air travel is growing popular with invalids who want to reach health resorts quickly and free of the jolting and discomfort attending trips by train.

Requisite on the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Eclectric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Substitute for Double Windows

Double window panes, separated by a distance of two millimeters and joined together at the edges by a specially patented melting process to prevent moisture or dust getting between them are used to keep out the cold in the place of ordinary double windows. It is said the heat insulation is perfect under these conditions.

Storage Elevator for Edmonton

Preparations are now being made to commence construction of the million dollar government storage elevator which is to be established at Edmonton.

Minard's Liniment for Distemper

Women Can Dye Any Garment, Drapery

Dye or Tint Worn, Faded Things New for 15 Cents

Diamond Dyes

Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with "Diamond Dyes" even if you have never dyed before. Druggists have all colors. Directions in each package.

Saskatchewan Highways.

Almost 2,000 Miles of Road Built, Costing Over Million

The activities of the Saskatchewan Highways Department, computed up to the end of the present session, are set forth in a statement just made public by Hon. J. G. Gardiner, Minister of Highways. In it the comparative rarity of gravel surfacing is explained by scarcity of gravel deposits and the necessity of first building up earth roads to form a satisfactory and consolidated base for the deposition of a gravel surface and the establishment of a proper system of connected drainage.

The report anticipates that a total of 1,975 miles of provincial highway for which agreements have been entered into with the Dominion Government will have been completed before the season closes and that the expenditure on these highways for the fiscal year will be $1,060,000.

By the end of the season the Government will have spent, the report continues, not less than $120,000 for concrete and steel bridges and $150,000 for timber bridges, new structures and replacing decayed ones.

Mother! Give Sick Child "California Fig Syrup"

Harmless Laxative for a Bilious, Constipated Baby or Child

Constipated, bilious, feverish, or sick, colic Babies and Children love to take genuine "California Fig Syrup." No other laxative regulates it sweetens the bowels so nicely, the tender little stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits! Insist upon genuine "California Fig Syrup" which contains directions.

Only Toy Dogs Admitted

Dogs and Poultry Are Barred From Entry to Canada

Hereafter "toy dogs" only will be admitted to Canada from the United Kingdom. "Real dogs" must remain outside the boundaries of the dominion. A ministerial order, issued by the Department of Agriculture, excludes poultry and dogs "with the exception of toy dogs" coming from the United Kingdom.

The order, issued under the authority of the Animal Contagious Disease Act, is designed to protect Canadian dogs and poultry from the importation of disease.

Moved In a Circle

A mid-western paper reports one of the most "vicious circles" we have chanced to read about. A young man worked hard, saved his money and bought a house. Then he and his wife decided to buy an automobile. They mortgaged the house to buy the automobile and lately had to mortgage the automobile to pay the interest on the mortgage on the house. That spiral truly winds to a tight place.—Youth's Companion.

End Stomach Trouble, Gas Or Indigestion

"Pape's Diapepsin" is the quickest, surest relief for indigestion, gases, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages of Pape's Diapepsin.

Moscow Has the Largest Store

The biggest store in the world under one roof is in Moscow. It is a gigantic department store, or bazaar, under a thousand different heads, selling all kinds of goods and carrying on every kind of business.

Two barrels of soil of Belgium and France, from Ypres and Vimy Ridge, respectively, were sent to Quebec to Rev. Canon (Chaplain) Scott to be placed under the cross of sacrifice, the soldiers' memorial in that city.

International Agreements Have Been Disregarded

Rowell Says Allies Themselves Responsible for Chaos In Europe

Chaos and misery existing throughout Europe and the world today is attributed directly to failure of European countries to carry out those provisions under which Germany capitulated to the allies. The Germans laid down arms believing that ex-President Wilson's fourteen points would form the basis of peace. But these fourteen points have been disregarded as ruthlessly as Germany herself disregarded the sanctity of international agreement in 1914.

This thought was submitted to delegates of the world mission conference by Hon. N. W. Rowell. He appealed to the spirit of brotherhood of men as being the only solution of international difficulties.

"We ourselves are responsible for the turmoil of the world today," the speaker said. "Every nation that signed the Versailles treaty added to the dishonor of the allies. Germany was led to believe that peace would have as its foundation the idealistic fourteen points of the United States president. But the allies, greedy for the spoils of war, took advantage of Germany's helpless condition and abused their power. This constituted as flagrant a breach of international honor as the world has ever seen."

An Oil that is Famous.—Though Canada was not the birthplace of Dr. Thomas' Eclectric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

Deplores Pessimistic Outlook

Everyone Should Help in Reconstruction of World Says Rev. Henry van Dyke

The appearance of so many pessimistic books of late was deplored by the Rev. Dr. Henry van Dyke in a sermon in the Park Avenue Presbyterian Church, New York, of which his only son, the Rev. Tertius van Dyke, is the pastor. "When Elijah went into the cave he had a bad case of pessimism," declared Dr. van Dyke. "He thought all the world was wrong, going to the bad, and that he only was faithful to God and to duty. He attempted to prove this by having nothing more to do with the world and isolating himself in a cave. There are many men today affected by this form of self-righteous pessimism. They tell us that the 'great Nordic race' is vanishing, that 'the revolt against civilization is sure to succeed, that 'Europe is hopeless,' and therefore America should keep out of it, and so on. What is this but going into the cave? The still, small voice of God calls us to come out, to bear a hand in the struggle for right, to do our duty and trust God for victory.

High-Powered Wireless Station

Australian Company Accept Tenders For Erection of Station In Canada

Tenders for the erection of a high-power wireless station in Canada have been accepted by the Amalgamated Wireless, Limited, of Australia, a company which has the commonwealth government in partnership. The cost of each station will be two and a half million dollars. The new stations will be the last word in wireless efficiency. Their sites have not yet been selected, but it is understood that the Canadian station will either be Victoria or Vancouver.

Important Gypsum Bed Discovered

A gypsum bed 99.8 per cent. pure, extending ten miles inland for a mile along a branch of the Mosoe River midway between Cochrane and James Bay, Ontario, is said to be one of the world's most important. It was but recently discovered. The outcropping can be seen at the river's edge, where the deposit is forty feet thick.

Woman Mayor Made Good

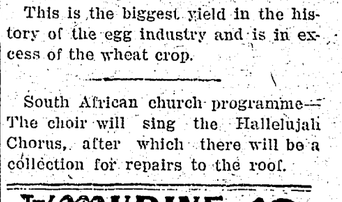
Amy A. Kaukonen, mayor of Fairport, Ohio, resigned recently after a bitter fight of nineteen months with bootleggers. She clamped the lid on and beat the bootleggers to a finish and then resigned. At a mass meeting of citizens her administration was declared to be the best in years, and all her predecessors were men.

One of the best collections of jade to be found anywhere is in the Metropolitan Muscaum of Art in New York.

If all people were obliged to think of something to say they wouldn't talk so much.

MAGIC BAKING POWDER

Magic Baking Powder is scientifically made and has never failed to give the maximum leavening efficiency. Because of this and the uniformly satisfactory results obtained by its use we recommend it as Canada's perfect baking powder.



U.S. Egg Yield

Egg Production Contributed More Than One Billion Dollars to Wealth of Country

The little red hen and her numerous sisters in the United States contributed more than one billion dollars to the national wealth in the last year, according to statistics made public in advance of the annual meeting of the National Poultry and Egg Association held in Chicago.

This is the biggest yield in the history of the egg industry and is in excess of the wheat crop.

South African church programme—The choir will sing the Hallelujah Chorus, after which there will be a collection for repairs to the roof.

Try MURINE FOR YOUR EYES

Wholesome Cleansing Refreshing

CANCER

GREAT SUCCESS OF CANTASSIUM TREATMENT.

A well known London surgeon and recognized authority on Cancer has created world-wide interest in the discovery that Cancer is due to a deficiency of potassium "salts" in the body, which causes the cells to break down and become malignant.

In order that everyone may learn

THE REAL CAUSE OF CANCER

a remarkable book has been specially written.

This book will be sent free to patients or anyone who is interested in the most successful method of fighting "THE CANCER SCOURGE."

The following is a list of the chapters:—

1. The Limitations of Surgery. 2. Some Doctors Oppose Operation. 3. What Cancer Is. 4. Why the BODY CELLS BREAK DOWN. 5. Injurious Cooking Methods. 6. Common Errors in Diet. 7. Vital Elements of Food. 8. Medical Endorsement of Our Claims. 9. The Chief Minerals of the Body. 10. The Thymus Gland. 11. Age When Lime Begins to Accumulate. 12. Potassium Causes Lime Excretion. 13. Great Value of Potassium. 14. Parts of Body Liable to Cancer. 15. Parts Which Are Seldom Affected. 16. How A Doctor Can Help. 17. How to Avoid Cancer. 18. Death-Rate From Cancer. 19. Arterial Sclerosis and Old Age. 20. Rheumatism, Gout and Kindred Complaints.

With this book are a number of interesting case reports proving the great value of "Cantassium Treatment" in various cases. The treatment is simple and inexpensive and can be easily taken in one's own home. Apply for free book to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

WORLD HAPPENINGS BRIEFLY TOLD

Norway's capital is to lose its familiar name of Christiania and be known in the future by its original name of Oslo.

Doukhobors from Kamsack and Buchanan districts who have returned from Mexico have reported unfavorably against a move to that country.

The Virginia Hotel at Calexico, Cal., shifted several inches on its foundation when a pronounced earthquake shock shook the place.

Claims for damage to foreign property filed with the Government in Mexico as a result of the years of revolution there total $250,000,000.

Mennonites colonized in Mexico have bought a carload of sewing machines to make their own clothes because of the high cost of clothing in Mexico.

An embargo on the export of pulpwood from Canada was recommended by Edward Beck, Secretary of the Canadian Pulp Association, before a Royal Commission on the pulp and paper industry.

Inspector T. V. Sandys-Wunsch, R.C.M.P., Vancouver, formerly of Regina, won the military match gold medal for the third successive year at the Canadian Revolver Association outdoor matches at Montreal.

Yields of shelled corn runing from 31 to 65 bushels an acre were recorded in the Shaunavon district this year, according to E. E. Brockelbank, extension department, University of Saskatchewan.

According to the newspapers, the orphaned sister of Jack Cornwall, V.C., boy hero of Jutland battle and other members of his family have been living in poverty, while huge sume were collected for memorials to him.

Worms cause restlessness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Turning Tin Into Copper

They are turning tin cans into copper in Arizona. In many of the mining centres carloads of tin cans as well as scrap iron are put through a process to extract the copper from water seepage pumped from the mines. The water contains a small quantity of copper and the scrap iron and cans go into solution and the copper is deposited in the bottom of the sluices containing the scrap. A very low expense is involved in this process.

Says Gold Crowns Breed Insanity

People with gold crowns on their teeth are inviting insanity, according to Dr. H. A. Cotton, medical director of the New Jersey Hospital for the Insane at Trenton, who declared at a recent Kiwanis Club luncheon that gold crowns, pivot teeth, fancy bridgework and all forms of dentistry tending to infection made a person very susceptible to mental diseases.

Pericles was the greatest statesman of ancient Greece.

MRS. ALBERT BLUNT

KIDNEY TROUBLE?

The Kidneys are the Blood Filters—When They Weaken and Stop Up, The System Becomes Overloaded With Uric Acid.

Toronto, Ont.—"I can highly recommend Dr. Pierce's Anuric (anti-uric-acid) Tablets to all those who suffer in any way with their kidneys or bladder. Anuric is by far the best medicine of the kind I have ever taken. My kidneys were congested and inflamed, my back ached something awful, my bladder was weak and I suffered from a scalding and burning sensation. I was almost down and out—but, thanks to Doctor Pierce's Anuric (Kidney) Tablets I do not suffer any more. Those who suffer as I did will find Dr. Pierce's Anuric Tablets just the medicine they need."—Mrs. Albert Blunt, 6 Blevins Place.

Ask your nearest druggist for Anuric, in tablet form, or send 10 cents to Doctor Pierce's Laboratory in Bridgeburg, Ont., for trial package. Write Dr. Pierce, Prest., Invalids' Hotel, Buffalo, N. Y., for free medical advice.

The Advance of Dentistry

Exhibition in London Shows Teeth for Every Shape of Face

At the Dental Exhibition in the Imperial Institute, South Kensington, S.W., London, there are square teeth for square-headed persons, oval teeth for tapering faces. There are teeth in 40 shades, from perfect white to brown. Some are of a pinkish hue, others bluish and others a yellow brown—the last intended for smokers. The new porcelain teeth, however, never lose their color however much one smokes. They remain a pearly white. The increasing use of X-rays for diagnosis of obscure tooth troubles is one of the chief advances in dentistry during the year.

All Night with Asthma. Everyone knows how attacks of asthma often keep their victims awake the whole night long. Morning finds him wholly unfitted for a day of business, and yet, business must still be carried through. All this night suffering and lack of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

Growth Of Cities Limited

Census Figures Show Very Small Increase in London in Last Ten Years

Just how big a city can grow has long been a subject of speculation. Some persons think that the metropolitan area of New York City will eventually have a population of twenty-five million people. But the census figures of the County of London show that in the years from 1911 to 1921 inclusive the rate of increase in London was only 3.2 per cent., whereas the rate of increase in the rest of the country was five per cent. They show too that in those years there was an actual migration from London of 320,000 and that for the first time in centuries there is a decided tendency of humanity away from the metropolis. Perhaps Greater London with 7,500,000 has about reached the limit of its growth.—Youth's Companion.

GOOD RED BLOOD A REAL NERVE TONIC

Weak, Watery Blood the Source of All Nervousness

"If people would attend to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than anything else."

The sort of thing the specialist spoke of is the nervous, run-down condition caused by overwork and the many anxieties of to-day. Sufferers find themselves tired, low-spirited and unable to keep their minds on anything. Any sudden noise hurts them like a blow. They are full of groundless fears, do not sleep well at night. Headaches and other nerve pains are part of the misery, and it all comes from starved nerves.

Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich red blood. Therefore to relieve nervousness and run-down health Dr. Williams' Pink Pills should be taken. These pills enrich the blood, which tones the nerves, improves the appetite, gives new strength and spirits, and makes hitherto despondent people bright and cheerful. If you are at all "out of sorts" you should begin taking Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadian Newsprint Production

In 1923 six machines for manufacturing newsprint have been installed in Canadian mills, producing 380 tons daily, or 114,000 tons a year. Two machines are planned for January, 1924. Others planned for 1925 will make total increase of over 1,200 tons daily, or 360,000 a year, which would make Canada pass United States production and be the largest producer of newsprint in the world.

Lights As Storm Warnings

Sweden is about to equip its shores with a novelty in the way of storm warnings, pillars of fire readily visible at night from the sea to tell mariners of approaching storms. Strategic points on both the east and west coasts will be selected for the lights, and the new service will be particularly valuable to vessels not provided with radio.

Anatomists pronounce the human hand the most perfect mechanical instrument ever produced by nature.

To make one pound of attar of roses 2,000,000 rose blooms are required.

Minard's Liniment Relieves Pain

Swiss Building A New Niagara Falls

When Completed Will Make Country Independent of Foreign Coal

A new Niagara Falls is being constructed in the Alps at an altitude of 6,233 feet, near Martigny, in the canton of Valais, for the purpose of supplying electric power to the Swiss Federal railways.

A dam is being built across the Barberine cascade, whose waters flow into the Rhine. An artificial lake of 40,000,000 cubic yards will be formed. The dam will be 262 feet high—the same as Niagara Falls. Its length will be 818 feet. The complete cost of the work will exceed $12,000,000.

When completed in 1926 the installation will be capable of supplying sufficient electric power for the entire railway system in Switzerland, which will be independent of foreign coal.

Strengthens the Stomach Improves Digestion

By Clearing the System of Sour, Fermenting Wastes, Dr. Hamilton's Pills Quickly Restore Health

If fermentation of food in the stomach can be prevented, you go a long way towards stopping the most frequent ailment of the day. After once using Dr. Hamilton's Pills the stomach is cleared of the sour, fermenting matter that causes gas, heartburn, indigestion and headaches. You will be pleasantly surprised at the smooth, easy way in which Hamilton's Pills tone up the liver, kidneys and stomach. To secure the aid your system needs, use Dr. Hamilton's Pills. 25c at all dealers.

Renewing the Quarrel

A story is told of two Jews who went to the synagogue on the Day of Atonement, made up their quarrel and shook hands. Then one said to the other: "I wish you all that you wish me." "There you are—beginning again, complained the other.—Toronto Star.

HEART WAS SO BAD HAD TO SIT UP IN BED

Mrs. O. E. Fitzgerald, 106 Ross St., St. Thomas, Ont., writes:—"In the Fall of 1921, I was taken ill with my heart, but I did not pay much attention to it. I kept on with my household duties, but seemed to become worse and worse, and finally had to call in a doctor. He said I was all run-down and was a nervous wreck. I had a severe pain in my chest which would move over to my heart and it became so bad I could not lie down, as when I did I had such a smothering feeling I would have to sit up in bed till it passed away.

I tried several remedies, but with no good results. Finally, I was induced to try Milburn's Heart and Nerve Pills. I took 7 boxes, and I am now as well as I was 30 years ago, and I am now 65 years old."

Milburn's Heart and Nerve Pills are 50c a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Excellent Christmas Service To The Old Country

The Canadian Pacific have made available a fleet of superb steamships and an unusual number of sailings for Christmas travel to the Old Country. In connection with these sailings special tourist sleepers are being operated from Edmonton, Saskatoon, Calgary, Moose Jaw, Regina and Winnipeg, direct to the ship's side at West St. John, thus giving a through service with the only change or transfer being from train to steamer.

The December sailings for which these cars will be operated are: S.S. "Montclaire," December 7th, to Liverpool; S.S. "Melita," December 13th, to Southampton; S.S. "Montcalm," December 14th, to Liverpool; and S.S. "Marloch," December 15th, to Glasgow.

In addition to the through tourist sleepers, a special train will also be operated for the sailing of the S.S. "Montcalm," December 14th. This train will leave Winnipeg 9.50 a.m. Tuesday, December 11th. Special cars from western points will be attached to this train for operation through.

Booking should be arranged early in order to secure the best accommodation, and any Canadian Pacific Agent can make full arrangements. 32-23

Manitoba Wheat Pool

Manitoba has decided to adopt the Alberta form of contract for its wheat pool, reducing the percentage of acreage required to put the scheme into effect from fifty, which is the percentage in the Alberta contract, to forty per cent. The forty per cent. must be obtained by April 1, and when this percentage has been secured, the signers are definitely committed to the pool, according to an announcement by John Ward, secretary of the Canadian Council of Agriculture.

The Liver Is the Road to Health

If the liver is right the whole system is better off. **Carter's Little Liver Pills** awaken your sluggish, clogged-up liver and relieve constipation, stomach trouble, inactive bowels, loss of appetite, sick headache and dizziness. Purely vegetable. You need them.

CARTER'S LITTLE LIVER PILLS

Small Pill—Small Dose—Small Price

WHEN YOUR THROAT IS SORE

It may be only a slight cold now—just a tickling in the throat.

But little colds soon grow large and dangerous. Often they become chronic, develop catarrh and end in consumption.

Catarrhozone is the remedy. It draws inflammation and soreness out of the throat. Relieves the cough, cuts out the phlegm, makes breathing easy, kills any germs lodged in the mucous lining of the throat or lungs.

By using CATARRHOZONE INHALER now and again you keep the passages free from germs, and thereby prevent coughs and colds. Get the Dollar outfit, it lasts two months; small size, 50c; sold by druggists. Refuse a substitute for Catarrhozone. By mail from The Catarrhozone Co., Montreal.

Experts Puzzled By Action of Earthquake

Some Buildings In Japan Stood Strain Of Shock

Building experts are still a good deal puzzled by the performance of various types of architecture under the strain of the Tokio and Yokohama earthquake, and opinions differ as to the ideal structure to withstand violent tremors.

Refugees do not tire of talking of the marvel of the Imperial Hotel at Tokio. The critics of that building had declared it would be a death trap in case of an earthquake, but there it stands with hardly a crack, and only a few of the light standard vases thrown. After the first severe shocks people slept confidently during the quakes that followed for several days and remained inside during the day. One guest says he felt safer in the hotel than outside. He did not know how it was done, or what stuff it was made of, but even the ceiling kept up. In his room there was not even a crack. He reckoned there was only one man who could come to Japan and get big contracts for quake proof building and that was the architect of the Imperial Hotel.

As to reinforced concrete buildings, one hears of all sorts of rumors.

Certainly the proportions of reinforced walls that are standing seems to be larger than brick. And then, as if to ridicule theories, some of the very lofty brick chimneys rear height as if there had been no shock.

But the marvel of the Imperial Hotel remains. The severity of the test may be gauged from the fact that the foundations have settled in parts. For instance, the level of the bath has been found altered. What has frequently been ridiculed as a freak building will now create more interest than ever.

Schooner On Iceberg

A steamer was rounding Cape Horn recently when the captain saw a gigantic iceberg floating in the water, and on it was a large three-masted schooner with its boats still in position, but apparently no one was on board. It was impossible to get near enough to it to see its name, and what had happened to its crew remains a mystery.

Worms, by the irritation that they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

Night Service For London-Paris Air Route

New Machines Will Carry Two Flares On Wing Tips

Plans have been completed for the inauguration of night flying service between London and Paris for carrying passengers and mails. The scheme is the latest addition to the popular Paris-London service, and like all the English services will be subsidized by the government.

This improvement was urged by the post office officials as necessary if the air mail idea is to be developed adequately. Some months ago the air ministry carried out night flying tests with much success, and on the London-Paris airway there is at present, a lighting arrangement on a fairly extensive scale.

Each of the new night flying machines will carry two magnesium flares on the wing tips, which can be lighted at will, in addition to another flare which can be dropped if necessary, for lighting up the landing ground and ascertaining the direction of the wind if other facilities are insufficient.

Secures Buffalo Robe

One of the first buffalo robes from last February's kill at Wainwright was purchased by Sir Henry Thornton for presentation to Mr. Lloyd George as a souvenir of his visit to Canada.

French scientist predicts that in a few hundred years the world will be in the grip of another ice age.

A good memory is one that enables a man to forget the things he does not care to recollect.

Isn't it queer that the things that people want most to know are usually none of their business?

Minard's Liniment for Dandruff

Want Canadian Grain

Demand For Our Wheat From Foreign Countries

"Markets in such places as Philadelphia are calling out for Canadian grains," said Professor Rutherford, Dean of the University of Saskatchewan, interviewed at Fort William on his way west after attending sessions of the royal grain commission of which he is member.

"We do not anticipate any shortage now, in American boats," said Dr. Rutherford. "In fact I understand that one American grain carrying line is adding to its fleet in order to give greater despatch."

Asked if there was any possibility of congestion in eastern ports, Dr. Rutherford said it all depended on Montreal, and it would not take many bushels to create a jam there, or at Port Colborne.

"Montreal will order grain for export as fast as the European buyers send in orders for export, and no faster."

The Druggists All Agree That "Putnam's" Is Best

The oldest corn remover on the market is Putnam's Corn Extractor, and it is the best. Your corns will all drop out after a few treatments with this painless remedy. Failure impossible. Refuse a substitute for "Putnam's," 25c everywhere.

Alberta Registered Seed

Applications are coming in steadily from seed growers of Alberta to have their registered seed handled through the provincial government seed plant at Edmonton. To date more than 58 seed growers have sent in applications. It is anticipated that the plant will handle about six times as much grain this season as last.

ASPIRIN

Say "Bayer" and Insist!

BAYER

Genuine

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians over twenty-three years for

Colds	Headache
Toothache	Lumbago
Earache	Rheumatism
Neuralgia	Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

A pessimist and an optimist were discussing life from their different viewpoints. "I really believe," said the former, "that I could make a better world myself." "Sure," returned the optimist, "that's what we are here for. Now let us go to work and do it."—Philadelphia Ledger.

Only One Friend Left

Taylor.—"My brother has only one friend in the world."

Tyler.—"How's that?"

"He was the judge in a beauty contest last week."—Answers.

Nature may have invented war in order to thin out crowded populations, but man invented automobiles.

When 1,000 people are born in California, 16.7 per cent. of them are negroes.

BACK ACHED TERRIBLY

Mrs. McMahon Tells How She Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not fit to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."—Mrs. J. R. McMAHON, 153 Harvey St., Chatham, Ont.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

Hansen Has Thrown His Crutches Away

"Tanlac is the only thing I can give any credit for helping me," is the precise statement made recently by C. B. Hansen, a well known carpenter, 12835 121st St., West Edmonton, Alberta.

"For three years I had rheumatism so bad in my right hip and foot that I couldn't hit a lick of work. In fact, I couldn't get around at all without my cane or crutches. My pain was almost unbearable. I couldn't sleep and got down to a mere shadow of my old self.

"My case was so stubborn that it took a long, hard pull, but Tanlac finally brought me around in fine shape. It gave me a fine appetite and such complete relief from the rheumatism that I put my crutches aside and went back to work. It increased my weight twenty-five pounds and left me feeling like a new man."

Tanlac is for sale by all good druggists. Accept no substitute.

Returns From Arctic

Hudson Bay Steamer Brings Million Dollars' Worth of Siberian Furs

Baychimo, a Hudson Bay steamer, which has returned to Vancouver from Arctic waters, carried about a million dollars' worth of Siberian furs and a number of passengers.

The vessel, which operated as a passenger carrier during the summer on the Siberian coast, penetrated into the Arctic as far as North Cape.

Nearly all of Siberia is under control of the Soviet Government, and members of the crew reported that much confusion exists. Through a recent treaty between the company and Moscow, the Hudson Bay Company has a monopoly of the fur trade of the country. A representative of the Soviet accompanied the ship on all its journeys. A tax had to be paid on every fur.

The officers said that the Arctic was very clear of ice and that they encountered practically none south of North Cape. They saw the native hunters killing walrus with spears and guns, using skin boats to work among the herds.

British Empire Self-Supporting

Dominions Can Supply Practically Everything that is Required

There is scarcely anything required for conversion into objects of use or luxury which could not be drawn from one or the other of the Dominions. In some the production of agricultural or mineral wealth is already very large; in some it is still comparatively small or only just beginning. In all, it is safe to say, it could be almost indefinitely extended in one direction or another. There could be enough cotton, wool flax, iron ore, and non-ferrous metals to feed all the mills and looms and blast factories and steel works of Great Britain, more than enough food for all its hungry mouths, within the ring-fence of the British Empire, if that Empire's natural resources were developed to even a fraction of their full capacity.—From the London Daily Mail.

The Conquest Of Cancer

Pure Air, Pure Water and a Natural Diet Are Essentials

Since the publication in these columns of my letter on 25th August last, the President of the Imperial Association for the Prevention of Cancer has kindly presented me with a copy of his latest published book, entitled "The Conquest of Cancer." In this work, Dr. Robert Bell, M.D., F.R.F.P.S., etc., pre-eminent authority upon the subject, gives the following advice, from which all readers may obtain personal and lasting benefit:—

"There are three things which Nature has amply provided for us, and the proper use of which will enable us to defy disease in whatever form it may endeavor to attack us, viz., pure, air, pure water and a natural diet. I employ the word "natural" advisedly; because flesh meat is not the natural food of man, nor can this term be applied to ripe fruits and vegetables after undergoing the process by which they are usually prepared for the table."

"In the first place, cooking not only destroys two-thirds of their nutritive value, but also deprives them of the vitols or living principles I have referred to. And in this condition they are more liable to undergo fermentation in the stomach and intestines, than if they had been partaken of, and thoroughly masticated, in the condition which Nature has presented them to us. It will thus be perceived that there is a double economy effected by doing away with cooking such vegetable products, which may preferably be consumed in the sun-cooked condition. Moreover, they are much more palatable in their so-called "raw" state. Furthermore, they are much more easily digested if they are thoroughly masticated, and less liable to undergo fermentation—which gives rise to flatulence—than when reduced to pulp by cooking."

Believing that every man and woman should personally help to relieve humanity from its needless sufferings, the writer has printed and copyrighted a dietary which Dr. Bell has approved. Fathers and mothers, adopting such diet, will speedily find themselves and their children enjoying such health as never before experienced. Consequently, doctors' bills become non-existant and no medicine is wanted. Last, but not least, a considerable money-saving will be effected by a greatly reduced cost of living.

To help some who may not know how to cut loose from civilization's present disease-producing, premature death-dealing habits, the writer will gladly and freely mail one thousand copies of his dietary to the first thousand readers of the Great North-West who apply for same to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

Lumbering In Quebec

Next winter's cut of the Quebec forests is expected to be one of the largest in recent times. Three thousand lumber camps are due to be in operation, employing in the neighborhood of 25,000 men, according to Chief Forester Piche. He stated that there was a scarcity of labor in some sections of the lumber district and that consequently higher wages were being offered as an inducement to go into the woods for the winter.

After Every Meal

A universal custom that benefits everybody.
Aids digestion, cleanses the teeth, soothes the throat.

WRIGLEY'S
a good thing to remember

Keep Stomach and Bowels Right

By giving baby the harmless, purely vegetable, infants' and children's regulator.

MRS. WINSLOW'S SYRUP

brings astonishing, gratifying results in making baby's stomach digest food and bowels move as they should at teething time. Guaranteed free from narcotics, opiates, alcohol and all harmful ingredients. Safe and satisfactory.

B.C. Lumber

Approximately 33,000,000 feet of lumber was exported from British Columbia mills during August. There was plenty of business during September and August.

ECZEMA

You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. 60c. a box; all dealers or Edmanson, Bates & Co., Limited, Toronto.

MONEY ORDERS

News From the Capital

Victoria, Nov. 14.—The guns of the opposition were effectively spiked in the Legislature, when Premier Oliver announced that a most thorough investigation would be made into the affairs of the Pacific Great Eastern Railway. Messrs. Price, Waterhouse and Company have been instructed to enquire fully into all charges made by the Provincial Party and members of the Opposition regarding the construction of the railway by the Northern Construction Company.

For several yeas a determined effort has been made by the Opposition to "start something" in connection with the P. G. E., but without success. Premier Oliver has been subjected to a constant stream of veiled accusiations that all is not as it should be. However, he repeatedly challenged anyone to make a specific charge. None was made. At the last session of the House an opportunity was provided for a review of the P. G. E. accounts, but critics were unable to unearth anything.

So in order to put an end to the campaign of abuse and whispered wrongdoing, the investigation has been ordered. Those familiar with the situation in the Legislature maintain that the only result will be that the Government has been obliged to spend money unnecessarily in order to protect the credit of the province.

Hon. William Sloan, minister of mines, speaking in the Legislature, showed that during the past few years fatalities in coal-mines have been reduced 42 per cent., and that conditions have been materially improved. During the session further amendments to the Coal-mines Regulations Act will be passed.

The Government has promised complete support of the demand of this province for a customs officer at the port of New York, and a resolution to this effect has been introduced into the Legislature and passed.

The Path O'er The Hills

The hills round our valleys are lovely to see,
When Spring its green mantle has spread;
Or Autumn has clothed every sumach and tree
In garments of golden and red.

The creek dashes madly or babbles along
And its murmurs are wise—oh so wise;
When Nature awakens it breaks into song
Or a requiem of grief, when she dies.

There's a grassy, green path, climbing over a hill,
A path that mounts upwards, so high—oh so high,
It leads you to nowhere, you wander at will
And count not the hours as they fly.

The wild flowers surround it in purple and gold
The winds that float over are sweet—oh so sweet;
For there the wild roses their blossoms unfold
And scatter their leaves at your feet.

A brooklet, whose waters are silver and blue,
Comes tumbling o'er rock that are steep—oh so steep;
Its murmurs are all of the elfin folk, who
Holds revels at night, while we sleep.

Midway, B.C. A.M.

Here and There

The season for moose hunting opened in New Brunswick October 1st, and the chief game warden expects one of the best seasons in the history of the province. Game is reported plentiful in all sections.

The drydock at St. John, New Brunswick, is now an accomplished work. It was opened October 29th. The largest drydock in North America, it is capable of accommodating the largest ships of the British Navy.

Speaking in London, England, on October 19th, Sir Lomer Gouin, Canadian Minister of Justice, stated that Canada's exports per capita were three times more than those of the United States and her imports per capita four times more. The British Empire was Canada's second best customer.

There are more telephones in Canada per 100 population than in any other country except the United States. This is shown in a report issued by the Dominion Bureau of Statistics, in which the proportion of telephone users per 100 population is set at 10.53.

A dispatch from London states that a number of cattle from the Prince of Wales' ranch was included in a large consignment of Canadian cattle which reached Cardiff recently. There appeared to be a keen demand for the consignment and 150 head were despatched to Norfolk farmers by special train.

Members of the Bread and Cake Bakers' Association of Canada, at the closing session of their Toronto convention, pledged subscriptions totalling $10,000 towards the launching of a permanent institute of baking, in connection with the Ontario Agricultural College, Guelph. It is expected that the school will be opened early in 1924.

Canadian Pacific Railway figures show remarkable increases in the shipment of grain for the ten week days preceding and including October 18th, this year, as compared with 1922. During the ten days there were loaded for shipment over the whole system a total of 16,195 cars, at the rate of 2,350,000 bushels a day, in comparison with 12,000 cars at 1,753,000 bushels a day last year.

It is expected that by the end of the present month track-laying on the branch of the Canadian Pacific running from Kipawa to the Government dam on the De Quinze River, a distance of 69 miles, with a spur from Gaboury to Ville Marie, a distance of 8 miles, will be completed and that by the end of November the whole line will be ready for operation.

A system of education by mail for those who live in remote rural districts out of reach of rural schools is being prepared by Hon. Perron Baker, Minister of Education for Alberta, to go into effect this month. The working plan has already been drawn up to run through the winter to the end of the school year. It is expected that from 20 to 40 lessons will be given in the case of each applicant for the service.

There is a heavy demand for bushmen, according to the Government Labor Bureau at Montreal. The big lumber companies have been engaging men for the bush, and the prospects are that the demand will be sufficient to make fall and winter conditions good. Wages paid this year by the lumber companies are higher than last year, the rates paid being $40 and $45 a month, whereas a year ago the schedule was down to $26 a month.

With the completion of the harbor works now in progress, Montreal will be in a much better position in 1924 to handle a record flow of grain than ever before. Windmill Point elevator will be increased by 1,250,000 bushels storage capacity, making its total capacity 3,250,000. Four additional shipping berths are being provided at this elevator and will be in commission early next month, and the elevator's loading capacity will be increased from 30,000 to 90,000 bushels an hour.

Reports to the Canadian Pacific Railway, show that there arrived at Winnipeg from the British Isles this year for the purpose of working on the harvest, 11,883 men. Special efforts are being made to find occupation for as many as possible to cover the winter period, and it is stated that it is now probable that a considerable number of these harvesters from Great Britain and the Irish Free State will remain in the Dominion.

Addressing a recent meeting of the Vancouver Board of Trade, President E. W. Beatty, of the Canadian Pacific Railway, announced that the company proposed immediately to add two large modern steamers to its coast fleet in order to take care of increasing tourist traffic over the company's coastal lines. He also announced the early completion of a new pier at this harbor at a cost of several millions, which has been made necessary by the steady development of Canada's trans-Pacific trade.

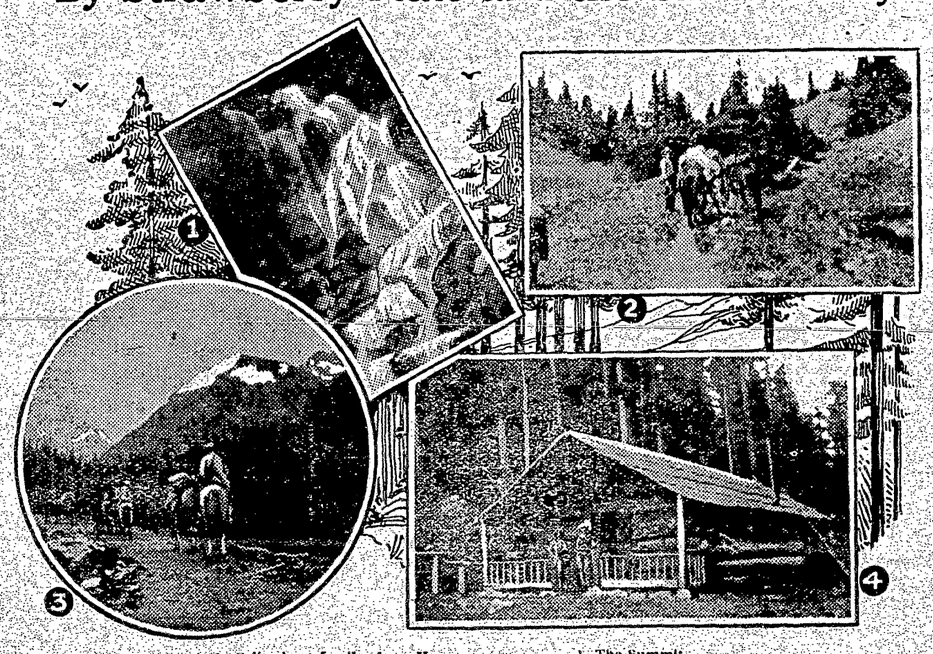
By Strawberry Flats and the Silver Daisy



1—Falls about 5 miles from Hope
2—The Summit
3—On the trail
4—Defiance Camp

The little village of Hope, situated on the Fraser River about one hundred miles from the coast, is the starting point for all mountaineers wishing to reach the interior of British Columbia by the trail route. It is a scattered village of about two hundred inhabitants but possessing both an abundance of natural beauty and a truly romantic past. The village is flanked on one side by the noble Fraser river, while from the other side one looks up three wide draws in the mountain ranges. The one to the left is the beautiful Coquihalla valley through which the turbulent Coquihalla river cascades from a pass unmatched for rugged grandeur. Through this pass too, under innumerable snow sheds and tunnels the Kettle Valley Railway goes to Princeton and the interior. In the centre is an opening for the Nicolum river, to the right is the Silver Creek draw and beyond it the snow-capped peaks of the Cascade range.

The mountain trail over the Hope Pass is the old one known as the Dewdney which was surveyed and partly built for twenty-five miles out of Hope, by English Sappers in 1861. It winds up the Coquihalla River for a short distance, then branches off with the Nicolum, a tributary of the former river. The way lies through Sylvan glades, past rushing waterfalls and over rustic bridges, the old dry "cribbing" of which is as firm as the day when it was laid.

The first feeding ground for horses is at 12 Mile Lake—otherwise known as Divide Lake at an altitude of 2300 feet. This lake is the head waters of the Nicolum river. Here there is a beautiful hay meadow owned by a trapper and prospector who is patiently awaiting the day when the transprovincial road will give him a means of transporting his wealth, in the shape of hay, to outside points.

At 22 Mile there is another beautiful camping spot. Here there is a large cabin situated in the forest's heart on the very banks of the Skagit river. The owner of it carries on prospecting and mining operations in the vicinity. He appropriately calls his cabin "Defiance Camp" and his mine "The Silver Daisy."

From here on for many miles the scenery becomes more wonderful, if that were possible, but at the same time more wild and rugged. The Pass, a narrow hallway bounded by cliffs thousands of feet high, is a sight of never-ending marvel. At one spot, known as Skagit bluffs, the trail (a bare 18 inches wide) winds around the shoulder of a cliff which towers above and drops away a sheer one thousand feet to the bed of the river below.

Then the trail once more drops down to the next feeding grounds at Cayuse Flats which has a sister spot three miles farther on—Cedar Flats. Beyond Cedar Flats lies a long strip of heavy cedar timber, a true "forest primeval." Strawberry Flats, a pleasant open field on the Skagit river at a height of 3700 feet is the last stopping place before the actual ascent to the summit begins. Here, in spite of the high altitude, wild strawberries grow in abundance.

In the next 2300 feet (of the perpendicular of course) one is led to the summit by a series of switchbacks zigzagging up the face of the mountain. The river, which at the foot appeared a torrent, is here a tiny stream, a mere trickle over the stones. Below, the ever-lasting hills unroll themselves for a hundred miles of valley and peak.

When the summit itself is attained a sight never to be forgotten appears. A wide open meadow lies in an inverted crown on the mountain top. Around its edge rise whitish cliffs scarcely distinguishable from the many snow banks. And everywhere, even beside the snow, grows a bewildering variety of wild flowers.

In the centre of the depression lie two lakes, the dividing of the waters, for from the one goes the Skagit river towards the sea and from the other flows the Whip Saw Creek towards the Interior lakes.

As soon as the descent of the eastern slope is begun a great change is noticeable. The grade is easy and steady, the country becomes more open and is clear of the under-brush and ferns so characteristic of the western slope.

The last camp is twenty miles from Princeton but the last nine miles of that distance are covered by a good motor road, the beginning of the proposed Trans-provincial-highway from Princeton to Hope.

About eight miles from Princeton is a wonderfully interesting spot where stratified rocks yielding excellent fossils remains are located on the side of the hill.

Shortly after this the valley opens out before one. Princeton snuggled peacefully into a friendly circle of hills and its two rivers, the Similkameen and Tulameen keeping guard over it. Beyond it, rises a splendid vista of rolling green foothills with more rugged mountains closer in, indicative of the districts most flourishing industries, ranching and mining.

FAMILY BANKING

IN keeping with its practice of extending to its customers every proper banking accommodation, the Bank of Montreal directs attention to the fact that many husbands and wives maintain Joint Accounts with this institution—a convenient arrangement whereby either may deposit or withdraw as the occasion demands.

Chequing Accounts for the purpose of dealing with household accounts may also be opened.

It is the aim of the Bank to be helpful in matters financial.

DEAFNESS CAN BE CURED

DEAFNESS, NOISES IN THE HEAD, AND NASAL CATARRH.

The new Continental remedy called "LARMALENE" (Regd.)

is a simple harmless home-treatment which absolutely cures deafness, noises in the head, etc. NO EXPENSIVE APPLIANCES NEEDED for this new Ointment, instantly operates upon the affected parts with complete and permanent success. SCORES OF WONDERFUL CURES REPORTED.

RELIABLE TESTIMONY

Mrs. K. Wilkiason, of Slad Road, Stroud, writes:—"Please could I trouble you to send me another box of the Ointment. It is not for myself, but for a friend of mine who is as bad as I was, and cannot get any rest for the noises in the head. I feel a new woman, and can go to bed now and get a good night's rest, which I have not been able to do for many months. It is a wonderful remedy and am most delighted to recommend it."

Mrs. E. Crowe, of Whitehorse Road, Croydon writes:—"I am pleased to tell you that the small tin of ointment you sent to me at Ventnor, has proved a complete success, my hearing is now quite normal, and the horrible head noises have ceased. The action of this new remedy must be very remarkable, for I have been troubled with these complaints for nearly ten years, and have had some of the very best medical advice together with other expensive ear instruments all to no purpose. I need hardly say how very grateful I am, for my life has undergone an entire change.

Try one box today, which can be forwarded to any address on receipt of money order for $1.00. THERE IS NOTHING BETTER AT ANY PRICE.

Address orders to:—

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA
The Mineral Province of Western Canada
TO END OF DECEMBER, 1922

Has produced Minerals valued as follows: Placer Gold, $76,542,203; Lode Gold, $109,647,661; Silver, $59,814,266; Lead $51,810,891; Copper, $170,723,242; Zinc, $24,625,853; Miscellaneous Minerals, $1,358,839; Coal and Coke, $238,289,565; Building Stone, Brick, Cement, etc., $36,605,942, making its Mineral Production to the end of 1922 show

An Aggregate Value of $769,418,462

Production for the Year Ending December, 1922, $35,158,843

The Mining Laws of this Province are more liberal, and the fees lower, than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
VICTORIA, British Columbia.
