## IMPROVEMENTS ARE CONSTANT

Solutions of telephone problems are nearly always made in advance of necessity. Improvements are experimented with constantly so that the standard of service may be at all times the very best. It is not that a standard may be maintained, but that the standard may continue to be as close to perfection as it is humanly possible to have it. Problems of speed, accuracy and transmission are always before telephone engineers, and the great and precise mechanisms through which the volume and complexity of telephone traffic is handled are mechanically perfect in the light of present invention.

Sealed tenders will be received by the Minister of Lands at Victoria, not later than noon on the 22nd day of March, 1922, for the purchase of Licence X3662, to cut 10,000 Ties, on an area situated near Westbridge, Similkameen District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Nelson, B.C.

### 2nd Hand Lumber For Sale

All kinds of Lumber, Windows, Doors, One Hot Air Furnace in first class condition, for sale cheap at Mr. Keffer's residence.

MARTIN ANDERSON, Anaconda.

## Around Home

W. C. Wilson left on Monday for Osoyoos.

If your husband is not at home you'll find him at the curling rink.

Chas. Hamerstadt, of Penticton, is spending a few days in town.

Miss O'Neill, of Victoria, is the guest of her brother J. N. O'Neill.

Howard Smith, of Westbridge, spent Friday night with friends in town.

Sheriff Taggart and J. P. Griffith, forest ranger, were in town this week.

Mrs. H. Thomas left on Tuesday morning on a few days visit to Spokane.

Mrs. W. Walmsley is leaving this afternoon on a few days visit to Castlegar.

A. F. Mitcheper and son, of Grand Forks, were in town on Tuesday on business.

The rate of exchange between Canada and the United States is now one quart for ten dollars.

B. R. Ilsley, of Armstrong, Government Veterinary Surgeon is in town testing some cattle.

Chas. Martin, the shoemaker, left on Tuesday morning for Oliver where he will open up a store.

Mr. and Mrs. I. Skelton will leave shortly for Danville, Wash., where they will reside on their ranch.

Inspector C. H. King, of Grand Forks, and Sergt. A. G. Birch, of Midway, of the R.C.M.P. were in town this week.

Mrs. A. Tanner returned to Kettle Valley on Monday after visiting her daughter Mrs. F. Maletta for a few days.

Mrs. Alex Greig has returned from the Grand Forks hospital completely recovered from a severe attack of La Grippe.

A new telephone enables you to see the face at the other end. "Wrong face Central, I wanted a blonde," will soon be the new complaint.

The Greenwood junior hockey team whitewashed at team from Anacoda in a friendly game at the arena on Wednesday night to the tune of 15 to 0.

J. V. Mills, manager of the Bank of Montreal, has been transferred to Armstrong and will move towards the end of next week for that place.

Canadian money is gradually getting back to par on the markets, or in other words, the money of the United States is becoming of less value to us.

E. H. Corpe, of Armstrong, arrived in Greenwood last Thursday to take over his duties as teller in the Bank of Montreal. Mrs. Corpe is expected to arrive shortly.

An Elementary Lecture on Mining and Prospecting by P. B. Freeland, district engineer, will be given in the Greenwood Theatre on Tuesday, March 14th at 8 p.m. Admission free.

The Rock Creek Dramatic Society will present "Magic Pills" a musical revue of much merit in the Greenwood Theatre on or about April 21st, under the auspices of the Boy Scouts.

The Post Office building is to be thoroughly renovated. All the rooms are to be kalsomined, plumbing will be overhauled, carpenter work and painting done and the roof properly fixed.

Roy Spencer left on Saturday for Ottawa. He will be absent about three weeks when he will return to Greenwood for a day or two before moving to another branch of the Bank of Montreal.

## With the Curlers

W. Walmsley's Rink having defeated the old Mother Lode rink skipped by G. S. Walters, was challenged by P. H. McCurrach's Rink for the championship of Greenwood. The game was played on Tuesday night and all unite in saying that it was one of the keenest games ever played west of the great lakes. The game was carried to the last rock in the 12th end and resulted in a win for Walmsley's Rink. The following are the teams:

W. Walmsley, skip, P. H. McCurrach, skip  
G. S. Walters, 3rd. D. Cavaye, 3rd.  
H. R. Bidder, 2nd. G. Hamby, 2nd.  
W. H. Bryan, 1st. C. Nichols, 1st.  
Score - 13 - 10

They do say that when Pete missed that six end that the expression on his face soured half the milk in Greenwood.

The enthusiasm in Curling this year has been so great that it is now certain that Greenwood will be represented at the Winnipeg Bonspiel in 1923-24. Robert Lee has been unanimously chosen as skip of the team.

The wind-up meeting will be held at the Rink on Friday night and will be in the nature of a smoker. The cups will be presented to the winning teams.

## Beware of Drug Peddlers

Because of the publicity which is being given to the campaign against sale and use of narcotic drugs peddlers are taking cover in the small towns and rural parts of the province where they are continuing their nefarious trade. Because of this province-wide moral and health problem, the Provincial Division of the Canadian Red Cross is sending this warning to be published in every newspaper in the province in order that not only the officials but all citizens, especially teachers and parents, should be on the alert against the insidious traffic in drugs.

Dance halls need special watching.

Watch the stranger in town.

Avoid "snow" parties, where snuff (cocaine) is given.

Close chaperonage of girls is the greatest safeguard, and parents should insist on this.

The habit begins by the snuffing of cocaine, which causes a feeling of exhilaration. After three or four doses the user cannot sleep and then the user must resort to morphine.

The Banff Orchestra Dance to be given in Greenwood on March 16th promises to be a huge and swell affair. Already the G. W. V. A. have received letters from outside points telling of the numbers coming to the dance and over 100 visitors have already been assured.

L. E. Brawders, left on Sunday morning for Salmon Arm where he will have charge of the Bank of Commerce. Prior to leaving he was the guest of honor at a smoker and presented with a travelling suit case as a token of the high esteem in which he is held by the citizens of Greenwood.

An exhibition game of hockey was staged at the local arena on Friday night, when the pick of hockey players from Midway played a team from Greenwood. The game was ably referred by Wm. Bryant. His penalties were lenient. Midway showed lack of practise but they put up a plucky fight and played hard against well trained and experienced players. The game was close during the first period, but during the last two periods it was rather one-sided. The score was 10-1 in Greenwood's favor.

## Greenwood Public School February, 1922

DIVISION I

J. N. O'Neill, Principal

No. on roll - 28  
Average daily attendance - 25.85  
P. C. of attendance - 92.32

Proficiency list:

Senior IV: Gordon Jenks, Maria Williamson, Robert Mowat, Mildred McLaren, Emmet Anderson, George Morrison, Silvia Price, Lilly Infilla, Mary Kerr, Sam Eustis, Anand Anderson, Jack Anderson, Estella Storer.

Junior IV: Jesse Puddy, Bessie Bidder, Cecilia Hallstrom, John Kerr, Annie Thorslund, Allan Fraser, Mary Klinosky, Ruby Goodeve, Bennie Hurst, Doris Kinsman, Eraine DuHamel, Vera Walmsley, Edward Johnson, John McDonnell, William McLeod.

Perfect attendance:  
Emmet Anderson, Eraine DuHamel, Sam Eustis, Ruby Goodeve, Cecilia Hallstrom, Bennie Hurst, Gordon Jenks, John Kerr, Mary Klinosky, George Morrison, Robert Mowat, William McLeod, Silvia Price, Jesse Puddy, Vera Walmsley, Bessie Bidder, Doris Kinsman, Edward Johnson.

DIVISION II

Cecilia M. McIntosh, Teacher

Number on roll - 32  
No. in perfect attendance - 25  
Average daily attendance - 30.39

Perfect attendance:  
George Bryan, Eileen Bryan, Walton Crane, Lawrence DuHamel, Lloyd Eustis, Meredith Fenner, Harry Hallstrom, Kathleen McLeod, Malcolm McLeod, Robert Mitchell, Lewis Mitchell, John Putsel, Edward Parry, Bertram Price, Margaret Royce, Marguerite Ritchie, Mary Rambo, Wilfrid Tromblay, Thomas Walmsley, William Walmsley, Arthur Cox, Laura Mills, Allan McCurrach.

Proficiency list:  
Junior Second: Laura Mills, Allan McCurrach, Arthur Cox.  
Senior Second: Margaret Royce, Edward Parry, Malcolm McLeod, Lewis Mitchell, Wilfrid Tromblay, (equal) Walton Crane, Harry Hallstrom, Meredith Fenner, (equal) Eileen Bryan, Mary Rambo, Marguerite Ritchie, Robert Mitchell, Daniel Kerr, Dick Morrison, Thomas Walmsley.

Junior Third: Kathleen McLeod, Irene Inglis, George Bryan, George Hurst, William Walmsley, (equal) Percy Fraser, Helen Kerr, Leo Madden, Lloyd Eustis, Lawrence DuHamel, Andrew Anderson, John Putsel.

DIVISION III

J. M. McKee, Teacher.

Perfect attendance:  
Helen Bakke, Violet Benson, Robert Forshaw, Eugene McGillivray, John McGillivray, Patricia O'Neill, Mary Putsel, Alice Ritchie, Gee Mon Yen.

First Reader: Mary Putsel, Bruce Terhune, Roy Bakke, Eugene McGillivray, Helen Hurst, Helen Bakke, Roy Hallstrom, Robert Carlson.

Second Primer: Patricia O'Neill, Robert Forshaw, Lewis Clerf, Charles Royce, Alice Ritchie, Violet Benson.

First Primer: John McGillivray, Jack Morrison, Francis Jenkin, Beatrice McLaren, Ruth Cox, Albert Kinsman.

## Kettle Valley Notes

Captain Davies returned last Thursday from Vancouver.

It is because some men are crooked that they are able to make both ends meet.

Mrs. Kennedy of Salmon Arm, and Mrs. G. P. Harper, were the guests of Mrs. E. P. Rock.

There would be more wisdom in the world if fathers knew as much as their sons think they do.

Several people are building at Rock Creek. Among others are Ed. Pittendrigh and S. Warnock.

The Junior W. A. held their meeting at the home of Mrs. J. O. Thompson last Saturday at 2 p.m.

A Boy Scout meeting will be held in the Riverside Hall on Saturday, March 11th at 2 p.m. All parents are requested to be present.

P. B. Freeland is giving an elementary lecture on Mining and Prospecting in Riverside Hall on Saturday, March 11th at 8 p.m. A large audience is expected.

Major F. E. Glossop has been under a slight operation on his hand in the Grand Forks Hospital. His many friends will be pleased to hear that he is getting on nicely.

## Midway News

Small guests numbering twenty-eight were entertained by Mrs. H. Pannell on Feb. 28, the occasion being her son's (Master Phillip) 4th birthday. Games of all sorts were indulged in and at 5 o'clock the young folks did justice to a birthday feast. After tea singing and dancing was enjoyed by all. The party broke up at 7.30 all having spent a merry time.

Mrs. H. Griffin who has been staying with her mother, Mrs. Ace Mesker, has returned to her home in Kaslo.

## The North Wind's Malice

As everybody knows, a Rex Beach photoplay like a Rex Beach book is always a winner. But "The North Wind's Malice" by this famous author is a super winner. The most insidious and relentless enemy of the dauntless men and women who dare to brave the northland is monotony. How this unseen power of evil twists and breaks the wills and hearts of men is the theme of this powerful drama. Faultless photography, masterful direction and an exceptional cast combine to make this one of the most remarkable pictures ever shown in this city.

"The North Wind's Malice" will be seen at the Greenwood Theatre on Saturday, March 11th.

## Banff Orchestra

LATEST MUSIC—JAZZ AND CLASSIC

### Select Laxative Medicine With Great Care

In debility and weakness, medicine should be mild and far reaching. Many pills and purgatives are too hard, and drastic instead of curative. Excessive action is always followed by depression, and knowing this Dr. Hamilton devised his pills of Mandrake and Butternut so as to mildly increase liver and kidney activity, so as to flush out the system by toning and regulating the bowels. Thus do Dr. Hamilton's Pills eliminate poisons from the body, thus do they restore clearness to the skin, thus do they renew health and strength. To keep your system in healthy good working order, regulate it with Dr. Hamilton's Pills. 25c all dealers or The Catarrozone Co., Montreal.

### Civilizing The West

Educational Plan Designed to Promote Canadian Unity

The suggestion that post-graduate fellowships be established at Toronto University for graduates of western universities has been adopted by the Canadian Pacific Railway, which starts the ball rolling with three scholarships, valued at \$500 a year each. Other corporations and individuals may be expected to follow suit. Out of the purposes that these scholarships will serve is to keep post-graduate students in Canada when they would otherwise go to the United States or abroad to complete their studies. Another is to make western students acquainted with the eastern provinces and "so tend to promote Canadian unity upon their return to the west," as Mr. Beatty puts it.

The scheme is not unlike that of the Rhodes Scholarships, which was designed to promote a better understanding among the various English-speaking peoples by attracting students from the Dominions and the United States to a British university. Undoubtedly much good will result from carrying it out; but Canadian unity will never be successfully promoted by making the west acquainted with conditions in the east. The east must also be made acquainted with conditions in the west.

Were it possible to examine both sections on their knowledge of each other and of Canada as a whole the west would undoubtedly win hands down. While there have been large influxes of people from the United States and Europe into the west, a very large element in the population of the west hail from Ontario and the other eastern provinces. Outside of a few commercial travellers, a few tourists and some thousands of agricultural laborers there is no considerable element in the east that has ever laid its eyes on the west or has any conception of western problems. A sincere effort has been made by some eastern newspapers to fathom the west and give their readers the facts, with more or less success. Yet one of the Toronto dailies continues to send out exchanges to "Regina, N.W.T."

The youth of the west will profit by coming into contact with the east but to no greater an extent than the youth of the east will profit by learning a little of the west. Canadian unity cannot be developed by one-sided education—Regina Leader.

Bath house proprietors of ancient Pompeii vied with one another in advertising their resorts.

Over 62,000 private wells were damaged or destroyed in France during the war.

### Liver Pains

Pains under the shoulder blades tell of liver derangements. Other indications are sallow complexion, indigestion, constipation, biliousness and bilious headaches. The quickest way to arouse the liver to healthful action is by use of Dr. Chase's Kidney-Liver Pills. Continued use will insure lasting relief, correct the whole digestive system and purify the blood.

Mrs. Win. Barten, Hanover, Ont., writes: "For some time I suffered from liver trouble. There was a hard, bearing-down feeling in my back which I could not get rid of. Some one advised me to try Dr. Chase's Kidney-Liver Pills. I did so, and found them excellent. The dragging feeling in my back disappeared and I felt much benefited generally. I have great confidence in Dr. Chase's Kidney-Liver Pills, and always keep them on hand for general use." Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

### Prisoner Has Menagerie

Tries to Show Sunny Side of Life to Animals

Serving a life sentence in St. Vincent de Paul penitentiary for murder is a prisoner with a strange idea of pets.

He has a snake, a frog and some mice, all kept in cages made by his own hands in the tinmith shop at the big penitentiary. He is considered by the authorities of the prison to be a man that can be trusted and daily plies his trade of a tinmith in the shop, fashioning bread boxes out of tin.

Not only does he make the boxes, but he also does the painting on the exterior of the boxes, on which he inscribes scenes that linger in his memory of days before he was confined behind prison walls.

Among the large number of prisoners who are confined in the institution perhaps this case is the strangest. He has already served a number of years in the penitentiary.

Prisoners in the penal institution are allowed exercise every day. This man noticed a reptile one day in the yard of the jail. He picked it up and made a pet of the creature. Permission was granted him to keep it, as it was a non-poisonous species.

He fashioned a cage, made of the leavings of his daily work in the tinmith shop.

The next addition to his family was a frog. He found it croaking and hopping around the yard of the penitentiary and, after asking permission of the warden, was allowed to add it to his collection. He made a domicile for it.

Following the addition of the frog to the menagerie, a mouse one day crept into the cell of the lifer.

He watched it and after some manoeuvres made it captive. It was added to the collection.

Tended with the utmost care and kindness, these creatures, the snake, the frog and the mouse, have all learned to love their master.

### Weary March Of German Refugees

Travel Nine Months from Volga Region to Berlin

The first party of German refugees from the Volga region of Russia consisting of 28 men, women and children, arrived at Berlin after a journey of nine months. Six months had been spent in continuous travel on foot. They are being quartered temporarily in a railroad station under supervision of the Red Cross.

Two of the original party died on the way. One of them was a baby, born while the refugees were huddled together under Ukrainian snows.

After crossing the Dniester River, the refugees reported they were arrested by Rumanian soldiers and ordered to return. At the same time 300 Jewish and Russian refugees succeeded in crossing. Forty of these were returned and shot on the opposite shore in public view. The German minister in Rumania succeeded in preventing the others from being expelled and helped them to ward Germany.

The families who finally reached Berlin are a part of the German colony in the Saratov district, where, before the war the German population numbered 200,000 comprising 63 villages. Only a few thousand remain, according to the refugees, who said hundreds were shot during the 1919 uprising and others were plundered by the Bolsheviks. The first deaths from hunger, they said, occurred late in 1920 after all farm animals and seed grains had been eaten.

### The War Toll Continues

Men Who Came Back Had Lives Greatly Shortened

Peace did not put an end to the war's toll of death. Besides the 60,000 Canadians who gave their lives while they were carrying on the struggle against the enemy, very many of their comrades who were spared to see their own country again had planted in them the deadly seeds of that warfare, which have since cut them off. Scarcely a day passes without its chronicle of the death of some member of our Expeditionary Force. How saddening such items are to all who are mindful of the heroes who hastened to enlist and go to the defence of the Empire to which their country belongs. Men in the prime of life, men of physical vigor, and of bright promise when the war began, are now dropping off because they gave themselves without stint to the service of their country's defence. The war greatly shortened the days of many splendid men who survived its battles.

### When in Rome

One of the most winning things about John D. Rockefeller, Jr., is that he can jest at his own expense. The story of ordering the top taken off his palanquin in Peking, and going about among a staring people that way; and then discovering that only criminals on their progress toward execution used such a vehicle is an apt illustration.—Brooklyn Eagle.

### The Coming Habit

The Irish Free State has just borrowed \$5,000,000, which shows that it is functioning all right.—New York Morning Telegraph.

The island of Guernsey has enjoyed home rule for several hundred years.

## CASTORIA

For Infants and Children

In Use For Over 30 Years

Always bears the Signature of *Chas. H. Fletcher*

### "Far Fields Look Green"

Everyone Should Learn to Like Their Own Work

No doubt many a man is better off where he is than he would be where he thinks he would like to be. "Far fields look green," says an old adage. It is better to like the things you have than to want the things you cannot have. So they say: "If you can't have what you like, then like what you have."

The great trouble with the industrial world today is that so many young men and women do not look upon toil in the right light and, consequently, it is distasteful to them. Amusements have spoiled fifty per cent. of the young men of today. If they work they want more pay than their services are worth by any true economic standard; and, if they succeed in getting what they want most of it goes for entertainment or wasteful indulgences.

Industrious farmers can look ahead with more assurance of success on the land than nine-tenths of the city workers. The world must be fed and must pay for the food. Prices of some farm products may be low today but they cannot remain low indefinitely. The world's food supply is comparatively low. When money begins to circulate and industry and commerce are re-established in the humming factories and marts of the world farming will not be the "under dog" and the farmer will ask for nobody's sympathy.

### COULDN'T DO HOUSEWORK, HEART WAS SO BAD

Many women get weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

Nature intended women to be strong, healthy and happy instead of sick and wretched. But how can a woman be strong and healthy when day in and day out she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc. Is it any wonder that the heart becomes affected and she gets irritable and nervous, has hot flushes, faint and dizzy spells, smothering and choking spells and can't sleep at night. To all women whose heart is weak and whose nerves are unstrung we would recommend

### MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the system and strengthen the weakened organs.

Mrs. Daniel Beanson, Loganville, N.S., writes:—"As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me."

My heart was so bad at night I could not sleep, I would take smothering spells, and was so weak I could not do my housework. I tried two doctors, but got no results. A friend advised me to try your pills. I used six boxes and am completely relieved. I think they are the best remedy for heart trouble there is."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### Native Sons of Canada

Incorporation Has Been Granted to Organization

Incorporation has been granted under the Companies Act to the Native Sons of Canada, whose incorporators are Victoria, B.C., business and professional men for the purpose of:

"Providing a non-partisan, non-sectarian influence in the administration of the affairs of the Dominion of Canada.

"Creating and fostering a distinctively Canadian national spirit and developing Canadian institutions, literature, art and music.

"Generally promoting the interests of the Dominion of Canada and Canadians."

### Too Literal

The verger was interested in the form of a bill that accompanied the delivery of three tons of coal to the rectory. He could not understand why the bill should be made out: "One ton of coal, 55 shillings; ditto, ditto." The rectory explained that the use of the word "ditto" saved the writing of the whole sentence three times.

The next Sunday morning the verger surprised the congregation by announcing: "Hymn No. 168; Art thou weary? Ditto languid? Ditto sore distressed?"

It is a strange fact that Africans never sneeze.

Best for Baby Best for You

**Baby's Own Soap** so fragrant and refreshing

### For Famine Relief

Saskatchewan Committee to Help Save Children from Famine in Russia

The Saskatchewan committee of the "Save the Children Fund" was appointed at a meeting held in the board of trade rooms. T. M. Bee, Saskatchewan secretary of the Canadian Patriotic Fund, was chosen secretary; G. J. Johnson, honorary provincial secretary of the Boy Scouts, assistant secretary, and D. A. Y. Merrick, manager of the Bank of Nova Scotia, was named treasurer.

Present at the meeting were Captain John Waddington and S. R. Pink, both from the Ottawa headquarters of the fund, the purpose of which is rescue work among the children of the famine-stricken area of Russia.

### When Does Bronchial Trouble Begin To Get Serious?

First it was a little throat tickle, then a cough which grows severe. This neglected cough travels down the lungs and it's mighty hard to treat. To treat throat trouble right use Catarrozone. It heals the sore spots, allays irritation, eases the cough, makes breathing regular, clears out the phlegm and frees the nostrils from crusts and accumulations. You can prevent colds, and keep free from Catarrh and bronchial trouble by frequently using Catarrozone—thousands prove this every day. Sold everywhere, two months treatment \$1.00, medium size 50c, small size 25c.

### New Seaplane is Fast

Has Speed of Ninety-Five Miles an Hour

What is believed to be a new record in seaplane construction has been achieved at Hamble, Southampton.

A new seaplane, designed by the Fairey Aviation Company, who have been specializing in amphibians, lifted the total weight of 7,250 pounds and left the water in 65 seconds.

The important fact, however, is that this was done with a single engine machine. The engine was of Rolls-Royce make.

This load is the actual weight, lifted, the practical, or, as it is technically termed, the "useful" load reckoned by commercial engineers would be 3,100 pounds.

A commercial aeroplane of the same capacity could take up 20 passengers and send them on a voyage of 200 miles.

This new aeroplane is 60 feet across the wing-tips, and its speed 95 miles per hour.

Seaplanes are much more difficult to "get off" than the land machine, so that the time for rising was very good.

The experiment constitutes a fresh advance towards the day of the big commercial seaplane for international travel.

### Painting Conceited Self

The Ex-Kaiser is Doing It in Book He is Composing

For the past year the ex-kaiser has been doing two things in his Dutch refuge—saving wood and writing a book. Several chapters of the latter have been viewed by a close friend of the former ruler.

"What a book it is!" that friend declared to the "International Sunday night." "If it is ever published, it will be a death blow to monarchism in Germany for 100 years."

The informant said the book would indicate that the ex-kaiser had learned little, if anything, by his defeat, and the vast changes that have come over the world since 1918.

Everything that went amiss in Germany before and during the war the ex-kaiser blames on someone else in his memoirs, and he blames himself for nothing.

The memoirs are said to be "replete with obsolete political views," and "erroneous conclusions, all tending to justify the former war-lord's conduct."

### Long Day Coming

Sir George Darwin Says Earth is Slowing Up

Sir George Darwin demonstrated that the friction set up on the earth by the drag of the tides is acting as a kind of brake which slowly but surely is causing the earth to turn more slowly on its axis. So slowly, indeed, that the length of the day—which is decided by one axial revolution of the earth—is increasing by only about one two-hundredth part of a second in a century. But the cumulative effect of this slowing up means that the day will eventually be some 1,400 hours long. And as the earth is retreating on the moon by pushing it further away, when that epoch is reached the month will be the same length as the day, so that the moon will then revolve round the earth in the same time that the earth turns on its axis, and there will be no tides at all.

### Lumber Prices Down

The largest cut in lumber prices made since the war was announced recently, amounting to \$3 per thousand feet, applying to all classes of lumber, rough and finished, and bringing the price of lumber within a few dollars of pre-war prices.

No receptacles has ever been made with sufficient strength to resist the bursting power of frozen water.

### The Horse Not Obsolete

Horses Stated to be More Economical on Farms than Tractors

At a big convention of the Horse Association of America, in Chicago recently, facts were offered to show that horse breeding is far from likely to be a dying industry for some time to come. Statistics given proved that "horses are more economical in every field operation on farms than the more recent iron steeds. Computed on 1911 fed prices, the cost of power an acre, according to the United States department findings, is \$1.37 for plowing with horses, as compared with \$1.72 with tractors; discing, 34 cents with horses and 55 cents with tractors; discing in combination, 32 cents with horses, as against 59 cents with tractors; harrowing, 18 cents with horses, as against 30 cents with tractors; and drawing grain binder, 31 cents with horses and 55 cents with tractors." As the figures have official government sanction, they can be accepted with considerable assurance; but will evidently not prove palatable to the vast concerns associated with farm and city motor industries, who will undoubtedly put up a good case in refutation.

### New Method for Making Hay

Alternate Current of Electricity Will Do Work of Sun

There is a method recently worked out in Switzerland for pressing newly mown grass without first drying it in the sun. All you do is to cart the grass out of the meadow, stack it, and let an alternate current of electricity begin and complete the process. When the method is made commercially practicable, farmers will no doubt rub their hands in glee at this new conquest of the weather. But one may be allowed an expression of sentimental regret at the imminent loss to the language of a proverb that seemed certain of immortality. In future, to advise a doubting friend, with that familiar emphasis which suggests the content of all the wisdom of the ages, to "make hay while the sun shines," will be merely to acknowledge yourself a witless ignoramus.—London Daily News.

### Millions Invested in B.C. Salmon Industry

Salaries in B.C. Run Over Two Million Yearly

The salmon industry in British Columbia represents a capital investment of \$16,000,000, and payments to the producers of the raw material runs close to \$4,000,000. Cannery employees are paid over \$2,000,000 annually, and the number of persons employed in the industry exceeds 17,000. Over \$300,000 is paid each year to local merchants for supplies such as groceries, and the cans used for packing salmon cost over \$2,000,000.

### How Weights Were Established Canada the White Coal Country

Table Built Up from Actual Use of Grain

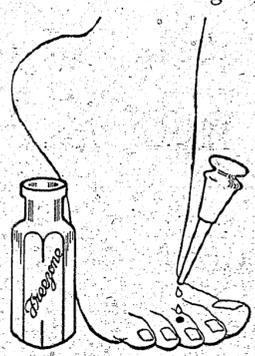

During the reign of Henry VII. were established standards of length and weight with actual grains of wheat and barley as a basis. Three barley-corns were an inch, and from that was built up our table of inches, feet, ell (yards), perch and acre. One restriction was that the barley corn must be dry and taken from the middle of the ear and laid end to end. Under this same system 30 grains of wheat made a pennyweight, and from that as a basis they worked out the Troy pound in which 12 ounces still make a pound. Originally the sizes were based upon grains of barley, and it is said that these are the same today as in the early days. There were 13 grains of barley to each size. "Furrow long" is an old English word meaning "furrow long," and is based upon the length a furrow would be in a square 10-acre field.

Immense Water Power Available in the Dominion

According to estimates published by the Dominion Water Powers Branch of the Department of the Interior the total water power installation throughout the Dominion is about 2,418,000 horsepower, of which 2,215,000 horsepower is actually and regularly employed. The ultimate capacity of plants now operating or under construction total 3,385,000 horsepower and the capital invested amounts to more than 400,000,000 dollars.

## CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

# Reciprocity Question Will Form Material For Debate At Ottawa

Ottawa.—The developments at Washington have brought declarations in regard to the reciprocity conversations which will be keenly discussed at Ottawa, and are likely to form material for debate in the coming session of Parliament. First comes the declaration by Mr. Fordney, chairman of the ways and means committee of the House of Representatives, that the United States is not prepared to discuss a general reciprocal trade agreement at the present time. Such a declaration on the part of Mr. Fordney did not cause any surprise. Mr. Fordney is an advocate of high tariffs. The emergency tariff bill which is pressing on Canadian exports of farm produce, to the United States bears his name. And it is not likely that Mr. Fordney's views on tariff legislation have lately undergone much change.

Here, it is felt in Ottawa, now lies the crux of the situation. Under the new tariff bill, the President is to be given power to modify rates to a certain extent; and the idea prevails that this was an important factor in Mr. Fielding's recent interview with President Harding. Mr. Fielding holds strongly to the reciprocity pact of 1911. But, as there is apparently no chance of its being favored by the present Congress, it is thought Mr. Fielding will now turn his attention to such steps as may lead primarily to modification of the present heavy tariff on Canadian wheat and cattle.

But, coupled with Mr. Fordney's declaration in this regard, is the intimation that President Harding has declared the intention to open negotiations with Canada once the pending tariff bill becomes law.

# WOMEN OF ERIN TO HAVE FRANCHISE

Dublin.—An ineffectual attempt of the opponents of the Anglo-Irish treaty to secure a decree enfranchising women to vote at the forthcoming elections, developed much bitterness and the free use of personalities in session of the Dail Eireann, but the discussion showed that the supporters of the Free State, equally with the republicans, were unanimously in favor of equal suffrage, and Arthur Griffith, president of the Dail, said he was willing to incorporate the principle in the Free State constitution.

terms as Irish men and argued that there would be no difficulty in compiling the new register. This motion was seconded by Alderman MacDonagh. Mr. Griffith opposed the motion as "one of the torpedoing devices of the opponents of the treaty," whose plans even included strikes. He himself was a suffragist, but he would not allow this dishonest trick to impede the elections. He turned angrily on Count Plunkett who interrupted him, and cried: "I was supporting woman suffrage when you were hanging out flags for the King."

# FRANCE WISHES TO GUARANTEE PEACE

Paris.—Premier Poincare, speaking at a luncheon given by the Anglo-American Press Association, said that "French imperialism is the old scarecrow which long ago was laid to rest alongside the tomb of Napoleon in the Invalides." He declared that there was not a single Frenchman who had a thought, either for the present, or tomorrow, or for a later period of any warlike enterprise or of annexations. "We have no other wish than to guarantee peace," continued the premier. "Unfortunately, we are not guaranteed against those who might trouble us. Unlike England, with her sea belt, and unlike the United States by the absence of any dangerous neighbor, we are obliged to adopt some precautions against a renewed attack and invasion. It is not with a light heart that we still impose upon ourselves sacrifices in order to remain in a state of defense."

# Thankful for Good Will

Princess Mary and Viscount Lascelles Now Wish to be Left Alone. Shifnal, Eng.—The honeymoon of Princess Mary and Viscount Lascelles will be spent in seclusion at Weston Park. They expressed great gratitude for the tremendous display of good will at their wedding, but now they frankly wish to be left alone in their manor with its 11,000 acres of playgrounds. There is no formality in the mansion and there are no court attendants or relatives. There are only a few servants whose purpose is to make the seclusion of the pair absolute. The telephone has been disconnected in order to make them secure from outside intrusion. It is the purpose of the couple not to leave the manor for at least a few days. In the meantime the great estate offers all they want in the way of diversion and exercise.

# Griffith In Control Of Irish Situation It Is Conceded

Dublin.—Numerous clashes occurred again in the Dail Eireann, the feeling running high. Eamon de Valera continued to press for recognition of the Dail's supremacy, but the ministers of the provisional government held firmly that they were responsible only to the Irish people. Divisions continue to show there is no doubt that Griffith is in control. Observers expressed the opinion that the net result of the two days' debate has been to strengthen the hands of the provisional government, and increase public confidence in their ability to handle the situation. In the course of a long debate on the election machinery Arthur Griffith maintained his determination to hold the elections as arranged three months hence and on the old register.

The members of the provisional government displayed intense impatience at the tedious debates, which they call an appalling waste of time. They have much work to do in connection with getting the Free State established, and are eager to get on with it. Michael Collins, on adjournment, bitterly reproached his opponents for failing to submit a single constructive idea. The finance minister's feats of endurance amaze his associates; he works daily until 2 or 3 o'clock in the morning, getting only four or five hours' sleep. The nature of the work of the provisional government ministers, Mr. Collins informed the Associated Press correspondent, was so complicated that it could not be delegated to subordinates.

# AWARDED SEAT IN HOUSE OF LORDS

LADY RHONDDA FIRST WOMAN TO SIT IN UPPER HOUSE. London.—The petition of Lady Rhondda to sit in the House of Lords was granted by the committee on privileges of the House of Lords. If she takes the seat awarded her by this ruling she will be the first woman to sit in the upper house of the British Parliament as Lady Astor was in the lower chamber. Lady Rhondda is the daughter of the late Viscount Rhondda, Great Britain's war-time food controller who died in 1918 from an illness brought on by overwork. He left no male heir, his only child being the daughter, wife of Sir Humphrey MacWorth. After Lady Rhondda's right to the present title was established her counsel argued that the sex disqualification removal act clearly applied to a case like the present, and that the disability existing in the past now being removed, Lady Rhondda was entitled to sit in the House of Lords. After further argument the attorney-general on behalf of the Crown, said he raised no objection to the petition, which was therefore granted. Lady Rhondda thus becomes the first woman to sit in the House of Lords.

S. N. Wynn, Managing Director of the Enterprise Publishing Co., Ltd., Yorkton, Sask. He is the Saskatchewan representative of the Board of Directors of the Canadian Weekly Newspapers Association, and President of the Saskatchewan Press Association.

# May Abandon Coalition System

No Progress Towards Solution of Britain's Political Crisis. London.—The political crisis projected by the Prime Minister has made no progress toward solution, and nobody ventures a prediction as to how it will eventually be solved. In its essence it is less a personal conflict between Mr. Lloyd and Sir George Younger, leader of the Conservative secessionists, than a symptom of the struggle on the part of the three principal parties, Conservative, Liberal and Labor, to abandon the Coalition system, which is generally considered to have outlived its usefulness and get back to the old party system.

# WINS DOG DERBY IN RECORD TIME

Morgan's Team Makes 200 Miles in 24 Hours 51 Minutes. The Pas—C. B. Morgan's team, driven by Bill Grayson, finished first in the Pas dog derby, with all dogs in excellent condition. Grayson reports that he and Theo Dupas, driving the Dupas-Bancroft team, arrived at Ware House, fifty miles from The Pas on the return trip together, where he left Dupas and proceeded alone. Morgan's team won last year's race. His time was 24 hours and 51 minutes for the 200 miles, establishing a world's record.

# GREECE RELEASES FRENCH STEAMSHIP

WAS SEIZED BY GREEK TORPEDO BOAT ON FEBRUARY 12. Athens.—The Greek Government has formally released the steamship Espoir which was captured by a Greek torpedo boat destroyer off the coast of Asia Minor on Feb. 12. Seizure of the Espoir was the subject of two notes to Greece from the French Government, the first demanding release of the vessel and cargo and the second threatening retaliatory measures if the request was not granted. Allegations that contraband cargo was carried was denied.

# Building Contracts Show Increase

February Report Showed Encouraging Advance Over January Figures. Toronto.—The volume of contemplated new building construction reported in Canada during February, according to figures compiled by MacLean Building Reports, Limited, amounted to \$27,011,500, compared with \$22,319,600 in January. The value of contracts awarded in February amounted to \$19,715,300, and represents an encouraging advance in January figures of \$8,392,600.

# Can Hear Appeals

Divorce Court Appeals Can Now Be Heard in Manitoba. Winnipeg.—Divorce court appeals can be heard in the Appeal Court of Manitoba, according to a judgment issued by judges of the Manitoba Appellate Tribunal. Provision for appeal to the Appeal Court under the law should be made by the Provincial Legislature, according to the decision. The case from which the legal point arose, appealed from a decision of Chief Justice Mathers in the King's Bench, who would not grant a divorce. The Appellate Court was appealed to, and the legal point arose as to whether the court could hear divorce appeals.

# ACHES AND PAINS—SLOAN'S GETS 'EM!

VOID the misery of racking pain. Have a bottle of Sloan's Liniment handy and apply when you first feel the ache or pain. It quickly eases the pain and sends a feeling of warmth through the aching part. Sloan's Liniment penetrates without rubbing. Fine, too, for rheumatism, neuralgia, sciatica, sprains and strains, stiff joints, lame back and sore muscles. For forty years pain's enemy. Ask your neighbor. At all druggists—35c, 70c, \$1.40. Made in Canada. Sloan's Liniment (Pain's Enemy)

# KING GEORGE SUES PRESIDENT HARDING

ASKS DAMAGES FOR ALLEGED NON-DELIVERY OF CORNED BEEF. Fort Worth, Tex.—King George of Great Britain, through his attorneys, has filed a suit in district court here against President Harding, asking damages of \$1,079 for the alleged non-delivery by the Rock Island Railroad of 64 cases of corned beef, during the war. President Harding is a party to the suit because the railroad is the defendant and the United States Government had control of the railroads for a period during the war. King George was the only plaintiff named in the suit. According to the suit, the corned beef, which was to be shipped from here to Hoboken, N.J., never was delivered.

# Should Reach Wage Agreement

Would Facilitate Making Contracts and Help the Farmer. Victoria.—Unemployment in Canada at present is 5 or 6 per cent, greater than at the corresponding time last year, Bryce M. Stewart, director of employment service, Ottawa, told officials of the four western provinces of the employment service of Canada when the annual conference opened at the parliament buildings here.

Prospects of improvement, said Mr. Stewart, depend partly on employers and employees reaching agreements on wage scales to enable the making of contracts with some certainty as to future costs. Improvement in employment conditions in agricultural Canada, he continued, will be brought about by restoration of the farmers' purchasing power, either through better prices for farm produce or lower cost of commodities which the farmer must buy.

# WINS DOG DERBY IN RECORD TIME

Morgan's Team Makes 200 Miles in 24 Hours 51 Minutes. The Pas—C. B. Morgan's team, driven by Bill Grayson, finished first in the Pas dog derby, with all dogs in excellent condition. Grayson reports that he and Theo Dupas, driving the Dupas-Bancroft team, arrived at Ware House, fifty miles from The Pas on the return trip together, where he left Dupas and proceeded alone. Morgan's team won last year's race. His time was 24 hours and 51 minutes for the 200 miles, establishing a world's record.

# Would Eliminate Option of Fine

Member for Roblin Advocates Jail Sentences for Bootleggers. Winnipeg.—Jail sentences without the option of a fine for all persons convicted of bootlegging in Manitoba is provided in a resolution to be brought before the provincial legislature by Major H. R. Richardson, member for Roblin. In his resolution Major Richardson points out bootlegging is growing to an alarming extent in Manitoba and endangering the lives and health of the population.

# Soviets Abandon Salt Monopoly

Has Been Considered One of Russia's Important Commodities. Moscow.—The Russian Soviet Government has abandoned its monopoly of the salt industry. Salt has heretofore been considered one of the most important key commodities of the country. The newspaper Pravda, in an editorial, advocates abandonment of state trading. "The time has come to give up the idea of concentrating the entire state trade in one hand. The Government should try to control only two or three of the chief products," it says.

# Steel Works to Close

London.—The steel works at Drok enhill, N.S.W., are expected to close definitely within a fortnight, directly or indirectly rendering many thousands idle, says a Reuter dispatch from Sydney.

# Protest Against Drill Ground

Berlin.—The request of General de Goutte, commander of the allied troops on the Rhine for a new drill ground in the Bavarian palatinate and a small gauge railway leading to it has been protested by the German Government on the ground that it is a violation of the peace treaty not in accord with the Rhineland agreement which did not obligate Germany to establish more drill places.

# Desire Participation

Paris.—It is understood that Argentina and Brazil have addressed to Italy a request for participation in the Genoa economic conference.

# Austen Chamberlain Wants British Premier To Stay On The Job

Oxford, Eng.—Right Hon. Austen Chamberlain, Government leader in the House of Commons, in an address here, announced that after consulting his colleagues in the Cabinet, he had given Mr. Lloyd George a unanimous reply that they considered it necessary in the national interest that the Premier should continue to carry on the Government. Mr. Chamberlain said that when Premier Asquith resigned during the war, Lloyd George had not sought the premiership, but desired to serve under Arthur J. Balfour or Andrew Bonar Law. Both these men thought it in the national interest that Mr. Lloyd George should have the premiership and he accepted the post at their request. Mr. Lloyd George then said if, at any time, he felt that the country's interests would be better served by the return to party Government he gladly would retire in favor of either Mr. Balfour or Bonar Law.

through the dangers of war as his combination has done." Mr. Chamberlain highly eulogized the achievements of Mr. Lloyd George at home and abroad. He argued that British counsels carried the greatest weight in Europe and declared that the Premier's colleagues felt that to accept his offer would be to prejudice that stability which it was the privilege and duty of the Conservative party to preserve. Mr. Chamberlain referred to the Irish settlement as having been "a shock to some of our oldest friends," but declared he had nothing but high regard "for the men who differ from us. I look forward to the time when this question is removed and we shall cooperate as loyally as we have done for many years past," he said.

# Should Reach Wage Agreement

Would Facilitate Making Contracts and Help the Farmer. Victoria.—Unemployment in Canada at present is 5 or 6 per cent, greater than at the corresponding time last year, Bryce M. Stewart, director of employment service, Ottawa, told officials of the four western provinces of the employment service of Canada when the annual conference opened at the parliament buildings here.

# Desire Participation

Paris.—It is understood that Argentina and Brazil have addressed to Italy a request for participation in the Genoa economic conference.

# The Mennonite Exodus

Winnipeg.—Marking the beginning of the Mennonite exodus from Manitoba, a party of the Old Colony Mennonites from Plum Coulee, Man., passed through here on the first stage of their journey to San Antonio, Mexico. They are travelling in a special train of 23 cars, bearing household effects and two passenger cars. About 200 persons compose the vanguard of the exodus.

# Hon. Larkin as Privy Council Member

Ottawa.—P. C. Larkin, who was recently appointed Canadian high commissioner in London, will shortly be sworn in as a member of the Privy Council of Canada. His appointment to the Privy Council dates from March 1st, when he assumed the duties of high commissioner. Membership in the Privy Council carries with it the title of Honorable.

# Canada's Enormous Coal Reserves Add To Our National Wealth

Ottawa.—In the course of his address before the Canadian Institute of Mining and Metallurgy, C. V. Corless, president of the institute, referred to Canada's enormous pre-cambrian area surrounding Hudson Bay, as a veritable treasure house of minerals, where real prospecting had scarcely begun. This area included the nickel mines at Sudbury, silver mines at Cobalt and gold mines at Porcupine, one of which might soon reach the position of the world's greatest producer.

# Corless predicted that enormous mineral treasures awaited discovery by "the thrifty people of this province."

Mr. Corless referred to the tremendous coal reserves in Canada, estimated at 1,234,000,000 tons or 35,000 times the present annual consumption. He pointed out that though Canada was spoken of as an agricultural country, only 15 per cent of the area of the Dominion was suitable for cultivation, while 90 per cent would undoubtedly produce great mineral wealth. He suggested that the mining industry should receive a large share of Government assistance.

**AFTER EVERY MEAL WRIGLEY'S SPEARMINT THE PERFECT GUM TASTE**

The word "filmy" is not derived from the kind of dresses some of the ladies wear in the moving pictures.

The British pound was selling in Canada for \$4.56 1/2 during the past week. This made exchange look like 30 cents.

Why is it that the artists picture only women as angels? Is it because they do not know women or because they know only men?

When Canada's new High Commissioner to Britain takes over his duties the office at London should be livelier than under his predecessor. At any rate, there'll be Larkin there.

A writer in a paper has written an article about "Women and again women and still women." A friend pointed out the heading to us with the remark that he'd never run across any of the last kind and didn't believe there "wasn't no such animal."

The art of prospecting sometimes seems as though dying out in British Columbia. The days of the old methods are nearly gone, and it would seem as though the lack of appreciation of the need for newer methods. A good constitution, a pick, shovel and pan are not all a man needs now.

The temperature dropped to 62 below at Dawson City the other day. That reads like very cold weather, even to those conversant with a temperature of 20 below; but Dawson City is not by any means the coldest part of North America. Lowness of temperature is a rather peculiar thing, and is not governed by proximity to the pole, but much more by local conditions. The coldest spot known on earth is in North Eastern Siberia which is not so far north as latitude goes. Here the temperature sometimes reaches 90 degrees below zero.

**Anaconda Shavings**

(By Spoke-Shave)

The Bachelor members of the Anaconda Social Club will provide and serve the supper at tomorrow (night's) dance. The season drawing to a close all members should endeavor to be present in order to voice their opinions as regards the future of the society.

Two sleigh loads, comprising of some 25 Anacondians journeyed out to the Roylance Ranch at Boundary Creek, on Friday last when they surprised Mr. and Mrs. R. Roylance recently from Saskatchewan. The surprised rose to the occasion, and a most enjoyable evening was spent. All manner of games were played. Supper being over, dancing was carried on until 3 a.m. when the guests took leave. The ride to and fro was delightful, the night being warm and sleighing conditions excellent.

Last Saturday evening some 6 or

7 sleighs well laden with dancing enthusiasts, left the locality for the surprise dance at R. Folvik's ranch, returning near 8 a.m. Sunday. About 60 were present by which characterise the fame of the Folvik dances. People were present from Anaconda, Boundary Falls Greenwood and other places. The music for dancing was supplied by Mr. and Mrs. Geo. Watson, Gus Graser and Bob Folvik.

Last week Mrs. Dockstader and Mrs. Boag entertained numerous guests at their respective homes.

Mr. and Mrs. E. F. Keir left last Saturday for the Forks where they are spending a few days with friends.

The anonymous postcard reached its destination o.k. Spokeshave tenders his heartfelt benevolence and sympathy to the so sorely stricken sender.

There was another instance of a revival of the Anaconda cattle market last week.

The present economic crises evidently does not seem to dampen the enthusiasm of the Boundary-ites.

Social events of recent happenings are almost too numerous to mention. It is commendable to be able to observe such a feeling of optimism prevalent after such an unsuitable epoch as the past few years. It is to be hoped that 1922 will once more see economic and commercial solvency.

The Bell mine, at Beaverdell is yielding a holiday to its employees to enable them to attend the G.W. V.A. Banff Orchestra Dance in Greenwood on the 16th inst.

Jim O'Connor, of Ferry was in town on Monday, an old timer of this locality and a war veteran.

**Evil of Gossip**

The Toronto Globe says that two men who have been personal friends for forty years have been converted into personal enemies by a Division Court case, assisted by the willing efforts of some village gossips. An unkind word was dropped by one of the men, gossips carried the story, and the harm was done.

The Belleville newspaper makes this the text for a sermon against malicious gossip, or even jocular gossip which may be misinterpreted. It is a warning that is needed. Newspapers are often criticized for carelessly injuring reputations, but newspaper gossip is much less harmful than that which never gets into print.

A newspaper can be called to account for a libel, either by legal action or by reply and remonstrance. There is a sense of responsibility which checks a decent newspaper, but there is a far weaker check upon the unprinted word. Besides, in the latter case, the victim has no adequate means of vindicating himself.

The blow, whether the result of malice or mere carelessness, is given in secret. And as it is impossible to weigh every word that is spoken in private conversation, the only real remedy is the charity which seeks out the good rather than the evil in character and conduct.

**BRITISH COLUMBIA**

The Mineral Province of Western Canada

TO END OF DECEMBER, 1920

Has produced Minerals valued as follows: Placer Gold, \$75,944,208; Lode Gold, \$102,753,823; Silver, \$53,668,284; Lead \$46,637,221; Copper, \$161,513,864; Zinc, \$19,896,466; Coal and Coke, \$212,573,492; Building Stone, Brick, Cement, etc., \$32,168,217; Miscellaneous Minerals, etc., \$1,037,408; making its Mineral Production to the end of 1920 show an

Aggregate Value of \$706,192,978

Production for Year Ending December, 1920, \$35,543,084

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with mining Reports and Maps, may be obtained gratis by addressing—

**Synopsis of**

**Land Act Amendments**

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 per acre, including clearing and cultivation of at least 1/2 acre, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvement to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptors holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

**PRE-EMPTORS' FREE GRANTS ACT**  
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time in which the heirs or devisees of a deceased pre-emptor may apply for title under the act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provisions for return of moneys accrued, due and paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or rural lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31st, 1920.

**SUB-PURCHASERS OF CROWN LAND**  
Provision made for insurance of Crown Grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

**GRAZING**  
Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers up to ten head.
