Christian Valley

There are 18 children attending
school this term.

P. L. Wilkinson has returned
from the coast to teach school.

Melvin Schenck is cutting the
second crop of clover on his place.

Guner Lindgren has returned
from a visit with friends in Grand
Forks.

Jack Cochran has returned home
after taking the surveyors down to
Rock Creek.

W. Jones, fire warden, and R.
E. Norris, game warden, were in
the valley last week.

E. V. deLaTour is back home
with a load of lumber. He was
unfortunate in having a break
down on the way home.

Land is now surveyed to nine
miles beyond the end of the settle-
ment. This should be good news
to those looking for land.

W. Jenks and Chas. Patworth
were visitors in the valley this
week from Greenwood. They
were lucky in getting a two point
buck on their way up.

P. B. Freeland, government
mining engineer, of Grand Forks,
was up to inspect some mining
properties on Copper creek last
week. While here he took a
sample from the mineral spring.
If this spring is as good as it is
said to be, it may have a commer-
cial value.

Around Home

T. Witte left on Tuesday for
Lumberton.

T. Rowe has returned to town
from Fairview.

Push your business for all its
worth every day.

Bite off more than you can
chew; then chew it.

Eddie Morrison left Sunday
morning for Vancouver.

Mrs. Chas. Tye left yesterday
morning for Vancouver.

Wm. Jenks is attending the
Fair in Nelson this week.

Roy Connor, of Grand Forks,
was in town on Saturday.

Harold Mellrud returned on
Saturday from Penticton.

Cash paid for hides at Brown's
Midway.

The next holiday is Thanks-
giving Day, Monday, November
6th.

Mr. and Mrs. Chas. King are
spending a few days in Grand
Forks.

J. L. White, deputy provincial
secretary, was in town on Sun-
day Monday.

49lbs Ogilvie's Royal House-
hold Flour \$2.15 a sack at Mc-
Munn's Midway.

Mr. and Mrs. Silas Smith, of
Copper Mountain, are renewing
acquaintances in town.

There will be no trapping in
the eastern district south of the
main line of the C.P.R.

R. B. Masterton has been pro-
moted to vice-principal of the
Kamloops High School.

Mrs. L. Portmann returned
Saturday morning from Halcyn
greatly improved in health.

The school children were let
out early on Monday in order to
do certain repairs to the building.

Matins and Holy Communion
will be held in St. Jude's Church,
on Sunday, Sept. 24 at 11 o'clock.

Eric Randall arrived from
Nanaimo on Friday and has
joined the staff of the Bank of
Commerce.

Geo. Sutherland left Wednes-
day morning for Beaverdell
where he will install a compressor
at the Sally mine.

Mr. and Mrs. E. Hooker arrived
on Sunday from Lethbridge and
have taken up their residence on
Kimberley avenue.

Mrs. George, of Vancouver,
Chief of the Rebeccas was in
town for a few days and while
here was the guest of Mrs. W. B.
Fleming.

Jas. Muir, manager of the
Canadian Bank of Commerce,
Mrs. Muir and daughter Dorothy,
are on a motor tour of the
Okanagan.

Mr. and Mrs. P. E. Crane and
son Walton, returned on Saturday
from a three weeks trip to Van-
couver, B.C., Seattle, Wash. and
Snohomish, Wash.

Word has been received from
Gurney Randall that he has ar-
rived safely in England after
travelling for over a month going
by way of the Panama Canal.

A drive through the country
side now is refreshing and a cure
for pessimism. It never looked
better and there should be pray-
ers of thanksgiving every day.

H. G. Neelands, collector of
customs at Osoyoos, accompanied
by Mrs. Neelands and son, Fred,
were the guests of Robt. Wilson
on Saturday. They are on a
holiday trip and stopped over on
their way to Nelson.

E. F. Helliwell, commercial
supt., and N. G. Fitchpatrick,
traffic supt., of the B. C. Tele-
phone Co., both of Vancouver,
were in town on Monday and in-
spected the local office and found
everything in a most satisfactory
condition.

Liberals Meet at Riverside

An enthusiastic gathering of
Liberals was held in Riverside
Hall, Rock Creek, at 3 p.m. on
Wednesday, Sept. 20, when over
100 were present. The officers of
the district Liberal Association
were elected as follows: President,
T. M. Gulley; Vice-Pres., Michael
Dumont; Sec.-Treas., Jas. Kerr;
Executive Committee, F. F.
Ketchum, D. J. McDonald, S.
Fretz, H. R. Bidder, H. McKee,
L. Bryant, J. H. Goodeve, Joe
Caron, J. R. Ferguson, W. C.
Salmon, Ed. Stiles, O. Wheeler,
W. Clark, Geo. Lord, R. G. Sidley,
L. Clery, Jim Dale, Mrs. A.
Legault, Mrs. G. Inglis, Mrs. J.
Drum, Mrs. Letts, Mrs. Joe
Christian.

Delegates to the Provincial
Liberal Convention in Nelson on
Sept. 28-29 were also elected and
are as follows: J. H. Goodeve,
T. M. Gulley, J. Kerr, H. R.
Bidder, Mrs. Kerr, Mrs. Drum,
M. Dumont, Joe Caron, J. R.
Ferguson, D. J. McDonald, O.
Wheeler, F. F. Ketchum, Mrs.
Ed. Richter, Dan McGillis.

The Greenwood Moving Pic-
ture Theatre is maintaining a
high standard of pictures and are
receiving well-merited support as
witness the crowded houses every
Saturday night.

G. S. Walters, H. R. Bidder,
A. J. Morrison, W. Walmsley,
A. N. Mowat, L. Terhune, H.
Bryan, C. T. Fenner, D. McGillis
and G. Boag went to Grand
Forks on Tuesday evening to
attend an initiation ceremony of
the K. of P.

The Dominion Wholesale
Liquor Co., Ltd., have rented a
store in the Miller Block, next to
Goodeve's Drug Store, and will
conduct a wholesale export liquor
business here with Wm. I. Kris-
man as manager. They have al-
ready established offices in Win-
nipeg, Man., Govenlock, Sask.,
Creston, B.C., and Vancouver,
B.C.

On Friday evening Mr. and
Mrs. T. Jenkin entertained about
25 young people, their home be-
ing beautifully decorated with
fall flowers for the occasion. A
merry time was spent playing
cards till 10.30, when the floor
was cleared for dancing. Miss
Stewart, who is a very able pian-
ist, kept the crowd in great
spirits with jazz music. At 12
o'clock a delicious supper was
served, Miss G. Lee and Mrs.
J. Dockstead assisting Mrs.
Jenkin. Dancing was continued
until 2.30, when the young
people left for home, after voting
Mr. and Mrs. Jenkin an ideal
host and hostess.

The reception given by the
Ladies Aid in the Presbyterian
Church on Tuesday evening in
honor of Rev. and Mrs. W. R.
Walkinshaw was a most pleasant
affair, over 75 people being pres-
ent. The object was to give the
good folks of this town an oppor-
tunity to meet Rev. and Mrs.
Walkinshaw who have taken up
their residence in our midst.
The shaking hands competition
created considerable fun which
was won by Mrs. G. Boag. The
guessing contest was also inter-
esting, three couples tying for
first place, viz. Mr. and Mrs. R.
O. Fisher, Mrs. McCurrah and
Mrs. Walkinshaw, Miss D. Axam
and Mr. North. The musical
programme was greatly enjoyed
and comprised a song by Mrs.
Kinsman, violin solos by Mrs.
Fisher, recitation by Jas. Kerr,
songs by D. Cavaye and a duet
by D. Cavaye and P. H. Mc-
Currah to the accompaniment of
Mrs. Fisher on the violin and
Mrs. McCutcheon on the organ.
Mr. McCurrah neatly explained
the object of the gathering which
was replied to by Mr. Walkin-
shaw in a humorous way and at
the same time expressing his ap-
preciation of the good feeling
shown him and Mrs. Walkinshaw.

Pretty Church Wedding

KEADY-GRASER

A pretty wedding was solemnized
on Wednesday morning at the
R. C. Church, Greenwood, when
Miss Mae Keady, only daughter of
Mr. and Mrs. J. Keady, of Ana-
conda, was united in marriage to
Gus Graser, son of Mr. and Mrs.
Chas. Graser, of Midway, B. C.
At 10 o'clock the bride entered the
church on the arm of her father,
to the strains of Mendelssohn
march, played by Mrs. G. B.
Taylor. The bride looked lovely in
a dress of white bridal satin with
a fine net veil and wreath of
orange blossoms and carried a
bouquet of white carnations.

Miss Elizabeth McDonald, the
bridesmaid, wore a dress of pale
pink satin with a large picture hat.
Sylvester McDonald acted as best
man and Messrs. Matt Maloney,
Dan McDonald and John Longton
were the ushers.

The wedding was performed by
the Rev. Father Cocola, the cere-
mony being the high nuptial mass.

The altar was handsomely de-
corated by the Ladies of the Altar
Society. The choir sang "Star of
the Sea" and the "Ave Maria,"
while Mrs. H. McGillivray render-
ed "Alma Redemptoris" in fine
style.

The church was crowded with
friends of the young couple, both
from the city and country, and as
the bride and groom came down the
aisle the scene was one of great
beauty.

The bride is a young lady cap-
able of filling the home she will
adorn with happiness and will
prove a truly helpmate and com-
panion by the husband she has
chosen to honor with her hand.
The groom is considered by those
who know him as one of the com-
ing young men of the district, who
will make his mark.

The congratulations on the
happy event are numerous and
The Ledge is greatly pleased on
this occasion to add its hearty good
wishes to those being so freely ex-
tended.

At the conclusion of the cere-
mony the bridal party and invited
guests to the number of about 50
went to the home of the bride's
parents where a sumptuous break-
fast was partaken of. The table
was centered with a 4-tier wedding
cake, the gift of Mrs. E. Granberg
and daughter Dolly. It was beau-
tifully decorated with wedding
bells, cupids and rose buds. Sweet
peas and asters were the other
decorations.

The presents received by the
newly married couple were num-
erous, beautiful and useful as well
as valuable.

The dance and reception held in
the school house in the evening was
very largely attended and was a
most happy gathering. Bush's
orchestra was in attendance and
the floor was in excellent shape.
Miss K. Stewart also presided at
the piano. Dancing was kept up
until early morning and a delicious
luncheon served at midnight. The
cutting of the wedding cake was
the occasion of suppressed excite-
ment, everybody taking some for
luck.

Mr. and Mrs. Graser left this
morning on a honeymoon trip to
Spokane and other cities and on
their return will reside at Midway.

Boy Scouts

Troup meets on Friday at
7 p.m.

CUBS

The Cubs will meet this week
at the usual place on Saturday
at 2.30 p.m.

Notice

Dr. O. M. Graves, Dentist, will
be in Ferry, Oct. 2nd to Oct. 10th,
1922, prepared to do everything
in the dental line and make good.
I can fit the most difficult cases
with plates. Come and see me.

Kettle Valley Notes

W. Wilson was a visitor here
last Monday.

H. Whiting returned on Wed-
nesday's rain from Montreal.

Mr. and Mrs. F. Welstead re-
turned last week from a trip to
Nelson.

Don't forget the big Dance on
Friday at the Riverside Hall, Rock
Creek. Everyone welcome.

Rupert and Bruce Gray left on
Monday's train for Coldstream,
where they are attending school.

Miss Anna Fernstrom arrived on
Saturday's train from Revelstoke
and is spending a month's holiday
at her home up Nicholson creek.

Mrs. George Lee is visiting
friends in the valley. She intends
leaving for Kelowna on Friday's
train where she will spend the
winter.

Harvest Thanksgiving service
Sunday, Oct. 1st at the English
Church, Kettle Valley at 11 a. m.
Contributions of fruit, flowers,
vegetables or any farm produce for
decorations will be gratefully re-
ceived at the church on Saturday,
Sept. 30th.

Midway News

C. P. C. Rock is leaving shortly
for Chute lake.

C. H. Weed is logging at Mc-
Arthur's mill.

Joe Johnson is helping with the
harvest on the prairie.

H. A. Nichols the C.P.R. agent
is away on a vacation.

Mrs. John Stymets was the
guest of Mrs. C. H. Weed last
week.

The Ladies Aid will hold Bazaar
on Saturday, Nov. 25th at the Old
School House.

Bobbie Brown left last Saturday
for Pullman, where he will take
up a business course.

Mr. Sharpe, W. G. Moll and
Charlie Snyder have purchased
automobiles recently.

One hundred and six head of
beef cattle and 61 calves were
shipped from Midway on Sept. 10.

The bears are plentiful on
Ingram creek. Charlie Weed saw
four in one day. They are play-
ing havoc with some of the
orchards in that vicinity.

Joe Lander sustained some very
severe bruises about the head and
body when the tongue of the hay
rake broke and he was dragged for
several rods while pinned between
the rake and the doubletrees.

An interesting service was held
in the Presbyterian church at Mid-
way on Sunday last. The service
was conducted by Rev. W. R.
Walkinshaw and Rev. St. G.
Smyth also took part, an evidence
of the sense of comradeship existing
between the Anglican and Presby-
terian Churches in our midst.
Two old-timers of Midway and
faithful members of the church,
Messrs. R. D. Kerr and J. R.
Ferguson were ordained as Elders
of the Presbyterian Church. This
is at once a timely honor and a
necessity for our boundary coun-
try. These men will be jointly re-
sponsible, with the minister for the
church work throughout this part
of the Boundary district. After
the ordination service the Sacra-
ment of the Lord's Supper was dis-
pensed. The congregation might
have been larger, but no doubt the
hot weather was the cause of the
absence of so many.

Brown's, Midway

In a great many homes in Western Canada RED ROSE TEA has been the only tea used for over 20 years.

RED ROSE

TEA "is good tea"

Bovril makes you feel splendid

National Land Settlement

To all new countries immigration is a matter of vital national importance, just as emigration becomes a matter of individual and national necessity in older countries with teeming populations and a restricted land area.

For a century the United States was the mecca of the hard-pressed European emigrant, and the present population of more than one hundred million which the United States can boast is the direct result of the enormous influx of people to that new land. Within the comparatively brief period of four or five generations, the United States has grown from a sparsely settled pioneer country into one of the most populous, highly organized and wealthiest nations in the world. It no longer offers great inducements to the poor man and his family in Europe who is forced by stress of circumstances at home to seek a new land.

This fact was fairly generally recognized some years before the Great War, and in the ten or fifteen years prior to the war the stream of European emigration was increasingly being diverted to the unsettled land areas of Canada. The population of Western Canada increased by leaps and bounds, millions of acres of homestead lands were taken up, great colonization companies actively assisted in directing tens of thousands of settlers to this country, villages grew into towns, and towns into cities almost overnight, production increased amazingly, thousands of miles of railway were built, and the whole industrial life of the Dominion largely developed and made prosperous.

The outbreak of the Great War put an abrupt and complete stop to all European emigration, while the exhaustion of free homestead lands and the final disposal of those large blocks of lands controlled by colonization companies operated to shut off immigration of agricultural settlers from the United States. Since 1914, therefore, Canadian immigration has been at low ebb, notwithstanding the great need of this Dominion in the matter of population to develop its great wealth of virgin natural resources.

Since the Armistice there has been a steadily growing opinion that Canada must wake up and endeavor to revive the stream of immigration which was bringing life and prosperity to this country before the war. At the same time it was realized that after-the-war problems calling for solution made it imperative that such immigrants as were admitted to Canada must be of a type which would help the Dominion and not add to the problems with which the country was confronted.

The situation now is that the population of Great Britain is growing more rapidly than can be provided with means of livelihood there. Emigration on a large scale must take place. On the other hand, the vacant spaces of the world where white people can live and prosper are largely to be found in the British Dominions of Canada, Australia, New Zealand and South Africa. It is agreed that it is the part of Empire statesmanship to scientifically direct the emigrating Englishman or Scotchman to these outlying parts of the Empire, thus keeping him under his own flag, and at the same time adding to the economic strength of the Motherland and the Dominions.

Therefore, the British Government has created what is known as the Overseas Settlement Board and placed at its disposal some hundreds of millions of dollars to assist settlement of people from the British Isles in the Overseas British Dominions. Each of the Dominions was invited to develop its own plan of immigration and land settlement and work in co-operation with the Overseas Settlement Board in London, to the end that the maximum number of sturdy British settlers may be settled in the Dominions under conditions guaranteeing reasonable prospects of making a success in life.

Some time ago Australia announced their scheme, and for some months past the stream of British emigration has been largely directed to our sister Dominion. In the meantime, and for some months past, the Dominion Government has been studying the whole problem of immigration in its relation to Canada's needs and its best interests. A special committee of the Federal cabinet has been in consultation with the several Provincial Governments, railways, and companies and individuals vitally interested in, and informed in regard to, the subject of immigration and land settlement.

The result of this intensive and expert study of the problem is found in the announcement made this month by Hon. Charles Stewart, Minister of Immigration and Colonization, of the immigration policy of the Government, and to which immediate effect is to be given.

Inasmuch as the carrying out of a successful immigration and land settlement policy is of the utmost importance to every Canadian, and practically so to every resident of Western Canada, and furthermore as the assistance of every individual citizen is of prime importance in order to achieve the best results, some attention to the plan evolved will be given in a subsequent article.

Prince Has Heavy Mail

Three Secretaries Attend to Letters Delivered to York House.

The Prince of Wales normally receives about seven hundred letters a day, though there have been occasions when the contents of the mail delivered to York House in the day contained well over fifteen hundred letters.

A couple of weeks before the Prince started on his Indian tour, 2,000 letters were delivered to his Royal Highness. The controller of the Prince's establishment, assisted by three secretaries, attends to the Prince's letters, the controller bringing under the Prince's notice communications which he thinks require the personal attention of his Royal Highness.—Tit-Bits.

Healthy Cows Mean Good Milk

More Interest Being Taken By Farmers in Herd Testing.

The News Letter of August 10th issued by the Dominion Dairy and Cold Storage Branch states that, during the month of June 2,898 dairy herds were tested and that a total of 28,831 tests were made of individual cows. This was an increase of 17,018 tests over the number made in the month of May. An interesting part of the work is the attention given to cows owned by members of the boys' and girls' clubs. Farmers are showing more and more interest in herd testing and increased appreciation of a system which not only means healthy cows, but also healthy people, insofar as it guarantees to a large extent a supply of good milk. There is one way in which they can pre-eminently assist in the excellent work which both the Dairy Branch and the Health of Animals Branch of the Dominion Department of Agriculture are trying to do, and that is by making cleanliness their watchword.

If a man ever wanted but little here below he got over it long ago.

Candles were used as clocks in the time of King Alfred.

Forbidden Things

Many Things Seem to be Verboten in Germany.

In Germany, under the Republic things "verboten" seem to be more numerous than ever, writes a correspondent. Indeed, a German newspaper suggests there ought to be a museum of "Verboten" signs, and it gives a few curiosities. "It is verboten to take your hat off" is one in a post office in Saxony. In a large meadow near Munich a notice states: "It is Verboten to exercise." Outside Germany, however, some curious "Verbotens" are to be found. Once, in a fourth-class carriage in the wilds of Serbia, I came across this: "Travelers are forbidden to scratch the carriage windows with diamonds." And in five languages, too! And this is from a Greek hotel: "It is forbidden to sing in bedrooms and to bang the door when shutting it at night."

Motorist Had To Pay

Magistrate Decides Toy Wagon As Important Legally As Auto

A boy's toy wagon is just as important in the eyes of the law as an automobile. That is Magistrate Roberts' opinion and he put it into practice in a recent court ruling in Philadelphia. Samuel Stern's machine ran over and smashed little Richard Keating's wagon. Richard took down Stern's number on a board, went to the police station and had the motorist arrested. When the case was called the boy stepped up to plead his own case. Stern was amused, and showed it, which was an unwise move, for the Magistrate saw nothing funny about it. Stern's amusement fled, however, when the Magistrate offered him his choice of being held for court or paying for the wagon. Stern paid.

Sores Flee Before It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All sinners troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Mystery Is Solved

Chinese Laundry Ticket Is Nothing But a Number

The Chinese laundry ticket is a simple thing when one understands the system. According to the very polite boss of some sixteen younger and huskier Chinese, a business man who has practically retired from heavy labor and now gets a little exercise on lady's waists and dresses which he likes to iron, the "Oriental" which is torn in two is no description of the person who has left laundry, or any other interesting thing. He says that in his establishment nothing but a number is written in Chinese.—New York Sun.

Corns are painful growths. Holloway's Corn Remover will remove them.

Germany's Printing Presses.

People have been looking unnecessarily far afield for an explanation of the rapid slump of the German mark. This fall was due in part to the fact that notes to the value of 2,700,000,000 were put in circulation in a single week, and in part to the fact that still more would be printed in the immediate future. Compared with these factors, the political factors are almost negligible.—London Sunday Pictorial.

Cocaine Cultivated in Java

Cocaine first obtained recognition as a valuable medicinal drug about thirty-five years ago, and the commercial supply was derived from leaves of the wild coca plant native to Peru. Now, however, the shrub is cultivated on an extensive scale in Java, which will export this year about 4,500,000 pounds of the leaves.

Some day the world may learn with astonishment that the solution of its problems is contained in the writings of four obscure men—Matthew, Mark, Luke and John.

SUCH PAINS AS THIS WOMAN HAD

Two Months Could Not Turn in Bed. Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chills and fever and such pains in my right side and a hard lump there. I could not turn myself in bed and could not sleep. I was this way for over two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly until all the hard pains had left me and I was able to be up and to do my work again. The hard lump left my side and I feel splendid in all ways. I know of many women it has helped."—Mrs. G. Richardson, 4640 Orcus St., Seattle, Washington.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after trying everything any one told me." had failed. If you are suffering from pain, nervousness and are always tired; if you are low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound. You may not only relieve the present distress, but prevent the development of more serious trouble.

W. N. C. 1138

Shelter For Machinery

Your Farm Machinery Is Certainly Worth Protecting

An inexpensive shelter can be erected by using a few uprights with a roofing of lap lumber, rubberoid or even straw. In many places there are plenty of trees to supply uprights. The back and two ends can be finished in rough lumber or, lacking this, in woven wire packed with straw. The shed should be deep and low enough to prevent drifting in through the entrance on the implements, and should front in a sheltered place or away from the prevailing drifts. A little seasonable paint on the woodwork and even on the metal of the machinery saves its value many times over, while a touch of oil or grease upon the knives and friction portions is like the stitch in time that saves the nine.

Keeping the machinery under cover undoubtedly prolongs its life. Moreover, during the busy season it is a saving of valuable time to find it in good running order, bolts and chain links in place, and sprockets and gears not needing those minor repairs that mean many times their value in critical moments saved.

EVERY WOMAN IN POOR HEALTH

Has an awful struggle. Lots to do, all kinds of worry, poor appetite, headaches, weakness. Her one desire is for more strength and better health. What sickly worn out women need is a cleansing, blood purifying remedy like Dr. Hamilton's Pills. This wonderful medicine clears out the wastes from the system, regulates the bowels, helps the blood. To look your best, to feel fit and fine all day, to be free from lassitude and headache, use Dr. Hamilton's Pills regularly, 25c at all dealers or The Catarthozone Co., Montreal.

No Traveller

First Yoke!—They say that professional chap what lives atop o' the hill has written a book about Mars. Second ditto.—Mars? Wal's he, know about Mars? Why, to my knowledge he ain't been out of this town for five years.

CHILDHOOD AILMENTS

The ailments of childhood—constipation, indigestion, colic, colds, etc.—can be quickly banished through the use of Baby's Own Tablets. They are a mild but thorough laxative which instantly regulate the bowels and sweeten the stomach. They are guaranteed to contain no harmful drugs and can be given to the youngest baby with perfect safety. Concerning them Mrs. Alice Longue, St. Bonaventure, Que., writes: "Baby's Own Tablets were of great help to my baby. They regulated her bowels and stomach and made her plump and well." The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In the island of Jersey it is unlawful for a married woman to start a bank account without obtaining her husband's permission in writing.

The Prince's Serpent

The Prince of Wales, returning from his journey around the world, brought in his baggage divers and sometimes terrible things.

The most awkward of the gifts offered to him was, without doubt, a magnificent serpent ten metres long. This serpent, to which the heat had restored some vigor, did not find the lodging given to him in the Zoological Garden of London quite to his taste, and refused to enter it. It took sixteen persons to compel him to move in.—New York Tribune.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

Device to Keep Ships From Rolling

Huge Gyroscope Stabilizer Steadies Liner Automatically

Thousands of people will be glad to know that travellers by sea may look forward to the day when sea sickness has become a thing of the past. The Hawkeye State, a passenger steamer running between Baltimore and Honolulu, is now being fitted with a huge gyroscope stabilizer, designed to prevent the rolling of ships.

This apparatus, which weighs 120 tons and is said to be the largest of its kind ever built, is the first to be placed in a big passenger ship. It reaches a speed of 850 revolutions a minute and is controlled by a series of small gyroscopes. These register the direction of the roll, and the big wheel is then automatically set in motion in the direction required to steady the ship.

Freight by Air Too Expensive. The Instone Air Line announces it is closing down its freight department between London and Paris, and confining its service entirely to passengers. It has found that the cost of freight is too high to attract a volume of traffic sufficient to make it pay.

The Best of Reasons. "I never ask others to think as I do," remarked the broad-minded man, "because tomorrow I may think differently myself."

Passenger Men to Gather in West

Important Meeting of Passenger Agents in Canadian Pacific Rockies

One of the most important of the many conventions being held in Canada this year will be that of the American Association of Travelling Passenger Agents which will take place in the Canadian Pacific Rockies this month. American interest in this country has been growing by leaps and bounds since the war and this is being shown by the steadily increasing number of Americans who are visiting this country. In the Canadian Pacific Rockies and in the unequalled summer resorts of Ontario, Quebec and the Maritime Provinces are found endless attractions for visitors from the United States, and some of the conventions that have come across the line have been of tremendous importance in that they have enabled thousands of America's business leaders to become acquainted with this country and have thus greatly encouraged the development of trade mutually profitable to Canada and their native land.

The holding of the annual convention of the passenger agents in Canada this year is a matter of first-rate importance to this country, and particularly so to those places which will be visited during the tour of the country, that takes place in connection with the convention. These agents are all the time in touch with travellers, and they are in a position to divert much traffic along lines that they believe to be desirable. Thus it is important that they should be well acquainted with Canada, its larger cities, its points of scenic interest and the opportunities which the country affords.

The Association is made up of passenger representatives of railway and steamship lines on the North American continent and has as honorary members many passenger traffic managers and general passenger agents.

At the convention held at Salt Lake City in September, 1921, an invitation was extended by the Canadian Pacific Railway for the Association to hold their 1922 convention along the lines of the Canadian Pacific. This invitation was enthusiastically and unanimously accepted and from the interest being shown by the members there is no doubt of a record breaking attendance this year.

Halifax Films

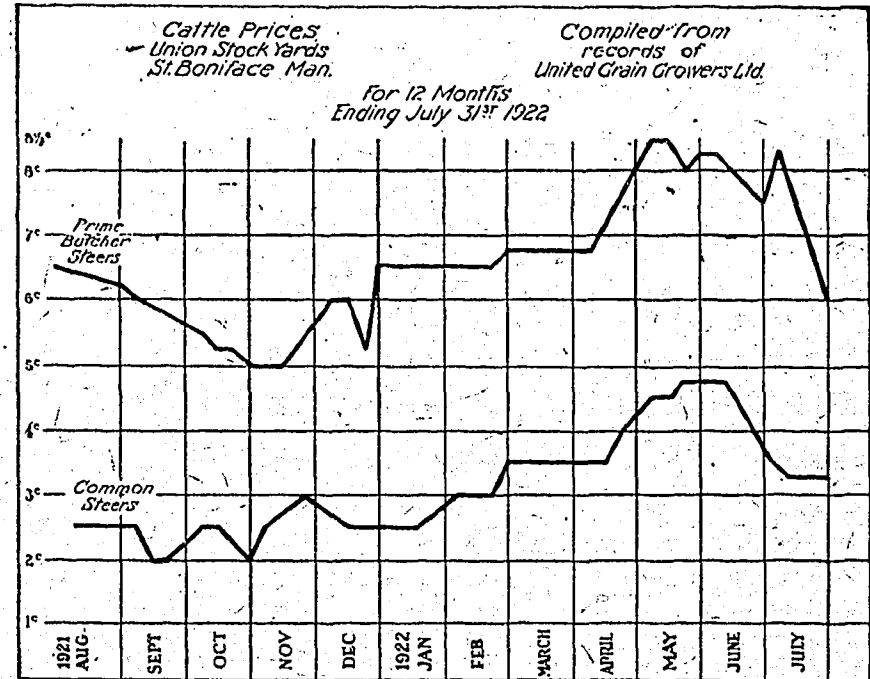

"Halifax Films" has been organized to produce Canadian motion pictures from the works of Canadian writers. The Board of Directors includes the Minister of Public Works and Mines, President of the Board of Trade, Director of the Halifax Herald, President of the Commercial Club, Ernest Shipman and others. The first production will be Frederick William Wallace's "Viking Blood."

Patronize your local merchants and thereby help to build up your home town and community.

Self-possession is at least eight or nine points of the law.

Conditions For Livestock Marketing

Instead of selling unfinished cattle in the latter half of the year, sell finished stock from January to June.

Such is the lesson of the course of prices at the Union Stock Yards, St. Boniface, as shown by the chart above. The upper line shows the prices of prime butcher steers from the first of August, 1921, to July 31st, 1922. The variations shown are typical of almost any year. The reason is that, Western Canada markets a great number of immature and poorly finished cattle every year. The movement of such cattle is heavy from July to December, and almost four-fifths of our western cattle are marketed in the latter part of the year. The heaviest shipments are in September, October and November, and in some years the number marketed in those months has been as high as 63 per cent. of the total for a year. The result is that prices go down, and the fall market is extremely unsatisfactory for cattle producers.

On the other hand, only a limited number of our cattle are winter fed to be sold as finished animals in the period from January to June, and there is usually a good demand for such cattle during that period. The best winter fed cattle come on the market in May and June, and that is when prices are usually best. But even in January the improvement in prices is usually to be noted. Winter feeding, therefore, even for only a short period may not only put cattle in a higher grade by improving their condition and finish, but will probably bring cattle to market at a much better time for selling.

The chart above is one of a number prepared by United Grain Growers to illustrate conditions of livestock marketing.

German Sea Trade

Statistics of Port of Hamburg Show Great Revival

The extent of the revival in German sea trade is reflected in the statistics of the Port of Hamburg. In May of 1913, a banner year, 1,143 vessels, totalling 1,243,000 net registered tons, arrived at Hamburg. The arrivals of May, 1922, were 1,242 vessels, totalling 1,193,000 net registered tons. In May, 1913, the departures from the port showed 1,469 vessels, totalling 1,325,000 net registered tons. In May, 1922, 1,963 vessels, totalling 1,254,000 tons, departed.

Debts and Claims

We do not want to make a virtue of generosity, but unless the cancellation of inter-Alleied debts is accompanied by a general settlement of international claims, our sacrifice will have been in vain.—Westminster Gazette.

No two finger nails on our hands grow at the same rate. The nail on the middle finger grows faster than any other, while the thumb nail is of slowest growth.

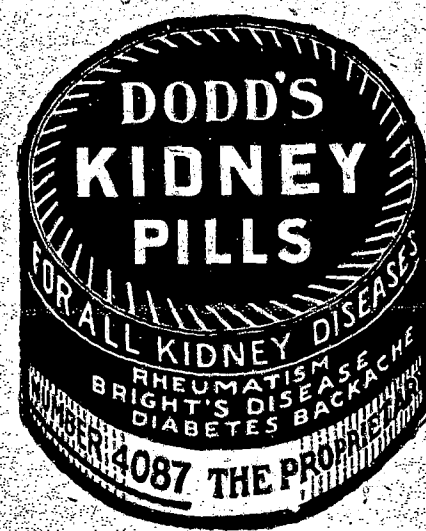

Patronize your local Printer. It is poor policy to send your job printing out of town. It does not pay, no matter which way you look at it.

Boy Immigrants

Alberta Premier in Favor of Bringing Out Boys from Britain

The Alberta Government will stand ready to co-operate with the Dominion authorities and any other agency actively taking up the question of immigration, according to Premier Greenfield, by way of comment upon the newly announced policy from Ottawa and the programme of the Western Canada Colonization Association.

The Premier expressed himself particularly in favor of bringing out boys, an immigration scheme which he believed would give the best results.

WORLD HAPPENINGS BRIEFLY TOLD

Gold production in Ontario for the first half of 1922 shows a marked increase over any similar period.

Pope Pius has requested France to protect the lives and interests of the Catholic clergy in Asia Minor, who are threatened.

The British mandate for Palestine was formally proclaimed Sept. 11. Sir Herbert Samuel, the High Commissioner, assumed office and took the oath of allegiance.

The Aerial Survey Company is making preparations for extensive flying operations in Newfoundland during the coming winter and three planes have arrived at Botwood from England.

Discovery near Victoria is reported of a large deposit of volcanic ash of tested cleansing properties, which, it is claimed, will supersede on the market all the present lye cleaning compounds.

An autographed photo of Marshal Foch, which was one of the most prized possessions of the Aero Club of Canada, has disappeared, and it is thought some selfish souvenir hunter has taken it.

The longest distance that Alberta coal has yet been shipped was when an Edmonton firm recently forwarded a carload of egg coal to Lewis, Que. The freight rate alone for the long journey was \$13.30 per ton.

The Prussian Minister of Commerce has granted the Krupp Company permission to issue emergency currency to the amount of 400,000,000 marks. The note issue is limited to sixty days, the bills to be in denominations up to 500 marks.

Right Hon. Srinivasa Sastri, member of the Viceroy's Council for India, spoke to the Canadian Club, Montreal, reiterating his plea for a change in the policy of the Canadian Government towards its 1,200 Hindu citizens.

A formal agreement was signed by Leon Krassin, Soviet Minister of Foreign Trade and Commerce, and Leslie Ughart, of London, providing for complete restoration of the title rights for 99 years of the pre-war holdings of the Russian Asiatic Consolidated, Limited.

150,000 in Fishing Industry

Approximately 100,000 persons are engaged in the catching and processing of fish in Canada, and at least 50,000 more are occupied in fish merchandising.

Rural Route No. 1, Mascouche, Que.

The Minard's Liniment People. Sir—I feel that I should be doing a wrong if I neglected to write you. I have had four tumors growing on my head for years. I had them cut off by a surgeon about fifteen years ago, but they grew again. I had about three months ago I had one as large and shaped like a lady's thumb on the very place where my hair should be parted, and it was getting so embarrassing in public that it was a constant worry to me. About three months ago I got a bottle of your liniment for another purpose and saw on the label good for tumors. Well I tried it and kept it for exactly two months, with the result that it has entirely removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit.

(Signed) FRED C. ROBINSON, P.S.—I am a farmer and intend using Minard's Liniment on a mare for a strained tendon, and am hoping for some results.

FRED C. R.

Something or Other

"Pa, what do they mean by saying 'that puts a different complexion on things'?"

"I suppose it refers—Oh, I don't know; ask you ma. She knows all about these beauty parlor tricks," growled his dad.

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though this attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

Counting Miles By Pebbles

Caesar's Army Had Speedometers on Wheels of Carriages

The cyclistometer which ticks out for the cyclist a record of the distance he has covered, is simply an improved form of an instrument which was in use 2,000 years ago. Vitruvius, an engineer in Caesar's army, gives a description of what he terms a "hodo-meter," which was attached to the wheels of carriages to record the distance travelled. It consisted of three small boxes with catch attachments whereby a pebble was dropped into the lowest box at the end of each mile. A traveller could tell how many miles he had travelled by counting the pebbles.

Express Rate on Cream

Rate of Three Gallon Cans Allowed to Alberta Dairymen

Favoring the establishment of an express rate on three gallon cans of cream that would be lower than the rate on five gallon cans, the Board of Railway Commissioners for Canada allowed the representatives of the Alberta Dairymen's Association and the express companies one month's time in which to arrive at some suitable arrangements. Failing to reach a satisfactory agreement, the Railway Commission will form a tariff.

The Alberta Dairymen's Association was represented by A. Chard, traffic superintendent of the Provincial Government, who, in giving his evidence, stated that owing to the recent legislation passed by the Provincial Government it was essential to establish a rate on three gallon cans of cream if the smaller producers of cream were not to be penalized.

Application of the Alberta Fish Company, Limited, for a reduction in the express rate on fish from Edmonton and points north to the same rate as for fish shipped from Vancouver, was made to the commission, but the chairman reserved judgment until he had conferred with the other members of the board. W. S. Campbell, who represented the Alberta Fish Company, stated that the charges for shipping fish from Edmonton and points north to Chicago was 25 per cent. higher than for fish shipped from the coast, although the distance from the coast was from 600 to 800 miles farther.

IN THE SHADOW OF POOR HEALTH

In This Condition Relief Comes Through Dr. Williams' Pink Pills

When the shadow of poor health falls upon you, when hope fades and life itself seems a weary, long, then is the time you should remember that thousands just as hopeless as you feel, have been restored to the sunshine of health through the use of Dr. Williams' Pink Pills. The rich red blood which these pills actually make, strengthens the whole system. The nerves are strengthened, headaches vanish, the appetite improves, and once again there is joy in life. Among the thousands benefited by the use of this medicine is Mrs. J. C. Robinson, Oshawa, who says: "Some time ago I was in an anxious condition and so weak I would faint away at times. I had no appetite, could not do my housework; in fact life seemed scarcely worth living. I was exceedingly pale and tired, doctor's medicine with no good result. Then one day I saw Dr. Williams' Pink Pills recommended for a similar condition and I got a supply. I continued taking the pills until I had used about a dozen boxes, and they have made me a well woman. I can now do a good day's work about the house, have no more fainting spells and can go about more actively than I did before. I believe these pills just the thing for pale, weak girls and women, and if given a fair trial will do for them what they have done for me."

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Griffith and De Valera

It Was Griffith's Aim to Create Not a Sect But a Nation

Griffith proved himself a statesman because he put Ireland above a doctrine. Mr. de Valera put a doctrine above Ireland. Nobody can imagine Griffith writing as the editor of the "Republic of Ireland" wrote about the day when Irishmen would turn weapons on Irishmen. For it was Griffith's aim to create not a sect but a nation. This was the capital idea for which he stood, and it was because he represented peace, unity and reason that his death means the loss of a great rallying figure. He gave Ireland the opportunity of becoming a nation. Will his countrymen take it, or has he escaped by death the most cruel of all the disappointments that can overtake a man's dreams? From The Nation, London.

SUNDAY SCHOOL LESSON

LESSON FOR SEPTEMBER 24

REVIEW: THE EXILE AND THE RESTORATION

Two methods of review may be employed to advantage.

1. Character Study. Assign the outstanding heroes of the quarter's lessons to members of the class and have them to report. This assignment must be made the week previous, e.g., Ezekiel, the prophet of God; Daniel, the statesman; Ezra, the teacher of God's word, etc.

2. Summary of Contents. This is a good method at all times. It can be adapted to different grades. The following is a suggested method:

Lesson I. Before Ezekiel was commissioned as a prophet he was given a vision of the Almighty. After that he was given an experimental knowledge of God's work—he ate the book—digested and appropriated its contents. An experimental knowledge of God's word is essential.

Lesson II. Because Daniel besought the Lord he was able to make known the king's dream and interpret it. "If any man lack wisdom, let him ask of God (Jas. 1:5).

Lesson III. While Belshazzar and his lords were engaged in drunken revelry a mysterious hand recorded Divine judgment. There is a day coming when men shall be judged. Happy is the man who has fled to Christ, for to such there is no judgment (John 5:24).

Lesson IV. Daniel's sterling worth brought him to the front—he was elevated to be prime minister of the Persian empire. Moved by jealousy certain wicked men plotted his downfall. Because of a flawless record in business they trumped up a charge against him on the ground of his foreign religion. Through the king executed the foolish decree Daniel was delivered and his accusers were cast into the den of lions and destroyed.

Lesson V. Though Israel went into captivity as a chastisement of the Lord, in due time He recovered them. God's covenant and judgments are sure. He can move a heathen king to freely fulfill His own good pleasure and purpose.

Lesson VI. In the restoration of the people to their own land, the first thing necessary was the provision of a place for the worship of God. As soon as this work was begun, violent opposition was in evidence. That which God sets out to do shall be completed, though all hell oppose.

Lesson VII. Haman's wicked plot against the Jews was frustrated by Esther's shrewdness and courage. Those who plot against and hate God's covenant people shall be brought to destruction.

Lesson VIII. Through Zerubbabel the people were brought back and established in their own land, but they had gone far away from God. There was now need of a religious leader. Ezra was moved by the Spirit of God to lead them back to fellowship. Because Ezra sought the Lord his way was prospered. Success always comes to those who trust God.

Lesson IX. When Nehemiah heard of the distress of his brethren at Jerusalem, he took the matter to the Lord in prayer. Their sorrow and distress was his sorrow and distress. "Is any afflicted, let him pray" (Jas. 5:13).

Lesson X. When Nehemiah began the rebuilding of the walls of Jerusalem he encountered violent opposition from without and from within. His faith in God moved him to go straight on with the work and he had the joy of seeing the work completed.

Lesson XI. The method used in bringing back the people to God was the word of God. Because God's word was made plain to the people the repentance of their sins and rendered obedience to God.

Lesson XII. Malachi as an aid to Nehemiah in effecting reforms pointed out the sins of the people, viz.: Base ingratitude, a corrupt priesthood, mixed marriages, robbing God by withholding tithes, etc., pointing to a day of judgment when righteous retribution would be meted out to the wicked and rewards would be given to the faithful.

Melons in Manitoba
Melons, both musk and water, are receiving considerable attention at Dominion Experimental Station at Morden, Manitoba. In his report for 1921 the Superintendent records the results of tests of varieties and methods of cultivation. Two of the six varieties of watermelons tried, Mountain Sweet and Tom Watson, produced melons weighing 19 pounds 3 ounces. The first named yielded 53 marketable melons, averaging 10 pounds 2 ounces in weight, from 20 plants.

Had Her Guessing
Mabel—Clara's last photograph was lovely.
Edith—Yes. I had to ask her who it was.

The "reject" coal from Pennsylvania coal mines amounts to some 200,000,000 tons a year.

There are 40,000 muscles in an elephant's trunk, and only 527 in a man's body.

A Combination of Two Materials and the Result Is Chic

Old rose cloth and white crepe de Chine combine to make this attractive little frock, of which the distinguishing feature is the pleating, attached with the buttonhole stitch of rose wool. A model like this would be equally effective in contrasting colors, such as tan and brown or black and gray, etc.

Colic, Cramps, Stomach Pains, Need a Quick Relief

Security against these sudden ills consists in always keeping handy a bottle or two of Nerviline. No family should ever go to bed unless Nerviline is in the house. It fulfills so perfectly every service as a pain remedy that once used, you'll never again be without it. Money can't buy much greater assurance against the many small ills that constantly arise in every family than you get in a 35c bottle of Nerviline. Sold everywhere.

Teacher.—The word "grand" is used in the sense of "splendid, sublime, noble," and the like. Can you give an example of such use?

Little Bobby.—Yes'm. Grand dukes and grand larceny.

CATARHAL DEAFNESS

Is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surface of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Free. All Druggists. F. J. Cheney & Co., Toledo, Ohio.

A French baker once walked on stilts from Paris to Moscow, a distance of 1,500 miles, in fifty-eight days.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

A Secret
One great secret of receiving kindness everywhere is to expect it. To look out on the world with friendly eyes and a kindly heart is to create an atmosphere in which goodwill flourishes. This is a cold and selfish world to those who are always expecting a snub.

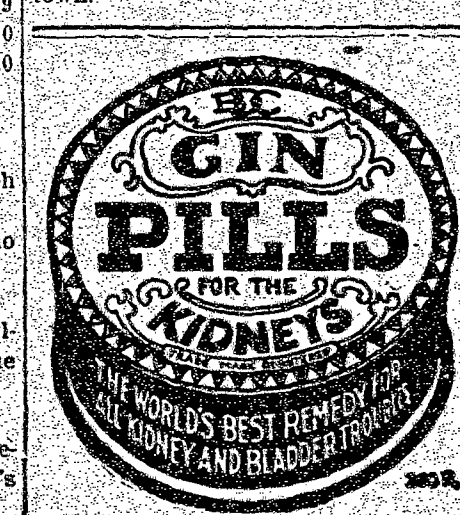

Spend your money at home. Buy from your Local Merchant. And Merchants should always patronize the Local Printer.

Keep Minard's Liniment in the house

The shipbuilding firm which constructed the one time largest steamship, the Great Eastern, was founded in the year 1512, and is still in existence.

It is one thing to tumble to a scheme, but quite another matter to fall for it.

It pays to patronize home industry. Buy from the merchants in your own town.

Junior Red Cross

Splendid Work Carried on by Junior Organization in Saskatchewan

Over 1,000 children in Saskatchewan—1,010 to be exact—who are crippled or suffering from some defect requiring the services of a specialist, and whose parents were financially unable to make necessary provision for their treatment, have been reported to the Junior Red Cross, and treatment provided for the vast majority of these cases out of the Junior Red Cross Fund for Crippled Children.

The tangible evidence of the splendid work being carried on by the Red Cross in Saskatchewan was reported to a meeting of the Junior Red Cross Committee held at Regina a few days ago.

During the past twelve months cases calling for treatment have been reported on an average of more than two a day. They have been cared for at the Sanitarium at Fort Qu'Appelle and in hospitals all over the province. At one time recently every child but one in the children's ward of a Saskatoon hospital was a Junior Red Cross patient, and there are always a number of such patients there and in the Alexandra Club ward of Regina General Hospital, and in the I.O.D.E. Children's Pavilion at the Sanitarium.

Nor is there included in this number, large as it is, the many children who have received dental treatment in rural schools from the two travelling Junior Red Cross dental cars. The number of children receiving dental treatment up to August 31 last was 2,590, while the number of fillings, extractions, etc., totalled 5,101. Addresses in the schools on oral hygiene by the dentists numbered 161, at which over 5,000 children were present.

During the twelve months ending August 31 the Junior Red Cross Committee expended \$30,000 in this work. Almost \$8,000 has been paid to the Saskatchewan Sanitarium alone for treatment and maintenance of boy and girl patients whose parents could not afford to have necessary care given them in order to check the ravages of this dread disease.

An interesting phase of Junior Red Cross work for children has been the holding of clinics at isolated points where investigations by school nurses had disclosed numbers of children requiring operations for the removal of diseased tonsils and adenoids. Five such clinics were organized by the Junior Red Cross between June 1 and August 31, and were held at Torquay, Quimper, Gladmar, Green Lawn and Tarnopol. In all 133 children were successfully operated on. So successful indeed has this new department proven to be that similar clinics have been organized in school districts and by municipal health officers quite apart from the Red Cross.

In order to continue this medical and good health work on the large scale it has already attained, the need of extending the Junior Red Cross organization into all the schools was clearly indicated, and with the opening of the fall term renewed efforts are being made, and already with gratifying results, to organize many new branches. This is being done with the wholehearted commendation and active co-operation of all Department of Education officials from the minister down, and including the deputy minister, school inspectors, school nurses, teachers and school district officials.

To further augment the fund for this work it was decided to make the issue of a Junior Red Cross Christmas Stamp an annual event. For the 1922 stamp, of which half a million have been ordered to sell at one cent apiece, Miss Keating, art supervisor in Regina, College, has contributed a most attractive design in three colors, red, green and black.

The members of the Junior Red Cross Committee are unstinted in their praise of, and thanks to, the doctors of Saskatchewan, who have most generously given of their time and skill in the treatment of these many Junior patients without remuneration. Had it not been for this splendid public-spirited co-operation by the doctors in this humanitarian work it would have been quite impossible to accomplish such a vast amount of good. Parents and children as well as the Red Cross, are deeply grateful and have requested the good offices of the press in order to give public expression to their appreciation.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Channel Defeats Swimmer
Enriquo Tirabocchi, Italian swimmer, failed by two miles to swim the English Channel. Tirabocchi made a magnificent effort to accomplish his task. He was 19 hours in the water, and was but two miles off St. Margaret's Bay when he became exhausted and had to quit.

Exports to United States
Exports from the province of British Columbia to the United States through the port of Vancouver amounted to \$13,193,740 for the first six months of the current year, compared with \$15,705,261 for a similar period in 1921.

The Coliseum at Rome held 100,000 spectators, of whom 87,000 were seated.

Ask for Minard's and take no other

Whole System Is Benefited By Tanlac

Thousands of frail, nervous people and convalescents everywhere have testified to the remarkable power of Tanlac in bringing back their health, strength, and working efficiency. It seems to quickly invigorate the constitution and is a powerful foe of weakness. Mrs. John Hatrick, 901 Notre Dame Ave., Winnipeg, Man., says:

"Five years ago I had a nervous breakdown. I couldn't even hold a glass of water without shaking it out. My head ached so I thought it would split and I got so dizzy that several times I fell and hurt myself so bad the scars are on me yet. Six bottles of Tanlac actually made me feel like a different person. All my troubles are now gone."

There is not a single portion of the body that is not benefited by the helpful action of Tanlac. It enables the stomach to turn the food into healthy blood, bone and muscle, purifies the system and helps you back to normal weight. Get a bottle today at any good druggist.

Canadian Bacon In Britain

Canadian Product Is Rapidly Gaining Favor in the Old Land

In connection with the controversy regarding the alleged poor quality of Canadian bacon and produce, John Loudon and Company, one of the largest importers of Canadian bacon products in England, made this comment: "Our existence depends on the sale of Canadian bacon, and we can sell every ounce of it that Canada can ship." It is quite true that Denmark is a competitor, but it will never drive Canada from the British market. Our actual imports this year will be greater than last year, we confidently predict, and Canadian bacon is growing in favor from month to month.

Care Needed in Entering Silo

Every year numerous fatalities occur among farm hands who enter a partly filled silo after the fermenting corn has had time to form carbon monoxide gas, which is poisonous. Since fresh air dilutes and scatters the monoxide, no one should enter a silo till the blower has been started, and even then the silo doors should not be put into place until they are needed to prevent the corn from spilling.

The fellow who knows it all would not be so annoying if he didn't insist upon our knowing it too.

SOME husbands are happy; others' wives won't stay home alone.

THE only nation that is powerless to aid the cause of the common people is assassination.

LIFE is not all dark. Every once in a while a wife serves something without mayonnaise dressing.

WE wonder at times how a grinch would manage to enjoy life if all the undesirable people were killed off.

THE engine chokes when the car goes too slow. What we need is an appliance to choke the driver when he goes too fast.

Mining News

It is reported that the Carmi mill will be put into running order.

Jos. Cunningham has leased the Nodawa, on Wallace Mountain, Beaverdell. Five men will be put to work immediately.

R. D. McKenzie has started operations on his mine adjoining the Providence. Jas. Drum is helping him to unwater the shaft.

While mining operations locally are not so active there is undoubtedly greater interest being taken in prospecting and developing leads which will eventually mean a surprising revival of this industry. Among the many plans recently evolved comes a scheme from J. Cunningham, for many years active in this district, to dig a tunnel from the Skylark mine to the Surprise property. By doing this every lead and vein between the two properties will be encountered and operations lightened and showings certain. Mr. Cunningham who is part owner of the Surprise has given this scheme much thought and careful investigation. This would mean a grouping or consolidating of all mining interests on the mountain. It is felt that this tunnel would benefit all property holders by the production of millions of dollars worth of ore from leads which would be uncovered in the process. Nothing definite along this line will be undertaken at present but Mr. Cunningham's plans in other properties materialize as expected he will probably go through with the tunnelling scheme.

"Sowing the Wind"

In announcing Anita Stewart in her latest First National photoplay, "Sowing the Wind" the management of the Greenwood Theatre feels perfectly safe in assuring its patrons of seeing this popular screen actress at her very best. In fact it is agreed among critics that this is one of her most notable contributions to the silent stage and it is regarded as certain to increase her very large following extensively. If Miss Stewart has ever lacked the proper opportunity before to give her talents full scope, she is given this chance in "Sowing the Wind" as she portrays a role requiring the most consummate skill as an all-round interpreter of the dramatic art in its highest form. This excellent picture will be the attraction at the local theatre on Saturday, Sept. 23.

Biscuit, For Instance

Hot biscuit! Golden brown outside, snowy white inside. As light as air and crowned with the gold of melting butter. The kind of biscuit the appetite never forgets.

If By A Miracle

If by a Miracle of God
Those of our blood that died on the fierce
fields of France,
Striving against the beast,
Should face us here once more,
What could we say to them?

If by this miracle,
Upon some morn they fronted us
In long, dark, steady ranks,
And from those ranks a trumpeter
should step,
And sounding, make his trumpet call
to us:

THE TRUMPET

We are those who died to save you,
Never reckoning the price,
Drinking from a brimming chalice.
Bitter wine of sacrifice.

Answer for the things we gave you,
Now that we have come again,
Did you guard the lamp we lighted?
—Tell us, did we die in vain?

What would we say to that sad song?
The blood-kin we of all the men who
died,
Knowing the full of this world's bitter
wrong,
What could we say to leave them
satisfied?

H. J. MACLEAN,
(In The Toronto Globe).

The Ledge can supply your every need in the printing line and at prices consistent with first-class work.

St. John, N.B.—All the C. P. R. employees now living who served in the recent war will have a token to commemorate their sacrifice in the shape of a scroll which is a fine piece of work and is almost a copy of the large bronze tablet unveiled by the C. P. R. here on April 28, 1922. The scroll is signed by E. W. Beatty, President C. P. R., and E. Alexander, Secretary. The inscription on the scroll reads: "In honor of duty nobly done. This scroll serves to commemorate that, while in the service of the Canadian Pacific Railway (the recipient's name appears here), relinquished his position in response to the call of King and country and served during the Great War 1914-1918." The base of the scroll is set off by the names of the following battles: Ypres, Festubert, the Somme, Vimy, Hill 70, Passchendaele, Amiens, Cambrai, Drocourt-Queant and Mons.

Railway News

Montreal.—On August 23rd, George H. Ham, "the Grand Old Man of the Canadian Pacific," celebrated his seventy-fifth birthday and received congratulations from all over Canada.

Vancouver.—Railways in Canada are in an excellent position to handle the bumper grain crop of the prairie provinces. There are also 10,750 cars in the western division of the C.P.R. ready to handle grain moving westward from the prairie grain fields, officials of the railway state. C. A. Cotterell, assistant general superintendent of the C.P.R. western lines, stated that heavy shipments will be made to the Orient through this port.

Toronto.—American tourists last year spent \$75,000,000 in Canada, according to an estimate made in an official report of the Dominion Government's Parks Department.

Last year more than 100,000 tourist motor-cars entered Canada; that would mean upward of half a million tourists. This year the number will be much greater, for the tide is growing rapidly. The railways are having a very busy season.

Winnipeg.—After a careful survey of reports received from C.P.R. agents throughout the West, it is estimated that this year's crop will approximate 317,000,000 bushels, according to the weekly crop report of the C.P.R. agricultural department issued here. Reports indicate that the Western crop generally is turning out well. Even in areas where poor yields were looked for, the conditions have proved better than anticipated.

Vernon.—Present indications are that the 1922 British Columbia apple crop will total about 2700 or 3000 cars.

Last season was the province's big crop year, when approximately 3500 cars were packed out. The C.P.R. has made many provisions to take care of the valley's transportation demands. On nearly every side between here and Calgary refrigerator cars are waiting to be shunted to the packing houses, while houses are well stocked.

ALLAN CAMERON
GOES TO ORIENT

Popular C.P.R. Official Receives New and Important Post.

ALLAN CAMERON

A joint circular issued by the Canadian Pacific Railway and Canadian Pacific Steamships, Limited, announces that Mr. Allan Cameron has been appointed Oriental Manager, with office at Hong Kong to take up his duties on October 1st.

Mr. Cameron joined the C.P.R. at Winnipeg in 1897. At various times he has held important positions at Vancouver, Victoria, Portland, Oregon, London, England, and New York. As Superintendent of the Lands Branch of C.P.R. activities he was very successful, and takes up his new and responsible position with the good wishes of a host of friends.

To most people, the connecting or disconnecting of a telephone seems a simple operation of installing or removing the instrument. As a matter of fact, in every case it necessitates changes in the cables and wires overhead or underground. It also necessitates changes in central office wires and switchboard connections; in subscribers' accounts and directory listings; and frequently requires new "drop" lines from open wires or cables. The problems of station movement are among the large problems of telephone service. Because of the double operation of disconnecting and reconnecting, the work involved is often twice as great as in the case of new subscribers.

The Mineral Province of Western Canada

Has produced Minerals valued as follows: Placer Gold, \$76,177,408; Lode Gold, \$105,557,977; Silver, \$55,259,485; Lead \$48,330,575; Copper, \$106,393,488; Zinc, \$21,884,531; Coal and Coke, \$225,409,505; Building Stone, Brick, Cement, \$34,072,016; Miscellaneous Minerals, \$1,210,639; making its Mineral Production to the end of 1921 show

An Aggregate Value of \$734,259,619

Production for the Year Ending December, 1921, \$28,066,641

The Mining Laws of this Province are more liberal, and the fees lower, than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
VICTORIA, British Columbia.

To Holders of Five Year
5 1/2 per cent Canada's
Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5 1/2 per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1st interest cheque as usual. Holders of coupon bonds will detach and retain the last unexpired coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

Princeton Assessment District

I HEREBY GIVE NOTICE that, on Thursday, the 12th day of October, 1922, at the hour of 10 a. m., at the Provincial Police Court, Penticton, B. C., I will sell at Public Auction the lands in the list hereinafter set out of the persons in said list hereinafter set out for delinquent taxes unpaid by said persons, on the 30th day of June, 1922, and for interest, costs and expenses including the cost of advertising said sale if the total amount due for the period ending December, 31st, 1920, is not sooner paid.

The Collector will be pleased to receive any information respecting the following list, where the owner is a member of the Allied Forces and entitled to the benefits of Section 29 of the "Taxation Act Amendment Act, 1918."
