COMING! COMING!
Saturday, August 20th
Sir John Martin Harvey
in
"The Only Way"

Geo. Bryan and two children, Eileen and Teddy, and Miss A. Bryan, have returned from a motor trip to Spokane.

Of Local Interest

Wm. Jones of Rock, is in the District Hospital.

Mrs. Frank Bubar of Kettle Valley, is spending a few days in town.

Miss Isobel Keir has accepted a position on the staff of the Public School in Trail.

Andrew Sater has returned from a pleasant holiday spent in the Molson district.

Mrs. F. A. Johnson returned to town from a visit to the Sally mine Beaverdell.

Mass will be celebrated in the Catholic Church on Sunday, August 21st at 11 o'clock.

Miss Ethel Fraser, of Penticton, was the guest of Miss Silvia Price during the week-end.

Geo. S. Walters and J. H. Goodeve left this morning on a few days motor trip to Kelowna.

R. Lee, of the Wellington Mine, Beaverdell, spent a few days in town during the week-end.

Owen Wheler, of Rock Creek and Major F. E. Glossop, of Kettle Valley, were in town on Thursday last.

S. McDonald accompanied by Mr. Cosorso, of Kelowna, motored to Spokane this morning on a business trip.

Mrs. R. J. Skilton (nee Miss Ruby Goodeve) will be "At Home" on Wednesday, August 17th, from 3 to 5 p.m.

Staff Sergeant J. A. Fraser, of Penticton, and Constable C. F. Oland of Kaslo, were in town during the week-end.

Wm. Madden reports good progress in unwatering the Providence mine. He will install a second pump this week.

Arthur Downton, of Willcox, Sask., paid a visit to the Manse on Wednesday evening on his way home to the prairie.

A new school is being erected a short distance above Westbridge on the Main River. A. E. McDougall has the contract.

Louis Bosshart, who for some time has been working in the Jewel camp, has joined the crew at the Spotted Horse mine.

A. J. Morrison, Geo. Boag and Walter Clark, of the Wellington mine, Beaverdell, were visitors in town on Thursday evening.

Mr. and Mrs. E. B. Dill, and Miss Rena Dill, of Kelowna, formerly of Greenwood, were visitors in town on Sunday, en route to Nelson.

Cynthia and Betty Docksteader returned to Trail on Monday, after being the guests of Mr. and Mrs. Robert Williamson for several weeks.

Tony Tedesco, Frank Tedesco, of Fife, and C. Cooper, of Cascade, were the guests of Mr. and Mrs. Pete Campolieto on Saturday afternoon.

Miss D. C. Caldwell, of Vancouver, is the guest of her sister, Mrs. G. B. Taylor. Miss Caldwell has accepted a position in the Trail High School.

R. D. Thomas of Spokane, son of the late Thomas Thomas, was in town on business the first-of-the-week. Mr. Thomas was accompanied by his son.

Dr. Percy Abbott and Drs. Gordon and Colin McLaren have left for California after a several weeks visit with Drs. McLarens parents, Mr. and Mrs. D. McLaren at Deadwood.

Mr. and Mrs. Dick Roylance and son arrived in town on Tuesday afternoon, having motored in from Vancouver. They have taken up residence on their ranch up Boundary Creek.

Mr. and Mrs. Percy Hammerstrom and children have moved into the Boyer house at the south end of Copper street. Mr. Hammerstrom recently opened a garage in Greenwood.

A. R. Royce who has been visiting at his home here left on Wednesday afternoon for Trail accompanied by his daughter, Margaret, who will visit with friends in Trail and Nelson.

Mrs. Wm. Harrison and son William, of Princeton, accompanied by Mrs. Jack Keady who is making her home at Oliver where Mr. Keady is relieving, were visitors in town Monday.

With the great amount of moisture we have had this year all the lovers of gardens have been able to garden to their hearts content and some of the results are well worth all their trouble.

Miss Elsie Black, of Republic, Wash., Miss Lizzie Hanson and Miss Victoria Deane, of Copper Mountain, were visitors in town on Sunday. The three young ladies are former residents of Phoenix.

Mr. and Mrs. DuMont and children of Bridesville returned to their home on Wednesday after being the guests of Mr. and Mrs. Legault. Mickey DuMont had his tonsils removed at the District Hospital on Sunday.

Miss Hattie Auger recently returned to her home on Eholt Road, after attending the Alberta College North, Edmonton, Alta. Miss Auger's many friends will be glad to learn that she was succesful in the studies at the above College.

Mrs. R. S. Walker and four children of Moyie, are spending a holiday in this district. They will visit with Mr. and Mrs. S. W. Auger, Eholt Road, and Mr. and Mrs. Harold Caron, near Midway. Mrs. Walker is a daughter of Mr. and Mrs. Auger.

Angus E. McDougall of Grand Forks, was in town on Tuesday afternoon en route to Copper Mountain where he will unload and install a crusher for the Granby Co. The crusher came from Grand Forks where it has been stored for some years.

Rev. and Mrs. W. T. Beattie and daughter, Kathleen, of Grand Forks, and Rev. and Mrs. A. Walker and daughter, Goldie, met for a little picnic at Phoenix on Tuesday in honor of Mrs. Beattie's mother, Mrs. McKay, of Winnipeg. Mrs. McKay is recuperating from a recent operation.

Mr. and Mrs. W. B. Cochrane, of Vancouver, and Mr. and Mrs. W. B. Cochrane, Jr., of San Francisco, stopped at the Pacific Hotel on Wednesday night, en route to Grand Forks for a few days visit. They left Vancouver at 1 p.m. Tuesday and arrived here at midnight Wednesday, which is considered fast time. W. B. Cochrane, Sr., was police magistrate of Grand Forks before he and his family moved to the Coast.

A fire started after a freight train passed below Boundary Falls on Saturday afternoon and received a good start before the fire-fighters could reach the blaze. The wind carried it in the direction of J. C. Boltz's ranch. Mr. Boltz had been in Greenwood and arrived home in time to save his residence, barn and other buildings. Before he reached home 10 acres of fall wheat in stook were destroyed. One hundred acres of grazing land was also burned over.

A quiet wedding of local interest took place at 318 Robson St., Nelson, the home of Mr. and Mrs. J. J. Boyd, at 7 p.m. on Friday, August 5th, when Ruth, eldest daughter of Mr. and Mrs. W. Eureby, of Grand Forks, was united in marriage to Mr. Bouke Hoogerwerf, youngest son of Mr. and Mrs. J. Hoogerwerf, of Nelson. Rev. F. R. G. Dredge, of St. Paul's United Church, performed the ceremony. The witnesses were Mr. John Hoogerwerf and Mrs. J. J. Boyd. The bride is well known in Greenwood having visited here on numerous occasions; also at one time was a member of Bush's orchestra. The Greenwood Ledge joins with a host of friends in extending congratulations.

Beaverdell Briefs

Geo. Hambly and Robt. Perry are working on the Homestake.

Mr. Lee, of the Bell mine, is spending a holiday in Coast cities.

Three men are employed at the Dollar mine doing surface work.

Ed. Nordman, supt. of the Sally mine is on a two weeks vacation at the coast.

The Bell mine is a steady shipper and this property is looking better than ever.

Work is progressing on the Beaver and reports from this mine are very encouraging.

Louis Nordman is in charge at the Sally Mine while Supt. Ed. Nordman is on his vacation.

A rich strike was made in the Sally mine a few days ago. This ore was encountered in a drift that the Federal Co. had driven. The ore contains grey Copper and ruby silver.

The government road crew is doing good work in the improvement of the road in the Bull Creek Section. It is reported that the high bridge in that section will be rebuilt next year.

Mr. and Mrs. George Saunders, of Seattle, Wash., were visiting Mr. and Mrs. A. J. Morrison at the Wellington mine, for a few days last week. Mrs. Saunders is niece of Mr. Morrison.

The Bounty shipped a car of ore last week. This mine is owned and operated by Mr. Stanhope, who has a good plant on the property consisting of a Fairbanks Morse engine and a 2-drill compressor.

The bridge under construction over the Kettle River connecting the town with the railway depot is expected to be completed by the end of the week. The new structure will be a great improvement over the old one.

Bill Youngson and Jack Morrison motored to Slate creek, on the Main Kettle River on Saturday evening and returned Sunday afternoon with a nice catch of 40 trout, ranging from 11 to 18 inches.

A carload of high grade ore was shipped from the Wellington mine to the Trail Smelter on Tuesday. This property is keeping up its reputation as a producer of high grade ore, and with new ore encountered in the stope, regular shipments will be kept up. A 50-foot winze will be made under the big ore shoot, and it is estimated that it should produce as much ore as the previous shoot which contains about $40,000 worth of ore.

Fined for Setting a Fire

T. L. Dorner appeared before S. B. Hamilton, S.M., at the Greenwood Court House on Wednesday evening, charged with using explosives and failing to extinguish the fire. The information was laid by R. O. Leslie, forest ranger. The accused pleaded guilty and was fined $25 and costs.

A Large Fish

R. C. (Dick) Taylor went fishing last evening and in a short time was back in town with a fish weighing 4 pounds 15 ounces and measuring 24½ inches. Dick caught the trout in what is known as the brewery dam below the C.P.R. fill north of Greenwood. He hooked it with a spinner and it gave him about 40 minutes play. When he brought it on land the leader gave way and there was a scramble between fisherman and fish. This a record size fish for Boundary Creek and one that must have played havoc with young fish.

Urges Motorists to Make Repairs off Highways

"Drive your car off the road before you attempt to make repairs," advises the Automobile Club of British Columbia in a statement just issued, calling attention to the possibility of accidents from this cause. Using the highway as a repair shop is characterized as extremely dangerous.

Peak of the Fire Season

Without hope of early relief from hot, dry weather, British Columbia finished last week with no less than 195 new forest fire outbreaks since the previous Saturday, according to the weekly fire bulletin issued by the provincial forestry service in Victoria.

Conditions in the woods were reported the first-of-the-week as extremely bad, while weather forecasts indicated that no rain may be expected in the immediate future.

The province is now in the peak of the fire season when outbreaks may be expected in all districts, forestry officials said. Only heavy rains can improve conditions materially and no moisture is in sight.

"Nothing Can Stop Us."

Canada has been honored in this year of its Diamond Jubilee by another visit from the Prince of Wales. On this occasion, however, he is accompanied by his brother, Prince George, and by the Right Honorable Stanley Baldwin, Prime Minister of Great Britain.

The significance of this visit will not be lost upon the people of Canada, nor, in fact, upon the British Empire as a whole. The ease with which the people of Canada and the British Isles can exchange visits nowadays is resulting in a more intimate knowledge of each other and is developing a community of interest quite lacking not so many years ago. Now it is almost as easy for the people of Canada and Britain to visit each other as it is for Canadians in the the Maritime Provinces to visit their fellow citizens in British Columbia.

The fact is thus being made known to the world that Canada occupies a strategic position in the British Commonwealth of Nations. Its geographical location in the Empire, constituting it the main highway between the Occident and the Orient, must inevitably result in this Dominion being the real centre of the Empire in the not so very distant future. And the development of trans-oceanic travel by air will only serve to emphasize Canada's important place in the Empire.

Thus, for the first time in history, a Prime Minister of Great Britain is able during his tenure of office to leave Britain and make an official visit to one of the overseas Dominions. He could not possibly spare the time to visit any of the other Dominions. It is an epoch marking event.

It is apparent that Mr. Baldwin, himself, is cognizant of what the future has in store. In an address before the Montreal Canadian Club shortly after his arrival in this Dominion, Mr. Baldwin spoke in such optimistic terms of Canada's future possibilities and greatness that, voiced by a native Canadian, would have left the latter open to possible ridicule and criticism as being bombastic.

Mr. Baldwin sees no limit to the greatness of Canada's future. "Nothing can stop you," he declared. Canada, he went on to say, must progress with the world's progress with the result that some day "Canada may be the greatest nation in the world."

Sixty years of Confederation have proven to Canadians and to the world what can be accomplished, and have established the untold possibilities of the Dominion in all those qualities and resources which go to make a nation great. Another sixty years may easily see Canada with a larger population than the British Isles, with manufacturing being carried on with a magnitude as yet only dreamed of, and surpassing in output the great industries of the Old Land, while at the same time supplying in much greater degree than today the food requirements of the world.

Canada is only now getting into its stride. It is just on its feet, and on the eve of a development and expansion in all the major activities of the world which will establish a new world's record in national growth. Canadian foundations have been well and truly laid. They are strong enough upon which to erect a magnificent structure, and it only remains for the Canadian people to realize its possibilities and devote themselves with patriotic devotion and untiring energy to the inspiring task before them.

The days of pessimism are past. There never was any real cause for them, but this Jubilee year has, there is reason to believe, finally convinced the people of the Dominion of this fact. There has been a great awakening of our people, and a new national spirit has been evoked, a new confidence born, and a pride and courage developed which in a comparatively few years will work a veritable revolution in the growth of this Dominion.

Canadians will do well to keep ever in mind the slogan of the National Diamond Jubilee Committee "Canada Our Country," and to accept as their watchword the words given to them by Premier Baldwin, "Nothing Can Stop Us." In making Canada great and prosperous they will be rendering the finest possible service to the Empire as a whole and confer benefits upon the world at large, because, above all things, the Canadians are a home loving, peace loving people. They have the true conception of the new Internationalism which believes in the advancement of all peoples as the true policy of a better world.

Sheep Ranch At Invermere

A movement is on foot to develop a large sheep-raising industry in the territory about 30 miles south of Invermere, B.C., contiguous to Findlay Creek and Canal Flat. A wide-open, undisturbed range lies in that part which since the cattle industry has flagged, has rarely been occupied except by wild horses common to that part.

Saskatchewan Cow Makes Record

C. E. Day, Secretary Dominion Shorthorn Breeders Association, Guelph, Ont., reports that Darlington Mable (204080) a cow owned by F. S. Cooper, Gravelbourg, Sask., has just completed a 305-day record of 5,617 lbs. of milk and 249 lbs. of butter-fat.

Duties of other people are always doubly clear to us.

Creates New Walking Record

Jean Linder, of Switzerland, walking the 315 miles from Paris to Strasbourg in an elapsed time of 72 hours, one minute, has created what is claimed as a record for long distance road walking. His actual walking time was 66 hours, or an average of nearly five miles an hour. He beat 45 other walkers, finishing three hours ahead of his nearest competitor.

Alberta Coal For B.C.

Mr. George R. Pratt, fuel engineer for the Alberta Government, reports that there are strong possibilities of establishing a satisfactory market for Alberta coal on the Pacific coast due, to some extent, to the creation of bunkering facilities at Vancouver.

If a man is too lazy to think for himself he should get married.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

Unique Device Patented

Rollers At Railroad Crossing Will Prevent Accidents

As a means for preventing automobile accidents at railroad crossings, an Ohio inventor has patented a roller device which has proved effective under tests, says Popular Mechanics Magazine. There are two sets of rollers, each eighteen feet long, installed in the highway near the rail approach. They revolve only one way and when the automobile strikes them, as a train is approaching, they turn, keeping the car from going forward. When the train passes, a switch locks the rollers so that the auto can proceed.

Why Hobble Along On Sore Corns?

Don't cut corns with an old razor. Infection followed often by death may result from paring corns with an infected knife. Quick, safe relief comes from using Putnam's Corn Extractor. If afflicted with corns, calluses or sore footlumps, use "Putnam's"—it's reliable and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use Putnam's Painless Corn Extractor. 25c. at all dealers.

An Overcrowded Country

Population Of England Is 700 To the Square Mile

It must be confessed that we dwell in an over-crowded country. The population of Englasd, apart from Wales and Scotland, is more than 700 to the square mile. We are four times as crowded as India and nearly three times as congested as China, we are twice as crowded as Germany or Italy, and nearly four times as France. Nevertheless, since 1910, we have built some 800,000 houses at a capital cost to the public purse estimated to be about £147,000,000 — and still State subsidies are being given towards uneconomic housing schemes, which fill our suburbs and encourage builders to erect ugly villas along our country roads.—B. S. Townroe Edinburgh Review.

THE BEST MEDICINE SHE EVER USED

Dr. Williams' Pink Pills Highly Praised By a Quebec Lady

Mrs. David Logan, Thetford Mines West, Que., gives unstinted praise to Dr. Williams' Pink Pills for the good they have done in her family. Mrs. Logan says:—"I have been a user of Dr. Williams' Pink Pills for many years, as occasion required, and have always found them a most reliable medicine. My husband, who was recovering from an attack of typhoid fever, and was in a very weak condition, took the pills, and through them gained health and strength. My daughter was in a run-down condition, and was forced to discontinue work. Again Dr. Williams' Pink Pills were resorted to and she was soon restored to excellent health. Then my eldest boy had an operation performed for adenoids, which left him in a weakened condition. Once more Dr. Williams' Pink Pills were tried, and he was soon in excellent health. So I can truly say that more than satisfaction has been obtained by the use of this medicine. The pills have done more good in my home than hundreds of dollars worth of more expensive medicines."

Dr. Williams' Pink Pills assist digestion, correct the lassitude, the palpitation of the heart, shaky nerves and the pallor of the face and lips that are the results of thin, impure blood.

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Movies Filmed In Rockies

Spectacular Stunts Of Aviation Over Lake Louise

The most spectacular event ever attempted in the Canadian Rockies and one which attracted every guest to the front lawn of the Chateau Lake Louise, was successfully carried out by two Canadians, ex-Royal Air Force officers, W. H. Williams and E. C. Bigelow, who for half an hour performed a number of flying stunts over Lake Louise and the Chateau. Zooming down on the lake and dropping from the machine in parachutes were the features of the exhibition which was staged by the Fox Film Company in connection with their film, "Pyjama." This picture, which stars Olive Borden and is directed by Jack Blystone, is now being made in Alberta.

Encourage Vegetarian Weddings

"Vegetarian weddings are being encouraged by the French Society of Vegetarians. They have organized a series of functions where young lovers of vegetables can start their courtships. Opposites may be attracted to each other say some of the leaders of this movement, but the dinner table is likely to become a battle ground if there be too great a difference in tastes.

W. N. U. 1693

WILSON'S FLY PADS

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Druggists and General Stores — 10c and 25c per package.

Eight Ocean Airmen Brought Together

Aviators Entertained At Breakfast By Mayor Of Boston

For the first time since the Atlantic and Pacific flights which made them famous, eight of America's ocean - spanning aviators were brought together.

At a breakfast tendered by Mayor Malcolm Nichols at the Hotel Bellevue, Boston, Colonel Charles A. Lindbergh, who was given a tumultuous greeting to Boston, was joined by Lieutenants Lester J. Maitland and Albert F. Hegenberger, Pacific fliers, Commander Richard E. Byrd and his crew on the flight to France, Lieutenant George O. Noville, Bert Acosta, and Bernt Balchen, and by Clarence D. Chamberlin, who flew to Germany.

Mrs. Chamberlin was the only woman present. She sat next to her husband. Porter Adams, president of the National Aeronautical Association, was another guest.

For Scalds or Burns.—Dr. Thomas' Eclectric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

Mr. Amery's Empire Tour

Will Visit Canada In January Of Next Year

Mr. Amery is now embarked upon his tour to the dominions, having sailed for South Africa from England on July 22.

During his stay in South Africa he will visit the High Commission Territories and Southern Rhodesia in addition to the Union.

Leaving Cape Town on Sept. 23, Mr. Amery will visit Australia, October 10 to November 17; New Zealand, November 22 to December 20; and Canada, where he will arrive about January 5 or 6. Mr. Amery is expected to spend a month in Canada before returning to England.

Mr. Amery's staff will consist of Mr. G. G. Whiskard, C.B., assistant secretary in the dominions office; Mr. G. Huxley, a member of the staff of the Empire Marketing Board, and Captain W. Brass, M.P. Mr. Amery is accompanied by Mrs. Amery, who is a Canadian—a sister of Sir Hamar Greenwood.

Teaching Empire History

Primary Schools Should Have Advantage As Well As Universities

Much has been done in recent years to make young Englishmen, at all events those whose opportunities lead them to the universities, reasonably acquainted with the growth of the Empire, its constitution and the methods of which it is governed or governs itself. But it is not sufficient that those, whether at home or overseas, who will be called upon to take a definite part in such government should be qualified to do so. Every voter should as far as possible, be so qualified, and, if this is admitted, it follows that the teaching of Empire history and affairs must be in the primary and secondary schools throughout the Empire as well as in the universities.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

Better Class Of Immigrant

"I believe it is quite likely that the volume of immigration of a very good class of will grow much larger in the immediate future," said Hon. Robert Forke, Minister of Immigration, who has returned from England. While abroad, Mr. Forke visited the agencies of his department maintained in Great Britain, and also in the cities of Rotterdam, Antwerp, and Paris. He visted Norway, Sweden, and Denmark in connection with immigration matters and conferred with cabinet ministers in those countries.

For corns and bunions use Minard's Liniment.

New High Speed Ships

Will Cross Atlantic From Germany In Four and a Half Days

Vincent Astor, recently returned from Europe, brings news of interesting, highspeed transatlantic travel developed in Germany.

Within a short time German ships will cross in four and a half days. The cost of such high speed will be great even with modern Diesel engines, fuel consumption going up many times faster than a ship's speed.

But two of the high-speed ships will make as many trips across the ocean as three of their fastest competitors could make. That will make up for speed cost, saving 50 per cent. in ships and crews. And the short trip will draw the best paying customers, including the idle rich, to whom it does not make any difference how slowly they go. They think they are in a hurry and very busy, and willingly pay for speed.

Plan Scottish Dictionary

Ambitious Project To Be Carried Out In New York

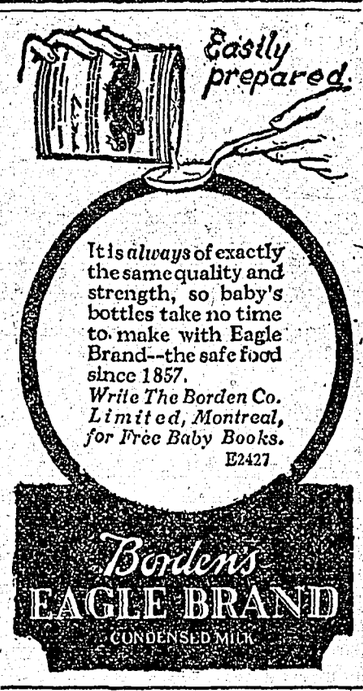
Under direction of the Scottish Dialects Committee a new Scottish dictionary is to be issued. It will consist of from ten to fifteen parts, each part being issued as it is completed. While the project might be self-supporting should there be a sufficient number of subscribers, the committee is being aided financially by the Carnegie Trust, and is sendisg appeals to Scots at home and abroad, and also to Burns Clubs, St. Andrew Societies and Scottish County Associations. Representatives will be sent to Ireland, New Zealand and other countries to gather material. In seeking information a questionnaire brought 15,000 replies from the district of Edinburgh alone.—New York Morning Telegraph.

Alberta Cattle Breeder Sells Herd

Allan R. Gillies, breeder of Ayrshires and Yorkshires, Clover Bar, Alberta, has sold his entire herd of 63 head of pure bred Ayrshires to parties in Seattle, Wash., U.S. It is unusual for whole herds to be sold at one stroke. The sale apparently indicates that the demand for Western Canada live stock is steadily increasing.

It Bids Pain Begone. — When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Eclectric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Indigo producing plants are grown throughout China to make dye for the blue clothing worn by Chinese lower classes.



SALESMAN WANTED to sell hardy tested stock of "Canada's Greatest Nurseries" (Established 90 years). New and special lines, including varieties recommended by the Western Experimental Stations. Highest commissions, exclusive territory, handsome free outfit. Start now. Stone & Wellington, Toronto, Ontario.

Leaves For Hudson's Bay

British Engineering Expert Is Accompanied By Official Party

Frederick Palmer, British engineering expert, who has been retained by the Dominion government to report upon the Hudson Bay harbor development at Port Nelson and Fort Churchill, arrived in Ottawa, July 27 from England, accompanied by E. J. Buckton, prominent engineer of London, England, and left at once for Hudson Bay with the official party, which includes Hon. Charles A. Dunning, minister of the department of railways and canals, and Major Graham Bell, the deputy minister.

The Terror of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

A long-legged sheep in the Himalayas is able to run 40 miles an hour. Even the modern Marys would have a hard time keeping up with a clip like that.

Coal Production Increasing

Latest official figures show that coal production in both Alberta and Saskatchewan is increasing.

Mirard's Liniment for burns.

Perhaps a widow finds it easy to get married because she doesn't expect perfection in a man.

Genuine BAYER ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe — Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

ALL 'ROUND BETTER THRESHING WITH THE

WATERLOO Steel "CHAMPION"

These features of the Waterloo Steel "Champion" give you a lifetime of reliable service. Your threshing will be quicker, easier and better: Strongest frame made in any thresher. Hyatt roller bearings, Alemite lubrication system, improved construction in every part from feeder to blower. The Waterloo Steel "Champion" is Canada's finest and strongest thresher.

Seven sizes: 22x36; 24x36; 24x42; 28x48; 33x52; 36x56; 40x62.

Dust Explosions A Mystery

Experiments Being Made By Scientists To Determine Cause

The terrific coal dust explosions, arranged as an experiment, at the Safety in Mines Research Station, near Buxton, England, has caused millions of people to wonder why ever it is that so inoffensive and commonplace an article of domestic use seems to be prone to fits of behaving like dynamite, and to causing dreadful mine disasters. Even our most learned men of science cannot tell you a great deal about this mystery, as you will doubtless realize when you see that great "explosion galleries," one of them 1,000 feet long, are being built in this 400-acre area of wild rocky Derbyshire hillside, and £35,000 has been spent in equipment, mainly to obtain data on it.

Already the experimenters have found that the ribbon of coal dust stretching underfoot along mine tunnels is not nearly so explosive when stone dust is strewn along it in a sufficiently large proportion. It is not generally realized, however, that many apparently harmless dusts are highly explosive, including that of wood, paper, cork, starch, malt, linseed, linoleum, chocolate, spice, grain, sugar, flour, cattle cake and sulphur. It is dust brought in contact in enclosed spaces with naked flame, sparks or glowing cigarettes, cigars or pipes, that causes many a mysterious explosion which the coroner's inquest fails to account for.

Even milk powder is explosive, as was discovered in a drying plant in Wisconsin. A Rhode Island works, which was making soap powder in a little room lighted by gas jets, was blown up when the air was foggy with particles from the grinding machines. Last year one of the biggest grain elevators in the world, situated at South Chicago, was blown up by dense clouds of grain dust coming into contact with a lighted cigarette, at the cost of $3,000,000 in material damage, and the lives of all the six men working in the tower at the time. A spark from an electric switchboard at Portland, Maine, ignited a cloud of dust in a mattress factory; and starch dust, which is especially dangerous, exploding at Cedar Rapids, killed 43 persons and injured 30.

Another bad dust catastrophe which occurred in a Wisconsin works was caused by a bit of steel wire falling into the exhaust pipe of a room in which girls were putting the final polish on aluminum ware. This pipe, passing along under the work benches, was put there to suck in the metallic dust and carry it out of the room. The steel wire was whirled along to a rapidly revolving fan, where it flung out sparks that exploded the dust. Half a dozen of the girls were killed and several injured.

CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Minesing, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it."—Mrs. NEAL BOWSER, R.R. 1, Minesing, Ontario.

Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition. C

W. N. U. 1693

Names Often Confused

Tornado Is Twisting Wind and Cyclone Straight Air Movement

There is much popular confusion as to the difference between a cyclone and a tornado, says the Pathfinder. A tornado is a violent, whirling wind. The most conspicuous feature of tornado is a whirling black cloud, hanging from a mass of dark storm clouds. This cloud may be funnel-shaped or balloon-shaped or like the trunk of an elephant. It is somewhat similar to a waterspout on land and usually sweeps over a path averaging a quarter of a mile wide and twenty-five miles long. Wherever it touches the earth it accomplishes surprising feats of devastation.

Such storms are very common in the Middle West where they are erroneously called cyclones. Meteorologists apply the term "cyclone" to a vast system of winds blowing around a centre of low atmospheric pressure. A cyclone usually covers several hundred thousand miles of area and very seldom is strong enough to do much damage. In any given locality it appears as a straight wind. When it reaches storm velocities, especially in tropical regions, it is called a hurricane. Thus the tornado is a whirling or twisting windstorm, while the cyclone or hurricane is a straight wind.

Women Longer Lived

Statistics Show Average Age At Death Higher Than Men

It has always been found that women, as a whole, live longer than men. The latest statistics show that, on an average, they live four or five years longer. Figures recently compiled by the Registrar-General indicate that the average expectation of life for males in England and Wales increased even in the period between 1910 and 1924 by eight years. It has been computed that the mean length of life to be expected at birth is now 56.58 years for men and 60.47 years for women. There has been a steady lengthening of life since the first Public Health Act was passed in 1848. The number of deaths at the age of 100 years and over which have occurred in England and Wales during the past five years is 439. There were about three times as many women as men.

One Secret Of Success

Let me tell you one secret of such so-called successes as there may have been in my life, and here I believe I give you really good advice. It was to burn my boats and demolish the bridges behind me. Then one loses no time in looking behind when one should have quite enough to do in looking ahead. Then there is no choice for you or your men but to go forward. You have to do or die.—Dr. Nansen.

"Feyther," said little Mickey, "wasn't it Patrick Henry that said "let us have peace?" "Nivver," said old Mickey. "Nobody by the name of Patrick iver said anything like that."

Proves Earth Is Slowing Up

Astronomers Say Last Eclipse Came Three Seconds Late

Because the last eclipse of the sun occurred three seconds later than astronomers predicted, Dr. H. A. Stevenson believes that the fact will have a tremendous bearing upon the future of the earth.

"To many," says Dr. Stevenson, "three seconds of an error may seem a trivial matter, but to modern scientists it is a question of great significance.

"No one can yet say, or even suggest what has probably occurred to produce such a difference between theory and fact. An error of three seconds was made, and since it is the first error that has been experienced, scientists are at a loss for an explanation.

"From a collection of ancient records, dating back to 1063 B. C., it has become known that the duration of a day is gradually lengthening. This means that the earth is spinning less rapidly than heretofore, which in turn suggests that some force—as yet unknown—is tending to drag the earth to a standstill and this is already apparent in one or two of our satellites.

"Only recently professors have been discussing this 'brake' force and attributing it to the moon, but there are astronomers of no mean reputation who entertain doubts regarding this theory.

"Some may suggest that the error in calculating the arrival of the last eclipse was purely a technical one. On the other hand, so many astronomers have followed that same straightforward process of calculation so many times that for an error to creep in unnoticed is next to impossible.

"With the earth known to be slowing down and the fact that the last eclipse came three seconds late, a theory might be advanced that the same force that is using the brake action was also pushing the earth down in space or at any rate away from the sun.

"Previous eclipses have brought important discoveries with them. For instance, the total eclipse of 1868 was attended by the discovery of Hellum gas. The eclipse of May, 1919, was memorable for testing and proving Professor Einstein's theory that rays of light are bent out of their paths by gravity."

World Reading Shakespeare

Library In England Has 20,000 Books In Different Languages

The Shakespeare Memorial Library at Birmingham, England, has nearly twenty thousand Shakespeare books, the largest collection in the world, and the library is a kind of index of the way Shakespeare is being read everywhere.

The demand for translations comes from all quarters of the globe and even in China they are reading Shakespeare increasingly.

Every new edition and every new translation is represented in the Birmingham Library, and in the last twelve months three hundred and twenty-two new volumes were added in thirteen languages.

Using Wrong Stamps

Many Canadian Letters For U.S. Mail Cannot Be Accepted

It is reported that various post offices in the United States are receiving from Canadian post offices letters marked for transportation by United States air mail services on which the United States air mail fees has been prepaid by Canadian postage stamps. Such letters are endorsed by the United States postal service "Insufficient postage for air mail service" and are forward as ordinary mail. Persons wishing to send mail from Canada for transmission by United States air mail services must prepay the United States air mail fee by means of United States postage stamps.

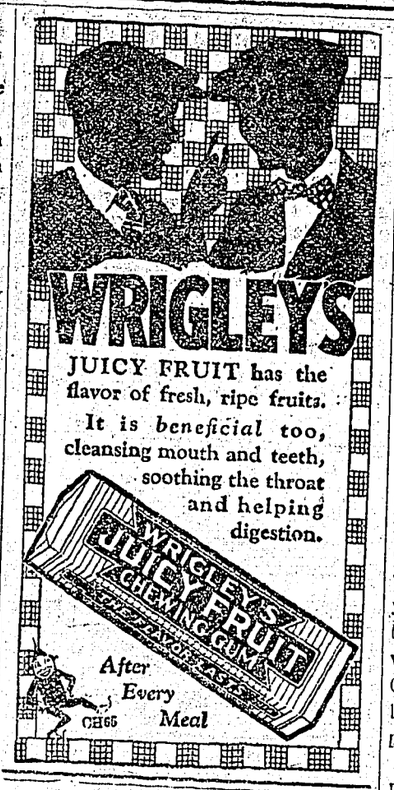
Strange House In India

The strangest house in the world is probably one in Jeypore, India. Besides its peculiar architectural appearance it boasts of being a huge musical instrument. When the wind is blowing it produces beautiful notes. The material used in the structure was a porus stone of very light weight. The wind playing upon the various openings acts as if upon reeds.

Leviathan To Carry Planes

Captain Herbert Hartley, master of the Leviathan, says that an experiment will shortly be made with airplanes, catapulting them from the liner. They will carry passengers and special air mail.

It takes a very conscientious man to enjoy his work when the pay is small.



Aviator Had Narrow Escape

Frenchman Fell Headlong Nearly Four Miles Before Parachute Opened

After a headlong fall of nearly four miles through space, a French aviator, Jean van Laere, suffered merely from a rush of blood to his head caused by the dizzy drop.

Van Laere's parachute failed to open when he leaped from his plane at an altitude of 7,000 metres and remained shut until by some miraculous atmosphere shock it suddenly opened when he was 100 metres (about 330 feet) from the earth. The aviator's fall halted abruptly and he dropped gently down into a tree, in the forest of Carnelle, near Beaumont-Sur-Oise, over which he had been flying.

Stunned by his long fall the airman hung only half conscious in the branches of the tree for some time until he was discovered by members of the Forestry Service, who lowered him to the ground and carried him to their hut, where, after a couple of hours' rest, he regained lucidity and was able to give an account of his aerial adventure.

Van Laere was making a test flight from Villacoubly Flying Field. Flying over the field, he climbed to a height of 7,000 metres when his respirator for some reason stopped functioning.

While choking in his efforts to adjust the respirator, Van Laere said, he lost control of the plane and decided he would have to jump to save himself. He succeeded in leaping clear with the parachute, but when it failed to open he believed that he would be killed.

"I am astonished to find myself alive," said the aviator.

The plane was found totally demolished and almost wholly buried under the ground a few hundred yards from the spot where the aviator landed.

Minard's Liniment for scaly scalp.

Airplanes Outdo the Birds

Able To Make Much Longer Non-Stop Flights

Factory-made wings have eclipsed the feathered species. Lindbergh's non-stop flight was 3,610 miles. The distance flown by Chamberlin and Levine is estimated from 3,900 to 4,400 miles. The longest non-stop flights of birds have been those of Alaskan plovers from the Aleutian islands to Hawaii, a distance of 2,400 miles, and the annual migrations of golden plovers from Newfoundland and Nova Scotia to the Leeward Islands and the northeastern coast of South America, a distance of 1,700 to 2,200 miles.

A Modern Scarecrow

Radio has been introduced as the newest farm implement by Gustav Schmitz, owner of a large orchard near Hornburg, California. Despairing of saving his valuable harvest of apples and pears from a cloud of voracious sparrows, unmoved by ordinary scarecrows, he installed a loud speaker in the orchard, and, as the announcer's first words, the winged pests, fled, terrorized, never to return.

There is no objection to people's thinking what they like — just so their thinking isn't done out loud.

Hikers.

Take a bottle of Minard's in your kit bag. Relieves sore feet.

MINARD'S "KING OF PAIN" LINIMENT

Enlightened Red Men

Old Time Indian Chiefs Who Were Loyal To the Government

Western newspapers are liberal in their praise of Chief Thunderchild, who died on his reserve near Saskatoon a few days ago. He is said to have been the last of the old-time Chiefs, and as such signed one of the half-dozen treaties in the seventies by which the red man surrendered his prairie domain to the advancing whites.

Thunderchild illustrated how fortunate Canada has been in its relations with the aborigines. He was one of the Chiefs who refused to join Riel in the Rebellion of 1885, and remained loyal to the Government with which he had made a covenant a few years earlier. The organization of the Northwest Mounted Police in 1874 was a wise move by the Canadian Government, and the Indians soon learned the value of the force as a protecting agency for them.

Crowfoot, the wise Chief of the Blackfoot tribe, out near the foothills, expressed well the view of the enlightened Indian when he signed the Blackfoot Treaty in 1877. "If the police had not come to the country, where would we all be now?" he said. "Bad men and whiskey were killing us so fast that very few indeed of us would have been left today. The police have protected us as the feathers of a bird protect it from the frosts of winter."

Crowfoot, too, refused to join in the rebellion, and he welcomed the railway as the natural instrument of the white race which in the Canadian West had befriended the natives who had to give way to new conditions.—Toronto Globe.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

Gold Reserve Well Protected

Underground Vaults In Bank Of England Are Burglar Proof

Although workmen engaged on the new underground vaults of the Bank of England, where all of Great Britain's gold reserve will rest, are guarded from prying eyes by armed policemen, some details have leaked out regarding what is said to be the world's hardest job of safe cracking.

Underneath the present bank are concrete walls fifty feet deep and seven feet eight inches thick. If somebody with felonious intentions were to tunnel through these he would come into a passage patrolled by guards and protected by every known alarm system around all four sides of the treasure.

Once in this passage way the cracksman would have to cut through double grills of steel. The next step approaching the swag of several hundreds of millions of dollars in gold would be to cut through doors of solid steel weighing 24 tons each. This would take oxy-acetylene drills, in the hands of experts at least three days. These doors can be swung with light pressure of one hand, if they are open. When they are locked it is different.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Something To Be Proud Of

Britain Holds Enviable Place In Long Distance Flying

The British record in long-distance flying is something to be proud of. We have to our credit the first conquest of the Atlantic both by airship and aeroplane, the long array of Empire flights by Sir Allan Cobham, and the magnificent non-stop attempt to India which synchronized with Colonel Lindbergh's Atlantic crossing. Yet to a great extent, because we are without the flair for self-advertisement which is a conspicuous possession of some other nation, Britain's reputation abroad is tending to become that of an indifferent performer in the air, and pessimistic critics at home are talking and writing as if we had fallen into a position of hopeless inferiority.

A Clerical Error

A clergyman who had given up his former position as a justice of the peace in order to enter the pulpit was conducting his first marriage service.

"Do you take this man to be thy wedded husband?" he asked the bride.

The bride answered eagerly: "I do."

"And you," he continued, addressing the bridegroom, "what have you to say in your defense?"

Offered FREE by the Government

THESE two pamphlets, prepared from actual experience by Government experts, contain information of genuine value on any farm.

"Preserving Fruits and Vegetables in the Home" is a 46-page booklet particularly valuable at this time. It goes very thoroughly into every department of canning—fruits, vegetables, jams, jellies, pickles, etc. It discusses the various methods and makes many recommendations helpful towards better preserves and fewer spoilages. Contains 74 different recipes.

"Rabbits"—gives the real facts about this profitable farm side-line, mentioning particularly the popular Chinchilla. Explains the chances of money-making in meat and pelts—detailing carefully the best methods of housing, feeding, breeding, marketing, curing diseases and choosing breeds.

Over 500 other pamphlets on farming subjects are available. Write for the 1927 list. Fill in and mail this slip **post free to**

Little Helps For This Week

Walk worthy of the Lord unto all pleasing, being fruitful in every good work.—Col. i. 10.

True worth is in being, not seeming,
In doing each day that goes by
Some little good, not in dreaming,
Of great things to do by and by.
—Alice Cary.

Not what we think, but what we do,
Makes saints of us.
—Ibid.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Only Woman Tea Taster

There is a woman who tastes no fewer than 300 samples of tea every day. She is Miss Margaret Irving, and she enjoys the distinction of being the only woman tea-taster in Great Britain.

Minard's Liniment for cuts and bruises.

Husband: Well, thank the Lord the car is finally paid for.

Wife: Isn't it splendid! Now we can turn it in on a new one.

It takes a good artist or a good actor to draw a good house.

Diarrhœa Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan, Alta., writes:—"Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhœa and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute

This valuable preparation has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Trail is Canada's Great Lead Producing Centre

Finally revised statistics on the production of lead in Canada in 1926, as reported by the mining, metallurgical and chemical branch of the Dominion bureau of statistics, Ottawa, on Tuesday, show that a new record in quantity produced was established when the total recovery amounted to 283,801,265 pounds, valued at $19,240,661 as against 253,590,578 pounds, valued at $23,127,460, in 1925. The greater part of the Dominion production was from the Consolidated Mining & Smelting Co.'s smelter at Trail, B.C.

Midway News

John L. Bush, Jr., of Spokane, Wash., is spending a month's holiday at his home here.

Mr. and Mrs. Gus. Graser and son Walter, motored to Oliver on Sunday to spend the day with Mr. and Mrs. Jack Keady.

Gordon McMynn's car and D. W. McLaren's car, of Canoe met on a bad corner, two miles east of here on Saturday night, both cars being slightly damaged.

Bridesville News

Mrs. Verle Moore and two sons left on Thursday on a visit to Silverton.

Mr. and Mrs. Fay Alden, of Penticton, were visiting Mr. and Mrs. Don Alden during the week.

Rev. A. Walker was visiting in town on Saturday afternoon and held service as usual Sunday morning.

J. M. Bozarth returned Saturday from Sexsmith Alta. where he was visiting his daughter Mrs. Calix Delisle. On his return he received a telegram that the younger daughter of Mr. and Mrs. Calix Delisle had died suddenly a few days after he had left. Evelyn was 3 years old.

Locals

T. Brannigan, of Merritt, is renewing acquaintances in town.

Miss Marguerite Ritchie has returned from a visit to Miss Mayneen Bush in Midway.

L. Portmann is in the District Hospital having been taken suddenly ill this morning at the Portmann ranch on Nicholson Creek.

Radio fans should try and receive the test programs broadcasted from station W. G. Y. Schenectady, N. Y. between the hours of 9 and 10 p.m. Pacific time. This station is trying out the use of 100 kilowatts power, the stongest ever used on radio broadcasting. The wave length is approximately the same as K.G.O. Oakland, Cal.

Harry Howson appeared before S. B. Hamilton, S.M., at the Greenwood Court House on Saturday morning, Aug. 6th, charged with obtaining food and lodging fraudently at the Beaverdell Hotel, Beaverdell. He was remanded for trial until Friday, Aug. 12th at 4 p.m. Keith A. Pincott, barrister, was counsel for the accused. Mr. Howson was arrested in Princeton and was brought here by Constable W. B. Stewart, of the Provincial Police, who made the trip over for him on Thursday last.

Guests at the Pacific Hotel during the week: Mr. and Mrs. B. W. Bubar, Beaverdell; Mr. and Mrs. D. W. McLaren, Canoe; E. B. Dill and wife, Rena Dill, Kelowna; Mrs. F. Bubar, Kettle Valley; F. W. Hall, Dewar Lake; Josef Husman, John Johanssen, Midway; R. D. Thomas, Spokane; A. G. and Mrs. Spooner, Calgary; Vernon Cole and wife, H. A. Hill, H. H. Johnston, Rossland; Angus McInnes, Mr. and Mrs. J. McFadden, New Denver; Albert Coy, R. Gilly, Penticton; F. H. Fox, Nelson; Mr. and Mrs. W. B. Cochrane, H. N. Smith, Vancouver; Mr. and Mrs. W. B. Cochrane, Jr., San Francisco.

Speedy Locomotive

Great Britain's mightiest locomotive, the King George V, which is to be on display at the Baltimore Exhibition next year, began its career recently by hauling the Cornish Rivera express from London to Plymouth. It covered the 226½ miles in four hours and two minutes, which was five minutes less than the schedule for the run. The locomotive is the most powerful ever built in the Old Country and has a speed of more than one hundred miles an hour.

Mary Pickford is Idol of Children

Mary Pickford, who comes to the Greenwood Theatre on Saturday, Aug. 13th, in her latest United Artists Corporation production, "Little Annie Rooney" used about fifty children in the picture.

Excepting in a few scenes, these children were all boys, and Miss Pickford was the leader in all their fun and devilment.

When it was announced that Mary would make a picture using so many children, the gates of her studio in Hollywood were stormed by fond mothers, all seeking to have their children in Mary's new production.

Those that were finally chosen out of hundreds who applied felt very fortunate indeed. They idolized Mary, and in scenes where a kids, "gang" fight was staged, it was with difficulty that Director William Beaudine could get the boys to really fight with Mary. Their kicks and blows were usually so gentle that the scenes would have to be retaken.

A Protest Against Warfare

"This stone shall stand as a protest against warfare, a protest as hard as the granite from which the stone is hewn." These words were used by Westfal Larsen, president of the Norwegian Shipowners' Association,at the openlng by the Crown Prince of Norway at Rotherhithe, London, Eng., of a memorial dedicated to Norwegiau seamen who during the Great War, Mr. Larsen said, "tried to assert Norway's right to ply freely on the high seas in order that her people should not suffer." Norwwegian shipowners have paid for the memorial and Bri tain has reason to be proud that they have selected London as the locality in which to set it up. The protest it bears si one that resounds throughout the world.—The Christian Science Monitor.

Good Tree Seed

Young trees produced from British Columbia Douglas fir, spruce and cedar seeds are flourishing in the old forests near Hereford and Worcester, in the West of England, according to word received in New Westminster.

The trees have grown from seed shipped to the British Forestry Commission by Edward Walmsley, Crown Timber Agent, in 1921. The young forest is covering up the stumps of forests cut down during the war.

"We are in a pickle," said a man in the street car. "A regular jam," remarked another. "Heaven preserve us," exclaimed a lady.

So rapidly do the seasons seem to change in this cuntry that a girl's knees have no sooner recovered from frostbite than they begin to be bothered with sunburn.—Life (New York.)

"What kind of people are those who have just moved in next door to you?" asked Mrs. Gadder.

"Oh, I never talk about my neighbours," replied Mrs. Knowalot. "All I know about them is that their stuff came in one van, that only one of their bedsteads has any brass on it, most of the furnlture looks old, there's six in the family, the children are all boy's, they have two dogs, the man is about twenty years older than the woman, they had a squabble with the driver of the van when they settled with him, and their name is Smith."

Ranch For Sale

A Going Concern

76 acres near Eholt on the trunk road. Good land part of which is subirrigated. Beaver pond on property, suitable for fur farming. Health is failing reason for selling. Cheap for quick sale. Apply to
SAM FRETZ, Eholt, B.C.

PIGS FOR SALE

Six weeks old pigs. $6.00 each.
Apply to
W. HATTON, Rock Creek.

LOST

A Durham Bull, nearly all red, horns turned in. Any person who can give any informaton as to the whereabouts of this animal kindly notify the owner, S. Carruthers, Grand Forks, or G. S. Walters, Greenwood.

NOTICE OF SALE OF CHATTELS

IN THE MATTER of the "Mechanics' Lien Act."

Whereas Arthur Mellor, of Westbridge, B.C., is indebted to the undersigned in the sum of $86.50 for work done and materials supplied in improving one Overland touring car, B.C. license No. 14-157, and three months have elapsed since the said sum ought to have been paid, and default has been made in payment thereof, notice is hereby given that on Saturday the 27th day of August, 1927, at the hour of 2 o'clock in the afternoon at the Riverside Garage, Rock Creek, B. C., the said Overland touring car will be sold by public auction.

W. O'DONNELL.

NOTICE

UNDER and by virtue of the powers contained in a certain chattel mortgage which will be produced at the time of sale, I hereby call for tenders for the purchase of the following property situate on Lot 2527, Group 1, Similkameen Division of Yale District, known as the "Rock Creek" Mineral Claim, namely:—

The whole of the Portable Saw-mill, machinery and outfit now standing or being or lately standing or being on said Lot 2527, and all other the goods and chattels of whatsoever kind and nature which are the property of Joseph Peter Keane, now in, upon, or around and about the premises above described.

Terms:—10% of the purchase money to be paid down at time of sale, balance to be arranged by monthly instalments.

For further particulars and conditions of sale apply to
MORRIS C. JEWELL,
Bailiff.

Dated at Rock Creek, B.C., the 13th day of July, A.D., 1927.

J. S. CARTER, District Passenger Agent, Nelson

Built for Endurance

Behind the beauty of the Chevrolet there is an abundance of strength and stamina, just as there is a great store of surplus power. The rugged channel steel frame, the husky banjo-type rear axel, the powerful valve-in-head engine and every detail of construction combine to defy the ravages of ware and tear, of hills and ruts, of mud and sand, of extremes of climate and of hard, continuous usage.

CROWN COLONY DAYS

Away back in the late sixties thousands of acres of British Columbia's timber were sold for one cent per acre, which looked like a fair price—then. To-day similar timber is worth from $150 to $200 an acre, so tremendously has timber appreciated in value within the scope of an average lifetime.

What the young growth of to-day will be worth sixty years from now is beyond computation if it is protected from fire and allowed to reach maturity.

The moral is obvious

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning reulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, toria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre. Further information regarding purchase or lease of Crown Lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled, and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority given to established owners. Stock owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1926

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,557; Coal and Coke, $284,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1926 show an

Aggregate Value of $988,108,470

Production for the year ending December, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing:

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia.

N. B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering each of the Six Mineral Survey Districts are published separately, and are available on application.
