K. Maynard in "The Unkown Cavalier"

Mrs. M. Axam left on Sunday morning for Vernon where she attended on Monday, the Convocation of Class '27, of the Jubilee Hospital Training School, Vernon, in which her daughter, Miss Mabel Axam, was one of the graduating nurses. The other three graduates are Miss Agnes Nanton Gibson, Vancouver; Miss Irene Victoria Bella, of Victoria, formerly of Greenwood; and Miss Winnifred Mather Lowe, of Oyama.

Greenwood Ledge ads for results

Of Local Interest

W. C. Wilson is on a 10 day holiday at the coast.

Mrs. J. Johnson, of Beaverdell, is visiting friends in town.

Walter Wartman of Trail, is spending a few days in town.

Dr. C. M. Kingston of Grand Forks, was in town on Wednesday.

Jack Holmes returned to Trail on Monday after a few days visit in town.

The first auto tourists of the season camped in the auto park on Thursday last.

E. F. Keir of Greenwood, was recently appointed Fence-viewer for the Midway district.

J. McDonald left for Trail on Friday after a few days visit with his brother, D. J. McDonald.

On Friday last 25,000 Eastern brook trout were placed in Boundary Creek at the Murray ranch.

The C.P.R. westbound train was 13 hours late on Wednesday owing to a delay east of Coryell.

Harry Bryan left on Wednesday for Armstrong where he took part in a very important event today.

Miss Pearl Redgrave of the Carson School, was the guest of Miss Ruth Axam during the week-end.

Master Donald Smith is back in town after a two weeks visit with his grandparents in West Grand Forks.

Clean-up days were a great success, considerable rubbish being removed from the streets and vacant lots.

Roy Clothier, M. E., is on a business trip to Victoria. Mr. Clothier expects to return by motor on Friday.

There will be a real treat in store for you at the Concert to be held in Greenwood on June 10th. Keep this date in mind.

Mrs. A. C. Hamilton of Golden, is spending a few days in town, her mother, Mrs. Bubar, being a patient in the District Hospital.

Frank T. Thompson appeared before His Honour J. R. Brown at the local Court House on Friday and was remanded until the 20th inst.

Miss Olive Morris has resigned from the staff of the District Hospital and left for her home in Grand Forks on Tuesday. Prior to her departure Miss Morris was the guest of Mr. and Mrs. A. Sater for a few days.

The porch at the District Hospital is now adorned with nicely painted boxes and hanging baskets in which are beautiful flowers. Other places in town are also being made attractive with flowers, among them is the Bank of Commerce which has had its window box restocked with geraniums and other plants.

BROWN'S STORES

Midway and Rock Creek

Hospital Day

The Directors of the Greenwood and District Hospital tender their sincere thanks and appreciation to all those who contributed so much to the success of the Annual Hospital Day held last Friday, May 13th. Irrespective of the day and the date every item was a success.

The total amount realised was $170.60. George Gray very kindly gave the whole of the two nights Picture Show receipts, Miss Renie Skilton and James Hallett gave their services free. Mr. Gray has always been most generous in his support of the Hospital and the Special Picture Show selected by him was most enthusiastically appreciated.

The Dance attracted a fine attendance, and a prettier collection of young girls and good dancers could hardly be found. The music by the Bush Orchestra was good, a new instrument, the banjo, well played emphasized the time.

The Supper was bountiful, thanks to Beaverdell, Rock Creek, Kettle Valley and Midway who supplied more than was necessary. The Greenwood Ladies of the Auxiliary, under the competent supervision of Mrs. Royce, President of the Auxiliary, attended to the service of supper with perfection. G. S. Walters, Vice-President of the Hospital, arranged the whole proceedings, and his never failing energy deserves praise and appreciation.

The Hospital was open for the inspettion of visitors and tea was on hand, served by the Matron and Nurses. The attendance of visitors did not receive the response anticipated, but no doubt our many well wishers will write to us expressing their continued good wishes.

The Directors of the Hospital would have inaugerated sports and games, but other celebrations coming forward in the near future, suggested curtailment, but probably the 1928 Hospital Day will be more fully comemorated.

Receipts

Anonymous	$10.00
H. H. S.	5.00
J. N. P.	2.50
George Gray, Picture Show	50.75
Dance and Supper	99.85

Total	$170.60

CHARLES KING,
Sec.-Treas.

Report of subscriptions to Supper for Hospital Day Dance will receive notice in our next issue by the Ladies Hospital Auxiliary.

The heavy rain of this week has caused Bounday Creek to rise to very high level and is threatening to damage a bridge in the southern part of town.

Mrs. Ellen Trounson's Auction Sale of Household Furniture will be held in the Miller Block opposite the Pacific Hotel on Saturday, May 21st at 1 p.m.

The many friends of J. Creighton McCutcheon will be pleased to learn that he has obtained the bachelor of arts degree at the University of British Columbia.

Bishop Kidd, of Calgary, held Confirmation in the Catholic Church this morning. The Bishop was assisted by Father Wagner of Penticton, Father Berensten and Father Cocola.

Rev. Andrew Walker left on Tuesday morning to attend the British Columbia Conference of the United Church of Canada, in Vancouver. Mr. Walker expects to return early next week.

Mrs. A. Walker will have charge of the Services at Beaverdell and Rock Creek on Sunday. The special Mother's Day Services in Greenwood will be conducted by members of the Sunday School at 10:30 a.m. and 7:30 p.m.

N. L. McInnis of Grand Forks, was a visitor in town this morning. He was accompanied by Mickey Mackay, a member of the Chicago Hockey team and a former member of the Grand Forks Hockey team.

Mr. and Mrs. B. W Bubar of Beaverdell, were in town on Wednesday. Mr. Bubar brought in his mother, Mrs. C. W. Bubar, to the District Hospital where she underwent an operation yesterday afternoon and is doing very nicely.

Beaverdell Camp

Our neighboring Mining Camp, Beaverdell, continues its busy existence, somewhat fascinated by its problems but contented in its ever increasing prosperity.

Everywhere is activity—the motor trucks and the wagons, all laden with their precious silver burdens, rumble down the road leading from the mines to the railway and the road repair men labor in their endeavor that the road be kept in such condition that the silver stream may flow down without interruption and that the volume of necessary mining supplies may be carried back to the mines.

When the Kettle Valley Railway train grinds to a stop at Beaverdell station, the traveller, very naturally, looks about in search of the town or village which bears such a picturesque name. Instead of a town he sees a row of ore bins on which are the names, "Sally," "Wellington," "Bell," "Beaver"—surely not a pre-possessing sight from a point of beauty, but did he inquire, as is often done, or were the information vouchsafed to him, he would be startled to learn of the wealth which passes thro these bins annually.

About one-half mile from the railway, effectively hidden by a screen of trees is the little town of Beaverdell and in her seclusion, it would seem, almost, as if she were carefully guarding her secret of wealth. It is permissable to say that such is the case in one important respect and the wealth of the mines is not of purer silver than is the spirit of helpfulness, friendliness and good-fellowship, which is the key-note of the entire Beaverdell Camp—a hardy survivor of the "Old West."

The impression that the four mines already mentioned are the sole source of activity in Beaverdell Camp would be most misleading as there are mining operations being carried forward on twelve additional properties and these operations must not be considered as of the least importance, some are producing ore, others are developing and preparing for production.

In conclusion, let it be said that the word "wild-cat" is unknown to Beaverdell. The phrase which reaches the ears most often, in that wonderful little camp is "work and produce ore"—truly a phrase worthy of the men who wrestle with nature to win her precious gifts.

Midway News

H. Strauss returned from Spokane on Saturday.

The Midway ball team will play in Grand Forks on the 22nd inst.

Mr. and Mrs. W. G. Moll returned to Midway from Rossland last week.

Mr. and Mrs. B. Nichols left last week for Spokane where they will reside.

Mr. and Mrs. R. A. Brown returned on Wednesday from a week's visit to Spokane.

Charlie Moll returned home to Rossland last Wednesday. He has been staying at Weed's ranch convalescing.

A good game of baseball was played between Wauconda and Midway on the local diamond on the 15th inst. The home boys were the victors.

The warm days of last week were followed by a heavy rain on Monday night. The local orchards are in full bloom.

Friday, June 3rd, His Majesty's birthday, is the date set for the District Schools Track Meet. Big novelty Dance in the evening at the Farmer's Hall.

Last Sunday, Mother's Day was observed here. Rev. Andrew Walker conducted the service. A bright programme was followed out and each mother present received a flower. The Misses Eileen Pannell and Geneva DeLisle acted as flower girls.

Diamond Jubilee Celebration Meeting

Diamond Jubilee Celebration delegates from the different parts of this district will meet at the Ingram Bridge School House on Saturday, May 21st at 2:30 p.m. Plans for the July 1st celebration will be decided.

Over 30 years the same good tea.
Now packed in *Aluminum*.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

Western Canada Points the Way

One of the most notable gatherings of the year, and one in which all the people of Western Canada were particularly and directly interested was the international co-operative wheat pool conference held at Kansas City, and at which representatives were present from the United States, Australia, Germany, Russia, as well as from the three great wheat producing provinces of Canada.

Western Canada was easily the outstanding and dominant factor at the conference. And rightly so because in three short years the farmers of the Prairie Provinces have organized and developed the greatest grain handling co-operation in the known world. Their success has been phenomenal eclipsing anything of a like character ever attempted in connection with any commodity. They can speak from actual experience in definite achievement.

It is not surprising, therefore, that at the Kansas City conference the reports presented on behalf of the Alberta, Saskatchewan and Manitoba Pools, and their common central selling agency, were received with great enthusiasm, and that the views expressed and suggetions advanced by the Canadians commanded respect and gave strength to the deliberations of the conference.

Many of our own people have not yet grasped the full magnitude of the operations of the wheat pool, nor realize just how much has been accomplished in the brief period of approximately 1,000 days. Three years ago there was no Canadian Pool. Today, to quote A. J. McPhail, president of the Saskatchewan pool and of the Central Selling pool, there is a membership of 138,000 in the three provinces. In 1924-25 the Canadian pool handled 187,000,000 bushels of wheat belonging to its farmer members and 27,000,000 bushels of coarse grains. The pool has representatives in all wheat importing countries and ships direct to sixty European ports. It owns and controls approximately 650 country elevators in the three provinces with a combined storage capacity of approximately 22,000,000 bushels. At the head of the lakes the pool has six terminal elevators with a storage capacity around 18,000,000 bushels and also a 2,000,000 transfer house at Buffalo. The pool is also operating terminal elevators at Prince Rupert and Vancouver, while plans are under way for large extensions to the country elevator systems in all the provinces. Since the pool began to operate it has paid its farmer members around half a billion dollars.

These are truly remarkable achievements, but they do not tell the whole story. The pool has practically revolutionized the financing methods of our Western farms. Instead of the farmer getting all his money in one bulk sum every Fall, at which time every creditor made immediate demand upon him, with the result that he was practically forced to sell his wheat at the then prevailing price, and by all following the same course glutting the market, he now receives a first payment and several successive payments spread over the year. The result is not only orderly marketing of the wheat but orderly financing on the part of the farmer. He is to an ever increasing extent conducting his business on cash rather than a credit basis. The system has been of wonderful assistance to the weaker, less business like farmers.

Equally important has been the effect the pool has had in restoring confidence to the farmer and to business interests generally throughout the west. It has given the farmers a feeling of independence and security hitherto lacking. It has emphasized the value of co-operation, and the strength that is to be found in organized co-operative effort as contrasted with each man striving to work out his own problems and his own economic salvation.

The farmers of Western Canada have demonstrated the wisdom of having one great selling agency instead of one or two hundred thousand farmers each selling individuality and in competition with each other. The object of the Kansas City conference was to try and devise ways and means whereby the great wheat producing countries of the world could co-operate instead or competing against each other. The most cordial reception was accorded the idea, and efforts will be made to devise a workable plan.

Re-open Milk Plant

One of the largest manufacturers of milk products has recently re-opened their condensing plant at South Sumas, B.C. The whole milk supply will be obtained from the Fraser Valley, which will amount to about 60,000 lbs. per day. About 25 men and women will be employed in the plant, and the pay-roll will amount to about $2,500 per month.

New Depot for Edmonton

The Canadian National Railways will build a new depot at Edmonton, Alberta, this year. The estimated cost is $1,000,000. Tenders for the erection of the building have been received and the contract will be awarded as soon as they have been considered.

Orders for Farm Implements

During the past few weeks large orders for farm implements and binder twine have been placed with Canadian manufacturers by representatives of the Russian Soviet Government. These orders are double those given all last year, and seven trains will be required to transport the goods now on order to the seaboard.

World's Shortest Railroad

The shortest railroad in the world now belongs to the city of Union, Ore., having been bought for delinquent taxes at a sheriff's sale. The line is ten miles long and the rolling stock includes one locomotive, one passenger and three freight cars. It sold for $1,100.

Children Cry for

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Absolutely Harmless - No Opiates. Physicians everywhere recommend it.

Huge Dairy Farm

Largest Herd of Dairy Cattle in North America to be Established Near Winnipeg

There is now a herd of one thousand head of Holstein dairy cattle on the Manitoba dairy farms at Marchand, on the Canadian National Railways southeast of Winnipeg. It is the intention of the company, which is colonizing a 90,000 acre tract of land with dairy farmers to increase this herd to 5,000 head, which will make it the largest herd of dairy animals under one ownership in North America.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues, and brings a warm, comforting relief at once. No liniment compares in pain relieving power with Nerviline. For the minor pains and ills that arise in every family, Nerviline should always be kept handy on the shelf. Use it for Rheumatism, Lumbago, Neuralgia, and colds. 35 cents at all dealers.

For Improved Highways

Huge Sums Spent Last Year for This Purpose

During the year 1926 a total of $45,563,000 was spent on construction and maintenance of all provincial highways in Canada, according to computation made by A. W. Campbell, Dominion Highway Commissioner. Of this total $29,858,000 was spent on construction and $15,987,000 on maintenance of highways already constructed. The total mileage of roads involved in this aggregate expenditure was 46,824.

THIS GREAT TONIC RENEWS STRENGTH

Simply Because it Enriches and Builds Up the Blood

In no trouble is delay or neglect more dangerous than in anaemia, which means poverty of the blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before its presence is recognized. But taken in time there is a tonic that so enriches and purifies the blood that good health and strength soon comes to the former weak anaemic sufferer. This tonic is Dr. Williams' Pink Pills, which for years have been the most successful blood-builder known, and have credit for restoring to good health thousands and thousands of people who have suffered from some of the many ailments that come through weak, watery blood.

The correction of anaemic conditions by Dr. Williams' Pink Pills is as certan as anything can be. As proof of this Miss Margaret A. Smith, Burgoyne, Ont., says:— "After having a severe attack of jaundice I was left in a very weak and run-down condition. I was pale and my nerves on edge. I could not sleep at night and would toss and turn for hours at a time. I finally decided to try Dr. Williams' Pink Pills, and soon began to feel better, and after taking a few more boxes of the pills I felt as strong as ever, and could thoroughly enjoy my rest at night. Now, I always recommend these pills to any friends who may be ailing."

Better sleep, steady nerves, improved appetite, increased vigor—all these can be yours by taking Dr. Williams' Pink Pills. Begin today. Sold by all medicine dealers, or by mail post paid at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Australia's New Fruit

Australia is producing a new fruit called the cucumber apple for use in salads. Although it has the appearance of an apple, the flavor is said to be distinctly that of a cucumber.

For all pain—Minard's Liniment.

Whale Destroys Cable

A whale which interrupted traffic on the Alaska cable early in April chewed up so much of the cable that an 80-foot replacement was necessary to restore communication.

An Indiana town has abandoned its fire department composed entirely of women. They insist on silk hose.

If you have an aim in life you can't afford to waste any time in hating people.

Minard's Liniment for dandruff.

For Friendly Relations

Sir Esme Howard, British Ambassador to U.S., Addresses San Francisco Audience

A plea for continuation of friendly relations between the United States and England, which have existed for more than 100 years, was made by Sir Esme Howard, British ambassador to the U.S., at a banquet tendered him by the San Francisco Chamber of Commerce.

Referring to the question of the British war debt to the United States, Sir Esme said:

"We have not run away from the debt and do not intend to, but if at some later date you come to us and say you think it would be advisable in the general interest to reconsider the question—well, I won't say that we shall refuse."

"There is the attack that has been made in certain quarters against the British Government over the question of cruisers," he continued. "It was agreed at the Washington conference that unless submarines of all powers were abolished, Great Britain must reserve her full freedom of action as to cruiser construction. You have already passed us in destroyers and submarines and no one in England had thought of accusing you of violating the letter or the spirit of the 5-5-3 ratio clause of the Washington Treaty."

Sir Esme declared Great Britain had unjustly been accused of a sinister desire to hold the "poor Chinese in perpetual bondage, thus driving a wedge between England and this country."

"Our whole aim in the past," he declared, "so far as I can see, has been to obtain the right of trading freely with China."

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

Peking or Pekin

Former Spelling is Closer to Chinese Version Than Latter

A new war has been declared here—but this time it is only an orthographic war, directed against the French spelling "Pekin" when referring to the Chinese capital in American or English periodicals.

Those interested in the matter point out to foreign correspondents that "Pekin" in no wise represents the regular pronunciation either in China or abroad, save in France. Chinese here say "Bay-ching," the two syllables meaning "north" and "capital" respectively, while the spelling "Peking" is—though unsatisfactory—closer to the Chinese version than is any form in which "g" is omitted. There are several other foreign varieties, but the French is the only one which occurs generally in competition with the favored "Peking" form.

Clever Blind Student

Completes Four Years Arts Course In Three Years

Gregory Sullivan, blind since birth, has become such a good listener that he soon will have completed a four-year course at the University of Georgia in three years.

His election to Phi Beta Kappa national honorary fraternity, is the latest honor that he has attained. He also won the French medal offered the student making the highest average in that language.

Sullivan, who is 22 years old, has a general average above 90 and will be graduated in June with a bachelor of arts degree.

Throughout his college career, he has relied mainly on friends to read his text books to him.

Marketing of Manitoba Cattle

Last year 493,139 head of cattle and 392,329 hogs were marketed through the Winnipeg Public Stock Yards and realized $32,047,000. Though the number of animals marketed was less than the 1925 record, the monetary return was $1,000,000 greater, owing to the better prices that prevailed. Ontario feeders took 45,590 and 41,000 went to United States feed lots and 17,365 went to Manitoba farms. Sheep and lambs to the number of 55,850 were marketed, compared with 36,600 in 1921.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Mennonites Purchase Land

Mennonites have bought 2,500 acres of land in the Vulcan district, paying $125,000 to the vendors, Messrs. M. & R. Lyman. The Mennonites have acquired 12 sections this spring in Southern Alberta.

Why Bald So Young? Cuticura will help You

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

Made Clocks Reliable

Correct Time Not Recorded Until Discovery of Balance Wheel

Before the invention and manufacture of watches and clocks, our forefathers employed several devices for recording the hour of the day.

The sundial is the earliest instrument of its kind, and sandglasses were used from an early date.

Alfred the Great used graduated candles, the burning of which marked the passage of time.

The art of clock and watch-making is believed to have originated in Germany.

The early watches were made in curious shapes, such as pears, skulls, purses and crosses. Some were set in the heads of canes, some in bracelets and other pieces of jewellery. These instruments had to be wound at least twice daily, and differed from the correct time by about an hour a day.

It was not until the discovery of the balance-wheel in 1658, by which the mainspring unwinds itself evenly and regularly, that they could be relied upon to record the correct time.

Send Letter by Plane

Greetings to be Sent to Governor-General Willingdon From Pacific Coast to Ottawa

Plans for delivery by aeroplane of a letter from Lieut.-Governor Bruce of British Columbia to Governor-General Willingdon in connection with the jubilee celebration this year are being prepared.

The message, according to information obtained at the Pacific Airways Company office at Vancouver, will be carried from Victoria to Kamloops on June 1, taken across the Rocky Mountains either to Calgary or Edmonton by a machine from the Royal Canadian Air Force station at High River, Alta., and relayed to Ottawa by the first Canadian air mail liners to operate in Western Canada.

Grants for Civil Aviation

Air Patrols for the Protection of Millions of Acres of Forest Land

Recent estimates passed show $2,222,593 allotted for civil aviation in this country, mostly in connection with forest and survey services. The programme this year includes air patrols for fire protection of over 70 million acres of forest lands in eastern and northern Manitoba and northern Saskatchewan, and for fire detection patrols of over 3¼ million acres in the forest reserves in the foothills of the Rocky Mountains in western Alberta. The air survey programme includes work in every province of the Dominion.

She Has the Greatest Faith In Them

Says Mrs. Elliott of Dodd's Kidney Pills

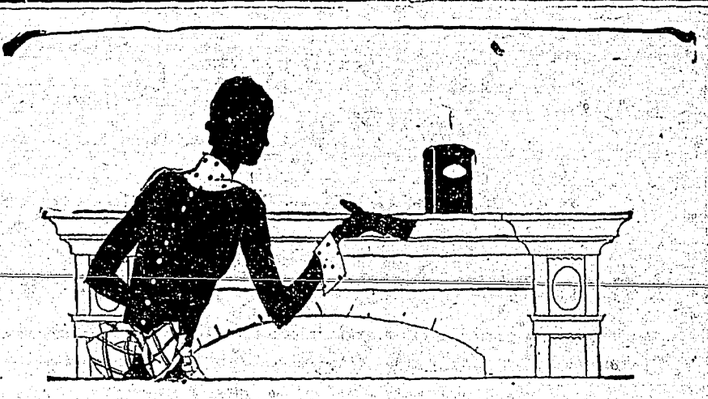
Alberta Lady Strongly Recommends the Use of Dodd's Kidney Pills to all Sufferers.

South Edmonton, Alberta. (Special)—"I have used your Dodd's Kidney Pills for a few years and for kidney and backache trouble they have worked wonders. I have great faith in them. I have heard great praise about them from a number of people in our district."

This statement comes from Mrs. Elliott, who resides at 9324 70th Ave. The relief that Mrs. Elliott found has come to thousands of other Canadian women through the use of Dodd's Kidney Pills.

There are only a few people who appreciate the great importance of keeping the kidneys in good order at all times. The kidneys are the purifiers of your blood. If the kidneys become clogged with impurities they cannot perform their functions properly. The blood, instead of being purified, is poisoned, and in turn poisons the whole system, with the result that a condition may develop very serious.

It was believed during the Middle Ages that a child brought up without being taught any language would speak Hebrew spontaneously.



Use DUCO for hundreds of home uses

PAINTING in the home used to be considered a man's job but DUCO has changed that old idea.

Brush DUCO has a particular appeal to women. It is so easy to apply and it dries in less than an hour. Thousands of women are using DUCO who never did any painting before.

When you go to buy DUCO, people may tell you that other products are just as good. Don't be misled. Insist on getting *genuine* DUCO.

DUCO Clear and four DUCO Stains are now added to the wide range of colors.

"Worth its weight in gold" Says Ottawa Matron

Mme. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac

The two-year ordeal which she passed through before Tanlac came to her permanent relief, was recently described by Mme. Beatrice Charlebois, of 22 Rose St., Ottawa.

"What I endured in that time could not be told," she said. "I was so weak I could hardly walk. My appetite was poor and my stomach gave no end of trouble. Gas and pains would bring on fainting spells.

"My nerves were so completely shattered that I jumped in fright every time the doorbell rang. My hand trembled so that it could not hold the pen to write my name. Night after night I've gone without sleep, too nervous to lie still for even a few moments. Even my housework became too much for me.

"I tried all kinds of remedies in those two years, but can honestly say Tanlac gave me my first real relief. It built me up so that I've gained 11 lbs., eat and sleep fine and have nerves as calm and steady as ever. Tanlac is worth its weight in gold."

Build up your health on Tanlac, nature's own tonic made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

Would Make Drivers Careful

Elimination of Motor Horn Might Mean Fewer Accidents

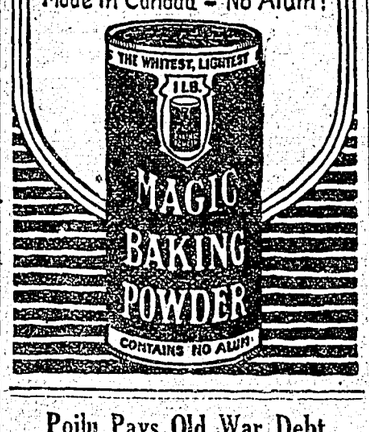
"Do horns on automobiles prevent accidents?" asks E. T. Strong, president and general manager of the Buick Motor Co. "I believe that in some instances they undoubtedly do. But I am also convinced that the automobile horn has given an average driver a false sense of security which often breeds carelessness and results in disaster, because of his too great dependence on it.

"Any doubt as to the truth of this statement would be removed if automobile owners would try to drive their cars without the aid of the electric siren. It is my opinion that they would find themselves driving with more care than they had exercised since their first experience as automobile drivers. It has become instinctive for the driver to bring his hand down on the horn button and bluster ahead, with little heed for the effect which the sounding of the horn has had on the other fellow. And the other fellow is calloused to the blare of the horn in his ears. The noise has ceased to have any meaning for him.

"Drive two blocks through traffic without the use of the horn and you will find that you are using more care than you have ever used before to avoid accidents. You will drive as you should always drive, with due regard for others who are sharing public streets and highways with you. And you will discover that, even without using the horn, will be driving with greater regard, for the safety of yourself, pedestrians and other cars."

FOR ALL your baking, use MAGIC BAKING POWDER

Made in Canada - No Alum!



Anxious to Ring Carillon

Forty Applications Received by Civil Service Commission

No fewer than forty applications have been received by the Civil Service Commission regarding the employment of a carillonneur for the "singing tower" of the Parliament Buildings which will peal out for the first time on July 1, 1927, the day on which the Dominion celebrates the Diamond Jubilee of Confederation.

While the carillon bells were on their way to Canada from Croydon, England, the Civil Service Commission has been advertising for a carillonneur. Applications have come from all parts of the world, but the only applicants being considered are British subjects with three years' residence in the Dominion. The Commission will call in an advisory board of musicians to help them select the proper man to play the carillon. The position will pay a salary starting at $2,880 per year, with a maximum of $3,000.

Most of the applicants for the position of carillonneur are Canadians. Some of trem have had instruction from Jef Denyn, the renowned old carillon master at Malignes, Belgium.

BABY'S OWN SOAP

Famed for its fragrant creamy lather

Best for You and Baby too.

Albert Soap Limited, Mfrs., Montreal

Try Rice Pudding Made this Way:-

1 cup boiled rice
½ cup Borden's Eagle Brand Condensed Milk
1 teaspoonful vanilla
1 egg
½ cup water
1/8 teaspoonful nutmeg

Mix Eagle Brand and water together thoroughly. Beat egg and blend with the milk and vanilla. Add this mixture to the rice (boiled) and mix well. Pour into buttered pan and sprinkle top with the nutmeg. Place pan in a dish of water (as for a custard) and bake in a slow oven until a golden brown. E2727

Borden's EAGLE BRAND CONDENSED MILK

Guarding Canada's Wheat Reputation

Canadian Product Must be Kept Strictly Up to High Standard

The economic importance of Canada's wheat crop is so widely recognized that no further argument in that connection is necessary when discussing the advisability of entrusting to the Minister of Agriculture the powers necessary to guard the reputation of this basic farm product.

The suitability of wheat varieties grown in Canada is not determined altogether by their yield or adaptation to soil and climatic conditions. Wheat for milling at home and abroad must possess certain qualities before it is a factor in world trade; and it is our world dominating position in wheat that our government must safeguard and protect. The milling value of wheat is, after all, the most important consideration. Its protein content must be high; its color must be right and its baking qualities must be pleasing to the trade. Our reputation has been built largely on a standard that means "Marquis," for that variety is now the leading bread wheat on the American continent.

If we allow inferior wheats to be grown to any extent and become blended or mixed with Marquis, we shall simply lower the standard of our product and at the same time the world-wide reputation of Canadian wheat. That should not be permitted, all would agree, but the Minister at present cannot refuse to recognize a new variety provided it is distinctly digerent from the established kinds, even though it be definitely inferior.

The agricultural committee of the House of Commons has recommended an amendment to Section 6 of the Seeds Act, to provide that a license may not be issued for a new variety of wheat unless it is found by field and baking tests to possess real merit. That amendment is fundamentally sound, and we should prevent, if possible, even a meltiplicity in the varieties of good wheats, for no variety excels Marquis, and there is nothing to be gained by adulterating our grain with a number of different wheats, thus destroying the uniformity and general excellence of a typical Canadian product.—Farmer's Advocate.

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. VICTOR RICHARDSON, Barrington, Nova Scotia.

Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sanative Wash I am feeling better than I have for the past seven years, and advise my friends to take it."—Mrs. F. JOHNSON, 49 Moore Street, St. Thomas, Ont.

Planning An Aerial Train

German Engineers Working on Idea For Future Means of Travel

Aeronautical engineers in Germany are working on plans of an air train as a possible means of travel in the future. The locomotive will be a powerful airplane and the pullmans a row of gliders coupled to the locomotive and to each other, as the cars of a train, only with considerably greater spacing between units. Passengers in each glider will be destined for some particular town, and as the airdrome of each town is approached the glider for that destination will be released from the end of the string and settle gracefully down with its special pilot and passengers.

The Germans are often spoken of as a stolid and phlegmatic race, but no people without imagination could have conceived of that great gun which bombarded Paris from a distance of unknown miles and which conceives of an aerial train. There may not be much grace about such things but surely the imaginative and the creative qualities are not lacking.

Has Variety of Uses

Scores of Ways in Which Lemons May be Utilized

What article, costing only two or three cents can be put to the greatest number of uses? The answer's a lemon! In scores of ways it saves time, trouble, labor and money.

Handkerchiefs, linen sheets, and so on will become as white as when new if boiled with a cut-up lemon. Brass will clean better, quicker, and retain its polish much longer if first rubbed with a rag wetted with lemon juice. White marble mantel-pieces, smoke-discolored, can be cleaned perfectly with warm lemon juice, diluted.

Housewives who have to prepare fish can banish the disagreeable odor from their hands by using a slice of lemon as soap. Dull eyes will become clear, and so will spotted complexions, if the juice of a lemon, with a glass of water, is drunk first thing in the morning. Discolorations on teeth will depart if treated with powdered charcoal moistened with lemon juice.

Refers to Carrying Capacity

Term Tonnage Originated in Time of King Henry VII.

Tonnage of a ship refers not to its weight, as is often supposed, but to its carrying capacity. The term originated in the time of King Henry VII. of England, who introduced one of the first navigation acts of its kind in which the importation of Bordeaux wine in any vessels except those owned by the lieges was forbidden.

The liquor was carried in huge barrels called tuns, and, since then, the cargo capacity of a ship has been measured by tunnage or tonnage, the modern term. In connection with war vessels, however, the word refers to the weight of water they displace, or their displacement tonnage, the common way of describing the weight of other ships.

Canadian Alfalfa Seed

The superior quality of northern grown seed is nowhere more strikingly shown than in the success obtained with Canadian alfalfa seed. For a long time it was found difficult to grow alfalfa successfully in many parts of Canada, but the development of an ample supply of hardy strains of seed has, to a certain extent, solved the problem of winter-killing and the Dominion's alfalfa crop increased from 238,000 acres in 1920 to 858,000 in 1926.

Conscientious people are like ideas. They refuse to strike a man when he is down.

A Confederation Daughter

Daughter of One of the Fathers of Confederation to Tour Canada

A gracious invitation has just been given as a happy by-product of the Confederation Diamond Jubilee celebration. The president of the Canadian Pacific Railway, Mr. E. W. Beatty, has invited Miss Hortense Cartier, daughter of Sir George Cartier, one of the Fathers of Confederation, to be a guest of the company in a tour to the Pacific Coast in July arranged by the University of Montreal, and the invitation has been accepted.

Miss Cartier, who is 78-years-old, has been living quietly in Cannes, France, since 1872, when she accompanied her father overseas. Sir George died in England the following year, after a period of ill-health. During the trip to the West, Miss Cartier will probably meet Sir Hugh John Macdonald, son of Sir John A. Macdonald, who is now police magistrate of Winnipeg.

The visit of Miss Cartier to the West will have added significance because of the part her father played, in company with Hon. William MacDougall, in negotiating with the Hudson's Bay Company in 1860 for the purchase of Rupert's Land, the great inland empire of the fur traders, which later became the prosperous Manitoba, Saskatchewan and Alberta that we know today.—Toronto Globe.

Agricultural Co-operation

Addressing the agricultural committee of the international economic conference at Geneva, W. A. Wilson, Canadian Government agricultural representative in London and a member of the Canadian delegation to the conference, described the development of Canadian agricultural production and Canadian co-operative associations. He criticized the system of granting credits to farmers and added that the co-operative association aimed at regulating the markets for agricultural products.

A man recently fainted three times at his own wedding. It was no use, however. They waited until he came round the third time and then went on with it.

When a young married man gets sick his mother always imagines that it is due to his wife's cooking.

Only the dyspeptic can eat his cake and still feel that he has it.

Common sense is almost scarce enough to be classed as uncommon.

HIKERS

Take Minard's in your first aid kit. Fine for stiff muscles, bruises and insect bites.

Poilu Pays Old War Debt

But Creditor is Loser Because Franc Worth Much Less

A French wartime "marraine" or soldiers' god-mother, with a flair for bookkeeping, has just succeeded in collecting what was owed her by her "adopted" soldier for the goodies, woollens and other things she sent him all through the war, while he was prisoner in a German camp.

The fact that the soldier paid her hospital bill when she fell ill after the armistice mattered not.

The soldier, Gustave Marchand, was captured during the first few weeks of the war in 1914. Without friends, he got in touch with a French girl by the usual method—advertising—with the promise that some day he would reimburse his war godmother for whatever she might spend on him.

A Parisian cook, Mlle. Germaine ed Pierre, answered the advertisement and regularly sent him packages of food, clothing and other things to lighten his imprisonment. She expended 3.825 francs 25 centimes. When she went to a hospital, Marchand gave her 1,160 francs, no centimes.

This week, Mlle. De Pierre sued for the difference and got it. However, she is the loser after all, for the francs she spent for Marchand were worth almost 20 cents each, while those the court ordered him to pay back, are only about one fifth that value.

Cable Railway in Bavarian Alps

Train Runs Ten Thousand Feet Above Valley at Many Places

When builders of the new Alpine Railway up the Zugspitze wanted a high official to dedicate the line they made one, for they took Dr. Michael Hainisch, president of Austria, to the loftiest point in the country. The railway is a cable stretched to the summit of the highest mountain in the Bavarian Alps, the Zugspitze, and at many places is 10,000 feet above the valley directly below. The "train" consists of cabin, which is furnished in lavish style, suspended to the cable along which a trolley carries the cabin. Workmen in swinging seats inspected the line before the inauguration.

Nation-wide Fame. — There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Eclectric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

Provides Real Exercise

Medical Men Claim Driving a Car is Conducive to Good Health

There still are those who declare that the automobile has "done wrong" by the nation's health in converting everyone to driving or riding. Some medical men disagree with this view. Many of them declare that automobile driving also provides a form of exercise that is beneficial.

Walking exercises mainly the leg muscles, while driving brings into greater use the arm and shoulder muscles. The motorist's leg muscles get considerable action in operating the brake and clutch pedals. The exercise one finds in car operation has the additional advantage of being regular and not too strenuous.

It takes less muscle to drive a car today than ever before, but at that, it requires enough muscular effort to be conducive to good health.

Most men believe in the honesty of their fellow men until after they have indorsed a few notes for their friends.

Large National Park For Saskatchewan

Good Sized Area at Prince Albert Has Been Set Aside

Saskatchewan gets a national park by the setting aside at Prince Albert of a good-sized area for that purpose. An order-in-council, after pending for some time, has been passed.

For the present the park will comprise the Sturgeon forest reserve and two additional townships mainly suited to the purposes of summer resorts, but the ultimate plan contemplates a much larger extension northward.

There has been no action on the scheme advanced by Dr. Bissett, M.P., for Springfield for a national park in Manitoba.

MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age and say proudly that their babies "eat everything that grown-up people do." Such a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the little one.

Other mothers administer harsh, nauseating purgatives which in reality irritate and injure the delicate stomach and bowels and at the same time cause the children to dread all medicine.

Absolutely no meat should be given to a child until it reaches the age of 18 months, and then only if approved by the doctor. For medicine, all strong, disagreeable oils and powders should be abandoned and Baby's Own Tablets given instead.

Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the new-born babe. They quickly banish constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Thriving Swiss Settlements

Eight hundred families from Switzerland are expected to come out to Western Canada to settle during 1927, according to the Acting Consul for Switzerland here. There are thriving Swiss settlements in Notre Dame de Lourdes, Manitoba, and Stettler, Alberta.

New lines to be constructed by the Canadian National Railways in the next three years call for a total expenditure of $18,550,000.

Little Helps For This Week

If thine enemy hunger, feed him; if he thirst, give him drink; for in so doing thou shalt heap coals of fire on his head.—Rom. xii. 20.

But if for wrongs we needs revenge must have,
Then be our vengeance of the noblest kind;
Do we his body from our fury save,
And let our hate prevail against our mind?
What can 'gainst him a greater vengeance be
Than make his foe more worthy far than he
—Lady Elizabeth Carew.

If thou must needs have revenge of thine enemy, with a soft tongue break his bones, heap coals of fire on his head, forgive him and enjoy it. To forgive our enemies is a charming way of revenge and short Caesarean conquest, overcoming without a blow; laying our enemies at our feet under sorrow, shame, and repentance; leaving our foes our friends, and solicitously inclined to grateful retaliation.

—Sir Thomas Browne.

Treat corns with Minard's Liniment

Homestead Filings

Homestead filings in Western Canada during the first quarter of 1927 totalled 1,030, as compared with 1,282 in the corresponding period of 1926. In Manitoba 138 quarter sections were filed upon, in Saskatchewan 513, in Alberta 367, and in British Columbia 12.

We are told that man is made of dust and yet dust always settles.

Useful in Camp. — Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Eclectric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

A French scientist has invented a vacuum bottle to hold liquid oxygen for use of aviators in altitude flights. The liquid vaporizes as fast as it is breathed.

Genuine ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe — Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid. "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Hayden Lake Tragedy

The many friends in this district of Andrew (Stonewall) Jackson, of Spokane, will learn with regret the death of his daughter, Arene, by drowning on May 1st. Miss Jackson visited this part on different occasions, her father being partner in a number of mineral claims with Ola Lofstad.

Referring to the tragedy The Spokane Woman says:

"Behind drawn shades in darkened rooms in their beautiful home, Summit Boulevard and Boone avenue, the parents of Arene Jackson mourn the loss of their daughter, drowned in Hayden Lake Sunday afternoon after a heroic struggle to save the life of her friend, Patrick J. Dowling, Spokane pioneer. C. H. Wells, "Bert" to his many friends, the only survivor of the motor boat disaster in the little North Idaho Lake, is sparing no effort to recover the bodies of his friends. Charles Huckins of the Seattle Marine Patrol, who has been retained by Mr. Wells, is confident that the bodies will be recovered. However, a strong undertow, one hundred and twenty-five feet below the surface of the lake, is so great that little hope for the recovery of the bodies is held here by those who know of the treacherous currents.

'Miss Jackson was sales promotion manager of the Wells Chevrolet Company,' James Whitelaw, vice-president of the company, said yesterday. 'She was an unusually bright girl,' he continued, 'and had worked herself up from telephone operator to stenographer and from that to promotion manager, where she had an office of her own and many responsibilities in connection with the work. She had a pleasant manner and her contacts with the public made many friends for our company.'"

Rod and Gun Club

The Annual Meeting of the Greenwood District Rod and Gun Club will be held in Midway on Friday, May 27th at 8 p.m.

First Langdon Feature Will be Shown Saturday

Harry Langdon, First National comedy king, is due to arrive at the Greenwood Theatre on Saturday, May 21st, in his first feature length comedy, "Tramp, Tramp, Tramp."

With this picture the noted comedian steps into the super-comedy class of Charlie Chaplin and Harold Lloyd.

The story of "Tramp, Tramp, Tramp," is an original with Langdon and one which he has had in mind for some time. It deals with a cross-country walking race.

One of the numerous and exciting episodes in "Tramp, Tramp, Tramp," is a realistic cyclone scene. An entire township is blown to bits by this windstorm. During the raking of the scenes the movie camerman had to be "anchored" to trees and posts to prevent being blown away.

Joan Crawford plays opposite the comedian. Others in the cast are Tom Murray, Alec Francis, Edwards Davis and Brooks Benedict.

A Big Picnic Celebration will be held under the auspices of the Rock Creek Women's Institute at Ingram Bridge on Tuesday, May 24th. A Memorial Service at the Monument, with Boy Scouts in attendance, will take place at 12 noon; Basketball 12:30; Children's sports 2 p.m.; Baseball at 3 p.m.; Dance in Riverside Hall in the evening. Watch for posters.

Full information together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia.

N.B. Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown Lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.
