Around Home

Roland Skilton is visiting friends in Spokane.

Mr. and Mrs. T. W. Clarke spent the holiday at Cascade.

Mrs. Roy Harris of Nelson is visiting Mrs. Axam and family.

G. S. Walters attended the mining convention at Nelson this week.

E. O. Weston left on Sunday morning on a business trip to Vancouver.

Miss Olive Mowat is visiting Mr. and Mrs. H. Whiting at Kettle Valley.

Dr. and Mrs. S. S. Oppenheimer and party of Spokane were visitors to town this week.

J. C. Emslie of Kamloops is relieving H. J. Foster at the local Bank of Commerce.

H. J. Foster of the Bank of Commerce staff is on a holiday at his home in Kelowna.

Anund Anderson of Boundary Falls is a patient in the District Hospital and is doing nicely.

Mr. and Mrs. J. Keady and grandson Jackie, are on a motor trip through the Okanagan.

Mr. and Mrs. K. M. Spence and family are spending the week camping up the Kettle river.

Mrs. H. V. Harvey and little daughter of Milwaukee, Wis., is visiting her sister, Mrs. H. W. R. Moore.

Harry Royce motored in from Hedley and spent the week-end here with his mother, Mrs. M. Royce.

Mrs. Geo. Boag and daughter Dorothy are in Spokake where Dorothy is having here eyes attended to.

Miss Margaret Stickney of Spokane was visiting Mr. and Mrs. Jas. Skilton for a few days this week.

Harold Mellrud is spending his vacation at his home here. He is working at the Government office.

Lost, one automobile crank in front of Old National Hotel. Finder kindly return to The Ledge office.

R. Lee and G. Boag left on Monday for Lightning Peak. Mrs. Lee accompanied them as far as Trail.

Miss Thelma Benson will return to Vancouver on Saturday. Miss Benson is spending a holiday with Mrs. C. J. Carlson.

Miss Mabel Axam returned from Trail on Tuesday morning accompanied by her sister, Mrs. A. W. MacDonald and her baby.

Miss Susan Hill of the nursing staff of the Greenwood and District Hospital is spending her vacation at her home at White Rock.

C. Toney of Seattle motored in to visit his children and will spend a couple of weeks as the guest of Mr. and Mrs. J. H. Goodeve.

Mr. and Mrs. Jas. Drum of Beaverdell motored to Nelson during the week-end and attended the mining convention there this week.

T. Williams and B. Summersgill have returned from Camp McKinney where they were working on the construction of the look-out tower.

Grand Forks and Republic will cross bats at Midway on Sunday, the 11th inst., for the championship of the Boundary Baseball League.

D. R. McElmon of Lynden, Wash., arrived in town on Thursday. Mr. McElmon is enjoying good health and expects to remain in the district for the summer.

W. Harker who has been a patient in the District Hospital has recovered from his recent illness and was able to leave for his home at Rock Creek on Wednesday.

Mrs. H. J. Purkis of Tonbridge, England, arrived on Saturday morning and may reside here, Mr. Purkis being interested in the D. A. at Deadwood. Mrs. Purkis had a most enjoyable trip.

Mr. and Mrs. J. C. Smith and their children, Grace and Charlie, of Blakeburn and Mr. and Mrs. J. C. Smith and son Irwin of Beaverdell were the guests of Mrs. J. H. Goodeve for a few days during the week.

NEW PLANT FOR IMPERIAL GROUP AT ROCK CREEK

(Grand Forks Gazette)

Aggressive development of the Imperial group at Rock Creek was commenced this week by the Hecla Mining Company of Wallace, Idaho, who recently optioned the property at a figure said to have been $75,000. James Wilson, a practical mining man of 20 years' standing, reached the property on Saturday from Wallace and has taken charge of operations. L. E. Hanley, superintendent for the Hecla Company at Wallace, made a thorough examination of the property on Monday, let a contract for exploration work and will put in machinery to facilitate development work.

Mr. Hanley was in Grand Forks on Tuesday and made purchases for plant equipment. It is his intention to immediately install a new and more efficient compressor plant so that exploration work may be carried on with some degree of expenditure. Contract for some 500 feet of tunnelling was given to J. Laurence, an experienced operator. The intention will be to follow the apparently immense ore body, already established, and crosscut at intervals. Mr. Wilson is organizing a crew for effective work.

The Imperial is the group of claims upon which J. W. Clark has done much development work during the past year. A couple of months ago an option was arranged with the Hecla people and since that time Mr. Clark has carried on work for the Hecla interests. Quite recently he exposed an extensive body of ore and following samples being sent to Wallace, Mr. Clark was called to the Hecla headquarters with the result that more aggressive development work was decided on.

Ore in the Imperial carries substantial silver content as well as lead and zinc in which the Hecla Company are interested.

Local Postage Rates

Attention is directed to the following letter rates of postage effective from July 1st:

Local letters 2 cents for first oz., 1 cent for each additional oz.

Canada and all places on North American continent, 2 cents for first oz., and 2 cents for each additional oz. There is no change as regards post cards.

The public should bear in mind that local letters are 2 cents for the first oz.

Fined for Infractions of Law

E. J. C. Roylance appeared in police court at Greenwood last Saturday before P. H. McCurrach, Stipendiary Magistrate, charged by the Provincial police with allowing a stallion over one year old to run at large in a prohibited area. Roylance was convicted of the charge and fined $5 and costs or one month in gaol. Fine and costs were paid.

W. E. Carter of Midway appeared before Magistrate McCurrach the same day charged by the Provincial police with operating a motor vehicle on the highway as a chauffeur without a licence. Carter pleaded guilty to the charge and was fined $5 and costs, with the option of 30 days. The former course was taken.

There will be no service in the United Church at Greenwood on Sunday.

Mr. and Mrs. Hugh Greig of Weyburn, Sask., are visiting with the former's brother Alex Greig and Mrs. Greig. They have been on a motor tour and visited Yellowstone Park.

Mr. and Mrs. Joseph Butcher of Anyox, and children, Joseph and Constance, who have been visiting Mrs. R. Blundell, left Tuesday for Chicago, Ill., where they will make their home.

A very sad double drowning occurred in Goat River, near Creston on July 5th in which Harold and Arthur Gobbett, second and third sons of Mr. and Mrs. W. H. Gobbett, lost their lives while bathing. The victims of the accident were nephews of Mrs. M. Royce of Greenwood.

Mr. and Mrs. Eli Christensen of Ryderwood, Wash., were the guests of Mr. and Mrs. Mark Christensen the first of the week, leaving on Tuesday morning for Trail and Colville. It is seven years since Mr. Eli Christensen visited his parents in Greenwood.

Sitting Bull, the famous medicine man of the Sioux Indians, originated the title "The Iron Horse" when the first transcontinental railroad was built, according to the research workers who gathered the historical data for the William Fox photoplay which will be presented at the Greenwood Theatre, Friday and Saturday, July 16th and 17th.

FIRST OF JULY OUTING AT CARMI ENJOYABLE AFFAIR

Carmi was the scene of a large gathering on July 1st. It was attended by the Carmi residents and the neighboring districts, which met near the Kettle River below the Carmi hotel. The ladies served a lunch which was composed of the most tasty refreshments; Mr. and Mrs. E. Bubar and family arriving just in time with ice cream for dessert. After the picnic those attending from the district were invited to the homes of the local people where supper was served after which they were entertained at the home of Mrs. Hamon. A very pleasant evening was spent until midnight and after refreshments were served all returned to their homes at the end of a perfect day.

MIDWAY NEWS

Bobby Brown and Harold Johnson are on an auto tour of Seattle, Victoria and Vancouver.

Lew Salter and Ace Mesker are spending a vacation in Spokane, having motored to that city last week.

Mrs. Irene Moran and family motored from Oregon and have been the guests of the former's aunt, Mrs. William Powers.

Mrs. Robert Kerr returned from Christina Lake, where she had spent a week camping with the C.G.I.T. girls and had an enjoyable outing.

Midway feels it is getting up in the world with the half-dozen or more passenger trains each way every day, making the local terminals quite a scene of activity.

Midway has become an ideal spot for the hot days. Many carloads of visitors from Greenwood and district finding the river here a good place to be in with the mercury at 104 in the shade.

In the article last week about the shower at Rock Creek, it should have been stated that Mrs. Kayes and Mrs. Rusch were in charge of the arrangements, instead of Mrs. Kayes and Mrs. Bush.

Misses Annie Thomet, Kathleen Salmon, Alice McMynn and Nellie Brown returned last night from their outing with the C.G.I.T. at Camp Ondada-Waks at Christina Lake. Kate says it was one glorious time.

Mr. and Mrs. Harry Clark and family, accompanied by the former's brother, Roland, arrived from Seattle last Saturday and were the guests of their parents, Mr. and Mrs. T. A. Clarke. They left for their home by auto on Tuesday.

The dance held in the Farmers' Hall on July 1st was very successful. In spit of the heavy rainstorm during the day a big crowd found its way to the hall. Rhone, Westbridge, Rock Creek, Kettle Valley, Toroda, Ferry and Greenwood were well represented.

DEADWOOD ITEMS

Among those who attended an informal evening party at the Algoma Hotel, Deadwood, given by Mr. and Mrs. D. D. McLaren were: Mr. and Mrs. Harry Hewer and family; Mr. and Mrs. Paul Harris; Mr. Henry Harris and Mr. and Mrs. J. D. Graham, all of Spokane; Robert Shaw of Burke, Idaho, and many local friends. The evening was well spent with music and dancing, and Mr. and Mrs. H. Bruce of Kettle Valley who are here for the benefit of the latter's health were able to participate in the evening's program.

All the friends of Mrs. Bruce are glad to hear of her wonderful improvement in health. She now expects to be well enough to go home soon.

EXAMINATION RESULTS ANNOUNCED IN TWO WEEKS

Results of the British Columbia University matriculation examinations will be announced on July 24 and the high school results on July 20.

NOTICE

The Chiropractors will not be able to take care of many more patients as the time of their departure is near. The undersigned regret having to leave to care for their work in California, but hope to be able to return again next year.

Dr. Percy Abbott,
Dr. A. G. McLaren,
Dr. J. C. McLaren,
Licensed Chiropractors.

Tiffany Bread Wraps Create a Sensation

There's quite a stir in the baking industry over the new Tiffany Bread Wrap.

The secret of it is the fancy lace pattern in the wax paper that bespeaks higher quality—and the fact that the lace design hides folds or creases in the wax, keeping the loaf fresh looking.

The beauty of this wrapper makes an instant appeal to the housewife.

Each wrapper is an effective selling force wherever the bread is displayed.

Write for samples and prices to-day.

Holiday In Canada

Taking a holiday is "good business," provided the holiday is spent in a sane, sensible manner and largely out of doors. Such a holiday is likewise a form of Good Health insurance. Money spent in a vacation in the open will prove a good investment and return handsome dividends in renewed vigor, increased energy to put into one's life work, and re-awakened enthusiasm and interest in life and all its manifold activities.

To the full extent possible people should spend the summer months in the open. Fresh air and sunshine are the best doctors in the world. They are doctors of preventive medicine and make no charge for their services which are free to all mankind, rich and poor alike. Summer holidays, to be most beneficial, should not be spent in visiting crowded cities, but in the woods, beside lakes, rivers and the sea, among the mountains—in a word, near to Nature's heart.

And no country in the world surpasses Canada as the ideal land for a summer vacation. People, who can afford to do so, may flock to tropical countries during severe winter weather, or enjoy winter sports such as are provided in Switzerland and Eastern Canada, but for a most enjoyable and healthful invigorating summer holiday, no country surpasses and few can equal our own Dominion.

In the variety and beauty of its offerings, Nature was most prodigal in its treatment of Canada. Nor did she confine her gifts to any one Province or section of the Dominion, but with lavish hand distributed bounties on all. There is something to appeal to every taste and inclination of the human race.

Furthermore, probably in no other country can a vacation be enjoyed at less expense than in Canada. For a real holiday a person needs a complete change of scene and an entirely different environment to that in which ten or eleven workday months are spent. In many of the older and thickly populated lands this is difficult to obtain without travelling long distances and at a cost beyond the means of the average person. But in Canada such a change is possible in a few hours journey with its great wealth of rivers, lakes, mountains, woods and seashores. Canada still remains a land of romance, a sportsman's paradise, with abounding natural beauty to inspire the poet, the artist, the lover of the wild. And these things are available to Canadians within the bounds of their respective Provinces.

But the dweller on the prairies of the West can at small expense obtain th greatest of all changes in his environment by spending his or her holiday in the Rockies, or journey a little further and bask among the beauties of Nature along the Pacific coast, or proceed eastward to the Great Lakes. People of Ontario and Quebec might well with advantage to themselves, and in real service to a more united and understood Canada, take a holiday among the people of the other Province, while the holidaying citizens of these two Provinces and the Maritimes could with pleasure and profit interchange visits.

If Canada lacked in providing scenes of Nature's beauty, or if these spots were few and far between and therefore difficult and expensive of access, there would be some excuse for Canadians not holidaying at home and learning more of their great Dominion, but, as already noted, this country takes second place to none as a place in which to enjoy Nature at its best, and in which to recuperate in mind and body, forget one's business worries and responsibilities, and restore worn out and jangled nerves.

Canadians, of course, must not be narrow, provincial people. They should know the world, and to know other countries and peoples it is necessary to travel. But half the enjoyment and more than half of the advantages to be derived from foreign travel is found in first having the fullest possible knowledge of one's own country. "See Canada First" is, therefore, not only a telling slogan but good advice to all Canadians.

And while not disparaging the beauties and exhilaration of Canada's winter, it is none the less true that the summer vacation months offer the best time in which to visit all parts of he Dominion and learn of its beauties, its resources, its grandeur, its transcendant possibilities.

Purchases Exceed Sales

Russia Buys More From Great Britain Than She Sells.

The council of the Russo-British Chamber of Commerce has published figures tending to show a steady increase in trade between Great Britain and Russia.

The growth is given as from £15,000,000 in 1922 to £58,000,000 in 1925. The report says Russian purchases from Great Britain slightly exceeded Russian sales in the British market. The latter consists almost entirely of foodstuffs and raw material, while the Russian purchases are largely machinery, tools, textiles and other manufactured goods.

The council points out that the entire business has been conducted on a credit basis and says it is not aware of any case in which the Russian organizations have failed to carry out their obligations.

Statistics enable a man to prove anything except the truth of the figures.

Bee Stings.

Minard's eases the pain and reduces the swelling caused by stings and insect bites. Keep it handy.

MINARD'S "KING OF PAIN" LINIMENT

W. N. U. 1636

Better Gasoline Promised

May Mean Increased Efficiency and Economy in Automobile Operation

Increased efficiency and economy in automobile operation are forecast by government experts as the result of recent motor fuel studies by T. S. Sligh, of the U.S. bureau of standards.

The simplicity of the Sligh test is claimed to make it possible for refinery supervisors, by an easy graduation of oils under refinement, to produce without elaborate manipulation and increased expense, a "standard" gasoline meeting the specifications and giving the public more efficient, uniform, dependable gas without increase in price.

Recuperative Powers Of Fish

Frozen Solid By Liquid Air Will Revive In Water

An audience in New York was treated the other night to an exhibition of the recuperative power of fish under injury by extreme cold. Professor Estabrook, of City College, transferred from a bowl of water into a jar of liquid air, two goldfish. Upon removing them frozen, one was shattered into brittle fragments by a hammer. The other, returned to the water, soon swam about naturally.

Poland Not Leaving League

Reports in Geneva that Poland was considering withdrawing from the League of Nations unless her demand for a permanent seat in the League Council is satisfied, were denied by Auguste Zeleski, foreign minister.

Some men are willing to pay cash for everything except their debts.

Hindus Worship Midnight Sun

Pilgrimage Will Be Made To Norway Every Year

In the pale mystic rays of the midnight sun at North Cape, Norway, which juts out into the Arctic Ocean as the northernmost point of Europe, a small party of high caste orthodox Hindus recently worshipped their deity through the symbol of the ever-shining sun which, to the Hindu believers, represents the physical glory of their deity, the spiritual sun.

The party of worshippers consisted of Rai Golpaldas, son of the Hon. Rai Ramsaran Das of Lahore, British India, and Pandit Nagadish Chatterji, a high caste Brahmin, former director of Oriental research at Kashmir and once head of the ecclesiastical administration of the Gackwar of Baroda.

It is the intention of the Hindus to arrange for a similar pilgrimage to North Cape each year.

Pain in the Back Yields to Nerviline

If you have failed to secure relief from other remedies, rub on lots of good old "Nerviline," the strongest, most penetrating pain relief on the market. Nerviline acts quickly on small pains and is the surest to drive out the big ones. It's because every drop of Nerviline rubs in, because it has the ability to sink in deeply that it drives away pain that ordinary oily Liniments won't touch. Large 35c bottles at all dealers.

Are Commercially Valuable

A company with a capital of nearly a quarter of a million dollars has been formed for the purpose of catching sharks and exploiting them commercially. Sharks yield hide for boots and shoes, oil, meat, fertilizers, animal fodder, edible fins for the Chinese market, glue, insulating substances, dye and polishing materials.

WEAK AND NERVOUS

A Condition Due to Watery Blood — Easily Corrected Through the Use of Dr. William's Pink Pills.

Thin, pale girls lack the power of resistance to disease that rich, red blood gives. Nervous breakdown is the result of thin blood. So is indigestion, headaches, backaches and many other troubles. Girls suffering from thin, impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to all the organs of the body. Their first effect is usually shown by an improved appetite; then the spirits revive and restlessness at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McEachern, R.R. No. 3, Brule, N.S., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head and neck. I was very pale and very weak. I had attacks of nervous irritability, and at times I was so nervous that life seemed hardly worth living. While in this condition a friend strongly advised me to take Dr. Williams' Pink Pills. I began taking these pills and used them for about two months with the result that there was such an improvement in my condition that friends would ask me what I was taking, and I was only too glad to tell them it was Dr. Williams' Pink Pills. I am now enjoying good health and am glad to give this statement for the benefit it may be to some other sufferer."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

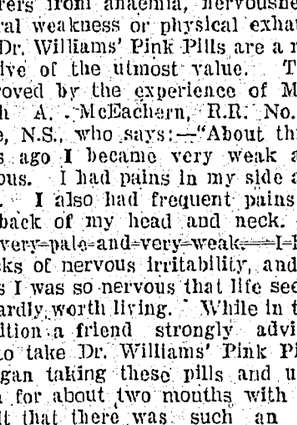
Will Attack Icebergs

Professor Barnes, of McGill University, has left Montreal for Newfoundland, where he will conduct experiments in attacking icebergs with thermite. Prof. Barnes, last winter worked with thermite on the Allegheny River blockade.

TEETHING BABIES
Thousands of Them
DIE EVERY SUMMER

The hot weather is very hard on babies starting to cut their teeth.

On the first sign of any looseness of the bowels the mother should give a few doses of



This will quickly offset the diarrhoea, vomiting and purging, and, perhaps save the baby's life.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Find Magnificent Temple In East

Discovery in Indo-China Made By French School of Excavation

A magnificent temple, dating back to the early fourteenth century, has been discovered by the French School of Excavation, in the Far East, now working in Indo-China. The temple is described as the finest example of the art of that period yet seen, and the inscriptions upon it throw considerable light upon history.

Experts of the school have just reported to the institute in France that the temple is near Angkor Thom, and that other buildings of the same age probably will be uncovered in the vast forests north of the present excavations. These forests will be explored this year.

Another remarkable discovery was reported to the Institute from the province of Tanh Hoa, Indo-China, where several Chinese tombs were unearthed, but not a single bone found. Precious objects in bronze and other metal were discovered.

Comparison By Total Tonnage

Only Way to Judge Naval Armaments Says France

France has proposed to the disarmament experts meeting at Geneva that the only way of comparing the naval armaments of the various countries is by total naval tonnage.

This raises the question of the effect adoption of the French thesis would have on the Washington naval agreement.

The significance of the French-Italian initiative is that both countries seek liberty to strengthen their submarine and cruiser forces which they deem more important to their national defence than battleships. Both United States and British delegates are hoping that the global tonnage conception will not interfere with the Washington accord. They believe that the ratios of capital ships established at Washington could remain the nucleus of such a tonnage programme.

Woman Will Attempt Flight Across Pole

French Actress Announces Intention To Try Trip This Summer

For years men have been seeking to locate the North Pole, and now the curiosity and itch for publicity has inspired a few of the other sex to dare the cold of the frozen lands. Miss Ida Rubenstein, a French actress, has announced her intention of flying across the pole this summer. In New York, another woman intends to gratify her craving for fresh experiences, and accompanying MacMillan's Polar party. Miss Maude B. Fisher, the aspirant for fame, is a graduate of Barnard College, and an athlete. "The quest for the unknown overshadows all fear," said Miss Fisher.

American Farmers Co-operative

Four States Form Latest Pool to Market Wheat

Thousands of farmers in Kansas, Oklahoma, Nebraska and Colorado will market their 1926 crop co-operatively this fall and winter.

State selling units in these states have combined their membership and resources into the Southwest Co-operative Wheat Growers' Association, which will act as the selling agency. The organization has taken over the sales equipment of the Kansas pool, which includes a 400,000-bushel terminal elevator in Leavenworth and another of 1,000,000 bushels at Kansas City.

It is planned to obtain control of wheat, store it in the terminal elevators and slowly feed it into the market.

Whether the corn be old or new growth, it must yield to Holloway's Corn Remover.

Netted Small Fortune

Man Repaired Flag Poles In South Africa Preceding Visit of Prince

Hubert Kirkland, a South African, found his profession of steeplejack at a discount when the Prince of Wales decided to visit South Africa in 1924.

Kirkland seized the idea of touring the provinces according to the Prince's itinerary, repairing flagstaffs, adjusting pulleys, threading new ropes and mending bunting. He kept a good three months ahead of the Prince, returned to Durban with a small fortune and determined to make holiday.

He has now arrived in London from America after holidaying profitably and leisurely in Australia and New Zealand, the Pacific Islands, India, the Straits Settlements and Canada. Kirkland would only smile shrewdly when asked what his flagpole work netted him.

Even if the meek do inherit the earth in accordance with the ancient prophesy, they'll still have the traffic cops to contend with.

Minard's Liniment for Sore Feet

Fly-Flit-Flop!

FLIES breed in filth, feed on filth and bring filth into your home.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills *all* the insects—and does it quickly. Get a Flit can and sprayer today.

STANDARD OIL CO. (NEW JERSEY)

Was Decorated For Gallantry

A Story of the War With An Amusing Element

In the debate in the British Commons on the abolition of the death penalty for army deserters in war time, Mr. R. Morrison told the following experience of a friend of his during the Great War:

"While on outpost duty this friend was the sergeant in command of a party of four men who were cut off without food or ammunition. They eventually decided to try to find their way into the German lines.

"On the way they came face to face with a German N.C.O. and six men. Both parties held up their hands simultaneously. The German N.C.O. was able to speak English and they discussed whether it would be safer for the Germans to surrender to the British and for both to try to reach the British lines or vice-versa.

"As the British artillery barrage was the more severe, they eventually decided to try to reach the British lines. They were successful, and Mr. Morrison concluded by announcing that his friend was eventually decorated for his gallantry in retaining his post and capturing a German N.C.O. and six men."

Somewhere in this story there is a moral.—From "The Passing World," in the Free Press.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Judgment Creditor (at the Bow County Court): The defendant has a dyeing business.

Defendant: A dyeing business? I did have, but it is dead.

Women's Empire Settlement

Canada's Supply of Educated Lady Workers is Sufficient

The British Commonwealth Union, after a discussion of the position of women's empire settlement, have adopted a resolution calling on the Dominion Governments to employ an adequate number of women in salaried and voluntary positions in all schemes of migration.

J. Bruce Walker, director of European immigration for the Canadian Government, pointed out that, while there was no limit to the demand for women domestic servants in Canada, he did not advise educated women to go there with the object of entering professions, as Canada was already supplying her own needs so far as educated workers were concerned.

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

Plan Gas Attack Memorial

Survivors of the first gas attack by Germany on the Yser front, April 22, 1915, have taken steps that a monument be erected to those who were killed by the stifling fumes. The Duchess of Vendome heads a committee which has started the collection of funds for the monument.

"My client is not mentally normal. The fact that he murdered his wife is partly a proof of that, but the fact that he married again is conclusive."

Minard's Liniment for all pains

Of all the disagreeable fads known to mankind, the bill-collecting fad is about the worst.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

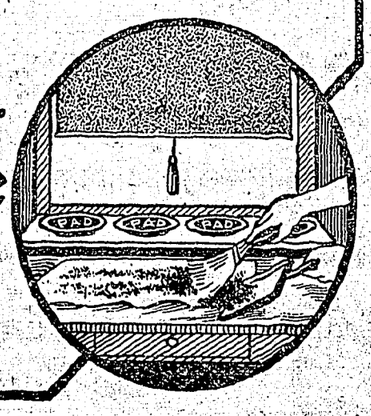
To avoid imitations, always look for the signature of Chas. H. Fletcher. Absolutely Harmless - No Opiates. Physicians everywhere recommend it.

There is only one way to kill all the Flies

This is it—*Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.*

Put the plates away out of the reach of children until required in another room.

The right way to use Wilson's Fly Pads



The Story Of The America Cup

Originally Won At Cowes Way Back In 1851

The hope of Sir Thomas Lipton will win the America Cup in 1927, may be realized with the aid of a new yacht, Shamrock V., which he intends to build. The cup was originally won at Cowes from a fleet of English racing craft in 1851, by the schoner America, sent over from the United States, and was presented by the Royal Yacht Squadron to the owner, Commodore J. C. Stevens. Queen Victoria on the royal yacht was an anxious spectator of this first race, and the replies of her signalmaster "America first," and "Your Majesty, there is no second," and so on, became legandary in the United States. The commodore and his associates, who later presented the cup to the New York Yacht Club, to be a perpetual trophy for international racing could never in their wildest dreams have figured that fortunes would be spent over the now battered old piece of silverware. Lord Dunraven challenged on two occasions. His yacht, Valkyrie III., lost to the Defender in the first race, and at the start of the second race an excursion steamer interfered with the manoeuvres of the two yachts as they crossed the starting line. As a result, the vessels fouled one another, and the Defender's topmaster was carried away. The race was continued, however, and the Valkyrie won, but was disqualified. Lord Dunraven amusingly describes in his book, "Past Times and Pastimes," the serio-comic storm that was raised. "The London Stock Exchange cabled New York that they hoped, when war was declared, excursion steamers would not get in the way of the British fleet; and the New York Stock Exchange replied that, 'In the interests of a fair fight they hoped British warships would be better than British yachts!'" Lord Dunraven was angry at the treatment he had received in the second race for the America Cup, and when the third race came to be sailed he retired. — The Calgary Herald.

People Learning To Appreciate Good Music

Radio Has Brought the Best Into Thousands of Homes

It is called the age of jazz. Old-fashioned people describe its musical tastes as hopeless. It dances to semi-barbarian rhythms and delights in songs which mean nothing and songs which mean too much.

But is the situation really as bad as all that?

There is more good music listened to today than ever before in the history of the world. There is more good music appreciated today than ever before in the history of the world. The phonograph and the radio has brought the finest music, rendered by the finest artists, into homes where such music would otherwise have been unknown. In still other homes, it would have been known, but in no such quantity and in no such quality of rendition.

When people say that the world is flooded with bad books and bad music, it is well to remember that it is also flooded with good books and good music, and that the good of each class is appreciated by a growing multitude. —Toronto Star.

Developing Individuality

Majority Should Not Be Allowed to Standardize Any One Type

One of the weaknesses of democracy is the tendency to standardize thought, speech, manners and morals, conforming them to the type favored by the majority. In a democracy there is always danger of the tyranny of majorities. That is why it is essential to liberty and progress to safeguard the rights of minorities.

This fact seems to be realized by Bishop Francis J. McConnell, of the American Methodist Episcopal Church. In an address to a national gathering of social workers at Cleveland he stressed the desirability of encouraging the development of individuality. To this end it is, he said, necessary to have "free talk, liberty to all, privilege to none, and no flattening out of public opinion by any act, organization or class by a steam roller process."

Freedom for the individual to develop in his own way, and not in the way other people want—only thus can the chief danger of democracy be avoided.—Hamilton Herald.

Some Peculiar Titles

Three Bestowed On Negro Emperor On Favorite Subject

Among the whimsical titles which appear on the pages of national history; few are more apparently frivolous than the Duke of Marmalade, the Count of Lemonade, and the Earl of Brandy. They are, or were, however, real titles bestowed by a genuine monarch on three favorites during the last century. In 1811 a revolution occurred in Hayti, and Christophe, a negro, declared himself emperor. Through conspiracy and plot he retained power until 1820, preserving to the last the appearance of a royal court, and creating numerous nobility. Among these were the three mentioned; and far from being instances of the frivolity of the African character, they were names of places, the first two being originally plantations, but latterly towns of some importance.

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. VICTOR RICHARDSON, Barrington, Nova Scotia.

Dull Pains in Back

St. Thomas, Ont. — "I took four bottles of Lydia E. Pinkham's Vegetable Compound and found great relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sanative Wash I am feeling better than I have for the past seven years, and advise my friends to take it."—Mrs. F. JOHNSON, 49 Moore Street, St. Thomas, Ont. C

W. N. U. 1636

Flag-Waving Complex

American Automobile Association Issues Statement to Intending Tourists Visiting Canada

As a result of investigation following representations from official sources, the American Automobile Association has broadcast a strong warning against the practice of indiscriminate waving of the Stars and Stripes from United States tourists' automobiles in Canada.

This practice, the national motoring body asserted, has caused needless irritation, hurt Canadian sensibilities and has already resulted in some untoward incidents. Canadian officials, said the statement, while desirous in every way of promoting international tourist traffic, even to the extent of being less strict in the case of United States tourists, are nevertheless apprehensive over the flag-waving complex of visiting Americans.

Commenting on the situation, the A.A.A. urged car owners either to abstain from displaying the flag while in Canada or to carry the Stars and Stripes and the Union Jack in conjunction.

The statement concludes: "Failure on the part of tourists to heed this warning will in all probability lead to a stricter customs regulation on both sides of the border. This would be a highly undesirable outcome because it would delay traffic and increase congestion at important points of exit and entry."

Had All the Attachments

Motorist Effected Big Saving With New Fangled Devices

The story is going the rounds to the effect that a certain automobile owner installed a new fangled carbureter that was guaranteed to save twenty per cent. in gas. He then bought special spark plugs that were guaranteed to save twenty per cent. of the same precious fluid, and an intake superheater that was guaranteed to save another twenty per cent. He next put in a patented rear axle with a guarantee of a twenty per cent. saving, and retired with a new brand of tires that promised a twenty per cent. saving in gas consumption. Finally, he drained his crank case and refilled it with a new oil guaranteed to increase his mileage twenty per cent. Now, with a fuel economy of one hundred and twenty per cent., the owner has to stop every hundred miles and bail out the gas tank to keep it from running over.—The Outlook.

Symbolism Of Keys

People Using Key Have No Idea of Historical Significance

Most of us, when we use a latchkey in entering a house, have no thought of the historical significance of the action. Yet the latchkey has a symbolism entirely its own. Examine the images of the Egyption deities in the British Museum and you will notice in the hands of some of them a cross with a circular handle. It represents the Ankh, or key of life, one of the oldest of all religious symbols, denoting the power to open and close the doors to heaven. The key had a magical meaning for the Greeks and Romans. Their gods were often given the title of Keybearer, as, for example, Janus, the god of gates, who was supposed to unlock the doors of war and peace. In early Christian history the symbol of the key was associated with St. Peter, with his two keys of gold and iron.

What Bill Said

An old maid who lived in a London suburb was shocked at the language used by the men repairing the telephone wires near her house.

She wrote to the company about it, and the foreman was asked to report. This he did in the following way:

"Me and Bill Fairweather were on this job. I was up the telephone pole, and accidentally let the hot lead fall upon Bill. It went down his neck. Then he said, 'You really must be more careful, Harry.'"—The Outlook.

Beacon Lights Scare Coyotes

Sheepmen of Unitah county, Utah, say the new beacon lights on the airway of the transcontinental mail route have frightened away the herdsmen's eternal enemy—the coyote!

The thinnest man we have heard of was the person who, when he drank grape juice, people mistook him for a thermometer!

Chinese Believe Bones Have Medicinal Value

Ground Fossilized Bones Mixed With Grease Bring Fabulous Prices

The search in Asia by the expedition of the American Museum of Natural History and the Field Museum of Chicago, under the leadership of Roy Chapman Andrews in the hope of finding the cradle of man has led, through a strange coincidence, to competition with an old established Chinese business. Not that the competition endangers a native industry, for the bone supply is as plentiful as the number of persons who have faith in the medical value of powdered fossilized bones.

Dragon bones, so-called, are found in many parts of China, but it is only in the province of Szechwan that scientists have come into competition with the industry, and then only in small degree, and in the vicinity of the Yang-tze gorges, now becoming so well-known to tourists who have the leisure to make a 1,200-mile water trip inland from the sea. The dragon bones bring $6 a hundred pounds, but under imaginative names and legend or cures brings their weight in gold in the apothecary shops after they have been ground to powder and mixed with grease or a little phosphate. Dragon bone medicine is a cure-for-all in China and is a story in itself.

Interesting Variety Of Plants

Seed is Sent to Kew Gardens, England, From Explorers in Different Parts Of the World

In the Kew Gardens, England, a variety of plants may be seen grown from seed sent home by explorers in different parts of the world. There are yellow and purple irises found by the botanist with the Mount Forest Expedition; blue poppies sent home from Tibet by Mr. Kingdon Ward, who recently returned from a year of plant exploring with Lord Cawdor; a yellow saxifraga sent by Mr. Forest, the plant explorer, who is now in China, and new gentians from the collection of Mr. Rock, the American plant explorer, who is not long back from exploring the northern part of Western China. There are also numerous new primulas sent by all the explorers, but as they are found growing at an altitude of 10,000 ft. to 15,000 ft., they do not all like the English climate.

Minard's Liniment for Rheumatism

Gradually Clearing Scapa Flow

Cruiser Hindenburg When Scrapped Will More Than Pay Salvage Cost

Sunk by her crew at Scapa Flow over six years ago, the German cruiser Hindenburg will be afloat again in a few months. How is it to be done, and what will happen then?

Already twenty-one smaller warships have been brought to the surface by means of wires passed under them from floating docks, but the Hindenburg, with a tonnage of 27,000, is much too heavy for that. She is to be made to rise of her own accord by having the water pumped out of her.

To do this all her portholes and all the eight "sea cocks" the Germans opened to sink her, will have to be covered with patches of concrete or steel. To get at the sea cocks, which are round holes in her hull, two feet across, it will be necessary to make tunnels in the sea bed on which she lies and to scrape away the barnacles and seaweed that cover her bottom.

All this will take twelve divers six months, but when they have done forty pumps will pump out some thing like 60,000 tons of water in twelve hours, and the Hindenburg will then slowly rise to the surface.

And what then? She will be run aground and broken up for scrap, the value of which will be more than worth the cost. After that the remaining big ships will be raised, at the rate of two a year, till Scapa Flow is clear of them.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Had A Real Grievance

Train Being Late Extended Length Of Sunday Sermon

The railroad superintendent, after beckoning his visitor to a chair, invited him to outline his complaint. "I wish you would tell the engineer on the express that passes through Bird Centre to quit whistling Sunday mornings just before noon," said the visitor. "That's impossible," replied the official. "Why do you make such a strange request?" "Well, you see," explained the visitor, "our minister preaches until he hears the whistle blow, and your train was twenty minutes late last Sunday."

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Detecting Crimes By Dust

Clever Detective Resorts to Use of Vacuum Cleaner

Probably the cleverest living detective is Professor Locard of Lyons, whose feats are the wonder of all Europe. Many of them, curiously enough, have been performed with the help of a vacuum cleaner, with which he draws specks of dust, etc., from the clothing of suspected persons; and these microscopic clues have already sent dozens of murderers to the guillotine.

Ricksha Pulling Hard Work

Men Following This Occupation Wear Out In Five Years

Sociologists looking into the question in Pekin, China, have determined that the business career of those furnishing the motive power for the man-drawn risksha is only five years. Such is the endurance period of the arduous work. In and out of employment there are from 40,000 to 50,000 risksha men in the metropolitan district. Street cars are slow to gain popularity.

Good Measure

Little Helps For This Week

Cause me to know the way wherein I should walk.—Ps. cxliii., 8.

Then a voice within his breast
Whispered audible and clear,
As if to the outward ear,
"Do thy duty, that is best,
Leave unto thy Lord the rest."
—Henry Wadsworth Longfellow.

Keep close to duty. Never mind the future, if only you have peace of conscience; if you feel yourself reconciled, and in harmony with the order of things. Be what you ought to be; the rest is God's affair. It is for Him to know what is best.
—Henri Frederic Amiel.

Let us stand by our duty, fearlessly and effectively.
—Abraham Lincoln.

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eclectric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Livestock Improvement Train

Demonstration Car, Lecture and Motion Picture Car to Tour Saskatchewan

Under the auspices of the Provincial Department of Agriculture, the Cattle Breeders' Association, Moose Jaw Livestock Exchange and the Canadian Pacific Railway, a livestock improvement train will be operated in the province of Saskatchewan for the fifth season. The train will consist of eight cars, three of pure-bred bulls, one of butcher steers, one of dairy cattle, one demonstration car and one lecture and motion picture car. The sale of good sires is the principal object of the train, but lectures and motion pictures will be provided for educational purposes.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Eclectric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Gold Finder Died Poor

After making and losing several fortunes, James Marshall, who was first to discover gold in California, died in poverty and solitude in a lonely cabin close to the spot where he made his epochal discovery of gold 37 years before.

You can almost see the cracks in the voice of some people when they attempt to sing.

PRE-NATAL LETTERS AND ADVICE

The system of distribution of pre-natal literature recently arranged by the Child Hygiene Section of the Canadian Council on Child Welfare, and the Provincial Health Departments of the various provinces has proved extremely successful. Upon application to the Provincial Departments of Health or to the Canadian Council on Child Welfare at Ottawa, a series of pre-natal letters is forwarded regularly, free of charge. Applications have been received from scattered outposts, far in the interior of the provinces, scores of miles from the railways and miles from a post office. Other applications come from the large centres of population with well established health services, where doctors or nurses have advised their patients to avail themselves of the excellent information available in these letters.

The letters have been prepared by an especially well qualified committee of medical men, and were distributed only after consultation with the Provincial Departments of Health. They are designed to contribute to the superb effort the Canadian people are making to reduce their infant and maternal morality rate and to improve the whole average of infant health across the Dominion by carrying pre-natal advice and information to the expectant mother in the home.

A letter to the Provincial Department of Health of your own province or to the Canadian Council on Child Welfare, Plaza Building, Ottawa, will bring the letter service free.

CANADIAN NATIONAL'S NET EARNING FOR MONTH 706%

Earnings statement issued recently by the Canadian National Railways shows an increase of $2,826,425.56 or 706.71 per cent. in net earnings for May as compared with the same month of last year and an increase of $8,740,860.91 or 209.38 per cent. for the five months period since the first of the year as compared with the same period of 1925.

Gross earnings for the month of May, 1926, were $22,183,304 as against $18,245,738 for May 1925, an increase of $3,937,566, or 21.58 per cent. Working expences were $18,956,938.67 in May 1926 against $17,845,798.23 in May 1925, an increase of $1,111,140.44 or 6.23 per cent. Net earnings for the month were $3,226,365.33 as against $399,939.77 for May of last year, an increase of $2,826,425.56, or 706.71 per cent. The operating ratio for May 1926 was 85.46 per cent. as compared with 97.81 per cent. in the same month of last year.

STRIKE RICH VEIN OF ORE SALLY GROUP, BEAVERDELL

Six feet of highgrade silver ore which is expected to run well up to $500 to the ton has just been uncovered in a new strike made in the Rob Roy claim of the Sally group on Wallace Mountain and the Beaverdell camp is bubbling with optimism.

Last August the Gugginheims took an option for $500,000 on the Sally group from the Wallace Mines Limited and carried on some development work for about six months. After shipping several cars of ore they threw up their option about three months ago. This had the general effect of a black eye on the Beaverdell camp, although Duncan McIntosh continued to roll up substantial dividends on an adjoining property. E. Nordman and his three sons, the principal owners, were disappointed at the action of the Federal interests but gritted their teeth and started exploratory work more determined than ever and are being warmly congratulated on what is generally regarded as the biggest find which has been made on the Sally group, although a shipper for 20 years.

The Rob Roy claim, on which the strike was made, lies between the Sally and the Bell, Duncan McIntosh's famous tennis court shipper. It was found as a result of the development scheme outlined by the Nordmans and which had not been followed by the Federal people.—Grand Forks Gazette.

NEW CANADIAN NATIONAL SERVICE ON OKANAGAN LAKE

Announcement is made of the opening by the Canadian National Railways of a steamship service between Kelowna and Penticton on the Okanagan lake. A new steamship, the Pentowna, will make two trips each way daily, except Sunday, starting July 15. This extends the passenger service which was put into operation with the completion some months ago of the new Canadian National line between Kamloops and Kelowna and gives a complete service from Penticton connecting with the Continental Limited east and west from Kamloops.

WILL MAKE MOVIE FILMS AT JASPER NATIONAL PARK

Jasper, the world's largest national park is to provide the setting for one of the great moving picture epics of the year. "The Country Beyond", an adaptation of the story of that name by James Oliver Curwood, which is being produced by the Fox Film corporation under the personal direction of Mr. Irving Cummings. The caste, which is a notable one, includes such stars as Olive Borden, J. Farrell MacDonald, Ralph Graves, Fred Kehler, and Lawford Davidcon, as well as a number of others of outstanding ability.

Presence of Mind

A motor-bus crashed into the Glasgow Savings Bank, in Glasgow, not long ago, going half-way through the front of the building. Several of the passengers were pitched through the bus window into the bank, and one of these found himself catapulted on to a broad ledge beside a telephone. He calmly lifted the receiver and telephoned to his employer that he would be delayed, as he was in a bus accident.

The Trounson dog named Rupert was run over by an auto a few days ago. It was taken to Grand Forks to the Vet. but nothing could be done and it was put out of misery by chloroform. Rupert was a local favorite and will be missed by the dog lovers

WATER NOTICE

Clearing Streams

TAKE NOTICE that W. E. McArthur, whose address is Midway, B.C., will apply for a licence to use the waters of the Kettle River and West Fork of Kettle River for "Clearing-streams" purpose (i.e., clearing and improving the stream for the driving, booming, or rafting of logs). The points on the stream between which it is proposed to clear are from Midway to East Fork on Kettle River and from Westbridge to Carmi on West Fork of Kettle River. The estimated mileage between the said points is 75 miles. The term proposed for the licence is 20 years. This notice was posted on the ground on the 5th day of July, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Grand Forks. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria B.C., within thirty days after the first appearance of this notice in a local newspaper.

W. E. McARTHUR, Applicant.

The date of the first publication of this notice is July 8th, 1926.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

No Wonder Canadians are Handsome

Canadian men and women owe their good looks and beauty to their country, says Pen Chung Fann, of Shanghai, alias Paul C. Fann, of Montreal, who believes that environment is the chief factor in the evolution of the human species. On the whole, this young Chinese philosopher thinks, Canadians considered collectively, are much better than the Chinese because of their association with more beautiful surroundings.

"This is a very old theory," said Mr. Fann in a recent interview, "and a very well-founded one." He pointed out the fact that the inhabitants of the vast barren areas of China were an ugly people, while a native of the Province of Kiangsu, the most fertile and beautiful of Chinese provinces, could be recognized anywhere for their great beauty.

"Make your country beautiful, and the rest will take care of itself."—that is Mr. Fann's recipe for good looks. Canadians, he says, have carried out this theory unconsciously with the result that their country has not only great natural beauty, but many fine cities, and thousands of acres of beautiful farm land. The Canadian Pacific Railway with which Mr. Fann has been associated for the past two and a half years has played a great part in beautifying Canada he says, as well as assisting in the country's development in many other ways.

Paul C. Fann, as he is known in Montreal is a graduate of Chinese universities, the son of a Mandarin, and just 26 years old. For two and a half years, under an arrangement between the Governments of China and Canada, he has been making a study of the Canadian Pacific Railway System with the idea of acquiring practical knowledge that he hopes to apply to the railroad problems of his own country. He and several other young Chinese students arrived in Montreal in December 1923, and since his stay in Montreal, Mr. Fann has been employed in the Angus shops and various departments of the Railway in Windsor Street Station, Montreal. He has also been a student at McGill university, where he took an M.Sc. degree, and is at present working for the degree of M.A., which he hopes to receive in the Fall, before returning to China in October. Mr. Fann leaves the Canadian Pacific Railway Company at the end of this month and will travel through Canada during the summer. The building in the photograph is the Windsor Street Station, Montreal, where Mr. Fann received most of his Canadian Pacific railway training.

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia.

N.B. Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.
