Martin Auction Kettle Valley

The above auction held last Saturday went with a swing. There was a large attendance, which was surprising as most ranchers had their hay out. There were about forty cars drawn up outside G. B. Gane's store. Horses sold well, the highest price was for a grey horse which brought $86.00, machinery brought fair prices, everything was disposed of. The auction realized $170.00 more than was estimated. All sales were cash except one small three month's note. Several buyers expressed their approval of these auctions as they were able to purchase articles that they required at a reasonable price.

There are two more auctions to be held, particulars of which will be given at a later date.

BROWN'S STORES

Midway and Rock Creek

Of Local Interest

J. C. Dale, of Carmi, is a visitor in town.

Edward Johnson has returned from a trip to Trail

H. W. Clarkston, of Fife, died very suddenly a few days ago.

Service in St. Jude's Church on Sunday, July 24th, at 7:30 p.m.

Miss Anderson, of Bellingham, is visiting her mother, Mrs. J. P. Anderson.

Mr. and Mrs. A. Waddell, of the Main River, were visitors in town on Tuesday.

Mass will be celebrated in the Catholic Church on Sunday, July 23rd at 11 o'clock.

The Emma Bluebell, of Eholt, shipped 24 tons of copper ore to the Trail smelter last week.

Mrs. E. F. Keir successfully underwent an operation for goitre, in Portland a few days ago.

James Machell underwent an operation at the District Hospital on Saturday and is getting along nicely.

Mr. and Mrs. Ed. Richter and son, Frank, of Park Ranch, Rock Creek, were visitors in town on Wednesday.

Miss Dorothy Kingsley who had her tonsils removed at the District Hospital on Tuesday is staying with Mrs. W. B. Fleming.

John and Tony Portmann and Mr. and Mrs. Heed, of Nicholson Creek, were visiting Mr. and Mrs. L. Portmann on Sunday.

Mr. and Mrs. J. Richter and two children, and Mrs. E. Hawkes and daughter, of Midway, were in town on Monday afternoon.

Mr. and Mrs. L. Rouiser, and daughter, Julia, left a few days ago for Trail, after vsiiting Mr. and Mrs. M. Maloney and other friends.

Mr. and Mrs. C. D. Pearson, of Grand Forks, accompanied by Mr. and Mrs. Watson and Mrs. Robinson, were visitors in town on Wednesday evening.

The congregation of the United Church was given a special treat last Sunday evening when Nellie Wren sang during the service, being accompanied by Mrs. A. Walker.

Messrs. T. A. Love, N. Taylor, W. F. Huffman, W. S. McPherson, F. R. Scott, Sam Matthews, T. Wilkinson, A. F. Crowe and H. Henderson attended the funeral of the late Theodore Witte on Tuesday.

In Grand Forks last week Mrs. Polie Docksteader—while working in her garden noticed a snake close to her hand. She turned the hose on him. The reptile coiled and prepared to hold the ground. The plucky woman grabbed a hoe and put him out of business. It turned out to be a rattlesnake with a good bunch of buttons.

A real musical treat is in store for the public at the Picture Show on Saturday. Nellie Wren of San Francisco, who sings with the National Broadcasting Co. and George Clark recently with the Mark Hopkins Orchestra of San Francisco, have very kindly consented to render a few numbers. Some local musicians will assist with the program. The people of this District do not often have an opportunity of listening to such talented artists. Do not fail to hear them.

Missing Prospector's Body Located

The body of Theodore Witte was found on Sunday by Ralph Eveleth a short distance above the dam close to the Tippie ranch, Midway.

Mr. Witte went prospecting on June 20th and when crossing a tree over Boundary Creek he lost his balance and fell into the then raging stream.

About the same time that his body was located, Jim and Dick Pasco, searchers, found the prospecting pick that Mr. Witte carried, near the log in the water three-quarters of the way across the stream.

Since his disappearance many people have looked for the body, and it was only on Saturday afternoon that L. Bryant and V. Barrett had cleared out a log jam just above where the remains were located.

The late Mr. Witte was about 80 years of age. He was a native of Germany and was a corporal in the Germany army when they defeated Austria along about 1866. He had been a resident of British Columbia for nearly 50 years and at one time lived in Chilliwack. For some years he made his home in Deadwood, where he owned some mining properties.

He was a good citizen and a large circle of friends mourn his demise.

The funeral was held on Tuesday under the auspices of the I. O. O. F. Lodge, of which he has been a member for 32 years. Services were conducted by Rev. A. Walker, T. A. Love, and G. B. Taylor, members of this fraternity. Interment took place in the local cemetery.

The pallbearers were: Messrs. W. B. Fleming, W. S. McPherson, F. R. Scott, T. Wilkinson, A. F. Crowe and George Bryan.

Floral tributes were sent by Gateway Lodge No. 45, Grand Forks, F. R. Scott, D. D. G. M., W. S. McPherson, Nelson Encampment No. 7, Canton Corona No. 7 Nelson, and Mrs. Mark Christensen.

Death of Fred Madge

The death occurred at the home of J. C. Madge, Rock Creek, of Frederic Madge, on Tuesday, July 19th. Mr. Madge had been ill for many months but was up and about a short time before his death. He was but 40 years of age, having lived 30 years in the District, coming as a lad of ten years from Sprague, Wash., where he was born. Living in the District so long Fred had made many friends and he was a noted horseman around about having made his name as a fearless Bronco-Buster in the early days when horses were in great demand.

The funeral was held in Rock Creek this afternoon.

He leaves to mourn his loss his mother, Mrs. A. Madge; three brothers, John, Edward and Henry, and two sisters, Mrs. Wm. O'Donnell and Mrs. A. Tanner. To them the sincerest sympathy is extended.

Midway News

Haying is general in the district and the crops are very good.

Curlew won from Midway on the local diamond on Sunday by a score of 15 to 6.

Master Hayden Bubar of Beaverdell, is spending a week's holiday with his grandmother, Mrs. L. Powers.

Mr. and Mrs. Harry Clark and family; also Roland Clark, have returned to their respective homes in Seattle.

Mrs. Arthur Miller returned to her home in Eagle Hill, Alta., last week, after a few days visit with her parents, Mr. and Mrs. T.A. Clark.

Benefit Dance Cancelled

The Benefit Dance which was to have been held on Friday, July 22nd in Riverside Hall, Rock Creek, has been cancelled owing to the death of Fred Madge.

George Rogers of the Sally mine, paid a visit to The Greenwood Ledge office on Wednesday. Mr. Rogers is on his annual vacation. He intends visiting Phoenix, thence to Grand Forks and from there by C.P.R. to North Vancouver, where he will visit with his two children and Mr. and Mrs. Ingram. George is looking forward to a happy four weeks.

Mrs. J. Mallalue, Mrs. H. S. Wilson, Miss Margaret Wilson and Master Bobbie Mallalue who have been visiting their cousin W. C. Wilson for the past two weeks returned to Vancouver. In view of the complimentary remarks about this District as a place to spend a holiday it might be well for the local people to advertise some of the places as summer resorts. For instance as a beauty spot the north end of Jewel Lake can not be beaten and by next year the Kamloops trout placed there by the Government will provide some real sport for the anglers.

A most delightful party was held at the home of Mr. and Mrs. Silas Smith at Blakeburn, on Friday last. The guests present were: Mrs. Geo. Murray, Mrs. B. Murray, Mrs. Cunningham, Mrs. Gibson, Mrs. Foster, Mrs. Frank Bond, Mrs. Sheriff, Mrs. Wood, Mrs. Hunter, Mrs. Wm. Oxley, Mrs. A. Lakeland, and daughter, Peggy, Mrs. Sims, and Miss Mackay. The evening was spent in games, Miss Mackay winning first prize at whist, and Mrs. Sims, consolation. On word contest, Mrs. B. Murray, 1st prize and Mrs. Foster, consolation. Following the games a splendid supper was served, the party breaking up at 2 a.m.

Local Wedding of General Interest

A marriage of interest to a wide circle of friends in Greenwood and District was solemnized quietly on Wednesday, July 20th, at 11 a.m. at the Pacific Hotel, when Ruby Goodeve, daughter of Mr. J. H. Goodeve and Mrs. Goodeve, became the bride of Mr. Reginald Skilton, son of Mr. Jas. Skilton and Mrs. Skilton of Greenwood. Only immediate relatives and friends of the bride and groom were present. The Hotel sitting room was beautifully decorated with carnations, Canterbury Bells and sweet peas.

Rev. E. A. St. G. Smyth officiated.

Given in marriage by her father the bride looked charming in a dress of white Georgette and lace over satin with a boquette of Ophelia roses and fern. Her going away dress was navy blue crepe de chine and she wore a white felt hat. Miss Renie Skilton acted as bridesmaid and wore a powder blue Georgette dress and carried a boquet of Ophelia roses, sweet peas and fern.

The groom was supported by Mr. Kenneth Skilton, of Bonnington Falls.

After the ceremony a delightful luncheon was served in the spacious dining room of the Pacific Hotel after which the happy couple left by car on a trip to Spokane and Seattle. Upon their return Mr. and Mrs. Skilton will make their home in Greenwood.

The Greenwood Ledge joins with their many friends in extending congratulations.

The list of gifts follow:—

Mrs. J. H. Goodeve, China cabinet; J. H. Goodeve, cheque, Mrs. C. Goodeve and Miss C. Goodeve, down comforter; Mr. and Mrs. J. Skilton, Rogers table silver and tray; Miss Renie Skilton, motor rug; Mr. and Mrs. R. B. Stickney, electric waffle iron; Kenneth Skilton, Pyrex pie dish and stand; C. G. I. T. Club, electric iron; H. H. Summersgill, linen table cloth; Mrs. Thomas and Miss McCreath, teapot and stand; Mrs. E. Hallett, silver salt, pepper and mustard set; Dr. and Mrs. A. Francis, silver egg cup set; Mr. and Mrs. C. E. Nordman, candlestick set; W. C. Wilson, silver pepper and salt shakers; Mrs. J. Price, silver pie knife; H. W. Gregory, electric reading lamp; Juan Puddy, China flower bowl; Mrs. Ellen Trounson, tea cloth towels, and painted doilies; Jesse Puddy, painted tea cloth; Mr. and Mrs. G. B. Taylor, 6 bath towels; Mrs. L. Portmann, China bon bon dish; Miss Caroline Casselman, China cream jug; Miss Annie Casselman, China dish; John McDonell, China cake dish; Jack Morrison, 6 China cups and saucers; Mrs. M. Axam, China cream jug; Mrs. Mitchell, 2 China cups and saucers; Mr. and Mrs. G. S. Walters, 4 bath towels; J. Campolieto, silver tray; Mrs Gray, 1 doz. linen serviettes; Mrs. W. B. Fleming, bon bon dish; Mrs. T. Moore, pillow cases; Miss S. Price, Pyrex pie plate and stand; Mrs. E. M. Smith, bon bon dish; J. H. Cropley 1 linen table cloth and 12 serviettes; T. M. Gulley, rolling pin; Miss M. Goodeve, tablecloth; Geo. H. Gray, cut glass and china; Mrs. H. J. Purkis, painted center piece; Cleveland Toney, 1 doz. China plates; Mr. and Mrs. T. W. Clarke, electric boudouir lamp; Miss Annie Casselman, berry spoon.

Forestry Association Show Well Received

The Lecture and Picture Show held on Wednesday evening in the Greenwood Theatre was greatly appreciated by a well filled house.

Major Ian Anderson in his discourse gave a brief but very interesting lecture on the Canadian Forestry Association as a whole and some outstanding features of the pictures which were shown.

Mr. Charles Wilkinson, the operator, then proceeded to show some of the most interesting pictures ever shown locally. They were practically all B.C. views and showed only too plainly what a beautiful Province we live in and particularly brought out the importance of saving or protecting our precious forests. One also received a good glimpse of the various industries of the Province, namely furniture manufacturing, glove making, fishing and lumbering. A number of slides were shown of the Vancouver Exhibition which takes place on August 10th to 20th

At the close of the Show Rev. A. Walker acting as chairman for the occasion, expressed in a few well chosen words how greatly he had enjoyed the evening and asked the audience to make a motion for a vote of thanks to be tendered both Major Anderson and Mr. Wilkinson. Mr. Chas. King responded and made a motion which Mr. S. B. Hamilton seconded and the audience showed their appreciation by a hearty applause.

Major Anderson thanked the audience for their attention and appreciation and then called on Mrs. A. Walker to play the National Anthem.

Everyone went away feeling rather proud of being a British Columbian.

Real Treat in Store For Theatre Patrons

Nellie Wren will once again delight a Greenwood audience by singing at the Picture Show on Saturday evening. Any persons who were unable to hear the singer before ought to make sure of their treat this time. Come and hear the singer and see Rudolph Valentino in "The Son of the Sheik" on Saturday, July 23rd, at 8:15 p.m.

Jas. Skilton returned from the Coast on Tuesday to attend the wedding of his son, Reginald.

Now packed in *Aluminum.*

RED ROSE TEA

"is good tea"

109

Your grocer knows when you order RED ROSE ORANGE PEKOE you are a judge of fine tea.

The Canadian People

In rounding out the celebration of the Diamond Jubilee of Confederation, the Dominion Parliament at its next session might well take one more step to further promote a united Canadian sentiment and develop a stronger Canadian national spirit by making legislative provision for the recognition of the Canadian race, and to enact that a person born in Canada, whatever their racial descent, shall be designed in the census returns of this Dominion as a "Canadian."

At the present time, tens of thousands of native-born Canadians are made to suffer a feeling of inferiority, not only in their own eyes but before the world, through their inability to record themselves as Canadians. Under the census regulations of the past they have been forced to designate themselves as English, Irish, Scotch, French, Dutch, German, American, — anything but what they really are, Canadians.

As a result, the census statistics of this Dominion advertise to the world that this country of Canada is inhabited by all manner of races and conditions of people, except Canadians. That in all this broad Dominion, a self-governing nation in the British Commonwealth of Nations, with a status equal to that of Great Britain itself, and a full-fledged member of the League of Nations, there is no such person as a Canadian.

If in England the same antiquated and obsolete system of census enumeration prevailed, many families who have lived in England for centuries would be compelled to classify themselves as Dutch, or French, anything but English. His Gracious Majesty the King, the Prince of Wales, and other members of the Royal Family would be recorded as German. In the United States, if our absurd system existed, there would be every known race under the sun, except Americans. It is the un-understandable insistence of the Ottawa authorities in this matter which is one of the causes of people in other lands failing to understand and appreciate the national and international position of Canada today.

Furthermore, the existing state of things is most unfair to the people of Canada. There are thousands of Canadians whose parents, grandparents, great-grandparents, were born in Canada, and who do not know, and much less care, whether generations back their forebears originally hailed from the British Isles, the continent of Europe, or the isles of the seas. They are Canadians. That is good enough for them, and it ought to be good enough for the Canadian Government.

In some cases a man's great-grandfather may have been Scotch and his great-grandmother French; their son may have married a German; the female offspring of this latter union hay have married a Ukrainian born in Canada but one of whose parents was a Hungarian, who in turn had Russian blood. What is the nationality of such a Canadian-born man? He himself does not know, and it is doubtful if the average census enumerator can figure it out. The only point on which the enumerator is clear, and because the Government in its instructions to him makes it absolutely clear, is the man is not a Canadian regardless of the number of these generations of varying racial descent who were born in Canada.

"Canada our Country" was the motto of the Diamond Jubilee celebrations. "Our people Canadians" should be the record disclosed by the census returns, not a conglomerate mixture of peoples. Under the existing system of enumeration it is not at all surprising that so many false statements are being made to the effect that Canada is rapidly becoming a non-English country, and that the foreign-born predominate. If the children of three and four generations of native-born Canadians must still be classified as Russian, or German, or Austrian, anything and everything but Canadian, it is small wonder that people who do not understand our uniquely absurd system are misled and arrive at conclusions the very reverse of true.

Canada's Diamond Jubilee year is a most appropriate time for Parliament to right this injustice to so many of its citizens and to the Dominion as a whole.

To Cross Ocean In Small Boat

Steel Vessel Twelve Feet Long Will Be Used By Daring Navigator

In a tiny, submarine-like steel vessel of his own construction, built during his spare time, William Oldham, of Warrington, Lancashire, proposes to set out shortly on an adventurous voyage from Dover to New York. The boat, which is only 12 feet long, with a beam of 3 feet, will be propelled by a navigator with a pedal mechanism much like bicycles operating the two-bladed propellor.

A "windmill" geared to the shaft will relieve him when the wind is fair. Two persons can be accommodated, although there won't be full-length sleeping quarters. There are six water-tight compartments and four gunmetal windows. Oldham will be able to button himself down when the weather is bad and keep a lookout from a small "conning tower." He has estimated that the trip will occupy 40 days, and he is desirous of finding some one to share the hazards with him.

FACE LOOKED TERRIBLE

Pimples Were Awfully Painful. Cuticura Heals.

"A small pimple appeared on my chin and I scratched it causing more to come. The pimples were hard and sore and I used to keep scratching. They festered and were awful painful, and my face looked terrible. I was discouraged because when I went out it seemed as if everyone was looking at me.

"I began using Cuticura Soap and Ointment and in a week's time I could see they were helping me. I continued using them for a month and the pimples disappeared. I was healed." (Signed) Mrs Harry Heffel, Borden, P. E. I., Nov. 19, 1926.

For every purpose of the toilet and bath, Cuticura Soap, Ointment and Talcum are excellent.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

W. N. U. 1690

Double Wedding In Airplane

Machine Carried Witnesses, Clergyman, and Invited Guests

For the first time in the history of aviation a double marriage ceremony was conducted at Berlin, Germany, high in the air, directly over two churches. The vows were exchanged before a regular altar erected in the plane, while a phonograph reproduced organ music.

A Rohrbach-Roland plane, one of the largest air vessels of the Lufthansa, had been transformed into a bower of flowers with the beautifully decorated altar in the centre.

The new wedded couples returned to the Tempelhor Air Port, where they received the congratulations of numerous friends, and partook of a breakfast before starting on their respective honeymoons.

British Expedition To B.C.

Will Collect Rare Flower Seeds in Mount Garibaldi District

The Royal Horticultural Society of Great Britain, with its history of over one hunderd years of good work, has decided to finance an expedition to the Mount Garibaldi district of British Columbia for the purpose of collecting seeds from the numerous rare and beautiful flowers which revel in the higher slopes of these grand hills. J. C. Bennett, Lake Hill, alpine and rare plant specialist, is to organize and direct the expedition.

When a man has real troubles he keeps them to himself.

Quick Stop for Airplanes

New Device Will Permit Planes to Land on Roofs of Buildings

Airplanes can now be safely brought to a stop within a distance twice their own length under a reversing propeller arrangement patented by C. Francis Jenkins, noted Washington inventor.

The propeller cannot be operated until the plane lands, Jenkins explained, and when thrown in reverse halts the airplane with the ease of powerful brakes.

The inventor believes his device will permit air fields for mail and commerce to be established on the roofs of buildings, eliminating the slower and costly hauling of mail, express and passengers from suburban fields.

Sour Stomach Risings Subdued by "Nerviline"

A Few Drops Bring Relief

The wonderful relieve you get from twenty drops of Nerviline will surprise you. Take it in sweetened water, and almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and relieves that distressed feeling in the stomach. When colic or cramps strike you at night, Nerviline is a sure relief. For general use in the family, for emergent ills, always keep trusty Nerviline on hand. 35c. at all dealers.

Big Demand For Farm Boys

Waiting List of Six Hundred Farmers Reported at Guelph

Six hundred applications from farmers throughout Canada for boys brought to Vimy Ridge Farm, Guelph, Ont., for placement are on file at the farm now, according to Superintendent W. Sarel. The demand for boys is so large that no party which has arrived this year has stayed at the institution for longer than 48 hours. Applications have been received from agriculturists in Alberta and Saskatchewan, and even one from Quebec. The groups this year, though not so large as in 1926 are arriving more frequently, and the boys generally are of a better type.

DEBILITY DUE TO INDIGESTION

Perfect Digestion Comes Through Rich, Red Blood

There can be no perfect digestion unless you have rich, red blood. This is scientifically true. It is also true that there is no tonic for the stomach that is not a tonic for every other part of the body. The way, then, to tone up the stomach is to tone up the blood.

The many so-called stomach remedies merely try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work as nature intended. There is no pleasure in eating predigested food. Tone up your stomach and your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin you need the help of Dr. Williams' Pink Pills to enrich the blood and restore strength. In addition use care in the selection of your food and your stomach trouble will soon pass away. Mr. Gordon Dundas, Peterboro, Ont., tells as follows what this medicine did for him. He says: "Something over a year ago I was a gasoline salesman when I was taken sick. I felt very miserable and lost twelve pounds in weight. I did not sleep well and could not eat as I could scarcely retain anything in my stomach. I went to a local doctor who told me the fumes of the gas had got into my system. He gave me some medicine and told me I had better go to the country for a change of air. I did so, but I still felt listless and groggy, and had no ambition. On the advice of a friend I decided to try Dr. Williams' Pink Pills. I had not been taking the pills long before I was beginning to rest better, and to eat fairly well. I kept on taking the pills until at the end of the seventh box I knew I did not need any more, as I had gained the weight I had lost, slept well and could eat anything. I have since had splendid health and cannot say too much in praise of Dr. Williams' Pink Pills.

You can get these Pills from any medicine dealer or by mail at 50 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Teacher: "For men must work and women must weep." What is the meaning of that line, Tommy?"

Tommy: "It means that men have to work to get money, and then the women have to cry before the men will divide it with them."

Blisters.

Prevent any chance of infection by using Minard's. Heals also.

MINARD'S "KING OF PAIN" LINIMENT

Fined For Laughing

Display of Mirth Leads to Trouble in German Town

At Settin, in Germany, laughter is liable to lead to trouble.

A German couple, Herr and Frau Stanzer, stepped out of a shop while the latter told her husband a funny story. The husband burst into a hearty guffaw, whereupon a policeman rushed to the scene, charged the husband with disturbing the peace, and fined him a dollar on the spot.

This affront so amused Herr Stanzer that he again burst out laughing. Before the final chuckle had ended he was being led away to the police court. A witness testified that he had not laughed but had "bleated like a sheep."

This remark so tickled the laughing husband that he could not keep solemn no longer and enjoyed another hearty laugh. He was fined about $2.50. Still with a smile on his face, Stanzer handed the clerk $10.00, telling the official to credit him with $5.00 on his next laughs. "Contempt of court," said the Bench, and find him $12.50.

Wheat Pool Agency For South America

Western Canadian Wheat Pools Will Establish Selling Agency In the Argentine

W. J. Jackman has been appointed resident representative in the Argentine for the selling agency of the three Western Canadian wheat pools. He will leave for his new field of work early in September and will have his headquarters in Buenos Aires.

The appointment is the outcome of a scouting trip that Mr. Jackson made to South America last year for the purpose of inquiring into the general conditions of the wheat trade in that country. It has since been decided by the wheat pools to be permanently represented there and while the office will be of a somewhat experimental character it is intended to give it a thorough trial, in expectation of the two countries coming into fairly close relations as both producers and exporters of wheat.

Airships Terminal Planned

$350,000 To Be Spent On Equipment In South Africa

Plans concerning the projected mooring mast and ground equipment for an airship terminal in the Union of South Africa are almost completed. It is agreed that the airship service shall be controlled by the Union's railway administration and that approximately $350,000 will be spent on the mast itself. It is understood this will be located near Cape Town. The Government committed itself to construction of a mast as the Union's contribution to an inter-Empire airship service.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Sorting Mail In Air

British Air Ministry Is Making Test of Special Plane

An aeroplane specially designed for the rapid transport of mails is being tested by the Air Ministry. It will carry, besides the pilot and an engineer, a postal sorter, who will continue his work while flying at 100 miles an hour.

This latest type of mail aeroplane is fitted with parachutes, and instead of the usual tail skid has a steerable tail wheel, with powerful brakes to help pull the machine up quickly on alighting at small aerodromes. A central engine room contains two Napier engines, each of 500 h.p.

Nothing as Good for Asthma. Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

Mapping Canada From the Air

Since 1921 when aerial photographic surveys were begun by the Topographical Survey of the Department of the Interior, 25,630 square miles in Canada have been covered by vertical photographs and 127,740 square miles by oblique aerial photographs.

Canada's gross agricultural wealth is nearly eight billions, increasing nearly three-quarters of a billion in three years.

The way to see the virtues of a trust is to become a stockholder.

Farmers Market Tour

An Exceptional Opportunity for Farmers of Western Canada to Visit the Old Land

The British market must ever remain the most desirable outlet for Canadian farm products. As a result of keen competition from other countries, it is vital that the Canadian farmer should become familiar with what this market desires. As very few agriculturally trained observers from this country have had this privilage, many would welcome the opportunity of making an intimate study of marketing conditions at first hand. There has therefore been organized a "Farmers' Marketing Tour" by the Department of Agriculture of the Canadian National Railways. This tour, which will be open to any Canadian farmer, will be of some seven weeks duration, leaving Halifax January 8, next, with a full month spent in the old land, during which important marketing centres in England and Scotland, and some of the farms where famous breeds of livestock have been developed, will be visited, with a side trip to Denmark for a study of co-operative marketing in land of its birth.

The tour originated by Dr. W. J. Black, director of colonization, agriculture and natural resources, on the Canadian National Railways is being planned to provide the maximum of educational value, combined with all the pleasures of the ordinary sightseeing tour. The study of conditions abroad by a large group of observers from the farms in Canada should have its practical results in the successful application of the knowledge gained on such a tour to the general improvement of the agricultural industry in Canada.

The tour is essentially for the Canadian farmer. Any farmer anywhere in Canada, or anyone vitally interested in agriculture and marketing problems, and in the development of wider markets for Canadian products, may join the tour, and it will also be possible for women who are interested in any phase of agriculture to go.

The cost of the tour from the time of leaving Halifax, Canada, until the return to that port will be $500.00. This cost includes all ocean-fares and meals, railway and bus fares in the old land, accommodation at good medium-class hotels, meals and ordinary costs incidental to the tour while overseas.

In addition: members of the party will pay their railway fare and cost of travel to and from the port of sailing at special rates provided, and will be required to bear passport costs, Government tax on steamship ticket, tips on board ship crossing the Atlantic, and personal expenses such as laundry, etc., and any additional expense of entertainment incurred by themselves.

Ocean accommodation is being provided by the White Star Line, Canadian Service. The party will sail on the steamship "Devonian" on Sunday, January 8th, the accommodation for the party being tourist class with run of ship. The return voyage will be made on the steamship "Albertic," sailing from Glasgow on February 19th, the accommodation for the party on this ship being tourist class. The accommodation and service on these well known steamships is excellent and the party is assured of a pleasant and comfortable voyage. Members of the party wishing to remain longer in the old land may arrange for similar accommodation on any later ship through the White Star Line offices overseas.

Further information may be secured about the Farmers' Marketing Tour by communication with W. J. Black, Director of Colonization, Agriculture and Natural Resources, Canadian National Railways in Canada.

Insulin Capsules Made

Insulin may now be taken in capsules, according to investigators at the University at Breslau, Germany, who claim to have found a substitute for the pancreatic insulin. Heretofore the remedy for diabetes could not be given in the form of drops, powders or tablets, but must be injected under the skin. Prof. J. C. Minkowski, who conducted the method of giving insulin has been effective in a number of cases.

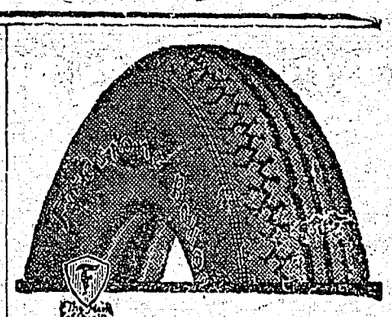
Alberta Fur Production

Official figures show that Alberta's total fur production for the fiscal year 1925-26 was valued at $2,122,778.00. This represents a gain of $90,000.00 over the preceding year, and puts Alberta in third place among the provinces in the value of furs produced.

A London school started primarily to teach languages, now finds most of its pupils among American tourists who are anxious to acquire an English accent within a short time. A close second in popularity is a course in "curing" accents.

By a new device an approaching train completes a circuit and thus swings a crossing light into a commanding position, rings a bell and displays a danger flag.

Minard's Liniment for insect bites.



Gum-Dipping

A Firestone Contribution to Economical Travel

The greatest enemy to tire life is not the chopped-up road, the broken pavement or the harsh grind of rough city streets—but heat, which is created by internal friction. Heat not only weakens the fabric, but also softens the the rubber and causes blowouts and tire failures.

Firestone chemists and engineers knew that if they could find a way to eliminate this destructive heat and internal friction, the mileage-giving qualities of tires would be greatly increased. Such a method was found and called "Gum-Dipping."

The Gum-Dipping process is one of Firestone's contributions to economical travel—in insulates and impregnates every fiber of every cord with rubber, reducing internal friction and at the same time binding the cords together by a stronger union of rubber, thus giving greater strength and flexibility to the tire.

Firestone dealers everywhere—familiar with Gum-Dipping and its advantages—will gladly explain how thousands of extra miles are built into Firestone tires by this exclusive method. Take advantage of the Gum-Dipping process to lower your tire costs this year.

Russia Preparing For War

Military Sports Advocated to Awaken Enthusiasm of Youth of Country

A campaign is on foot throughout the Soviet Union for the promotion of military preparedness in the face of recent developments, which are regarded as threats of war. The period from July 10 to July 17 was designated as "defense week," toward the success of which all efforts were directed.

Military sports are being strongly advocated as a means to awaken the enthusaism of the youth of the country and the heads of the unions are exhorting their members to rally around "Ossosviaket," Russia's greatest voluntary martial organization. The latter is headed by Alexis Likoff and War Commissar Voroshiloff, and its members are said to number millions.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Eclectric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

A Mammoth Whitefish

A whitefish weighing 12½ pounds dressed, was netted in Cedar Lake, east of The Pas, Manitoba, recently. The Pas Herald says this is probably the longest fish of the species ever taken in northern waters.

Corns cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

Modernizing The Arctic

icturesque Setting Fast Disappearing With Introduction of Modern Methods

Donald MacMillan, the explorer, hen he assembled his equipment at iscasset, Maine, for a new invaon of the Arctic, gave important ace to a combination motor truck id sled, which will doubtless asnish the Eskimos, even if it does t do all the other things expected it. The contraption has four terpillar wheels in the rear, and nners in front, burns gasoline, and s automobile steering gear. It is pected to replace the traditional g-drawn sleds.

Motorists who have endeavored to rt their cars after leaving them all night at twenty-five below o will doubtless concede that Maclan may have quite a chore on his ds when he tries to warm up his tor for an early morning start er a sixty-below night somewhere north of the late Mr. Baffin's yground. But if the motor sled s prove a success in the high laties then there will pass from Arcexploration one of the last vesps of romance. Take from the pice the shaggy malamute dog, ravusly exercising his fangs on ique fish and other frozen dain, and what is there left?

Vhen it is recalled, that both Byrd Amundsen, on their successful ar expeditions, ate well balanced ls pretty regularly, and sent in ir reports by radio, and that Maclan now purposes flivvering ough the frozen wastes, it seems hark back to the day when Old Cook said he found the North on foot, with the assistance of Eskimos and a pocketful of gum.—Regina Leader.

Profiting By Mistakes

Never regret a mistake or waste thinking about how sorry you you made one. Make a decision, act. If you are wrong, admit mistake or error; then go ahead do the right thing as you see it. er bluff or try to cover up your akes. Mistakes profit you if you t by them."

UN-DOWN AFTER BIRTH OF BABY

tawa Woman Made Strong by Taking Lydia E. Pinkham's Vegetable Compound

Ottawa, Ontario.—"I was terribly -down after the birth of my third y. I had awful bearing-down pains was afraid I had serious trouble. as tired all the time and had no etite. My sister-in-law is taking ia E. Pinkham's Vegetable Comnd and cannot praise it too highly asked me to try it. I have had ndid results and feel fine all the now. Any one who needs a ough pick-me-up soon learns n me what to take."—Mrs. RENE UIN, 312 Cumberland Street, Ota, Ontario.

Terrible Backache

amilton, Ont.—"After my baby born I had terrible backache and laches. I could not do my work and tired from the first minute I got But worst of all were the pains y sides when I moved about. I to sit or lie down for a while afards. I could keep my house in r, but many things had to go unat the time, because of my ailts. I was told by a neighbor to Lydia E. Pinkham's Vegetable pound, as she said it would build p. I was relieved before I had a the first we bought and have had any trouble like it since."—T. MARKLE, 60 Burton Street, ilton, Ontario.

Placing The Blame

Who Is Responsible For Devastation of Forests By Fire

Forest and Outdoor says: "One man is aroused because his hunting lodge and camping site is changed overnight from a place of beauty, the home of game and birds, to a desolate, barren, useless waste. He blames the careless fishermen who are responsible. Another approaches his summer home and must pass through miles of ugly blackened forest. He blames the thoughtless motorist who carelessly tosses his match on the right-of-way; and still another passes through a once thriving village where he was wont to obtain his food supplies; the mill is closed, the village deserted; he blames the careless camper who left his camp fire burning. Finally, he himself is blamed because he, too, one day knocked the heel of his pipe out against a rotting log, left smouldering embers which next day kindled and later destroyed a large pulp wood area.

"Is it always the other fellow?"

Where Cyclist Is Supreme

All Other Vehicles In Paris Must Give Him Right-of-Way

The bicycle is the favorite method of mechanical travel in Paris. Rich and poor use it as a healthful manner in transportation. Every park has its cycle path, invariably swarming with riders. The cyclist is supreme on the roadway. Taxis, autos and carriages must dodge him. To run down a cyclist is a serious offense and the penalty is almost a term in prison. The national bicycle cross country races in France excite as much interest as our championship baseball games. Priests ride ladies' safety bicycles to protect their flowing robes.

View Would Be Better

She was one of those women who spend hours in the shops, but never buy anything. Should an assistant approach her and enquire what she needed, she invariably replied:

"Oh, I'm merely looking!"

On this occasion she had been wandering round the big store, passing from counter to counter, turning over first this and then that, when an assistant asked her as usual:

"What can I get you, madam?"

"Oh, I'm merely looking!" came her prompt reply.

But this assistant was braver than the general kind, and he gently but firmly retorted:

"Madam, if you would take the lift to our roof garden, you'll see a great deal further."

Has Stringless Violin

Canon F. W. Gilpin rector of the parish of Faulkbourne, England, has a hobby—unique musical instruments. He has about 600 specimens from all corners of the earth. Oddest of all, perhaps, is a stringless violin. Another surprising musical instrument is what appears to be a large family Bible; when opened it shows a keyboard and a small set of pipes. On this organ the canon has played at mission services.

No Fee For Him

A spry gentleman of 65 and his sweetheart called on Justice of the Peace, Ben H. Fly, of Dallas, Tex., to perform a marriage ceremony. It was done and the pair turned to go.

"Just a minute," said the Justice. "I usually charge a small fee for a ceremony." "Fee?" repeated the newly-wed. "What for? Say, I've been married four times before this, and I ain't ever paid a fee yet." And with that they walked out.

The tomb of Virgil is to be purchased by the Italian Government.

Responsibility of Criminals

Defectives Must Bear the Responsibility For Their Crimes

No matter what account psychologists and pathologists may give of the propensity to commit crime, criminals must continue to be dealt with by the administration of justice. That a given vicious character is the descendant of a series of forebears most of whom have shown some mental or moral weakness does not lessen the obligation of the law-enforcement authorities to protect society from his dishonesty or violence. Alienists may come forward and testify in the case of a man convicted of a brutal crime that, though he was always regarded as mentally responsible, he is a defective, not capable of distinguishing between right and wrong in certain relations. Neither judge nor jury can pronounce upon the accuracy of such evidence. Nor are they called upon to do so. Their function is to see that justice is done, and to whatever hereditary taint or mental abnormality specialists may attribute the man's bent towards crime, he must not be allowed to remain at large. And, generally speaking, he must be treated as responsible for his crime and receive the punishment the law prescribes. The view expressed by the president of the International Anti-Crime Conference that has been meeting in Nelson, B.C., is that an overwhelming proportion of the crimes committed are the acts of persons who are not tools of uncontrolable impulse or without the power to refrain from crime. There is scarcely a criminal who is so wanting in mentality as to be without at least an instinct of self-preservation. Rarely are criminals so defective as to be unaware of the consequences of their act and indifferent as to whether or not they are found out. On the contrary, they usually do everything possible to turn suspicion away from them and to ensure their escape. The murderer seldom shows as little regard for his own life as for that of his victim. He uses all his wits to save himself from the gallows. The monster who is spoken of as the "gorilla man" may be what is called a moral imbecile, but he was cunning enough to contrive to escape detection and arrest until he had committed about twenty murders in the most atrocious manner. Will anybody say that because of some supposed mental incapacity psychiatrists may find in him, the worst of criminals should escape death at the hands of the hangman? Surely not.—Mail and Empire.

Court Travels By Airplane

Carried Law on Whirlwind Tour of Sixteen Hundred Miles

Flying justice has supplanted the traditional iron-fisted law of the Northland's gold hunters. The first Federal Court ever to penetrate the Arctic circle arrived at Wiseman, Alaska, by airplane from Fairbanks, completing in three hours a journey that would have taken a month by dog team.

District Judge Cecil H. Clegg, accompanied by the prosecuting attorney, United States marshal and the court stenographer, carried law on a whirlwind tour of 1,600 miles. From Wiseman they went to Ruby and thence back to Fairbanks, making in a few days a trip that would have have taken the better part of the summer if traversed over the snow-covered trails.

The aerial court was welcomed to this frontier town by the entire population of the Koyukuk district with dances of the Eskimo and the white men, staged in a pioneer igloo.

A greater curiosity than the flying justice were watermelons, cantaloupes and cherries, brought in the 'plane, luxuries never before seen in Wiseman.

The long distance record for carrying justice into the north was formerly held by Judge Clegg and Prosecuting Attorney E. B. Collins, who last winter spent several months travelling 1,400 miles by dog team from Fairbanks to hold court in Bethel.

Your Home Medicine Chest. — Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Eclectric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Eclectric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Canada has 50 million poultry, with an annual production value of $50,000,000.

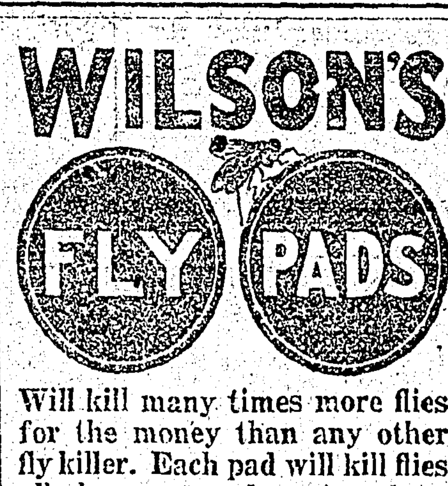
Mntreal shipped Canadian grain to 17 different countries in 1926.



Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Druggists and General Stores — 10c and 25c per package.

Millions of "Dead" Letters

Yearly Report Shows Necessity of Being Careful About Address

It will come as a surprise to most people, and as a shock to many, to learn from the Canadian Post Office Department that nearly 2,000,000 "dead" letters were handled by this department during last year. More than 1,000 of these letters were registered — and had a monetary value amounting to thousands of dollars. In fact, the sum of $19,450 was recovered by Postal authorities from this large quantity of undelivered mail. The number of such letters is far too great. While it will never be possible, perhaps, to completely eliminate all "dead" letters, they could be reduced to a negligible number through a little carefulness by the writers.

It is sheer carelessness on the part of the writer in addressing the envelope that is the primary reason for the majority of the 2,000,000 "deads." What a world of tragedy may lie behind this huge quantity of undelivered mail. Think of it. Two million persons in the world wondering why two million others "never replied to the letter I wrote." Hopes may have been blighted, hearts broken, fortunes lost. Who can tell how many tender outpourings of feminine hearts have been revealed to ruthless official searching in "dead" letters for a return address. The moral is clear; Make sure the address on all letters is correct, and heed the admonition of the Post Office Department to write a return address on the outside of all envelopes, you will be doing the officials a good turn and, incidentally, yourself.

Excited People Weigh More

Engineers Consider This When Erecting Grandstands for Crowds

Investigations that have been made into the stresses set up by the movements of crowds have shown that when a crowd is excited it weighs much more than when it is quietly seated, so far as pressure on the floor is concerned.

This fact has to be taken into consideration by engineers when they are building grandstands and tiers of seats.

During recent tests a man was placed on the platform of a scale in a sitting position, and was then told to get up. As he did so the scale showed that his weight, or rather the pressure on the platform, had increased by 67 per cent. In another test a man, getting up from a chair, added 79 per cent. to his weight, while when he rose suddenly from a couch and brought his arm down he momentarily exerted not only an added downward force, but a horizontal force, too. It can be understood, therefore, how necessary it is to allow for the excited movements of the spectators when building stands for football crowds.

Advance In Civil Aviation

Annual Report Shows Great Increase in Canada During 1926

There was a great increase in all branches of civil aviation in Canada during 1926, according to the annual report of the aero branch of the Department of National Defence, which says: "The number of flights made rose 50 per cent., while the flying time shows an increase of 43 per cent. over the previous year. The passenger, freight and mail traffic, the area recovered by reconnaissance, forest-type sketching and aerial photography, the personal employed and the number of aircraft registered all show a corresponding increase. The records of the year show that flying carried out for forest protection, survey, exploration, forest reconnaissance and transportation to the remoter parts of the country has passed beyond the pioneer stage and that, given efficient management and suitable types of aircraft, its extension in these fields will come naturally on an economic basis.

The poppy was taken to China and the Orient by the Arabs, who were clever physicians. The misuse of opium is believed to have started in India.

Canada's New Carillon

Is Considered Finest and Most Complete Ever Constructed

Canada's splendid new carillon, installed in the Memorial Tower of the Parliament Buildings in Ottawa, seems to have met the highest anticipations of the Government and added another laurel leaf to the crown earned by the famous foundry at Croydon, England. Both the thousands who heard the bells peal forth their joyous message at noon of Jubilee Day, and the millions to whom it came by radio throughout the length and breadth of the Dominion, were enthralled by the rich quality of the sound and amazed at the ability of the bells to reproduce every kind of music. This had been demonstrated in England at the recital given by M. Lefevere, the distinguished Belgian carilloneur, at the foundry. An account printed at the time stated that no less than 1,200 people visited the Croydon works to see the Canadian carillon, described as the finest and most complete ever constructed in the home of bell-ringing.

Ottawa has indeed been favored in becoming the possessor of a carillon unrivalled at the present time, and that will remain a perennial fountain of joy and inspiration to the people of today and to generations yet unborn. In England it was generally admitted that this latest production of a craftsmanship unequalled by any other country of the world is an instrument of great majesty and beauty. The carillon is, indeed, the greatest in the world, ranging from a ten-ton Bourdon, tuned as closely as possible to that of Big Ben at Westminster, to a treble only twelve pounds in weight, 53 separate bells in all. The demonstration in England revealed its ability to reproduce all kinds of music, classical and popular.—St. Thomas Times-Journal.

Puddings For Desert

Two Recipes That Have Been Found Unusually Delicious

There is one thing in favor of puddings for dessert that makes the dish a frequent selection, and that is that the average simple pudding can be used for the little ones as well as the adult members of the family. Here are two recipes that have been found unusually delicious, and yet are simple to prepare and economical:

Orange Bread Pudding

¾ cup Eagle Brand Condensed Milk.
2 cups hot water.
1 cup sifted soft bread crumbs.
2 egg yolks, slightly beaten.
1 tablespon melted butter.
Juice of three oranges.
Grated rind of one orange.
¼ teaspoon salt.

Add hot water to condensed milk, blend thoroughly, and bring to scalding point. Pour over bread crumbs; let stand until cool. Add egg yolks, salt, melted butter, orange juice and rind. Pour into a buttered pudding dish, set in a pan of hot water. Bake in a moderate oven about forty-five minutes. Cover with meringue of stiffly beaten egg whites and one-fourth cup sugar. Brown slightly in a moderat oven. Serve cold. If desired, the whole eggs may be added to pudding, the meringue omitted and the pudding served cold with cream.

Tapioca Cream Pudding

¾ cup Eagle Brand Condensed Milk.
2¼ cups hot water.
4 tablespoons quick-cooking tapioca.
¼ teaspoon salt.
2 eggs beaten separately.
1 tablespoon melted butter.
1 tablespoon vanilla or any preferred flavoring.

Dilute milk with hot water, blending well. Bring to scalding point in a double boiler. Stir in tapioca and cook about one-half hour. Add butter and salt to egg yolks. Pour over them gradually the hot tapioca, stirring constantly. Return to double boiler and cook three minutes longer. Pour slowly over the beaten egg whites, folding in gently; flavor and chill. Serve plain or with cream or fresh fruit sauce.

Vary cream tapioca pudding by arranging fresh or canned peaches, apricots, or sliced oranges in bottom of serving dish, pouring over the chilled tapioca cream.

An Unusual Dwelling

Two Old French Women Keep House in Discarded Boilers

In iron boilers from which the tubes have been worn out two aged women of Paris have lived for six years, keeping house in a primitive way. The boilers are about 8 feet long, 5 feet wide, but only 4 feet high. Stoves have been installed in them and boxes are cupboards. Food is obtained by a little foraging at the public markets. The women say they have no expenses, for they are old and expect their clothes to last as long as they live, with a little repairing, for which they have plenty of time.

A block of coal nine feet high and four feet square was recently shipped to Italy.

Diamonds were worn as jewels in India 5,000 years ago.

Little Helps For This Week

He that contemneth small things shall fail by little and little.—Eccles. xix. 1.

Despise not little sins;
The gallant ship may sink
Though only drop by drop
The watery tide it drink.
—Richard Chenevix Trench.

The sins by which God's spirit is ordinarily grieved are the sins of small things,—laxities in keeping the temper, slight neglect of duty, lightness, sharpness of dealing. If it is your habit to walk with God in the humblest occupations of your day, it is very nearly certain that you will be filled with the Spirit always.
—Horace Bushnell.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands of Mothers Say of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancook Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past twenty years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Estevan Briquetting Plant

Five units of the Estevan Briquetting Plant turning out 750,000 tons of fuel annually is the objective of the new company which has taken over operations at Estevan, according to G. F. Sheehan, of Seattle, inventor of the process now being installed. One unit, turning out 20 tons an hour, for 24 hours of the day, will be in operation by December 1st, he said. E. A. Hartley, of Seattle, is president of the new company.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy — Mother Graves' Worm Exterminator.

An enamel for wood and metal has been made from a solution developed from cotton, which is hard, durable and waterproof.

Minard's Liniment for warts and Pimples.

Colors of every tone and shade, numbering 1400, compiled from productions of dye makers, are displayed in an index recently issued.

Proposed Coast-Kootenay Telephone Line

The opening for commercial use of a long distance telephone service between Penticton and Vancouver foreshadows future development of an important character in this district.

It is currently reported that the B.C. Telephone Company, which now operates at the Coast and in the Kootenays, is anxious to extend its lines so as to give, in the near future, a B.C. service between Vancouver and Nelson and eventually form a link to Calgary in an all-Canadian phone route across the continent.

The existing commercial service between Vancouver and Penticton is carried on the B.C. Telephone Company's copper circuit to Kamloops. These wires are on the C.P.R. poles. From Kamloops the government iron circuit is used to Vernon, and from Vernon to Penticton the copper circuit of the Okanagan Telephone Company is utilized.

From the Kootenays the B.C. Telephone Company has extended its lines west as far as Bridesville. The understanding in telephones circles is that, in order to link up the Kootenays and the Coast, B.C. Telephone interests may put up a new line of copper wire from Hope eastwards along the Kettle Valley Railway poles to Princeton, thence down the Similkameen and through the Okanagan at Fairview and Oliver up to Camp McKinney and Bridesville. Presumably poles of the West Kootenay Power Company would be used in the Okanagan. Another suggested route is to continue the present line of the company from Kamloops to Vernon either on the C.N.R. poles through Grande Prairie or along the C.P.R. to Salmon Arm and over the hill to Enderby, thence down to Vernon on C.P.R. poles. From Penticton south the new government circuit to Oliver would be utilized, with construction from there to Bridesville.

While these proposals will not come into effect at once, it is generally accepted as a fact that the B.C. Telephone Company will create a through trunk line from the Coast to the Kootenays and eastward just as quickly as possible. The Okanagan Telephone Company's modern equipment would be utilized for the Okanagan section in the event of a through line coming east via Kamloops, otherwise the Okanagan and Kamloops district would feed into the through line. At all events the creation of this cross-B.C. system will mean a considerable improvement in telephone facilities between all points of the southern interior and the Coast cities.—Penticton Herald.

Beaverdell Briefs

Mrs. R. L. Clothier and children of Victoria, are spending the holidays at the Beaver mine.

Mrs. Paul Bongalis has arrived from Penticton and will make her home here in the future.

Mrs. Edw. Nordman left on Tuesday for her home in Nelson after a couple of weeks in camp.

Mrs. Chas. Nelson left on Monday to spend some time visiting friends in Greenwood while Mr. Nelson is on a business trip to the Coast.

People of the district are glad to know some work is going to be done on the road down the Valley. It is now in a very dangerous state as the brush has grown right over the road in many places, making it impossible to see ahead at all.

Mr. and Mrs. George Burns have arrived from Kimberley and have purchased the former McPhee house, where they intend to make their home. Mr. and Mrs. Burns resided here some years ago and their many friends are glad to see them back.

A fine new strike has been made at the Gold Drop mine and the company hopes to be able to ship as soon as they can get a road in to this claim. The Gold Drop is being operated by the Killarney Syndicate, of Vancouver, with Wm. McIntominey in charge.

The Hotel de Grubb in Oroville is now known as the Peerless Hotel

Game Regulations

The dates for open seasons for all game and fur-bearing animals in British Columbia this year were announced recently after Game Board recommendations had been approved by the cabinet.

Few changes from the seasons of last year are ordered, the chief being the complete protection afforded grouse along the Prince Rupert line of the Canadian National Railways, where these birds have become depleted. The new regulations supplement the seasons for big game fixed some time ago.

As announced before, the province is devided into two districts only this year for game purposes, the Western district including all territory west of the Cascade Mountains and south of the Electoral district of Atlin, and the Eastern district including the remainder of the province.

The only exception is that for migratory bird seasons in that portion of the Lillooet electoral district to the east of a line drawn north and south of Alta Lake railway station will be considered within the Eastern district.

In the Eastern district the deer season will be from September 1st to December 15th, inclusive, bucks, (two only) being shot. This open season will not apply to white tail deer in North and South Okanagan, Similkameen and Grand Forks - Greenwood, west of the summit of Midway Mountain.

All fur-bearing animals, except beaver and muskrats, will be open for trapping from November 15th to April 30th, 1928, inclusive, in the Eastern district.

Muskrats and beaver will be open from March 15th, 1928, to April 30th 1928, in the Eastern district.

Ducks, except wood and eider, Wilson snipe, coots, geese and brant, will be open throughout the Eastern district from September 15th to December 31st.

Blue grouse only will be open in that portion of the Eastern district including Grand Forks - Greenwood riding and that part of Similkameen east of Allison Creek, South Similkameen River and the Pasayton River from September 15th to October 15th, inclusive. Blue and willow grouse and ptarmigan may be shot in the Cariboo from September 1st to November 15th, and in the remainder of the Eastern district, except Omineca, Fort George, Skeena, Atlin, North and South Okanagan from September 15th to October 15th, inclusive.

Quail may be killed in Similkameen and South Okanagan from October 15th to November 15th.

Cock pheasants may be open in South Okanagan and in Similkameen east of Allison Creek, the South Similkameen River and Pasayton River, and in North Okanagan except east of Coldstream Municipality and in Salmon Arm Municipality from October 15th to November 15th. It is provided further that cocks may be shot in that part of the Okanagan comprising the territory lying within the drainage area of Duteau, Harris and Bessette Creeks and bounded on the north by the Creighton Valley Vernon Road, on the west by Coldstream Municipality and on the south by the boundary of the Electoral district from October 15th to October 31st.

European partridges may be shot in Similkameen and North and South Okanagan from October 15th to November 15th, and in Salmon Arm Municipality from November 1st to November 31st.

NOTICE

UNDER and by virtue of the powers contained in a certain chattel mortgage which will be produced at the time of sale, I hereby call for tenders for the purchase of the following property situate on Lot 2527, Group 1, Similkameen Division of Yale District, known as the "Rock Creek" Mineral Claim, namely:—

The whole of the Portable Saw-mill, machinery and outfit now standing or being or lately standing or being on said Lot 2527, and all other the goods and chattels of whatsoever kind and nature which are the property of Joseph Peter Keane, now in, upon, or around and about the premises above described.

Terms:—10% of the purchase money to be paid down at time of sale, balance to be arranged by monthly instalments.

For further particulars and conditions of sale apply to

MORRIS C. JEWELL,
Bailiff.

Dated at Rock Creek, B.C., the 13th day of July, A.D., 1927.

MINERAL ACT

Certificate of Improvements.

NOTICE

ACME MINERAL CLAIM

Situate in the Greenwood Mining Division of Yale District.
Where located: Near Bridesville.

TAKE NOTICE that I, C. A.E. Shaw, agent for Joseph Pringle, Free Miner's Certificate No. 335D, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 4th day of June, 1927.

Here and There

Canada's net debt was reduced by $42,000,000 during the past fiscal year, a reduction in the national debt larger than any in its history.

"The Royal York" is the name chosen by President Beatty for the new Canadian Pacific hotel to be erected at Toronto. It associates the new hotel with the early history of that city.

Canadian Pacific Railway engineers, now busy with their preliminary survey of the projected railway to Chicoutimi and the Lake St. John district, are at present studying the question of a terminus site.

An aviation field available to commercial flying is to be prepared at Lethbridge, Alberta. The new field, which will be wide enough to allow ten planes to lie abreast, will also be used for aerial mail service.

A large party of professional men will leave for a tour of the west over Canadian Pacific lines, on the third annual tour conducted under the auspices of the University of Montreal. The party will spend about two weeks in the Rockies.

The second regular journey to Canada of the Canadian Pacific steamship "Empress of Australia," will be distinguished by the presence on board of that ship of the Prince of Wales and Premier Stanley Baldwin, of Great Britain.

Col. J. S. Dennis, chief commissioner of the Department of Colonization and Development, Canadian Pacific Railway, predicts a much larger immigration movement to Canada this year than last. He explained that the reported congestion of farm workers in the western towns was transient and not likely to recur.

What is said to be the first instance of Canadian-made machinery being shipped out of Canada into the States — manufactured in Canada to American order — is that of nine large wood pulp grinders, of an output of 100 tons of pulp a day, now ready at the plant of the Port Arthur Shipbuilding Co. for consignment to the St. Regis Co., Watertown, New York.

Excellent progress is being made with the branch-line programme projected by the Canadian Pacific Railway for the three Prairie Provinces this season, according to D. C. Coleman, vice-president in charge of western lines. The work of construction, he said, is progressing rapidly and every effort is being made to have the new lines in operation by the time the fall crop movement begins. Keeping pace with the rising tide of land settlement the company expects to open the line from Lloydminster to Clan Donald on July 15. This branch is of particular interest as it serves the colony of Hebrideans located in the Clan Donald district. These settlers are doing remarkably well and have forty per cent. of their land broken.

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1926

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,557; Coal and Coke, $284,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1926 show an

Aggregate Value of $988,108,470

Production for the year ending December, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing:

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia.

N. B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering each of the Six Mineral Survey Districts are published separately, and are available on application.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning reulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, toria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre. Further information regarding purchase or lease of Crown Lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled, and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority given to established owners. Stock owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.
