Jackie Coogan in "Old Clothes"

The love of an old son of Abraham for a young son of Erin and the love of both of them for a lovely girl is the essence of the story of "Old Clothes," Jackie Coogan's new Metro-Goldwyn production, which comes to the Greenwood Theatre on Saturday, July 16th. With each succeeding release, Jackie Coogan unfolds a new side of his genius, and unless you see the youthful star in "Old Clothes" you have never seen the real Jackie Coogan. Jackie is ably assisted in this homely and human story by Max Davidson, Lillian Elliott, Alan Forrest, James Mason, and Williard Mack wrote the story especially for Jackie.

There are some good work horses for sale at the Martin Auction on Saturday at Kettle Valley.

Of Local Interest

Edward Johnson left on Monday for Trail.

A. W. McDonald, of Trail, spent Monday with his family in town.

Samuel Johnston, of the Balmoral Castle, Rock Creek, is in town today.

Mrs. Wren, of San Francisco, Cal., is the guest of Mr. and Mrs. A. Sater.

Mrs. W. H. N. Glossop and children, of Vancouver, are visiting at Kettle Valley.

Dr. C. M. Kingston of Grand Forks, was in town on professional business on Sunday.

George Hallett, of Victoria, is spending his vacation with his mother, Mrs. Ellen Hallett.

John Campolieto left on Sunday for South Slocan. He is now visiting relatives in Nelson.

W. Watkins, who has been relieving-agent at the C.P.R. depot, left on Wednesday for Tadanac.

You might save the expenditure of some dollars by attending the Martin Auction on Saturday.

Master Donald Smith is visiting his grandparents, Mr. and Mrs. G. A. Smith, in Grand Forks.

Mr. and Mrs. D. J. McDonald, of the No. 7 Road, are on a visit to T. N. Walker at Kettle Valley.

Mrs. J. W. Clark and son, Burton, were passengers on Saturday's train en route to Trail from Vancouver.

Mr. and Mrs. J. Muir and daughter, Dorothy, of Grand Forks, were visitors in town on Wednesday evening.

Mr. Noble, of Spokane, left on Sunday for his home after a few days spent at the Spotted Horse mine.

Miss Gladys Alty, of Trail, is spending a holiday in town the guest of her uncle and aunt, Mr. and Mrs. Wm. Walmsley.

Greenwood school children who have not received a Confederation medal can have same at The Greenwood Ledge office.

Anyone wishing to secure some farm machinery at reasonable prices should attend the Martin Auction at Kettle Valley on Saturday.

Major and Mrs. R. Gray, of Kettle Valley, accompanied by Mrs. Ames and children, of Vancouver, were visitors in town on Tuesday.

Rev. Father Coccola has decided to take up permanent residence in France where he went on a holiday, about a month ago. He has sent in his resignation and has been succeeded by Rev. Father A. L. McIntyre of Slocan, who will be in charge of the Grand Forks and Greenwood parishes. Rev. Father W. Berntsen, recently from Vancouver, who has been appointed temporarily in charge, has been appointed permanently to the charge at Armstrong.

A very pleasant afternoon was spent at the home of Mrs. M. Axam by some of the young people in honor of Miss Ruby Goodeve. Those present were the Misses Ruby Goodeve, Silvia Price, Caroline Casselman, Annie Casselman, Cecilia Hallstrom, Vera Walmsley, and Julia Rousier. The afternoon was passed in games and two guessing contests. Miss Price winning one prize and Miss Caroline Casselman the other. A very refreshing tea was served after which some beautiful gifts were presented to the bride to be.

The New Proprietor Renovates Pacific Hotel

In recent issues the editor has had the pleasure of making comment on the increased activity and improvements in the city and one of the most prominent and outstanding of these features is the Pacific Hotel.

In April of this year Mr. J. H. (Doc) Goodeve assumed the management and ownership of this old-established hostelry and the favorably comments then heard on all sides that the right party had taken hold of this place have been more than justified up to date and this paper is only voicing the wishes of the community in hoping that a substantial return will accrue to the genial proprietor for the trouble and expense incurred by him in renovating and improving this hotel, which can now lay claim for service and accommodation superior to anything in the district.

Structural alterations have provided a commodious office, the large bar-room has been transformed into a splendidly-appointed drug store with ice-cream service installed at the rear, the former sitting-room is now a snug lounge and pool-room, while the dining room and lunch counter remain as before. Upstairs a ladies rest-room is provided, and bedrooms re-furnished and re-decorated. Excellent cooking and meals service at moderate prices are one of the chief features and the personal attention shown to guests in the house is easily judged by hearing the opinions of many who have had occasion to stay there. The re-painting of the entire front of the building gives a pleasing and outstanding effect and the interior lighting will always call attention of night travellers.

Mr. Goodeve is making application for recognition by the Automobile Club of British Columbia and the American Automobile Association which will mean that information in the form of pamphlets and road maps will be available for tourists.

It is indeed a pleasure for the writer to observe how popular the Pacific Hotel is becoming and it is fairly safe to say that anyone coming into town can be located there if enquired for. The local business men can be noticed keeping appointments there with travellers and old-time residents as well as people from the immediate district already figure the hotel as their headquarters.

Messrs. McDougall and Michener were the contractors for building alterations, painting and decorations and the Restmore Manufacturing Company, of Vancouver, through their local agents, T. M. Gulley & Co., supplied the new bedding and some of the furnishings.

A Substantial Donation

The Directors of the Greenwood & District Hospital beg to acknowledge with sincere thanks the handsome contribution of $172.45 from the District Jubilee Celebration Committee. This amount was the balance left after paying all expenses of the Ingram Bridge July 1st Celebration, including the Sports, Horse races, Baseball game and the Dance in the evening. The Committee are to be congratulated on such excellent results, both on the success of the day's Celebration as also the financial returns.

The subscription list todate follows:

Previously acknowledged	$2650.85
Jubilee Celebration Committee	172.45
J. N. P.	2.00
Total	$3025.30

CHARLES KING, Sec.-Treas.

E. G. Berg returned last week from Slocan City. While working in a loging camp there Mr. Berg cut his foot and had to lay off from work.

Mrs. MacDougall and son, Francis, and Mrs. Roy Conner left for their respective homes on Saturday after a stay with Mr. and Mrs. W. B. Stewart.

A. J. Morrison was in town on Wednesday, returning in the afternoon to the Wellington mine, Beaverdell, accompanied by Mrs. Morrison and three children, who will spend the balance of the holidays there.

C. F. R. Pincott, barrister, is taking part in the tennis tournament at Kelowna this week. Mr. Pincott's son, Keith, who was successful in his exams in Vancouver, has returned to Grand Forks and will be in charge of the Greenwood office on Friday.

Mr. and Mrs. Wm. Walmsley and family have returned from a motor holiday, getting as far as Banff where Mrs. Walmsley received the sad news of the death of her father. They came back to Trail where they attended the funeral on Friday, July 8th.

Mr. and Mrs. John Hallstrom and family returned last week from a motor trip to the coast. Miss Cicilia Hallstrom who has been attending high school in North Vancouver returned with them.

Mrs. B. Lequime, of Christina Lake, was unfortunate enough to have her arm broken, once again, in a car accident both she and her husband were in coming to Grand Forks on the Cascade road on Monday, July 4th. Mr. Lequime was badly shaken up and suffered from shock while Mrs. Lequime is in the Grand Forks Hospital. The car which ran into them kept on its way and has not been apprehended.

You will require some machinery to harvest your crop this fall. Attend the Kettle Valley Martin Auction you might get just what you want at a reasonable price. The date is Saturday.

Operations Resumed at Spotted Horse

C. E. Bartholomew, of Spokane, Wash., and grandson, P. M. C. Van Dissel, Jr., of Springdale, Wash., arrived in town last week, and have taken up residence.

Mr. Bartholomew as president and manager of the Jubilee Mining Co., Ltd., has taken over this mine from the Silver Charm Milling & Mining Co., of Seattle, Wash., who had a lease and bond on the property. He has moved the car and track from the upper to lower workings and will extend this tunnel 100 feet, and at the same time will clear the ground at the portal for a 2-drill compressor. Mr. Bartholomew expects to work this property continuously.

Mr. Bartholomew has unbounded faith in this mine and with proper development he hopes to put it on a paying basis. His many friends here wish him success in this mining venture.

Mining Notes

Jim Graham left on Monday for Lightning Peak where he will do some work on his mineral claims.

Dr. and Mrs. W. J. Cress, of Deer Park, Wash., and Mrs. P. M. C. Van Dissel, of Springdale, Wash., were in town on Wednesday inspecting the Spotted Horse mine. They are shareholders in this property and were well pleased with the showings at the mine.

R. B. Shelledy, Mining Engineer for the Consolidated Mining & Smelting Company, of Trail, recently spent two days examining the Greyhound, Pluto and Ah There in Deadwood Camp. This examination was made at the request of Geo. S. Walters, who has an interest in these claims along with Geo. E. Hambly and Scott McRae.

Prospector Still Missing

Boundary Creek was thoroughly searched on the 10th inst. for the body of Theodore Witte, who is supposed to have fallen off a log while crossing that stream near the rock bluff on the Midway road a few weeks ago.

Members of the I.O.O.F. Lodge of Grand Forks, R. D. Kerr, of Midway, and others patroled the stream on that day without result.

The only clue pointing to drowning was the finding of the lost man's hat and purse containing about $20. These articles were found in the creek shortly after Mr. Witte was reported missing.

Celebration Balance Sheet

The following Balance Sheet has been sent in by Major R. Gray, of Kettle Valley, Sec.-Treas., of the District Jubilee Celebration Committee:

Receipts

Subscriptions	$143.00
Dance	130.00
Tags	78.80
Total	$351.80

Expenditure

Sports Prizes	$107.00
Dance Orchestra	40.00
Printing	8.00
Track Expenses	24.35
Balance	172.45
Total	$351.80

District Donations

Midway	$ 40.50
Myncaster	5.00
Westbridge	20.00
Kettle Valley	23.00
Rock Women's Institute	10.00
Greenwood	39.50
Riverside	5.00
Total	$143.00

The Masonic Dance Hall was donated for the Dance by the Greenwood Masonic Lodge, and the electric light by the City of Greenwood.

To Sing in United Church

Mrs. Nellie Wren, of San Francisco, Cal., who sings with the National Broadcasting Co. (Orange Net-work) will sing in the United Church, Greenwood, on Sunday evening.

Beaverdell Briefs

Lee Evans has arrived from Spokane and is working on his claim up Beaver Creek.

Bert McLean left on Saturday for Nelson where he will reside with his parents.

The Bounty claim is looking exceptionally good these days, a fine new strike being made within the past day or two.

Martin Crowe has arrived from Silverton to spend the balance of the holidays.

Mr. and Mrs. E. Cousins have returned from a ten day holiday spent at Peachland.

George Grant, of Seattle, Wash., is in camp again looking over some claims on Wallace Mountain.

Mr. and Mrs. Mickey Argue, and son, Jimmy, of Cranbrok, are the guests of Mr. and Mrs. C. E. Nordman at the Sally mine.

Mr. McAlpine and his crew are in town again to finish the bridge work which they had to stop about six weeks ago on account of high water.

RED ROSE TEA "is good tea"

You must try RED ROSE ORANGE PEKOE. A little higher price than other teas, but a real difference in quality. Now packed in *Aluminum.*

The Message Of The Bells

Canada, which in its sixty years as a confederated Dominion, has established more than one world record of worthy achievement, placed another to its credit on the anniversary of its Diamond Jubilee when, through the greatest linking up of radio broadcasting stations ever attempted, the ceremonies at the national capital were thrown into the air and carried to the uttermost parts of the Dominion, and listened to by hundreds of thousands of people from Prince Edward Island to British Columbia.

The achievement was not only spectacular but well worth-while. Direct from the Houses of Parliament, over a network of telegraph and telephone wires, to a total of twenty-three broadcasing stations, the messages of His Majesty the King and the nation's leaders were carried, interspersed with the singing of patriotic songs by great choirs, and the thrilling tones of the bells of the wonderful carillon installed in the Victory Tower at Ottawa.

For the moment the farthest east and the farthest west, and all the intervening territory, was in instant and common communion. Distance was annihilated, geographical barriers rendered of no account. The heart throbs of the nation, sounded in the national capital, were heard and felt throughout the length and breadth of the land. It was a union in spirit and sentiment, as well as in fact, undreamed of by the Fathers of Confederation.

Amazing as an engineering feat, it was still more wonderful as a demonstration of the national unity of the Canadian people. It was an unanswerable reply to all those doubting souls who have declared that, with its complexity of racial, religious geographical and economic problems, Canada could never become a united people. Canadians everywhere felt a thrill of national pride as they listened to the message of the bells from their national capital.

The message of the bells was, however, not for Canada alone, but for the whole world. The inscription on the largest bell reads: "This carillon was installed by authority of Parliament to commemorate the Peace of 1918, and to keep in remembrance the service and sacrifice of Canada in the Great War," while around the rim of the bell are the words: "Glory to God in the Highest and on Earth Peace, Goodwill toward men."

In the Great War, Canada fought not for herself alone, but for all the world, for the maintenance of civilization and liberty everywhere, for justice and the right. In the great Victory Tower from which the bells ring out their message is located the Peace Memorial Chamber wherein on an altar rests the Book of Remembrance containing the names of the more than sixty thousand Canadian soldiers who made the supreme sacrifice for Canada and the world. It is a great monument, not to war, but to peace.

In his beautiful description of the Tower, the Memorial Chamber, and the Carillon, Premier Mackenzie King emphasized the idea underlying it all, and in his concluding words, after referring to the Angel's song to the shepherds: "Glory to God in the Highest and on Earth Peace, Goodwill toward men." he said: "Back to the skies it returns at noon today, not the echo of a mystical strain heard on a Judean moor, but the voice of a nation in thanksgiving and praise which will sound over land and sea to the uttermost parts of the earth."

That is the Message of the Bells.—a message from this young, virile Dominion to all lands and all peoples, a message of Peace and Goodwill.

That is the Message of the Bells,—a message rung out from their national capital to the people of Canada, a message calling them to continued patriotic service to a Canada at peace at home and with the world, a message urging the cultivation of a spirit of goodwill to all, a message from the bells in which let it be hoped, all old suspicions, rancors, and feelings of ill-will will be silenced and all racial, religious and political frictions drowned.

That is the Message of the Bells,—a message to all who make Canada their home, irrespective of the land of their birth, to render deep devotion, patriotic service and, when needed, self-sacrifice to the Dominion, to show goodwill each to his neighbor, to co-operate together for the common good and the future peace, progress and prosperity of Canada.

Town Runs On Radio Time

All clocks in Nymboida, Australia, are now set according to radio time. The local schoolmaster gets it through the school receiving set as it is given every hour by a general broadcasting company. He then rings the school bell, the classes are started on radio time, and the townspeople regulate their clocks according to the bell.

Aviation Field For Lethbridge

Lethbridge is to have an aviation field available to commercial flying and aerial mail. The site is in North Lethbridge south of the standpipe and is sufficiently broad to allow of ten aeroplanes lying abreast. The location of air harbors follows the Federal Government's encouragement of aerial navigation for commercial purposes.

Canada's Telegraph Lines

Canada's first telegraph line was erected in 1846-7 between Toronto, Hamilton, St. Catharines and Niagara. Today there 284,000 miles of telegraph wire in Canada. They handle over 15,000,000 messages, from which the revenue is over 11 million dollars. In addition, six transoceanic cables have a terminus in Canada, and handle nearly 6,000,000 cablegrams annually.

Lotus seeds, believed to have been buried under layers of peat more than 500 years in Manchuria, have been made to grow in a laboratory.

Even the man most anxious to please can no longer say that a woman's clothes suit her down to the ground.

Children Cry for

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Chas. H. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

Scarcity Of Beef Cattle

Reported That There will Be a Cattle Shortage in Saskatchewan This Year

A scarcity of beef cattle is likely in Saskatchewan this year, the experts say. The United Farmers of Ontario are reported in the market for a thousand carloads, as compared with 200 last year, and the opinion of cattle men is that Saskatchewan may not be able to furnish even the small consignment sent out last year. Up to the end of April Canada exported 8,000 head of cattle to Great Britain, compared with 29,000 last year, while hog shipments to the United States for the same four months are 106,000 compared with 3,364 for the same period last year.

Agony of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of Lumbago, and the tormenting aches of Rheumatism, no liniment is so efficient, so quick to bring comfort and relief as good old "Nerviline." This wonderful liniment penetrates through the tissues very quickly, sinks at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nerviline, the King of Pain destroyers. Get Nerviline today, 35c. at all dealers.

Historic Relic Found

Ottawa Woman Has Bagpipes Played At Cullodeen Moor

The historic bagpipes that piped for the lost cause at Cullodeen Moor when the defeated forces of "Bonnie Prince Charlie" were rallied by its strains have been located in Ottawa. Their present owner, Miss Francis Nolan, has already refused an offer of $4,000 for them from a Scottish museum. The piper were last used when the late John Brown, descendant of the John Brown who played them at Culloden Moor, piped a tune when King Edward VII. then Prince of Wales, laid the cornerstone of the old Parliament Buildings at Ottawa.

THIN, WATERY BLOOD ALWAYS DANGEROUS

If Not Corrected Serious Results Sure to Follow

In no trouble is delay or neglect more dangerous than in anaemia—thin, watery blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before the trouble is recognized.

But taken in time the tonic treatment through the use of Dr. Williams' Pink Pills, so enriches the blood that good health and strength is speedily regained. The correction of anaemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. Miss Teresa Healey, Dunraven, Que., is one of the many anaemic sufferers who has found new health through the use of this medicine. She says:—"I cannot express too warmly my thanks for what Dr. Williams' Pink Pills have done for me. I was suffering from a badly run-down condition. I was very nervous, had little desire for food, and would feel tired out at the least exertion. In this condition I began taking Dr. Williams' Pink Pills, and before using them very long found my health gradually improving, and under their continued use was completely restored. For this reason I earnestly advise all weak girls to take these pills, feeling sure that they will do for others what they did for me."

Send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., and they will mail you free a useful little book on "Building Up the Blood." The pills can be obtained through any druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To Conduct Geological Survey By Airplane

Research Work In Saskatchewan Will Occupy Three Years

Aeroplanes and seaplanes are being employed in a three-year geological survey of Saskatchewan. It is known that the province, particularly to the north, contains vast undeveloped mineral wealth, and research will be concentrated upon that region. The machines draw supplies of gasoline and oil from convenient centres, and the airmen, as a preliminary, make maps of little known or unknown territory. These maps are handed over to geologists, working in consultation with the airmen, and in turn the geologists are followed by expert prospectors. When the work is completed, the authorities will, for the first time, be in possession of authentic maps of Saskatchewan's northernmost reaches.

In a Missouri town of 1,800 there are 25 couples who have celebrated their golden wedding anniversaries, while four couples have been married 60 years or more.

Canada Colonization Association

Col. J. S. Dennis Tells of Work Being Carried On

Col. J. S. Dennis, Commissioner of the Department of Colonization and Development, Canadian Pacific Railway, gave a very interesting address at Winnipeg recently, in which he outlined the work that is being carried on by this organization. He produced figures showing that a vast amount of work has been accomplished since the inception of the undertaking in 1919. The total value of the land and equipment colonized to date amounts to approximately $20,000,000, of that amount $16,000,000 represents the land, $3,000,000 is represented by chattels, and $1,000,000 additional buildings provided by the land owner.

"We have spent a considerable time to endeavor to find out what was the actual value of an agricultural family to Canada," said Col. Dennis, "and we are able to show from government returns that the value of a family, consisting of five, to the mercantile and industrial life of Canada amounted to $1,583 per annum, that is covering a budget of what they need in the way of clothing, shoes, etc. We also went to some trouble to find out what a family of the same size is worth to a transportation company, and we ascertained that a family of five adjacent to a railway, whose budget was the amount I have mentioned amounted to $716 per annum in transportation.

"It is a matter of simple figuring and does not need any mathematician to make it perfectly clear to the business interests of Canada what the results will ultimately be if we increase the movement of our agricultural families from the small numbers we are now able to get to a wide margin. The smaller places particularly in the West have a big interest in this, because every 10 families mean to the merchants in that town $15,000 per annum for supplies which the merchant furnishes. The question of what it means to the transportation companies appeals very strongly to the executive of both railways, because we have these two companies recruiting the people that we can absorb, placing them on the land, and giving them attention after we get them here. These departments are costing the railways large sums of money, and I do not think it is unfair to say that the people of Canada as a whole do not appreciate what this means to them in immediate returns. It is true we obtain the benefit derived from the transportation of these people, but this is a small item compared to the benefit to Canada generally.

"We have compiled figures, which show that the C.P.R. expended $70,000,000 in colonization and development of Western Canada, and that sum is in excess of the total sum which has been expended by the Dominion Government and further considerable expenditures are being made in a direct effort to speed up the movement of desirable colonists to Canada for developing the unproductive land, of which a very considerable proportion will bring no direct returns to the Canadian Pacific Railway.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

India Provides Remedy

Oils Extracted From Tree Seeds Used In Treatment of Leprosy

It is a notable fact, says an article in the Times of India, that India, which is believed to contain one-fourth of the leper population of the world, also provides the material from which has been derived the most potent remedy for that fearful disease.

It is simply another proof of the wisdom of nature in placing a remedy contiguous to every disease. It is from the seeds of trees growing in Assam and in South India that the oils are extracted, from injecting solutions of which Sir Leonard Rogers proved that the disease could be most successfully attacked.

Thirty-five Years Making Toy

After 35 years' effort, Charles W. Aldridge, of Battersea, England, has just completed a doll's house in a match box. The house contains four rooms, and is perfect in every detail even to shelves, pictures on the walls and coverings for the tables. A tiny doll is mistress of the diminutive home.

Bacteria taken from a Roman vault that had been closed for 1,800 years are said to be found to be perfectly capable of germination.

Large amounts of piling in the harbors of both the Atlantic and Pacific coasts are ruined each year by wood borers.

W. N. U. 1689

There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until required in another room.

The right way to use Wilson's Fly Pads

London's Tribute to Canada

Daily Mail Says Dominion Is "Nation With a Noble Soul"

Under the caption of "A Nation With a Noble Soul," The Daily Mail's chief editorial referring recently to the Confederation Jubilee celebrations in Canada said: "The only misfortune from the British standpoint is that owing to the combined influence of the dole and low birth rate in Great Britain, the British proportion of immigrants seems destined to decline.

"It was never true that the happiest states are those which have no history and in the last 30 years the Dominion has helped to make history, and has influenced world events. Her statements originated the idea of Imperial preference which will be certain of realization hereafter when the British people discover the peril of one-sided free trade.

"The Canadian monument at Vimy Ridge will remind men for centuries of what Canada did in the Great War and how, in the hour of battle and sudden death, she was not unfaithful to the call of honor and love.

"The Dominion today has given proof that she sets the ideal above the material and is a nation with a noble soul."

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated with with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

Simplified Spelling

As a result of 30 years' effort by the simplified spelling board of America 12 of the 30,000 respelled words contained in the handbook of this society have been entered in some English dictionaries. They are: tho, altho, thru, thruout, thoro, thorofare, thoroly, program, catalog, decalog, pedagog and prolog.

Minard's Liniment for warts and Pimples.

The gslago, or flying lemur, a native of Indian archipelago, is said to be the champion jumper of animals, clearing about 300 feet on an inclined plane.

Canada's Greatest National Romance

Old Pioneering Miner Discovered Placer Gold in Klondyke

The discovery of placer gold in the closing years of the last century, on the Klondyke River, a tributary of the mighty Yukon, was Canada's greatest national romance.

The credit for the Yukon's discovery is now generally given to Robert Henderson, an old pioneering miner, although Cormack, who was luckier than Henderson insomuch as he made a fortune, whereas Henderson did not, is sometimes mistakenly mentioned as the discoverer.

The news of the discovery of June, 1896, filtered out to the world, and in 1897 the rush started. Some tried to reach the new camp overland from Saskatchewan and Alberta, and, decimated in numbers and shattered in health, reached the northland after a year of hardships. Others proceeded from Seattle and Vancouver fifteen hundred miles up the Pacific to Dyea and Skagway, crossed the Chilcott Ranges on foot and floated five hundred miles down the Yukon on improvised boats and rafts.

Canada has reason to be proud of her Yukon administration. The Royal Northwest Mounted Police, as the force was then called, was early on the scene and policed the country in a manner that gave safety and stability to the new camps.

One of Richest Nations

Since 1913 Canadians have increased their holdings of their own Government and municipal bonds by over $2,583,000,000 or sevenfold. Canada's per capita wealth is now exceeded only by that of the United States and Great Britain.

Minard's Liniment for Insect bites.

Trees That Attract Lightning

Pine, oak and spruce are the trees most subject to lightning stroke, while beech is nearly immune, according to a European survey. In the American West, 72 per cent. of the trees hit are western yellow pine and Douglas fir.

Reuben—"I hain't kissin' 'e."

Ruth—"Oh well, I thought I'd tell 'e in case."

Genuine BAYER ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe — Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Have You Blemishes or A Clear Smooth Skin?

If you wish a skin clear of blemishes and other annoying eruptions begin to-day the regular use of **Cuticura Soap**, assisted by **Cuticura Ointment.** No other method is so agreeable, so often effective and so economical.

Sample Each Free by Mail. Address Canadian Depot: "Stenhouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

Flying Is Easy

Outlook Writer Points Out Comforts and Advantages of Aviation

Flying is easier, more comfortable, quicker and cheaper than any other means of transportation, writes Harold A. Holbrook in The Outlook of June 29th.

"Lindbergh has killed the bogy of American aviation—fear," continues The Outlook article. "He has accomplished in thirty-six hours what ten years of speech-making and $10,000,000 of investment have failed to accomplish. He has sold aviation to the American public."

In supporting his contentions of the advantages and safety of flying, Mr. Holbrook writes: "One cannot say what flying is like because it is quite unique. One can only say that it is better than a boat because there is no regular rolling, better than an automobile because there are no jounces over bumps and no cares of traffic and blind corners in driving, better even than a railroad train because it is faster and entirely free from dust and smoke.

"Piloting a plane is surprisingly easy. It takes experience to become proficient, of course, but one soon learns to handle a ship moving in three dimensions as automatically and subconsciously as one learns the more complicated process of throwing out the clutch, applying the brakes and putting the gear shift lever in neutral when stopping an automobile.

"Planes are surprisingly cheap, too. Three or four passenger planes can be bought for the price of a good automobile. Two-passenger training planes can be had for as low as $600, and palatial five-passenger enclosed planes, such as the Ryan brougham, used by Lindbergh, can be bought for $9,700, including a Wright Whirlwind motor. The cost of operation for gasoline and oil is far less per mile than that of an automobile, and the depreciation per mile of the plane is also far less than that of a car. An airplane requires less mechanical attention than an automobile, because it is less complicated and there are fewer parts to adjust and keep in order.

"Finally, airplanes are safe—and are being made safer every month. Most planes now built are so perfect in aerodynamical balance that they will fly steadily for many minutes when the pilot takes his hands off the controls. Only a railroad train guided by rails can do that. Failure of motors, the chief cause of forced landings, is becoming rare indeed."

A new design of road building machine cuts the road bed, delivers the excavated material to trucks, and rolls the surface as it proceeds.

Mother—"Johnny, is that nice to throw a pan to the dog's tail."
Johnny—"But it's not our dog."
Mother—"No, but it's our pan."

THEY SUFFER NO MORE

Two Women Owe Health to Lydia E. Pinkham's Vegetable Compound

St. Adolphe, Manitoba.—"I was very weak and had great pains during my periods so that I could not sweep the floor. The pains were in the right side and extended to the left and then downwards. It seemed as if the body was heavy and upside down. It is for these troubles I took the Vegetable Compound. I saw about it in a paper and one woman prevailed on me to take it. It has helped me in every way, the pains are less, and I have more appetite. It is a pleasure to recommend Lydia E. Pinkham's Vegetable Compound to other women."—Mrs. J. L. BURCHAINE, St. Adolphe, Manitoba.

Found Great Relief

Toronto, Ont.—"I am at the Change of Life with hot flashes, dizziness, sickness and nervousness. I had bad noises and was short of breath. I was this way about six months when I read about Lydia E. Pinkham's Vegetable Compound in the newspapers. I have taken eight bottles so far and had great relief."—Mrs. R. J. SALT, 112 Lawlor Ave., Toronto, Ont.

W. N. U. 1689

Salt Essential For Horses

Rarely Enough in Food to Supply Their Needs

Salt is a recognized necessity for cattle and sheep, but many farmers are more or less careless in providing it for horses and other work stock. There is rarely sufficient salt in an animal's food to supply all its needs in this direction, even though it may manifest no especial craving for salt. Recent investigations of sweating, indicate that salt has an important function in the body, in addition to its digestive use.

It is well known that sweat is produced in an effort to cool off the body. Water, which is the principal component of sweat, requires a deal of heat to cause its evaporation. This water is removed from the blood by the sweat glands. The amount of sweat produced by a human being in a few hours may be nearly 4 quarts—an amount about equal to the blood.

The investigation mentioned developed the fact that the water taken from the blood by the sweating process is replaced by a fluid flowing from the muscles into the blood current. The important discovery was that the muscles can deliver up the fluid only in combination with salt, and, as there is a certain minimum amount of salt to which the muscles tenaciously cling, it is important that the animal should have free access to salt. Even if the working, sweating animal is well supplied with water, it will be unable to sweat, and, consequently, will be apt to have a heat-stroke, if its muscles contain insufficient salt to supply the muscle water to flow into the blood.

Economy As He Saw It

A jobbing carpenter went into an English tavern and ordered a half pint of ale only instead of his usual pint. The proprietor expressed surprise. "'Tis like this," explained the carpenter, "I've allus been quite willin' to reduce my expenses once I saw the quality give a lead. And just now, coming from a job of work up at the Hall, I noticed that Sir 'Enry has made a start in what is called economy. His two daughters were playing music in the drawing room, and they was both of 'em playin'—mark you this!—both of 'em playin' on one and the selfsame piano!"

Newspapers Good Educators

Newspapers are the only reading matter of many adults. Children who learn to read newspapers intelligently, discriminating between the important and unimportant, have acquired the basis for a liberal education which will grow broader and richer with every passing year. They have acquired the habit of really thinking about what they read, discerning from it the trend of history, the march of science and the progress of the art of living.—Cleveland Plain Dealer.

Breaking the News

The troupe of performing animals were to be presented to the public at an Irish music hall, when tragedy stalked, and the hyena died. The trainer did not know how to report this loss to the proprietor, for that gentleman was a person of violent temper. A few minutes before the curtain was rung up the proprietor shouted, "Are all the beasts ready, Mike?" "Yessir," replied Mike, "all excitp the laughin' hyena, and he ain't got nothing to laugh at!"

Wealth of Canada

According to the latest estimate, the tangible wealth of Canada apart from undeveloped natural resources amounts at present to about $22 billions. At Confederation in 1867 the national wealth of the Dominion was under 1½ billion dollars. Agricultural values make up about eight billion dollars of the present total; urban real estate nearly six billion dollars, railways considerably over two billion dollars and miscellaneous items about six billion dollars.

The largest basket in existence recently was exhibited in New York. After the dimensions of railroad tunnels had been determined, it was sent across the continent on a flat car.

Germany leads the world in commercial aviation. The records of one German company shows more business than those of all the companies of France, which ranks second.

Trans-Atlantic Phone Service Barely Pays

Yields No Margin of Profit or Allowance For Depreciation

Transatlantic telephone service at $75 for the first three minutes and $25 for each succeeding minute has been a losing proposition during its first six months, it was said in London.

According to Post Office statistics, the total number of calls made from the start of the service on January 17 until June 17 was 485 from Great Britain and 613 from America. This barely covered the expenses and yielded no margin of profit or allowance for depreciation.

Revealing that the average number of calls in the past few weeks has been three a day from Great Britain and four from America an official of the Postoffice, which is running the service in co-operation with the American Telephone and Telegraph Company, indicated that these results were not unexpected and cited the New York-San Francisco service, which he said, had gradually built up its quota of business.

As soon as traffic was stabilized so that transoceanic telephoning was no longer a stunt, he declared, rates would be revised and probably lowered. Many of the calls now were for amusement, dinners, etc., and these were likely to cease when the novelty wore off. Others were for business transactions requiring urgency.

But the view of many in London is that lower rates might stimulate traffic now barred because the expense of talking leads business men to utilize the more in-expensive codified cables.

New Type of Domestic Cattle

Cross-Breeding Experiments in Buffalo National Park

The experiments in cross-breeding buffalo, yak, and domestic cattle at Buffalo National park at Wainwright, Alberta, are meeting with an encouraging measure of success, especially since the introduction of the yak as an intermediary between the buffalo and the domestic cattle. Calves of recent years are developing into splendid looking animals with traits combining the characteristics of the interbred species. While the Department of the Interior is not ready to pronounce the experiment a success there is good reason to believe that a new animal containing a fair percentage of buffalo blood and therefore of a hardier type than ordinary domestic cattle and capable of foraging for itself in the winter months may eventually be developed.

Increase In Auto Industry

Finally revised statistics on the automobile industry show the total number of motor cars produced in Canada during 1926 at 204,727 — an increase of 26 per cent. over the 161,970 output of 1925, 55 per cent. above 1924 and 89 per cent. above 1923. The 1926 output included 154,061 passenger cars, 30,440 trucks and 20,226 chassis, valued at $122,620,537. The manufacture of parts brought the total up to $133,598,456, compared with $110,835,388 in 1925 and $88,480,417 in 1924.

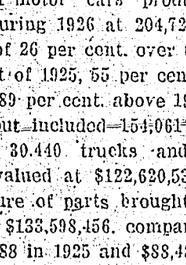
Banks in Canada

The increasing service given by the banks of Canada to the business community may be measured by the increase in the number of branches. At the time of Confederation there were only 123 branch banks in Canada. In 1902 the number had grown to 747, in 1905 to 1,145, in 1916 to 3,198, and in 1926 to 3,770.

One-third of the year consists either of Sunday or national holidays in Brazil. The number of working days is only 245.

The United States uses two-fifths of all the wood consumed in the world.

Diarrhœa Summer Complaint HE ALWAYS USES



Mr. T. F. McGregor, McLennan, Alta., writes:—"Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhœa and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute

This valuable preparation has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

How Plants Feel

No Dividing Line Between Life Process of Plants and Animals

In his many writings and lectures to learned societies, Sir Jagadis Chunder Bose, of India, has already explained, and in a measure popularized, the results of his investigations into plant life. Briefly, he has demonstrated that there is no dividing line between the life process of plants and that of animals, and that plants have a nervous system and a physiological organization which are in all important respects similar to those of animals.

By a series of amazingly delicate experiments, rendered possible by an electrical apparatus which he himself has invented for the purpose, he has shown how the plant responds like the animal, to external stimuli; how it can be depressed and elated, hurt and healed, caused to faint and be revived, all but killed by a poison and revived by an antidote; in fact made to behave very much as a frog or even a man in like circumstances.

These experiments led to the conclusion that the plant, like the animal, must have something which may be called a heart, some propulsive organ which keeps up the flow of its juice or sap, as the heart does that of the blood in the animal body; and this, too, was finally located by an electric probe, its movements recorded on a galvanograph.

When these experiments were first reported, a certain incredulity was expressed, and the results seemed fantastic and uncanny. In reality they are in line with the growing scientific tendency to presume the unity of all life and to discover life in many substances supposed to be inorganic. By his persistence in his researches and his resourcefulness in devising new and newer experiments, Sir Jagadis has fairly beaten the sceptics out of the field and won the recognition that is due to him as a pioneer in a new and most fertile field of research.

Drives Asthma Like Magic. The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Irish Boys For Canada

Training School Has Been Established By Ulster Government

Rev. R. Maxwell, of Ligoniel, Belfast, states that with Northern Ireland facing similar conditions of unemployment as in England, the Ulster Government has established an agricultural training school at Richill, where boys of 14 to 17 are trained for life on the Canadian farms. Facilities for studying farm conditions in Canada were placed at the disposal of the Rev. Mr. Maxwell by Colonel J. S. Dennis, Chief Commissioner of the Department of Colonization and Development of the Canadian Pacific Railway, and others.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

A Musical Education

Fond Parents Very Frequently Nip Budding Musicians

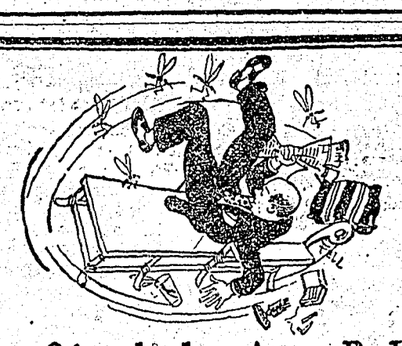
If 94 per cent. of the young hopefuls whom fond parents consider embryonic Paderewskis drop by the wayside before the third grade is reached, the fault lies mainly with those same fond parents in the opinion of Nancy Armstrong, writing in the July issue of "The Musical Observer."

"My best sight readers," says Miss Armstrong, "have been in the family where the mother and governess did not know music. My pupils from six years and older, of average mentality, who do not have supervised practice have gone far ahead of those who have help at each practice period."

Miss Armstrong points out that as the parents usually expect some results after the first few lessons the child is often taught pieces simply by note. She says, "the longer a child is taught by imitation the more difficult it is to teach him to read music, as he has learned that he can play without bothering about the notes, and the attention remains where it was at first focused, on the hands and keys and much lesson time is required to undo this and train him to watch the notes, and gain the touch system."

Shoes Cost Thousand Dollars

Rumors that an exclusive shoe designer in Paris, recently sold a pair shoes for 25,000 francs, or $1,000, are causing squeals of astonishment in the dress world. The shoes, said to have been purchased for a foreign client, had heels of real gold with a rich encrustation of semi-precious stones. Paris quotes this as the highest price paid for shoes with precious stones in them.



A few friends drop in on Pa Buzz

FLIT spray clears your home of mosquitoes and flies. It also kills bed bugs, roaches, ants, and their eggs. Fatal to insects but harmless to mankind. Will not stain. Get Flit today.

How To Plan Garden Pathways

Planning of Pathways May Work a Transformation In the Garden

"Thoughtful and clever planning of pathways may work a transformation in a garden writes Charles Wellford Leavitt in the July number of "Arts and Decoration Magazine." Ingenious winding and curving paths may make a tiny estate seem much larger, and interest and variety to what is really a small plot of ground, leading to ascents and surprises pleasantly arranged," he continues. "Paths may divide up a large and imposing estate, giving portions of it an intimate secluded air, lending to others the dignity of a Versailles, making smaller units and gardens within gardens.

"We think of gardens largely in terms of trees and flowers, yet a garden would be simply a picture to be observed from porch or highway were it not for the paths that entice us to enter and wander. Paths are the arteries of the garden through which life passes. Paths persuade first the eye and then the foot to exploration, and lead one on and on. Here is a broad gravel pathway that leads to a terrace. What lies beyond? We must investigate. There a tantalizing series of stepping stones dips behind the trees,—a call to wanderlust."

Japan's Ancient Royal Family

No Other Dynasty Has Been So Long Lived

It is difficult to realize the antiquity of the Japanese royal family, for it goes back 2,500 years. Emperor Yoshihito is the one hundred and twenty-third of the Yamato house to hold the scepter. From the beginning there has been no other dynasty in Japan. Perhaps this has something to do with the Japanese belief that their emperor is descended from the gods. Jimu Tenno, settled his people in Japan and founded the royal line in 660 B.C. Yoshihito, like every other wielder of the Japanese scepter since, is his direct descendant. In all history there is nothing else like this. The Egyptian dynasties were mostly short-lived. The Chinese imperial houses came and went. The whole series of Roman emperors lasted brief periods compared with this Japanese line. The English, French, Spanish German, Russian royal houses were kaleidoscope beside the Japanese.

Powerful Medicine. — The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Eclectric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can testify as to its power in allaying pain, and many more can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

Better Price For Sugar Beets

Another 50 cents per ton for beets delivered during 1926 is announced by T. George Wood, manager of the Canadian Sugar Factories at Raymond, Alberta. This means a distribution of about $20,000 in the beet-growing area. The beet growers will have received $7.25 per ton, with this latest addition, an increase of $1.25 over the 1925 price. Higher sugar contents and higher prices have made this "rise" possible, Mr. Wood explained.

Prospective Employer—"Can't you produce a reference from your last employer. Is he out of town?"

Chauffeur—"No, he's in the hospital."

Keep Minard's Liniment near at hand.

On the east shore of the Salton Sea, in the Colorado Desert, jets of live steam issue from holes in the ground, and are used for campers to cook their food.

Minard's Liniment for earache.

Little Helps For This Week

Abstain from all appearance of evil.
—1 Thess. v. 22.

God does not say, "Be beautiful," "Be wise,"
Be aught that man in man will overprize;
Only "Be good." the tender Father cries.
We seek to mount the still ascending stair,
To greatness, Glory, and the crowns they bear;
We mount to fall heart-sickened in despair.
The purposes of life misunderstood
Baffle and wound us, but God only would
That we should heed His simple words, "Be good!"
—William Sawyer.

Goodness is the investment that never fails. In the music of the harp that trembles round the world, it is the insisting on this which thrills us.
—Henry David Thoreau.

RED HOT JULY DAYS HARD ON THE BABY

July—the month of oppressive heat; red-hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles, or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Something Worth Knowing

A paste made of bicarbonate of soda and water applied to sunburn gives a cooling sensation almost immediately. When the moisture has been absorbed from the paste the fire of the burn will have disappeared and the danger of blistering is lessened.

Excellent for Croupy Children. — When a child is suffering with croup it is a good plan to use Dr. Thomas' Eclectric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Eclectric Oil is regarded by many thousands as an indispensable of the family medicine chest

The 16-acre plot of land on which the White House stands was purchased originally for $1,600. Now it is valued at $10,500,000.

Neuritis.

Drive away the throbbing pain with applications of Minard's.

Midway News

Miss Ethel Ferguson, of Fernie, arrived home on Saturday morning.

Mrs. Harold Erickson and children left on Sunday for a visit to Grand Forks.

Mrs. Howard Pannell and children will leave Friday for Vancouver for a vacation.

Mrs. Clappier and small daughter left for Carmi on Monday, where they are the guests of Mrs. Lautard.

Mrs. R. Miller was called from her home in Alberta on account of the illness of her mother, Mrs. T. A. Clark.

Mr. and Mrs. James Bush and daughter, Mayneen, returned from Spokane on Sunday, after an enjoyable holiday spent there.

Rev. and Mrs. A. Walker, Mrs. L. Bryant, and Mrs. Geo. Clerf, of Greenwood, attended the Ladies Aid meeting on Friday last.

The many friends of Mrs. T. A. Clark will be pleased to learn that she is doing nicely after her operation in the District Hospital on Sunday.

Mrs. Guy Wren, of San Francisco, arrived here last Friday, being motored from Seattle by Howard Hill, who is renewing acquaintances around town.

Midway won from Wauconda on Sunday by a one-sided score. The next game here is on Sunday, Curlew vs Midway at 2:30 p.m. This game promises to be a real snappy one.

Mr. and Mrs. S Burkmar and sons, George and Edward, of Victoria, were visitors at the home of their daughter, Mrs. Jack Casselman, on the No. 7 Road. They returned to Victoria on Sunday accompanied by Mrs. Casselman, who will remain with them for several months.

Bridesville News

Mrs. Michael DuMont, of Orofino, Idaho, is visiting relatives in this district.

Mrs. E. DeLisle and family, of Midway, are the guests of Mr. J. A. DeLisle.

Miss Iris Kempston arrived on Sunday from Vancouver to spend her vacation at her home here.

Mr. and Mrs. E. Johnston and family motored to Princeton on Saturday, returning Sunday.

Mrs. Moore and family, Mr. and Mrs. Paul DuMont and Mr. and Mrs. Lawless and family, attended church in Oroville on Sunday.

The Misses Elsie and Annie Lawless, and Margaret DuMont, who have been attending St. Ann's Academy in New Westminster, returned to their homes last week to spend the vacation.

Christian Valley Bubbles

F. Tanner, of the East Fork, is spending a few days in Rock Creek and Greenwood.

Mr. and Mrs. A. Lindgren drove down to Mr. Adams' ranch the other day on business.

Joe Christian and A. Lindgren are ready for haying having each bought a new Big 6 McCormick mower.

F. O. Petterson has started haying. In another week all the ranchers will be busy at this same line of work.

E. V. de Lautour was in the Valley during the week-end, coming from Grand Forks with Ralph Lawson in the latter's car.

Crops are very good in the Valley but it is feared that there will be much hay spoiled this season on account of the continued wet weather.

As the river waters are nearly down to normal the settlers are looking forward to having a new bridge built this summer, which they were promised a year or two ago.

Bob Johnson who has been in charge of the culinary department on the pole drive has resigned his position.

Mrs. A. Lindgren saw two large bears on the ranch a few days ago.

Forestry Association Lecture Tour and Show

The Canadian Forestry Association are conducting a Lecture Tour and Moving Picture Show through the Southern Interior District during this month and will be travelling through this district between July 19th and 21st. Shows have been arranged for the following places on the dates mentioned:—

Tuesday, July 19th, Midway in the evening.

Wednesday, July 20th, Rock Creek in the afternoon and Beaverdell in the evening.

Thursday, July 21st, Greenwood in the afternoon.

The Forestry Association is kept up by public subscription and Shows that they put on are entirely free. There is no charge for admission nor is there any collection after the Show.

Look over the horses at the Martin Auction at Kettle Valley, old dobbin still holds his place on the ranch.

Greenwood and District Hospital

Donations for June

Charles Bubar, magazines; Mrs. A. Sater, flowers, cake and oranges; Dr. Wood, gloves; Mrs. S. B. Hamilton, flowers; Mrs. D. McLaren, 1 qt. cream; Mrs. S. W. Auger, rhubarb, liver and flowers; R. Forshaw, rhubarb and flowers; Miss R. Carr, flowers; Robert Mitchell, flowers; Dorothy Boag, lilacs; Capt. Gordon, tomatoes, spinach and strawberries; Juan Puddy, flowers; Mrs. J. C. Boltz, 2 qts. cream; Mrs. H. Bryan, flannel shirt; H. H. Summersgil, plants; Mrs. D. J. McDonald, gem cakes; Mrs. M. Christensen, flowers; Mrs. Graser, flowers.

Communication

No letter to the editor will be inserted except over the proper signature and address of the writer. This rule admits to no exceptions.

P. O. Box 1106,
Victoria, B.C., July 5th, 1927.

To the Editor,
The Greenwood Ledge,
Greenwood, B.C.

Sir;—

We beg to ask for your sympathy and assistance in drawing attention to the necessity of conserving the Wild Flowers of B.C., many of which have been eradicated in certain localities through the picking of entirely unnecessary quantities. Though at present they bloom in large masses in many places there is a danger of their following in the steps of the Bison and Carrier Pigeon and disappearing altogether.

We are not a club or organized society but merely a number of private individuals who take an interest in this matter. We have the backing and also the assistance they can give us of the Daughters of the Empire, the Native Daughters of B.C., the Women's Canadian Club, the Kumtuks Club and of the Automobile Club of B.C., all of whom recognizes the charms which the wild flowers add to the scenery of the Province.

It has been found necessary in the neighbouring State of Washington, and away across the Continent in the State of New York, to pass legislation for the preservation of the Flora and in the British Empire such widely separated places as the State of Victoria in Australia and the Province of Natal in South Africa have passed similar laws.

In Great Britain the Government forbids the plucking of any flower or green thing in the new forest in Hampshire.

We are imformed by members of the B. C. Legislature that there will be little difficulty in passing the necesary Act if it can be shown that there is a demand for it throughout the Province. We believe that this demand exists and it is to give expression to it that we ask your assistance.

The flowers most in need of protection are the Wild Lilly (Erythronium), the Lady Slipper (Calypso) and the Dogwood (Cornus).

Your obedient servant,
I am, Sir,
CHARLES H. BARBE.

FOR SALE

1926 Ford, Sport Model Roadster equipped with front and rear bumbers, speedometer, rear-view mirror, etc., 5 balloon tires. Price $500.00. Apply The Greenwood Ledge.

FOR SALE

Yorkshire Pigs, six weeks old July 18th. $7.00 each.

One Pure Bred Holstein Cow and Calf, freshened July 4th, price $85.00. Apply HAROLD CARON, Midway.

FOR SALE

Black-Field-Spaniel Puppies (male) $4.00 each. Apply H. PANNELL, Midway.

LOST

On 1st of July, out of car at Greenwood, small parcel containing grey spun silk dress and other apparel. Finder please notify Miss Haynes, Kettle Valley.

LOST

A leather pocket book containing a sum of money, among which is a Queen Victoria 25c piece of 1900. Finder will be rewarded by returning same to A. F. Michener, Pacific Hotel.

A Grand Benefit Dance will be held at Riverside Hall, Rock Creek, on Friday, July 22nd, 1927, commencing at 8:30 p.m. Sterling & Lloyd's Celebrated Orchestra will supply the music. Adults $1.00, Local School Children under 14 years 50c. Supper included. Come and help a good cause, and have a real good time.

J. W. Grill, better known among the old-timers as "Shorty" or Billy Dunn, was drowned recently in Ootsa lake, northern B.C. "Shorty" gained world-wide notoriety through his association with Bill Miner and Calhoun in the famous train hold-up at Ducks over twenty years ago.

There are no mosquito exterminators at the Martin Auction at Kettle Valley, but there are weed exterminators.

MINERAL ACT

Certificate of Improvements.

NOTICE

ACME MINERAL CLAIM

Situate in the Greenwood Mining Division of Yale District.
Where located: Near Bridesville.

TAKE NOTICE that I, C. AE. Shaw, agent for Joseph Pringle, Free Miner's Certificate No. 335D, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 4th day of June, 1927.

Built for Endurance

Behind the beauty of the Chevrolet there is an abundance of strength and stamina, just as there is a great store of surplus power. The rugged channel steel frame, the husky banjo-type rear axel, the powerful valve-in-head engine and every detail of construction combine to defy the ravages of ware and tear, of hills and ruts, of mud and sand, of extremes of climate and of hard, continuous usage.

The Most **Beautiful Chevrolet** in Chevrolet History

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning reulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, toria, B. C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre. Further information regarding purchase or lease of Crown Lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled, and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority given to established owners. Stock owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

The Mineral Province of Western Canada

TO THE END OF DECEMBER, 1926

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,557; Coal and Coke, $284,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1926 show an

Aggregate Value of $988,108,470

Production for the year ending December, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing:

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia.

N. B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering each of the Six Mineral Survey Districts are published separately, and are available on application.
