Liberal Meeting

About 180 attended the annual meeting of the Greenwood Riding Liberal Association at Rock Creek last Thursday evening. More would have been in attendance, if more autos had been available. The following officers were elected: Hon.-President, H. C. Brewster, M. L. A.; Hon.-Vice President, Dr. J. D. MacLean; President, R. W. Taylor; First Vice President, James Kerr; Second Vice President, D. McPherson; Sec.-Treas., C. P. Charlton. Executive committees were appointed for every part of the riding. Speeches were delivered by Messrs Thompson and MacLean, the Opposition candidates in the Boundary ridings.

Riverview Creamery, at Ferry, is making arrangements to move to Midway, just over the line into Canada. This move was deemed expedient at this time after a year or more in testing of marketing conditions effecting their butter and ice cream trade. The bulk of their trade was with the payroll communities at Greenwood, Grand Forks, Rossland, Nelson, etc., and the war has made the custom duties so great that it was far more economical to pay duty on American cream than on the manufactured butter. —Chesaw News.

Percy Taylor has sent his father in Grand Forks, some newspapers that were printed in Ypres during the sixties. Nothing in them was deleted by the censor.

James Dimmick came in from Sandon last Saturday, on his way to consult an eye specialist in Spokane. He intends to open a meat shop in Sandon upon his return.

John Meyers has a lease on the Barbara, and is taking out ore for shipment to Trail. This claim is within the city limits, and carries values in lead silver, gold and zinc.

A meeting of the Greenwood Farmers Institute, will be held at the rink on Friday, April 28th, at 2 p. m. As important business will be brought up all members are requested to attend.

Peter Annace, who is now in the limelight in Vancouver lived in the Slocan 20 years ago. He left Sandon one night on a handcar, and never came back. He was a good packer and a nifty gambler.

Andy Newton of Beaverdell was in town this week. He reports plenty of snow around McCullough, but says it will be a great summer resort, there being good fishing in the small lakes near the summit.

Rev. J. H. Hobbins is leaving for Vancouver, to enlist as a private in the First Canadian Pioneers. He served in the Boer war, and expects to be in France by June. For some time Greenwood will be devoid of regular services in the Methodist church.

After 17 years residence in Greenwood, Robert Robinson is moving his shoe shop to Phoenix. Bob is nearly 75 years old, and has not taken a drink of straight water for 12 years. He has been 50 years in America, and at the Paris Exposition he took the first prize for making shoes. Bob does not lose much time in making long prayers, but he pays his debts. He does not owe a cent in the world, and is one of the noblest works of creation—an honest man.

The Ledge has received a letter from Geo. B. Grieve, formerly a bank clerk in Greenwood. The letter was dated March 22, from a Hot Spot in France. He says that they had just come out of the trenches, and were going back the next day. He receives The Ledge regularly, and says that it is in great demand at the front. They always fight better after reading it. He says that the war is allright, and that they can fix Fritz whenever he starts anything. Grieve and Purdon wish to be remembered to their friends. They are like Johnny Walker, "Still going strong."

The Nurse and Martyr feature being booked on a circuit for the only date now available, will appear at the Star Theatre on Wednesday, May 3rd, and in an effort not to conflict with the Firemens dance of the same date the first performance will begin sharp at eight o'clock and the second show at nine thirty. With the better class of photo plays now booked in ahead the patrons are assured a performance of a highly entertaining nature. The arrangement of the Famous Players films has been anticipated for some considerable time and after the thorough satisfaction expressed by patrons who witnessed Mary Pickford in "Mistress Nell" last Tuesday evening at the Star Theatre. Mr, Wetherell feels that the new bookings shall meet with real success. The Universal program last Saturday was decidedly better than usual and lovers of the varied programs of the Universal and their favorite stars may look forward to a rousing good performance from start to finish. Tuesday and Saturday are regular nights at the theatre (only next Wednesday, May 3rd.)

There are 53 Sundays in this year. This will not occur again for 110 years. The extra Sunday will be welcomed by fishermen and church people.

The first 22 miles of the provincial highway between Hope and Princeton is finished at a cost of $177,767. It will cost $130,000 to complete the remaining 72 miles.

During the first three months of this year, the number of telephones in use in B. C., has increased from 39,800 to 40,353. This is 822 less than were in use on January 1, 1915. No so bad for war times.

B. C. Mines

Ore is being shipped from Hope to Selby, California.

The Pioneer mine at Bridge River is working full blast.

Several leasers are working on the Reco mine near Sandon.

The British government has prohibited the making of lead paint.

The Sullivan mine in East Kootenay is making heavy zinc shipments to Trail.

The prospects for gold mining in the Bridge River district are very bright for this summer.

There is some talk of building a wagon road from Spatsom, to the mines in the Highland valley.

Owing to the breaking of a water pipe, the Ruth mill at Sandon had to shut down for a time last week.

The report of the B. C. Copper Co. shows a deficit of $22,918 for 1915. It will be different this year.

The Ivanhoe concentrator at Sandon is being rebuilt, It is reported that the Surprise mine is interested in the mill.

It is reported that a boiler and compressor will be put in, at the Moreen mine near Greenwood, preparatory to resuming operations.

Shipment of zinc ore and concentrates from Kootenay mines have increased 90 per cent. in one year. The increase will be greater this year.

The Trail smelter shipped its first carload of spelter this week. This smelter will also be turning out refined copper. It has the first copper refinery in Canada.

At Silverton the Standard mill is using the French Zinc process. The zinc is dissolved from a roasted ore, with bisulphate of soda and manganosite, after which it is precipitated electrolytically.

C. A. Bigney and O. A. Schmidt have cut a trail to their claims in Aspen Grove. They own three claims with good surface showings, and considerable work will be done this summer.

At an expense of $115,000 the Florence mine near Ainsworth, is planning to construct an aerial tram, hydro-electric power station, and a 200 ton concentrator. All the officers of the company live in Spokane.

Last year the mines at Sudbury, Ontario, produced 32,000 tons of nickel, and 18,750 tons of copper. The value of this production was $30,000,000, a little more than the entire value of all mineral produced in B. C. during 1915.

The Slocan Star at Sandon has 13,000 feet of tunnels, and 4,000 feet of raises and winzes and upraises. The mill is being enlarged from 100 to 250 tons daily capacity. The zinc is shipped to Dewar, Oklahoma, and the lead-silver ore to Trail.

Dating from April 1, all B. C. mines will receive $7.25 for all lead that goes to the British government for war purposes until June 30. The delivery of lead for the same in July, August and September will be settled on a basis of $8.30. Such prices should make a hum in the Slocan and other lead camps.

Preparations are being made this week, to resume operations at the Big Copper, under the foremanship of James Poggi. This property has been shut down since 1912. The ore will be teamed to Deadwood, where the C.P.R. will put in a spur so that the cars can be loaded for shipment by the Mother Lode ore train to Greenwood smelter.

IT is said that B. C. is the only part of the British Empire, in which church sites are taxed.

SOME people look wise and claim that they are next to everything. The lamb is usually on the inside, shortly after he meets a lion.

THERE is a bright future before Greenwood and the district. There are millions concealed in the mountains, but the ore cannot walk. Somebody must help it into town.

THE government should see that all its officials are honest gentlemen. They should not appoint or maintain in office, crooks, grafters, rascals, or law breakers of any kind.

BOWSER and his "rubber stamps" is the way the Vancouver Sun speaks of the B. C. Legislature. This is unkind, although it is possible for a rubber stamp to make a clear impression, especially when a firm hand guides the handle.

THE holding of crown-granted mineral claims, for an indefinite period without development is a great injury to the mining industry of this province. The holders of such properties should be forced to work them, or relinquish their right, and let somebody else work them. We need workers, not idle speculators.

MAN is the only animal that eats when he is sick. If he does not want to eat, his friends and attendants, through mistaken kindness, will try to force him to eat. They think that if a patient can only eat there is some chance of speedy recovery. The reverse is the case, for with the exception of some chronic complaints, food acts as a poison to sick people, and always retards recovery.

LET us prohibit the beefsteak and the pork chop. They are killing thousaunds every year, and the suffering and misery caused by their excessive use is simply appalling. Strong food is equally as disastrous to the nation as strong drink, when taken in excessive quantities. If anything the difference is in favor of the booze. When people know how to feed themselves the drink evil will disappear.

Kind Words

Kind words do not cost much. They are quickly spoken. They do not blister the tongue that utters them. They never have to be repented of. They do not keep us awake till midnight. It is easy to scatter them. And oh, how much good they may do! They do good to the person from whose lips they fall. Soft words will soften the soul. They will smooth down the rough places in our natures. Care to say kindly things will drill our natures in kindness. It will help pull up all the roots of passion. It will give us a spirit of self-control. It will make the conscience delicate and the disposition gentle. A woman cannot make a habit of speaking kind words without augmenting her own gracious temper. But better will be their influences upon others. If cold words freeze people, and hot words scorch them, and bitter words madden them, so will kind words reproduce themselves and soothe and quiet and comfort the hearer. They make all the better elements of one's nature come trooping to the surface. They melt our stubbornness. They rouse an appreciation of better things. Let us say the kindly word. No one can tell how many burdened hearts may be relieved, how many discouraged souls may be inspired. Say it every day; to the one who disturbs you while you are busy, asking for work; to the one who has almost lost hope; to all. Remember, kind words can never die.—Sacred Heart Review.

Babine Lake District

J. L. Ruttan returned last Sunday afternoon from a trip to the southern end of Babine lake, and told the Herald representative something of the mining prospects in a district of great promise. He is interested in the Sure Shot mining claim, which is located 12 miles from the southern end of Babine lake on the north side. The claim is rich in silver, copper, lead and zinc, and recent assays have shown the material to run as high as two hundred dollars to the ton, showing that it is essentially a high grade body of ore. The assays disclosed the fact that silver and copper are the predominating metals. The lead, which is close to the shores of Babine lake, has been opened up in five places in a distance of one thousand feet, and in the entire length gives every indication of the existence of a large body of ore.

This news comes at a very opportune time when interest in mining in various parts of the province show a distinct revival. Mr. Ruttan has been much in touch with people in Minneapolis who are anxious to get into some good proposition, and who are prepared to build a concentrator if necessary. The Sure Shot was located by Edgar Boiling, one of the best known prospectors of the north, and he is now carrying development work on the property. In the close vicinity of the Sure Shot are located other claims of great promise, such as Silver Island and Silver Fox. These claims have been proved to be of great richness, and it only requires capital for development purposes for this region to be the location of a great mining camp. Mr. Ruttan brought back a lot of fine looking samples with him.—Vanderhoof Herald.

Silver Miles

A mining engineer with a taste for statistics has recently been workingout production in Cobalt on the basis of acreage. From four square miles all the silver in Cobalt has been produced, three square miles of dividend payers and one square mile of producers not dividend payers. That is to say. from four square miles of rock in the Cobalt area, 233,314,368 ounces had been produced up to the end of the year, and from three square miles of conglomerate, keewatin and diabase, $67,427,389 had bee paid in divideuds.

To paraphrase the words of Dr. Johnson, "The Almighty may produce a richer camp than Cobalt, but he has not yet seen fit to do so."—Cobalt Miner.

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district inwhich the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents perton.

The person operating the mine shall furnish the Agent wth sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon: If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, Or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Production and Thrift

"GAIN or no gain the cause before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle."—*HON. MARTIN BURRELL, Minister of Agriculture.*

THE FOLLOWING STATEMENTS ARE BASED ON REPORTS CONTAINED IN "THE AGRICULTURAL WAR BOOK, 1916," PUBLISHED BY THE DEPARTMENT OF AGRICULTURE, OTTAWA, ONT.

LIVE STOCK—The herds and flocks of Europe have been greatly reduced. When the war is over there will be a great demand for breeding stock. Canadian farmers should keep this in mind.

MEATS—In 1915 Great Britain imported 664,508 tons of beef, mutton and lamb, of which 364,245 tons came from **without** the Empire. Out of 430,420 tons of beef only 104,967 tons came from **within** the Empire.

The demands of the Allies for frozen beef, canned beef, bacon and hams will increase rather than diminish. Orders are coming to Canada. The decreasing tonnage space available will give Canada an advantage if we have the supplies.

DAIRYING—Home consumption of milk, butter and cheese has increased of late years. The war demands for cheese have been unlimited. The Canadian cheese exports from Montreal in 1915 were nearly $6,500,000 over 1914. Prices at Montreal—Cheese: January 1915, 15¼ to 17 cents; January 1916, 18¼ to 18½ cents. Butter: January 1915, 24 to 28¾ cents; January 1916, 32 to 33 cents.

EGGS—Canada produced $30,000,000 worth of eggs in 1915 and helped out Great Britain in the shortage. Shippers as well as producers have a duty and an opportunity in holding a place in that market.

WRITE TO THE DOMINION DEPARTMENT OF AGRICULTURE AND TO YOUR PROVINCIAL DEPARTMENT FOR BULLETINS ON THESE SUBJECTS

Tens of thousands of Canada's food producers have enlisted and gone to the front. It is only fair to them that their home work shall be kept up as far as possible. The Empire needs all the food that we can produce in 1916.
