YOU CAN IMPROVE YOUR OWN TELEPHONE SERVICE

Leading telephone engineers have made the following statements:

When speaking into a telephone the best results are obtained with the lips very close to the transmitter—just so they do not touch it. Removing the lips from the transmitter has the same effect as lengthing the line in use as follows:

One inch lengthens the line 57 miles.
Two inches lengthens the line 128 miles.
Three inches lengthens the line 179 miles.
Four inches lengthens the line 218 miles.

Co-operation by subscribers is earnestly requested in everything which will give to them BETTER AND MORE EFFICIENT TELEPHONE SERVICE.

B. C. Mines

Last week 49 mines shipped ore to Trail.

The Inland at Paulsen is shipping to the Granby smelter.

At Lac La Hache a mill will be built at the molydenite mine.

Lead bearing ores are again being received by the Trail smelter.

The Can. Cop. Co. is searching the Boundary hills for new properties.

This year the Emma mine near Greenwood, has shipped over 30,000 tons to Trail.

Mr. Howard of Portland, si shipping from the Mountain Meadows, near Revelstoke.

This year 32 mines in the U. S. have shipped over 1,100 carloads of ore to the Trail smelter.

In the Yukon two new creeks have been staked for placer between Selkirk and Kitchener creeks.

The Multiplex is building a new camp near Camborne, and will soon begin driving a lower tunnel.

Two five-ton trucks and two four-horse teams are hauling salts from Spotted lake, in Richter Pass to Oroville.

Billy Boyd and his partners, have sold the Duty and Excise silver properties at Camborne, to the Multiplex Co.

At Proserpine mountain, near Barkerville, a six foot vein showing gold, silver and lead has been hit on the Armstrong. Some picked ore on the dump assays $100 to the ton. The Independence and other galena claims in this district are improving with depth.

In the Slocan new ore bodies have been found in the Wonderful, and Queen Bess. A tram has been built from the Bess to Alamo Siding.—A raise to the upper workings is being run in the Freddie Lee.—W. G. Clark is working the Carnation for Mann & Mackenzie. —The Noble Five is raising 1300 feet to the upper workings, and may build a mill at Cody. Three shifts are working at the Five and this old property will be a big producer next year.—The Rosebery mill is being altered to treat Bosun ore.

The Canada Copper Co has 300 men working at Copper Mountain. The main adit tunnel, 9 x 11 feet in the clear, is being driven at the rate of 21 feet a day. Plans are being made for the big mill by the same company that built the Kellog smelter. The timber for the mill will be sawn this winter, and excavating for the foundations will begin in a few weeks. The mill will be built on land bought from E. Barr Hall, and will be three miles in an air line from the city of Princeton, and eight from the mine.

Why does Canada Raise Money by Selling Bonds?

BONDS are issued payable in ten or twenty years, as the case may be. It means that repayment of the money will be spread over ten or twenty years instead of being raised by taxation to meet current expenditures.

To raise by taxation all the money as fast as it is needed to carry on Canada's share in winning the war, would be an unbearable burden upon the people.

It would mean that more than a million dollars a day would have to be raised right now.

But to raise money by selling Canada's Victory Bonds means that those of the next generation who will benefit by the sacrifices this generation is making;

—who will share in the freedom this generation is fighting for and largely paying for—will also pay their share.

★ ★ ★

And when you buy Canada's Victory Bonds you make a first-class business investment in a security that is absolutely safe, likely to enhance in value after the war, and bearing a good rate of interest.

You help the country by keeping open the British market for Canadian products and this helps the general welfare in which you share.

★ ★ ★

And again, every Canadian who buys a Victory Bond becomes a financial partner or backer of Canada in the war.

When you buy a Canada Victory Bond you give a personal pledge that you are going to help to win the war.

Every man and woman in Canada can help to win the war by buying Canada's Victory Bonds. And Canada wants the personal, individual interest and co-operation of every man and woman in the country.

The buying of Victory Bonds by the whole people unites them in a determination to win the war.

Every purchase of Canada's Victory Bonds is a blow for freedom against the tyranny of German Kultur.

Every bond sold is a new guarantee that Canada is in the war to the finish, until victory is with the Allies and the world has been made safe to live in.

Every bond you buy is a new pledge that Canada will remain true to herself, the Empire, the Allies and to freedom's cause.

So it is both patriotic and good business to

Float

FLOAT is not a periodical. It is a book containing 86 illustrations all told, and is filled with sketches and stories of western life. It tells how a gambler cashed in after the flush days of Sandon; how it rained in New Denver long after Noah was dead; how a parson took a drink at Bear Lake in early days; how justice was dealt in Kaslo in '93; how the saloon man outprayed the women in Kalamazoo, and graphically depicts the roamings of a western editor among the tender-feet in the cent belt. It contains the early history of Nelson and a romance of the Silver King mine. In it are printed three western poems, and dozens of articles too numerous to mention. Speaks In Greenwood

Captain H. A. Pearson, of Toronto, who is to speak here on November 5th went to England with the original 1st Canadian Division, in September, 1914, and was sent to France five months in advance of the Canadian troops to establish Y. M. C. A. huts, etc. He was in all the important battles during the first two years of the war ond was returned home some months ago as physically unfit, suffering from shell shock and a broken ankle.

After being released by the Medical Board, Capt. Pearson was given special facilities in order to tell the story of his experiences to the Canadian people, and he has appeared in every important city from Halifax to Vancouver.

The story which he brings is not one concerning the political features of the war, but a plain story without attempt at oratory, of the hardships and difficulties met with by the Canadian lads in France, and those who are interested in the American troops as they now come face to face with many of the same problems, should hear this story. The object of Capt. Pearson's visit is not to raise funds for the Canadian Y. M. C. A. work, but to give the people some idea of actual conditions in France.

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years renewable for a further term of 21 years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon: If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N. B.— Unauthorized publication of this advertisement will not be paid for.

CANADA

Will Class One Provide The One Hundred Thousand Men?

It will be greatly to the advantage of Canada if the entire quota of 100,000 men to be raised under the Military Service Act can be secured from the first class; that is, from the men between the ages of 20 and 34 who were unmarried or widowers without children on July 6th, 1917.

This is almost self-evident for the following reasons:

it is admitted that, between the ages of 20 and 34, the average man is at the height of his physical strength and is most adaptable to the change of conditions from civilian life;

the military service of unmarried men and widowers without children would occasion less distress than that of most others, since they are largely without dependents. Also, it would entail less financial burden for Canada, through separation allowances, etc.

Authorities estimate that, after all proper exemptions have been allowed, Canada should be able to produce from the first class 100,000 men fit for service, so the drain upon the man power of the country will not be severe.

Members of Class One will be well advised to present themselves for examination immediately to the Medical Board in their district. Upon examination as to their physical fitness, they will be placed in one of the following categories:

Category A—if fit for service in overseas fighting units.
Category B—if fit for service overseas in Army Medical Corps, Forestry Battalion, etc.
Catagory C—if fit for service in Canada only.
Category E—if unfit for military service of any nature.

If not placed in Category A, the applicant will know that he is not liable for immediate service, but will go to the Post Office and send in a claim for exemption with his Medical Certificate attached, when he will receive in due course a certificate of exemption until those in his medical category are summoned for service.

Where a man, who is placed in category A, feels that exemption should be allowed, an application form can be secured from the postmaster. This form, when filled in, will be forwarded by the postmaster to the registrar of the district, and the applicant will be informed by mail as to the time and place for the consideration of his application by the Exemption Board.

Issued by The Military Service Council.
