Canadians' War Song.

There is a delicious whiff of the west about the war song of the Canadian cavalry contingent which will be he heard of on the battlefields of Europe. This contingent composed of British Columbian Roughriders and now known as the 31st B.C. Horse, sang its song on its way from Vancouver to Valcartier Camp. The four verses of the song are as follows:—

British Columbia Horse we are,
From Canada's Pacific Sea,
To make the Kaiser understand
He must respect our Motherland.

Now we're on our way to war;
What the hell are we going for?
We'se going to get the Kaiser's goat
And shove his whiskers down his throat.

We are the B.C. Horse, you see
And on our way to Germany,
We'll stick as one through thick and thin,
And fight our way to old Berlin.

We'll make him bow and scrape to us,
For stirring up this nasty fuss;
We'll make him dance the Highland fling,
And "Rule Britannia" loudly sing.

"Maude was afraid the girls would not notice her engagement ring."

"Did they?"

"Did they? Six of them recognized it at once."

"Of course, you play bridge only for fun?"

"Of course," answered Mrs. Spangleton, "but it isn't any fun unless you are playing for money."

Around Home

Hugh Laing expects to winter in California.

Zack Watson's chickens are laying fresh eggs.

Four or five families are residing at the Mother Lode.

The first permanent snow reached town on the 12th.

Doc Goodeve has nearly finished fall plowing on his ranch.

The Union mine on the North Fork is shipping ore to Trail.

The new power plant at Hedley will be finished next month.

Bert Lane was laid up last week with an attack of lumbago.

Charles Buckless is driving stage between the city and the Jewel mine.

Ranchers are selling fresh pork to P. Burns & Co. for nine cents a pound.

Tom Hanson and Billy Hazzard made a fast auto trip to Grand Forks last Thursday.

All the country hotels in the Boundary district have renewed their liquor licenses for next year.

The Ledge will mail a copy of Float to any address in Great Britain upon receipt of 25 cents.

Miss Clark of Seattle is the guest of Miss Bryan and will remain in Greenwood during the winter.

Work is being done on five or six mining properties around Greenwood. The Togo and E.PU. will ship ore this winter.

Owing to the increase in population, the liquor licenses in Princeton have been raised from $125 to $200 a year.

Dan McDonald, of Stavely, Alta., is in town this week. He left on Tuesday for Calgary where he will enlist for the war.

Mike Kane and John Manning returned from a hunting expedition on Monday. They stored their game until sleighing improves.

On November 12th a marriage licence was issued to Arthur Bruce Bennett, of Bridesville, and Mrs. Josie Long of the same place.

L. Keith, of Vancouver was in town last week upon business in connection with the estate of his brother, the late W. A. Keith.

Six or seven cows and one horse have been shot this fall around Carmi and Beaverdell, by excited hunters mistaking them for deer.

Bert Logan has bought a business in Edmonton and will remain in that city. Harry Parker will run his Greenwood store until further orders.

Jack Henderson came in from Eholt last week, in order to deposit a bag of gold in the bank. He was afraid to leave it any longer under his cabin floor.

One day last week, Sam Larsen brought 1200 pounds of pork in his auto to Greenwood. He says that the car is better adapted for hauling pork than wheat.

Last week work was begun on the big railway bridge across the Tulameen at Princeton. It will have one concrete pier, and two concrete abutments. There will be two 100 foot Howe truss spans.

The large clock for the new $41,000 post office building has arrived in Greenwood. It will be placed in the post office tower in a few days but the striking appartus will not be working until spring.

At the Roany placer camp near Princeton, the Lost Creek Mining Co., are getting ready to build a flume at a cost of $100,000. Their recent clean-up showed 45 per cent platinum and the balance coarse gold.

David Ewart, I.S.O., of Ottawa was in town last week inspecting the postoffice building, which he pronounced a very good one. Mr. Ewart is a brother-in-law of John Simpson, chief of Provincial Police.

Away up at Denoro, M. W. Ludlow has 500 hens laying fresh eggs. He has the chickens safely entrenched, with a siege gun on one end of the henhouse, and an irate bulldog on the other. If the Eholt Highlanders should make a charge up the hill and attempt any fowl deeds, Ludlow is thoroughly confident that he can repulse them easily, unless they catch him when he is gathering the eggs.

Robert Wilson, Thos. Jenkin and E. R. Redpath are appointed delegates from St. Judes Church to attend the Synod at Nelson on Nov. 25. The meeting is for the purpose of electing a bishop for the diocese of the Kootenay.

Randall H. Kemp died in Victoria last week from cancer of the tongue. For more than 20 years he had been known to the people of the Kootenay and Boundary as a mining writer and engineer. At one time he owned Kemp's mineral springs near Kaslo.

Another of these interesting letters from the war zone has been received by Alex. Greig from Louis Rolland who is now right in the thick of the awful carnage. Still he writes hopefully and says he will be back in the spring. He longs for the comfortable quarters of the Pacific Hotel.

Otto Wirth, a rancher, of Kettle Valley, was arrested on Monday by Robt. Kerr while attempting to cross the line. He had shipped his baggage addressed to Mrs. Denis, Spokane. Wirth is a German reservist, who has been on parole since September. He was turned over to the militia at Grand Forks on Tuesday.

Henry Bretzins will spend the winter in Hazelton. Henry is one of the old brigade and always sends his money promptly for the Ledge and without being dunned. This gives him a front seat with the noblest works of creation. His many friends hope that some day he will come down the Skeena with a bankroll large enough to gag a mule.

It is the live fish that swim up stream. The weaklings drift with the current or seek the quiet pools when the water is rough. It's the aggressive business that pushes the sales when times are dull. It's the live, hustling, modern business man who harvests the profits. You will see the names of the live ones in the advertising columns of the Ledge. They deserve support and are working for it. They are makers of good times. They are the live fish swimming up stream.

CITY COUNCIL

The council met on Monday evening.

The following accounts were ordered paid; Provincial goal, $21; Auditor General $93.15; S. P. Dixon, $6.60; C. Kinney, $6; L. A. Smith & Co., $1.05.

Tenders were received for cordwood as follows; W. A. Thompson, $2.10 per rick; Fred Jenks; $2; I. Goosney, $1.97½; C. J. McArthur, $1.90. The latter tender was accepted.

Owing to serious complaints having been received by council in respect to stock straying and doing damage in the town it was decided that all owners of stray animals be summoned and dealt with according to By-law.

Ald. Jenkin gave notice that he would at the next regular meeting ask leave to introduce a by-law to amend the Revenue By-law Amendment, relating to liquor licenses. Council adjourned.

News From Shushana

G. S. Moeher, a miner from Shushana stopped over in town this week en route south. He says the district has produced upwards of $250,000 this year and the men who did the work are not complaining. There has been work for everyone who wanted to work at $6 and board until shoveling in began June 11, and after that at $7 and board, Some men got as high as 150 days and all those who came out with him had money from $900 up. Several were carrying as high as 30 ounces of dust. The gold sells at $16 per ounce. About 150 men are staying in this winter. Provisions were selling at a flat rate of 40 cents per pound when he came out but the price is expected to drop to 25 or 30 cents when sledding begins. The trail from McCarty is in very bad shape. —Ketchikan Progressive.

Corporation of the City of Greenwood

WAR NOTES

Well done, Australia!

It can honestly be said of the Emden that she at least gave the German people a run for their money.

Though she is officially rated as a cruiser, the general public will insist on rating the Sydney as a capital ship.

A Melbourne despatch says that Australia is prepared to put 250,000 men in the field. The first contingent of 50,000 men has left for Britain and 200,000 reservists are in training, drilling every day. That, and Australia's magnificent naval contribution, do not make Canada's aid to the Empire look any too generous.

From the Russian headquarters it isn't nearly such a long way to Berlin as it was two weeks ago.

Any time, now, we may learn that the Canadian soldiers have received their baptism of fire. General Hughes says they are all ready to go to the front.

In old-fashioned war the armies would usually go into winter quarters when cold weather came on; but the indications are that they will be no let up in the great war during this winter. It may be a cold day when Germany gets left; but more probably the warm weather will return before a decisive result is reached.

There are ruuors that Austria is weary of it and would like very much to quit. But we should not overlook the fact that we have some industrious liars on our side too.

Even if the Sultan of Turkey was to prepare a holy war, the Mohammedan leaders in India have discounted such a proclamation by declaring that Turkey has been led by Germany into an unholy war.

At the French military headquarters, it is reported, the hope is cherished that the Germans will soon be pushed back into Belgium. At the Belgium military headquarters such a meager hope as that can bring no joy.

Don t crow too soon. Optimistic contempories are hardly justified in using such language as "the complete defeat of the German attempt to capture the sea coast from Ostend to Calais." That attempt has not been abandoned but is being fought with greater vigor than ever.

The Russian steamroller is advancing by leaps and bounds.

We know not what a day will bring forth. It is likely that the sensible people in Germany will rebel against the military party before Christmas, and kill the kaiser, or force him to go way back and sit down.

A German soldier recently captured in Belgium had the hands of a child in his pocket.

If the Allies lose it is a sure thing that the United States will have to fight Germany. The United States cannot afford to let Germany win.

There are about 70,000 men in the regular army of the United States.

War is too expensive in these modern days to last very long. It takes money to keep non-producers and destroyers.

No matter what the subject, Premier Asquith always speaks with clearness, decision, refinement and dignity. His peroration in the Guildhall speech should be taken to heart by every true patriot. It lays down the imperative duty for all of us in this hour of trial.

NEAR, Bombay, in India, there is much activity in the mining of pitchbleude. This mineral is the chief source of radium, and it exists in some parts of B.C. We advise prospectors to make a careful search. Any man with a few ounces of radium in his pocket does not have to fear poverty.

The Coming Rush.

The completion of the Grand Trunk this fall and the completion of the Canadian Northern by spring as well as the opening up of hitherto unavailable acreage on the Pacific Great Eastern will institute a movement this spring for immigrants both from the United States and Europe despite the war which will outdo anything that the railways have yet attempted. We have hints of these plans from the immigration department of the Canadian Pacific and the steamship companies which will use the Panama canal to Vancouver and Prince Rupert will enter for the first time as a factor in this immigration movement of no mean moment. War stricken districts in Europe will prove fertile fields for the propaganda, and the tremendous stimulus of high prices for food products will be a little too much for the farmers in the United States to resist.

In view of a few of these considerations which are just hinted at it would not be surprising that the ensuing spring would initiate an actual forward movement in the face of fighting a costly and devasting war.—B. C. Financial Times.

Alfalfa Profitable Crop.

Irrigated lands in Southern Alberta, when devoted to alfalfa growing, return a net profit of eight per cent on a valuation of over $100 per acre, according to S. S. Lunham, chairman of the Rural Relations committee of the Lethbridge Board of Trade.

Mr. Dunham presented his figures at a meeting of the farmers recently held near Lethbridge to petition the Dominion Government to extend the irrigation systems in Southern Alberta. A petition, praying the government to undertake important irrigation enterprises, was signed by of over 200 farmers. The cost of bringing the land under irrigation was estimated at $19 per acre, and the farmers expressed their willingness to pay this amount, with interest at 4 per cent, the government to extend repayment over a period of 40 years.

It was in connection with the estimated cost of $18 per acre that Mr. Dunham presented his figures.

"Get irrigation at $18 an acre if you can" he said. "If you cannot get it a $18 an acre, get it for $50 or $60, but get it."

Mr. Dunham proceeded to show the profits which irrigation made possible. He instanced alfalfa, which has come to be an important crop in the irrigated areas of Alberta, and presented the following figures for an acre of alfalfa; $1 an acre for water; 75 cents for applying the water three times during the season, and $3.75 per acre for putting the crop in stack, a total cost of $5.50 per acre. A crop of 2½ tons per acre (many irrigation farmers are getting four and five tons per acre) would show a net profit of $8.25 per acre at the low price of $5.50 per ton, without any depletion of the soil, but actually increasing its fertility. On this basis alfalfa will pay 8 per cent net profit on land valued at $103.33 per acre.

The fact that farmers where irrigation is not available are petitioning for it and are willing to pay the whole cost of its installation is a tribute to the success of the irrigation enterprises already established in Alberta, which fnclude the immense undertaking of the Canadian Pacific Railway, the largest irrigation project on the American continent.

Try it and See.

Every time you go to town
And start to throw your money 'round;
Say, home made goods are the stuff for me
Because they spell prosperity.
The dollar you send to the Eastern store
Says, "Good-bye, Bill," for evermore,
But the dollar you spend in your Western town
Keeps comin' and comin' and comin' aroun'.

History repeats itself just as often as it is practicable to work the old game on the public.

Big Mills.

In the vast forests of British Columbia 360 billion feet of the finest mature timber is awaiting manufacture. Cutting at present amount to less than two billion feet a year, which is but a portion of the annual forest growth. Far larger markets for the timber, therefore, must be found; and thus the provincial government, assisted by the Department of Trade and Commerce at Ottawa, is leading the industries concerned in a commercial campaign both in the existing markets and in those now being made accessible by the opening of the Panama Canal.

Some of the largest mills in the world are in British Columbia, and the cutting and manufacture of timber is the most important business in the province. The number of saw, pulp, paper and shingle mills is over 400, and their output for 1913 was valued at $30,000,000. From public property in timber the annual revenue received by the treasury is nearly $3,000,000.

The supreme importance of the forests and of the industries dependent upon them has made the prevention of forest fires an important matter of public policy.

Nelson, or to any person or persons to whom you may have tranferred your interests, take notice that I, the undersigned co-owner with you in the Standard Fraction Mineral claim, situated on Wallace Mountain, about four miles from Beaverdell, in the Greenwood Mining Division of Yale-Cariboo district, province of British Columbia, have done the required amount of work on the above mentioned claims for the years 1907, 1908, 1909, 1910, 1911, 1812, 1913, and 1914 in order to hold the same under section 24 of the Mineral Act, and if within 90 days of the publication of this notice you fail or refuse to contribute, $300, your portion of such expenditure, together with the costs of this advertisement, your interest in the said mineral claim will become the property of the undersigned under section 4 of the Mineral Act Amendment Act of 1900.

Dated at Greenwood, B. C. this 10th day of September, 1914.

W. H. RAMBO,
Co-Owner.

A stalwart young German applied for a position on a farm. As he walked into the barn he addressed the farmer; "Hey, mister, will you job me?"

Will I what?"

"Will you job me? Make me work yet."

"Oh I see; you want a job." said the farmer. "Well how much do you want a month?"

"I tell you. If you eat me on der farm I come for fife dollare, but for twenty-five dollars I eat myself at Schmidt's."

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon: If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.
