Most people are in a hurry; they have little time to waste.
When you are in a rush, think how the telephone will help
you. It reaches everywhere. Its use is economical.

They say "The more hurry, the less speed," but that
originated in the days before the telephone. Now it is "The
more hurry, the greater speed," for the action of the telephone

Knows No Friend

The inspired German press is at
present engaged in making veiled
threats against the Scandinavian
countries, Norway in particular.
The journalists are also discussing
Holland's neutrality in quite an
outspoken way. Whatever is be-
hind the animus, it is certain that
Germany would attack any one of
the countries if it suited her mili-
tary purpose. The German spear
knows no brother. — Montreal
Gazette.

On Tuesday afternoon next at
4 p. m., sharp, an Honor Roll to
the ex. teachers and pupils of the
Public School who have sacri-
ficed their all to fight for free-
dom and liberty will be unveiled
at the Public School by the Hon.
J. D. MacLean, Minister of Educa-
tion. The public are invited,
and it is hoped that a very large
number of the citizens will re-
spect the sacredness of the occa-
sion and be present at the unveil-
ing of the Honor Roll, thereby
showing their loyalty to the
cause for which these heroes have
made great sacrifices, and in
some cases paid the supreme sacri-
fice. We cannot all fight, but
we can make a great effort to be
present on Tuesday next, and pay
our silent tributes to a band of
heroes from our own midst.

the name have been promoted con-

work, and may be demoted if they
are unable to do successfully the
work of the new grade. In the
majority of cases the pupils have
one very weak subject, which
should be improved, if in no other
way, by extra home study.

Leper at Poker Game

Wilkesbarre, Pa.—According to
testimony offered in the mayor's
court, Joseph Norman, a leper,
who is supposed to be under strict
quarantine night and day, left his
home at night and went to the
home of a neighbor, where he en-
gaged in a poker game.

A fight occurred according to the
testimony, while the game was on,
and efforts were made on the part
of some of the poker players to
steal a \$3 pot.

While the police were getting to
the scene to make a raid Norman
left by the back way, climbed over
several fences and entered the
house which has been his prison
for the past eighteen months. It
is costing the city and the central
poor board \$3,000 annually for the
care of Norman and his family and
for guarding his home.

A sweet little girl at a party was
being questioned about a beautiful
doll she had just received for

my doll's head comes off just like
Mummy's!"
