GERMAN HOSTILITY.

THE GERMAN PRESS CONTINUES ITS CAMPAIGN OF ABUSE OF AMERICA.

Base and Selfish Motives Attributed to the United States.—Collections Being Made in Aid of the Spanish War Fund.—Report That Spain Will Cede the Phillippines to France.

Berlin, May 28.—With few exceptions the German press continues its campaign of abuse of America. The conservative, central and national liberal papers are specially bitter, while the liberal and radical newspapers do not disguise their dislike of the United States and attribute base and selfish motives for its actions. Even a leading German magazine, in its June number, joins in these sentiments. An article in this paper, written by Herr Von Brandt, formerly German minister to China, winds up by doubtingly hoping that "At the end of the war the United States will show something which their political course has often lacked, namely, respect for the rights and dignity of others." The article terminates with a sarcastic reference to the alleged inactivity of the United States, attributing it to "a lack of courage," or to "unreadiness of its forces," and more especially to the notorious condition of insubordination of the American militia. The government is strangely silent and with the exception of occasionally denying alleged acts, which are construed as being unfriendly to America, nothing has been done by the "Inspired newspapers" to stem the current of the general, if sometimes veiled hostility permeating the whole German press. They have not even replied to the various articles of the Bismarckian press this week, in which Europe is warned of the "coming American swamping of markets," and a demand is made for coalition to combat this invasion before it is too late.

Everywhere in Germany collections are being made in aid of the Spanish war fund. Regarding the report that Spain has agreed to cede the Phillippines to France, it is said at the German foreign office that Germany has information that 'pour parlers' looking to this end have been proceeding for some time, mainly through Senor Leon Y. Castello, the Spanish ambassador at Paris and that the negotiations have assumed a rather definite shape.

BRITISH OPINION.

Two Leading Papers Comment on Questions Affecting Canada.

London, May 28.—On the question submitted to the Imperial Privy Council by the Dominion and Provincial governments of Canada, the judgment, given in favor of the provinces, leads the Times to say editorially that the council might well consider other questions in connection with the same matter, having already answered seventeen. The Chronicle says, editorially, concerning the present conference at Washington, with reference to a settlement of the questions between the United States and Canada, that it would be wise for both sides to have general chats on the large general questions, and sound one another's views before committing either side to a draft agreement.

BICYCLE RECORDS BROKEN

At Race Meetings at Willow Grove and Philadelphia.

Willow Grove, Pa., May 28.—The open race meet of the season at the Willow Grove bicycle race track was held today under the auspices of the American Cycle Racing Association. Jimmie Michael, the little Welshman, carried off the honors in an exhibition two miles, paced, breaking the world's record of 3.27 made by J. Platts Betts, at the Crystal Palace, London. Michael's time today was 3.26 2 5. He made the first third in 31 seconds, and the first mile in 1.39 4-5. The remaining three laps were covered in 2.17, 2.51 1-5 and 3.26 2-5. The other important event of the day was the match race of 20 miles, between Edouard Taylore, the French champion, and J. Frank Starbuck, of this city, paced. Taylore won by 25 yards.

Philadelphia, Pa., May 28.—The world's tandem competition record for one mile was lowered from 1.56 2-5 to 1.54 2-5 today, by Boulay and Cavalley, the French riders, on the new board track at Woodside park. The Frenchmen were the scratch men in the international professional tandem handicap, and broke the record in the second heat. The best they could do in the final heat was to get third place, Dippy and Boughton, 115 yards, and the Sims Brothers, 45 yards, beating them out.

SOMETHING DEFINITE.

NAVY DEPARTMENT HAS INFORMATION REGARDING THE FLEETS.

Admiral Cervera's Fleet is in Santiago Harbor and Commodore Schley's is Outside.—The Chances for the Escape of the Spanish Fleet.—Reassuring Advices from Admiral Dewey.

Washington, May 28.—The navy department received information today, which, for the first time, relieved the officials of the anxiety and doubt they have felt for the last few days and satisfied them on two vital points; first, that the American fleet, under Commodore Schley is outside Santiago harbor, and second, that Admiral Cervera's fleet is inside.

This information came from private sources, which naval officials regard as thoroughly reliable. Relying on the private advices received, naval officials believe that the military situation is simplified. With the Spanish fleet on the inside and the American fleet outside, it is said that the powers of mischief of the Spanish fleet, are at an end. In calculating upon keeping the Spaniards penned up in this fashion, the officials have taken into account the possible destruction of the Spanish fleet by one of the tropical cyclones that are due at this season. The American fleet in such case would be obliged to put and run for some neutral port, or to make its way by force into one of the Cuban ports for shelter. In either case there might be an opportunity for the Spanish fleet to make its escape, providing the commanding officers are willing to take the desperate chances of going out in weather heavy enough to compel the big American ironclads to seek shelter, unless we block the harbor by scuttling barges in their channel.

During the day the navy department posted a bulletin giving reassuring advices from Admiral Dewey. This was the only specific bit of information given out during office hours. It was a day replete with rumors. Some of them of a very sensational nature, but the various reports of sanguinary battles failed of verification and ultimately proved to be groundless as the reports reaching here disclosed.

BLANCO HEARD FROM.

Madrid, May 28.—General Blanco cables that Admiral Cervera's squadron is still at Santiago de Cuba and that the bulk of Admiral Sampson's squadron is blockading that port. Schley's squadron is watching the Yucatan passage.

CERVERA'S FLEET LOCATED.

The Gunboat Scorpion Brought the News from Cienfugos.

Key West May 28, 6 p.m.—Admiral Cervera is imprisoned at Santiago de Cuba. Advices to this effect were brought here this evening by an auxiliary gunboat which arrived from Cienfuegos, presumably with despatches for Washington.

Last Sunday the Scorpion left Cienfuegos and proceeded eastward on scout duty, going as far as Santiago de Cuba. Two of the auxiliary ships were then lying off there, apparently awaiting the arrival of the main division of the squadron.

After an uneventful trip, the Scorpion returned to Cienfuegos, but found Commodore Schley had gone, having left orders for her return to Key West.

The officers of the gunboat, when questioned as to Admiral Cervera's whereabouts, expressed no doubts of his presence at Santiago de Cuba. All was reported quiet along the southern coast of Cuba up to the time of her departure and nothing was known of Marblehead's rumored attack on the Cienfuegos blockhouse.

SPAIN WILL CUT CABLES.

Madrid, May 28.—Although news of the concentration of American warships off Cardenas in order to begin bombardment or to effect a landing is considered official it has not been confirmed by any member of the cabinet. Newspapers here claim that if the United States cut cables between Cuba and Porto Rico, Spain should do likewise, and cut all cables uniting the United States with the rest of the world.

SITUATION IN CUBA.

Insurgents Said to be Acting in Harmony with American Forces.

Key West, May 28.—The system of communication between the United States government and the insurgents has been so well established that the Cuban forces are working in perfect harmony with those of this country. Messengers pass between the insurgents and the United States vessels every day. Yesterday Ernest Castro arrived on the Annapolis with news from Matanzas province, and this morning Alfredo Lima was brought in by the Tecumseh, and Manuel Jovar, from eastern Cuba, by the Wampatuck. When the American troops land it will be with Cuban guides, and when they move inland they will be met by the veterans of Gomez and Garcia, a complete understanding with the insurgents, and conveying arms to them. There is no real difficulty in the way of landing small bodies of men on the Cuban coast at night. The shore, except at a few points, is not so well guarded as it was a year ago. Practically all the warships are out, even the monitors, except the Terror. The hospital ship Solace is still here. News of a great battle is expected within a few days.

RAN THE BLOCKADE.

Port au Prince, May 28.—It is believed in Haytien circles here that the Spanish squadron has left Santiago de Cuba in order to meet the U.S. squadron. According to a report which has reached this place, a German steamer, with 50,000 sacks of rice on board, has run the blockade and entered the port of Havana

NO FOREIGN INTERVENTION.

Diplomats State That the Powers will not Intervene.

Washington, D. C., May 28.—The diplomatic representatives in Washington, of the great powers, without exception, hold the view that there is no present foreign intervention in the present war and that there is no present prospect of peace overtures, through arbitration or other tender of good offices from foreign sources. This was stated today at three of the leading Embassies. It was given with added emphasis, in view of the constanty reiteration from London and other foreign sources that some sort of foreign intervention towards terminating the war was likely to mature.

DID NOT CATCH HER.

Key West, May 28.—No further intelligence has reached here of the United States gunboat Bancroft's chase of a mysterious steamer, supposed to be a Spanish auxiliary cruiser. When sighted the night before last, 15 miles off here the Spaniard was standing in a southerly direction and the Bancroft began the pursuit at a decided disadvantage to her. The non-appearance of the gunboat and the lack ot news, tends to the belief that the Spaniard got away. A sharp look out is still being kept.

SILVER QUOTATIONS.

New York, May 28.—Bar Silver, 57⅝.

FRENCH EXPELLED.

AFRICAN NATIVES DRIVE OUT A FRENCH OFFICER AND SIX MEN.

The British Flag Hoisted over Nikki, to the Great Joy of the Natives.—The Chief of the Town Places His People Under British Protection.—The French Demand That the Britishers Withdraw.

London, May 28.—A despatch from Lokoja, in the territory of the Royal Niger Company in West Africa, says that the natives at Nikki drove out a French officer and six men who were established there. No explanation is given of the natives. After the French had been expelled the British troops in the neighborhood entered the place and hoisted their flag. The natives are rejoicing over the British occupation of the town. The French have protested and demanded that the British withdraw. They have established a post with the French flag flying outside the walls. The town of Nikki was one of the original causes of the dispute between England and France. According to Captain Leggard, in the British service, the chief of that town signed a treaty placing his people under British protection. Later the French raised their flag over Nikki, and it has been there ever since.

The Japs Evacuate Wei Hai Wei, and the British Take Possession.

Shanghai, May 28.—Wei Hai Wei has been evacuated by the Japs. Twenty Chinese arrived there on May 20th, and took possession. The Tao Tai, or governor, landed on May 21st, and was received by the Japanese general. The Tao Tai bowed and said "Thankyou." The general bowed stiffly and proceeded to his headquarters, where he handed to the Tao Tai a plan of each of the forts. Silence reigned throughout. The Tao Tai nodded upon receiving each plan. The proceedings lasted half an hour. The Japanese left Wei Hai Wei immediately. The British cruiser Narcissus arrived at Wei Hai Wei on May 20th, and landed forty-five marines on May 21st, taking possession of the place, the Chinese disappearing. The Narcissus landed two flagstaffs in the afternoon, which were erected west of the fort. No flag was hoisted, although the British appear to be in full possession. Sentries have been posted and the marines are quartered in the barracks. The guns have all been removed, but the forts are in good condition.

THE POPE TO MEDIATE.

London, May 28.—According to a despatch from Rome to the Sunday specials, the Spanish ambassador visits the Pope daily. The Pope in conjunewith the French government will, it is said, presently again endeavor to mediate between Spain and the United States.

ELUDED HER PURSUERS.

Madrid, May 28.—It is announced that the Spanish torpedo destroyer, Terror, has arrived at San Juan de Porto Rico, having evaded the American warships, which were watching for her.

ITALIAN CABINET RESIGNS.

Rome May 28.—The Italian cabinet has resigned. King Humbert has instructed the Marquis Di Rudini to reorganize the cabinet.

ORNAMENT A WINNER.

New York, May 28.—Ornament won the Brooklyn handicap today; Ben Holliday second; Sly Fox third. Time 2.10.

ELECTRIC LIGHT BY-LAW

It has not been the habit of The Miner to criticize and carp at the city council, in season and out of season, but we are constrained to protest against the provisions of the proposed electric light by-law, which would authorize the council to borrow $40,000 for the purchase of the existing system of electric light.

While The Miner is in favor of the city possessing all the franchises, yet such advantages can be purchased at too high a figure, and from investigations we have made, we understand that the existing system could be duplicated for less than half the proposed price, and we fail to see any valid reason for dissipating the city's resources and sale manner.

The by-law is to be voted on June 9th and the time between this and then could not be more profitably spent than in discussing this measure.

A public meeting should be called, and the subject well threshed out. The people of Nelson will then have a chance of knowing what they are to get for their money, and the promoters of the by-law will have an opportunity of showing that the people are getting their moneys' worth, though we confess we are sceptical that this can be established. We believe that this matter should be publicly ventilated, and to that end we shall be pleased to publish any communications bearing on the subject.

THE PROSPECTING SEASON

One of the most remarkable features of the season which is now opening, has been the unparalleled activity shown by the prospectors of this district, and the officials at the Recorder's office have all they can do to keep ahead of current business; as will be readily understood by those of our readers who peruse our regular lists of locations and mining transfers.

Perhaps the most encouraging part of it all is the immense amount of assessment work already recorded, a fact which testifies more eloquently than anything else can do to the confidence which our prospectors repose in the mining districts in the vicinity of Nelson. No prospector will undertake the trouble and expense of doing assessment work on his claims, unless he has confidence in their future.

All the way down the Nelson and Fort Sheppard Ry. from Nelson to Ymir, numerous locations have been made, extending back for several miles on either side of the line.

Three or four years ago the attention of prospectors and mining men was largely diverted from Nelson by the rich discoveries in the Slocan country; then came the Rossland boom, while the Boundary district and East Kootenay have also claimed a share of their attention. Thus among a certain section of the community it became customary to speak of Nelson as a commercial and railroad centre, but with a tendency to undervalue our mineral resources.

All these views are now daily being shown to be erroneous; on Toad mountain, on the creeks flowing into the Kootenay river to the east and west of Nelson, down the line to Ymir, in fact all round our city rich mines in various stages of development are to be found. We have, with perhaps one exception, the largest and best mine in Kootenay at our door, with one of the best equipped smelters in North America, running night and day.

Nelson has no cause to be ashamed of the past, and, with its manifold natural advantages, no reason to be afraid of the future.

GAMBLING IN STOCKS.

We observe with great regret an account, in the Rossland Miner of yesterday, of a new system of buying options on stocks, which is about to be adopted by at least one firm of Rossland brokers.

On an attentive perusal of the article it is evident that it is nothing but a disguised form of what is known in the great stock markets of the world as "gambling on margins." This particular form of gambling—for gambling it is, pure and simple—has been responsible for more thefts, embezzlements and general dishonesty than any others. It is more dangerous on account of its apparent harmlessness and in that it appeals chiefly to those who can least afford to lose.

We regret that it is with great regret we see the pernicious system introduced into Kootenay.

In another column will be found an account of an interview with Mr. A. H. Clements, treasurer and director of the Kootenay Lake General Hospital, which explains clearly his position with regard to the admission of the colored man Smith. Mr. Clements' statements show conclusively, that, whatever his private sentiments may have been he did not allow himself to be influenced by them in his action in the matter, and that if Smith was not admitted it was the fault of his friends, who did not make the application in the prescribed way. In fact, it appears that Mr. Clements could not have refused Smith admission, had he been regularly presented. It is a matter for regret that so zealous and industrious an officer as Mr. Clements should be thus attacked, and that a local contemporary should make such statements without taking the trouble to verify its facts.

WAR EAGLE STOCK.

The Montreal Gazette Refers Financially to the Big Mine.

Montreal, May 28.—The Gazette, financially referring to the regular listing of War Eagle mining stock on the Montreal stock exchange, says: "We understand that before Mr. Gooderham would allow the stock to be listed on the stock exchange or pay a dividend be called in two of the most eminent mining experts of the United States, and it was only after their report that the mine had sufficient net profit in sight to enable the company to pay a dividend for some years to come that one was declared. It will no doubt take some time to educate the investor up to the idea that mining stock can be purchased as an investment. The fact of Mr. Gooderham being president of the War Eagle Company, and Hon. Geo. A. Cox, one of the directors, will do much towards creating confidence in the property. The War Eagle is now shipping one hundred tons of ore daily, which enables it easily to pay a monthly dividend of 1¼ per cent. In October they will be able to double the quantity, and, if they so desire, they can also double the dividend.

PERSONAL MENTION.

Mr. Welsh expects to return to Tor- onto in September, where he will complete his theological course at Mc- Master Hall.

Rev. Mr. Stackhouse of Vancouver arrived on Friday evening, and is the guest of Mr. and Mrs. Parkinson, Silica street.

Mr. W. A. Macdonald and his daughter Helen, left Brandon, Mani- toba, on Friday and will arrive in Nelson early in the week.

Miss Nellie Delmage has been visit- ing her mother and sister in Indiana for the past three weeks but expects to spend the summer in Toronto, Orillia, St. Mary's and other Ontario towns.

The Rev. Mr. Frew has rented a house away out on Robson street west of Stanley street, and, living with him are the Rev. Mr. Welsh, Mr. Crease, and Mr. Kydd, manager of the Mer- chants Bank of Halifax.

Miss Hodgins, younger daughter of Mr. Thomas Hodgins, Q C. of Toronto, is spending the summer with her brother, Mr. Arthur E. Hodgins, and has been the guest of honor at several little parties lately given by friends of Mr. and Mrs. Hodgins.

Mr. and Mrs. J. Roderick Robertson and family expect, at an early date, to move into their cottage on the other side of the lake. Mr. J. J. Campbell's family have already taken up their summer quarters over there, and other families are contemplating a semi- camp life in the same neighborhood.

Mrs. Taylor, who has been staying with her daughter, Mrs. Harry E. Macdonell, since last Septemoer, will leave on Sunday evening, via the C.P. R. for Toronto, visiting in Winnipeg and Fort William en route. Mrs. Taylor and Mrs. Macdonnell returned just a week ago from a delightful three week's trip to the Pacific coast.

The members of the Presbyterian Ladies' Aid Society are feeling amply repaid for the trouble they have taken in getting up concerts and entertain- ments of different kinds during the past eight months. Last fall they purchased and undertook to pay for the two lots directly west of their church on Victoria street, and already they have paid $200 in cash, $26 inter- est and have $100 more on hand towards their next payment. Con- certs under their auspices, will be given in the Salvation Army barracks next Monday and Tuesday evenings by the Mackenzie, Glover Company, when they expect to realize a still further sum for their object.

MINING NOTES.

Work has been resumed on the Toronto group on Eagle creek. It is proposed to resort to ground sluicing in the first in- stance, the water for this purpose is ob- tained from Sandy creek.

The London & British Columbia Gold- fields company are extending their wagon road from Ymir some two-thirds of a mile to their intended mill site. The engi- neers and surveyors are now engaged in locating the route. They expect to have their machinery in this season.

The Whitewater Mines Ltd. have be- gun shipping again, but the roads are still bad owing to the unusual amount of snow on the mountains. Large and regular shipments will, however, be re- sumed as soon as the roads are in good condition.

A new steam hoist has been installed in the Athabasca mine and is giving every satisfaction, and the wagon road is nearly completed. The ledge has been struck in the adit tunnel at a depth of 140 feet. The face of the tunnel is all in ledge matter, but the width of the ledge has not yet been ascertained.

Mr. Bellamy reports a considerable amount of activity on the properties on Eagle creek. The stamp mill at the Poorman is now running. Mr. Bellamy informs us that a party of capitalists are on their way to Nelson to inspect the Morning and Evening claims, on Eagle creek above the Toronto group, belong- ing to the Morning and Evening Co. of which he is the Kootenay representative. The directors, who reside in Spokane, will hold a meeting shortly to decide whether to accept the offer made them, or put in a 50 ton concentrator and work the property themselves. It is a galena proposition and there is a large quantity of ore on the dump. The ore will concen- trate at 10 to 1.

EXPLOSION AT HAZARDVILLE

Hazardville, Conn., May 28.—An ex- plosion occurred at the works of the Hazardville Powder Co. shortly after 9 o'clock this morning. Two men are re- ported killed.

TREASURER CLEMENT'S REPLY

To Newspaper Statements Regarding the K. L. G. Hospital.

A. H. Clements, Director and Treasurer of the Kootenay Lake General Hospital was seen yesterday afternoon in regard to the charges made in local papers, that he had refused admission to the hospital for a colored man named Smith. Mr. Clements in explanation of the circumstance said that Mr. Hillyer came to him and said that he wanted to get "Boss" Smith into the hospital, as he was ill and in destitute circumstances. In reply, Mr. Clements asked if he had a certificate from the medical officer as required by the by-laws. Mr. Hillyer replied that he had seen the Doctor but had no certificate. Mr. Clements then stated that personally he was opposed to the admission of colored people to the hospital, but as he was only one in a directorate of twelve, he (Mr. Hillyer) should see some of the other directors and if they wished to give the required order it would be all right.

Mr. Hillyer then asked whether there was anything in the way of bedding, etc., that could be got to make Smith comfortable. To this Mr. Clements replied that if there was anything in that line at the hospital, tha was not in use, he had no doubt that it could be procured.

The matter was then dropped between Mr. Hillyer and Mr. Clements, until the articles appeared in the local papers.

Mr. Clements still maintains his position in regard to the admission of colored patients, but wishes it understood that in taking this position he is only voicing his own opinions and not those of any other member of the board.

The rules of the hospital are that before a patient can be admitted, a certificate must be obtained from the medical officer stating that the patient is in need of hospital treatment. This certificate must then be countersigned by two directors. It will thus be seen that had Mr. Clements been willing to admit Smith he could not do so on his own responsibility. He does not in any way object to criticism of his actions on the hospital board but wishes that the public should be fairly informed as to the true facts of the case.

In the matter of the admission of pauper patients Mr. Clements further states that when Mr. Hillyer spoke to him in reference to the matter, he told him to send in a communication so that it could come before the board in the regular way, but no such communication was ever received.

About three weeks ago there were ten patients under treatment at the hospital of whom no less than nine were being treated free, and the average is about four free patients to one pay patient.

A FARMER KILLED.

North Gower, May 28.—Dan Moewen, a farmer, who resides about half a mile from here was found dead in a field last night. He had been kicked by a horse.

WANT GOVERNMENT AID.

Toronto, May 29.—The following is a copy of a cablegram dated London May 28th: "Right Hon. Joseph Chamberlain, secretary of state for the colonies, in reply to a deputation of artillery officers and volunteers, who requested the government to subscribe to a fund established for the purpose of defraying the expenses of a team, proposed to be sent to Canada to compete with Dominion artillerymen, said, it was not an affair for the government, but for the war office."
