THE CITY COUNCIL.

ROUTINE BUSINESS TRANSACTED AT YESTERDAY AFTERNOON'S SESSION.

Sidewalk Petitions Referred to the Public Works Committee.—The Debenture by-laws Receive their Third Readings and will be Submitted to a Vote of the Ratepayers on June 9th.

The regular meeting of the city council was held in the council chamber on Monday afternoon at which there were present Acting Mayor Teetzel in the chair, aldermen Hillyer, Malone, Gilker and Madden.

A petition from the residents of Carbonate st. between Hall and Cedar sts., asking that the sidewalk on the south side of Carbonate st. be extended east to Cedar was received and referred to public works committee.

A communication was received from the secretary of the Nelson Boat Club asking the council to open up Josephine st. to the lake front and to construct an approach to their wharf.

After some discussion as to the right of the city to grant the request the matter was referred to the public works committee.

Bylaws no. 32, 33, 34 and 35, giving the city power to borrow money to the amount of $65,000 for the purposes of acquiring ground for a cemetery; extending the water works system; completing the sewerage system and purchasing the electric light plant were put through their final stages and will be submitted to the vote of the people on Thursday 9th June.

The poll will be held for the east ward in the council chamber and in the office of J. Keith Reid, Baker st., in the west ward.

The following resolution, moved by Alderman Hillyer and seconded by Alderman Malone was unanimously carried:—

"Whereas the government of this province are about to establish a Land Registry office at the city of Nelson for Kootenay;

Therefore this council hereby petition the Lieut.-Governor in council to appoint a resident of this district registrar and strongly recommend Mr. G. L. Lennox as an able and desirable person for the said office, whose appointment would meet with the unanimous approval of this council, the citizens of Nelson and the whole district.'

A number of accounts were ordered paid.

On motion of Aldermen Hillyer and Madden, the acting mayor was authorized to provide care for an indigent person in the city, and on motion of Aldermen Malone and Hillyer, to purchase a ticket for Calgary for another.

The acting mayor was also authorized to provide a suitable place for impounding dogs.

Council then adjourned, to meet on Monday, 30th inst.

QUEEN'S BIRTHDAY.

The Three Day's Celebration Commenced at Victoria.

Victoria, May 23.—The three days' celebration of the Queen's birthday opened today under the most favorable auspices, the day being bright and cool and the attendance of visitors large. The miners' race in the morning was amongst the first events and produced a great deal of amusement, the task of catching, loading and directing untamed burros proving a very difficult one. In the race for pack animals there were six enteries, including three by Ashcroft men, Messrs. G. C. Gattress, R. E. Jameson and Geo. Johnson, the others being from Victoria, Messrs. H. Stadthagen, W. Snider and W. J. Deary. The Ashcroft men took all three prizes, in the order given above.

The bicycle races in the afternoon drew to the Oak Bay Park, the largest crowd yet recorded. There were many well contested events, the summary being as follows:

One mile, novice, Allen Parr, Victoria, first; Henderson, Vancouver, second; Soule, Victoria, third. Time 2.57.

One mile, open; Cotter, Tacoma, first; Hunter, Nanaimo, second; Christopher, Victoria, third. Time, first heat, 3.07; second heat, 2.51; Final, 2.20.

Two miles, lap race; Cotter, first; Hunter, second; Parr, third. Time, 5.23.

Five mile open; Cotter, first; Cameron, second; Hunter, third. Time 13.43.

One-third mile, open; Hunter, first; Blackmore, Vancouver, second; Cotter, third. Time, 48 seconds.

Exhibition half-mile; W. F. Penwill. 1.02 1-5; 1.01 4-5.

The yacht races were duly sailed this afternoon, there being a large number of competitors, from the Sound, as well as local craft, and this evening the annual meeting of the Northwestern Yachting Association was held. It was decided to have the next race meeting of this body in Seattle.

LATEST WAR NEWS.

NO DESPATCHES RELATING TO FLEETS GIVEN OUT BY NAVY DEPARTMENT.

Spain's Protest Against American Ships Flying the Spanish Flag.—Privateering Likely to be Resorted to by Spain—The Monterey to Start for Manila in Five Days.

Washington, D. C., May 23.—It was stated at the Navy Department today at the close of office hours that no despatches of any kind relating to the movements of the fleets or the prospects of an engagement had been received during the day and the only despatch received related to an inconsequential prize case. As the ships are now at sea there is no expectation of reports until a decisive engagement occurs and a despatch boat gets to a port or until it is found Cevera has eluded search. In the meantime, there is a complete lack of official data by which to forecast the coming engagement. A report was current during the day that the big battleship Oregon had arrived at Key West, but the department officials would notice it only by entering a general denial that word had been received of any important vessel movements or arrivals. Late in the day the Associated Press despatches from Madrid, giving the sharp debates in the Cortes over the alleged flying of the Spanish flag by American warships, created much comment in naval circles. Spain's protest to the powers that the use of the flag was "cowardly and iniquitous" was dismissed by naval officers with the statement that international law writers agreed on the right to use an enemy's flag for purposes of deceit, so long as the flag is hauled down before a shot is fired. The United States naval regulations make specific provision on this point. The statement made by the Spanish minister of the interior that the government is likely to resort to privateering does not cause any apprehension among officials here. One of the highest authorities of the Navy Department said Spain could adopt privateering if she felt it to be to her interest without waiting for this country to give any pretext for such action. It is felt, however, that Great Britain, Germany and France will have considerable to say in case Spain resorts to privateering. The commerce of these countries with the United States would suffer very severely by Spanish privateering and its effect would he far more disastrous to these foreign interests than to the shipping of the United States. It was this influence of Great Britain, Germany and France which forced Spain reluctantly to forego privateering and it is not thought probable these foreign influences will now consent to have their commerce destroyed. The French government has taken the opportunity to pay a graceful compliment to this country by informing the French embassy that an artist has been instructed to make a copy of the famous picture "The Battle of Yorktown" which is one of the priceless treasures of the French national gallery at Versailles, to be sent to the embassy at Washington. The picture shows the notable incident in American history when the British commander Lord Cornwallis surrendered to General Washington. The picture is about 10 feet long and six feet high, the figures being life size.

The announcement by way of Paris, that the Italian government had protested against the continuance of the blockade of the Cuban coast on the ground that it was ineffective met a prompt denial in the state department and it will be stated definitely that neither in Washington nor in Rome has any representation of this subject been addressed to the United States government as to the allegation that the blockade is ineffective. It is said on the contrary, it has been singularly successful and that so far as known, not a single neutral ship, subject to detention, has passed the lines, without the consent of the government. The Montserat, it is true, did enter Cienfuegas harbor before the blockading ships had had time to get around to the south side of Cuba, and establish the blockade, and she did manage to get out at night, but she is a Spanish ship, and Spain is perhaps the only nation in the world that has lost the power to enter a protest against a blockade, being a combatant herself. It is only for neutral powers to enter such protests and none of them has, as yet, the slightest pretext for such an action. With the beginning of the present week, all Spanish vessels in United States ports, which sailed after the outbreak of the war, are subject to seizure, as well as Spanish merchantmen found on the high seas, save where they left port for the United States before April 21st last. The president's proclamation of war allowed such ships lying in American ports or bound for them, thirty days in which to discharge cargo and also ensured them safe passage home. That period of time expired on Saturday night. This, it is expected, will tend to free the state department from complications. It is said at the navy department that it will be at least five days before the Monterey can be started on her long voyage from San Francisco for Manilla, the delay being on account of the preparations that must be made for the very exceptional service required of the vessels.

A BATTLE RAGING.

Port au Prince, May 23.—The following despatch has been received from Port de Paix, dated Saturday last, land telegraph communications having been interrupted up to today; a furious cannonading was heard on the 19th (Thursday last) in the direction of the north of Cuba. Today Saturday, the cannonading continues in a very lively fashion."

EXCHANGE OF PRISONERS.

Atlanta, Ga., May 23.—Colonel Vincent de Cortijo Dr. Isadore Julian and two of the Spanish privates all of whom have been under arrest at Fort McPherson barracks were taken away from Atlanta last night. The prisoners will be taken to Key West and thence to Havana, where they will be exchanged for the American newspaper correspondents Thrall and Jones.

SPANISH TROOPS SAILING.

Gibraltar, May 23.—The Spanish steamer Rabal, of the Compania Trans-Atlantica line, embarked a battalion at Algecieras, on the west side of the bay of Gibraltar, and sailed for Ceuta Morocco opposite Gibraltar today.

LLOYD'S AGENT REPORTS.

London, May 23—Lloyd's agent at Para, Brazil, under today's date, cables that three American men of war arrived there at nine o'clock this morning from Rio Janeiro.

The only American warships known to be on their way from Rio Janeiro are the Oregon, Marietta, and Nitrheroy. The Oregon was last officially reported by Lloyd's at Bahia, Brazil on May 9, and she is believed to have proceeded at midnight the same day. The distance from Bahia to Para is about 1600 miles, roughly speaking, and if Lloyd's report is correct the Oregon and her consorts have been steaming very slowly. Other reports have placed the Oregon at Barbardoes and even nearer still to the United States.

ENGLAND PREPARING.

If the War Becomes General Great Britain Will be Ready.

London, May 24.—The Daily Chronicle, commenting on a despatch from its correspondent at Kingston, who says that England has thrown eighteen months' supplies into Jamaica, where all the officers have had their leave withdrawn, asks if England is going to take a hand in the Hispano-American war, and couples its correspondent's report with the rumor current in Liverpool yesterday that France is trying to buy the Canaries for $30,000,000.

THE LAST RITES.

THE REMAINS OF MR. GLADSTONE TO BE TAKEN TO LONDON ON WEDNESDAY.

Will be Immediately Conveyed to Westminster Hall to Avoid the Crowds—The Queen has Assented to a Public Funeral and the Erection of a Monument in Westminster Abbey.

Hawarden, May 23.—The body of Mr Gladstone, uncoffined, is lying on a couch in the library of Hawarden castle. The room is called the Temple of Peace. Tomorrow it will be viewed by the parishioners. The coffin will be placed in the centre of the nave of Hawarden church on Wednesday, and lie there in state until five o'clock in the afternoon, when a procession will be formed and the bier carried to Broughton railway station, where it will be placed upon the train for London. The family servants, friends, tenantry and local officials will walk behind the bier, which will be borne by relays of colliers, workmen on the estate, tenants and neighbors. The remains will arrive in London about midnight, and will be immediately conveyed to Westminster Hall to avoid the crowds.

MONUMENT FOR GLADSTONE.

London, May 23.—In the House of Lords today Lord Salisbury announced that the queen had assented to the addresses of the Houses of Lords and Commons, praying Her Majesty to grant a public funeral to Mr. Gladstone and sanction the erection of a monument in his honor in Westminster Abbey.

GREENWAY TO BE KNIGHTED.

The Toronto Mail and Empire Thinks he has done Nothing to Deserve it.

Toronto, May 23.—The Mail and Empire says editorially: "The party organ (the Globe) has been instructed from Ottawa to say that premier Greenway will also be honored with knighthood. Obviously premier Greenway has been recommended by Sir Wilfred for that distinction, similar to that worn by Sir Pantaleon. What has he done? He placed his heel upon the necks of Sir Wilfred's co-religionists and held it there, pretending he was governed by principle, until his federal friends got office; then he and his principal colleague, Sifton, bargained for the amelioration of the conditions. Sifton sold out for a Federal portfolio; Greenway was promised knighthood. The knighthood was due last year, but it did not come. This year Sir James D. Edgar and Sir Pantaleon Pelletier are officially mentioned, but there is no Sir Thomas as yet. Plain Mr. Greenway may think Sir Wilfred is playing him false, but the organ has assured him that he has been put on the list, and his name may yet appear with the title which his party services have earned; so that democrats have found new use for the honors which Her Majesty confers.

TO PATROL GRAND BANKS.

A British Officer Urges the United States to Send a Fast Cruiser.

St. Johns, Nfld., May 23.—An officer from one of the British warships on the west coast of this island arrived here tonight to consult with the governor, Sir Herbert Murray, as to the contingencies of the arrival of the Spanish fleet in these waters to obtain coal. The officer desires that his name should not be mentioned, but he urges Sir Herbert Murray to advise the American government to send one of its fastest cruisers to patrol the Grand Banks for a week or more, that the cruiser on sighting the Spanish boats might give the earliest possible notice of the movement of the enemy by making immediately for St. Johns or Cape Race and telegraphing its information to the United States.

TUESDAY, MAY 24, 1898.

THE QUEEN'S BIRTHDAY.

Once more the 24th day of May has come around, a day set apart by all sections of the Empire as one of special rejoicing—the birthday of our Gracious Sovereign Queen Victoria.

It is probably unnecessary to remind our readers that today Queen Victoria attains the great age of 79 years, and will shortly consummate the 61st year of her reign. Throughout all these years there has been no change in the feeling of loyalty and affection entertained by all British subjects towards their sovereign, unless it has of late years deepened into the profounder one of veneration.

Did any scoffer ever suppose that the loyal words spoken and the loyal deeds performed on previous occasions such as this were but conventional words and deeds, the spontaneous outbursts of love and loyalty that greeted our Queen throughout the great pageant of last year's Jubilee would have convinced him that such were not lip service merely but came from the heart.

The whole civilized world will join with the colonies and the mother country in offering heart-felt good wishes to Queen Victoria on her natal day, and, in that great chorus of salutations, we may rest assured that Canada's voice will not be the least distinctly heard when the messages of love and congratulations burst forth from all parts of the Dominion.

The innumerable achievements and triumphs of Her Majesty's great and glorious reign were recently so exhaustively chronicled at the time of the Jubilee that it would be well nigh impossible to add any thing on this occasion that would be of public interest. It is hard, nevertheless, not to refer momentarily to the great strides that have been taken by science and civilization during this momentous reign. Steam and electricity, the twin handmaids of science, with their myriad applications for the comfort of man have been almost entirely developed during the past 60 years, and had we the space or were this the moment, such instances could be multiplied a thousand fold; but the two given are probably the most far reaching in their effects.

We have been free from great woes for more than forty years, and during that period the wealth of England and her colonies has been most amazingly increased and multiplied.

When we remember the tender affection and solicitude that has been ever shown by Queen Victoria to her subjects we may rest assured that in praying that the storm clouds of war that now seem to be darkening our political horizon may pass away and that the blessings of peace may be continually multiplied unto us, we are echoing the heart-felt prayer of our beloved Sovereign.

By the death of Edward Bellamy, author, novelist and humanitarian, which occured at his home in Chicapee Fall, Massachusetts, on Sunday, the literary world loses one of its brightest lights. His theories as outlined in his greatest work, "Looking Backward" are considered by most people to be faulty, but no one can deny that the object of his writings was to better the condition of mankind in general.

CHURCH PARADE.

The Members of the Sons of England Benefit Society attend Service.

Owing to the rain the church parade of Nelson's Queen lodge of the Sons of England Benefit Society on Sunday afternoon was not so largely attended as it otherwise would have been. A considerable number of the brethren, however turned out and marched in procession to the Church of England, headed by the Nelson brass band, playing patriotic airs.

At the church a large congregation had assembled and entered heartily into the service.

The Rev. H. S. Akehurst preached a very appropriate sermon from the text "Jesus of Nazareth, a man approved of God" Acts II, 22.

After a few introductory remarks on the work of the Sons of England and hopes for a long period of prosperity and active usefulness for the Nelson lodge the preacher dwelt upon the subject of true manliness, pointing to Jesus as the only perfect pattern. After alluding to the greatness of our own empire as a result of devotion to God in the past, and to the Roman empire as one founded on a religion, which though it seems to us an absurd and even senanous one was none the less real to them, and could kindle glorious aspirations and noble sentiments, he drew from it the simple explanation that no man, and therefore no nation, can do anything great and good, manly, gentle or noble, so long as he cares only for himself and acts from selfish motives; while it is religion only which teaches and urges him to care for others.

In the course of the sermon Mr. Gladstone was alluded to as a brilliant example of a truly manly, gentle and noble life, of whom, even in spite of different political opinions, every Englishman might well be proud as a fellow countryman, as a great man mourned not only by his own people, but by those of other nations, especially the down trodden ones of the earth, and above all as a life which bore witness to an ever abiding sense of duty to God and man. Concluding the preacher urged upon his hearers, while naturally proud of their earthly citizenship, never to forget the allegiance due to the King of Kings and Lord of Lords.

At the conclusion of the service the audience united in singing "God save the Queen."

DR. SUTHERLAND'S VISIT.

Rev. A. Sutherland, D. D., of Toronto, general secretary of Missions of the Methodist church in Canada is sojourning for a few days in the city. His office comprises the oversight of the whole mission work from Newfoundland on the east to Vancouver Island and beyond the waters of the broad Pacific to Japan and China. He is one of the most able and eminent men in the Canadian Methodism of today and his name is a household word among the people of his denomination.

The announcement that Dr. Sutherland would preach both morning and evening drew large congregations to the Methodist church on Sunday last. The seating capacity of the church was not sufficient for the evening gathering. The commanding presence, the pleasing delivery, the forceful language, the intense earnestness, and the spiritual power which marked these masterly pulpit efforts exerted an influence and left an impression upon his hearers that will not soon be effaced.

Dr. Sutherland is announced to deliver a lecture on Wednesday evening in the Methodist church upon the subject "Leaders of men" when he will doubtless be greeted by a crowded house.

A MINING HORROR.

Dortmound, Prussia, May 23.—At nine o'clock this morning thirty bodies had been recovered from the Zollerin mine, in which fire broke out yesterday. It is believed that at least forty-five miners have perished.

GENERAL LOCAL NEWS.

EVENTS OF INTEREST IN AND AROUND NELSON.

Brief Mention of Happenings in the District During the Past Few Days.

D. D. Birks and Mrs. Birks of Rossland are at the Hume.

J. E. Mitchell, W. J. Swiss and John Keen of Kaslo registered at the Phair, yesterday.

G. M. McGregor, representing the Lincoln Paper mills, of Merriton, Ont. is in the city.

F. C. Gamble, C. E. has gone to Revelstoke to inspect the mattrassing of the river bank.

Horace W. Buckley, Neil F. McKay and G. Alearson, Kaslo registered at the Hume yesterday.

Chief of Police McKinnon appeared on the street yesterday in his new uniform, which fits him to perfection.

H. R. Bellamy returned yesterday evening from a visit to his claims near Ymir, which he reports are looking well.

There will be a company parade of the Nelson Company of the Kootenay Rifles in the Carney building on Friday evening next, May 27th, at 8 p.m.

The prospects are that there will be very few people left in the city today. The different excursions to Kaslo, Ymir, Silvertonand Rossland will all be well patronized.

The Revelstoke Herald states that Hon. Mr. Turner and Attorney General Eberts intend to take a trip through the Kootenay as soon as possible after the session.

There will be no issue of The Miner tomorrow morning, in order to allow the staff to celebrate the Queen's birthday and enjoy the excursions to the different towns in Kootenay in which celebrations are being held.

The formal opening of the Queens hotel under the new management will be held on Friday evening next when a grand ball will be given to which Mrs. Clarke extends a cordial invitation to all her patrons and friends.

H. Byers arrived from Kaslo yesterday and will open out in the hardware business in the store recently occupied by John A. Turner. Mr. Byers intends to put in a complete stock of everything required in his line.

A serious accident by which four men lost their lives occurred at Bermingham and Godfrey's construction camp on the Crow's Nest Pass one and one half miles from Bullhead last week, through a landslide.

The members of the Nelson fire brigade had a final practice run yesterday evening, preparatory to taking part in the competition at Kaslo today, when good time was made. It is confidently expected that the hose reel prize will come to Nelson on the steamer Kokanee tonight.

Rev. Dr. Sutherland, Secretary of the Mission Board of the Methodist church, and one of the most eloquent divines in Canada, will deliver a lecture in the Methodist church here on Wednesday evening on "Leaders of men." This lecture will be one of the best literary treats the people of Nelson have ever had the pleasure of enjoying.

CARD OF THANKS.

Gus Nelson, a half-brother of John Dohlman, who was accidentally killed at the Wren mine near Ymir on Saturday last, wishes to express his sincere thanks to the many friends who shewed their sympathy by going to the Nelson & Fort Sheppard depot to meet the remains of the deceased and accompany them to the cemetery.

BASEBALL TEAM.

The members of the Nelson baseball team who will play against Kaslo this afternoon at Kaslo are as follows:
Geo. Partridge, catcher and captain.
R. Herbert, pitcher.
F. Walker, first base.
A. Mills, second base.
J. Campbell, third base.
Dr. Smith, shortstop.
S. Neelands, left field.
H. Houston, centre field.
J. Kennedy, right field.

GLADSTONE MEMORIAL.

Service Held in the Presbyterian Church in Memory of the Dead Statesman.

On Sunday evening a Gladstone memorial service was held in the Presbyterian church, at which there was a large attendance. Rev. Mr. Frew preached an impressive sermon from the text, "Know ye not that there is a prince and a great man fallen this day in Israel."—2 Samuel III., 38.

The following is a brief summary of the sermon:

The lives of great men are not less to be regarded as the word of God to us than is the Bible itself. Equally with the soldier Joshua and the statesman Daniel do the lives of Chinese Gordon and W. E. Gladstone furnish us with wholesome lessons. Setting aside the incidents and the distinctive principles of the life under review, let us consider him as following the "lofty moral ideal" to which Lord Salisbury referred in pronouncing his glowing eulogy on the dead statesman, his great political rival. Life without an ideal is valueless. Looking back over Mr. Gladstone's life, its dominent purpose is seen to be summed up in the words of Joshua, "As for me and my house, we will serve the Lord." At Oxford he strove to be, before all else, a laborer with God, nor was the same purpose the less evident in his career as member of parliament. There is no name in British history so readily suggested by the thought of Gladstone as Oliver Cromwell. They differed from one another in many ways, yet were alike in their deep reverence and tenderness toward God and man. It was a common characteristic of these two men that neither ever engaged in any great public service without first preparing therefor by earnest prayer for guidance. It was to this habit of prayer that was due the fact that even his political enemies reverenced his high aims while differing from his objects. The patriotism of Gladstone was so great that the masses felt bound to him as to a brother. His love for mankind showed itself equally in the great arena and in the quiet unrecorded acts of private life. He found time to visit the poor and sick, regardless of the lowliness of their condition. His life is a rebuke to many in this country who disregard the solemn commands of God. "Remember the Sabbath day to keep it holy." He religiously set aside everything that might on that day interfere with his communion with his God. Our greatest men are really the most religious. Such men as Lord Kelvin, greatest of scientists, Lord Kinnaird, Sir Andrew Clark, pre-eminent in their professions are not ashamed to own their Lord or maintain the glory of the Cross. Gladstone's powers were never prostituted to low purposes, but ever used to spread truth and justice and that righteousness which exalteth a nation. He is gone and the British Empire is the poorer for his loss, yet the influence of his life remains. God help us to imitate what is good in it. Above all may God raise up "men who have honor," men who shall be true christains as well as great politicians; men who shall seek to "do justly, and to love mercy and walk humbly with God."

MEALS 25 Cents and Upwards.

POWER OF WATER.

Few persons realize the tremendous power which water exerts when thrown in a small stream at great pressure. Many of us are familiar with the enormous force of great waves at sea when driven mountain high in a gale, but that doesn't represent the most surprising force of water. To realize what it is one should go to the mining districts in California and our other far Western States, that use water from "flumes" for hydraulic purposes. The water in these flumes is brought down the mountain side for miles, and when thrown from a nozzle of six to nine inches in diameter it would go through a human body like a cannon ball. Avertical srteam from such a nozzle will bear up and dacne upon its curling surface a boulder weighing 1,000 pounds, at a height of 100 to 150 feet in the air. When it is attempted to drive an axe or crowbar into one of these streams, the implement rebounds with the greatest force without making the least penetration into the compressed stream.

ACCIDENT AT THE WREN.

The Bodies of the Victims Brought to Nelson for Interment.

In our Sunday morning's issue we briefly mentioned an accident at the Wren mine, resulting in the death of two men, John Dahlman and Napoleon Maurice.

Capt. Duncan and Geo. Nelson, a half-brother of Dahlman, with Coroner Arthur and other friends went to Ymir by Monday morning's train, where the bodies had been brought on Sunday. The coroner's inquest resulted in a verdict of accidental death, attributing blame to no one.

Just how the sad accident happened will never be known. Five holes were charged and fired on Friday night, one of which missed and was re-charged. It is supposed the second charge only blew off a capping, leaving the original charge unexploded and that in cleaning up on Saturday morning this charge went off, instantly killing both men.

The general esteem in which the deceased were held was evidenced by the large gathering of friends and acquaintances, among them a number of ladies, at the station on the arrival of the evening train from Spokane. Capt. Duncan had made all arrangements for the funeral, one of the largest ever witnessed in Nelson, and an impresssive burial service was conducted by the Rev. Mr. Frew.

Dohlman leaves a wife and one child in Sweden, and was intending to go home for a visit in the fall. As yet no friends of Maurice have been found, except that it is known that he was born in St. John's, Quebec. The provincial constable at Ymir is looking up the relatives of the deceased.

EXPLOSION AT SEA.

Key West, May 23.—The officers of one of the United States cruisers which arrived here today say that while off Cape San Antonio, the western extremity of Cuba, yesterday afternoon, a terrific explosion was heard from the direction of the shore, but apparently many miles away. There was an upheaval of water all about the ship, and the cruiser herself vibrated with the shock from stem to stern. Many are inclined to think that the phenomenon was an earthquake. There are no batteries near enough to Cape San Antonio to account for a detonation of such volume, and it is thought that if any naval disaster had occurred news of it would have reached here.

A WEAK CABINET.

The London Times Thinks the French Chamber of Deputies a Bad One.

London, May 24.—The Paris correspondent of the Times commenting on the construction of the new chamber of deputies says: "The cabinet has a majority of from twelve to fifteen, including the Rallied section, an uncertain band who will melt away at the time of great battles, rendering victories indecisive and defeats easy. It will be a bad chamber. The government will live from hand to mouth, without effecting anything serious or stable. The Conservatives can at any time turn the scale, and neither with them nor without them can the government be carried on."

SPANISH CABINET CRISIS.

London, May 24.—The Madrid correspondent of the Daily Mail says: "It is safe to predict another cabinet crisis. Senor Puiycerver, minister of finance, who, in the cortes, absolutely declined to adopt any income tax, being expected to resign soon.

AN ANGLO-AMERICAN TREATY.

New York, May 23.—A special to the Evening World from Kingston, Jamaica, says: "A despatch received by the military authorities here on Saturday announces the signing of a defensive Anglo-American treaty, and intimates that a war crisis is imminent, immediately affecting Jamaica. All military and naval leaves have been cancelled, and supplies for eighteen months have been stored."

A STEAMER SOLD.

Bremen, May 23.—It is announced here that the Northern German Lloyd company has sold the steamer Havel to the firm of Cresta, a Hamburg concern. The purchasers do not appear to be ship owners. The Havel sailed today, presumably for the Mediterranean.

METAL QUOTATIONS.

New York, May 23.—Bar silver, 57½. Copper very quiet, brokers, $11 5-8, exchange $12 to $12.10. Lead dull, brokers $3.50, exchange $3.60 to $3.65.

WON ON A FOUL.

New York, May 23.—Jack Daly got the decision over Kid McPartland on a foul in the fifteenth round.

CONSERVATIVE M. P. P. ILL.

Napanee, May 23.—James Reid, M. P. P., conservative member for Addington, has taken a change for the worse and the doctors in attendance entertain no hope for his recovery. Reid is believed to be suffering with quick consumption. He was taken ill with pneumonia over a month ago and has been unable to rise from his bed since.

SPANISH CAPTAIN HONORED.

Madrid, May 23.—The grand cordon of naval merit has been conferred upon Captain Deschamps, of the Spanish steamer Montserrat, which recently arrived at Corunna Cienfuegos. The Queen Regent personally presented the captain with the insignia.

REPUBLICANS SOLID.

Paris, May 23.—The Chamber of Deputies is composed of 264 republicans, 104 radicals, 74 radical socialists, 57 socialists, 37 rallieds, 44 reactionaries and 10 free lances.

BASEBALL SCORES.

May 23.—At Cincinnati, Cincinnati 7, Brooklyn 2; at Pittsburg, Pittsburg 3, Philadelphia 1; at Chicago, Chicago 6, Baltimore 4; at Cleveland, Cleveland 4, Washington 3; at Louisville, New York 12, Louisville 4; at St. Louis, St. Louis 7, Boston 8.
