# The Mining Review.

VOL. 6.—NO. 25 SANDON, B. C., SATURDAY, DECEMBER 6, 1902. 2.00 PER YEAR

## Local News Notes.

The Payne company have leased the steam engine of Lovatt's saw mill and taken it out to the siding.

The C. P. R. have put on a freight train daily between here and Nakusp, which was badly needed.

The Ladies' Aid of the Methodist church gave a very pleasant social in the parsonage on Wednesday night.

Several cars of lumber for the Payne arrived by C. P. R. this week, which is being tranferred to the K. & S. line for delivery.

John L. Morgan has purchased the half way house in the McGuigan basin from J. W. Powers and will conduct it in future.

An improvised snow plough drawn by four horses was engaged in clearing the snow off the sidewalks and breaking the streets for traffic on Tuesday.

Plan to have a good time the evening before Xmas eve, at the entertainment and Xmas tree in the Miners' Union hall Tuesday the 23 rd inst.

The anniversay service of the Methodist church will be held on Sunday, Dec. 14th. Rev. S. J. Thompson, of Cranbrook, will be the preach for the day.

Ike Graham, formerly station agent at Whitewater has been appointed agent at McGuigan in place of Geo. M. Ross, who left Thursday to become a resident of Edmonton.

Alex Crawford returned Wednesday from the Oganagan valley where he had been attending to the pasturing of the Sandon Forwarding Co's summer stock of mules and horses.

Thos. Jones, the zinc buyer, spent a few days in town this week, looking up contracts for ore. Although his visit is the occasion of much comment as to its effect on the mining situation, many are convinced but little change will take place before spring.

Lowery has been up against it lately, and to use his own expressions he has had a full skin, and poor mitt, a busted bank account and a sore head. The Claim for December must be unusually rank to help out the losses incurred on the green cloth not long ago.

Dr. Brouse, of New Denver, was summoned to the Payne residence on Tuesday for consultation with Dr. Power, in attendance on Mrs. A. C. Garde. He returned home the following morning, and we are pleased to state that Mrs. Garde, whose condition was critical, is now on a fair way to recovery.

The telephone girls here have not gone out on strike with the coast girls, as it does not affect these parts; but there is just cause for the post office girls and everybody else to kick against the mail service furnished by the C. P. R. The passenger train the past week has been five or six hours late, and on Monday did not arrive until after midnight.

Col. Brayton was a prominent figure on our streets last Tuesday.

The K. and S. rotary made its first appearance this winter Monday.

N. J. Kavanaugh paid a visit to his family at New Denvee the early part of the week.

The Hupperton and Brochier families left for Spokane on Monday to make their future homes,

Mr. Thos. Jalland, of Jalland Bros., is confined to his room the past week from the effects of a severe cold.

Mr. John Gable was acquainted by wire Tueasday, with the sadintelligence of the death of his father near Hamilton, Ontario.

There was no council meeting Monday evening as the necessary number of aldermen failed to put in an appearance to make a quorum.

Fourteen men are at work at the Washington stoping and developing. Although working on ore all the way no shipping is being done on account of low prices.

G. W. Grimmett, jeweler, is offering his entire stock at a 20 per cent. discount during this month. Bargain hunters for holiday presents should call and see his fine stock.

The clanging of stones and "scoop 'er up" of the skips are heard nightly in the neighborhood of the curling rink. The curling season is in full swing in Sandon, and promises to be "the" sport of the winter.

R. H. Trueman, photographer, came in from Kaslo on Monday and left the following day for Vancouver. Although everything generally is pretty quiet in the city by the lake, R. H. did a good business while there.

The heavy fall of snow of the past week is unprecedented in the knowledge of the oldest Slocanites for so early in the season. The snow is so deep in the hills that great difficulty is experienced in moving around at the mines,

St. Andrew's Presbyterian church Sandon. Pastor Rev. Ed. G. Robb, M. A. Sabbath Dec. 7th services at 11 a. m. and 7.30 p. m. will be conducted by the pastor. Sabbath school and Bible class at 2.30. Prayer meeting Tuesday evening at 8 o'clock. All are cordially invited to attend.

Commissioner Chipman last week refused the application of the Payne company for a water right in the McGuigan basin. Mr. A. C. Garde, on behalf of the Payne, made the application to secure an additional water supply to furnish more power for their concentrator, but Mr. Chipman could not see his way clear to grant the request as it was contended by Mr. Zwickey of the Ramber mill, that the creek contained only water sufficient for the McQuigan properties. J. G. Ryan, of the Soho, also holds a prior right to 300 miners inches of the creek which still holds good.

Mrs. T. Sharp left Wednesday on a few days visit to her daughter, Mrs. N. J. Kavanaugh, at New Denver.

Mrs. Davidson, Cody Avenue, left the early part of the week for Eastern Ontario, to visit her mother who is very ill.

There will be service in the Catholic church tomorrow at 10 in the morning and 7.30 in the evening. Rev. Father Cote will officiate.

A. Stewart, travelling representative of the British Columbia Mining Record published at Victoria, was in the city in the interests of that wellknown publication. He is writing a series of articles discriptive of the districts through which he passes.

St. Andrew's day was celebrated in Nelson by a grand ball in the opera house. Many greetings were flashed across the wires and replies sent back. The day passed in Sandon without message or gathering of any kind, a great change from former days.

The Ivanhoe closed for a short time Saturday. This leaves the Payne concentrator the only one working in the district. The latter is still working two shifts, mostly on zinc ore, which they are turning out in large quantities and of good quality.

We are pleased to see Mr. Arthur Nichols able to be out again and convalesing rapidly from his recent severe injuries. It will be remembered that he sustained a compound fracture of one arm and a dislocated hip while trying to throw off a belt, several weeks ago, in the Payne mill, and his rapid recovery speaks well of the treatment he received at the hospital from the attendants.

There is nothing doing at Whitewater and everything is so quiet that the K. & S. officials have closed the station at that point until business improves. The mines have shut down tight in that section, and the only ore shipped during the entire month of November was 7½ tons from the Echo. This is another example of the "unprecedented activity of the Slocan," which the coast papers are heralding continually.

The curlers met Monday evening and discussed the preliminaries attending the approaching winter's curling. C. E. Lyons was elected secretary-treasurer in place of A. E. Hall, who signified his desire to withdraw owing to his inability to attend to the duties appertaning to that office, and the appointment of one additional increase over last year's number of skips, which will be made up as follows, A. E. Hall, M. L. Grimmett, A. N. J. Kavanaugh, D. J. McLaughlin, Alex. Crawford, Dr. Gomm, W. W. Fallows, and Alex. McMillan. This year's curling will be attended with greater interest than any previous season and with the increase in membership greater enthusiasm will of a consequence follow. So far Sandon has one sheet of ice resonndant to their exhileration and by next week it is expected the three additional sheets will be subjected to the same treatment.

### Received a Time Table.

The Sandon Rink company have been corresponding with C. P. R. officials in Nelson for some time to see if they could not get that railway to contribute some money to the company to help to pay the loss incurred by the non-arrival of the train in time with the Cosgrove minstrels, who played here some time ago under the auspices of the rink company, and which caused them to go heavily into debt by the delay entirely upsetting their plans. Numerous letters have passed back and forth between those directly concerned in the controversay, but little satisfaction was obtained. A few days ago the secretary received a package, which being rather bulky, he figured in his mind that probably the railway officials had at last acceded to his plea and forwarded a cheque for the full amount or part of the loss at least. Imagine his digust on opening the sealed package to find it only contained their latest time table with a paragraph marked to the effect that the railway company were not responsible for the non-arrival of trains on schedule time or losses incurred by delays. In future they know what to expect from the C. P. R. when they meet again with a like misfortune.

---

The shating rink will be thrown open to all skaters tonight free of charge.

The coal famine has ended by the arrival of a carloads of coal the past few days.

Roy Sharp, of Nelson, will be back to town shortly to spend his holidays with his parents.

Messrs. John Docksteader, of Nelson, and H. Strickland, of New Denver, were visitors in town yesterday.

Messrs. J. M. Harris and P. J. Hickey who have been spending some days in Spokane, returned to town yesterday.

Messrs. A. C. Garde, G. W. Hughes and J. L. Retallack, were in Nelson this week attending the meeting of the British Columbia Mining Association.

The children are preparing for the concert and Xmas tree in the Methodist on Christmas eve. The concert will be similar to that given by the school children last winter, which delighted all who were present.

In order to have two Xmas entertainments on the same evening, the committee in charge of she Presbyterian Sabbath School entertainment have decided to hold theirs on the evening of Tuesday the 23rd instead of the 24th as orfginally planned. The Miners' Union hall has been engaged for that evening, a splendid programme is in preparation. Everyone is invited to send in gifts to be hung on the tree and distributed by Santa Claus, and there will be a good time for all who are present. Gifts to be put on the tree should be sent or brought to the hall any time on Dec. 23rd.

# The Mining Review.

SATURDAY, DECEMBER 6, 1902.

James Cronin, manager of the St. Eugene, who has just returned from a trip to Mexico, was in Nelson last Monday on his way to Moyie to visit the mine. While in Nelson Mr. Cronin was interviewed by a Daily News reporter, and expressed himself as follows on the revision of the tariff and its consequences to the lead industry:

"Mr. Cronin said that he favored a re-adjustment of the Canadian tariff with an increased duty on lead. It would allow the Canadian smelters to give a higher price to lead producers for lead consumed in Canada, and would be the means of giving employment to a large number of men in refining and and corroding works. He did not think any objection would be raised to the slight increase in the price of lead to the consumer, which would be caused by raising the duty. The large consumers like the C. P. R. would not kick but some of the smaller ones might.

Some people were against raising the duty because they claimed that only the smelter and railway people would benefit. Mr. Cronin did not think it would work out in the way suggested, but even if it did, he would still be in favor of tariff re-adjustment along the lines indicated as a move which would benefit Canada and Canadians at the present time. Mr. Cronin thought a home market for something over 12,000 tons of lead could be obtained annually by the imposition of an increased duty. He did not favor asking the Dominion government for a direct bounty to the lead producers and did not think it would be given by the existing or by any other government. With reference to the St. Eugene mine Mr. Cronin said it would remain idle until there was some change for the better in the silver-lead situation."

The St. Eugene is the largest lead producer in the province, and the above expression of opinion coming from its manager, ought to carry weight. There is some difference of opinion among the mine managers on the question of tariff revision on lead, but it is gratifying to note the great majority of the producers favor a higher duty on the product. It is a cause of much satisfaction to see the producers, smeltermen and manufacturers working in harmony to secure what they consider the best means to all concerned and the country at large, and the intense feeling existing throughout the Dominion in favor of a protective tariff is certain to make itself felt at the next session of the Federal parliament, when the question will be brought before the House and we are confident a higher duty will be the outcome of the debate.

---

Now that the Slocan has ample assurances that its zinc product is to be admitted free of duty into the United States by the recent ruling at Washington will, of course, be received with a degree of gladness. It will act as a stimulating potent on our already lanquid state of mining; but to make any effectual improvement our other associate metals will have to receive attention, and to neglect to do so, the welcome news will not have the exuberant effect that is generally accorded it. Before this infusion of new life into mining in the Slocan can take place our lead will have to be placed in a more normal or healthy condition. Although zinc will bring a fair remuneration—at one time considered a waste—it will need the assimulation of other metals at fair prices before mining in the Slocan can be productive of regenerative results or again attain the pre-eminant pinacle she once shone down from.

True, our zinc heretofore was penalized when taken by the smelters, but now to secure its treatment and ready sale will in turn penalize lead, just reversing the order of smelting, and methodically speaking the Slocan is in the same predicament prior to the advent of the zinc market, with a slight advantage in price in favor of the zinc treatment.

As the mining of zinc alone will not pay for all mining, as it will return but $40 per ton, and must have the assistance of other metals at fair prices before we can look forward to any great change. If the agitation now on foot to foster the lead industry properly materializes it will take no optimist to prophecy the Slocan's future. It will then experience a prosperity the country has not yet experienced and its effect will be far reaching.

Then again until such time as lead again gains the ascendancy, zinc will not revolutionize mining. And as silver is always in a degree of uncertainity not so much importance can be attached to it; with lead their is a probability of the market being better controlled and will as a consequence receive the most attention, and the adjustment of the lead tariff, with now a favorable zinc market, will lift the Slocan from its present retrogressi state.

---

John L Rettallack came in for his share of abuse, not criticism, from the gulchite last week. Because the editor of that sheet is looked upon by many as a fool, he imagines everybody else is the same, and hurls the epithet at Relallack for giving his views on the lead question. The latter being in the mining business ought to be pretty well posted in the matter, and if the gulchite only knew one-half as much, and would give the question some attention instead of devoting columns to J.P. Morgan and John D. Rockfeller's bald head, his readers might get a little for their money.

---

The Kootenaian asks: "If Canada continues the policy of exporting her raw products to be manufactured by workmen in foreign countries, how long will she be in amassing a population of twenty millions?" Until kingdom come; and she had better have no population at all then if they wish to escape the fire and brimstone prophecied to smelt the earth on that eventful day.

---

The "Hallo" girls on the coast are out on strike for higher pay and have completely tied up the service. You may as well try to get heaven as an answer to your ring in Vancouver, as the central is "out."

SOUND AS A DOLLAR

That is the result of a course of treatment with Scott's Emulsion. We have special reference to persons with weak lungs and sensitive throats.

Scott's Emulsion does some things better than others. This is one of them. It has a peculiar action on the throat and lungs which gives them strength and makes them tough.

That's how Scott's Emulsion drives out coughs, colds and bronchitis. It keeps them out, too.

We'll send you a little to try, if you like.
SCOTT & BOWNE, Chemists, Toronto

That old copybook maxim finds its most forceful application in the waste of vitality, which is called "burning the candle at both ends." A woman is often tempted beyond her strength by domestic or social demands. Some day she awakens from this waste of strength to the woeful want of it. She has become weak, nervous and miserable.

For weak, nervous, run-down women, there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It restores the appetite, quiets the nerves and gives refreshing sleep. It cures local diseases peculiarly womanly which undermine the general health. It makes weak women strong, sick women well.

"No doubt you have forgotten me, but after you read my letter you will remember me," writes Mrs. Annie E. Moring, of 238 7th Avenue, S. W., Roanoke, Va. "In the year 1897, I wrote to you for advice, which you gave me free of charge. When I wrote to you I was a wreck; I could not walk straight for pains in my abdomen; could not sit down, lie down, or get any ease at all. I had what was called the best doctor here, but did not get any better until I went through a course of your medicine. I took eight bottles each of 'Favorite Prescription' and 'Golden Medical Discovery,' and ten bottles of the 'Pleasant Pellets.' I tell you the medicine made a cure of me."

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

**Dr. Pierce's Pellets cure biliousness.**

## NOTICE.

In the matter of an application for a duplicate of a Certificate of Title to Blocks 3 and 10 of Lot 891, Group 1, Kootenay District (Map 689).

NOTICE IS HEREBY GIVEN that it is my intention to issue at the expiration of one month from the first publication hereof a duplicate of the Certificate of Title to the above mentioned lands in the District of Kootenay in the name of James M. Barton, which Certificate is dated the 6th day of February, 1902, and numbered 1157 A.

H. F. MACLEOD,
District Registrar.

Land Registry Office,
Nelson, B.C.
9th September, 1902.

## Certificate of Improvements.

NOTICE.

Twickenham Mineral Claim, situate in the Slocan Mining Division of West Kootenay District.

Take notice that I, A. R. Heyland, agent for E. Foyle Smith, Free Miner's Certificate No. B 59263, and Frank C. Clute, Free Miner's Certificate No. B 64506, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 23rd day of September, 1902.

A. R. HEYLAND.

## Certificates of Improvements.

NOTICE.

Silver Band, Twyford, Winton, Islington, Faringdon, Croydon Fraction, Rodney Mineral Claims, situate in the Slocan Mining Division of West Kootenay District.

Take notice that I, A. R. Heyland, agent for the Silver Band Mining Company, Free Miner's Certificate No. B 69117, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of each of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 23rd day of September, 1902.

A. R. HEYLAND.

*Before. After.*

**Wood's Phosphodine,**

*The Great English Remedy.*

Sold and recommended by all druggists in Canada. Only reliable medicine discovered. *Six packages guaranteed* to cure all forms of Sexual Weakness, all effects of abuse or excess, Mental Worry, Excessive use of Tobacco, Opium or Stimulants. Mailed on receipt of price, one package $1, six, $5. *One will please, six will cure.* Pamphlets free to any address.

**The Wood Company, Windsor, Ont.**

Wood's Phosphodine is sold in Sandon by E. F. McQueen and F. J. Donaldson, Druggists.

## NOTICE.

To John H. Gray and to any and all others to whom he may have transferred his interest in the Rosedale, Flower and May Mineral Claims situated on Payne Mountain, in the Slocan Mining Division of West Kootenay District, British Columbia.

Take notice that I, D. E. Sprague, a co-owner in each of the said Rosedale, Flower and May Mineral Claims, have expended $102.50 in doing and having recorded the annual assessment work on said Rosedale Mineral Claim for the year ending October 22nd, 1902, as required by section 24 of the Mineral Act, and $102.50 in doing and having recorded the annual assessment work on the said Flower Mineral Claim for the year ending August 12th, 1902, as required by Section 24 of the Mineral Act, and $102.50 in doing and having recorded the annual assessment work on the said May Mineral Claim for the year ending August 12th, 1902, as required by Section 24 of the Mineral Act, and that within ninety days from the date of the first publication of this notice you fail or refuse to contribute your proportion of the said expenditure, being one-eighth of the amount expended in respect of each of the said mineral claims amounting to $12.80 in respect of each of said claims together with all costs of advertising, your interest in the said claims will become vested in me the undersigned under the provisions of Section 4, of the "Mineral Act, Amendment Act 1900."

The address for payment of the said moneys to me the said D. E. Sprague, is care of McAnn & McKay, Barristers, Kaslo, B. C.

Dated the 4th day of November, 1902.

D. E. SPRAGUE.

# The Mining Review.

SATURDAY, DECEMBER 6, 1902.

American cattle from the New England states and parts of Canada are prohibited from entering England on account, it is asserted, of an outbreak of disease. The embargo is keenly felt by large shippers in America, who have large stocks on hand and fear a glutted market, while in England a meat famine is predicted and a rise in the price of beef anticipated.

The Canadian Pacific and Grand Trunk railways, the two largest systems in Canada, intend to increase their rates shortly. This decision on their part is the cause of much surprise, coming as it does so soon after their flattering receipts and brighter prostects for trade in new channels. If the C. P. R. increase their rates in this country, they may as well take the freight itself for payment as there will be very little profit for the consignee when their charges are paid.

Dennis Murphy, the member for West Yale, who accepted a seat in the Prior cabinet last week, has tendered his resignation and intends to abandon politics altogether. His decision wasgiven after a hurried tour of his constituency, and the reason given out is that by accepting the cabinet position he would have to support Premier Prior's railway policy in regard to the Canadian Northern, which the Cariboo stage line people claim would kill Ashcroft, consequently the old stagers there would vote against him. By accepting the portfolio of Minister of Education, Mr. Murphy to retain his seat in the legislature would have to appeal to his constituents, and has decided to withdraw from public life for a while sooner than conduct an uncompromising campaign. This leaves the seat for West Yale vacant, and doubtless some time will elapse before a writ is issued to fill it. This action on Mr. Murphy's part affects the new government very little; W. W. B. McInnes, president of the council, has been sworn in as secretary and Minister of Education, and is now canvassing his constituency of Nanaimo in the event of an opposition candidate being brought forward at the nomination on Dec. 11th. It is expected that no opposition will be offered and the the new minister will be returned by acclamation. In any event his election is certain. This makes the new ministry complete and they are convinced of a good working majority when the House meets. The vacant constituencies of North Nanaimo and North Victoria, it is thought will be opened at once, and the result may materially help the government.

# True Economy

The difference in cost between an alum baking powder and the highest-class cream of tartar baking powder would not amount for a family's supply to one dollar a year.

Dr. Price's is the standard cream of tartar baking powder. It makes the food delicious and healthful.

NOTE.—You cannot, if you value good health, afford to use cheap, low-grade, alum baking powders. They are apt to spoil the food; they do endanger the health. All physicians will tell you that alum in food is deleterious.

## BLOOD HISTORY

Born in bone marrow—dies in the liver. This is the beginning and the end of the rich, red blood that keeps us all alive. Blood history makes a fascinating story.

Scott's Emulsion often plays a most important part in blood history. At the very beginning—that is where its influence is greatest.

Scott's Emulsion is a blood food—a rich material for making new blood. Nothing better for bringing color to pale faces.

We'll send you a little to try, if you like.
SCOTT & BOWNE, Chemists, Toronto.

**The Most Complete Health Resort On the Continent of North America.**

SITUATED MIDST SCENERY UNRIVALLED FOR GRANDEUR.

## Halcyon Hot Springs Sanitarium,

HALCYON SPRINGS, ARROW LAKE, B.C.

Resident physician and nurse. Boating, fishing and excursions. In telegraphic communication with all parts of the world. Two mails arrive and depart every day. Special Winter Terms: $12 to $15 per week, according to residence in hotel or villas. Its baths cure all nervous and muscular diseases. Its waters heal all kidney, liver and stomach ailments.

# School Books.

We carry a complete line of the latest authorized school books and school supplies. Our stock at present is so large that we can supply outside trade, and all mail orders will receive prompt attention.

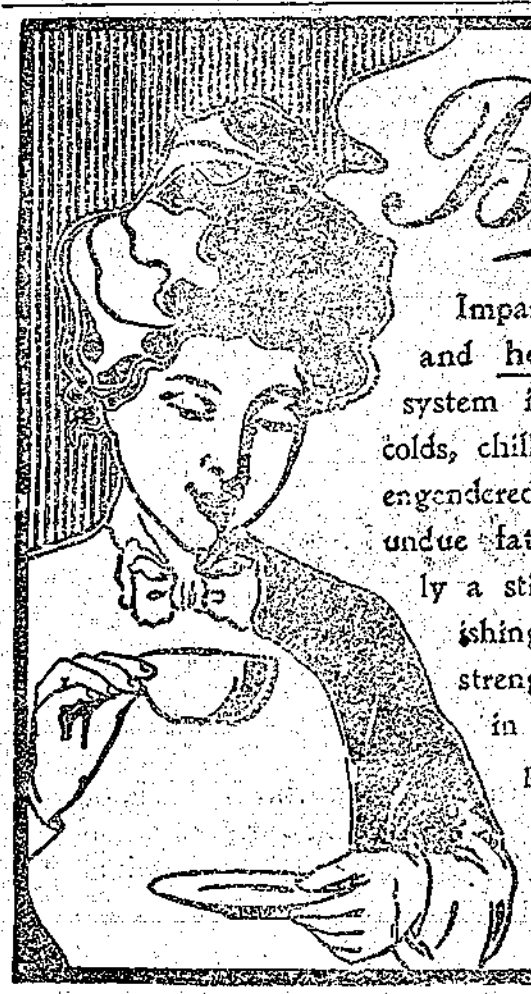
# Stationery.

Our stock of stationery is the most complete in the district. We have on hand all the latest styles of fancy writing papers, tablets, envelopes, inks, etc.

# Our Stock of Magazines, Periodicals, Novels, etc.,

is constantly being added to, and our shelves will be found interesting to you.

# Cliffe's Bookstore.



A CUP OF
Bovril

Imparts a natural glow of warmth and health, without which, the system is always an easy prey to colds, chills and influenza, which are engendered in moments of weakness and undue fatigue. Bovril is not merely a stimulant, but a highly nourishing food, containing all the strengthening properties of beef in a most convenient and appetizing form. It can be prepared in a moment. Add a little boiling water and it is ready for use.

## General News.

A new bank, to have its head office in Winnipeg, is being organized. The bank will probably be called the Northwest Bank of Canada. It is expected the new institution will be ready for business next spring. Howell, Mathers & Howell have been appointed solicitors for the promoters. J. F. McLaughlin, of Toronto, is promoting the enterprise.

Word comes from Toronto that the proposed advance in freight rates by the Canadian Pacific and Grand Trunk railway companies has been declared off for the present. Hugh Blain, chairman of the transportation committee of the Toronto board of trade, has been in communication with railways, and he understands on good authority that it is not the intention of the railway companies to make a general advance. The strong protest of the public and press convinced the railways it would be better to abandon the design.

Members of the B. C. Lumber and Shingle Manufacturers' Association which comprises nearly every mill on the coast, have decided to advance the price of shingles 10 cents per thousand on April 1st next. The price of lumber was advanced at the beginning of the of last month and no further advance has been made. The reason given out for the advance is that logs have gone up some 40 per cent. in price, wages 25 per cent., while insurance rates on mills have been largely increased.

The owners of the Providence mine, situated near Greenwood, have received $2,889.34, being the net proceeds of one car of ore containg 40,920 pounds, gross, shipped to the Trail smelter recently. This will give a value a trifle more than $141 per ton. Several customary reductions were made together with charges, amounting to about $25 per ton, so that the gross value of the ore was a little above $166 per ton, This is considerably better than the car-load shipped earlier in the month, which showed a gross value of only abont $100 per ton. Another car-load is going forward, and being sorted ore, it is expected to return even higher values than the last shipment.

The Delphine, near Wilmer, East Kootenay, owned by H. C. Hammond, of Toronto, and P. A. Kimpton, of Windermere, has been leased to Messers. Michelson and Anderson, who will work the property all winter. Some 65 tons of high grade ore was brought down from the mine last winter and shipped to the smelter. A previous shipment of 35 tons netted over $3,500.

Ex-premier Semlin has consented to be a candidate for the representation of West Yale caused by the retirement of Mr. D. Murphy. In North Victoria T. W. Paterson is out to contest the riding against Race Robertson, the government candidate, which election takes place on the 23rd. Paterson claims to be a supporter of neither the government or the opposition, and a man with no party to pledge himself to deserves to be defeated.

### Quick Returns.

"An inquest is an event, even in a city," said the man who made a trip through the back woods of Wisconsin, "but they don't take much intesest in them in the lumber camps. I was at a camp when a saw log rolled off a flat car and over a man and smashed him flat. It was just about noon and nobody was disposed to lose any time.

"See here, called the foreman to a gang, 'we've got to get this thing over with before we go to dinner. Some of stand around.'

"Six of the men came up and stood in a circle, and the foreman continued:

"'Now, then, there's the log and that's Bill, and as Bill couldn't roll over the log we must take it that the log rolled over him. Verdict of the jury is that he came to his death by accident and will be buried after quitting time tonight, and now let's have dinner, and may heaven rest his soul forevermore."

We have not advanced the price of our tobaccos. Amber smoking tobacco, Bobs, Currency and Fair Play chewing tobaccos are the same size and price to Consumer as formerly. We have also extended the time for the redemption of Snowshoe tags to January 1st 1904.

SANDON, B. C.

## Michael Strike Has Been Settled.

The coal miners' strike at Michel is called off and the men have gone back to work. A settlement was effected with Manager Tonkin that proves satisfactory to all concerned, and it is to be hoped now that that there will be no further trouble. Not only were the men at Michel satisfied, but the other miners in the district seem disposed to accept the situation in an amicable manner. The adjustment of the existing differences will bring about a satisfactory condition at Morrissey, Coal Creek and Michel, and it is devoutly wished by all in the valley thatt there will not be a recurrence of the strike trouble.

Every effort is being made to increase the force at the Morrissey mine, and as a result men are coming in from different mining sections. Last week 28 came in from the State of Washington and 26 from Vancouver Island. It is understood that 50 men with their families are on the way to Morrissey from Nova Scotia. This increase of the force at Morrissey mine is made necessary by the great demand for the product. Arrangements are being made to very largely increase the output, and the force of men here will be added to as rapidly as they can be put to work, and in all probability by early spring there will be 600 to 800 men employed.—Cranbrook Herald.

## A Sherlock Holmes.

Once more the great detective arose to the occasion.

"You," he thundered, addressing the trembling young man—"you kissed this lady six times on the journey."

The lovers were awed, and showed by their confusion that the accusation was just.

"Good!" said the stern parent, taking the detective aside; "but how did you ever find it out."

"Quite easily," was the reply. "I looked up the railway in found there were six tunnels on the line."—London Answers.

## They Compromised.

"For goodness' sake, Polly," asked the St. Paul young lady's mother at breakfast, "whatwas the matter with you and Harry in the parlor last night?"

"Why, mamma, what?" inbuired the daughter, demurely.

"Why, you quarreled for half an hour like a pair of maniacs."

"Oh," she replied, remembering the circumstance, "Harry wanted me to take the big chair, and I wanted him to take it, because he was the visitor, you know."

"Well, what did you quarrel about?"

"We didn't quarrel; only he insisted that I should take it, and I would not."

"Then how did you settle it finally?"

"Well, mamma, we compromised, and both of us took it."

# Card Gifts.

**A Christmas Gift of utmost satisfaction to both giver and recipient is:**

An Engraved Visiting Card Plate of the Finest "Script,"
100 Choicest Visiting Cards printed from the plate,

Write for our new catalogue. It will acquaint you with hundreds of new ideas. We mail it on request.

**Ryrie Bros.,**
Jewelers,
Yonge and Adelaide Sts.,
Toronto.

## The Girl Behind the Pie.

The man behind the cannon and the girl behind the man.
Have been sung in fabled story ever since the world began—
From the day of Trojan Helen, leader of a grizzled herd,
To the time of "Maggie Moorphy, mascot of de blomin' Third;"
Round the world have sped the stories of the brave who do or die,
But we've never heard an anthem on the girl behind the pie.

There she stands with cups of coffee, slabs of pastry, chunks of cake,
Temptingly arrayed around her, with dyspepsia in their wake—
And she eyes the deadly sinkers with a most bewitching eye,
As a stream of willing victims sorrowfully wander by;
Filled or filling, starved or foundered, go they on their varied ways,
And for her who works the pie pump they have naught but ready praise.

Call her Liz, or plain Eliza, or Elizabeth, mayhap,
Since the chance is ten to nothing, that she doesn't care a rap—
Call her "madame" she will snicker; call her "honey" she will frown,
But you're safe to call her everything, so you don't call her down;
"Sinkers up—draw one!" she murmurs; ah! the magic of her voice
Is a wicked death to sorrow, and a bidding to rejoice!

You may keep your fabled wonders in the long, immortal line,
But I'll take the little pie girl as the heroine, in mine!
Ay; I'll take the little pie girl in her modest suit of drab,
As she cuts a brand new custard, when I ask her for a slab!
Lawd your man behind the cannon and his girl up to the sky,
But I'm writing this here anthem to the Girl behind the pie!

Robt. Irving, Manager Kaslo, B. C.
GEO. HUSTON, Agent, S on.

### Mine Owners in Session.

The annual meeting of the British Columbia Mining association was held last evening at the office of the London & B. C. Goldfields. The principal business to come before the meeting was the election of officers for the ensuing year. Those elected were: President, S. S. Fowler; first vice-president, J. H. Tonkin; second vice-president, Leslie Hill; secretary, E. B. Kirby; treasurer, J. J. Campbell; executive committee, H. B. Alexander, James Cronin, J. W. Astley, J. L. Parker, J. L. Retallack, A. C. Garde, G. W. Hughes, W. F. Thompson and C. P. Hill.

An amendment was made to the by-laws to permit of further extension of the membership roll.

At the meeting the smelting interests were represented by W. H. Aldridge, superintendent of the Canadian Smelting Works at Trail, and J. J. Campbell, of the Hall Mines smelter, Nelson. None of the Boundary smelters were represented.

It had been generally believed that the object of the meeting was to bring the smelting and mining interests into harmony in the matter of remedial legislation to be asked at Ottawa. The president of the association, Mr. Fowler, stated, however, that nothing of this sort had come up, and the meeting was devoted to matters of routine only.

G. O. Buchanan and Bruce White, who were appointed delegates from the Nelson board of trade, will prebably interview the mineowners on this point today. From unofficial sources it is reported that the mineowners and smeltermen have concluded that the principal difficully to be solved is that relating to railway freight rates, as this bears on both sides.—Nelson News.

### Metal Quotations.

Silver, 48¼c per oz.
Copper, $11.50 per cental
