VOL. 5.—NO. 47. SANDON, B. C., SATURDAY, MAY 10, 1902. $2.00 PER YEAR.

A Disastrous Slide.

Swept Power's Camp Out of Existence Killing One Man and Injuring Two Others.

A snowslide of large proportions and one of the largest in the history of the camp came crashing down the mountain side Thursday morning, in the Washington basin, at Powers' camp about a mile below the Rambler mine causing the instant death of Wm. Douglas injuring John Powers, jr., and S. McDonald, and spreading general destruction in its downward course. The recovery of the two injured men is expected, as it is thought their injuries are not very serious; they were taken to Kaslo on the train. The body of Douglas was brought in on a hand car to Sandon for burial.

The slide apparently was not quite contented with the foregoing havoc; but completely carried away Powers' camp comprising four stables, store and shacks also killing seventeen head of pack horses and mules and a large number of hogs. In fact there remains not a vestige of anything to mark the place where once stood the camp but one solitary building overlooked by this rampant avalanche of snow and timbers.

If the slide had overtaken the camp during the night when the entire people of the place were peacefully slumbering there would have been a graver story to relate. As it luckily transpired nearly all the men were away at various occupations.

It appears as nearly as we can gather Wm. Douglas at the time of the sad occurrence was shoeing a horse, when he was told by someone of the coming danger. Instantly he stopped work and ran for dead life, but without avail as the slide proved to be speeder than himself. To reach a place of safety he had to make a long run as the slide extended in width over 500 feet; he just missed the desired end by about forty feet. The other two were carried down with Douglas but in some way or other miraculously escaped a similar fate.

A great deal of credit is due to parties in the neighborhood who set to work immediately and recovered the imbedded men at the peril of their own lives, as they were in constant danger of other slides following in the wake of this one.

The K. & S. people are removing piles from the bridge over the creek in the city, and crossing the creek with a clear span to give the floods a better chance to pass by.

Town Jottings.

H. Giegerich unloaded a car of St. Charles cream yesterday.

P. Richardson, cutter for P. Burns & Co. has gone off for a holiday, not feeling well.

Geo. Ranson, F. L. Christie, P. M. Hayes were in Nelson this week attending the assizes.

The Noble Five slide put in its usual appearance on Monday; but this time it gave no offence to anyone.

Is it not about time the council were taking the necessary steps to fill the vancies on the council board?

P. Burns & Co. are now slaughtering in the city, so the people will get a fresher article in meat than heretofore.

Mr. and Mrs. Pyphers will not return to the city as was intend, but will reside in Portland, where Mr. Pyphers will go into business.

The curlers held a meeting last evening in the city hall to close up the past winter's business and prepare plans for next season's work.

Byron White is expected here on the the 15th, and there may be some news from the Slocan Star after his visit; but there is none now.

The vacant lot next Nash's hardware store has been cleaned up for a ping-pong ground. We judge by this that a lawn tennis club will be organised shortly.

M. Gintzburger, manager of the Monitor was in the city Monday on his way to Vancouver for a stay of three weeks. He says there is nothing new particularly at the Monitor.

At a meeting of the firemen in the city hall on Tuesday evening last, E. M. Sandilands and C. Walmsley were were appointed captains. The captains are to arrange practices as they think best.

It is a question whether or not the city ever got the right from the government to change the course of the flume, or whether the right to flume the creek has been given to anyone but the Sandon Water & Light Co., though several have the right to use water from the creek by flume or otherwise.

Leon Deschane, a miner, sustained quite an injury at the Ivanhoe mine a few days ago by a fall of rock in an upraise in which he and a partner were working. The partner escaped without injury but Deschane was so badly bruised he had to go to the hospital for some days, but is now around again.

At a representative meeting Saturday night, A. C. Garde in the chair, a strong motion of C. Cliffe and J. McMillan urging suitable duties against lead manufactures, and to more favorably re-adjust the bounty on lead refining, was passed unaminously and was sent to our member at Ottawa.

P. Murphy has taken over the Filbert restaurant.

The Kootenay hotel is getting a new coat of paint.

John Eccles, of Kaslo, gets six months' gaol for indecent assault.

The Rev. Mr. Robb and bride arrived in the city on Saturday evening last.

J. Burton and J. Sheridan left for Fernie on Monday, expecting to find work there.

The Pheonix Pioneer wants to buy some old rags. Why don't Bro. Wilcox take his shirt.

Gassie Thompson and Dan Dune left on an exploiting trip in the north country on Tuesday.

The Rev. and Mrs. Pye left on Monday, Mr. Pye for conference, and Mrs. Pye for a visit with her sister at Trail.

Probably as many as 20 men left the city the past week, many of them miners, in search of work and business places elsewhere. The whole mining country is slack at present, and especially in the silver-lead districts.

From the blasting reports at the rear of the Bluestreak office on Thursday, many people thought the injured were trying to avenge themselves on the wind bag, for past wrongs. It turned out, however, that the reports were from blasts clearing out the creek.

Police Court.

The case against Lovatt came up for hearing Wednesday evening before R. Cunning and F. C. Sewell, J. P.s. The prosecution was under one of the city bylaws, which provides for hearing before a police magistrate or two J. P.s appointed by him. Mr. Grimmett for the pefendant questioned the juris. diction of Sewell, J. P. The latter dropped out, and the case fell to the ground. We think it is a mistake pushing cases for unintentional wrongs when no one sufiers by them.

In Tunnel and Stope.

The only ore shipped from Sandon this week was the American Boy 20 tons.

The Washington mine is now incorporated in 100,000 shares of $100 each.

The Whitewater mine shipped 172 tons of ore in April instead of 150 as reported last week.

The Wonderful mine has two cars of ore ready for shipment. It will be brought down as soon as the roads are in good condition.

W. de Rose is still hammering away in ledge matter, mostly quartz, in the long tunnel under the schoolhouse. The tunnel will be driven till the other wall is reached.

War Declared.

City Officials Sent Men With Axes to Destroy the Ivanhoe Flume.

A second edition of the Boer war commenced in this city on Thursday, when the city sent men with axes to destroy the flume of the Minnesota Silver Co. where it crosses the city flume near Robertson's furniture store. In this province the government controls all the streams, and the Minnesota Silver Co. claim they got permission from the government to build, where they have built. Whether the city got an equal permission, we do not know. In any event, neither parties can send men with axes to destroy the property of the other. If the government has given permission to both parties to build, as is likely, if the one sustains damage from the workings of the other, the case must be put in to the courts to secure redress and recompense. The day has passed in Canada, and it is well it has, when any party to recover damages can take the law into his own hands; but our council have a way of doing things as they like and not as the law directs.

City Council.

Met Monday evening, Mayor Cunning in the chair, and Aldermen Brown, Folliott and Jalland were present.

Letter from Cliffe & Son re city printing, read and filed.

Scavenger collected $98 in April; fines and penalties for April $190.

The following accounts were ordered paid:

Geo. Waite, salary	$100 00
C. E. Lyons, salary	60 00
C. E. Lyons, freight, &c	84 69
Geo. Waite, scavenger help	17 50
W. G. Wilson	6 00
Paystreak	21 00
Mining Review	3 85
Payroll for flume	1224 15
J. E. Lovering, teacher's salary	100 00

Board of works advised to grant the use of city team to haul logs for cribbing on Cody avenue.

The whole council appointed a court of revision, and that the court meet on 13th of June.

The clerk was instructed to notify P. J. Hickey that he must remove the intake from Ivanhoe flume into the city flume at once.

Hotel Reco Arrivals.

W. H. Lewis, H. P. Howell, C. W. White, Mrs. Walton and child, Vancover; W. J. Bundell, E. Fergnson, J. Z. Choate, W. Downie, Nelson; A. G. McKinnie, J. W. Fahey, A. Casey, Toronto; C. R. Mordy, Nanaimo; Jas. Connacher, Nakusp, J. Chear, Rosebery, J. Tinling, Silverton; A. W. Goodenough, D. P. Kane, A. R. Heyland, W. Gerrard, Kaslo.

The Mining Review.

SATURDAY, MAY 10, 1902.

THE RIGHT SIDE OF THE LINE.

You will hear a great many people say, and especially those of American proclivities, when speaking of the dullness of business in the Slocan, "you are on the wrong side of the line." This is true in one sense, but not in the sense in which it is intended. Nature could not do, and could not have done more for this province than it has, no matter which side of the line it was on. The advantages then of living on the other side are all purely of an artificial character—such as with wisdom our people could easily make for themselves if they only went the right way about it. In the first place, some time ago the Americans put high duties on lead and lead products, that kept the home industry free from competitors from any and all quarters. We are only now trying to get our government to do the same thing for British Columbia.

In the second place, while trusts are denounced right and left by many people and many institutions at home and abroad, it is a trust that is keeping life and activity in the silver-lead industry on the other side of the line. The United States are large enough to consume the great bulk of the lead production of that country, and the smelting trust has made an arrangement with all the mines to take their output at three and one-half cents a pound. They can do it because they have a home market for the entire output, at a profit to themselves. If our smelters, even with duties on lead, were to make an arrangement with our people, they would soon find themselves in the soup, as one or two of our mines could produce more than enough for the whole country, and the local trust would have no market for the balance. This is an artificial condition that nature has nothing to do with forming. As the population of Canada increases, this condition will become more or less reversed, but in the meantime, it is here, and insurmountable. Our local legislature cannot, of course, alter this; but it can remove many vexatious enactments now in force, whose removal would to a moderate extent compensate for the other disabilities of the owners, that legislation cannot cure. Again we ask the Federal government to impose a duty, not on lead as is the common expression, as that alone could do no good, but upon lead products. This would shut out American and all foreign products in every form, and give B. C. products the whole Canadian field; and place us, at the same time, on equal footing with all other nations as a competitor with manufacturers, in all other countries where either raw lead or manufactures were required. It would by no means assure our producers of the three and one-half cents a pound the American producers are getting; but it would place us in the market for raw or manufactured goods which could be sold anywhere to the best advantage, while we are now limited to the export of the raw article alone, to countries that require it.

WHAT'S IN A NAME?

Depends upon the name. Scott's Emulsion is a name that has value. Maybe it doesn't mean much to you—but to the consumptive who has been strengthened and fattened, to the sickly children who have received good health, to the weak mothers and babies who have grown strong—to these Scott's Emulsion means something.

To all of them it has meant an easy and natural return to health.

We'll send you a little to try, if you like.
SCOTT & BOWNE, Chemists, Toronto.

THE WAY IT WAS DONE.

There is little wonder many of the public find fault with the way the city business is run. In February last the publishers of this paper asked some members of the city council to let the city printing by tender, and on the 10th of that month the following resolution was passed on motion of Aldermen Cameron and Stein, "That the city clerk be instructed to call for bids for all the city printing."

In a few days after we were asked to tender on some work. We did so, the work was accepted and paid for. Since then, however, the clerk has given a dozen lots of work to the other office, at its own figure, and without consulting with this office. The majority of the council made through its official a legal contract with us, and now the clerk violates that contract, either of his own sweet will or under instructions from a minority of the council, we cannot say which, but either is a breach of contract for which the courts would hold the city responsible.

This paper has endeavored from the inception of municipal government to urge measures in the interest of the people, and because of doing so, a minority of the council now violate a contract, and wastes money to get even with the paper for its advocacy of public protection and civic economy. It may in the first place be asked, what right had the clerk to ignore instructions given him by a resolution passed by a majority of the board, and act either from personal reasons or under minority instruction? And it may be further asked what right one or more, at least a minority of the council, have to waste public money in gratifying personal prejudices? In carrying out the contract under resolution, the city in the year would save from $50 to $100, and the clerk either of himself or under advice from one or two of his present friends, is disposed to waste this money in gratifying personal prejudices. Are the tax payers of the place prepared to endorse this action? We know if the courts are appealed to they will not. A few months ago when Geo. Lovatt was mayor, Mr. Lyons claimed to take all his instructions from a majority of the council, ignoring those of the mayor altogether, now it suits his purpose to ignore the instructions of the majority and take his cue from the mayor. This is the situation.

IN OLD AGE the question of health becomes mainly a question of nutrition. If the stomach and other organs of digestion and nutrition are kept in a healthful condition there will be a well-nourished body, and little liability to disorders of the liver, bowels or such other disorders as may result from innutrition and lack of exercise.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and also diseases of other organs which are caused by the diseased condition of the stomach. By enabling the perfect nutrition of the body it increases the vital power and promotes a vigorous old age.

"I was a sufferer from chronic diarrhea for five years," writes Mrs. Mary A. Aaron, of Rolla, Phelps Co., Mo. "I tried different remedies, which would give me relief for a short time only. My trouble would return as bad as ever. I consulted you in July, 1900, and by your advice commenced using Dr. Pierce's remedies. I took two bottles of the 'Golden Medical Discovery,' three vials of the 'Pellets,' and some of the 'Extract of Smart-Weed,' as you advised. I have not had any return of my trouble since using your medicines. Am now seventy-one years old and I never had anything to relieve me so quick. I think Dr. Pierce's medicines the greatest on earth. Should I ever have any return of my trouble shall use your medicine. My thanks to you for your advice and thanks to Almighty God for restoring me to health through your hands."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets, the best laxative for old people. They cure constipation and biliousness.

The Bluestreak is blazing away these times in leaded columns of "leaders" over the proposed iniquity of putting a duty on lead and lead products "to build up the refining industry." This reminds one of the huntsman that spent a whole day adjusting the sight on his rifle and shooting at a bear he saw in the distance. What are you shooting at enquired a passer-by. That bear up yonder hill was the reply. The visitor looked and looked, and could see nothing; and on closer examination, discovered it was a bedbug on the eye lashes of the huntsman that created all the trouble. The same is true of the Bluestreak, as the proposed duty is not to benefit refining, but to create a home market for the product when refined, that the producer may by having larger consumption at his door, get a better price for his output. It is surprising that all this powder should be wasted by our neighbor, when he could save it by chasing the bedbug from his eyebrow

COAL!

Everybody Wants the Best Coal.

Try Lethbridge Coal, then you will have the best and cheapest. This coal will make the hottest and brightest fires, besides it is easily handled, as it is very clean. We have it for all kinds of grate.

E. A. Cameron.

To the Deaf.

A rich lady cured of her Deafness and Noises in the Head by Dr. Nicholson's Artificial Ear Drums, gave $10,000 to his Institute, so that deaf people unable to procure the Ear Drums may have them free. Address No. 14525, the Nicholson Institute, 780, Eighth Avenue, New York, U. S. A.

Farmers' Names Wanted.

Send us the names and postoffice addresses of ELEVEN FARMERS who have land to clear or who use a STUMP PULLER, and we will mail FREE to your address, a copy of our STORIES of the GREAT NORTHWEST, now going to press. Write plainly, and address the W. SMITH CRUB BREEO., LA CROSSE WIS.

Engineers, Firemen, Machinists

and electricians send for 40-page pamphlet containing questions asked by examining board of engineers to obtain Engineers' license, address Geo. A. Zeller, publisher, 18 S 4th st., St. Louis, Mo., U. S. A.

Wood's Phosphodine,

The Great English Remedy.

Sold and recommended by all druggists in Canada. Only reliable medicine discovered. *Six packages guaranteed* to cure all forms of Sexual Weakness, all effects of abuse or excess, Mental Worry, Excessive use of Tobacco, Opium or Stimulants. Mailed on receipt of price, one package $1, six, $5. *One will please, six will cure.* Pamphlets free to any address.

The Wood Company, Windsor, Ont.

Wood's Phosphodine is sold in Sandon by E. F. McQueen and F. J. Donaldson, Druggists.

The Canadian Northwest

HOMESTEAD

REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or Northwest Territories, excepting 8 and 26, which has not been homesteaded, reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, of any male over 18 years, to the extent of one quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the Local Agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for ordinary homestead entry.

HOMESTEAD DUTIES.

Under the present law homestead duties must be formed in one of the following ways, namely:

(1) By at least six months, residence upon and cultivation of the land in each year during the term of three years;

(2) If the father or the mother (if the father is deceased) or any person who is eligible to make a homestead entry, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the law as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his first homestead, on a certificate for the issue of such patent countersigned in the manner prescribed in the Dominion Lands Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence on the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the law as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENTS.

Should be made at the end of three years, before the Local Agent, Sub-Agent or the Homstead Inspector. Before making application for the patent the settler must give six month's notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION.

New-arrived immigrants will receive at the Immigration Office at Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them; and full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary at the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad or any other corporations and private firms in Western Canada.

M. L. GRIMMETT, LL. B.

Barrister, Solicitor, Notary Public, Etc.

Sandon, British Columbia.

Figures Talk.

The fifth annual meeting of the shareholders of the Crow's Nest Pass Coal Company was held in Toronto on March 7th.

The net profit of the year after paying all operation expenses and all charge of every kind amounted to $207.848.39. After paying a dividend at the rate of 10 per cent per annum, a balance of $28.-142.89 was carried forward to the credit of profit and loss.

This company's assets are their coal mines and the townsite of Fernie. Four years ago this company had no transportation facilities, and their stock sold as low as 11 cents per share. Today their stock is selling at $90.

The Similkameen Valley Coal Company, Limited, assets are coal mines, timber, water power, agricultural and horticultural land, city water works, electric light plant, and the townsite o Ashnola, surrounded by the following resources:—Gold, copper, silver, lead, iron, lime, fire clay, platinum, and a fine stock raising country, and it is the smelter centre of the Similkameen valley with a climate all that could be asked. Today you can secure an option on this company's stock by paying 10 cents per share down and 10 cents per month until fully paid, with non-forfeiture clause. This price is subject to a 25-cent advance without notice, as soon as transportation is assured. The present price is $1.10 per share. Do not wait until it is too late, but get in on the ground floor and make a handsome profit. A purchaser of 100 shares now, may gain a profit of $8.990. Crow's Nest shares as an example. This would be a fair profit on an investment of $10 per month for 11 months. We invite the fullest inspection of the company's affairs by intending purchasers. For further information apply to the Similkameen Valley Coal Company, Limited, Head Office Nelson, B. C.; Room "A," K.W.C. block, Baker st., Nelson, B.C.

NOTICE.

To John H. Gray and to any and all others to whom he may have transferred his interest in the Pansy and Violet mineral claims situated on Payne mountain, in the Slocan Mining Division of West Kootenay District, British Columbia.

Take notice that I, D. E. Sprague, a co-owner in each of the said Pansy and Violet mineral claims, have expended $102.50 in doing and having recorded the annual assessment work on the said Pansy mineral claim for the year ending July 29th, 1901, as required by section 24 of the Mineral Act, and $102.50 in doing and having recorded the annual assessment work on the said Violet mineral claim for the year ending August 9th, 1901, as required by section 24 of the Mineral Act, and that if within ninety days from the date of the first publication of this notice you fail or refuse to contribute your proportion of the said expenditure, being one-eighth of the amount expended in respect of each of the said mineral claims, amounting to $12.80 in respect of each of said claims, together with all costs of advertising, your interest in the said claims will become vested in me the undersigned, under the provisions of section 4 of the "Mineral Act, Amendment Act, 1900."

The address for payment of the said moneys to me the said D. E. Sprague is, care of McAnn & Mackay, Barristers, Kaslo, B. C.

Dated the 11th day of March, 1902.

The Mining Review.

SATURDAY, MAY 10, 1902.

There are yet a couple of unwritten chapters in the water supply and alleged tax payment refusal of J. M. Harris. The Sandon Water & Light Co. admit that during the extreme freezing season of the winter there was at times a scarcity of water, for the reason most of the water users in town, aldermen included, left their taps open night and day to prevent freezing; and, of course, no system that can be got in the city could stand that drain and have a large supply. In an hour after closing the taps, however, there would be a supply for fire purposes. Since the freezing there has been no deficiency, and now the tank is overflowing and has to be iron banded to hold the supply. The city, however, never came to a business offer, to balance taxes against the water and light account, notwithstanding all the bluster and blow of their mouthpiece; and as matters stand, J. M. Harris cannot make an offer. For instance, some of the aldermen rent from him and covenant to pay all taxes. They have paid none for two or three years, and the amounts stand against Harris in the city books. If these aldermen are so anxious to collect taxes let them pay, and when the list of taxes is brought down to Harris' actual indebtedness, the matter so far as he is concerned can be easily adjusted. The Mining Review holds no brief from either party in this dispute; but it appears to have a right and a wrong all the same. In the mean time, we may say, if the council will take no steps to give the place fire protection, the people will themselves act in the matter very shortly.

What has the Labor party of British Columbia to say to the declaration of their leader, Ralph Smith, at Ottawa the other day? When the Minister of Labor was introducing a bill for compulsory arbitration in railway disputes, Mr. Smith said "the government was wise in limiting compulsory arbitration to railways, as these were on a different footing from other concerns." He apparently does not want it in mining disputes, and in that he "is wise."

Merino vs. McInnis Et Al.

The mining case of Merino vs. McInnis and Sproat before the full court last week and decided in favor of the plaintiff, is one of peculiar interest to miners. As we get the particulars, they are these: The three parties were jointly owners of a mining property. Merino wanted to work it, and the others said they would personally be responsible for $500 a piece if the ore taken out did not pay for the working, Merino to have charge of the working. After a while he billed them not only for the $500 a piece, but a much larger sum, and they refused to pay on the ground of a less liability. He sued, and they asked for a statement of his expenditures, receipts in ore, and the memo of agreement between them. He said there were no records, but that his version was correct. The judge gave the case to the plaintiff. The defendants appealed it, and in the interval claim to have found the records Merino at the trial said were not to be had; and they asked their lawyers to secure for them a new trial that they might bring in their new evidence. If we are advised aright their lawyers assured them the new evidence could be considered in the appeal, in fact, one of them at least assured them the appeal court had admitted the new evidence. When it came to a hearing, however, the court refused the new evidence, and the the first judgment was confirmed. If we have the facts, the defendants must feel they have through some course or other been very unfairly treated.

FOR OVER FIFTY YEARS.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. If disturbed at night and broken in your rest by a sick child, suffering and crying with pain of cutting teeth. Send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething. It will relieve the poor, little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cured diarrhoea, regulates the stomach and bowels, cures Wind Colic, softens the gums and reduced Inflammation, and gives tone and energy to the system "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25c. a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other, as all Mixtures, pills and imitations are dangerous. Price, No. 1, $1 per box; No. 2, 10 degrees stronger, $3 per box. No. 1 or 2, mailed on receipt of price and two 3-cent stamps. The Cook Company Windsor, Ont. Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada.

No. 1 and No. 2 are sold in Sandon by E. F. McQueen and F. J. Donaldson, Druggists.

Certificate of Improvements.

NOTICE.

IRELAND Mineral Claim, situate in the Slocan Mining Division of West Kootenay District. Where located: On Tributary creek, adjoining Minnie Ha Ha, above Sandon.

Take notice that I, A. R. Heyland, of Kaslo, B. C., as agent for George Kydd, of Nelson, B. C., Free Miner's Certificate No. 50150, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 7th day of May, 1902.

A. R. HEYLAND.

Application for Transfer of Liquor License.

NOTICE IS HEREBY GIVEN that thirty days from date hereof, I intend to apply to the License Commissioners of Sandon for a transfer of the liquor license formerly held by Mourin & Maglio to myself.

V. KLEINSCHMIDT.

Dated at Sandon this 15th day of April, 1902.

To Whom It May Concern.

This is to notify the public that I will not be responsible for any debts contracted by the firm of Mourin & Maglio, as we have this day, April 15th, 1902, dissolved partnership by mutual consent. The business will hereafter be conducted by V. Kleinschmidt.

D. MAGLIO.

The Rambler-Cariboo Mine.

The New Concentrator to be Started by the 15th---Shipments will be Increased Next Month.

Steady progress is being made with the development of the Rambler-Cariboo mine in McGuigan basin. A station has been completed at the No. 6 level, where the main shaft attains a vertical depth of 800 feet, and everything is now in readiness for the continuing of sinking to the No. 8 level, where a total depth of 1,000 feet will be had. This important work will be got under way by the 15th instant, when the water-driven compressor installed last fall will be started. By that time the water supply will be ample to operate the compressor, and the opening up of the deep levels will be substantially facilitated. The new concentrator will be put into operation at the same time. Shipments will be continued at the existing rate of 450 tons monthly for the present, and an increase to 600 or 700 tons per month is expected after the first of next month. By this time the roads between the mine and the shipping point on the K. & S. railway will be in good shape. At present the company is somewhat hampered in getting out ore by the necessity of relaying ore from sleighs to wagons at the receding snow line.

Monitor and Ajax Fraction.

The following circular has been issued to the shareholders:

The directors of the Monitor and Ajax Fraction, Limited, have pleasure in informing the shareholders that the time has now arrived when the business of the company demands more spacious office accommodation. New offices have accordingly been secured, so you will please note that in future the registered address will be as above.

The directors take this opportunity of presenting to the shareholders the following report on the company's affairs since October of last year:

The issued capital of the company now stands at the sum of £29,753.

The purchase of the remaining one-eighth share in the Monitor No. 2 mine owned by Mr. A. R. Fingland has been arranged, so that the whole of this valuable property will now belong to the company.

The development of the Monitor No. 2 and Hustler Fraction is being pushed on with the most gratifying results, some very rich strikes having recently been made. The raise from the fourth level to the third level is in ore the whole distance of 122 feet.

To summarise the workings for the past six months:

(1.) 486½ feet of development has been done.

(2.) 847 tons of ore have been mined, yielding £6,109 2s.

(3.) Further valuable reserves have been opened up.—B. C. (Eng.) Review.

One avalanche of snow broke down Ald. Cameron's building on the flume, and if another should only come and sink the relics one foot undergroun, it would improve the appearance of that locality.

IT'S BUSINESS

To be well dressed. To know that you are dressed in a smart, stylish suit gives you confidence in yourself and enables you to better transact your business.

Our big business has been built up on HIGH CLASS CLOTHING, the BEST BOOTS AND SHOES men can manufacture. In our buying for spring our aim was to have the best $15.00 suits ever offered, and we have them. Your tailor will ask you $30.00 or $35.00 for the same suits, and you cannot buy them ready to wear elsewhere at any price.

WHY?

Because we buy direct from the mills in England and Scotland and manufacture all our clothing—spent thirty years in learning how.

We have everything that a man or boy wants to wear from the sole of the foot to the crown of the head.

A carload of Trunks and Valises just arrived—values; call and see. Prices to suit all.

Take a trip to Nelson and save your expenses by purchasing your outfit from

MEN'S OUTFITTERS

Baker St. Nelson, B. C.

Dominion of Canada.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories, and the Yukon Territory.

COAL.

Coal lands may be purchased at $10.00 per acre for soft coal, and $20.00 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at such rates as may from time to time be specified by order in council shall be collected on the gross output.

QUARTZ.

Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $10.00 per annum for an individual, and from $50.00 to $100.00 per annum for a company, according to capital.

A free miner having discovered mineral in place may locate a claim 150 x 1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.00.

At least $100.00 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500.00 has been expended or paid the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory of an area not exceeding 100 acres

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

PLACER MINING, MANITOBA, AND THE N. W. T., EXCEPTING THE YUKON TERRITORY.

Placer mining claims generally are 100 feet square; entry fee $5.00 renewable yearly. On the North Saskatchewan river claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggins, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

DREDGING IN THE RIVERS OF MANITOBA AND THE N. W. T., EXCEPTING THE YUKON TERRITORY.

A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental $10.00 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.00.

DREDGING IN THE YUKON TERRITORY.

Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $100.00 per mile for first year, and $10.00 per mile for each subsequent year. Royalty, ten per cent on the output in excess of $15,000.00.

PLACER MINING IN THE YUKON TERRITORY.

Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim, and each person in his or its employment, except house servants, must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consist of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee is $15.00. Royalty at the rate of five per cent charged on the gross output of the claim, with the exception of an annual exemption of $5,000.00.

any number of claims by purchase, and free miners, not exceeding ten in number, may work their claims in partnership, by filing notice and paying fee of $2.00. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying fee.

Work must be done on a claim each year to the value of at least $200.00, or in lieu of work payment may be made to the mining recorder each year for the first three years of $200.00 and after that $400.00 for each year.

A certificate that work has been done or fee paid must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notices in the Yukon Official Gazette.

HYDRAULIC MINING, YUKON TERRITORY.

Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more may be leased for twenty years, providing the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining: and does not include within its boundaries any mining claims already granted. A rental of $150.00 for each mile of frontage, and a royalty of five per cent on the gross output, less an annual exemption of $25,000, are charged. Operations must be commenced within one year from the date of the lease, and not less than $5,000.00 must be expended annually. The lease excludes all base metals, quartz and coal, and provides for the withdrawal of unoperated land for agricultural or building purposes.

PETROLEUM.

Al unappropriated Dominion lands shall, after the first of July, 1901, be open to prospecting for petroleum. Should the prospector discover oil in paying quantities he may acquire 640 of available land, including and surrounding his discovery, at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order in council.

The Sandon Wine & Liquor House,
Geo. Lovatt, Prop.

Must Wind Up Company.

Florida Corporation of Kalso in the Courts.

The full court of British Columbia at Vancouver has decided that the Florida Mining Company, of Kaslo, that owns mining property in the Jackson basin, must be wound up. Here are some of Chief Justice Hunter's remarks on the case:

"It is apparent from the evidence adduced that very loose methods were employed in the issue of those shares and, without prejudicing the question, I think there is good reason to suppose that the law was not complied with and therefore, on the ground, the order was well made." He adds that the cardinal object for which the company was incorporated, the working of the Florida mine, has practically come to an end by the agreement for sale to J. J. Fleutot (the representative of a French syndicate at Kaslo) and at any rate it is apparent that the company is unable to carry on applications and that there is no reasonable prospect that it ever will be. * * * There can be no doubt that the question of the justness of the alleged liability of the company to Davis, the principal shareholder, as well as his and other directors' right to charge commissions, ought to be investigated especially in view of the fact that he has always been in practical control of the affairs of the company, and no reasonable means has been afforded for checking or verifying the liability, and this is a good ground for making the order." He therefore affirmed the compulsory winding up and the other judges agreed.

Police Court.

We understand some one has laid an information against Squire Lovatt "for selling liquor without a license," and that a prosecution or persecution, which ever it may turn out to be, is likely to follow. The squire paid for and received a license in January to sell in the Williamson building; and if the prosecution is simply because of an oversight, neglecting to have his permission changed from one building to another, any fair man will call it persecution, as neither the city nor anyone has suffered or could suffer any injury through the oversight. The case, however, has been adjourned. As we are perhaps not in possession of all the facts, we desire to make no comments on the merits of the case till it is disposed of. We are informed, however, that in this country there are but few saloon or hotel keepers who rigidly adhere to all the requirements of the liquor law, and especially as to Sunday closing, and we very much fear persecutions of the kind above mentioned, for the reason that appears on the surface, can only lead to trouble for others in other directions that all good citizens would like to see avoided.

An eastern exchange states that Wm. Damm's daughter Grace has the scarlet fever, and the whole Damm family is quarantined. We might add that the news comes from Bruce county.—Phoenix Pioneer.
