The Bartered Bridegroom. There are held here many "confidential" weddings, as they are called, when the ceremony is kept unobtrusively quiet. But sometimes they are too confidential to please the relatives of the parties.

Lack of Energy. A Common Trouble Among Growing Boys—A New Blood Supply is Needed—Dr. Williams' Pink Pills Actually Make New Blood.

Forest's Unnatural Death. The life of nearly all forests is cut short by fire or by the hand of the lumberman. When a spruce forest is entirely destroyed by the young spruces do not at once spring up and cover the burned area.

Origin of Ascot Races. When the Ascot races began? They are mentioned in the first "Racing Calendar," published in 1727, and the usual statement is that they were founded by the Duke of Cumberland, uncle of George III.

Just the Thing. Mrs. Crab on a visit with her husband to visit a villa for sale—Oh, how beautiful—how beautiful! The beautiful yellow makes me perfectly speechless!

Uncle Sam's Soldiers. According to George B. Winter, the London military tailor who was engaged by the United States government to reorganize the uniforms of the American army, that army "contains the pick of American manhood."

Bulgaria's Fortresses. The five principal fortresses in Bulgaria are at Rustchik, Silistra, and Vidin on the Danube, Varna on the Black sea, and Shumla in the interior.

CURED OF ITCHING PILES OF 27 YEARS STANDING Suffered Keonly and Unable to Work for Days at a Time—Cured Three Years Ago by Dr. Chase's Ointment.

Words utterly fail to describe the suffering caused by piles and the cruel treatments, sometimes recommended for their cure, such as surgical operations and burning with red-hot iron.

CUNNING ANIMALS.

Those That Feign Death For the Sake of Protection. The habit of feigning death for the sake of protection can be observed among many of the lower animals—animals which differ widely in family, genus and species.

With the aid of the microscope one can observe and study the natural history of the minute animal world, which otherwise would remain a closed and unopened volume.

Zoroastrian Beliefs.

The Zoroastrian faith acknowledges Ormazd, Ahura Mazda, "Lord Wisdom," as the supreme god with six archangels, Amesha Spenta, and a company of angels, Yazata, about him to rule and guide the world.

Your Doctor

Can cure your Cough or Cold, no question about that—but why go to all the trouble and inconvenience of looking him up, and then when you step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you as quickly.

SHILOH

AN EXCELLENT FEEDER.

A Simple Device That Has Served Its Purpose Admirably in the Poultry Yard.

SATURDAY, NOV. 10, 1906.

This is one of the twelve great days of the year in Moyie—payday.

Hay has advanced a dollar a ton, which means some brands of cigars will be shorter.

The sidewalks in Moyie in places are in a most dangerous condition, and no time should be lost in making the repairs.

Premier McBride's challenge to meet any Liberal and debate the "Hottier Terms" question with him has not yet received a taker.

The society women of Vancouver want the hood tax on Chinese lowered from \$500 to \$100. Their wish is likely to be complied with.

Anyhow, November has no intention of dancing every set with Jack Frost. She has reserved a few numbers on the programme for Jupiter Pluvius and Old Sol.

The labor press predicted that there would be no decision of the supreme court rendered in the Moyer-Haywood case until after the election, and now it turns out their prediction was correct.

Hearst won in the city, but lost in the rural districts. It was the farmer vote that defeated him. But there is nothing strange about this, for it is a well established fact that the farmer will vote against a man who is favorable towards the laboring classes every time.

Greenwood Lodge, if Lamont would bar Eaton's catalogues out of the mails he would make a host of votes. It is a wonder that somebody with a political pull does not persuade him to do it. He could easily do it upon the grounds that pictures of ladies clothing are indecent and immoral.

The Hedley Gazette says that the British Columbia mining law as it stands is possibly the best mining law in existence. An evidence of this is seen in the fact that when the government of the United States were investigating with a view to finding a model mining enactment for the Philippines, it was the B. C. Mineral Act which they chose.

The Coeur d'Alene district was never so prosperous. But it must be remembered that it took time and money to make it as it is. The first discoveries in the Coeur d'Alenes were made in 1884, or twenty-two years ago, and yet their biggest mines have been opened up within the past five years. In comparison, the Kootenays are in their infancy, and they have plenty of time yet to outstrip their sister mining district across the border, which no doubt they will.

In the first months of the Russo-Japan war we had a striking example of the necessity for preparations and the early advantage of those who, so to speak, "have stung their roofs in dry weather." The virtue of the preparation has made history and given to us our greatest man. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of cold and it should be kept at hand ready for instant use. For sale by the Moyie Drug & Stationery Co.

A HOT WATER BAG is now regarded as a family necessity. It is good for so many purposes that it should form part of every household's equipment. But there are RAGS AND BAGS. Get the best only if you want efficient service. Come here for it. All our rubber goods are dependable. They are real rubber, not imitations. Prices are very reasonable, too.
