### Two Good Shows.

The Musical Eckardts, Wednesday, October 27th.

Juvenile Bostonians, Monday, November 8th.

Two of the best shows on the road are to make their appearance in Moyie on the above dates. J. Cosgrove, advance man, was here yesterday and completed arrangements with the Hockey Club for the appearance of the shows on a percentage basis. The Eckardts were here last May and their performance was the best that has been here in a long time. As Swiss bell ringers they probably have no equal in this country. The Bostonians are also good and always play to big houses.

### A Busy Priest.

For three months past Father R. Beck has been in charge not only of Moyie, but he must visit Creston at least once a month, and occasionally every one of the places along the C. P. R. between Elko and Kootenay Landing. All the Indians in East Kootenay are under his care. There are two reservations near Windermere, one other on Tobacco Plains, 13 miles from Elko, one near Creston and one more near Bonners Ferry, Idaho. On Sunday, October 10th, Bishop Glorieux will visit his Indians near Bonners Ferry, and, therefore, the Father cannot be in Moyie for the morning service. He will, however, be here for the night service at 7:30, if the flyer is on time.

### Watch Moyie Grow.

A son was born to Mr. and Mrs. V. Desaulnier on October 2nd.

A son was born to Mr. and Mrs. Thos. Summers on Sunday, October 3rd.

Born—At the hospital at Cranbrook on October 7th to Mr. and Mrs. Geo. Turner of Moyie a daughter.

### J. C. Drewry Ill.

J. C. Drewry has been confined to his home through illness for some time, and up to the present is showing no sign of improvement, and it is thought he will have to enter the hospital. His numerous friends hope he will soon be on the mend.—Cowlitz Chronicle.

### Attending Uncle's Funeral.

Malcolm McNicol, accountant for the Porto Rico Lumber Co., was in Nelson this week attending the funeral of his uncle, J. H. Love, who died there suddenly Sunday afternoon.

### Cranbrook Items.

(From the Cranbrook Herald.)

Fred Brown, who is known in every camp in East Kootenay, has returned from Manitoba, and is enjoying a few days with his friends in Cranbrook.

C. E. Reid, of Vancouver, formerly in the drug business in this city, is in the city shaking hands with his many friends. Mr. Reid is now engaged in the real estate business at the coast and is doing well.

George Ragsdale, at one time a resident of this city, has returned and will probably reside here again. Mr. Ragsdale is now in good health and says that he prefers East Kootenay to any place that he has lived.

Dr. J. H. King, M. P. P., and wife returned today from their tour of Europe. The doctor was kept busy during his absence with his work in the principal hospitals in the old country, but returns in good health and happy over the fact that he is again back in Cranbrook and East Kootenay.

### GENERAL FLOAT

Japan is building her first home-made locomotives.

Another sugar refinery is planned for Vancouver.

E. Jensen is the newly appointed constable at Creston.

Nelson's street railway bylaw carried yesterday by a vote of 250 to 10.

Less than 6 people out of every 100 in India have ever learned to read and write.

Seattle has won the pennant of the Northwestern baseball league. Vancouver were champions last year.

The building permits so far this year in Vancouver are more than double than for the same period last year.

C. O. Rodgers of Creston is building another sawmill at Canyon City. It will be in operation by November 1st.

Green & Smith have taken over the Allen hotel in Rossland, and will run it in conjunction with the Hoffman house.

Mayor Keary, of New Westminster who has been elected eight times, has signified his intention not to stand for re-election.

Hon. F. J. Fulton says that the report of the provincial forestry commission will probably be issued within the next six weeks.

A real estate firm in Lethbridge has sold this year sixty-two thousand dollars worth of land along the Arrow lake, near Nakusp.

In Vancouver the Terminal club has paid \$135,000 for a site near the post office and will erect upon it one of the finest club houses in Canada.

It is said that a canal connecting the Red sea with the Mediterranean existed as early as 600 years before the Christian era. Its length was 92 miles.

Wild game of all kinds is very plentiful around Creston now. The Indians bring in wild ducks and sell them two for 75 cents while a goose brings 75 cents.

The Kootenay Jam Company at Nelson are working day and night getting out orders, which include straight cars of jams and jellies for Calgary and the coast.

The Vancouver group, the well known silver-lead mine at Silverton in the Slovan district, has finally passed into the control of the Le Roi No. 2 company, the consideration being in the neighborhood of \$150,000.

Elizabeth Gurley Flynn, an organizer and leader in the Industrial Workers of the World, was arrested in Missoula, Mont., recently for persistently attempting to hold an advertised open-air meeting in the business section.

The Crow's Nest Coal Co., spends annually in wages and has expended in cash on capital account since operation begun, over \$5,000,000. The daily output at present is 3000 tons of coal a day, a considerable portion of which goes into coke.

A machine and locomotive works to cost \$300,000 will be running in Vancouver within six months, according to the plans of the Summer Iron Works Company, of Everett, Washington, whose officials have acquired for \$25,000, thirty acres of land in lot 124, Burnaby.

### Grand Chancellor Coming.

Grand Chancellor Townley of the Knights of Pythias will pay St. Eugene Lodge No. 37 an official visit next week, probably on Monday or Wednesday evening.

### Over 30 Are Dead.

The death roll in the mine disaster near Ladysmith Tuesday morning now stands at 32. So far 30 bodies have been recovered.

The cause of the explosion which proved so deadly is still wrapped in mystery. The company's books show a report of Hugh Fulton and William Cosier at 6:30 a. m. stating that all working places had been examined and found in good condition. Two hours after the explosion took place which was felt in every portion of the mine and sent hundreds of workers involuntarily to the nearest openings.

Hon. Jas. Dunsinuir who arrived on the scene Wednesday morning from Victoria, after a close inquiry believes it was due to a blowout, a pocket of gas having been unexpectedly exposed.

As far as is now known despite the tremendous force of the explosion the damage to the mine workings is comparatively small and it is likely that operations can be started again almost immediately.

### Grand Master's Visit.

Willey Lodge, I. O. O. F., was paid an official visit last Tuesday evening by Wallace Law, the grand master of the province. Mr. Law made an interesting and instructive address. After the lodge was closed tables were set and a substantial spread was served. This was prepared and served by the single men of the lodge. There was a good attendance. The grand master was the guest of Mr. and Mrs. Laird while in Moyie.

### Contract Is Awarded.

At a meeting of the building committee of the fire hall held last evening the contract for erecting a drying tower and making other improvements was awarded to J. P. Farrell. The contract price is \$290, and the time limit for completing the work is 30 days.

### Timberman Hurt.

Henry Johnson, while timbering at the St. Eugene yesterday, fell and had two ribs broken and his arm injured. He was taken to the Cranbrook hospital yesterday afternoon.

### "To H... With Seattle."

"To — With Seattle; I'm Going Home" is the message borne in letters of black on blue silk ribbon badges which were on sale for a brief time Wednesday at the Alaska-Yukon-Pacific exposition, or until Chief C. W. Wapenstein of the A.-Y.-P. guards confiscated the lot from the small boys who were selling them and also caused the arrest of Chilman White of Tacoma and Portland, the man who is accused of having caused the badges to be distributed.

White is an exhibitor in the machinery building at the fair.

The Tacoma-Portland man it is said departed from his usual custom of entering the grounds on an exhibitors pass by purchasing a 50-cent admission at the gate on exhibitors' day, September 18. This entitled him to a prize, one of some 58,000 that were in the various exhibition places, but when he drew his he evidently was not satisfied. The discontent later bloomed into 300 silken badges. Chief Wapenstein confiscated the lot and warned White against expressing himself in such a public manner.

### For Sale or to Let.

Five roomed furnished flat, in the Farrell block. One of the best locations in town. Apply to Mrs. W. L. Lucas.

## ==STOVES==

We have this year the finest stock of stoves ever shown in Moyie.

They are now all set up and ready for your inspection.

In coal heaters we have the Sunbeam Oak, the Bonny Oak and the Belle Oak, ranging in price from \$8.00 up to \$26.00.

We have three kinds of wood heaters, ranging in price from \$3.25 to \$18.00.

If you want a stove for a bed room, sitting room, a hall or a kitchen we can supply you.

We have heaters suitable for an hotel or a hall.

If you want a cooking stove see our stock of cook stoves and ranges.

**MacEachern & Macdonald.**

### Monday Is Payday.

As the regular payday falls on Sunday this month the St. Eugene will pay on Monday the 11th. The amount to be paid is \$39,000.

### Thank the People.

The Rev. Philip C. Hayman wishes to thank the trustees of the Presbyterian church for so kindly putting their church at his disposal for the Church of England service during the past summer months. Also Mr. Fitch for the use of his hall for the Sunday morning services. Mr. Hayman knows that he echoes the feeling of his congregation, when he says that he thoroughly appreciates Mr. Fitch's kindness in having the hall always nice and clean and ready for divine service. The services at Moyie will be discontinued for the present.

### Premier Talks Elections.

A Victoria despatch of the 27th inst. to the Vancouver Province states "in the event of an agreement being reached for the extension of the Canadian Northern railway into British Columbia, before the end of the year, Premier McBride intimated this morning that the legislature will be dissolved and an appeal made to the country in November or December, in order that no delay in construction shall occur."

### Scandinavian Dance.

The Scandinavian Aid and Fellowship Society will give a dance under their auspices in Morley hall on Tuesday evening, October 12th. They extend a cordial invitation to everybody to attend. Tickets, 75 cents.

### The Fire Fund.

Acknowledged, \$483.20.  
\$10—A. L. McPherson.  
Total, \$493.20.  
Bills paid, \$50.08.  
Cash on hand, \$443.12.

### C. P. R. Thanksgiving Rates.

For Thanksgiving Day, October 25th, the Canadian Pacific announce a rate of fare and one third for the round trip. Tickets will be on sale October 22nd to October 25th, inclusive. Final return limit October 27th.

### Canada Since Confederation.

The Epworth League on Wednesday night next week will have four or five papers on "Canada Since Confederation." These will be very interesting. Mr. E. Crowe has been elected president of the society in place of Mr. Cotton, who has left town.

## Great Coupon Drawing The Daylight Store.

Beginning today, October 9th, and continuing until November 11th, 1909, we will give one coupon with every one dollar purchase, cash or credit at this store.

On November 11th, coupons will be drawn for the following prizes.

Suit RELIANCE BRAND CLOTHING,  
1 pr. DRESS SHOES,  
1 STETSON HAT,  
1 Suit LEATHER LABEL OVERALLS,  
1 pr. F. P. SARGENT GLOVES.

These prizes are excellent values and the more coupons you get the better your chance will be to win one.

**ROBERTS & MESSINGER**

## THE MOYIE LEADER.

Published in the interest of the people  
of Moyie and East Kootenay.

F. J. SMYTH, PUBLISHER.

RATE OF SUBSCRIPTION

One Year . . . \$2.00

SATURDAY, OCT. 9, 1930.

The Cranbrook Herald has rendered its decision and has given the north pole to Canada. This settles the matter for all time to come.

Next year, so we are told, the road between Moyie and Cranbrook will be so improved that the running of automobiles between the two places will be possible.

Insurance Times:—A banker in a small town who has been keeping tab on things recently told what became of life insurance money left by some of the men of his acquaintance. According to his record, in each case the money went to a surviving wife, and in each case it promptly got away from her. Usually it was lent to relatives and neighbors who could not borrow a dollar at the bank, for the very reason that they have no financial stability. His observation has led him to the belief that policies payable in instalments are far superior to those paying a lump sum. His conclusion is that wives should be taught the rules of business by their husbands, but it strikes us that the great majority of husbands would make poor teachers. Possibly we will be pardoned if we throw in the suggestion that the companies in sending out their checks to beneficiaries might also send along a few "financial don'ts." Most beneficiaries have an appalling confidence in their own ability to handle money and an equally surprising lack of confidence in everybody of their acquaintance who has managed to accumulate a few dollars for a rainy day. They are suspicious by nature, and are inclined to believe that if they ask for advice it will not be of a kind that can be depended upon. For that reason they would not leave the investment of the money to a banker or capitalist—they would have more faith in a man who had never tasted the fruits of success.

## Political Pot Boiling.

Cranbrook Herald: Without a doubt there will be an election in December or January in this province and the McBride government will ask for a return to power. In this district there is a question as to who will be the candidates. There are many names mentioned in the Conservative party, among them, T. Caven, A. Leitch, J. D. McBride, A. E. Watts, and V. A. Rollins. It is understood however that Mr. Rollins will not be a candidate, although he is a general favorite with the people and would prove a strong man in the field. Mr. Caven is also a general favorite with the party, and many Conservatives are of the opinion that since he ran once and was defeated, he is entitled to the nomination. Mr. Leitch is one of the old-timers in the district and is recognized as one of the ablest Conservatives in East Kootenay and as a representative of his party would prove to be a powerful factor. On the Liberal side it is generally conceded that if Dr. King, the present representative, will accept the nomination there will be no opposition. If he declines the honor there is

no telling at the present time who may be named by the Liberal party as no names have been mentioned.

## Reach Large Figures.

W. D. Matthews, president of the Consolidated Mining and Smelting company, after spending a few days looking over the company's mines and mining properties in Rossland and the smelter and refinery at Trail, left on Saturday for his home in Toronto, says the Rossland Miner. During July and August the gross output of the smelter of the Consolidated company at Trail was \$935,000, as compared with \$635,000 for the same two months last year. The tonnage smelted in July was 39,000 tons and August 44,000 tons, the latter being the largest quantity of ore smelted in one month at the Trail plant since it was established.

An addition is being made to the lead refinery building, which is 550 feet in length and 50 feet in width. This will give the refinery structure a total length of 600 feet. The older portion of the structure has a width of 50 feet. The addition is so arranged that the traveling crane used will convey the bullion to the tanks before it is refined and left the refined lead out; in other words, the crane will run through the entire length of the building. There are now 240 working tanks in operation and 180 are being added. With the settling tanks, etc., there will be a total of 590 tanks in the refinery. The present capacity is 70 tons a day, and the additional tanks in place it will have a maximum capacity of 120 tons a day.

The lead refinery began operations as an experimental plant in May 23, 1902 with 28 tanks, a capacity of 6½ tons a day, and with 10 men on the payroll. Now the capacity is 70 tons a day, or about 2,000 tons a month. Fifty men are employed and the refinery is a pronounced success. Since it was started many improvements have been made in the electrolytic process used, and in addition to this numerous labor-saving devices have been adopted to much advantage and economy. J. F. Miller who has been superintendent of the refinery since it was started has grown up with the process and has every detail of it completely at his fingers' end.

## Leckie's New Shoe Catalogue.

You ought to send and get it. We have just received a copy and examined it carefully. Just as a catalogue—just as a piece of first class, artistic printing—you ought to see it to realize what can be done at the Pacific coast. As a superior product of Pacific coast craftsmanship it evidently embodies the spirit of its publishers, The J. Leckie Co., Ltd., of Vancouver.

The quality of their catalogue is a good standard by which to judge of the quality of the boots and shoes they make for British Columbia wearers. The boots are shown in the natural colors, and are described in detail. Nothing of practical interest—nothing that will be useful in buying shoes has been omitted from the information which this fine catalogue contains.

There are three distinct features about it: The first important one is that it shows the points of the shoe. Then in the second place, it tells you the retail prices of Leckie shoes.

In the third place it tells you where you can get Leckie shoes.

All you have to do to get this artistic, useful book is to address J. Leckie Co. Ltd., Vancouver, B. C., on a postal card, telling them you read about their catalogue in the Moyie Leader and would like to have a copy. Best do it right now, while you have it in mind.

## Net Big Profits.

G. J. Wigen, whose fruit ranch is on Duck Creek, in the Craton District, on the Crow's Nest railway, has sold \$1,000 worth of strawberries in one year from a patch of three acres. He estimates his net profit at over \$880 per acre.

## A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

## Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

Seattle fair closes October 15th.

Nelson Apple Show, Nov. 9th.

## The Winnipeg Exposition.

Recent activities of the Exposition Committee have been devoted to formulating a plan of finance for the 1912 exposition and a good deal of useful work has been done along this line. Pursuing a line of investigation into the probability of good attendance at the exposition the executive committee has procured a great deal of very interesting information, all of which tends to prove that Winnipeg is located far more favorably to secure attendance than either Seattle or Portland, two places that were notedly successful in securing enough paid admissions to produce a substantial revenue and offset to the expense account.

## Nifty Fall

## SUITINGS

## A FEW FACTS ABOUT BRITISH COLUMBIA.

British Columbia is the Pacific coast province of Canada.

Area—395,000 square miles, or 252,800,000 acres.

Coast line—7,000 miles.

Forest and woodland—182,000,000 acres.

Population (estimated)—260,000, exclusive of Asiatics.

The whole of British Columbia, south of 52 degrees and east of the Coast Range, is a grazing country up to 3,500 feet, and a farming country up to 2,500 feet, where irrigation is possible.

British Columbia's trade has increased by over nineteen million dollars in four years.

British Columbia mines have produced over three hundred million dollars.

British Columbia fisheries, one hundred and fourteen million dollars.

British Columbia forests produce over twelve million dollars annually.

British Columbia has millions of acres of paper-making material undeveloped.

British Columbia farms and orchards produce over seven million dollars annually.

British Columbia's coal deposits are the most extensive in the world.

The Kootenay coal fields alone are capable of yielding ten million tons of coal a year for seven thousand years.

British Columbia has immense deposits of iron ore awaiting development.

British Columbia's area of standing timber is the greatest and most compact in America.

British Columbia has over ten million acres of wheat lands.

British Columbia produces over two million pounds of butter annually, and imports over four million pounds.

British Columbia imports over two million dollars' worth of eggs and poultry annually.

British Columbia shipped over six thousand tons of fruit in 1908, and imported fruit to the value of two hundred thousand dollars.

British Columbia fruits—apples, pears, plums, cherries and peaches—are the finest in the world.

British Columbia fruit won the highest awards at exhibitions in Great Britain, Eastern Canada and the United States.

A miner's license costs \$5 a year.

A pre-emption—160 acres—costs \$1 per acre after two years' residence.

First-class agricultural and fruit land \$5 per acre.

Fruit lands return from \$100 to \$500 per acre.

Impressions of East Kootenay L.L.L. WHAT C. E. LAWRENCE THINKS OF THE DISTRICT.

(From the Cranbrook Herald.) You ask for my "impressions" of the Upper Columbia and East Kootenay valleys. Let me tell you that when I arrived at Golden on the 19th ult., a paper was thrust into my hand containing the "impressions" of a party of American editors who have toured as far as Windermere, afterwards drawing those beautiful pen pictures which only the scholar can portray. My first impulse was to return home feeling sure that anything I could say would be worse than tame after Nesbit and Hyde, but the desire to see the wonders about which these gentlemen had written impelled me onward, and remembering that it is as a plain man writing to plain people in simple language, I hope later on to set forth the utilitarian point of view and those details which will appeal to the prospective fruit grower, the "mixed" farmer and the cattle and horse rancher. But on this occasion I must be content to generalize somewhat and perhaps I cannot do better than commence by saying that with one or two exceptions I endorse all that has been so widely set before us. The marvelous scenery is all there, the mountains and valleys, the rivers and lakes, the Italian sky and gorgeous sunsets, as Service has written.

"The lovely sunsets flame and die, The giant valleys gulp the night, The monster mountains' scrape the sky Where eager stars are diamond bright." But when Nesbit described the valley as "a land flowing with milk and honey," he is altogether wrong. I don't believe a simple hive of bees is to be found from one end to the other and if the milk supply is to be gauged by the small amount of butter supplied to the local stores, the "four" must be an exceedingly small one. The time is not far distant when you will have a marvelous valley with its fertile soil and glorious sunshine, the homes of hundreds of thousands of agriculturalists, producing the food necessary for scores of thousands of lumbermen and miners in this neighborhood, besides having a surplus to provision ocean going steamships, carrying to other lands the choice products of the Columbia and Kootenay valleys. Presently it will be my duty to tabulate these possibilities, opportunities and conditions, but just now I would appeal to the merchants of the towns at each end of the valley—Golden, Cranbrook and Elk—to see that they are doing all in their power to aid in this wonderful development. Every stranger should be welcomed and made to feel that he is amongst friends and every facility given him in making the momentous choice of his future home. And no greater aid can be found than being able to show grow-

ing crops and produce—a demonstration farm with a courteous demonstrator is a very necessary adjunct to a sensible advertising scheme. C. E. Lawrence.

## BRAIN LEAKS.

(Selected.)

The man who is forever talking about how much work he does usually has nothing but conversation to show for it.

Personal liberty is not individual license.

Politics ought to make more familiar climates.

A lot of people tire themselves out looking for havens of rest.

The trouble with most of us is too little initiative and too much referendum.

A lot of men are deceived by believing their wives swallow everything they are told.

By the way, has the discoverer of the north pole put any food in the mouths of the hungry?

There are two kinds of charity—the charity that helps men and the charity that helps men to help themselves.

If we know it we never try to do business with the man whose children creep silently around the house when he is at home.

Of course some fellow had to find the north pole just about the time we were wondering how we were going to keep the house warm.

Buy, and the world drinks with you.

A trail is often an embryo wagon road.

Death comes when we cease to love something.

Full many a pimple is born to blush unseen.

Money is a key that will unlock nearly every door.

## TAYLOR &amp; HARVEY.

(From the Cranbrook Herald.)

A few years ago Vancouver had not many lawyers; but now her magnificent expansion as a city of commerce and manufacturing industry has rendered necessary a corresponding increase in men skilled in the science of the law to guide and advise in the many crucial difficulties which those great enterprises constantly encounter. They are unavoidable difficulties, and the lawyer is essential to solve them. The presence of the lawyer is therefore a sign of commercial prosperity in any city. Vancouver has several firms of distinguished lawyers, but none of them surpass in talent and reputation the firm of Mr. S. S. Taylor, L.L.B., K.C., and Mr. J. A. Harvey, K.C. Both these men hold a leading place at the bar as advocates of the first rank. As advisers of their clients they have a no less notable reputation, for they bring to every matter patience, industry, analysis and judgment. Through the most complicated entanglements they can pilot their client's way by the combined light of legal principles and of commercial systems; and they invariably lead him along safe paths to success. They are standing permanent advisers to a large number of commercial concerns, and they are constantly occupied in conducting and in transacting the numerous affairs of property transference, ownership, and investment. The character of Taylor & Harvey has stood the test of time, and their reputation is something that adds lustre to the legal profession. Their offices are over the Imperial Bank of Canada, Granville street.

## A NEWSPAPER MONOPOLY.

FOOTHILLS PRINTING AND NEWS COMPANY BRANCHING OUT.

(The Frank Paper.)

It will be on a somewhat smaller scale, of course, but in arrangements just consummated by the Foothills Job Print & News Company, in which J. D. S. Barrett and T. B. Brandon are the moving spirits and the owners of the great majority of the stock, the Pass is to have its Lord Northcliffe in the local newspaper field, as the arrangements referred to contemplate the publication by the Foothills company of five newspapers in this field.

Messrs. Barrett and Brandon, alive to their opportunities and appreciating the possibilities of centralization with respect to business enterprises, have for some time been formulating plans to control the printing and publishing business of the district. To that end they have within the past two weeks started the publication of the Chronicle at Cowley, from this issue they take over The Frank Paper and within a few days they will begin the publication at Blairmore of The Enterprise, and at Coleman, in addition to The Miner, will publish The Gazette, which is to be published in the Slavonian and Polish languages.

With this combination the Foothills company will be able to cover the newspaper field of the district most admirably and efficiently. Each paper will be a distinct local enterprise of the town it represents, while the centralization of the whole under one head will make possible that economy of expense by which alone there could be hope of success for a paper in each town of the district.

Messrs. Barrett and Brandon are capable and energetic newspaper men and if their enterprise is appreciated by the people of the district and the right sort of support accorded, their labors will not only be crowned with success, but they will be able to give each of the towns represented in their circuit of papers, a better paper than would be possible under individual ownership.

### The Man With A Millstone About His Neck

The millstone is lack of special training. It holds one man down to hard work and small wages while others, properly trained, go ahead. But every man and woman who is laboring under such a burden can easily rise to a better position and increased earnings and can find out how for the asking.

To find out how, simply write the I. C. S., stating the position you wish to gain. In return, an institution with 17 years of successful experience in training thousands of others for advancement will tell you how it can fit YOU for a better-paying position. No risk to run. No books to buy. Isn't such a chance for advancement worth this much to you?

(Pastor.)

PRESBYTERIAN CHURCH.  
Services on Sunday at 11 a. m. and 7:30 p. m. Sunday School at 2:30 p. m. Rev. C. B. Kerr will be the preacher. All are cordially invited to attend.

## Referee Lacrosse Games.

Rossland Miner: A. B. Mackenzie will leave for New Westminster during the latter end of the week for the purpose of refereeing the lacrosse games between Vancouver and New Westminster teams at the provincial fair at New Westminster on the 14th and 16th instants. Mr. Mackenzie played lacrosse for twelve years, from 1883 to 1895. In 1888 he visited the British Isles as a member of the famous Toronto lacrosse team which made a successful tour of the Old Country towns. After returning to Canada the team met and defeated all the leading teams in Canada. During the time Mr. Mackenzie was playing lacrosse he frequently refereed games and has a well-earned reputation for being a fair, impartial and able referee, as he knows all of the fine points of the game.
