Spraying protest...

Seek non-toxic guarantee recommends Gibsons Mayor

FURTHER discussion regarding Hydro spraying activities broke out at last meeting of Gibsons Council following a report by Ald. Ken Goddard on a discussion he had attended on pollution.

He said discussion centred partly on the recent spraying of brush in the vicinity of water supplies and it was moved a letter of complaint be drafted to the company. Ald. Goddard expressed the view that council should also take further action with letters of complaint to the head office of B.C. Hydro and the local manager Mr. Bob Normington, pointing out the fact council is aware of the spraying over water sources and seeking assurance it will not happen again.

On the suggestion of Mayor Wally Peterson it was moved a letter go to the Department of Public Health asking for a guarrantee that the spray is not toxic. This, said the Mayor, was the recomendation of engineer Martin Dayton. He added "someone could die or become very sick and we should obtain this guarantee for the village."

Ald. Goddard commented "it is not enough, they have done this before and I feel we should seek clearance from the Public Health Department."

SEA CAVALCADE

Alderman Gerry Dixon reported he had been askd by the Sea Calvacade committee to ask council approval for turning on th Christmas lighting for two days of the three day event.

It was pointed out that council normally assumes cost of power during the Christmas lighting period. The lights are provided by the merchants and strung up by the firemen. It was therefore agreed to go along with the request, council to pay the power costs.

SEWAGE

Council still awaits a permit in order to proceed with the proposed sewage system. Approval was given by the taxpayers last year by Referendum and plans are all set to proceed but permit to go ahead has not yet been granted.

Letter from engineer Martine Dayton said last week by way of a progrss report indicated specifications, materials etc. are near completion but no reply had been received from Victoria regarding the permit.

RECREATION

Letter from Dr. J. J. Crosby on behalf of the Sunshine Coast Recreation Centre Committee suggested consideration be given to the proposed Centre as a combined Centennial Project.

It was moved the matter be turned over to Recreation Chairman Ken Goddard for consideration.

First Glance

WHAT MUSEUM?

Gremlins went to work in The Times print shop last week and in the Regional District Garbage Collection Schedule there was mention made of the area Roberts Creek, from Cemetery to Provincial Museum. This, of course, should have read Provincial Park-site.

APPOINTMENT

Mrs. Margaret Wheeler of Hopkins Landing has been appointed District Guide Commissioner for Gibsons, Port Mellon and Roberts Creek areas.

Division Commissioner for the Sunshine Coast, Mrs. Betty Allen made the appointment following the resignation of Mrs. Peggy Le Warne of Gibsons.

INSURANCE

At the suggestion of Director Frank West, the Regional Board agreed last week to take out membership with Dunn & Bradstreet in order that some check may be made on responsibility of contractors likely to be involved in up-coming Regional District contracts. Cost, he said, would possibly be about $450.

NOMINATING MEET

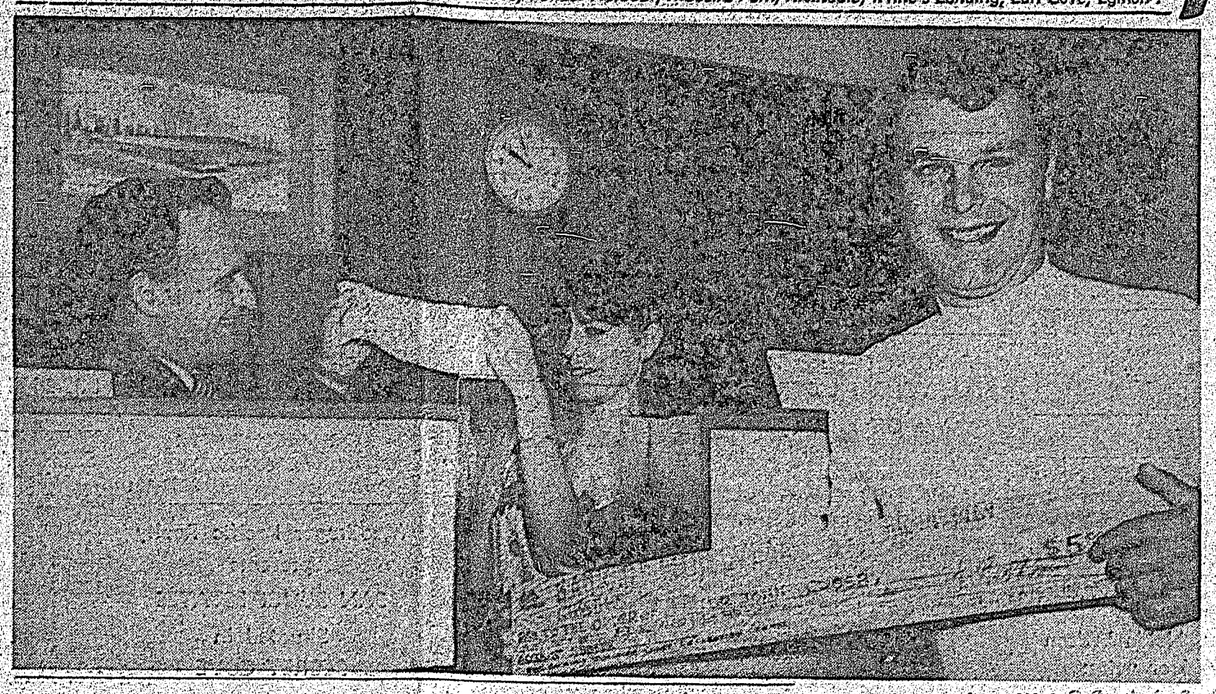
Sunshine Coast Liberals will meet this Wednesday at 8 p.m. in the Peninsula Dining Room, Sechelt, to elect delegates to the nomination convention. Other election matters will be discussed and all Liberals are urged to attend.

PROMISING

Activity around Elphinstone Secondary School would indicate that Department of Education has given go-ahead on Laboratory addition which has been delayed due to tenders being too high.

SCHOOL CONTRACT

Approval has today been given to the department of education to award a contract for School District 46, Sechelt, addition to Elphinstone Secondary School, amount of $135,425.00.



Three day event...

Gibsons "Sea Cavalcade" attracts growing interest

CONSIDERABLE interest and enthusiasm has resulted in a combined effort by clubs and organisations in the Gibsons area to produce a three-day "Sea Cavalcade" which will include a series of entertaining events with something for everyone.

Scheduled for August 22-23-24 the event will tie in with a number of regular annual projects such as the Firemens Water Sports and the Kiwanis Pancake Supper the night preceding the Sun Salmon Derby.

Carnival slated for the first two day of the Sea Cavalcade will feature musical rides and other entertainments for the youngsters. Also during these two days, the evenings will be coloured with lighting up of the Christmas street lights.

Full schedule of events will be made known at a later date for many tentative plans have yet to be finalized. Others fairly definite are; a water fight by firemen with hoses, however, it is not yet known to whom a challenge has gone out. Rod and Gun Club plans to hold a Skeet Shoot: Bicycle racing has been scheduled by a Vancouver Club, which is something a little different: Trail Riders will operate a corral offering horse rides for young and old: A salmon barbeque is under consideration; a number of dances will be held including dancing on the wharf, probably the night of the Kiwanis Pancake Supper. Also that night will be the draw for the fund raising Boat Draw, an annual function of the Kiwanis Club.

Sunday 24th will be the day of the popular Firemans Water Sports held at the Municipal beach parksite and this alone has consistently proved a great attraction.

Dropping this year of the July 1st celebrations and the Sunshine Coast Fall Fair, also at Gibsons, led to decision by various organizations to join forces and promote a three day event which could fit in with the amenities the village has to offer. Result was the "Sea Cavalcade" and a great deal of work has ben going on behind the scenes by the committee which is confident that, weather permitting, Gibsons will have an event likely to attract large numbers from all ends of the Sunshine Coast.

Just Wait

"Wait till they see this one," grins Dr. John Crosby waiting to deposit cheque made out on 24" board by Mr. I. Christianesen of Port Mellon, to purchase partial advance membership in Recreation Centre. Gibsons Bank of Montreal Manager Frank Daugherty and teller Mrs. Dawn Cottrell already have problem with Rev. Dennis Morgan's cheque, carefully made out on two sections of pale green toilet paper, which all proves that people are responding extremely well to the need for a Recreation Centre on the Sunshine Coast.

Children's fish derby final day announced

ONCE AGAIN Mr. Charlie Brookman is calling all children from West Sechelt to Field Road at Wilson Creek to participate in the final day of the Children's Fishing Derby on Saturday, August 2.

Children must be 11 years or under and must wear life jackets. Derby commences at 11 a.m. and finishes at 5 p.m. and some time in between there will be two pie eating contests on the Wilson Creek Wharf opposite Vic's Motel. One contest is for juniors and the other for 11 - 15-year-olds.

Mr. Brookman says the girls are out to beat the boys at pie-eating and a strong team has been formed by Beth Simmons and Georgina Newsham. It seems that a large number of pies will be required and Mr. Brookman is appealing to all kindly ladies who like baking pies to leave donations at the Peninsula Market, Davis Bay, where Mrs. McLeod will place them in her large cooler.

Once again members of the Junior Fishing Association will be on hand to supervise energetic youngsters and Mr. Vic Franske will measure the fish and crabs. Prizes will be awarded, the biggest shiner, smallest shiner, largest crab and biggest dogfish, and it has just been announced that Royal Canadian Legion Branch 140 has donated a trophy for the event.

Elphinstone contract

PROVINCIAL treasury board today announced the award of a contract worth $135,425 for construction of Elphinstone School, Sechelt.

Site problem...

Many objections blamed for no Gibsons cut-off

REGIONAL Board administrator Charles Gooding referring to the proposed Gibsons cut-off stated at last Board meeting that he thinks so many objections were raised at gazetted locations that the highways department has dropped its plans.

Director Cliff Gilker expressed the view that such problems as highway relocations should be discussed with the Board as when municipalities are involved.

Chairman Lorne Wolverton asked "are municipalities treated any differently?" Mayor Bill Swain of Sechelt replied that the department has never approached the village, at the same time there has been no re-locating of roads within the village boundaries.

Mayor Wally Peterson commented that as far as Gibsons is concerned the department has always been most co-operative.

WATER APPLICATION

Application for water rights by a company proposing a gravel operation in the area has been held over pending further information from the company regarding its plans.

Remarking on the situation, Mayor Swain said he had held a discussion with an executive of a company which has a similar operation. He had explained that the plant was in the centre of housing and while not a thing of beauty, was in no way considered a detriment, dust is negligible and no one complains. Further an invitation was extended to the Mayor and interested parties to visit the plant anytime.

Director Gilker, referring to the fact Brittania has been used as a yardstick, said "this is not a modern plant, the one proposed here is and it would be nice to be able to demonstrate the working of a modern operation."

It was agreed that Mr. Gooding contact the company with a view to some of the directors visiting the plant.

CENTENNIAL

Regarding the Centennial '71 celebrations, Mayor Swain drew attention to the fact that if each community goes for individual projects, the monies they raise, together with the matching government grant, will amount to very little. He suggested the Regional Board consider working with the municipalities and communities on one good project of benefit to all.

Director Gilker explained that this will be up to the various communities who will each have to form their own committees. He agreed that one combined project would prove the best solution.

A letter was read from Dr. J. Crosby on behalf of the Sunshine Coast Recrea-

—see page A-6

Mr. Clean

Bright yellow fibreglass bathtub on aluminum ski took John Smith of Smitty's Marina, Gibsons, about a day to make; powered by a 6 h.p. Mercury it carried him to fourth place in Nanaimo to Vancouver third Annual Bathtub race. Hardest part of the race, says John, is breaking away from entries and escort vessels in Nanaimo harbour but once free he planed along at 22 m.p.h. and used two gallons of gas to cover 36-mile course in 2 hrs. 16 mins. 40 secs. Accompanying John in escort vessel were Keith and Dave Whales of University of California and Pete Mason of UBC.

Water dispute...

Sechelt Village Council supports Regional Board

ATTITUDE of the Sunshine Coast Regional Board regarding any dispute over who owns the Sechelt Waterworks is that the Board lawfully expropriated following failure to negotiate with the Waterworks Company and that the system is now the property of the Regional District.

Support of the Board was made clear by Sechelt Mayor, Bill Swain who at last meeting of the Board Friday July 25, said "as far as the village of Sechelt is concerned the Waterworks now belongs to the Regional District."

Effective immediately, new name for the system is "Regional Water Authority" and bills may be paid in future either through the Board office at Davis Bay or at the Sechelt village office.

Outlining the circumstances leading to the expropriation and subsequent dispute, Chairman Lorne Wolverton said plans were made to buy the system after water, as a function, was approved by the electorate. Feasibility studies were carried out and engineering plans formulated.

At a meeting between company executives and the Board, proposals by the Board were favourably received and it was indicated the system would be for sale. As a result and following an assessment by an engineering consultant, the sum of $50,000 was offered and accepted by the company manager Mr. J. G. Baillie. This was changed with notification that the company would accept $90,000 for shareholders equity, this in total would have cost the taxpayer nearer $150,000.

Counter offer by the Board was rejected and a final price of $120,000 was asked by the Company. This was followed up with an offer of $60,000 by the Board but was rejected with notification that the service was no longer on the market.

Assessment of the Waterworks was also carried out on behalf of Sechelt Village by an independent engineer who suggested a price far less than the Board engineer. With the interest of the taxpayers at heart, the Board was faced with no alternative but to expropriate and go to arbitration and insists it still owns the Waterworks.

Board solicitor, Bruce Emerson of West Vancouver, told the Board the actual take-over date was July 2, but the Company did not indicate whether it would acquiesce or contest the action by the Regional District. He therefore got in touch with them and was given to understand they would co-operate with the Board. Later they had a change of mind and claimed the Board had no authority to expropriate and would not let it go.

Since that time the Company has inserted in the press and elsewhere stating that any bills not paid to them would result in water connection being cut off "should they actually do that, then we would simply turn it back on again" he said.

Explaining reluctance by provincial departments to assist the Board, Mr. Emerson said "we were led to believe the Water Rights Branch would help us with cancellation of the Company's water

—see page A-6

Honolulu-Capetown...

Interest from overseas in waterfront proposal

ALTHOUGH no definate committments have yet been made, considerable interest has been indicated by outside concerns in the proposed Gibsons waterfront improvement project, with enquiries reported from as far as Honolulu and South Africa.

Letter from a local resident read at last week's meeting of Council stated that when plans for the project are completed he has a number of interested parties with available funds.

Alderman Gerry Dixon said he understands that two of these parties are from Honolulu and Capetown, also that a few others from elsewhere are interested. He moved the letter be acknowledged together with a copy of the plans. Also that a copy of the letter be forwarded to engineer Martin Dayton.

Council plans for the bay area include construction of an island with access by a causeway, total area to be about four acres with provision for a hotel, marina and stores. Total development cost was estimated at $2,500,000.

PETITION

Clear up of a beach access road off Franklin Road recently led to a letter of protest signed by a number of residents who opposed parking area up to their property lines. They also protested refuse in the vicinity and the fact that properties in the area have devaluation. Further that no toilet facilities exist in the beach area, no provision is made for garbage and there is a reluctance by the fire department to co-operate in the event of beach fires.

Mayor Wally Peterson expressed the view that while a claim is made that a ditch along the access road was cluttered up, council actually put in a nice ditch and made a very fine job of the access road. He said "it seems to me, one of the people doing the shouting was also against parking on Franklin Road last year.

Alderman Ken Crosby agreed and added "this person who is not even a permanent resident seems to be stirring these people up". Council in general approved the work done on the access road and agreed the letter of complaint be filed with no further action neccessary.

PARKING

Alderman Crosby reported on wharf parking and said he has, in company with Cpl. L. Biggeman, worked out a plan for parking area which should cater to 34 automobiles. Further to this, additional parking provided by Charles Mandelkau and increased customer parking at the Ken's Lucky Dollar store has helped considerable to ease the parking problem.

NO LIFEGUARD

Letter from the Coast Garibaldi Health Director advised that during a recent visit to the Municipal beach, he had noted swimming taking place, water was murkey and there was no lifeguard on duty.

Ald. Ken Goddard said he was aware of the Directors visit and his complaint. All that was required to protect council was a sign advising "swimming at own risk" this was attended to immediately.

Mayor Peterson noted that council is already paying toward cost of a swimming instructor and is certainly in no position to hire a lifeguard also. It was therefore moved the Health Unit be informed that a sign has been erected.

Injuries compensation in aiding law officers

B.C. RESIDENTS are now able to claim compensation for injuries received while assisting police officers in their duty as a result of the official proclamation May 8 of an Act passed during the last session of the Provincial Legislature.

The new law provides for compensation to persons suffering personal injury while attempting to assist the police, as well as for injuries incurred by persons witnessing a crime being committed and attempting to make a citizen's arrest.

Under the new legislation persons will receive the same compensation benefits they would deceive if they were injured in the course of their employment and covered by Workmen's Compensation.

All compensation costs for work caused injuries are paid by employers in the province, but in the case of the new law the WCB will bill the government just as if the injured person were employed by the Provincial Government.

Remanded...

Worthless cheques count local architect charged

ENTERING a plea of not guilty to two counts of false pretences by passing worthless cheques, Dereck Mark of Sechelt, appearing before Magistrate Charles Mittelsteadt last Wednesday, July 23, was remanded on bail of $300.

Mark, who told the court he is an architect, was remanded to August 8 at request of the police in order to provide witnesses. Charges arose from purchase of furniture by cheque and obtaining the sum of $20 by another cheque, both of which were returned as worthless.

Barrie Fenn of Pender Harbour was also remanded at his own request to August 6 at which time he said he plans on pleading not guilty to a charge of driving without due care and attention. He too expects to produce witnesses on his own behalf.

Charge arose from an incident at Davis Bay July 12.

Christopher Julian, aged 22, pleaded guilty to causing a disturbance at the Roberts Creek Dance Hall July 20 when found by police to have passed out on the steps of the hall.

Police told the court, Julian was in an advanced state of intoxication and became abusive when lifted to his feet. This was his fifth such charge this year and he had a similar number against him last year. There were also previous charges in 1967.

Magistrate Mittelsteadt told Julian "you have a very bad work record and are a cause of trouble to your mother." He fined him $200 or three months in jail. Fine was not paid and he was taken to Oakalla.

Angus Craigen appeared on a charge of being a minor in possession and asked for a remand without plea in order that his mother might be present. He also presented a letter from the band spokesman on his behalf. Bail was set at $50 and was paid later.

Following an incident Saturday, July 19 in which he lost control of his car and rolled into a ditch, Robert Wing appeared to answer a charge of driving without due care and attention. In court last Friday, July 25, he pleaded guilty and was fined $50.

Charges are pending following an accident last Wednesday night in which a station wagon driven by Frank Weimer of Selma Park struck another vehicle a glancing blow, left the highway, crashed through a fence, crossed a lawn and ended up in shrubs at the home of Mr. A. Kynock at Selma Park. A lady passenger was taken to St. Mary's Hospital for a check-up but there were no serious injuries. Weimer suffered slight cuts.

Pianist

Mrs. Dianne DeMarco has qualified for the degree in music which now makes her an Associate of the Royal Conservatory of Music Toronto. Dianne is an exceptionally busy young lady, she is employed at Canadian Forest Products, Port Mellon and teaches piano besides being a housewife.

Sechelt News Notes

MRS. J. A. Morgan of Kitchener, Ontario and Mrs. W. Meade of Toronto planned to spend three days with Mrs. C. N. Nixon of Sechelt but their hostess was so pleasing and they liked Sechelt so much that they stayed for ten days and were loathe to leave then. They liked the stores, the clean streets and everyone they met.

Mrs. A. Clampitt and her sister Mrs. W. Patterson, mother and aunt of Mrs. J. Redman have been guests at Cozy Court, Sechelt.

Mr. and Mrs. Ron Redman of Cloverdale spent a few days in Sechelt; they liked the golf course and it is quite probable they will be more frequent visitors.

Mr. Wally Berry is home again after a session in St. Paul's Hospital.

Mr. Jim Parker is undergoing tests in St. Paul's Hospital but hopes to be home in a day or two.

Mr. and Mrs. Stef Arnason and their two children, Sandra and Carl, have been visiting at Cormack's By-The-Sea, Davis Bay for the past three weeks. Mr. Arnason is the Administrator at the Department of Agriculture Research Station at Lethbridge, Alberta. While here his interest transferred from agriculture to marine life as he and his family explored the beaches, bays and coves of the Sechelt Peninsula. They had a wonderful holiday and intend to return.

Nancy Harris and Leslie Priest of Pemberton are visiting Nancy's grandparents Mr. and Mrs. D. R. Barclay at Davis Bay.

Aboard the six o'clock flight from Vancouver to Gatwick, England, last Sunday were Barry MacDonald and Roderic Wheeler off to seek, hopefully, fame and fortune. Both former Elphinstone students, Barry is the son of Mr. and Mrs. G. H. MacDonald of Wilson Creek and Rod is the son of Mr. and Mrs. D. G. Wheeler of Sechelt.

REUNION

Canon and Mrs. Minto Swan have eighteen members of their family gathering together around the Swan residences in West Sechelt. There are ten adults and eight children. One of the happy events was to welcome Dr. and Mrs. Alan Swan with Eleanor, Martin and Trevor home from their year in Honolulu. Douglas Swan, a navy officer and his wife Doris with David, Dianne and Ian arrived from their holiday at Jasper. Peter Swan who is a lawyer in Kingston flew in with his wife Marion and children Eric and Sandra. Anne, the only daughter and a school nurse flew in with her teacher husband from Sunnyvale, California. It was eight years ago when the adult members all gathered for Anne's wedding but this is the first time that all the grandchildren have seen each other.

There are boat trips, golf games and special children's parties planned with many barbecues on the beach.

Walter Safety says, "Tell your mother and father that you want to learn to swim NOW."

Dianne DeMarco...

Solo Performer's Degree awarded Gibsons pianist

MRS. DIANNE DeMarco (nee McDonald), has recently been awarded the ARCT (Associate of the Royal Conservatory) Solo Performer's Degree in piano from the Toronto Conservatory of Music. Dianne received a First Class Honors mark of 80 per cent in Music Form which was the final in a series of exams that candidates are required to take. The Solo Performer practical exam which she completed in January of this year is approximately one hour in length, in which the candidate is required to give a performance of five concert pieces as well as technical requirements. Dianne received Honors in this exam and a few excerpts from the examiner's remarks are as follows:

Mozart's Sonata in A Major—"Candidate has awareness of the variation style, with sensitive tapering of phrases, effective balance in the Adagio and Finale is clear and steady."

Andante and Rondo Capriccioso by Mendelssohn—"Andante was melodic and romantic in style and the Rondo is colorful, fluent and played with vitality."

La Cathedrale Engloutie by Debussy—"A competent performance, thoughtful and descriptive."

Dianne started piano lessons at the age of 10 with Mrs. Betty Allen and has been featured in many local concerts and recitals as well as the B.C. Music Festival in Vancouver, placing high among the winners. For the past two years Dianne has successfully been teaching piano at her home in Gibsons. A pupil, Stephanie Gibson, 10-year-old daughter of Mr. and Mrs. Ross Gibson has just received an Honors mark, 76 per cent, in her grade 11 piano exam.

The ARTC degree is a very difficult goal to attain as the Conservatory demands an extremely high standard and very few degrees are awarded annually. Two other students of Mrs. Allen to receive this degree in past years have been Mrs. Anne Gary (nee Lang) of Sechelt and Mrse. Mae Freer of Hopkin's Landing.

THIS VITAL YOUNG RELIGION

many paths ONE GOD
many colours ONE RACE
many countries ONE WORLD

There are three million people around the world today who believe that the unification of mankind is the will of God for our age. They call themselves Baha'is.
Perhaps Baha'i is what you are looking for.

"I may be wrong, but I shall not be so wrong as to fail to say what I believe to be right."
—JOHN ATKINS

DOUGLAS G. WHEELER, *Editor* — STEWART B. ALSGARD, *Publisher*

Problem To Be Met Now!

PARKING in the village of Gibsons has proved a headache during summer months for some years and at the present time a practical solution could prove extremely costly. Sechelt is presently better situated but by no means free from congestion during peak periods and with tourist increase the time is close when action will have to be taken.

Since the ditch along Inlet to the waterfront was filled, with parking in mind, some years ago, council has periodically brought up the question of cleaning that area up by paving and marking off for parking. Unfortunately, as pointed out by the Mayor recently, projects are put on the agenda but never completed.

As previously suggested, we have precious little to attract tourism at this time, a situation that will certainly not always be so, in the meantime it is complete folly to turn a blind eye to a situation which should be attacked now. To wait until it is with us will mean paying premium prices for available property, if available. Even at this time, there is very little property within the village in proximity to the shopping area, and what is, has already long past the low cost figure.

With the predominant reluctance by residents to accept industrial undertakings in the area, it would seem our economic future will have to depend upon tourism, should it be acceptable to those who like to dictate from ivory towers.

This industry has been recognized as a highly remunerative non-pollutive type of business acceptable to most communities and sought after by the rather more progressive. Some indication of its potential may be gathered from figures recently released by the Greater Vancouver Visitors and Convention Bureau.

It is estimated that 2,200,000 visitors to the Lower Mainland will spend more than $220 million this year. This compares with 1,896,255 visitors who brought in $200 million last year which was up from 1,164,229 who spent $46 million five years ago.

This increase has come in spring and fall months and is taken as a strong indication that the area is gaining increasing acceptance as a year round attraction.

President of the Bureau, former Burnaby Mayor Alan Emmott, says "it's up to every community to go all out and promote and encourage this trend. If tourism is to become this Province's major dollar earner, municipal governments, businessmen and community organizations must be prepared to spend money for such promotion. This will not only be returned many-fold by increases in tourist business but will also show potential developers that the economic climate is right for investment."

Battle Drums Will Rumble

ANNOUNCEMENT by Premier W. A. C. Bennett of an election August 27 has sounded the bell for battle stations and we look forward with great interest, and speculation, to the continued campaign by those two giants in the world of misguided oratory, the two aspirants to provincial leadership, Messrs Berger and McGeer.

Their entry into the election campaign started some months ago, during which time they have each taken it upon themselves to condemn, attack and belittle almost every worth while function the present government has undertaken.

Education, hospitals, taxation, cost of living, pollution, Liquor Control Board, Indian problems, police brutality, senior citizens; just name it and our two saviors appear to have a miraculous cure for all they claim to be wrong with existing government programs.

All the promises in the world are not going to cut down taxation without cutting out benefits or facilities somewhere along the way. Taxation may be juggled in a multitude of ways but it still has to be paid in one way or another and by the public. Any changes implemented in the tax structure simply means lifting the weight from one body and placing it upon another.

Those in the higher wage bracket and industry are already taxed to the limit, it is therefore, quite obvious that one does not have to be a financial wizard to imagine where the changes will rest.

We on the Sunshine Coast are perhaps fortunate in that the problem of voting is a comparatively simple one, we have but two choices which with very little contemplation means, in effect, one choice, that of Social Credit, unless we are prepared to suffer the abysmal fetters of socialism. Without hesitation, we would suggest, there is not a country anywhere in the world, under the yoke of socialism, that has a living standard to compare with ours. It is a regime which thrives on state control yet succeeds in establishment of a lower standard of living, slumping economy and stunting of initiative.

With the right leaders, either liberals or conservatives could possibly succeed in keeping the province on an even course, who knows, they might even excel the socreds. At the same time it is quite evident neither has a hope at this time and should we be dedicated supporters of either party we might just as well face facts: We have to choose between socialism or free enterprise. Considering the country, as a whole, has prospered and become one of the most highly respected countries in the world under free enterprise, it is reasonable to assume this is a successful system, particularly for those who have no objection to working for a living.

During coming weeks we will be treated to a constant barrage of promises, political hogwash, propaganda, downright lies, halftruths and some truths and all flavored with avowed dedication and overplayed sincerity. In short, the circus has commenced, the con game has been launched but we rather suspect the modern public is no longer gullible and August 27 will separate the boys from the man.

Fletcher's Philosophy

—Harry W. Fletcher

HOLIDAY

We know it's too soon for a definite plan
of where we shall go on vacation,
But somebody mentioned a trip to Japan
which started the whole conversation.

Though school won't be out for a couple of months
and April's not through with its sprinkling,
We may as well open discussion at once
and find what the family's thinking.

The boys are all crazy to sail on a yacht,
though this is impractical wishing,
They'll usually settle for any old spot
just so there's a chance to go fishing.

The girls like a popular mountain resort
where horses and men furnish action;
While Dad prefers watching his favorite sport
without any needless distraction.

But Mom is the easiest person to please,
which governs the holiday booking:
A plushy motel to relax at her ease
where somebody else does the cooking!

Superintendent of schools dies suddenly in Kelowna

THREE or four Powell River school trustees and one or two ex-trustees are attending the funeral of Superintendent of Schools, Gordon Johnson in West Vancouver this afternoon.

Mr. Johnson died in Kelowna Friday. He was in Kelowna for his son's wedding.

He had been superintendent of schools for the past nine years. Until last year he was also superintendent of schools for Sechelt.

Prior to coming to Powell River he worked in Kelowna, Prince George and Peace River. Over 20 years ago he taught at Brooks school for seven years.

"The school board regrets the sudden death of a person with whom they have been associated for nine years," Jim Ford, board chairman, said last night. "During his time as the superintendent he contributed much to the advancement of education."

Now for the real test: selling soap to hippies

Halfmoon Bay Happenings

—by Mary Tinkley

COOPER'S Green, Redrooffs, was gay with banners and streamers for the Country Fair organized by the Welcome Beach Community Association last Saturday and the Green was thronged with impatient customers long before the time of opening. At 2 p.m. Canon Alan Greene declared the Fair open and customers pounced on the crusty loaves of fragrant home-baked bread, pies and cakes and the bargains in novelties and white elephants.

Kept busy at the home-baking stall were Mrs. Keith Comyn, Mrs. M. Tinkley and Mrs. E. Pearce. Mrs. V. Sallis and Mrs. Wm. Fraser sold aprons and novelties, while Mrs. Roy Holgate attracted the young fry with an assortment of toys.

At the Garden Stall, with its colourful display of flowers, fruit, vegetables and jellies, were Mrs. J. Allan and Mrs. M. Walker. The hard-working team on the Hot Dog stand were Mrs. A. Rutherford, Mrs. Bill Cameron, Mr. and Mrs. Ed. Cook and Mrs. R Warne.

Mrs. Guy Clear, in charge of white elephants was assisted by Sherry Greenlaw. Mrs. Eric Prittie of Roberts Creek kept the youngsters happy at the Fishpond, which she took over in the absence of her mother, Mrs. Ralph Lynds. Mr. and Mrs. Hugh Duff were in charge of raffles and Mrs. B. McCaul ran the bookstall. Mrs. Arnold Bond's stall was kept busy with guessing contests.

Bingo called by Jack Hall and Charlie Coatham, was so popular that there was a line-up for seats.

The following are the results of the races run under the direction of Hugh Duff, assisted by Eric Prittie:

4 - 8 years: 1, Sally Birchall; 2, Andrew Boyle.

Girls 9 - 14: 1, Jill Birchall; 2, Brenda Gallagher.

Boys 9 - 14: 1, Rob Steeves; 2, Trevor Firth.

Egg and Spoon Race: Kerry Dix.

Fritz Leuchte won the watermelon by guessing its exact weight, 16 pounds, and Mrs. Ladner won a doll by guessing its name, which was Sylvia.

The following are the winners of the raffles:

Grocery Hampers: Mrs. Jerry Williams and Ted Cook.

Garden Lounge: Mrs. Harry Lumsden.

Dolls: Blackie Petit and Mrs. A. Simpkins of Davis Bay.

The Welcome Beach Community Association is grateful to all who helped to make the Fair such a success— to Jim Cooper for the use of Cooper's Green, to those who gave so generously to the home baking and other stalls, to Parker's Hardware and L. & J. Jewelers who donated prizes, to Mr. and Mrs. Eric Prittie who came from Roberts Creek to help, to Mrs. E. McWhinnie of Sechelt who gave such generous support and to the ladies of Halfmoon Bay who helped on the hot dog stand.

WATER BOARD

The Annual Meeting of the Welcome Beach Water Board will be held at the Welcome Beach Hall on August 2 at 7 p.m. to which all property owners in the Welcome Beach sub-division are cordially invited. It will be followed at 8 p.m. by the Annual General Meeting of the Welcome Beach Community Association.

IN BRIEF

On Tuesday, August 5, all residents of the area are invited to attend a tea at the Welcome Beach Hall from 2 - 4 p.m. Guest of honor will be the Hon. Isabel P. Dawson.

Mr. and Mrs. Alex Ellis have returned from an interesting trip to Yellowknife, N.W.T., where they visited Mrs. Ellis' sister, Mrs. Ray Barton. They travelled by CNR to Edmonton and flew from there to Yellowknife. There they enjoyed the long days with more than 22 hours of sunshine and comfortable temperatures in the 70's. They made several trips and saw three falls on the McKenzie River all higher than the Niagara Falls. In order to see more of the country, they returned home by bus, travelling over 700 miles of gravel roads in two twenty-hour stages, with an overnight stop at Edmonton.

Tony Tschaikowsky is convalescing at his home following surgery in St. Paul's Hospital. Still hospitalized is Rob Wilkinson, a patient in Lions' Gate Hospital.

Len Van Egmond is limping around despite a broken leg sustained in a car collision in a bad part of the Brooks Road.

With the closure of the Gulf to trollers, Ed Edmunds has returned home for a few days. He complains that fishing so far this year has been poor.

Guest of Francis Stone last weekend was his cousin, Jim Bennett of Compton Martin, near Bristol, England. Mr. Bennett is on a visit to a daughter in Vancouver.

Visiting the Pat Murphy home are Mrs. Eileen Mark of Edmonton, Dallas and Bobby.

At the Ted Surtees' home is Mr. Surtees' sister, Mrs. Albert Richards of Terrace.

Bible Society to hold rally in Gospel Church

PART of the Bible has been published in languages of 95 per cent of the people of the world and yet there are nearly 2000 languages and dialects in which nothing has been published.

At the present time 3000 people are involved in the task of translating and revising the Bible in 800 languages. The Christian Scriptures are being published in a new language every 8 days.

This significant work is being done under the direction of the United Bible Societies, and the Canadian Bible Society is sharing in this world-task through contributions made by people in this nation who value the blessings of the Bible.

To encourage increasing support of this work essential to all Churches in their missionary outreach and imperative in a world of awakening millions, a Rally is being held in the Sunshine Coast Gospel Church, Davis Bay, Sunday, August 3 at 7:30 p.m.

"Trials of a Translator" is the title of a most interesting motion picture being shown at this Rally by the District Secretary of the Canadian Bible Society.

The film features the great significance of putting the Bible into the languages of the people of the World.

NEW RECIPES
Brought to you by these progressive places of business

POTATO CHIPS AND APPLES ADD ZEST AND COLOUR TO TUNA SALAD

Visit your local outdoor market this week to take advantage of the multitude of top quality fruits and vegetables available at reasonable prices. Pick up shiny apples, the last of the Canadian celery and green onions to make Tuna Apple Salad.

This year has produced a bumper crop of apples. Canadian apples equal no other fruit in color, aroma, crisp, juicy texture and delicate flavour. Buy apples by variety according to cooking and eating quality. Some of the good eating apples are McIntosh, Delicious and Spy while Greenings, Wealthy and Spy are best for cooking.
Excellent with this tuna salad are piping hot potato chips. Place the chips in a paper bag in a 350 degree oven for 15 minutes.

TUNA APPLE SALAD

1 can (7½ oz.) solid pack tuna
2 medium eating apples chopped (leave skin on)
½ cup celery chopped
½ cup green onions
Salt and pepper to taste
¼ cup peanuts (optional)
¼ cup red pepper or pimento (chopped)
½ cup (approximately) Mayonnaise

Pour oil off tuna. Flake tuna. Mix all ingredients. Chill at least 2 hours. Serve on a lettuce leaf with hot potato chips and relishes.

Around Gibsons

IT WAS very excited home on North Road, Gibsons, when Mom and Dad, Gerry and Gordon Clarke arrived on July 10th with their chosen daughter, five month old Jennifer Lynn. Brothers Robert, Alphonse and Bruce and sisters Heather and Pat are very pleased with their beautiful new member of the family. Happy grandparents are Gwen and Vic Beckly of Victoria and Marie and Alf Clarke of Gibsons, B.C.

Linda Biggemann, 9 year old daughter of Corporal and Mrs. L. Biggemann of Gibsons has just received word from the Royal Conservatory of Music in Toronto of her successful passing with honours of her grade two piano exam. Linda is a pupil of Mrs. Betty Allan of Roberts Creek.

FAREWELL

Honouring Mr. and Mrs. W. S. Potter about 50 people were present at a coffee party and social hour following Morning Worship service at Gibsons United Church on Sunday July 20. Representatives were present from Wilson Creek and Roberts Creek as well as Gibsons congregation.

Mrs. Ron Vernon rendered a beautiful vocal solo. Tribute was paid to Mr. and Mrs. Potter by Mr. Frank Daugherty speaking for the Board of Stewards; Mr. Tom Fyles who spoke for the Session and Rev. W. Murray Cameron who on his last Sunday at Gibsons United Church was given the honour of making the farewell speech and presentation of a gift.

Mr. and Mrs. Potter's departure will be a loss to the community they have served so well. Mr. Potter has been a tower of strength in the Church, filling many positions and helping in numerous capacities. Their daughter Miss Kathy Potter was unable to attend as she is taking an Art School course at Penticton.

HERE AND THERE

Randy Wiren, son of Mrs. L. E. (Grace) Wiren of Hopkins Landing has been in Finland for the past two months. Mr. and Mrs. Randy Wiren and daughter now live at Aberdeen, Washington. Randy was formerly an electrical foreman at Port Mellon and is now with Lamb-Grays Harbour of Hoquiam, Wash. and was sent to Finland on a special job. He was particularly happy with the assignment as Finland was the birthplace of his late father.

While Mr. Wiren is overseas, his wife and daughter are on vacation at South Pender Island.

Visiting Dr. D. L. and Mrs. Johnson for a week were their son and his family, Dr. Vernon and Mrs. Johnson with April and Maya who motored from Prince George.

Mr. and Mrs. George Flack's guests were Mr. and Mrs. Cecil Fitzsimmonds who drove from San Marcos, California. This was their first visit to Gibsons. The two families are old friends having gone to school together in Saskatchewan.

Mrs. F. R. Broderick of Beach Ave., Roberts Creek spent 6 weeks in England, travelling by plane.

Karl Schroers motored to Calgary to visit his sister.

Miss Lynn Vernon who was vacationing at the home of her parents Mr. and Mrs. Ran Vernon, has gone to Hudson Hope to visit her brother and sister-in-law Dick and Heather Vernon and family.

Mr. and Mrs. Clarence E. Graham of Port Mellon have returned from a three week vacation during which they flew to Birtle, Manitoba to attend the celebration of the 90th birthday of Mrs. Graham's father.

At the home of Mrs. Iris Smith, the 87th birthday of her mother Mrs. I. M. Diamond was observed recently.

Mr. and Mrs. R. Durman and family from Port Moody were holidaying at Gibsons.

Visiting Mrs. Ida Lowther were Mrs. Ted Lowther and two children from Port Coquitlam.

Pierre Berdahl spent a week with Bob and Jackie Burnett and Dwayne at Ladner.

Lois Tyers and her husband from Coquitlam (former Gibsons residents) visited friends here recently.

Mrs. Leckie who was vacationing at the Marlar home at Hopkins Landing has returned to the city.

Mrs. Mary MacIntosh and Linda have returned from Blue River where they visited relatives.

Guests of Mr. and Mrs. Durant Irgens were daughter Amelia from Vancouver Island and daughter Lillian from Surrey.

Guests of Mr. and Mrs. William Hutchins were their son-in-law and daughter Mr. and Mrs. Arthur Groll and four children from Calgary. Holidaying here for 3 weeks are Mr. and Mrs. Hutchins' son with his family from Coquitlam, Mr. and Mrs. Jack Hutchins, Judy, Jill and Jeff.

While on vacation Mr. and Mrs. R. L. Blakeman motored to the Kootenays visiting relatives at Nelson then on to Vancouver Island where they were guests of Mr. and Mrs. Maury Randell at Courtenay.

Mrs. George T. Smith of "Carol Lodge" was a recent visitor to Harrison Hot Springs to see her sister and niece there.

Mrs. Arnold from Prince Albert, Sask. who was visiting her daughter Mrs. Weinhandl here, has now gone to California to see her son.

Mrs. Mary MacIntosh and Linda visited Alfred and Elsie Fletcher and family at Nanaimo.

Mr. Dale B. Franklin is attending summer school. Having accepted a teaching position at Kitimat, Mr. and Mrs. Franklin and family will be moving in August. Mrs. Lucy Franklin from North Vancouver will visit with the Franklins here before their departure.

Attending Fraser Valley Camp at Clayburn were Mrs. K. Schroers and Derrek, Mrs. M. Cooper and Mrs. E. Lawrence.

Guests of Mrs. M. Hollowink were Mr. and Mrs. George St. Germaine and family from Riondell.

Mrs. Violet Dumonceau and family from Coquitlam visited her parents Mr. and Mrs. Alf Clarke and other relatives and friends here. Also visiting Mr. and Mrs. Clarke were the latter's nephew Mr. and Mrs. Leo De Decker and children, also Mrs. Fisher all from Regina. They enjoyed their first visit to this part of the country being among 25 persons at a barbecue party in honour of the birthday of Mr. Alf Clarke on Friday.

The wedding of Arnold John Wiren younger son of Mr. and Mrs. Wiljo Wiren and Miss Beverly Kermode of Vancouver will take place at the Unitarian Church Vancouver on August 22, 1969.

Recent guests of Mr. and Mrs. Gordon Clarke were Mr. and Mrs. Victor Beckly from Victoria also Mr. and Mrs. Leonard Beckly from Whitby, Ontario.

Mrs. R. Emerson has returned from Edmonton where she went by train to visit her son-in-law and daughter (Elaine), Mr. and Mrs. Hearfield.

While on holiday Mr. and Mrs. Pat Quarry with Trevor and Brad motored to Prince George. From Kamloops, Mr. Quarry went on to Calgary to visit his mother. Mrs. Quarry and sons returned home.

Mrs. Burnett and Dwayne from Ladner visited relatives here being joined on the weekend by husband Bob. The fishing was good.

Mrs. Alice Veitch was accompanied by her sister Mrs. Ina Johnstone from Terry Point, Vancouver Island, when she motored to Prince George to see her daughter. They also visited a niece at Prince Rupert before going to Lake Lakelse and Kitimat. They enjoyed staying at the Government Camp-sites situated at scenic points and at Kispiox, Mrs. Veitch took pictures of the totem poles and church.

Expansion

Opening up a truly beautiful panoramic view of Porpoise Bay, a new seventy acre subdivision is being cleared on the West arm of the Bay by Mr. Ted Osborne who foresees the wide access road as being the start of a road through to Egmont. The gently graded subdivision is within Sechelt Village boundary and will be a tremendous asset to the village.

Unemployment Insurance

Any Questions, please?

Q. I have bought a truck to haul lumber for a dealer in the Gaspe Peninsula. As I am paid at an hourly rate, I should like to know if my employment is insurable and if I will be entitled to benefit upon termination of my employment.

A. No, your employment is not insurable because, under the Unemployment Insurance Regulations, a person who, for consideration, contracts for the conveyance of things by means of a motor driven vehicle and who is the owner of such vehicle, is engaged in excepted employment in respect of which unemployment insurance contributions are not payable.

Q. I attend university full time. In order to pay for my next year of study, I will work as a singer in a gogo club one night a week. My employer, who is the proprietor, tells me that my employment is not insurable. Is he right? If he is not, will I be entitled to benefit next winter?

A. It is true that your employment is not insurable, as you are a student and work less than 24 hours a week.

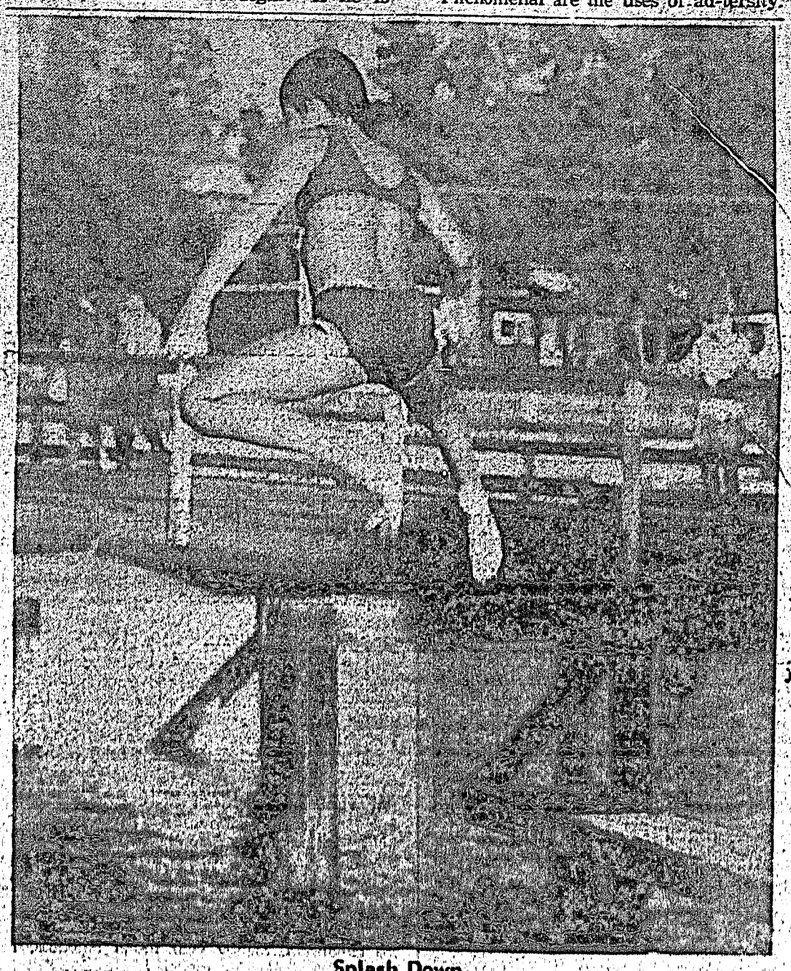
Even if you had the required number of contributions to your credit, you would not be entitled to benefit as, being a full-time student, you would not be available for work.

Questions should be referred to Information Services, Unemployment Insurance Commission, Vanier Building, 222 Nepean Street, Ottawa, Ontario — Tel. 996-2975.

Spruce are the mast common Canadian conifers.

Soil chemical variations affect leaf color.

Phenomenal are the uses of ad-tersity.



Splash Down

Youngsters in a holiday mood at Wilson Creek are enjoying wharf facilities, courtesy Standard Oil Co.; if they are not fishing from it or climbing under it they're jumping over it, or at least trying to as Lynn Bullis demonstrates trying out a new diving style at high tide.

SCHOOL DISTRICT No. 46 (SECHELT)

Notice to Resident-Electors and Tenant-Electors

Qualified persons, **other than property owners,** wishing to have their names entered on the List of Electors for 1969-70 must file the necessary declaration with the Secretary-Treasurer of School District No. 46 (Sechelt), Box 220, Gibsons, B.C. **before 5:00 p.m. on AUGUST 31, 1969.**

Wives or husbands of property owners, who are not themselves registered owners, may register as resident or tenant electors.

SOME INDIAN PEOPLE CAN VOTE AS TENANT OR RESIDENT ELECTORS

An amendment to the Public Schools Act has been interpreted to mean that, where an Indian Reserve lies within a provincial school district and where the Indian children attend a provincial school, the adult Indians of the Reserve can register as tenant-electors or resident-electors, which makes them eligible to vote for school trustees and also to run for election themselves as school trustees. (Tenant and Resident Electors cannot vote on money by-laws).

J. S. METZLER, Secretary-Treasurer
Box 220, Gibsons, B.C.

If you are a resident, but not the head of the household, you can be placed on the voters' list by completing the form below and sending it to the Secretary-Treasurer BEFORE AUGUST 31, 1969.

(CUT ALONG DOTTED LINE)

DECLARATION BY RESIDENT ELECTOR

Canada:)
Province of British Columbia)
School District No. 46 (Sechelt)
Box 220, Gibsons)

I, _____ do solemnly declare as follows:

(a) That I am a Canadian citizen or other British subject and that I am of the full age of twenty-one years.

(b) That I have been continuously, for six months immediately prior to this date, and am a resident of the school district (or a rural area of the school district).

(c) That I reside at _____
(here describe by address or property description)

as _____ in the said school district.
(head of family, member of family, boarder or lodger)

And, I make this solemn declaration conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act.

DECLARED BEFORE ME AT _____, B.C.)
this _____ day of _____, 19____)
) _____
_____)

NOTE: The declaration must be signed in person before a Notary Public, a Commissioner of Oaths, other person so empowered or the Secretary-Treasurer. Declaration must be delivered to the Secretary-Treasurer within one week of the date thereon.

Complete the form below for tenant-elector if you are the head of the household and send it to the Secretary-Treasurer BEFORE AUGUST 31, 1969.

SUNSHINE COAST REGIONAL DISTRICT
REGIONAL WATER AUTHORITY

NOTICE TO CUSTOMERS ON THE SECHELT SYSTEM

Customers on the Sechelt System (formerly Sechelt Waterworks) may now pay their water bills at the Sechelt Village Municipal Office or at the Regional District office, Davis Bay. Rates for the quarter commencing July 2nd are now due. Cheques should be made payable to the Regional Water Authority.

CHARLES F. GOODING
Secretary-Treasurer

tion Centre Committee suggesting a similar proposition and recommending consideration be given to making the proposed Centre the project.

HYDRO SPRAYING

Further indignation was expressed in letters to the Board from several local residents regarding what was termed "irresponsible" use of spray, particularly in the vicinity of water supply sources.

One letter from the Gibsons Rod and Gun Club sought support for a resolution condemning use of chemicals for this purpose. Others protested the fact spraying of brush was carried out over water sources.

Mayor Swain suggested the letters be turned over to the Health Unit, Director Frank West pointed out that had the Board constructed its proposed reservoir it too would have been affected, Director Gilker said there is no proof as yet that the spray is not toxic and until such time proof is forthcoming the B.C. Hydro should be held responsible for any detrimental effects.

It was moved letters of protest be submitted to B.C. Hydro, Dept. Public Health, Waterworks Branch, Dept. Fisheries, Isabel Dawson and all authorities likely to be concerned.

New group formed to fight pollution

FOLLOWING the meeting held at Gibsons Rod and Gun Club July 18 which was addressed by members of the Vancouver based Society for Pollution and Environmental Control, it was decided to form a citizens' group on the Sunshine Coast to support local government in an endeavor to preserve a quality environment (unpolluted air, water and soil, clean beaches etc.) in this area.

The first meeting of this group will be held on Thursday, July 31 at 8 p.m. at the Gibsons Rod and Gun Club, on the highway opposite Seaview Cemetery. All those wishing to become involved in this important work are welcome and urged to attend.

The new group will most probably affiliate with S.P.E.C. and will work closely with the Parks and Pollution Committee of the Gibsons Rod and Gun Club.

Collection undertaken for painting purchase

SUNSHINE Coast Arts Council has undertaken to collect donations towards the cost of a seascape by the late Alec Znotin. The painting will be given to the Gibsons Village Council to be kept in memory of Mr. Znotin and will be displayed on a rotating basis in various places in the community.

At present the painting is on display in the window of the Kruse Drug Store in lower Gibsons. Donations may be made at the drug store or sent to Mrs. Maryanne West, Gibsons.

The names of all donors will be recorded on a list attached to the back of the painting.

As requested in the painter's will, the proceeds will go to the Crippled Children's Fund.

MORE ABOUT . . .

Water dispute

—from page A-1

rights, we therefore went to see them, but unfortunately it proved to be a wasted exercise". He and the Secretary Treasurer, Charles Gooding, also called on the Public Utilities Commission and discovered that the Commission is aware that the system has been allowed to become run-down. If the Waterworks Company insists on claiming ownership it could be forced to renovate the system and bring it up to standard. "I suspect they are afraid of arbitrtaion" he added.

The Solicitor advised against rushing to court for an interim injunction, this, he said, would only be until the matter gets to court and this could prove a long drawn out affair with no decision for a long time. "We have been told we can expropriate, we have done so and there should be no need for expensive litigation" he said. However, he warned the Board that it could not stop the company starting litigation and it could try for an injunction.

Earlier action by Mr. Gooding to put up a notice on a water tank was countered with tearing down of the notice and a threat by the company to put on security guards. As a result, said Mr. Emerson, we consider seeking aid of the police. This unfortunately would have put the RCMP in a difficult position and would also have been rather undesirable, although this action was actually suggested by the Water Rights Branch.

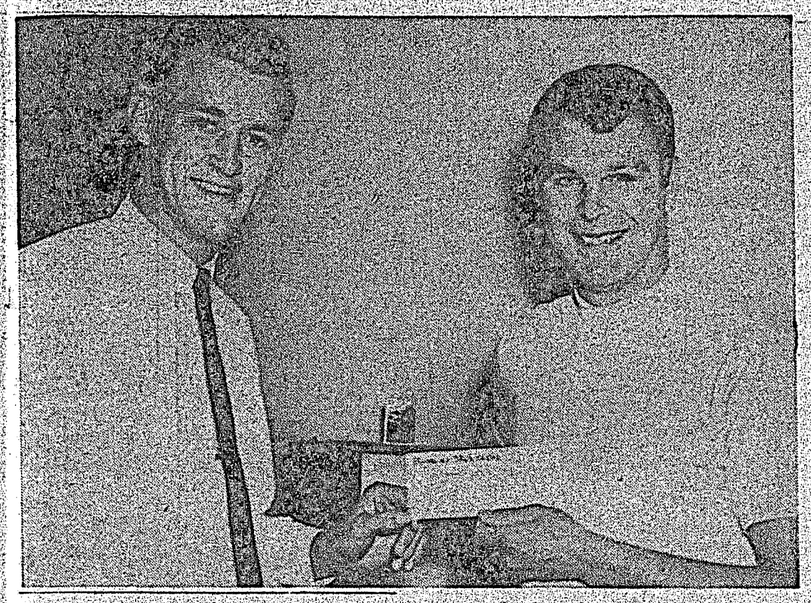
Mayor Swain questioned rights of the company to shut off anyone's water connection on grounds that it would create pollution and might well be illegal under the Health Act. Mr. Emerson said he had not considered that angle but would certainly check it out.

In a spirited outburst, Director Frank West said he feels they have no rights "they have been expropriated and have no powers" he said. He added "for years this company has been in contempts of users. We are a lawful District Board under the laws of B.C. this Sechelt Waterworks Company comes under those same laws also and how it can turn around and say it is not under the laws of the land and above the powers given this Board is hard to understand, I think these powers should be tested. All they can actually do is say "this affair is illegal."

Mr. Emerson agreed but commented "they probably hope to be as obstructive as possible by creating embarrassment in the mistaken belief that they are right and hope to get the Board to pay the high price they ask.

General agreement was reached that full confidence be given the Water Committee which would carry on a steady take-over and act to the best of their ability. In the meantime approval has been given appointment of an experienced arbitrator, Mr. Robert Gardener of Vancouver, for such time his services will be required.

Understatements with overtones reverberate.



Recreation Project

Many service clubs, organizations and individuals are actively supporting the establishment of a recreation centre on the Sunshine Coast and last week another $100 was added to the fund when secretary of the Gibsons Kinsmen Club Vince Lemke presented a cheque to Dr. John Crosby who is accepting donations and partial advance memberships in the Gibsons area. Mr. Len Fox is accepting memberships in Sechelt - Pender Harbour areas.

New Route

Deviation of route took this 1958 Ford driven by Frank Weimer of Selma Park across the lawn and into the bushes at the home of Selma Park resident Mr. G. Kynoch last Wednesday night July 23. Mishap occurred when the vehicle struck a panel truck and glanced off out of control, through the fence of the Kynock home. No serious injuries were reported.

Debris Trail

Debris left in the wake of the Weimer vehicle after crashing the fence of a Selma Park home shows the course taken through shrubbery and across the lawn, narrowly missing house and trees before coming to rest in the bushes.

Grades XII-XIII...

Departmental modifications speed examination results

BRITISH Columbia Grade XII students who wrote regular June Department of education examinations have now had their results mailed, it was announced today by the Honourable Donald L. Brothers, Minister of Education. Grade XIII Departmental Examination results and Grade XII Scholarship Examination results will be released approximately one week later.

"This year, all Grade XII Academic-Technical Programme students therefore will have copies of their final transcripts considerably earlier than has been possible in previous years", the Minister continued. Mr. Brothers noted that early release of results provided students with added opportunity for career planning, especially if post-secondary education was being considered. Furthermore, this year students will automatically, receive an extra three copies of their transcripts in order that several alternatives may be pursued immediately.

This year's earlier release of results was effected by major modifications in administrative procedures relative to Departmental Examinations, and particularly by the use of computers in preparing student transcripts. These same innovations will permit regular Grade XII Departmental examinations to be held twice annually in January and June hereafter, rather than in June only.

In June, 1969, some 19,200 regular Grade XII Departmental examinations were written. This year there were some 19,572 students enrolled on the Academic Technical Program and 12,253 students completed graduation requirements. Many were recommended and did not write examinations. In addition, a significant number of students enrolled on programmes other than the Academic-Technical graduated from Grade XII at the end of June.

At Christina Lake...

West Sechelt family unites as eighty relatives gather

LAST January Mr. and Mrs. Budd Fearnley of West Sechelt thought about a family reunion for all the descendents of Mrs. Fearnley's mother and father, the late Mr. and Mrs. Robert Allen and after much correspondence and planning the event took place in July.

Over eighty direct descendents and a few other relatives gathered at Christina Lake near Grand Forks from July 6-12 and during a happy week of swimming, boating, wiener roasts and get-togethers, the family became truly re-united.

On Friday evening everyone gathered for the family dinner and dance held in Christina Lake Community Hall where the anniversary cake was cut and several birthdays and anniversaries were celebrated. Mr. Fearnley was master of ceremonies for this first anniversary gathering and plans have already been suggested for a second celebration in five years time.

Formerly from New Brunswick, Mr. and Mrs. Allen spent most of their lives in Coleville, Saskatchewan where they raised the family. There were five girls and seven boys but two boys died in infancy and a third son only reached his nineteenth birthday. When the children married they scattered over three prairie provinces and British Columbia.

Mr. and Mrs. Allen retired in B.C., spending two years at Pender Harbour before moving to Haney.

Five daughters and two surviving sons, their children and grandchildren gathered for the happy occasion. They are: Mr. and Mrs. Tolief Benjaminson of Kindersley, Sask., Mr. and Mrs. Clarence Chynoweth of Coleville, Sask., Mr. and Mrs. Orval Allen of Haney, B.C., Mr. and Mrs. Charley Stewart of Prince George, B.C., Mr. and Mrs. I. B. Simpson of Haney, B.C., Mr. and Mrs. Stan Allen of Grand Forks, B.C., Mr. and Mrs. Budd Fearnley with daughters Karen and Vickye.

Daughters-in-law attending with their families were Mrs. Phyllis Allen and Mrs. Wm. Page.

Sadly missed...

Resident of fifty years served in two world wars

CAPTAIN Harold Barber Metcalfe who passed away on July 8 had been a resident of Gibsons Landing for fifty years. A native of Yorkshire, England, he came to Gibsons in 1919 and in the early days lived on the farm purchased from the late Billy Falls, at Cannery Road and the Highway.

Although Mrs. Metcalfe had been a city bred girl, with the help of her father the late Mr. Walton, she competently kept things going while Capt. Metcalfe was away for two or three months at a time on CPR ships.

In two world wars Captain Metcalfe was on convoy across the Atlantic and in the Mediterranean. He took tanks through the Canal for the British Government.

Knowing the B.C. coast very well, he sometimes did substitute duty on the MV Brittania.

Capt. Metcalfe was one of the founders of the Cannery at Gibsons. In 1929 he built a home on the shore in the Bay and left the farm; later he built the home behind the present Post Office but more recently the Metcalfes had retired to North Fletcher Road.

Capt. Metcalfe was an ardent philatelist, and also liked gardening. Possessed of a strong, simple faith in God, he was a supporter of St. Bartholomew's Anglican Church over the years. He was always a forthright and straightforward person and will be sadly missed.

Captain and Mrs. Metcalfe had been married for 56 years.

Canon Thomas Bailey of Vancouver paid tribute to the late Captain Metcalfe at the funeral held on July 11 from St. Bartholomew's Anglican Church, Gibsons.

Dept. Fisheries

—Sport Fish Bulletin

IF YOU'RE Britannia-bound this coming weekend there's reason for hope. The fishery officer's report says that about 20 chinooks from 16 to 36 lbs. came from these waters on the weekend gone by with most of the fish being taken on pink Lucky Louie plugs and flashers slow-trolled behind 6 oz. of weight. Some of last week's fish were showing the first tinge of spawning colour indicating that they're not far off spawning time in the upper reaches of the Squamish River system.

Elsewhere up Howe Sound, Halkett Point on Gambier Island produced several chinooks to 18 lbs. on the weekend and McNab Creek over on the west shore gave up a few heavy fish to 28 lbs. plus the odd jack. Defense Islands yielded a number of large chinooks including 26 and 35 pounders on the weekend.

The report for lower Howe Sound mentions chinooks, jacks and a few coho sprinkled throughout the area. Large chinooks here were found to be feeding almost exclusively on needlefish.

The Horseshoe Bay area was slow on the weekend but recent word from here indicates that herring has moved back into the Bay area with salmon along with them. A number of chinooks to 8 lbs. and a few coho were boated Monday and Tuesday of the current week.

Jacks were fairly plentiful along the south Bowen Island shore between Cowans Point and Cape Roger Curtis.

Salmon Rock (Home Island on the charts) produced a few heavy chinooks to 31 lbs. Waters above here from Gower Point to Roberts Creek gave up a few coho to anglers during week days but dropped off to almost nothing on the weekend save for the odd jack at Gower Point.

The Point Grey Bell Buoy and North Arm Jetty areas continue slow.

South of here at Tsawwassen and in neighbouring U.S. waters off Point Roberts, chinook fishing has been fair to good according to reports. No reason why Canadians can't fish below the line but remember that a free salmon punch card must be obtained before hand. These are available at U.S. Customs at Blaine, probably also at Point Roberts Customs, and at sporting good stores and marines in Washington State. The daily bag limit in these waters is three salmon and the minimum legal size is 16 inches in length. Only one rod per angler, please.

A late report was received of a 25 pound chinook taken this Wednesday evening at the Buntzen Lake Powerhouse up Indian Arm way by Dave Cliff. Dave was trolling a wire line-planer set up with flasher and minnow teaser.

SUNSHINE COAST

The patrolmen in Toba Inlet reports that Brem and Toba River chinook runs have tapered off to almost nothing. Last fish we heard of was a 22 pounder here on the weekend by A. Marin of Powell River. Best fishing in this general area was at the north end of Waddington Channel where 4 U.S. boats took 3 chinooks around 10-12 lbs. and 6 coho.

Cohoes are deep and continue to be scarce. Four boats from Sarah Point this weekend reported only 1 chinook. Eight boats checked fishing the Lund area came in with a total of 2 chinooks and 6 cohoes. Waters off Harwood Island and the north end of Texada Island produced 2 chinooks and 6 cohoes for 7 boats returning from the area. Eight boats checked fishing Scotch Fir Point to Saltery Bay on the weekend reported only 4 cohoes.

On Monday morning of the current week, commercial trollers found some good coho fishing off Mystery Reef between Savary and Harwood Islands indicating fish have moved back into these waters.

Egmont has been slow lately with a few heavy fish taken in the Channel in the evenings. One of the big ones from here last week was a 28 pounder taken by Jack Williams on Saturday.

Across the water from Egmont, a few cohoes were showing at Hotham Sound Saturday.

Sechelt Inlet was fair on the weekend. Five of 8 boats checked afloat Saturday between Nine Mile Point and Porpoise Bay had fish and reported a total catch of 2 coho of about 6 lbs. and 3 chinooks of 12, 12 and 18 lbs.

A few heavies and in the evenings a good showing of 4-5 lb. jack chinooks around the Pender Harbour entrance, says the fishery officer's report. On Monday of last week Clive Lewis boated a 29 pounder and the following day a 21. Friday, Bob Prince took a 25 pounder here. Sunday saw Chuck Jones take 22, 12 and 10 pounders in the vicinity.

Boat checks at Pirate Rock, south end of Thormanby Island Saturday at 3:00 p.m. found 8 cohoes to 9 lbs. (av. 4 lbs.) on 4 boats. An additional 3 boats reported no catch.

An hour later at Point Young, Lasqueti Island, 3 boats reported 1 chinook and 4 cohoes and a fourth boat reported no catch.

SUNSHINE COAST WEEK OF JULY 28

THE EARLY chinook run to Brem and Toba Rivers in Toba Inlet has tailed off but summer steelheading in Brem River is in high gear. Several anglers making the trip up here have been hiking upstream with steelhead rods in hand.

Sunday's weather was a bit rugged in exposed waters hence sheltered Okeover Arm and Desolation Sound received most of the effort by local boats. Fishing was spotty although a few heavy chinooks were reported taken. Best spot among the maze of waterways at the head of the Gulf looked to be the top end of Waddington Channel where boats reported fair numbers of cohoes, and something rare for salt water—several good-sized steelhead.

Mystery Reef below Savary Island looked like a good coho bet last weekend but catches proved disappointing. Waters off the top end of Texada Island were equally slow.

Hot spot Saturday morning was Scotch Fir Point at the entrance to Jervis Inlet. Twelve boats checked afloat reported a total of 13 chinooks and 21 cohoes. Biggest chinook here was a 26 pounder boated by Ray Deproy of Pender Harbour.

A fair showing of cohoes above Egmont Point and at Hotham Sound across from here through Sunday morning, says the fishery officer's report. Not much action for heavy chinooks apparently but Don Saltering of Naramata boated a real beaut —a 45 pounder on Saturday at Egmont Point.

A check of 18 boats afloat Saturday evening around Egmont tallied a total catch of 4 chinooks averaging about 10 lbs., 1 jack and 8 cohoes averaging about 5 lbs. A repeat check afloat Sunday evening tallied only 1 chinook of 6 lbs. and 4 coho for 15 boats.

Sechelt Inlet boat checks between Porpoise Bay and Nine Mile Point, turned up cohoes averaging about 5 lbs. and a few medium chinooks. A check of 15 boats afloat here found 7 with fish and a catch totalling 3 chinooks of about 11 lbs. each and 9 cohoes late Saturday evening.

A fair number of cohoes and a few heavy chinooks were taken at Quarry Bay and below here at Bjerre Shoal. Quarry Bay cohoes were of good size. Ray Deproy mentioned earlier, boated a 25 pounder at Acland Rock off Quarry Bay on Friday. Dennis Gamble took a 35 pounder at Bjerre Shoal on Saturday topping his 12 pounder boated here on Thursday. Sunday's strong westerlies kept effort at a minimum in these exposed areas.

Fearney Point had a few chinooks around the 10 lb. mark but no heavy fish to our knowledge.

Lee Bay nearby had the odd heavy fish to 35 lbs. including a 26 by Fred Kellin on Saturday plus a 46 pounder taken by Elsie McNeney on Thursday pairing her 22 pounder taken here on Wednesday.

We didn't get out to check the lower end of Texada and Lasqueti Islands last week but we got word of a three-rod limit of 10 cohoes plus 2 6-lb. chinooks by a Van Isle boat at Sangster Island Reef on Sunday.

Flying Boy

With the evening sun seemingly turning his arms into white flame, Barry Franske looks more like a flying boy than a high diver from Wilson Creek Wharf. Other high divers checking on his style are from left: Margaret Gibbons, Dianne Turenne, Lynn Bullis, Louise Turenne and Dave MacLeod of Wilson Creek.

Sunshine Coast Sports

MEN'S SOFTBALL

TUESDAY, July 15. In the first game of the Peninsula Softball League playoff final, which is a three game series, Port Mellon edged Wilson Creek 6-5 in a real thriller.

Port Mellon opened the scoring in the first with one run, but Wilson Creek got 2 runs in the bottom of the first and another in the second to go ahead 3 - 1. The score stayed like that till the 5th when Port Mellon got 3 more runs and went ahead for good.

They iced it with 2 more in the 6th as Jim Earle got his 4th hit of the night, a double, and scored what turned out to be the winning run on a single by Barry Legh.

However Wilson Creek had the fans on their feet as they threatened in the bottom of the 7th when Bruce Redman and Pelly Poulson scored, and with one out they had runners on second and third, but Lee McGee, who had come in to replace a tiring Denny Carroll earlier in the seventh, got the last two men on strike-outs and an infield hit to end the game.

There were few strike-outs in the game, but both Denny Carroll who was credited with the win, and Jim Hall who suffered the loss, pitched good ball as they gave the batters very little that was good to really hit.

WILSON CREEK TIES SERIES

Thursday, July 17, Wilson Creek tied the series up at one game apiece as they shaded Port Mellon by the same score as the first game, 6 - 5.

Wilson Creek took an early lead as the first 2 hitters, Bruce Redman and Pelly Poulson scored. They lengthened this lead to 6 in the third inning as they scored 4 more runs on 4 hits and a hit pitch. Roger Hocknell drove in Rudy Crucil with his first of 3 singles in four trips to the plate, for what turned out to be the winning run.

Port Mellon got back into the game in the bottom of the 3rd, as they got 4 runs with no one out, but then Cliff Salahub, pitching for Wilson Creek, retired the next 3 batters to end the rally.

This ended the scoring until the bottom of the 7th, when Port Mellon threatened to tie it as Rusty Rustemyer scored and Mike Haner got to second with only 1 away. However the game ended at that as the next two batters popped up to Jack Goeson playing second base.

Cliff Salahub threw one of his best games of the series as he held Port Mellon to 3 hits and never walked a batter in going the distance for Wilson Creek.

Lee McGee, going all the way for Port Mellon also pitched a good game as he struck out 13 and walked only 1.

MEN'S SOFTBALL

SUNDAY, June 20, in the final game of the best of three finals, Port Mellon eliminated Wilson Creek by a 4-1 score to win the league Championship.

Lee McGee, pitching his second game in three days, went the distance for Port Mellon giving up only 4 hits, to win the game while Cliff Salahub, going all the way for Wilson Creek, also his second complete game in 3 days, threw a 6 hitter in a losing cause.

The most consistent hitters in the game were Denny Carroll for Port Mellon with a pair of doubles in two trips to the plate and Rudy Crucil, for Wilson Creek, with a double and a single, also in two trips to the plate.

This game was a fitting climax to a good softball series and a good season of softball on the Sunshine Coast. Now in its third year, the league which expanded this year to nine teams, is producing on the whole, a very entertaining calibre of ball.

The calibre played by this "bush" league was shown in the exhibition games played against teams from the lower mainland as our won-loss record over these teams was well over 500. The entertainment value was once again proven in the playoffs as over two hundred spectators came out for the first league final in Wilson Creek and over one hundred fans watched the last game at Brothers Park which played opposite the Apollo 11 space walk.

LITTLE LEAGUE

July 19. Playing in Tsawwassen, the Sunshine Coast All Stars got beaten by South Richmond 10 to 7 although the game was not quite so one sided as the score showed, as Sunshine Coast played four innings of good ball but had two bad innings giving up 6 runs in the second and and 9 in the third. Tarry Cassidy, pitching for South Richmond, pitched a very strong game striking out 15 batters.

Dwight Kuznetson hit a grand-slam homer in the disastrous third inning plus a double and a triple for the game. The only other home run of the game was hit by South Richmond's Bob Ramsden.

South Richmond then went on to beat Central Richmond 10 - 1 in the semi-finals before bowing to South Slope in the finals. Although they didn't do too well on the scoreboard, everyone should be very proud of these kids who went down there and played their hearts out and showed themselves to be real good sports. Also a word should be said for the hospitality of the host league Delta which did a tremendous job of organizing these games and also to the parents in the area who billetted the boys from the Sunshine Coast.

UMPIRES

Now that the baseball and softball leagues have ended for the summer a word should be said for the men who have officiated at the games all year. This is a thankless job as they get booed by fans and players alike but still keep coming back. Without these men there could be no games, so on behalf of all managers, coaches, and ball players, "THANK YOU, UMPIRES."

Arts Council display for Gibsons Cavalcade

IN CONJUNCTION with the three days of festivity to be held in Gibsons on August 22, 23 and 24, the Arts Council will convene a display of work by Sunshine Coast artists. It will be held on Saturday, August 23, in the United Church Hall, Gibsons.

Artists who wish to display their work should call Mrs. Espe Marteddu at 886-2856 to register for the show, giving details of the number and size of the paintings (or other work) which they intend to exhibit. The Council suggests a maximum of three paintings or approx. six square feet.

The display is to open at 10 a.m. Therefore, anyone showing work must bring it to the hall Friday evening or by nine o'clock on the morning of the display.

Artists are asked to have hangers securely placed on all pictures.

Will anyone who wishes to help set up the display stands on the Friday evening, please indicate this to Mrs. Marteddu.

Respected resident passes at St. Mary's

MRS. ELIZABETH (Granny) Wakefield passed peacefully away in St. Mary's Hospital on July 15 at the age of 88. Born near Worcester, England, she married Edward Wakefield and accompanied him to Canada where they made a home first in Calgary and later in Port Alberni. They eventually settled in Surrey Centre where they operated a dairy farm for 25 years.

Following the death of her husband, Mrs. Wakefield sold the farm and worked at Martin's restaurant in Port Alberni for seven years. In 1956, she moved to Selma Park to be near her son, Stanley, who was logging in the Sechelt area, but four years later, Stanley Wakefield was one of six men who were drowned when the boat in which they were returning from work capsized in Sechelt Inlet.

Mrs. Wakefield was a devout Christian and her work for her church both in Surrey Centre and Sechelt was recognized a few years ago when she was awarded life membership in the W.A. to the Anglican Church. Her good and gentle ways earned her the love and respect of all who knew her—adults and small children alike.

Funeral service was held at St. Hilda's Church, Sechelt, on July 21 with a graveside service the following day at Christ Church Cemetery, Surrey Centre, when Granny Wakefield's body was laid to rest beside that of her husband. Her beloved grandson, Douglas Wakefield, who is serving with the RCAF at Comox, was present at both services.

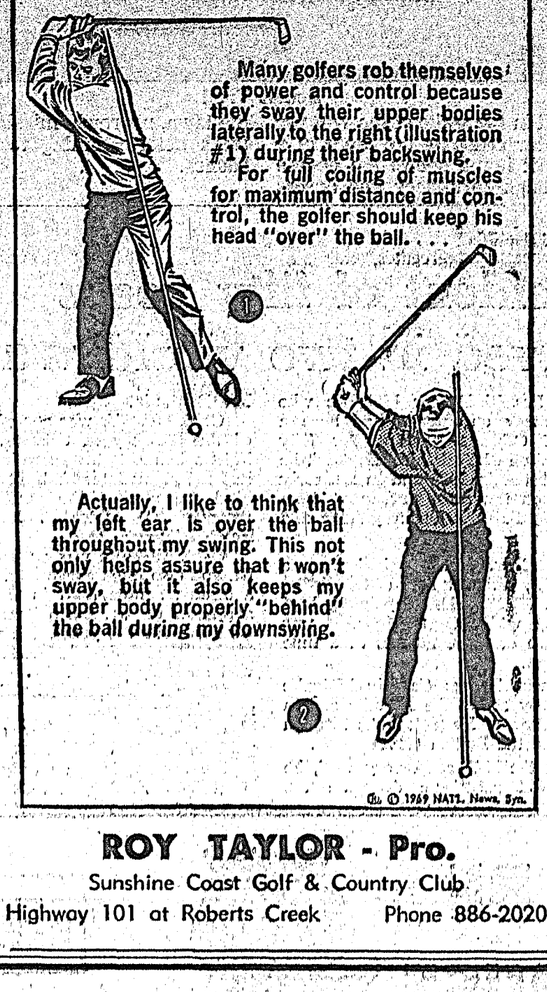
Four-Time Winner of the Masters

KEEP LEFT EAR "OVER" THE BALL



Many golfers rob themselves of power and control because they sway their upper bodies laterally to the right (illustration #1) during their backswing.

For full coiling of muscles for maximum distance and control, the golfer should keep his head "over" the ball. . . .

Actually, I like to think that my left ear is over the ball throughout my swing. This not only helps assure that I won't sway, but it also keeps my upper body properly "behind" the ball during my downswing.

HOME HANDYMAN PAINTING TIPS

SAFETY FIRST WITH SOLVENTS

Use caution when working with any floor finish which contains solvents, advises the Canadian Paint Manufacturers Association. Rags soaked with solvents or varnish should be burned or put in a bucket of water immediately after you finish with them. Working in well-ventilated area with windows and doors open will reduce the chance of solvent fumes accumulating and being ignited. A last reminder: don't use electrical equipment and don't smoke while you're working with solvents. Put out any pilot lights in stoves or furnaces when working in their vicinity.

SCREEN CHECKING TIME

Check those window screens that have been down all winter to be sure they are still in good condition. The Canadian Paint Manufacturers Association recommends repainting or a touch-up before putting them up. This saves time and assures a more professional looking job.

Paint and Foil: Time-Saving Combo

When painting with a roller, line the roller tray with aluminum foil, advises the Canadian Paint Manufacturers Association. This will save you a clean-up later on. When your brushes are clean, dry and ready to be stored, wrap them in foil for protection.

Stop the clock

Editor, The Times,

Sir: It was reported in the July 23 issue of the Peninsula Times that three members of the Chamber of Commerce decided to "get the facts" on the proposed gravel mine for this area.

In an effort to settle the controversy concerning gravel mining, Mr. Wheeler, Mr. Hensch and Mr. Thompson decided to seek an interview with Mr. S. B. Slym, president of Sechelt Sand and Gravel.

When these three members of the Chamber of Commerce approached Mr. Slym (presumably on their knees) he informed them that he has been so busy with permits, negotiations and regulations that he hasn't had time to tell the people of the Peninsula his plans for them. He was also too busy to send a representative to the Regional Board meeting to answer questions of the delegation protesting the gravel mine.

But Mr. Wheeler, Mr. Thompson and Mr. Hensch were more fortunate, they managed to extract information from Mr. Slym.

Here are the facts presented to them:

Initial benefits to the area are not great in terms of employment—"does this mean they are small"?

Loading is to take place in Porpoise Bay "with consideration of a canal through to the Straits"—If this canal is to connect Porpoise Bay with Sechelt waterfront, does Mr. Slym plan a series of locks or does he plan on just flooding the entire village of Sechelt? Perhaps he plans on obliterating the Skookum Chuck, and if so how much will it cost and who is to pay?

A benefit to the area will be sand which Mr. Slym is prepared to let the Parks Branch have at a "minimal cost" —How much?

There will be no excess noise.—How loud is that?

The small creek to be used, is not used for drinking.—Which creek?

The crusher will not be used continually.—A five minutte break now and then?

The actual plant and stockpile will be well away from the road.—How far is that?

Intentions are to creat level residential building sites.—I wonder why the people who developed British Properties didn't level the mountain first.

Mr. Slym, Conservationist, states that today there are many regulations governing strip-mining. In the June 14th issue of the Vancouver Sun, in an editorial on strip-mining, the editor states, "the requirements of the government are still something of a mystery, due to the wide latitude of discretionary powers granted in the new legislation". How discreet is Mr. Slym?

And now that we have obtained all this detailed and specific information from Sechelt Sand and Gravel, lets hear from Construction Aggregates, the big gravel operators.

M. GROSS

Politics out

Editor, The Times,

Sir—Recently an intimate friend and I have had a few chats on much needed plans that would at least help to alleviate many of the terrible situations existing around the world. My friend was most anxious that I put some of our thoughts in writing.

For many years I have been associated with the trade union movement, belonging to the United Mine Workers of America and, preceding retirement, the outside civic employees in Vancouver.

Since coming here to Gibsons 24 years ago I have not been in close touch with our unions and am therefore much as Will Rogers said "all I know is what I read in the papers."

Should the reader happen to be a member of some union, silly as it might seem, kindly step along to your nearest mirror and pose the question to the fellow facing you. Have I played my part in helping to promote better world conditions, and if not why not? Let's be frank. Is it not a weak or cowardly position to expect the other fellow to play your part?

Bear with me for the moment going back to the "gay old nineties."

In those earlier days it required real courage to join and advocate unions. Many improvements brought about in the past decades would, I'm afraid, still be lacking were it not for the actions of some of those courageous pioneers.

Progress has certainly been hindered by the indifference of the average union members, many hardly ever thinking of attending their union meeting until serious trouble was at hand. Then in the meetings often times the respective cliques that were promoting candidates for office in the next election were more concerned about that than the general welfare of the members.

How easy it was, and is, for those determined to disrupt unions to spill a little gas on the flames caused by petty strife among the members. It is well to remember that if we are too indifferent to do everything possible to help ourselves improve our conditions it is rather absurd to expect our masters or employers to voluntarily better our conditions.

Physically the master and servant naturally look much alike and they have one thing pretty well in common. In the main they follow their fathers' footsteps, the one takes his place on the managerial staff whereas the other, for instance, the young lad in the mining districts in South Wales

followed his Dad down the mines and on to the coal face.

History does not show us where our masters have unduly concerned themselves about the welfare of their employees, possibly being too busy forming trusts, etc., and arranging for lawyers and lobbyists. Some of the financial magnates made great donations, Carnegie with libraries. I have no wish to be disrespectful but it could well be that they hardly knew what to do with their wealth, on the other hand the publicity was quite a factor in many ways.

Now more to ourselves. For many years we have been working under agreements for stated periods and it's well to recall that having made an agreement for a specific period it's our duty to live up to the contract. I can recall terrible fights when negotiating a contract. The operators very deliberately stating they would not discuss anything until the workers agreed to a penalty clause. It took some maneuvering before a contract was made. We were very plainly chided for not readily agreeing to a penalty clause. At the same time we could hardly characterize the employer as the picture of innocence. However, what we have to remember is that we are under a capitalist system, master and servant if we will, and we have to govern ourselves accordingly. In working out agreements our religion and politics should in no way interfere. Social Credit or NDP has nothing to do with the agreement made by employer and employee.

It may be expecting too much to follow the plan I have in mind.

I cannot see any insurmountable difficulty in a person outside of his job politically doing all he can to bring about a new governmental policy. At the same time, providing we don't continuously wrangle over trifles, we should be able to carry out our contracts and still fight to change the system.

It may be well to remember that all countries have their gross national product, the pot from which everyone's food, clothing and shelter is drawn. We'll call it the kitty. Is there any justification for anyone drawing from said kitty without placing his quota in it?

Here a word to my young friends under 30. I cannot think of any age when a person is more able to put his quota in the pot than from 18 - 30. Yet seemingly there is a reluctance among the younger folk to recognize this fact. That isn't to say that there are not many over 30 who forget things. One further thought where possibly over and under 30 can agree. For some time past it has been amply demonstrated that the machine properly used displaces workers, therefore, most assuredly what is needed is definite plans to use the machine to the fullest possible extent. To avoid chaos a system would have to be brought into being where hours of labor are so regulated that instead of forcing able bodied workers into the ranks of the unemployed that their services be used so that they could proudly play their part by placing their quota in the kitty.

Think it over friends. Isn't it a frightening thought that we have sufficient nuclear power to blow the world to smithereens. This has been produced under the profit system. I have heard the odd one trying to justify the production of this nuclear stuff because it afforded employment.

About the only redeeming feature I see about it is that it has prevented a third world war. For the profiteer recognizes like everyone else that he has no escape route any more than the unemployed should the fateful switch be pulled or button pressed.

We face a difficult situation but not one that's impossible to overcome. What a relief it would be to have no more relief, in other words to make it possible for each one to play an active and proper part in society!

Just a few words about our seemingly epidemical strike situation. It reminds one of the bygone days when smallpox and flu ran rampant. One cannot help but ponder over the unprecedented hourly rates demanded and wonder what, if any, thought is given to the OAP's and others in poorly paid jobs when these fights for the higher rates are taking place.

Sizing up the other troubles in many countries besides our own, the damage done in so many places by university students together with our numerous strikes brings each and every one of us to the point where we cannot afford to let such conditions continue. Needless to add, there is something here that needs well considered action to overcome.

July 20 gave us unquestionably the most spectacular event in history. The pooled brains of experts formulated gadgetry that enable three men to travel a quarter million miles and manipulate their craft in such a manner that two of them set foot on the moon. We now read the suggestion "How about Mars." With upwards of 20 billion dollars plus untold anxiety the moon mission was happily successfully accomplished.

Right at hand in many parts of our globe we know that millions of babes have been brought into the world to endure nothing better than starvation and nakedness. With the moon milestone staring us in the face what apologies can we offer for allowing this inexcusable plight to continue?

DAVE REES.

Arts Council gallery features annual show

SUNSHINE Coast Arts Council Gallery is pleased to announce Kay Wells' annual show of paintings which will be on display from July 29 to August 9.

Mr. and Mrs. Wells have lived in Roberts Creek for about ten years, since Mr. Wells retirement from business in Vancouver. Kay is well known for her beautiful floral studies and has taught a Night School Art Class which must hold the record for continuing popularity.

This year's display will feature new paintings of local land and sea-scapes as well as some flower arrangements. Kay Wells works with a variety of media, including pastels, water colors and oils, whichever is most suitable to the subject matter and composition, and likes to use large canvases which allow her to do justice to the subject.

The Gallery is open from 10 a.m. to 4 p.m. daily from Tuesday through Saturdays.

Hopkins Patriarch

Hopkins Landing Annual Sports Day is a day for reminiscing especially for Captain Gordon S. Hopkins whose father Mr. George Henderson Hopkins gave the resort his name in 1906. On this day whenever possible Captain Hopkins renews acquaintances with old friends, their children and grandchildren; six - year - old John Davies and seven - year - old Dallas Brodie are just two of Captain Hopkins many admirers who eagerly look forward to his appearance during the water sports.

Christ not rockets for lasting peace

DELEGATION from the Sechelt area was among a crowd of 65,609 persons that broke all attendance records at Vancouver's Empire Stadium and Pacific Coliseum Sunday. They had gathered for the final day's program of the eight-day "Peace on Earth" International Assembly of Jehovah's Witnesses.

Mr. L. W. Franz, Watchtower Vice-President, delivered the public lecture "The Approaching Peace of a Thousand Years." He advised his audience that it would be God's Heavenly Kingdom under Christ Jesus and not rockets to the moon that would bring lasting peace to the earth. He claimed strict adherence to Bible principles has already caused Jehovah's Witnesses world-wide to beat their swords into plowshares.

The presiding minister for the Sechelt area reported the information presented at the eight-day program was enjoyed by the local congregation. They observed Canada's largest baptism when 1,853 new ministers were immersed. During the eight days of fellowship with visitors and missionaries from over 30 countries, they obtained eight new publications to aid them in Bible understanding. Many ancient Bible dramas were enacted and applied to modern circumstances for the benefit of all in attendance.

Approximately 15,000 Witness delegates were housed by householders throughout the lower mainland who demonstrated British Columbia hospitality. Two cafeterias on assembly grounds served a total of 250,000 full-course meals.
