FOURTEENTH YEAR — PHOENIX, B. C., SATURDAY, APRIL 5, 1913 — NUMBER 38

VANCOUVER MAN BUYS THE DEANE HOTEL

J. K. Mecredy Has Extensive Experience as "Mine Host" in France and Australia.

The popular and old-established city hostelry, the Deane hotel, has changed hands this week, the new proprietor, J. K. Mecredy, assuming control at midnight on Tuesday. Mr. Mecredy comes to Phoenix endowed with a thorough and practical experience of hotel management acquired not only in British Columbia, but in France and Australia. Prior to his arrival here he was proprietor of the well-known Baillie House at Lytton, where his genial courtesy and solicitude for the comfort of his guests made that stopping place a favorite one with the travelling commercials, who hold Mr. Mecredy in high esteem.

While the hotel's former proprietor is to be congratulated on the deal just concluded, the numerous patrons of the establishment are not a whit less fortunate in the personality of the new purchaser, who announces his intention of placing his new acquisition in the front rank of Boundary hotels. The hotel contains 34 rooms, is steam heated and substantially furnished throughout, while every convenience has been provided to meet the special requirements of its mining patrons. In addition to the hotel, the deal also includes the large residence immediately adjoining the hotel, which contains an additional 16 rooms. A special feature instituted by the new management will be the Sunday dinner, the excellent menu of which appears on page [illegible].

Mr. Mecredy hails from Belfast, Ireland, where he was a familiar figure on the football field, and points with pardonable pride to the fact that he formed one of the players in the initial game of football in Paris that eventually resulted in the adoption of the game in France.

To Rush Work at Hidden Creek

Page Boyles, of the firm of Boyles Bros., of Spokane, whose outfits have been operating on the Granby property here in Phoenix for the past twelve years, returned this week from a visit to his contracts at the Hidden creek mine, where that important adjunct to present day mine development, the diamond drill, is being used with much the same success as that which attends its use here in Phoenix, and where, under Mr. Boyles personal supervision, upwards of of fifty thousand feet of drill holes have been negotiated in determining the extent and value of the ore bodies. Queried as to the progress of affairs at Hidden creek, Mr. Boyles states that he notices an improvement every time he visits the Anyox property. "It is during the coming summer when the big things are expected in and about the new mine," said Mr. Boyles. "As soon as the snow goes, operations will be commenced on a scale perhaps never witnessed in the development of any mine in the Dominion." Mr. Boyles also informs us that the preparations providing for the accommodation of the expected addition to the working force are well under way, while extensive shipments of machinery and other material are in transit. Altogether, according to Mr. Boyles, it would seem as if the company intended to make good its prophecy of the Hidden creek mine joining the list of shippers some time before the end of the coming summer.

Development Work Suspended

Dan McBeth, who has been employed during the past winter at the Canadian Consolidated company's property, at Ainsworth, returned to Phoenix this week. He states that development work, including diamond drill operations, on the above company's claims have been temporarily suspended owing to a lack of water.

B. C. Mining

William Whitford has taken a lease for two years on the San Francisco mine in Rossland from E. W. Martin and E. D. Martin of Winniepg, and "Fighting" Joseph Martin, formerly of this province, but now a member of parliament in England. There is a small shaft and some surface excavations on the property, the under ledge carries gold, silver and copper, and assayes give values of about $30 to the ton. Mr Wilfrid will start work soon with a small force of men. The San Francisco was purchased by Joseph Martin and brothers in 1896, for $25,000. Martin Salmon and associates were the vendors of the property. The San Francisco adjoins the White bear, and is located on both sides of the tracks of the Red Mountain Railway, west of the Black Bear grounds.

The Silver Hoard mining company operating the Silver Hoard mine, near Ainsworth, is planning to install a big motor-driven hoist, with automatic dumping skips, an air compressor plant capable of driving a battery of eight machine drills and a sawmill adequate to provide lumber for the needs of the property as soon as the snow melts.

A surface tram, a half mile long, will be constructed also to transport the ore from the silver Hoard workings to the head of the tramway from the Canadian Consolidated company's No. 1 mine to the landing on Slocan lake, over which the Silvet Hoard company has arranged to handled its output. Ore bins, equipped with sorting grizzlies and dumping tables will be installed in connection with the tram.

"We have shipped 150 tons of high grade ore since March 1, the first material to be handeled over the No. 1 company's tramway, and we anticipate forwarding 50 to 100 tons weekly from now on," said Mr. Hawley, General Manager of the company. "The force at the mine has been increased to 20 men. The five drifts from the 100-foot level all are now in ore, from five to ten feet showing in the different faces, and a stope we recently opened has a nine-foot vein exposed.

"The vein on the 100-foot level is 51 feet from wall to wall and there are three parallel ore shoots showing. There are two drifts on the foot wall, two in the center and one on the hanging wall, and intend to start another one in a day or so. As soon as the machinery for the hoists and compressor arrives we will start sinking a two-compartment shaft from the 100-foot level to the 200-foot. We have done nothing but development work to date, but the showings now are sufficient to warrant more extensive operations. The three south drifts have from three to ten feet of high-grade and one has in addition four feet of milling ore, while the two north drifts have from four to six feet of high-grade and five to seven feet of good mill feed. One of the north shoots, a high-grade carbonate, assayed 154 ounces in silver and 12 per cent lead from 11 samples, taken at random across the face.

"The snow at the mine is still about eight feet deep and it is probable will be several weeks before we can get our machinery in and installed."

Card of Thanks

I desire to tender my heartfelt thanks to my friends and the general public of Phoenix for their kindly sympathy, expressed in innumerably ways, to myself and family, on the recent death of my dear wife. GEO. VICHRY.

Werner's Orchestra Dance

An orchestra consisting of six pieces entertained one hundred dancers in the Miners' Union ballroom on Tuesday evening, when F. Werner gave one of his popular and highly successful social dances. The music rendered on that occasion proved conclusively the absurdity of sending outside the Boundary for an orchestra when such a fine aggregation as that presided over by Mr. Werner is within such easy reach. Harold McCoskrie filled the billet of floor manager to the satisfaction of everybody, especially the ladies, and the whole affair passed off without a hitch, dancing being kept up until three o'clock the following morning. Mr. Werner, who leaves for Europe sometime in May, intends to give another dance on May 12th. The following comprised the members of the orchestra: Chas. McKay, Albert Biner, F. Werner, and Messrs. Ware, Smith and Davies of Grand Forks.

Death of James Stalker

The death took place on Thursday morning, at the General hospital, of James Stalker, for many years a well-known resident of this city. The deceased resident was removed to the above institution on March 25th, suffering from a severe attack of pneumonia, from which he seemed unable to make any headway. On Tuesday last his condition became very serious and the worst fears of his relatives were realized on Thursday when the dread reaper gathered him in. He was 31 years of age and a native of Lanarkshire, Scotland. He is survived by his widow and one child, for whom much heartfelt sympathy is expressed throughout the district. The funeral is to take place tomorrow (Sunday) from St. Andrew's Presbyterian church, where the family worshipped.

Judge Orders Heavier Bail

A few days ago, his Honor Judge Brown of Grand Forks, granted bail amounting to $200 apiece in the case of Fred Hall and Geo. Stoy, who were recently committed for trial by J. Mulligan, stipendiary magistrate of Phoenix, for an assault on Val McDavis. On Friday, however, a considerable raise in the amount of bail was ordered by the judge, but the accused being unable to find the necessary surety they will be removed to Nelson jail either today or Monday to await their trial. Both of the accused have elected for summary trial, but the condition of the complainant is such that his appearance on the witness stand will have to be postponed for at least a month.

Funeral of the Late Mrs. Vickeri

On Sunday afternoon the funeral of the late Mrs. Geo. Vickeri took place in the presence of a very large concourse of sorrowing relatives and friends. The final interment was in the local cemetery and was preceeded by a service and short address in the Catholic church, the Rev. Father Choinel officiating. The casket was covered with many beautiful floral emblems, and a large number followed the hearse to the burial place. The inscription on the casket read: "Terisa Vickeri, died March 27, aged 26 years."

New C.P.R. Pacific Steamer

The Empress of Russia, the largest vessel in the service of the Canadian Pacific company, filled to her capacity with passengers and cargo, left Liverpool on April 1 for Vancouver. Most of her passengers are bound on a voyage around the world.

After arriving at Vancouver they will take their choice of routes to the east coast, returning to England via the Atlantic liners of the company. The Russia will come via the Suez canal, India and the Orient, while the Asia, to sail a month later, will come around South Africa, stopping at Capetown en route.

Scandinavian Festivities

The local members and friends of the S. H. and E. F. society held high festival on Sunday evening last, when the postponed Easter festivities took place in their rooms on Ironsides avenue. The numbers present exceeded anything since the order was established in Phoenix, visitors being present from Grand Forks, Mother Lode, Curlew and Fife. The committee in charge had prepared a varied program and the merriment commenced with a laughable farce entitled "A Jealous Fool." Mrs. Ed. Melrudd, Miss Pearson, Messrs. A. O. Johnson, Ole Nordin and John Ericson comprised the cast and gave an excellent representation of a household disturbed by the eccentric jealousy of an old fool of a husband (A. O. Johnson). During the evening the guests were entertained to an elaborate supper and dancing whiled away the time until the following morning. The Ironsides orchestra played for the dance.

High Assays from Sandon Mine

Some fine samples of silver-lead ores were recently received by Jas. Marshall from the Dunedin mine, four miles from Sandon, in which property he and another local party are heavily interested. The ore, which plainly shows the footwall, has a width of upwards of four inches and on being assayed gave a return of 231 ounces of silver and 78.06 in lead. Work on the property has been temporarily suspended owing to the danger of snowslides, one of which besides destroying some of the building property at the mine, unfortunately resulted in the death of one of the employees. About a couple of cars of ore have been taken out this winter and will be shipped as soon as the condition of the trail permits.

Clergyman to the colored butler: Might I enquire the reason why you mistook me this morning for the operator of an airship. Colored Butler: Well, I heard de boss say to missus: here comes the new sky pilot.

B. C. COPPER COMPANY TO BUY PROPERTIES

Net Earnings for Fiscal Year ending Dec. 31, 1912, was $425,985.

The directors of the British Columbia Copper company have voted to pass the 3% dividend distribution which would have been due in April. The following statement has been issued:

"Net earnings for the fiscal year ended Dec. 31, 1912 after charging off all ordinary development work on the proprietary mine, were $425,985. During the same period the company paid on account of new properties and in exploration and development $229,489.

The company has also under option numerous properties upon which payments are to be made during the current fiscal year, and the board deems it best to use available net revenue for that purpose, which is thought essential for the purpose of supplementing ore reserves, and, therefore, considers it expedient to defer distribution to shareholders for the present."

Boundary Ore Tonnages

Following are the returns of the output of the mines and smelters of the Boundary district for the week ending Mar. 30th, and year to date:

Granby	23,309	330,621
Mother Lode	8,050	92,401
Rawhide	5,612	67,305
Napoleon	1,040	10,182
Queen Victoria	626	7,420
Others	268	1,499
SMELTER TONNAGES		
Granby	23,935	311,383
B. C. Copper Co.	14,590	175,877

B. C. Copper Treatment

The B. C. Columbia company's smelter treated 14,590 tons of ore this week, as follows: Mother Lode, 7,219; Rawhide, 5,489; Napoleon, 926; Queen Vict., 670; others, 286.

Forest Fires in B. C.

In the past year, according to a report of the chief provincial forester, over twenty per cent of the forest fires attended to by the rangers were caused by campers.

The list which appears in the annual report of the forest branch shows that fires originated as follows:

Campers	38
Railway locomotives	34
Lightning	23
Donkey-engines	11
Railway-construction	11
Public road construction	9
Uncontrolled permit fires	8
Smokers	7
Accidents	6
Logging railways	6
Prospectors	3
Indians	3

How many of the 188 fires of which the causes are still unknown were the result of an untended camp fire is open to surmise, but as in most of the other risks such as railway and road construction, and logging operations, the existence of fire is at once known, the camper may be justly held to account for a very large proportion of the season's conflagrations.

Stringent regulations have been passed by the board of railway commissioners of Canada to cover the risk of new railroads now under construction in the province; the patrol has been doubled on the rights of way, and every possible precaution urged upon logging operations. The forest branch is endeavoring to co operate in every way with those who have work to perform which is attended with danger to the forests. The greatest danger of all, however, is that caused by the carelessness of the campers, and the danger can only be met by an increase of vigilance on the part of those who use the woods for either pleasure or profit.

This year the officers of the forest branch expect a harder season than ever before. The very conditions of dampness and consequent heavy growth of grass and weeds which made the year 1912 one of the best in the history of the province from the standpoint of fire protection, will combine to make a great fire hazard this spring.

The following six simple rules are impressed on those who purpose making camps this forthcoming summer in the woods:

1. Be sure your match is out before you throw it away.

2. Knock out your pipe ashes or throw your cigar or cigarette stump where there is nothing to catch fire.

3. Don't build a campfire any larger than is absolutely necessary. Never leave it, even for a short time, without putting it out with water or earth.

4. Don't build a campfire against a tree or log. Build a small one where you can scrape away the needles, leaves or grass from all sides of it.

5. Don't build bonfires. The wind may come up at any time and start a fire which you cannot control.

6. If you discover a fire, put it out if possible; if you cannot, get word of it to the nearest forest ranger or fire warden as quickly as you possibly can.

Panama-Pacific Exposition

The suggestion has been made to the Canadian government by the authorities of the Panama exposition that a collective exhibit of Canada's resources agricultural, mining, and forestry—be made, demonstrating to the homeseeker and investor the splendid opportunities awaiting them in Canada, particularly in the Canadian Northwest. The opening of the canal is expected to direct to the Western coasts hundreds of thousands of desirable immigrants from Emrope and doubtless thousands of these will seek new homes in the Canadian Northwest. As the San Diego Exposition is designed to direct these to places of greatest individual opportunity, it is thought that Canada would add greatly to the population development of the Northwestern provinces by a demonstration of the wonderfully rich opportunities to be found in these sections.

British Song Birds Arrive

After twenty-four days' buffeting by the waves and shaking on trains, the survivors of the six hundred song birds, collected in and sent out from England by order of the provincial government for release on Vancouver Island, arrived in Vancouver last week in charge of R. D. Miller. The birds were immediately re-shipped to Victoria.

Mr. Miller, the custodian of the songsters, stated that the voyage across the Atlantic had been very rough, and had proved too much for two hundred of the little birds, that number having died on the sea trip. The cages had been stowed in the forecastle of the vessel, and the pitching and tossing of the ship made it difficult to keep the water in their drinking troughs. The birds were also badly shaken up.

The principal mortality occurred among the larks, of which ninety-six succumbed. This was due partly to the wild nature of the little prisoners, who could not brook the continued close confinement. However, over two hundred larks came through safely, and the country around victoria will be brighter for their melody.

In addition to the larks, the birds comprised blue tits, gold finches, robins and linnets. The robins, on account of their pugnacious proclivities, were kept separate from the remainder of the birds.

The task of catching and forwarding the birds was carried out by S. Shackleton of Leadenhall market, London. He started the work of collecting them last October, and on March 3, they left on the steamer Montcalm. A few of the linnets, goldfinches and robins are in the care of W. H. Malkin of Vancouver.

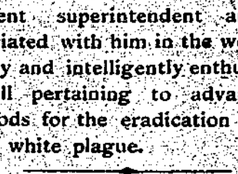
Dr. Friedman Invited to B. C.

The government of British Columbia, through Hon. Dr. Young, head of the active department of public health, has transmitted to Dr. Friedmann the well known German physician, whose new treatment for tuberculosis is at present engaging the special attention of the world of science, a cordial invitation to visit this province and conduct his Western American experiments or demonstrations at the Tranquille Sanitarium.

In the event of Dr. Friedmann being able to accept the invitation, assurance is given that he will be assisted with pleasure by Dr. Vrooman and his staff, while all facilities will be placed at his disposal by the governmental authorities. The sanitarium at Tranquille, it is mentioned for his information, has been established and is conducted upon extra-modern lines, and the resident superintendent and all associated with him in the work are keenly and intelligently enthusiastic in all pertaining to advance in methods for the eradication of the great white plague.

Sandon Receiver Appointed

Mr. Charles W. Young, a well known resident of the Kootenays for some years and formerly chief of police of the city of Nelson, has been named by the government as receiver of the little mountain-girt city of Sandon, the appointment being made upon the recommendation of Mr. William Hunter, the member for the district. Mr. Young under his new commission, will be virtually all public officers and offices rolled into one—from mayor and City council to poundkeeper and municipal dog-catcher—with exceptional and unique discretionary powers.



Shoes that Fit!

We make a specialty of Miners' Shoes; good fit, nice shape, and nothing but the best of stock used

SATISFACTION GUARANTEED

Dr. PRICE'S CREAM BAKING POWDER

You will find it a great satisfaction to do

More Home Baking

You will make biscuit, cake and pastry clean, fresh and tasty—better every way than the ready made foods.

Dr. Price's Baking Powder is specially devised for home use, and makes home baking easy and a delight. It will protect you from the dread alum baking powders, which are too frequently found in the ready made articles, and insure you food of the highest healthfulness.

As showing the tendency of mining to eclipse all others pursuits, William Walsh, State Inspector of mines for Montana, points out that during the last half centnry the agriculture of the world has only doubled; the products of manufactures have quadrupled, while the output of mines has increased more than thirteenfold.

The Liberal abuse of Mr. Churchill has died down. Laurier found that the historic policy of his party to sneer at the Britisher was as unpopular as his open attempts to cut the painter, and make Canada a nation independent of the motherland.

It is a difficult task to make Laurier understand that instead of being the "chosen" he is the "rejected" of the people. His extraordinary vanity has dulled the edge of his political perception to an extraordinary extent.

DO YOU WANT TO MAKE MORE MONEY

IN placing your Newspaper Advertising, place the greatest value on the paper with the greatest influence on its readers.

¶¶¶

Use the medium that is watched for every week by the people of your community.

Spend the money with the paper that is read with interest. It reaches the people and you know that you're getting into the homes of the people you want to reach.

¶¶¶

Quality has not yet become popular, but the day is not far distant when this will be one of the main features of Newspaper Advertising. In the meantime business men, who have faith in quality, are reaping huge returns.

¶¶¶

Remember first, last, and always, that circulation counts; that quality of service gives quality in returns. The high priced medium pays. Like the high priced servant, you will find money well expended.

¶¶¶

You can make more money by selling more goods; you can sell more goods by advertising in The Phoenix Pioneer, whose constituency is the Boundary district.

¶¶¶

The way to test the truth of this statement is to send us the copy for your ad. right away. The experience would not be an expensive one, and satisfactory results are assured.

¶¶¶

We use the most modern type and machinery money can buy, combined with thorough workmanship—a combination which enables us to do the best work at a moderate cost.

Woman Is As Old As She Looks

No woman wants to look old. Many in their effort to look youthful resort to the "beauty doctor's" prescriptions. Their mistake is that they visit the wrong department in the drug store.

Beauty depends upon health.

Worry, sleepless nights, headaches, pains, disorders, irregularities, and weaknesses of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step.

To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for

DR. PIERCE'S Favorite Prescription

This famous medicine strikes at the very root of these enemies of your youthful appearance. It makes you not only *look* young, but *feel* young.

Your druggist can supply you in liquid or tablet form or send 50 one-cent stamps to Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N.Y. and trial box will be mailed you.

SATURDAY, APRIL 5, 1913

More Blue Laws

Declaring that the immodesty of the attire worn by women on the streets and in public places is the cause of "a great wave of immorality now sweeping over the country," Representative Louis H. Chappelle of Cincinnati introduced a bill in the lower house of the legislature providing for the appointment by the governor of a commission of three members to "prescribe the fashions to be worn by women in the State of Ohio."

Under the provisions of the bill the proposed commission would be compelled to fix limits on decollette dresses so that "not more than two inches of the neck below the chin shall be uncovered." Another clause of the measure provides "that transparent stockings shall not be displayed or worn in public places."

Another provision of the bill states that "it shall be unlawful to display or wear any outer garment trimmed or combined with lace, insertion or any other kind of embroidery, mesh or net through which the colors or texture of the skin may be distinguished without having the lace or other material backed with opaque material."

Members of the proposed commission, according to the bill, would have to be between 40 and 50 years of age. Not more than two of them would have to be married men and of good moral character".

One of the members would be an ordained minister, one a parent of not less than three children, and the third a social settlement worker.

The commission would be authorized to prescribe rules and regulations for the designing and manufacture of women's clothing, and to prohibit such styles and patterns of garments as the commission after hearing shall deem "to be detrimental to virtue and chastity." The bill goes so far as to prohibit department stores from displaying undraped artificial figures.

Repeating Shotguns

Hunters are worrying over that clause of the new game laws which permits the use of only one shell in the magazine of the repeating shotgun. It is all in the interpretation of the act, however. The section of the code dealing with this point reads:

"It shall be unlawful for any person to use or have in their possession a pump or repeating shotgun of any kind with a magazine capable of holding more than one cartridge."

Therefore, according to the reading of the act, the standard repeating shotgun is lawful providing the magazine is blocked so that it will accommodate only one shell. The same law is also in force at the present time in the State of New Jersey and a number of sportsmen there still stick to their favorite repeating shotguns, but have made the change to conform with the act by blocking the magazine so that one shell can only be inserted. The act does not forbid the use of the double-barrelled shotgun.

That "Impending" Election

Liberal newspapers are still deluding their readers with the hope of an election this year. Their readers are informed that the naval bill will be blocked, and that the return to power of Sir Wilfrid Laurier is a foregone conclusion. But even if an election was brought about, does anyone imagine that the government would go down to defeat on the naval emergency issue? We have been informed by irresponsible Liberal organs of dissensions in the government ranks, but up to the present not a single Conservative has spoken against the main principle of the naval bill. The boot seems to be on the other foot and already signs of dissension are to be seen in the Opposition ranks, Colonel McLean a staunch Liberal having sided with the government, while such influential Liberal papers as the Montreal Witness, Winnipeg Tribune, St. John's Globe and Montreal Herald are all outspoken in their support of the Borden policy.

Important to Mining Investors

The necessity of knowing at least a little about the mining business before investing heavily is suggested by the following story sent us by an engineer in Honduras, says the Engineering and Mining Journal: A prospector had brought in a sample of supposedly rich gold ore for examination by an assayer. On being informed later that it was nothing but iron pyrites and not worth a cent, the astounded prospector exclaimed in direst dismay: "GOOD LORD! there is an old woman up our way who owns a hill of it, and I married her."

The attention of the powers that be is respectfully drawn to the condition of that portion of the Phoenix-Greenwood government road lying within the jurisdiction of the Greenwood riding. An immense amount of traffic passes over the road in question and its present condition constitutes a serious menace to the lives and limbs of wayfarers.

What with open defiance of the Speaker of the House of Commons, and inciting their followers to riot on the floor of Parliament itself, the Liberal leaders are courting the intense displeasure of the people of Canada. Their motto is apparently "Words not Works."

After talking almost incessantly on the naval bill for three months, the Opposition are now crying out for free speech. Verily there is some humor left in those politcal comedians.

BABIES SORES

Every mother should realize that the skin of her baby is so tender that the secretions of the body often lead to rashes, eruptions, etc., all of which may be removed by Zam-Buk. Scores of restless, crying babies, upon examination, are found to be suffering from some form of skin irritation or "heat." Don't let the little one suffer when Zam-Buk will cure!

Mrs. L. Hood, of 675 Alexander Avenue, Winnipeg, says: "I have proved the value of Zam-Buk when applied to children's sores. Some nasty sores broke out around my baby's mouth, and despite all the preparations used, they refused to heal. I took him to St. Boniface hospital and he remained there for two weeks. At the end o' that time he was no better, and we again took him home. I was then advised to try Zam-Buk and obtained a supply. The effect of the first few applications was very gratifying, and I continued with the use of the balm. A little perseverance resulted in a complete cure."

Mrs. E. Cocker, of Yorkton, Sask., says: "My little baby girl had a bad running sore all over her little chin. A few applications of Zam-Buk healed the sore in such a perfect manner that no scar was left behind."

Scores of similar cases could be quoted. Zam-Buk is absolutely pure—contains no rancid animal fats, no mineral coloring matter, no astringent poisons. It is the ideal balm for baby.

Zam Buk cures eczema, rashes, ringworm, chapped hands, scurvy, heat rashes, cuts, burns, ulcers, discharging sores, and all skin injuries and diseases. 50c. box, all druggists and stores, or Zam-Buk Co., Toronto, for price. Don't take the risk of using harmful imitations!

Zam-Buk

YOUR BLOOD IS TAINTED

ULCERS, BOILS, SWOLLEN GLANDS, BLOTCHES, PIMPLES, AND ALL SKIN AND BLOOD DISEASES ARE COMPLETELY CURED BY THE NEW METHOD TREATMENT

We desire to call the attention of all those afflicted with any Blood or Skin Disease to our New Method Treatment as a guaranteed cure for these complaints. There is no excuse for any person having a disfigured face from eruptions and blotches. No matter whether hereditary or acquired, our specific remedies and treatment neutralize all poisons in the blood and expel them from the system. Our vast experience in the treatment of thousands of the most serious and complicated cases enables us to perfect a cure without experimenting. We do business on the plan—**Pay Only for the Benefit You Derive.** If you have any blood disease, consult us **Free of Charge** and let us prove to you how quickly our remedies will remove all evidences of disease. Under the influence of the New Method Treatment the skin becomes clear, ulcers, pimples, and blotches heal up, enlarged glands are reduced, fallen out hair grows in again, the eyes become bright, ambition and energy return, and the victim realizes a new life has opened up to him.

WINDSOR SUPPLY CO., Windsor, Ont. General Agents for Canada.

Specially for Coughs and Colds

One of the finest laboratories in Canada is devoted exclusively to the manufacture of Mathieu's Syrup of Tar and Cod Liver Oil—the great Canadian specific for coughs. The finest of Pine Tar, the choicest Norway Cod Oil, and every other of the many healing medicines which compose it are tested at every stage to see that their quality is right. The combination of ingredients in Mathieu's Syrup of Tar and Cod Liver Oil is the result of the life work of the chemist Mathieu.

No hap-hazard remedy this—no "just as good" drug put up by some obscure pharmacist, or large general drug house.

Just a cough and cold remedy, which thanks to its excellent formula and its unvarying excellence in preparation has come to be known as the best cough remedy in Canada, where its sale is very large. If you really want to cure your cold, don't accept any substitute. Sold everywhere—35c large bottle.

J. L. MATHIEU CO., Prop., Sherbrooke, P.Q.

If pain and fever accompany the cold, Mathieu's Heroine Powders will promptly dispel them. Sold everywhere—25c per box of 12 powders.

5-1-13

Local and General

Fred. Carlson left on Thursday for a visit of a few days to Nelson.

Messrs. M. Costinelli and M. Marda returned to Fife on Monday's train.

Mrs. Andrews of Grand Forks was a visitor in town the latter part of last week.

Born—At Phoenix, on Monday, March 31st, to Mr. and Mrs. Roy Price, a son.

Jas. McCormick, shiftboss at the Rawhide mine, left on Tuesday's train for Vancouver.

Mrs. F. E. Ackerman left on Monday to join Mr. Ackerman, who is now located at Nakusp.

Alphonse Lode, recently of the Mother Lode hotel staff, was a visitor to Phoenix during the week.

Wanted—Position as housemaid; experienced in cooking and laundry work. Apply Knob Hill hotel.

Mrs. Coutts and daughter of Grand Forks were the guests of Mrs. James Marshall for a few days this week.

Miss Stella Donnan of the local hospital staff spent the latter part of last week at her home in Grand Forks.

Mr. and Mrs. Monson left on Monday morning to take up their future residence on a ranch near Spokane.

Mrs. Angelo Osello, who came over from Rossland for the funeral of Mrs. Vichry, returned home on Monday.

The Phoenix Football club lost one of its strongest members this week when Geo. Hartley left for the coast.

Mr. and the Misses Silvia and Clara Pedrotti, relatives of Geo. Vichry, returned to their home in Butte, Mont., on Monday.

J. D. Campbell of the Granby smelter clerical staff, at Grand Forks, came up on Saturday, for a short visit extending over Sunday.

Dan Docksteader, chief of the city police, who for some time has been on official business in Washington, returned to town on Monday.

J. Sweeney, well known in the mining world of Spokane, accompanied Page Boyles, the diamond drill contractor, on his recent visit to this camp.

For Sale—Complete house furnishings for three rooms and a kitchen. Price for immediate purchase, $75. Will sell separately.—Apply Pioneer office.

The Ladies Aid of the Catholic church wish to express their thanks to all those who assisted and patronized their recent and very successful Easter Monday ball.

Mrs. Albert Biner and baby arrived in town on Thursday evening from Pasadena, California, where her parents, Mr. and Mrs. Croider, formerly of Olympia, are now located.

Eighty-five per cent of headaches are the result of eye strain, so if you are a sufferer do not fail to consult Dr. S. L. Taube, at Phoenix Drug store, on April 11th and 12th.

Sour-looking young man to jeweler: "The engagement ring I purchased from you the other day hadn't even a chance. Would you kindly exchange it for a set of cuff liuks."

Remember the date of Dr. Taube's visit to Phoenix Drug store (Friday and Saturday, April 11th and 12th). If there is anything wrong with your eyesight do not fail to consult him.

Mrs. Alex. McDowall and daughters spent the Easter holidays in town after all, for on their return to Columbia gardens, the school trustees decided to grant the children an Easter recess.

The friends of Archie McDonald will regret to hear that he was admitted to the local hospital on Sunday last suffering from a severe attack of pneumonia. The latest report is that his condition is improving.

W. C. Taylor scraped the beautiful snow of Phoenix from his shoes on Wednesday and left to spend the good old summer time on his new ranch at Richfield, Idaho. Mrs. Taylor preceded him a few months ago.

The name of A. O. Johnson, proprietor of the Central hotel, was inadvertently omitted from the recently published list of those who have received authority to take the affidavits of applicants for the provincial voters' list.

Walter Murray of Trail was a visitor to the camp during the week. Mr. Murray, whose home is in Greenwood, is a former resident of Phoenix and some years ago was connected with the William Hunter store in the lower town.

H. Underwood, brother of Mrs. W. Wills, arrived in Phoenix on Monday, from Manchester, England, after a rough experience over sea and over land. Mr. Underwood says the ship on which he sailed was crowded with passengers.

Andy Johnson has pronounced the sentence of death on one of his bears. After being asleep for the past four months the creature has now assumed airs that Andy is not at all disposed to tolerate. The doomed animal's name is therefore Denis.

Brother Lowery, prop. and editor of the Greenwood Ledge, was among the distinguished visitors to Phoenix this week. Our world-famous ozone is a valuable asset and the colonel quaffed his lungs full before leaving for his sub-tropical home burg.

Among the visitors to Phoenix this week were Chas. Peterson and family and Mr. and Mrs. Pete Hanson, all of Grand Forks. The party came up for the purpose of joining in the postponed Easter festivities of the local lodge of S. N. and E. F.

J. Fuller, who has been a resident of Phoenix for some years, has taken over the stage line between this city and Greenwood, H. Laing, the former proprietor having decided to move to the coast. The rates for passengers and parcels remain unchanged.

Clearance Sale—To make room for our new stock of wallpaper we are closing out some remnants (small lots) at exceptionally low figures. This is a fine opportunity to get the shack papered for a very small cost. Make your selection early. Al. Almstrom.

For Sale.—The Biner block, centre of upper town; four suites of housekeeping apartments; all furnished; always rented; adopted for any kind of business; very cheap; money making chance of life time to right couple. Part cash, balance terms. Apply to owner on premises.

The preliminary arrangements are being made towards the formation of a football league. Up to the present it has been suggested that the league should consist of teams from the Rawhide, Granby and Mother Lode mines, while it is thought that another might be organized in Greenwood.

Tuesday was April Fool day and the hoary old customs were as much to the fore as they were fifty years ago. One man walked about with a spool of white cotton in his breast pocket with the thread hanging through the button hole in the lapel of his coat. Quite a number bit, and the joker escaped massassation.

Val. McDavies, fireman on the local Great Northern passenger, whose jaw was badly fractured by an assault, is making satisfactory progress towards recovery and expects to be able to leave the hospital within the course of the next few days. It will be sometime longer, however, before he will be able to resume work.

The members of Gold Range L.O.L. assembled with a few of their friends on Wednesday evening in their lodge-room, to listen to a reading on the siege of Derry and the events leading up to it. The reading was thoroughly enjoyed by all present and a hearty vote of thanks to the speaker was carried. Light refreshments were served during the evening. Other similar entertainments are planned for the near future.

The Leader-Mail of Granby, Quebec, contains the following reference to the recent local hockey successes: "From British Columbia papers to hand, we learn that Phoenix won the Boundary Hockey Championship, beating Grand Forks by 4 to 3, and also winning the cups offered by the premier, Sir Richard McBride, and the Nelson Daily News for the Interior Championship of B.C. and gold medals for each of the players. The accounts show that our former townsman, Charley Davidson, who is a member of the winning team, did good work in helping to secure the trophies."

Mrs. F. E. Brine and Mrs. J. R. Munro will give a tea at the Manse, under the auspices of the Ladies' Aid of St. Andrew's Presbyterian church, on Saturday next, April 12th.

Arrangements are being made to organize a bowling club. Each team consists of five men each and an effort is being made to enroll sufficient members to make eight teams.

The skating rink will be open on Monday next from 3 to 4.30 p.m. to afford season ticket holders an opportunity to remove their skates.

Mr. and Mrs. W. Ramsay were among the Phoenix visitors to Grand Forks last Saturday.

H. Hartley, city clerk, is in Spokane consulting an eye specialist.

Dr. W. H. Dickson left on Friday's train for the coast.

Fine Specimens of Native Silver

One of the finest pieces of native silver ever brought to town, came in on Monday from the Utica, says the Kootenain (Kaslo). It was brought down by Jean Brochier, the shift boss at the big 12-Mile property The piece is about fourteen inches in length and of irregular size, the streak being about the thickness of a fifty cent piece. It was taken out of a big strike of three feet and a half of galena in the big or west lead. The property is looking exceptionally fine in all directions, according to Mr. Brochier. The continuation of the southern drift on the east vein has opened up another ore shoot which now averages about three inches in width and as the ore on this property appears to run in and out in long regular shoots, an increase of this ore body is looked for as the drift progresses. Hughie Chisholm, of Chisholm Brothers, who have a lease on the apex workings of the Utica, was also in town the early part of the week. They are taking out ore on their lease right along and sending it down by their tram to the base of the peak, where it will be transferred to other conveyances for forwarding to the railway.

Ore shipments have started in earnest from Ainsworth, the No. 1 sending out a number of cars while the Silver Hoard shipped two. There is a car of ore lying upon the wharf made up of lots owned by the No. 1, Silver Hoard and A. D. Wheeler and as soon as the frost is out of it shipment will be made.

By the waters of Phoenix we sat down and wept.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Mineral Act.

Form F.

CERTIFICATE OF IMPROVEMENTS.

NOTICE.

"Belmont Fractional" Mineral Claim, situate in the Greenwood Mining Division of Yale district.

Where located:—Greenwood Camp.

TAKE NOTICE, that I, Donald J. Matheson, agent for Eric E. Jackson, Free Miner's Certificate No. 40,806B, intend sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issue of such Certificate of Improvements.
