AND BOUNDARY MINING JOURNAL.

NINTH YEAR. PHOENIX, BRITISH COLUMBIA, SATURDAY, JANUARY 18, 1908. No. 9

Our Annual

STOCK-TAKING SALE

In Dry Goods Department.

In order to clean up our shelves and tables before taking stock, and to make room for new spring goods we are offering the following lines at greatly reduced prices:

Ladies' tailored tweed Walking Skirts,

Regular	$10.00	Now $8.00
	9.00	6.75
	7.00	5.00
	6.00	4.75

Complete line of Ladies' LONG and SHORT KIMONOS ranging from $1.00 to $3 75 in value, now offered from 60c. to $2.50.

A few Ladies' all woll DRESSING SACQUES, were $3.50, now $2.25.

LADIES' GOLFERS—Regular $3.50, Sale $2.25.

Full range of CHILDS FELT SLIPPERS, Regular $1.00, Sale 75c.

Childs CARDIGAN RUBBERS, Regular $1.75, Sale $1.00.

Misses WHITE BEARSKIN CAPS, Regular $1.50, Sale $1.00.

Ladies' DRIVING MITTS, Regular $1.50, Sale $1.00.

Misses DRIVING MITTS, Regular $1.00, Sale 75c.

ODD CORSETS, in values ranging from $1.00 to $2.50, now on sale at 50c.

LADIES' AND CHILDREN'S COATS AT LESS THAN COST PRICE

The Hunter-Kendrick Co.

1908

We wish to thank our many Customers for their Liberal Patronage during the year of 1907, and to express the hope that, by careful attention to business, we may merit a continuation of their Valued Favors during the year just beginning.

We wish you all joy and prosperity, today and every other day of the year--whatever of success and happiness comes to you will make us glad.

Cordially,

Morrin Thompson & Co.
GROCERS AND HARDWARE MERCHANTS

DOMINION CO'S ANNUAL REPORT

Good Prospects For the Future.

M. M. Johnson's Statemtne as to Conditions.

TO THE SHAREHOLDERS:

Your directors respectfully present their report of the state and condition of the company for the year ending July 31, 1907.

During the year there has been spent a total of $356,714.67 on improvements to the smelter, new development work at the mines, and installation of new machinery. The amount spent on the smelter was $173,098.73, and covers the cost and installation of No. 3 Furnace and blowers, a complete equipment for electrical operation in place of steam, additional land for slag dump, and a new water works system. The smelter now has a capacity of 1200 tons of ore ber day.

Owing to numerous delays beyond the control of the company the complete installation of No. 3 Furnace was not effected until the month of June. This was a great disappointment, as it had been expected this furnace would be in operation early in January. As high as 750 tons of ore a day has been handled in this furnace, but the most economical results will probably be secured with an output of about 600 tons. The new furnace is equipped with a mechanical feed operated by electric locomotives. This mechanical feed will be extended to furnaces No 1 and No. 2, which will result in a very material reduction in the cost per ton of smelting the company's ore.

The new water works system, in addition to giving better efficiency to the operation of the smelter, also furnishes an excellent fire protection, and reduces the rate of insurance.

During the year there has been spent at the mines on new development work and new machinery a total of $183,618.84. The mines are now completely equipped for operation by electricity instead of steam. New compressor plants have been installed at the Idaho and Sunset mines. These improvements will result in a decided saving in cost of mining the company's ore.

The new development work, consisting of drifts and upraisings, amounted to a total of 8519 feet. In addition to this, exploration work with diamond drill has been done aggregating 1045 feet.

The physical condition of the company's mines, both in the total tonnage now in sight and the equipment for mining the same, has been greatly improved during the past year. A large amount of development work has been done on the Rawhide mine, and that property is now capable of furnishing 800 tons of ore per day for an indefinite period. A very large tonnage is now available from the Idaho, and will run about the average values of the camp. A new body of ore has been found in the Brooklyn. There has not yet been sufficient development work to fully prove the size of this body of ore. The 80 ft., 150 ft., and 250 ft. levels are in the ore, and the values are showing very satisfactory. The Brooklyn mine has always carried good gold values. which is most desirable in these low grade ores. The Sunset ore, which has been used largely as a flux, has been showing better copper values.

In the report made by Mr. M. M. Johnson to the board of Directors, he says:

"The development of the various mines has been very satisfactory, the year's work having showed an increased tonnage in all except the Brooklyn.

"The work on the Rawhide taken in conjunction with the work done on adjoining ground by the Granby Co. has shown this property to contain a very large tonnage of ore. The mine can produce 800 tons of ore per day for an indefinite time.

"The work on the Brooklyn has shown some new ore on the north of the shaft, but was found so late in the year that nothing definite as to its extent or value can be said about it. However it looks very encouraging and I expect that it will mine about the average of the former Brooklyn ores; the last samples taken show the average at 0.7% copper and nearly $2.00 per ton in gold. Nothing below the 300 level of the Brooklyn has as yet been found.

"At the Sunset outside of ore extrication very little exploring was done. A short tunnel put in from the surface found the ore at a depth of 50 feet below our present work. No further work was done to prove the extent and quality.

"The exploring work on the Crown Silver has shown the claim to contain a considerable amount of ore but so far has proved to be of very low grade and much broken up. Sufficient work was not done to allow of a definite conclusion or an estimate of tonnage.

"The Athelstan work was not very satisfactory, resulting in finding the ore very narrow at a short distance below the good showing on the surface. Several hundred tons of ore were extracted in the course of this development containing $6.00 and $8 00 gold per ton This ore has not been smelted.

"In the Idaho the work on the tunnel level and on the 100 level has been very satisfactory, opening up a very large tonnage of ore. The most satisfactory feature is the finding of a better average grade of ore on the 100 level than the upper work gave. A sample taken from the wide portion of the ore on the 100 level gave 1.3% and 1.2% copper and $1.00 gold per ton. The ore found on the upper level and on the surface has always been figured at an average of about 1%.

"During the year the wages of the workmen were advanced 50c. per day. On an output of 1000 tons per day this means an extra outlay of at least $125,000.00 per year, and increased the cost of production The central compressor located at the Idaho mine was fully completed and put in operation; you have here a plant that will furnish power for all purposes for the Idaho, Brooklyn and Rawhide mines sufficient for a 2000 per day output.

"The Sunset mine has been equipped with an electric hoist and electric driven compressor, these are in operation and will be sufficient for all requirements and should reduce the cost per ton very materially. The saving obtained in the use of powder alone at this point will quickly pay the cost of installation. At the smelter the No. 3 Furnace, Ore Bins, Crusher Plant, etc., have been completed and the furnace was put in operation in June. This month and the month of July were used in experimenting and regulation. It has been shown that a very large tonnage can be treated, some of the days run being as high as 750 tons. The question as to what will be the safest amount for the best percentage of saving has not yet been determined. This furnace is mechanically fed aud when properly adjusted as to tonnage, blast, etc., will reduce the cost of operation very materially, and with the two old furnaces put on new plan of feeding, which can be done at small cost. the capacity of your smelting plant should be between one thousand and twelve hundred tons per day.

"On the whole, the year just closed has not been a satisfactory one in the mines or smelter, whether considered from an earning or operating point of view; mishaps and interruption were so frequent that it was hard to get a steady run and consequently difficut to regulate matters nicely. Perhaps these delays and misfortunes were felt the more keenly because of the exceeding smooth manner in which everything ran throughout the preceeding year. In an industry which operates on such a close margin, a great deal depends upon regularity and steadiness of operating. A little bad luck, the prevalence of extraordinary conditions, may change the result of a month's operations from profit to loss. Thus the operations mishaps though of seeming small magnitude in themselves were very serious, because the entire plant (mines and smelter) was carrying an organization calculated for a given tonnage, and when this output was interfered with, as was the case particularly in the last half of the year, the efficiency of the organization was reduced and a great increase in cost per ton for extraction and reduction entailed.

"The most serious misfortune was the inability of the railroad company to supply the smelter with ore. Early in January we commenced to have trouble from this source and operations were spasmodic for several months thereafter, not being able to tell from day to day whether we would receive ore enough to run the furnaces one hour or twenty-four. Finally, in the month of May, we were obliged to shut down entirely and continue closed for the whole of that month. Repeatedly shutting down or banking a furnace increases the expenses, both in consumption of fuel and in repairs. In the month of June the No. 3 furnaace was put in commission and its regulation and experiments carried on through the months of June and July under the most trying conditions, small tonnage reduced, inexperienced workmen, lack of coke, etc., all went to make a high cost per ton.

"By the installation of the power plants with electrical applications, the facilities for increased tonnage at the furnaces, you have every reason to believe and every right to expect a great reduction in cost of production both at the mines and smelter for the ensuing year.

"I should expect your mining, smelting and freight should not now exceed $2.75 per ton of ore treated, provided you run on capacity of 1000 tons per day. This tonnage your mines is easily able to furnish."

10,000 Ounces of Gold.

During the twelve months the company has mined and smelted a total of 187981 tons, an average of 15665 tons per month, from which 3256.45 tons of matte was produced. This matte contained 10321.05 ounces of gold, 42606.81 ounces of silver, and 2910695 pounds of copper; from its sale $820,184,84 was realised by the company. The total expenses were $740,002.72, leaving a profit balance of $80,942.91. This result was obtained in spite of shut-downs of the smelter, aggregating 4271 hours and 50 minutes during the year, or a total smelter time lost of three months. The greater part of this loss was caused by the inability of the railroads to transport the ore from the mines to the smelter, owing to the serious conditions existing during the winter months and from scarcity of equipment.

During the summer months the railroad secured an increase in its equipment, and in the future it is expected that this cause will be eliminated. The month of May was almost a complete shut-down, owing to a strike among the miners at the coal mines, and making it impossible to secure a supply of coke. As profits can only be realized by smelting the ores mined, these constant shut-downs and interruptions have been very expensive to the company's net earnings.

It is proper to add, in this connection, that great difficulty was experienced in the proper adjustment and operation of the new furnace; and that for this and other. reasons, recoveries at the smelter, since the year ending July 31st, 1907, covered by this report, up to the time of the shut down in October, have not been satisfactory. Earnest efforts to remedy the trouble were made and considerable improvement had been effected, when your Directors deemed it best, in view of the demoralized condition of the copper market, to close down the mines and smelter in the month of October, rather than to sell the company's assets in the form of copper at the prevailing low prices.

This move was in line with the action taken by some of the largest producers in the United States, and its wisdom is shown by its having been followed by the other producing mines in the Boundary Falls district, where our properties are located. The company has on hand a full stock of coke. ore and supplies of all kinds necessary for the operation of the mines and smelter; and it is hoped that a permanent and satisfactoiy market price of copper will soon be established, justifying the resumption of operations.

The propertys of the companies are now in excellent physical condition. The improvements and additions to the plant, contemplated in the last annual report, are now completely installed, and, with a fair average price for copper, the company should make a favorable showing.

During the year the company retired $200,000 of its outstanding First Mortgage Bonds. The purchase of the Morrison mines and the Athelstan mines was completed and title taken to these properties. A railroad spur over three thousand feet long has been constructed at the Rawhide at a cost of $23,311.26. This cost, however, will be returned to the company in freight allowances. The Morrison mine has some development work, and the ore will be valuable as a flux. The The Athelstan mines' ore at the surface has shown exceedingly rich gold values for the Boundary district. Not enough work has been done, however, to prove the ores at depth.

The financial statement and trial balance set forth the condition of the company on July 31st, 1907.

WARNER MILLER, President.

Methodist Social Next Wednesday.

The Ladies' Aid of the Methodist church will give a social on Wednesday evening, January 22, the programme being as follows:

Violin Solo, T. Seller Fram.
Reading, "Politics," Mrs. H. Reed.
Song, Mrs. F. Knott.
Cornet solo, E. Johns.
Male quartette, Messrs. Horrell, G. Johns, J. Picthall and Whittaker.
Recitation, "Making of a Man," W. Johns.
Duet, Misses Horrell and Bertie Knott.
Mandolin and Piano duet, Mrs. Dean and Mrs. Perry.
Song, H. Reed.
Banjo solo, E. Hopkins.

Refreshments at the close; admission 25 cents.

Small Fire Took Everything.

Tuesday afternoon fire broke out in a log cottage back of the Granby No. 1 cottage on Victoria avenue, occupied by Mr. Fisher and family. Mrs. Fisher had but time to catch up the two children and run out to a neighbor's, the interior being a mass of flames and doomed. The Fishers lost everything they had by the fire, not having time to save any of their personal effects, and Mr. Fisher had been at work but a few days. The cabin was the one originally built and occupied by S. A. Swanson, and was owned by G. A. Larson. A subscription paper was passed around town for the benefit of the burned out family, and a comfortable sum was quickly raised the next day for the Fishers.

W. S. Macy went down to Spokane last Sunday, returning during the week.

MATHESON IS AGAIN MAYOR

Beat G. W. Rumberger By 38 Votes.

Voters Endorse Old Administration at the Polls.

FOR MAYOR.

Michael H. Kane	23	50
FOR ALDERMAN (3)—WEST WARD.		
A. D. McKenzie	52	52
William J. Porter	36	50
Theophil Biner	—	33
Julius Carson	23	32

The above is the result of the municipal election of last Thursday, compared with the figures of the election a year ago. The blanks in the 1907 vote indicate that the men named were not candidates last year.

This election was the most hotly contested of any in the history of the corporation, the total vote polled being 218, out of 307 votes registered, two names having been placed on the list Wednesday night by the police magistrate. Both candidates for mayor were pitted against each other a year ago, when Mr. Matheson won out by a majority of 13 votes. This year there was even more interest taken in the election, with 101 more ballots cast than last year. The returning officer was City Clerk M. M. Stephens, and the election clerks were J. O. Church and J. C. Halsey.

Workers for both tickets were busy all day, and teams were on hand to bring voters to the polls, some coming from Grand Forks and Greenwood. When the results were known, the supporters of Mr. Matheson held a torchlight parade, and the successful candidate was drawn through the principal streets of the city in a sleigh by many willing hands. The polls closed at the city hall at 7 o'clock, and from that time till the last ballot was counted there was a big crowd around the city hall awaiting the announcement of the result.

Wednesday Night's Meeting.

Following Mr. Rumberger's announcement in the last issue of the Pioneer, Mr. Matheson issued an open letter to Mr. Rumberger in reply. Then the latter replied again by an open letter in circular form. Then the spring poets, although a little ahead of time, began to do business, and citizens and others were favored with a bunch of poems (?) and limericks, which were supposed to bear on the attitude of the two chief candidates. Mr. Rumberger called a public meeting at the opera house for Wednesday evening, the only platform speakers being himself and Mr. Matheson. W. X. McDonald presided as chairman in a satisfactory manner, introducing the candidates.

Mr. Rumberger spoke first for nearly an hour, presenting the reasons why he thought the electors should support him, and criticising the Matheson administration of the past year. Then Mr. Matheson had his innings, and made the best possible use of them for an hour and a half, in turn picking the previous administration of Mr. Rumberger to pieces, and demonstating why he believed the city government of last year should be continued in power for another term. Following this Mr. Rumberger made his reply and the meeting was over.

Rarely has the opera house held a larger audience, and quite a number of ladies were present. Asked beforehand if he would have any music, Mr. Rumberger thought there would be music enough before the evening was over—and he proved to be an excellent prophet. It was a good natured audience, and many of them thought they had often paid a dollar for a show there and did not enjoy themselves half as much. One lady remarked that she wished to go again when an entertainment as interesting as that was booked.

The new council will have its first meeting next Monday evening, according to statute.

Boundary Mining Notes

The Phoenix scale of wages has prevailed at the Crescent mine, Skylark camp, since January 1st.

Nothing doing is the latest report from the B. C. Copper Co.'s mine and smelter, but there are strong hopes.

Supt. Shaefer, of the Strathmore mine, near Greenwood, who was here this week, states that plans are being made, when work is resumed, to run a long and deep tunnel, about 200 feet lower than the present tunnel.

Granby has been operating six furnaces steadily all this last week, and today or tomorrow another will be blown in, the eighth to go in commission as soon as may be thereafter. Three ore trains are going out daily, two over the Great Northern, and one over the C. P. R., making about 2,500 tons per day, more or less.

The 20 seven-ton steel mine ore dumps have been safely sent down to the 400-level of the Granby mines, where they will be used in getting out a heavy tonnage through the Victoria shaft. The 75-h.p. electric engine is now running on that level, having been installed by Abner Hillier, the company's electrician, and another week or so should see that opening sending out a large tonnage of ore.

Greenwood Dramatic Club.

On Monday evening, January 27th, the Greenwood Dramatic Club will present the play "Confusion" at the Phoenix opera house. The play is a rattling good farce, and it is said that the company has some excellent talent to present it with. The Greenwood concert orchestra of eight pieces will also be present, and the presentation should draw a good house, seats being procurable, as usual, at Tom Brown's.

The company plays at Greenwood on January 24th and at Grand Forks on January 25th.

Latest Prices in Metals

NEW YORK—Copper, electrolytic, $13.-62 @ $13.87; lake, $13.50 @ $14.00.
Bar Silver, 55⅞
Lead, $4 45 @ 4.55.
Spelter, $3.00 @ $4.00.

BOUNDARY ORE TONNAGE.

January 18, '08

The following table gives the ore shipments of Boundary mines for 1900, for 1901, for 1902, for 1903, for 1904, for 1905, for 1906, and 1907, as reported to the Phoenix Pioneer—

BOVRIL creates appetite

BOVRIL added to any dish gives it the delightful odor of roasting beef.

Makes your mouth water—puts your appetite on edge.

Its rich, beefy flavor, starts the gastric juices flowing, helping the digestive organs extract more nutrition from the food you eat.

BOVRIL is not a mere extract. It contains in concentrated form all the essence, substance and flavor of prime beef.

When tired out, try a little BOVRIL in a cup of boiling water, with a soda biscuit. It will refresh and strengthen you.

All good cooks keep BOVRIL always on hand. There's not a day passes that it cannot help make some dish more palatable—more nourishing.

All good grocers sell BOVRIL. 84

This week the wise men of the province reassembled at Victoria to make or unmake our laws. Forty-two men chosen by the electors, should be able to accomplish not a little in the two or three months they will be in session at the capitol.

The annual winter carnivals, given at Rossland, have come to be events of more than passing importance in the Kootenays, and from the preparations being made this year for another one, it will be a source of a good deal of pleasure to the thousands who will attend.

Despite untoward conditions in many respects, the total value of the metaliferous output of the province of British Columbia for the year 1907 was more than a million dollars in excess of that of the previous year, the total for last year being over $21,000,000. Progress is being steadily made, even if not as fast as some of us would like.

The municipal elections are now all over, and there is nothing in sight to prevent the average citizen from settling down to work once more. It was warm here while it lasted, and both nominees for mayor seemed to be confident of success, but of course but one could and did win. The city will now move on as usual, and the camp will continue to prosper.

The annual report of the Dominion Copper Co., which will be found in this issue, is a reflection of the disadvantages under which the company operated during the greater part of last year. The same drawbacks, of course, were felt by all copper companies operating in this district. This year, when they were all in operation once more, it should be possible for them, and they doubtless will, make a much better showing.

If report be true, the Japanese are getting so thick in Vancouver, that they are talking seriously of starting a weekly paper there. And yet Sir Wilfrid Laurier cannot agree with most British Columbians as to the desirability of limiting the immigration of the little brown men. If a few thousand of them were dumped into Ottawa or Toronto every once in a while, and the easterner had the problem on his hands, our friends in that locality might begin to realize the gravity of the problem of Oriental immigration which is confronting this province. Almost every month sees the number of these unassimilable people added to our population.

PROVINCIAL.

Rossland's eleventh winter carnival begins February 4th.

A Farmers Institute was established at Cranbrook last week.

Trail had $968 in bank on December 31st, and no liabilities of any kind whatever.

The new buildings at the anti-tubercolosis sanitarium, at Tranquille, will cost $75,000.

The United States consular department has decided to close the consular agency at Fernie.

Nelson has a bonded indebtedness of over $500,000, and a big asset in its hydraulic plant.

The Cranbrook Prospector has commenced its fourteenth year—the oldest paper in East Kootenay.

A branch of the B. C. Timber and Forestry Chamber of Commerce has been organized in Revelstoke.

This year the Southern Okanagan Land Co. will plant 400 acres of land with some 40,000 fruit trees.

The Dominion government has appointed J. R. Brown of Summerland to act as a special emigration agent in Great Britain.

The Provincial Government has under consideration the question of supplying the public schools of the province with the national ensign.

Nearly 10,000 acres of land in the Kootenay river valley, near Baynes lake, will be put under irrigation and thrown on the market by Spokane men in the near future.

According to private advices from Ottawa, Hon. Frank Oliver has given instructions to immigration agents in England to secure approximately five thousand men for British Columbia to come next spring.

Beware of imitations and substitutes.

Not in A Newspaper Office.

A recently arrived foreigner employed as a clerk was asked by his employer to send out a polite dunning letter which would bring results. The results were phenomenal, every delinquent paying his account in full. The letter read as follows:

Dr. Mr —: If you do not do us the extreme honor of paying all the dollars and all the cents of this accounting, which you so long owed to our business, we shall, to our regret, begin to do something that will cause you the utmost astonishment.

LAND ACT.

Similkameen Land District, District of Yale.

TAKE NOTICE that SAMUEL DUNDEE, of Belfast, Ireland, occupation, Merchant, intends to apply for a special timber license over the following described lands:

No. 1.—Commencing at a post planted about ¼ of a mile east of the Columbia and Western Railway, from where it crosses Nuthe land Creek, and about ¼ of a mile south from said creek and marked SAMUEL DUNDEE'S northwest corner post; thence south 80 chains; thence east 80 chains; thence north 80 chains; thence west 80 chains to the point of commencement, and containing 640 acres, more or less.

SAMUEL DUNDEE,
C. Dundee Agent.

Dated, 6th November, 1907.

OUR COPPER CORNER

MATTERS OF INTEREST TO THOSE INTERESTED IN THE COPPER MINING INDUSTRY

Mr. Newhouse Is Optimistic.

Samuel Newhouse, of Salt Lake City, one of the most extensive mining operators in the United States, and a director of the Dominion Copper Co., is quoted recently as follows:

"I predict that one year hence this land of ours, which is just now so full of unhappiness, caused by the uncertainty that prevails, will be filled to overflowing with glad hearts and smiling countenances.

"I predict that, within two years, at least one section of the Union Pacific railroad will be electrically operated, operated, and I predict that within ten years all the great railroad systems of this country will be electrically operated; that the great rivers will be harnessed and that it will be possible to ride from New York to San Fransisco and other western coast cities in trains every one of which will be shot across the continent at high speed through the agency of electric power.

"The change from present depressed conditions is coming soon. There are going to be better prices or copper, for lead, for silver, for zinc, and all the metals. The most significant and potential evidence of the coming change is found in the unprecedented orders for equipment that are now being placed by the great railroad corporations and the work they are doing all over the country in the matter of paralleling their tracks and otherwise preparing for the tremendous business they know to be in store for the future."

Cures Coughs & Colds

QUICKLY!

Mexico Has 1,600 Copper Mines.

The Republic of Mexico, according to a statement published recently by the Mexican Department of Fomento, contains more than 1,000 mines operated mainly for copper production. These are located in the different sections as follows: Jalisco, 302; Sonora, 234; Michacan, 95; Lower California, 65; Chihuahua, 53; and Durango, 51. In proportion of production tonnage, however, Sonora leads, while Lower California is second; the mines in the State of Jalisco are small producers.

Montana Copper Output.

It is estimated that the total output of copper in Montana, for the year ending January 1 will be 225,000,000 pounds. Of this the Amalgamated, North Butte and other companies which send their ore to the smelters at Great Falls and Anaconda will have produced about 210,000,000 pounds and the Clarke properties 15,000,000, pounds.

Claims to Lead World in Copper.

Figures compiled by the Board of Trade of Phoenix, Ariz., and supplemented by private telegraphic advices from other parts of the country, make it evident that the territory of Arizona has easily lead all other districts of the world in the production of copper during the year 1907. The total value of the year's output is estimated at $61,000,000.

Buster's Philosophy.—XVI.

Resolved, pa said his papers were stocks, bonds and deeds. They were little deeds of kindness, I suppose. He said he had some watered stocks—they seemed dry enough to me. Pa can swim, so he isn't afraid to go on Wall street. He has lots on his mind. I'd rather be poor, and free. Maybe I'll change my mind; still I know poor people are happier, but they don't know it. We are not only rich or poor by comparison, anyhow. When you got one friend or dog or horse that you really love, you are rich.

BRITISH CANADIAN WOOD PULP & PAPER CO., LTD.

313 Cordova Street, Vancouver, B. C.

We have established the townsite of Port Mellon on Howe Sound, 25 miles from Vancouver, and secured the water rights of Rainey River, which is capable of developing from 2000 to 5000 horse-power, for the location of our mammoth plant for the manufacture of newspaper, building paper, wrapping paper, etc., the plant to have a capacity of 450 tons of finished paper per per week; the company hope to have the pulp plant in operation by November 1, 1908.

We now offer for subscription the balance of our first allotment of Preferred Stock in blocks of 100 at $1.00 per share; each 100 shares entitled to a bonus of 25 shares of Preferred.

Special Notice

All applications for first allotment shares either for large or small blocks in order to be entitled to full allotment must be received by the British Columbia Trust Corporation, Vancouver, B. C., on or before the close of regular business, January 25, 1908.

The preferred stock is entitled to a dividend of 7 per cent. commencing November 1, 1908. The 7 per cent dividend is due and payable before any dividend is paid on the common stock. After 7 per cent has been paid upon preferred both stocks thereafter participate equally. There is no good reason why the preferred should not pay from 25 to 50 per cent. dividends.

The books of the corporation are open at any time for the inspection of the general public. There is no watered stock, no inflated values, no ground-floor plan or huge promotors' profits in the enterprise. Unlike most corporations, instead of allowing 15 to 25 per cent. for advertising and sale of stock, the entire commission, literature, newspaper advertising, brokerage, office expenses, etc., is limited to 10 per cent.

The public are cordially invited to visit our demonstrating plant, 313 Cordova street, and witness the manufacture of pulp and paper from refuse material, such as slabs, discarded shingle bolts, etc., that is is now being burnt at the local mills.

WORTH TAKING

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after each meal and at bedtime, is pronounced by a prominent physician to be the best mixture for the cure of the kidney, bladder, and all urinary troubles.

This says the doctor, is the most simple though remarkable prescription ever written to cleanse the system of impurities and waste matter. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, lame back, sciatica and other afflictions arising from sour, impure blood.

The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can easily be mixed at home.

If you have a suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

LEGISLATIVE ASSEMBLY IS AT WORK.

FROM THE ANTILLES.

Chamberlain's Cough Remedy Benefits a City Councilman at Kingston, Jamaica.

Mr. W. O'Reilly Fogarty, who is a member of the City Council at Kingston, Jamaica, West Indies, writes as follows: "One bottle of Chamberlain's Cough Remedy had good effect on a cough that was giving me trouble, and I think I should have been more quickly relieved if I had continued the remedy. That it was beneficial and quick in relieving me there is no doubt and it is my intention to obtain another bottle." For sale by all druggists.

COLUMBIAN COLLEGE.

Founded 1892—Incorporated 1893.
NEW WESTMINSTER, B.C.

Provides a Christian home for students of both sexes at moderate rates. Has a preparatory class for junior students, doing grade public school work. Does high school work, confers all high school privileges, and prepares for teachers' examinations. Teaches all branches of a Practical Business Course and gives Diplomas. Gives a liberal education in its Collegiate Course and in the Ladies' Course for M.E.L. and M.L.A. In University work, can take students through the complete Arts Course, and the degree of B.A. can be obtained from Toronto University, which the college is in lut affiliation.

For fuller information and terms write Rev. W. J. Sipperell, B.A., B.D., Principal; or Rev. J. P. Bowell, Bursar.

More than one best?

When you ask your grocer to send you the best flour, he sends you—*his* best. When you know the best flour and order by the name, the choice is not left to the grocer. Many grocers handle

Royal Household Flour

as their leader. They have found it the safest flour to recommend because its results are sure and its purity is unquestioned. If your grocer's best is not Royal Household, insist on his getting it for you. The benefit will be mutual.

B. C. MINING

Trail smelter last week received 5,693 tons of ore, from 21 different mines.

Machinery for the Golden Zone mine stamp mill is being hauled to the property from Peneticton.

The Elwood Tin Workers' Gold Mining company, owning the Silver Dollar at Camborne, has gone into liquidation.

Both the Vancouver and Hewitt mines of Silverton are shipping largely, eight carloads of ore being sent out during the last week.

In December the Nicola Valley Coal & Coke Co. shipped 3,593 tons of coal, most of which had been taken out in development. There are 130 on the company's payroll.

The enlargements in the lead plant at have now reached a point which will make it unnecessary for the Consolidated Company to make any further shipments of St. Eugene lead concentrates to Europe.

At the Consolidated Co's St. Eugene mine at Moyie, 325 men quit work last week, declining to accept the new and slightly lower scale of wages recommended by the arbitration board. This week they decided to resume work.

For the year ending June 30, 1907, the Le Roi Mining Co., shows a profit of £3,582 4s 5d, under the adverse conditions under which it operated. The mine shipped in that time 131,696 tons of ore, of a value of $10.49 per ton. Total costs were $10.02 per on.

The Elmore Oil Process Company is erecting a small mill for the reduction of ore near Golden. Ore will be milled on entirely new principles. Some five years ago an attempt was made to introduce oil concentrates into Rossland, but owing to the greatly reduced costs of smelting since that date and because of weakness in the original oil reduction machinery, the attempts inaugurated upon the Le Ro, No. 2 and the White Bear were abortive.

A Woman's Back

Has many aches and pains caused by weaknesses and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nervine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well-proven remedy OF KNOWN COMPOSITION, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

BOUNDARY & KOOTENAY 1908 ORE RECORD

Shipments and Smelter Receipts For Year to Date.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

Monte Grand & California Fraction mineral claim, situate in Greenwood Mining Division of Yale District.

Where located—Greenwood Camp.

TAKE NOTICE that I, Forbes M. Kerby as Agent for John Mulligan, Free Miner's Certificate, No. B2021, intend, sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further Take Notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 27th day of June, A D., 1907.

17— FORBES M. KERBY, Agent.

LAND ACT.

FORM No. 9.

FORM OF NOTICE.

Similkameen Land District, District of Yale.

TAKE NOTICE that I, Charles Dundee, of Rossland, occupation, mining, intends to apply for permission to purchase the following described land:

Commencing at a post planted about 50 yards east from the Columbia and Western Railway, and about ¼ mile south from Fife Station, on said railway, thence north 20 chains; thence west 20 chains; thence south 20 chains; thence east 20 chains to point of commencement, and containing 40 acres, more or less.

CHARLES DUNDEE,
Name of Applicant

Date, 23rd November, 1907.

LAND ACT.

Similkameen Land District, District of Yale.

TAKE NOTICE that SAMUEL DUNDEE, Belfast, Ireland, occupation, Merchant, intends to apply for a special timber license over the following described lands:

No. 2.—Commencing at a post planted about 20 chains east from the north-west corner post of No. 1 location, and on its north side line, marked SAMUEL DUNDEE'S south-west corner post; thence east 80 chains; thence north 80 chains; thence west 80 chains; thence south 80 chains to the point of commencement, and containing 640 acres, more or less.

SAMUEL DUNDEE,
C. Dundee Agent.

Dated, 6th November, 1907.

B.C. IN YEAR 1907 HAD $21,000,000

Metalliferous Product Exceeds 1906.

Boundary Improves In Spite of Many Drawbacks.

Despite the bad season, 1907, upon the whole, was in advance of 1906, and according to estimates prepared from special reports sent in from all over the province, the metalliferous output for the year was slightly over $21,000,000, as increase of $1,300,000 over the previous year.

Placer gold, principally obtained from Atlin and Cariboo, has shown a falling off of $200,000 from the figures of 1906, which in turn were the least on record for many years. The cause of this has been the preparations made for hydraulicking on a large scale by powerful companies, including the Guggenheims.

Lode gold, principally coming from the mines in Rossland and the quartz mills of the Ymir and Lardeau districts, shows an increase of over a quarter million dollars.

There was a falling off in both silver and lead products. Most of the galena camps depend for their profits upon their silver and zinc contents. Owing to a lack of smelting facilities for zinc in the Kootenay little zinc was mined. Altogether only 2200 tons of zinc were shipped at heavy cost to Europe and to the United States.

Copper shows an increase of $1,250,000. There was a slightly lower production of copper ore in the Boundary which was more than offset by increased production in Rossland and at the coast.

On the non-metalliferous side the production of coal jumped from $3,300,000 to $6,490,000. These figures include the product of the whole province.

Coke shows a slight falling off, due to the troubled conditions of the labor supply in the summer months. Building material is valued at $1,200,000, $200,000 more than the year before.

AVERAGE PRICES OF COPPER.

Proprietor

THE COPPER HANDBOOK

(New Edition Issued November 15, 1906.)

Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor. It lists and describes 4626 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property. The COPPER HANDBOOK is conceded to be the

World's Standard Reference Book on Copper.

The mining man needs the book for the facts it gives him about mines, mining and metal. The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is $5 in buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

FRIENDS ADVISED USE OF PE-RU-NA.

Suffered Much—Catarrh Affected Throat and Nose—Pe-ru-na Proves Highly Satisfactory.

Mr. Raoul Pilon, 116 Rue Notre Dame Lachine, P. Q., writes:

"I write you a few words to express to you my satisfaction at being cured.

"I was afflicted with catarrh of the throat and nose and suffered much.

"I was greatly discouraged.

"I had a bad breath and a bad taste in my mouth in the morning.

"I took treatment for some time without obtaining relief.

"At the advice of friends I tried Peruna and the results have been highly satisfactory.

"At the end of four months I was completely cured."

Neglected catarrh becomes chronic. Having developed into the chronic stage, a longer and more persistent treatment will be required to cure it than if the disease were treated at the onset.

However, Peruna will bring relief, whether the catarrh is acute or chronic. If you are wise you will keep Peruna on hand and take a few doses at the first appearance of a cold or cough, and thus save yourself both suffering and expense.

The solemnity of the meeting was somewhat disturbed when the eloquent young theologian pictured in glowing words the selfishness of men who spend their evenings at the club, leaving their wives in loneliness at home in this happy season. "Think, my hearers," said he, "of a poor, neglected wife, all alone in the great, dreary house, rocking the cradle of her sleeping babe with one foot and wiping her tears away with the other!"

INSPIRING ADDRESS OF EARL GREY TO WORKINGMEN OF CANADA

AN ACT THAT WILL TOUCH AND REJOICE THE HEARTS OF KING EDWARD AND QUEEN ALEXANDRA

On his way out to the official opening of the Toronto Free Hospital for Consumptives and King Edward Sanatorium on August 28th, 1907, the Governor-General's car was stopped in its progress outside the Canada Cycle & Motor Co. by the employees of those works. The sum of one hundred dollars was handed the Governor-General, a donation to the Toronto Free Hospital for Consumptives. His Excellency in acknowledging the ovation spoke as follows:—

"Men of the Canada Cycle & Motor Company, I thank you heartily for your welcome.

"I recognize that the three rousing British cheers with which you have greeted me, and which were so pleasant to listen to, have been given because I have the honor to be the representative of your King.

"I can assure you, men of the Canada Cycle & Motor Company, that it will give me great pleasure to tell His Majesty, the King, how you have stopped me on my road to open the King Edward Sanatorium and Toronto Free Hospital for Consumptives, in order that you might give expression to your loyalty, and in order that you might present me with your contributions in support of the Hospital.

"I know that your action in subscribing out of your hardly won earnings, so large a sum as one hundred dollars, will touch and rejoice the hearts of Their Majesties, for there is nothing that lies nearer the hearts of King Edward and Queen Alexandra than the health and well-being of His Majesty's Canadian subjects, and there is no form of work in which Their Majesties are more interested than Hospital work.

"Therefore I say every man among you who has saved a quarter from out of his earnings, in order to help those who are endeavouring, by means of Hospital, Sanatoria, etc., to conquer consumption, and to banish it from the land, is following the example of our King, and is making a truly Royal gift.

"In the name of the King I thank you for your public-spirited generosity, I hope that your example will make its influence felt throughout the length and breadth of Canada."

Referring to this event at the opening exercises of the Sanatorium, His Excellency said:—

"Ladies and gentlemen, when the workingmen of Canada are setting an example of this character, I hope that you will not be slow to follow, and I trust that the example of the Canada Cycle & Motor Co. may be followed, as I am sure it will, in every factory and manufacturing industry throughout the land."

Sir Mortimer Clark, Lieutenant-Governor, in his speech on the same occasion, said:—

"You see what others have done. I trust, ladies and gentlemen, that what they have accomplished will be an incentive to you to follow their example."

This appeal is on behalf of the Muskoka Free Hospital for Consumptives, an institution that accepts patients from all parts of Canada and that has never refused a patient because of his or her inability to pay.

Contributions may be sent to Sir Wm. R. Meredith, Kt., Chief Justice, Osgoode Hall, Toronto, W. J. Gage, Esq., 84 Spadina Ave., or J. S. Robertson, Secretary-Treasurer National Sanitarium Association, 347 King Street, West, Toronto, Canada.

William A. Carlyle the first provincial mineralogist and who organized the provincial bureau of mines, having been with the Rio Trinto Copper Mines of Spain for several years, has been appointed consulting engineer of the Le Roi Mining company, at Rossland.

It has recently been discovered that whiskey can be made out of elm sawdust, which leads an eastern editor to reflect on the rum outlook for temperance when "a fellow can go out with a bucksaw and get jagged on an old fence rail."

WESTERN ENGINEERS ORGANIZE.

A. B. W. Hodges is First President; E. Jacobs is Secretary.

Last Tuesday a western branch of the Canadian Mining Institute was organized at Nelson, with the following officers: President, A. B. W. Hodges, Grand Forks; secretary, E. Jacobs, Victoria; executive council, P.S. Couldrey, R. H. Stewart, L. Hill, O. E. S. Whiteside, W. M. Brewer, J. C. Haas, E. C. Musgrave, J. McEvoy and S. G. Blaylock.

Frederic Keffer, president of the parent body was present, and assisted in the proceedings. Those present were: J. C. Haas, A. B. W. Hodges, S. S. Fowler, F. Keffer, E. Jacobs, J. J. Campbell, L. Hill, A. C. Garde, E. C. Browne Cave, W. A. Davidson, A. L. McKillop, G. E. Revell, A. H. Gracey, T. Kiddie, C. P. Hill, W. Miller, C. Rundberg, C. Varcoe, C. T. Mitchell, W. B. Bishop, S. G. Blaylock, J. Buchanan, E. W. Widdowson, B. A. Isaac, L. Pratt, A. D. Wheeler, E. F. Miltenberger, J. A. Whittier and F. Fletcher.

It is expected that there will be about 200 members of the new organization, resident in Alberta, British Columbia, and Washington, and that meetings will be held three times yearly.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B. C.

Before buying your furniture elsewhere, call on R. J. Gardner.

Prescriptions carefully prepared at Thrasher's Drug Store—'Phone 16.

Sewing Machines from $10 up, see Miss McDonald.

Old newspapers for sale at this office at 25 cents per 100.

If you owe your subscription to this paper, please pay up.

Late popular music at 25 cents per copy; McKinley edition, 10 cents. One week only at H. James.

Thomas J. Hardy, of Midway, was renewing old acquaintances here on election day.

A little son arrived at the home of Joseph J. Strutzel, accountant for the Granby mines, on January 14th, and received a warm welcome.

The Ladies' Aid of the Presbyterian church announce an Old Fashioned New England Supper, to be given on Friday evening, February 14—St. Valentine's day.

The dance given in aid of S. John's mission of the Church of England, last Saturday evening at Miners' Union hall, was said by those who attended to be one of the most pleasant of the winter.

At the last regular communication of King Edward Lodge No. 36, A. F. & A. M., a pastmaster's jewel and apron was presented to J. Strutzel, who occupied the master's position during the last year.

The annual hospital meeting was adjourned till next week.

N. Binns has just received a fine lot of fancy rockers, if you want one come quick, as they are going fast.

For sale, two dozen chickens, apply to Mrs. Glasgow, Golden Eagle addition

It will pay you to see N. Binns if you are wanting Furniture, as he has now a full stock in most lines.

Phoenix Bakery is selling 18 loaves of bread for $1. What's the use of baking when bread is that cheap?

Boundary Side Lights

The skating rink at Grand Forks has been opened.

Anaconda's new school teacher is A. L. Reading, formerly of Arrowhead.

Born, January 6th, at Grand Forks, to the wife of J. L. Meikle, a daughter.

Greenwood Lodge No. 28, Knights of Pythias, installed officers Wednesday evening.

Grand Forks now has a bonded indebtedness of $206,000, with $26,000 in a sinking fund, as per the auditor's statement.

Married, at Greenwood, January 7th, by Rev. M. D. McKee, John Tracy, of Genesee, Idaho, and Mrs. Lucy Coombs, of Midway.

According to the report of Dr. Kingston, health officer, Grand Forks had 51 cases of typhoid fever last year, 14 of pneumonia, 11 of diphtheria, 16 of measles and 3 of tubercolosis.

W. J. Dunlop succeeds L. B. Hodge as manager of the B. C. Telephone Co. at Greenwood, the latter going to North Vancouver after six years residence in the Boundary.

Mrs. King Rees, of Greenwood who recently went to Los Angeles to find better health, is now at Yuma, Arizona, not having improved as hoped. The family formerly lived in Phoenix.

G. M. Fripp was chosen mayor of Grand Forks this week by acclamation. In the aldermanic contest J. McArdle, Geo. Rutherford, Fred. Clark, Peter McCallum, E. H. Woodlund and Frank Miller were the successful candidates at the polls.

In Greenwood's city election, for mayor Herbert Bunting received 97 votes and Robert Wood 62. The vote for aldermen was: North ward, Wilson, 52; Meyer, 41; Mortimer, 36; McIntosh, 34; Wellwood, 29—South ward, Fleming, 56; Gully, 48; Sutherland, 43; Nelson, 35; Derosiers, 33; Cropley, 31.

COMING AND GOING

Harry James made a business trip to Nelson this week, returning on Wednesday.

A. B. Hood, manager of the Eastern Townships Bank at Grand Forks, was here last Monday.

Supt. Chas. Rundberg, of the Dominion Copper Cor, accompanied by Mrs. Rundberg, went over to Nelson on Tuesday.

W. H. Callicotte expects to leave today to spend to or three months at Gold Center, Nevada, where his father is located.

Dan Buchanan, who is ranching up the North Fork, walked 40 miles to Midway, to be able to reach Phoenix and vote last Thursday.

Rev. W. C. Schlicther, of Grand Forks, and T. Coulter, of Edmonton, were visiting with Rev. C. Wellesley Whittaker early this week.

Everett Boyd, editor of the Grand Forks Gazette, was in camp last Sunday—his first visit to Phoenix since leaving the eastern cent belt.

J. W. Grier, editor of the Ledge, was up from Greenwood last Saturday evening, as was also A. M. Davidson, of the Boundary Creek Times.

Miss Ethel Murray, formerly on the Phoenix hospital staff, has secured the position of matron of the Eugene hospital at Eugene, Oregon, which is to open February 1st.

E. H. Mortimer and Issac Crawford came up the hill from Greenwood Thursday, and Jeff Davis was here from Grand Forks, to take part in the municipal election.

W. C. Thomas, manager of the Dominion Copper Co., accompanied by Mrs. Thomas, returned to Boundary Falls on Thursday, having left early in December to spend the holidays at Salt Lake City.

John McInnes, M. L. A., after visiting the North Fork last week, and hearing some road grievances, and then going to Rossland, proceeded to Victoria to take up his duties at the legislative session.

Chamberlain's Cough Remedy a Safe Medicine for Children.

In buying a cough medicine for children, never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it, and relief is always sure to follow. It is intended especially for coughs, colds, croup and whooping cough, and there is no better medicine in the world for these diseases. It is not only a certain cure for croup, but when given as soon as the croupy cough appears, will prevent the attack. Whooping cough is not dangerous when this remedy is given as directed. It contains no opium or harmful drugs, and may be given as confidently to a baby as to an adult. For sale by all druggists.

Cut this out and take it to any drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. These tablets are far superior to pills, being easier to take and more pleasant in effect. They correct disorders of the stomach, liver and bowels.

Curlers Will Go To Bonspiel.

Arrangements have been made for a team from the Phoenix curlers to attend the annual bonspiel of the Kootenay Curling Association, and Messrs. Morrin, Strachan, George and Gardner will leave next Monday for Nelson, where the bonspiel takes most of next week from early morn till frosty eve, daily.

Arrangements are now being made also for a series of competitions between Greenwood and Phoenix for the silver cup offered by P. Burns.

Results in the local contest for the Pither & Leiser silver cup, for the last week, up to Thursday evening, were as follows:

Reeves	won from	McNicol	14-5.
Morrin	" "	Roderick	15-6.
Marshall	" "	George	14-9.
Strachan	" "	Gardner	14-11.
Morrin	" "	Brown	11-4.
George	" "	Strutzel	14-11.
Strachan	" "	Sherbino	12-7.
McNicol	" "	Morrin	17-3.
Roderick	" "	Reeves	10-9.
Strachan	" "	Smith	12-8.

George Taylor of Grand Forks has a contract from the Yale-Columbia Lumber company to cut two million feet of logs on the North Fork. He will employ forty men.

Both the C. P. R. and Great Northern are getting their organizations in good shape for the handling of the Granby ore and coke traffic, now assuming old time proportions.

Why Suffer from Rheumatism.

Do you know that rheumatic pains can be relieved? If you doubt this just try one application of Chamberlain's Pain Balm. It will make rest and sleep possible, and that certainly means a great deal to any one afflicted with rheumatism. For sale by all druggists.
