THE PHOENIX PIONEER is published in the highest municipality in Canada—altitude, 4,800 ft. The city has a population of 1,800, and possesses first-class hotels, opera house, schools.

FIFTEENTH YEAR

PHOENIX, B. C., SATURDAY, JAN. 31, 1914

NUMBER 29

PREMIER TALKS ON FINANCES

Province Has Two Million Dollars in the Bank to the Good at Present Time.

The Province of British Columbia has over \$2,000,000 in the bank today, which is between \$400,000 and \$500,000 above the amount involved in the recent treasury note issue, declared Premier McBride in the course of his speech in the House last week on the reply to the address from the throne.

In a long discussion of provincial affairs, during which he dealt with the conduct of the administration, giving his remarks a constructive tone of optimism rather than the pessimistic note which characterized the speech of Parker Williams, of Newcastle, on the day previous, the Premier produced figures to show the present financial condition of the province. They indicated, he claimed, that the situation, speaking from a fiscal point of view, far from being as dark as had been claimed by the "blue ruin preachers" who had gone up and down the province with a story of trouble and poverty, was of a roseate hue.

"Ten and a half years ago, when this government came into power," said the Premier, "the debt of the province was about \$11,500,000, and its income annually in the neighborhood of \$2,000,000. At the present time the provincial debt, including the flotation of treasury notes a short time ago to the amount of \$1,500,000, is not over \$9,000,000 and our income is over \$10,000,000."

"I may announce, that it is the aim of this administration to arrange that within the next few weeks there will be practically no direct taxation; and nearly all provincial revenues will come from natural resources of the province. A policy of that kind in force will mean a sound and economic condition of affairs."

News Notes From Granby Bay

(Special to Phoenix Pioneer)

Granby Bay, Jan. 29.—The past week has been an especially busy one in the history of Granby Bay. The filling in of the cribbing of the Dam has been proceeding steadily, and it is hoped that in the course of a very few days the water will be completely shut off. The latter will then have to rise some twenty feet before reaching the in-take pipe, connecting with the new power house.

The steel gang working on the Smelter building finished up this week, and most of the men went down on the "Prince Rupert" on Thursday.

V. H. Todd, of the company's engineering staff, left on the 18th on a prospecting trip in the direction of Hastings Arm, with a view to ascertaining the possibilities for developing additional water power in this vicinity.

C. E. Allen, converter liner, who arrived here about two weeks ago from Great Falls, Mont., had the misfortune to sustain a fractured arm, and has been confined to the hospital. However, his injury has so far improved that he is able to direct the lining of the converters at the smelter, so that no delay will occur in this branch of construction.

O. B. Smith, the company's superintendent of mines, came in from Vancouver on the "Prince Rupert" on the 22nd. Mr. and Mrs. Ed Davis and Earl Smith arrived on the same boat.

A. R. Hodgson, assistant to W. J. Hamilton in the assay office, has arrived from Denver, Colo., and is a guest at the Granby Bay hotel.

Cold weather has been experienced here during the past week, the thermometer, in exposed places, registering five and six degrees below zero.

Scotchmen and others celebrated Burns' night here, with a concert in the Recreation hall, and a large number partook of baggins.

PHOENIX TEAM WINS THREE LEAGUE GAMES

Wins Three From Greenwood, and Loses one to Grand Forks—Wednesday's Game Sensational—Home Team Out of Condition.

As the league now stands Phoenix has won three out of four games played. January 12, Phoenix defeated Greenwood at Phoenix. January 24, Phoenix defeated Greenwood at Greenwood. January 26, Phoenix defeated Greenwood at Phoenix. January 28, Phoenix lost to Grand Forks at Grand Forks. Besides these Phoenix has played three exhibition games—Defeated Nelson at Phoenix Christmas day. Lost to Nelson at Nelson New Year's Day. Defeated Grand Forks at Phoenix January 19th. All three Phoenix victories in the league games were won over Greenwood, and the single loss was to Grand Forks. In all the Phoenix boys have played seven games, and have won five of them.

Grand Forks has won one league game from Greenwood and one from Phoenix. Greenwood so far has won no league games.

The following three games have been played since the last issue of the Pioneer.

Phoenix-Greenwood—at Greenwood

Greenwood was beaten on her own ice last Saturday night by the Phoenix champions. After a hard fought game the team from the top of the hill was victorious with a score of 5 to 1 to its credit. About 100 people went down to the smoky city by special train, the run being made in 57 minutes. P. Harkness was engineer on the special and made a record breaking run. Also quite a number went by sleigh and some walked.

The goals scored for Phoenix were; O'Connell, 2; Benson, 2, and Morris 1. The one goal for Greenwood was scored by Benson of the Phoenix team on a fluke. The game throughout was unusually fast, and there was no rough playing to speak of. In the first period O'Connell, Benson and Morris each scored one goal for Phoenix. In the second period while the playing was hard neither team scored. In the third period Benson and O'Connell scored one each for Phoenix, in this period the fluke was made giving Greenwood a goal.

Penalties—O'Connell, Benson, Morris and Neil. Sayers and Howey played spare for Phoenix.

Phoenix-Greenwood—at Phoenix

For the third time this season the Phoenix hockey team defeated Greenwood. In the league game Monday night the score was 5 to 4 in favor of the home team. It must be said in favor of the visitors that they played a good fast game and that they gave the Phoenix boys about the hardest run they have had yet. The ice was in the best of condition and the band played for the first time at a match this season. A good number of boosters came up from Greenwood on a special train, but even with them the attendance was not as large as usual. Greenwood won first honors when in the first period Lynn scored within three minutes after the puck was tossed on the ice by the referee. Shortly afterwards O'Connell scored for Phoenix and at the end of the period the game stood 1—1.

In the second period Trehern scored for Greenwood and Bassett for the home team, making the score at the end of this period 2—2.

Both teams speeded up in the last period and played for all that was in them. The score was now a tie and each team put up a desperate struggle to win. However, it seemed destined as usual for Phoenix to be the victors, and Bassett, O'Connell and Morris each scored in short order. In this period Lynn scored twice for Greenwood, but when the gong sounded Phoenix had one goal to the good.

Lobsinger, of Grand Forks was referee, and Quance, of Phoenix, was judge of play. The timekeepers were Black and Deichert, of Phoenix and Burnell and Donnelly of Greenwood.

Penalties—Morris, Neil, Smith, Bassett and McIntosh.

Phoenix-Grand Forks—at Grand Forks

The Phoenix team met with its first reverse in the league game at Grand Forks Wednesday night, when Grand Forks won by a score of 5 to 3. The attendance was the largest at any game this season. About 150 people went down from Phoenix on the special, and splendid time was made both going and coming.

The game was full of excitement and at times exceedingly rough. The first goal was scored by Benson of Phoenix within thirty-five seconds after the game started, but was not allowed because the goal umpire was asleep at his post and did not notice it. A protest was entered, but was not allowed. However, the goal umpire was removed and another man appointed. At the end of the first period the game stood 3-0 in favor of Grand Forks. At the end of the second period it stood 4-0 in favor of Grand Forks. Then the tide turned in the third period. For the first 15 minutes the play was all round Grand Forks goal, with Phoenix playing six men on the forward line. Phoenix scored three goals in this period, and Grand Forks scored one.

The Phoenix boys were not in good condition. They had just been in three hard games, and were pretty well used up. O'Connell was out of the game altogether. Davidson had a sore arm, McIntosh had his hip hurt, and Morris was hit over the head and was suffering from the injury. Then again the ice was sticky and black around the edges, which put the visitors at a disadvantage, not being accustomed to it. McIntosh and Rochon mixed in the second period, and in the third Lobsinger took a wallop at the judge of play. It is the opinion of the Phoenix fans that the referee and judge of play were too lenient in their work.

Sayers played left wing, O'Connell's position, throughout the game, and Howey played spare.

For Grand Forks McWha replaced McGregor for a short time.

Niles of Grand Forks was referee, and Donnelly of Greenwood judge of play.

A big game is expected here next Monday, when Phoenix and Grand Forks will again meet, this time on Phoenix ice.

District No. 6 Officers

At Nelson last week at the meeting of the delegates to the convention of District No. 6, W. F. of M., the following officers were elected:

President—Frank Phillips, of Nelson, elected by acclamation.

First Vice-President—H. A. Stewart, of Rossland.

Second Vice-President—Harry Elmsore, of Phoenix, elected by acclamation.

Secretary-Treasurer—A. Shilland, of Sandon, elected by acclamation.

Delegates to the British Columbia Federation of Labor—Marcus Martin, of Moyie; Glen Marshall, of Rossland.

Fraternal Delegate to District No. 18 United Mineworkers of America—Percy W. Johnston.

Nelson, Rossland, Greenwood and Grand Forks were nominated for places for the next convention. Nelson was chosen.

Undoubtedly World's Champion

Norval Baptie is undoubtedly the undisputed world's champion skater. Morris Wood, of Long Branch, New Jersey, and Ed. Lamey, of Saranac Lake, New York, former amateur champions, are now in the professional class, but Baptie has been unable to get a match with either of them. In 1907 Baptie competed with all the fast skaters at that time including the European champions, and won in all contests.

Baptie gave a splendid exhibition while in Phoenix. His fancy skating and jumping and speed racing were wonderfully clever.

Liberal Speakers Coming

H. C. Brewster, leader of the Liberal party in British Columbia, and John Oliver, former leader, will be in Phoenix next Wednesday evening February 4th, and will address a public meeting in the Miners' Union Opera house. The meeting is announced to start at 8 o'clock. The local Liberal Association has extended a cordial invitation to everyone to attend.

GOOD TURNOUT AT SKI TOURNAMENT

Paul Nysater Wins Five-Mile Race in 34 mins. 21 seconds—Engen Wins Ski Jump.

Although the weather last Sunday was blustery there was quite a good turnout to witness the ski races and jumping events, which proved interesting. The five mile race for the trophy was won by Paul Nysater in 34 minutes and 21 seconds. Gust Carlson came in second in 35 minutes and 24 seconds. The other competitors in the race were; E. Engen, P. Rostad, H. Christensen, A. Stenwald, Alf. Christensen and Magnus Olson. All made very good time considering the condition of the snow and weather.

In the jumping contests in Class A, Engwald Engen won first prize, a cup and gold medal, by jumping 90 feet; Paul Nysater won second prize, a silver medal, by jumping 85 feet; Hans Hansen came third, jumping 83 feet, and also winning a silver medal.

In Class B, Helmer Bakke came first, winning the shield and gold medal. Alfred Christensen came second with 55 feet, winning the silver medal, and Pete Rostad came third with 50 feet, also winning a silver medal.

Twenty-three mines, of which nine were in the Slocan and Ainsworth districts, three in Rossland, four in the Nelson division and two in East Kootenay, last week shipped 7,363 tons of ore to the smelter of the Consolidated Mining & Smelting company at Trail.

SATURDAY, JAN. 31, 1914.

It is said that hard times are unknown on Prince Edward Island. The reason for this is that on the island about 84 per cent of the population was on the land. In British Columbia it is estimated that only 34 per cent of the people were on farms.

Everybody knows that Scotland is the land of cakes and oatmeal. This fact calls up the canny Scot's answer to surlly English Johnson's definition of oatmeal: "In England food for horses; in Scotland food for men." Swift came the Scotch retort: "In England they raise the best horses, but in Scotland the best men."

Phoenix is to be congratulated on its excellent financial condition, as will be seen by the statement published on page three of this issue of the Pioneer. According to the report of the auditor, the showing for the past year has been the best in the city's history. The starting of a sinking fund is also an excellent idea. The affairs of the city of Phoenix are in better shape than most any other city in the province.

The Phoenix Pioneer as an advertising medium is difficult to beat. Last week in the local columns a house was offered for sale by one man; another party had a range, a stove and a Davenport to dispose of, and a lady lost a gold watch and wished to recover it. The Pioneer found a buyer for the house, another buyer for the household effects, and the finding of the lady's watch was reported at the office within two hours after the paper appeared on the streets.

On the high cost of living here is some good advice from P. Burns, the meat king, as given in the Victoria Times: "The way to reduce the cost of living is to go on the land and grow things. I'll buy his produce from him. I should not have to go to New Zealand and Australia and Japan for produce when I'm operating my business in this fine big, rich western country. Tell the people for me that if they want to make things cheaper that they should sell their automobiles and quit swapping real estate and living off each other."

The man coming into a small town does not inquire if the street cars are running; when he goes to a hotel he does not expect to find an elevator in it, or a public stenographer or a manicurist, nor does he expect to find public squares with statues of Queen Victoria, Sir John Macdonald or General Wolfe. No; he knows better than to expect them in a small place. But the same man will call at the newspaper office in this same small town and without batting an eye will ask,

"Do you print a daily here?" Every country newspaper man has this question put to him about "steen" times a year.

Scotch songs and Scotch music, like the whiskey made in that country, seem to improve with age. "Annie Laurie," "Crookit Bawbee," and some of the other melodies are as popular today as they probably were a hundred years ago. Different with many of the compositions on this continent of recent years. Who would now have the temerity to sing "After the Ball," or "Two Little Girls in Blue" at a public gathering? and yet only fifteen years ago these two songs were being sung from ocean to ocean. And "The Trail of the Lonesome Pine" and some of the later productions will be "dead ones" in another six months.

Those who witnessed the ski racing and jumping contests in Phoenix last Sunday could not fail to be impressed with the fact that the Swedes and Norwegians have a healthy and invigorating line of sport. While the Americans go strong on baseball and the Canadians strong on hockey and football, our friends from the Scandinavian peninsula, have chosen a sport that is equally as strenuous and in every way demanding fully as much skill. It requires long and hard practice to become an adept on skis, and the ski jumper as he flies through the air takes chances almost equally as great as the aviator or the parachute jumper. A wrong calculation of distance or any mishap while in midair most likely ends in serious injury or even death.

Lead Bounty Light Last Year

Lead bounty payments for the past year have been very light, according to G. O. Buchanan, commissioner of lead bounties, says the Kaslo Kootenaiian.

From May until December, according to Mr. Buchanan, not a cent of the bounty was earned, but when the price dropped below the bounty payment figure in the last month of the year, he prepared to do a good deal of work, but lead did not stay down long.

The Old Man

Be kind to your daddy, O gambling youth; his feet are now sluggish and cold; intent on your pleasures, you don't see the truth, which is that your dad's growing old. Ah, once he could whip forty bushels of snakes but now he is spavined and lame; his joints are all rusty and tortured with aches, and weary and worn is his frame. He toiled and he slaved like a government mule to see that his kids had a chance; he fed them and clothed them, and sent them to school, rejoiced when he marked their advance. He dressed in old duds that his Mary and Jake might bloom like the roses in June, and off when you swallowed your porterhouse steak, your daddy was chewing a prune. And now that he's worn by his burden of care, just show you are worth all he did; look out for his comfort, and hand him his chair, and hang up his slicker and lid.

Hot Air

In the rattle of life's battle
We resort to forces queer,
But the force of all the forces
Is caloric atmosphere;
For it's air that fans our faces,
And it's wind that stirs the crowd,
As we struggle for the "peeso"
From the bibbin to the shroud.
One may emulate a bishop,
Have his piety as well,
Have his head so full of wisdom,
As to almost burst the shell;
Have the knowledge of a master
And a double jointed pull,
But you cannot cut the mustard
If you cannot throw the bull.
—Tigintu.

His Didn't Stick

"Robert," asked the teacher, "did you throw any of those paper wads sticking on the blackboard?"
"No," replied Robert, "Mine didn't stick."

C. P. R.'s History

Under the title "Censuring the C.P.R." the Western British American of Chicago of January 10, has the following:

Successful countries like successful men are sometimes apt to slight or forget the good people who help them on the way to triumph at critical times in their career. We get an illustration of this in the case of Canada and the Canadian Pacific Railway. The latter has been passing through one of its periodical experiences of criticism by disgruntled interests at home and abroad.

The Canadians should be the last on earth to begrudge this company its great property. There were years when it made little or nothing, years when it faced losses instead of gains and dividends. And in those years it achieved the pioneer work for the new land of promise that insured for the latter most of the vast development that has come since.

Back in 1881 when Lord Mountstephen and Lord Strathcona took the initiative in the scheme to supply Canada with a railroad westward to the coast, the territory that flourishes today with fertile farms and stock ranches was an ocean of barren prairie.

Canada gave the Canadian Pacific

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

some \$62,000,000 in cash and construction, and 250,000 acres of land. The C.P.R. gave Canada the greatest transportation line in existence, making possible the peopling of the scattered sections of illimitable extent between Winnipeg and Vancouver.

No master workman in the history of America's building projects and accomplishment ever displayed rarer qualities than the builders of the C.P.R. No road today is more ably conservatively and progressively managed. Reflecting on these facts one would expect that Canada's newspapers would be the last to disparage the Canadian Pacific, and the first to defend it from the forger's bad feeling and abuse.

There are some fine dairy herds up in the Bulkley valley and around Francois lake. The Holsteins seem to be the breed best adapted to the country.

A Human Churn

WHEN the food reaches the stomach it is subjected to a peculiar churning movement by the muscular walls of the stomach. (See Dr. Pierce's Medical Adviser, page 45). In the liver, kidneys and skin, the blood is purified of its waste materials—these organs act as human filters, leaving the blood pure and clear—unless liver, digestive tract and kidneys are clogged.

Dr. Pierce's Golden Medical Discovery

is a stomach, liver and kidney tonic—by assisting the stomach to assimilate, the liver to filter, the kidneys to act—the poisons are removed, the red blood corpuscles are increased and one feels light, fresh and active instead of lory, dull and heavy. The "Discovery" stimulates the stomach, increases action of heart and arteries and is a most satisfactory alternative in blood-taint of any character. The refreshing influence of this extract of native medicinal plants has been favorably known for over forty years. Everywhere some neighbor can tell you of the good it has done.

Sold by all medicine dealers in liquid or tablet form; or send 50 one-cent stamps to Dr. Pierce, Buffalo, N.Y., and a trial box will be mailed you.

CORPORATION OF THE CITY OF PHOENIX

BALANCE SHEET
For the Year ending December 31st, 1913

Phoenix, B.C., Jan. 17th, 1914.

To the Mayor and Aldermen,
Corporation of the City of Phoenix.

GENTLEMEN:

I beg to report that I have audited the books and examined the vouchers of the city for the year 1913, and found same correct and well kept.

As I understand you passed the estimates of the School Board for the year I have credited their account with the annual deficit.

I must congratulate the city on the good showing for the past year, which is about the best in your history, also on your starting a sinking fund which I think is a good policy, and ought to be kept up.

Yours respectfully,

ISAAC CRAWFORD, Auditor.

Local and General

Mrs. Ralph Kendall came home from Spokane last Saturday.

Mrs. E. Nelson left yesterday morning for Ironwood, Michigan.

Mrs. Bernie Morris arrived here Monday from Moose Jaw to join her husband.

Frank McDonald, boss carpenter at the Granby, went down to Grand Forks Wednesday.

The Oliver Typewriter has won international fame as the perfect writing machine for every line of business.

Anyone wishing a snap on a nice rooming house, barn, etc., should lose no time in seeing M. H. Kane for particulars.

G. J. Thompson was over from Bonnington Falls the first of the week on a visit with his brother, J. E. Thompson.

Geo. Staples, traveling district freight agent for the C. P. R., with headquarters at Nelson, has been transferred to Vancouver and F. W. Stirling has taken his place.

The family of Geo. Elkins left Wednesday for Lebanon, Oregon. Mrs. Elkins has been in poor health for some time, and it is to be hoped the change will be beneficial to her.

The Merry Minstrel Maids drew a pretty fair house Tuesday night. The girls, led by Miss Grace Russell, put lots of swing into their performance. Considerable interest was taken in the dancing of the tango.

Miss McEwen, teacher in the public school here, has been suffering of late from a severe attack of rheumatism. She is at present stopping with friends in Grand Forks. Mrs. John Mulligan is teaching her classes.

The Phoenix band, under the leadership of John Finlay, played at the rink last Friday night during the exhibition given by Norval Baptie, and at the Phoenix-Greenwood match Wednesday evening. The boys played well, and their music was fully appreciated.

W. Wetherell, accompanied by his wife and daughter, came up from Grand Forks Wednesday night on the hockey special and returned on Thursday. Mr. Wetherell at one time ran the moving picture show here, but for some time has been connected with the Empress theatre at Grand Forks.

In the advertising section of a recent issue of the Engineering and Mining Journal, a New York publication, appears a half page diamond drill advertisement. In the advertisement there is a splendid picture of the firm's diamond drill all set up in the mine and ready to run. Beside the machine a middle aged man is standing. He is the operator of the machine. He is wearing high boots, greasy overalls and jumper and a smile. The picture was taken at the Granby mine near Phoenix last summer, and the man beside the drill is O. D. "Joe" Bush, now the popular proprietor of the Brooklyn hotel.

Fernie Champions to Compete

A wire received at Rossland Monday from S. L. Dunlop, manager of the Fernie hockey club, announced that Fernie would compete in the Carnival competition next week. Last year Fernie won the Giant Powder Shield, emblematic of the championship of British Columbia. Manager Dunlop says that his club is anxious to defend the shield. They figure, he says, that the contesting teams will be much stronger than last year, but nevertheless he is confident of Fernie making a good showing.

Fernie's entry assures four senior teams in competition at the Carnival, and, consequently, enough fast games to fill the entire week's program.

Chairman Cruickshank, of the hockey committee, is in communication with the Blairmore team, which may also go.

Ladies' Hockey Team

The young ladies of Phoenix have organized a hockey team, and are already doing some hard practicing. They will soon arrange for games with the lady hockeyists in both Greenwood and Grand Forks. Following are the players and their positions on the team: Goal, Orilla Mattinson; point, Nellie Ingram; cover point, Kathleen Carson; center, Annie McKeown; right wing, Miss McGeer; left wing, Morfydd Bateman.

Andrew Carnegie has reduced his personal fortune by \$10,000,000 in making a gift of that amount to the Carnegie United Kingdom Trust in Dunfermline, the town in Scotland where he was born.

Concentrates

The Nelson Brewery has declared a 10 per cent dividend.

The furnishings in the new Daventry hotel in Spokane will cost close to \$200,000.

"Dutch Jake" Goetz of Spokane was married recently in Chicago to Miss Isabel Sweeney of Portland.

The town of Smithers has an electric lighting system. It is but four months since the erection of the first building in town.

An addition has been built, to the Nelson hotel at Nelson. The building is of concrete and brick and has cost \$20,000 exclusive of furnishings.

The extremely mild weather and the lack of snow has worked a hardship on the mineowners up around Hazelton. No attempt has been made to haul ore from the mines.

James Wilks is now organizer for the Liberal party in this province. Wilks used to be secretary of the Nelson Miners' Union, and was district organizer for the W. F. of M.

Mayor Baxter of Vancouver has received a threat in the way of a letter signed "The Unemployed of Vancouver," in which they say they will burn down the city unless work is given them.

S. M. Newton has been elected mayor of Prince Rupert over Mayor Pattullo by a majority of 86. A year ago Pattullo defeated Newton, who was then mayor. Newton is publisher of the Prince Rupert Empire.

The court room in the old city hall at Kaslo is to be fixed up for public meeting purposes. The jury box, the prisoners' box, the judge's quarters, together with sundry railings, etc., have been yanked out.

Al J. Jennings, former train robber, now practicing attorney in Oklahoma, is determined to be a candidate for governor. Jennings is making a perfectly plain appeal to his state. He was a bandit, he served time in prison, but he reformed. Now he is going out to hunt crooks and gangs and rings in politics.

Automatic Skate Grinder

Wm. Hower has purchased from the Luther Grinder Co., of Milwaukee, Wis., an automatic device for grinding skates, and will be in a position to turn out work in a day or two. The work will be done with a high speed emery wheel, driven by an electric motor. Those who wish to have their skates sharpened can leave same with the rink man.
