THE

Big Store

Something Good to Eat

Here is where you always find it.

Fruit	Vegetables
Hood river Strawberries	Hot House Lettuce
California Cherries	Asparagus
Ripe Bananas	Rhubarb
Oranges, 25c Dozen	Florida Tomatoes
Blood Oranges 50c. Doz.	Radishes
Cocoanuts, etc.	New Cabbage
	Parsley, etc.

Twice a week shipment of fresh mountain trout.

New laid eggs Hazelwood butter

Lake of Woods 5 Roses Flour

We have just received a carload of this famous flour that all our customers have been asking for We sell it at the same price as you pay for second rate flour of an unknown brand.

Phone orders given prompt attention.

The Hunter-Kendrick Co. Ltd.
THE BIG STORE

Grocery Dept.

Special Announcement.

Every friday during the summer months we will have one five gallon freezer of

Hazelwood Ice Cream

to sell by the pint, quart or half gallon. Get your orders in early on Saturday morning so as to avoid dissapointment.

Every Thursday during the trout season we expect to have a shipment of fresh trout from the Kootenay river. This will be here in time for Friday's breakfast. Try to have your orders in Thursday evenings so as to catch last delivery.

Regular shipments of Hazelwood Butter at 35c. per pound till further notice.

Hardware Dept.

Full line of screen doors and windows all sizes.

MORRIN, THOMPSON & CO.

SPEND $100,000 ON NEW SHAFT

More Improvements at Granby Mines.

To Output 4,000 to 5,000 Tons Daily.

General Manager Jay P. Graves, of the Granby Co., who recently returned to Spokane from a trip to New York, is credited with stating that the company will shortly begin the expenditure of about $100,000 in sinking a new shaft, to contain three compartments, and to be the main working shaft of the properties. In addition to this, the headworks at the shaft are to be equipped with a crusher capable of handling 1,500 tons of ore per day. When these improvements are completed the mines will have a daily capacity of producing between 4,000 and 5,000 tons of ore, or between 100,000 and 150,000 tons monthly—about double the present normal output.

Coupled with these statements also comes the information that the management of the Granby Co. is now considering the addition of another blast furnace at the smelter by the end of this year, making nine altogether. At present six furnaces are in use, and two larger furnaces are being installed and are expected to be in operation within the next few weeks—sometime in July.

Asked as to the location of the new shaft, Supt. O. B. Smith informs the Pioneer that the matter has not been definitely settled as yet, but that it will probably be sunk on the flat between the Granby bunk house and the C. P. R. tracks.

It is understood that the success attained in locating the ore body from the bottom of the winze, extending from the 300 to the 400 foot level, has about decided the management as to the location of the new shaft. The crosscut at the level is now in over 200 feet, all of it in ore of a shipping grade, this being the deepest proven workings of the mine.

Phoenix Customs for May

Whether there was any demand for the establishment of a sub-port of customs in Phoenix or not can be readily seen from the returns for the month of May, when nearly $8,000 worth of merchandise was cleared at the local custom house. The exact total was $7,958. Of this amount goods worth $1,476 were not dutiable, and on the balance duties amounting to $1,496.81 were collected.

The figures for each week during the past month, as furnished by the collector, William Delahay, were as follows:

	Value	Free	Duty
1st week..	$ 660	$ 262	$ 160.45
2nd week.	4,159	650	719.78
3rd week.	1,581	380	313.29
4th week..	1,558	190	303.29
Total ...	$7,958	$1,476	$1,496.81

School Report For May.

Following is the report of the Phoenix public school for the month of May:

Total daily attendance. 1502
Total actual attencance 1479½
Average daily attendance 68.27
Average actual attendance ... 68.25
Pupils actually attending ... 76

Pupils neither absent nor tardy were:

DIV. I.	DIV. II.
Harry Swanson	Jean Crawford
Arthur Swanson	Albert Elmgreen
Gladys Pickard	Sigre Elmgreen
Grace McKenzie	Percy Fife
Mabel McKeown	Charles Mueller
Mortimer Lowney	Frank Mueller
Constance Lowney	Emelyn Pierce
Delia Knight	Edna Swanson
Daisy Horrell	Arthur Walters
Irene Crawford	Alvin Hendrickson
Mildred Bissell	Alma Hendrickson

Black's Hotel Changes Hands.

On Thursday, June 1st, R. V. Chisholm took possession of Black's hotel, which he recently purchased. Mr. Chisholm has been successful as a hotel keeper in the past, and proposes to conduct a first-class place here. He is having the house thoroughly renovated, is stocking the wet goods department with the best to be had, and will pay special attention to the dining room. He solicits a share of the public patronage.

GREAT PORTLAND FAIR OPENS

Mr. Mohler Tells About Railway Rates.

George J. Mohler, general agent of the O.R. & N. Co., at Spokane, was in the city yesterday, on behalf of his company, looking into business for the Lewis and Clark Exposition now on at Portland, Oregon. Mr. Mohler states that the fair opened, as scheduled, on June 1st, with such great crowds in attendance that the railways could scarcely handle them. Unlike most expositions of recent years, everything about this fair was complete and in apple pie order on the opening day, the management having insisted on this with exhibitors from the start.

Regarding railway rates, Mr. Mohler stated to the Pioneer that his company, being the short line from Spokane to Portland—only 14 hours—would naturally secure the great bulk of the business, and had made special preparations to handle it. The regular one way fare from Spokane to Portland is $11.20, but tickets will be sold at any time, good for 30 days, at one and one-third rates, or $14.95 for the round trip. Lower rates are made for parties of ten or more, being one fare for round trip, with a ten day limit.

Occasionally specially low rates will be made for daylight excursions at $10 per round trip. The first of these will take place on June 19th. It is also understood that the Great Northern will make special rates, though no announcement has yet been received here.

Latest Prices in Metals.

New York—Copper, electrolytic, $15.00@$15.25; lake, $15.00@15.25
Bar Silver, 59¼
Lead, $4.50 at $4.60.

LOCAL JOTTINGS

Public school will close for the summer on June 23rd—just three weeks.

W. S. Doyle and P. H. LaCasse have been visiting Spokane this week.

R. Helme, of the Dominion Express Co., was over from Nelson last Monday.

The Vancouver branch of the Eastern townships Bank is to be opened on July 1st.

F. S. Getsey, Gt. Northern conductor on the Marcus-Phoenix run, has brought his family to Grand Forks.

Rossland has adopted the Wednesday half holiday plan for merchants, to last during June, July and August.

Thos. Finnigan returned Thursday from a two weeks' sojourn at St. Leon Hot Springs, on Lower Arrow Lake.

Rev. Thos. Green, of Toronto, formerly located in Phoenix for two years, sailed on May 12th on a trip to England.

George Chapple has been appointed police and licensing commissioner at Grand Forks, owing to the removal of D. D. Munro.

C. W. Whittaker, formerly of the Yukon, the new Methodist minister for Phoenix, is not expected to arrive for another week.

Leslie V. Birnie moved his tinning and plumbing business this weel from Old Ironsides avenue to his new block on Knob Hill avenue, which is rapidly approaching completion.

Lake D. Wolford, manager of the Wolford group, on Fourth of July creek, was in the city yesterday. He states that the diamond drilling has been started on his property.

Wm. Spier, manager of the Grand Forks branch of the Eastern Town ships Bank, has been making a trip into the Similkameen, going as far as Copper mountain, near Princeton.

Monday night Geo. R. Emerson, general superintendent of motive power for the entire Great Northern system, arrived from St. Paul in a special train, accompanied by Wm. Kelly, general master mechanic, of the Spokane division. It was Mr. Emerson's first trip to Phoenix.

Miss Howe, matron of the hospital, has set her heart on calcimining the general ward and kitchen of that institution, and to raise the necessary funds, proposes to give an impromptu dance in the hospital. To do this, however, means to take a time when there are few patients, and she hopes to be able to do it next week.

The following officers have been elected by Gateway Lodge No. 45, I.O.O.F., of Grand Forks, for the term beginning July 1st and ending December 31st, 1905: Noble grand, Wm. B. Bower; vice grand, Geo. H. Rutherford; recording secretary, Walter R. Dewdney; permanent secretary, A. B. Hall; treasurer, R. Frache.

MERGER SAID TO BE SURE

Charles R. Hosmer is the Authority.

Officials Control Sufficient Proxies.

Under the heading, "Hosmer Confirms Amalgamation," the Nelson Tribune of Wednesday printed the following:

"Private advices from Montreal state, on the authority of C. R. Hosmer, who, after the Gooderham and Blackstock interests, is the largest stockholder in both War Eagle and Centre Star mines, that the amalgation of the Rossland and Trail properties will go through at $7,800,000, giving $1,800,000 of working capital to be expended chiefly in developing the lower levels. All the parties concerned have agreed on the terms, which only require ratification at statutory meetings of the shareholders to become operative. As G. S. Waterlow controls sufficient LeRoi proxies, and T. G. Blackstock sufficient War Eagle and Centre Star, and President Shaughnessay has sanctioned the arrangement as far as C.P.R. interests are concerned, there is little doubt now that this, the largest and most important deal ever made in the Kootenay, is consummated."

A week ago dispatches were printed from Toronto, in some of the dailies, to the effect that the proposed amalgamation had already been completed, and the above is confirmatory of that statement. At the same time, while the gentlemen doubtless control their respective companies, as stated, it will be necessary to call special meetings of the shareholders of the several companies interested, including the LeRoi, Centre Star, War Eagle, Canadian Smelting Works and Snowshoe, to give legal effect to the merger. This will probably require a couple of months or more.

Farewell to Rev. Perley.

Wednesday evening the members and congregation of the Methodist church tendered a farewell to Rev. D. M. Perley, who has been in charge here for the past twelve months, and who left for his new field of labor, Moyie, the following day. A short programme was given, in which Peter McCurrach, Robert Horrell, Mrs. F. Knott, Agnes Pierce and Hazel Hudson took part acceptably. David G. Stafford, on behalf of the I.O.G.T., presented Mr. Perley with a copy of Whittier's poems with an address of appreciation, to which Mr. Perley feelingly responded. Rev. Knox, of Greenwood, and Rev. MacColl, of the Presbyterian church, also made addresses and Mr. Knott, on behalf of the congregation, presented a purse of money, followed by a social time with refreshments. Mr. Perley leaves many friends here, who wish him the greatest success at Moyie.

Eagles' Annual Convention.

Beginning next Monday, the annual convention of the Fraternal Order of Eagles of British Columbia will be held at Grand Forks. A. W. VonRhein, the worthy grand master, of Victoria, and other officials will be present, and the Grand Forks members are making extensive preparations for the entertainment of several hundred delegates expected from all over the province. M. H. Roy is the special delegate from Phoenix Aerie, No. 158

Next Tuesday a special train will bring about 200 of the delegates from Grand Forks to Phoenix, where they will be the guests of the local members of the order. After a trip to the mines, the guests will be entertained in royal style at a smoker at Miners' Union hall.

Ida Sophia Hanson, six-year-old daughter of President Hanson, of Greenwood Miners' Union, No. 22, fell into Boundary creek Monday and was drowned, the alarm being given by the girl's little brother, with whom she had been playing on the edge of the creek. The funeral was held Wednesday.

Boundary Mining Notes

Quite a number of machine men laid off at the Brooklyn group have been absorbed at the Granby and Mother Lode mines.

A movement has been started in Grand Forks to send a representative ore exhibit to the Portland fair. The idea is an excellent one, and although late, should be encouraged.

The new ore cars built by the Great Northern for hauling Granby tonnage, which will hold 50 tons each, are now in St. Paul, and are expected here by the time the tonnage is increased, when the two new furnaces are blown in at the smelter.

The ore body has been struck on the McKinley, in Franklin camp, at a depth of 100 feet in the long tunnel. This ore is said to be of a higher grade than that taken from the many open surface cuts, where it averaged from $10 to $15 per ton.

J. E. McAllister, superintendent of the British Columbia Copper Co.'s smelter, returned Wednesday from an extended trip to New York, to confer with the directorate of the company, and, it is rumored, to look after ordering new machinery for the smelter.

The bond for the Trilby claim for $12,000, from J. C. Haas, R. Stuart and W. R. Norris to C. J. McArthur and Duncan McIntosh, recently announced and agreed upon, did not materialize owing to the fact that Mr. Norris declined to carry it through. The Trilby adjoins the E.P.U. in Skylark camp.

The pumps at the Brooklyn mine are kept in operation about six hours daily and those at the Stemwinder every third day, pending the arrival of mining engineers from the east. Foreman Callahan and Master Mechanic Crawford are the only employees of the Montreal & Boston here, aside from Supt. Collins, and A. S. Embree, the office man.

F. M. Elkins, who returned this week from an extended trip to San Francisco and Vancouver, states that he and W. E. Hodges have just bonded the Fairy Queen group of claims, adjoining the Kingston group, near the Nickel Plate mine, Hedley camp, for $125,000. The new owners are J. W. Collis and associates of Victoria, who are expected to start development work shortly.

Diamond drilling is now going on at three properties in the Boundary. Boyles Bros., who have been at work for months, are still boring holes for the Granby Co. on the Monarch and contiguous claims; Knight & Stone, of Spokane, are putting in 1,000 feet of holes for the Wellington Co. on the Wolfard group, and the B. C. Copper Co. are steadily drilling at the Mother Lode mine in Deadwood camp.

New Officers For Snowshoe Lodge.

At the regular meeting of Snowshoe lodge, No. 46. I.O.O.F. held last Monday the following officers were chosen for the ensuing term:

N.G., Thos. Johnson.
V.G., Frank McDougall.
R.S., George R. Mead.
Perm. Sec., A. S. Williamson.
Treas., Walter S. Cook.

Installation will take place the last meeting night in June, when, as has been the custom for some time, the lodges in Grand Forks and Greenwood will install at the same time—this time the induction taking place in Phoenix.

NEW HOTEL TO COST $20,000

Work Started on the New Brooklyn.

Messrs. Marshall and Rumberger the Builders.

Alderman James Marshall returned early this week from a visit to his childhood home in Scotland, and already things are doing regarding the new hotel which he previously announced his intention of building on the site of the Brooklyn hotel, which was burned to the ground in the morning of February 14th last.

Mr. Marshall was delayed somewhat in returning, and his friends seem to think he found it hard to tear himself away from the land of mush, but the alderman says nothing and saws wood—or rather is preparing to have a lot of wood sawn for the most modern, most complete and most expensive hotel in Phoenix.

To the Pioneer Mr. Marshall stated that he had purchased the two lots west of the site of the old hotel from Mr. Rumberger, and that the mayor would be interested in the new building. The plans show a building that will be an ornament to Dominion avenue—a substantial building of three stories, besides a high basement, giving practically four stories. When finished and furnished the Brooklyn hotel will represent an outlay of $20,000. And thus do two men who have profited in Phoenix show their faith in the future of the city and camp.

According to the plans the building will be about 60x65 feet in size, facing on Dominion avenue, Phoenix street and the Great Northern station. As the lot is wider on the railway end, the building also will be wider. On the west side a brick fire wall will be built. Steam will be used for heating at a cost of some $3,000 alone, and the latest appliances in plumbing will be utilized, together with a septic tank for drainage purposes.

On the corner will be the bar and adjoining rooms, some 60 feet long and 23 feet wide at widest part. An office, 14x14 feet, will adjoin this, while a large, airy dining room, 40 feet long by 16 feet wide, will also front on Dominion avenue. Altogether the house will have about 40 rooms.

Work has already been started on preparing the foundations for the building, which will be in charge of A. A. McIntosh. The lumber has been ordered, and the entire work will be done in the best manner possible by days' labor. The flooring and ceiling will come direct from the coast. Mr. Marshall prosposes to crowd the work on the building as fast as possible, hopes to have it ready for business by the end of July or the first part of August, and will conduct the business himself.

BOUNDARY ORE TONNAGE.

The following table gives the ore shipments of Boundary mines for 1900, for 1901 for 1902 for 1903 for 1904, and 1905, as reported to the Phoenix Pioneer—

Mine.	Camp.	1900	1901	1902	1903	1904	1905	Past Week

SPECIOUS ARGUMENTS.

The Vancouver Province has joined with the Nelson Tribune in raising its voice in a lusty manner against the granting of an amendment to the charter of the V.V. & E. at Ottawa. But the Province goes the Tribune one better by printing an alleged map of the route that Mr. Hill proposes to use in taking the trade of the Similkameen to Everett. As a matter of fact, it is known that no such surveys have ever been made from Princeton to Everett, so the argument falls flat. The Province also reprints the several columns of so-called argument from the Tribune on the subject, which could hardly have been prepared outside of a C.P.R. office or without the assistance of C.P.R. employees.

Of course, both these papers, which seem to stand practically alone in this province on this question, profess to be actuated solely by patriotic motives, and only for the good of the country. Those who understand the situation, however, will require better evidence than this to believe any such yarn. Senator Templeman, Duncan Ross and J. J. Hill are derided in their efforts to get a Coast-Kootenay railway built, and are not given credit for any sincerity whatever.

Both of these mighty champions of the C.P.R. seem to forget that Mr. Hill will reach the heart of the Similkameen anyway, and in fact construction is now going on from the other side, and if the charter is not amended as asked, the thing they are afraid of—driving the trade of British Columbia to the other side—will be forced upon Mr. Hill. Would it not be much better to so safeguard the proposed new line to Vancouver that it may be built, than to practically compel Mr. Hill to do the thing that he is accused of being desirous of doing.

The Province also has a most misleading editorial regarding the proposed amalgamation of the LeRoi, War Eagle, Center Star, Snowshoe, etc., that must have been inspired. It handles Mr. McMillan without gloves, saying that the LeRoi is losing money steadily and that it is a "dram upon the purses of the shareholders." Nothing could be farther from the truth. The published reports of the LeRoi show that it has made money every month that Mr. McMillan has been manager. Could better evidence be asked.

Arguments of the Province are indeed specious. It talks about the ore of the Slocan being taken to American smelters, just as though it did not know that for years not a ton of that ore, excepting zinc, which cannot be smelted here, has gone across the line. On the other hand, the building of the Great Northern to the Boundary and Republic has had the opposite result, and American ores have been and are being brought to British Columbia smelters. Both the Province and Tribune were evidently ordered by their masters not to mention this important fact.

The fact is that there is a difference of opinion as to the valuation to be placed upon the properties in the proposed merger, and if this valuation is not equitable, it would be much better that the amalgamation be dropped. It is certain that the LeRoi is profitable at present, and it remains to be seen whether the merged properties would do as well. A profitless merger would do great harm to the country.

From remarks in the press and from statements publicly made by some of the people interested, it would seem as though a determined effort was being made to fasten the War Eagle concentrator, at Trail, which is an acknowledged failure, and the Trail smelter, on to the new combination, and then close the Northport smelter. This, of course, would work into the hands of the C.P.R., which owns the Trail smelter and needs more ore supplies.

Taken together, there is certainly a power behind the throne directing the policy of the Vancouver Province and the Nelson Tribune in favor of the C.P.R. The latter cannot be blamed for securing everything that can be made to come its way, but it is still a question whether it is best for the country that it should have a lead pipe cinch on smelting and transportation also. In fact, there are thousands of people who believe to the contrary.

There seems to be a great paucity of celebration talk in the Boundary this year. But just wait for Labor day.

And now it appears that the Granby Co. may add its ninth furnance to the smelter equipment before the end of 1905. The more the merrier.

When Duncan Ross went to Ottawa he did not propose to hide his light under a bushel, and he has not done so. If the Great Northern extends its line through to the coast, as promised and proposed, it will be largely due to the efforts of the member from Yale-Cariboo—even though he is a Grit.

In the opinion of those well informed, the reorganized Montreal & Boston Consolidated is destined to become one of the most important mining concerns in the Boundary. The recent temporary suspension of operations was not believed to be due to local causes, which speaks volumes for the properties of the company.

William Wallace Bruce McInnis, M. P.P., landed the Yukon commissionership after all. If ability to talk carried any weight, "Wullie" practically had a walk over all the time. In Yukon political circles they have been enjoying strenuous times, and the new governor will be in his element when he arrives at Dawson about Dominion day.

Admiral Togo, the old sea dog of the Japanese navy, delivered a crushing blow to the combined Russian navy last Saturday and Sunday when his jack tars sunk or captured 22 Russian ships and took 3,000 or 4,000 prisoners. The Russians were long on talk, and the Japs kept mum and quickly overpowered the sailors of the Czar when the time arrived. Rojestvensky simply was not in it for a minute. The Japs will get Nicholas, too, if he don't watch out, or if he does not sue for peace.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free

Sold by druggists. Price 75c per bottle.
Take Hall's Family Pills for constipation.

B. C. MINING

Rossland mines last week shipped 5,705 tons of ore, or 139,504 tons for the year.

Reports from the placer mines of French creek are most encouraging and will cause unusual interest this summer.

George Alexander, of the Ruth mine has assumed position as general manager of the Ferguson Mines, Limited.

Tripoli, a valuable polishing material, and mineral ink, have been discovered on the San Juan river, Vancouver Island.

The Trout Lake Topic says that Mr. Leval, who is in charge of placer operations on Lardeau river, after carefully sampling 400 feet of the creek bed, estimates that $100,000 can be taken out of that number of feet.

Operations at the Eva mines are in full swing and the stamp mill is daily pounding away on a good grade of quartz. It is reported the value of the gold brick, resulting from operations during the month of April, was $4,200.

STRICTLY BUSINESS

The merchant who does not advertise never needs the rest cure.

What to say and where and how to say it—that is the secret of good advertising.

Your business may need the medicine of advertising; but be sure you get the right sort of medicine and administer it properly.

What makes the merchant's business hum—what makes his clerks perspire? Is it due to drummers bland, or to messages by wire? Can it be due to fine displays or to silly worn-out fads? No; the business boom is mostly due to his large, attractive ads.

PROVINCIAL.

Nelson has decided to celebrate Dominion day as usual this year.

Owing to opposition in certain quarters, the incorporation of Cranbrook is delayed.

The C.P.R. finally took over the Esquimalt & Nanaimo railway on the 1st of June.

The Nicola Herald, published at Nicola Lake, is new and newsy in B. C. journalism.

Pat Burns, of Calgary, has announced his intention of constructing a large abattoir and cold storage plant in Vancouver.

"Big Jim" McDonald will have the contract for the construction of the new Nicola branch of the C.P.R., about 45 miles.

Charles St. Barbe is the successful candidate for the position of secretary of the advertising committee of the Nelson Board of Trade.

It is said that the C.P.R. is arranging to abandon steam for motive power on the Rossland hill and use electricity, four electric locomotives being built in the east.

PEOPLE ARE GUESSING.

Why the city fathers do not take up the new city hall project.

Why the knockers do not quit business and turn boosters.

Why Phoenix is not more widely advertised as a summer resort.

Why so little attention is paid to the postal service in the Boundary by the Ottawa authorities.

Why Rojy did not go home when he had a chance, instead of running into certain defeat by Togo.

Why the C.P.R. uses Shay engines for heavy ore traffic when the Great Northern will not have them.

Why the Great Northern does not repair the School street bridge, which it built, and which is in danger of falling down, even with its 14x14 timbers.

The Root of Neuralgic Headache

Is an irritable condition of the nerves caused by cold. Relief comes quickly from Nerviline, the great pain reliever of today. "I consider Nerviline a magical remedy for neuralgia," writes Mrs. E. G. Harris, of Baltimore. "But I never worry if Nerviline is in the house. A few applications never yet failed to kill the pain. I can also recommend Nerviline for stiffness, rheumatism and muscular pains." In use nearly fifty years; try Nerviline yourself.

If you want the old folks back east to know all about the Boundary, send them the Phoenix Pioneer for a year at a cost of only $2.

Proved in Mount Forest.

Every doctor in this town tried his best to relieve Mrs. J. Withom of Asthma; none succeeded. "For years," she states, "I was a dreadful sufferer; nothing gave relief. At times I found it necessary to have all the doors and windows open to get my breath. When in despair I heard of "Catarrhozone." I used it and now am perfectly cured." This proves beyond doubt that any case of asthma is curable with Catarrhozone. No remedy so pleasant, none so absolutely certain to thoroughly cure; try "Catarrhozone" yourself; it's guaranteed.

COLUMBIAN COLLEGE.

Founded 1892—Incorporated 1893.
NEW WESTMINSTER, B.C.

Provides a Christian home for students of both sexes at moderate rates. Has a preparatory class for junior students, doing grade public school work. Does high school work, confers all high school privileges, and prepares for teachers' examinations. Teaches all branches of a Practical Business Course and gives Diplomas. Gives a liberal education in its Collegiate Course and in the Ladies' Course for M.E.L. and M.L.A. In University work can take students through the complete Arts Course, and the degree of B.A. can be obtained from Toronto University, which the college is in fut affiliation.

For fuller information and terms write Rev. W. J. Sipperell, B.A., B.D., Principal; or Rev. J. P. Bowell, Bursar.

Triumphs of Modern Surgery.

Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back; or they may be removed entirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by all druggists.

A pencil mark here is a reminder that your subscription to this paper is now past due, and the publisher will appreciate your prompt attention.

THE PHOENIX PIONEER

And Boundary Mining Journal

Is published in the heart of the greatest and most productive gold-copper camp in the Dominion of Canada.

In five years more than 2,500,000 tons of ore have been mined and smelted here, with a valuation of over $12,500,000. And the industry is only in its infancy.

The greatest mines of the Boundary are at Phoenix—not one or five miles distant, but in front of, behind and beneath the Pioneer office. Consequently, from our vantage point we believe the Pioneer can give you the best, latest and most reliable news of the mines and smelters of the Boundary.

The Pioneer is worth $10 per year—but it costs only $2, if the coin comes with the order. Make all orders payable to the

COPPER

The new edition of the COPPER HANDBOOK lists and describes 3,311 copper mines and copper mining companies, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptione are not padded, but give facts in the most condensed and get-at-able form.

There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of Copper and everything pertaining to the metal.

It Is the World's Standard Reference Book on Copper

Every Miner, Prospector, Investor, Banker, and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morrocco, and the book, in either binding, will be sent, fully prepaid, on approval, to any address in the world, to be paid for if found satisfactory, or may returned within a week of receipt and the charge cancelled. Address the Author and Publisher,

PHOENIX, B. C.

CHICAGO MEN BOND THE PRESTON

Nine Men at Once Set to Work on Property.

Colonel L. T. Dickason, a prominent capitalist of Chicago, largely interested in the coal business in that section, E. Ford Johnson and William Bailey, also of Chicago, were visitors at Greenwood during the latter part of last week, says the Greenwood Times. Mr. Bailey had been here before, but it was the first visit of the other two gentlemen.

While here the party purchased the Preston, adjoining the well known Crescent mine. From the Crescent some of the richest ore yet found in the camp has been taken, assays ranging from $143 to $808 per ton in gold and silver. The details of the deal are withheld, but it is understood the price paid was a substantial one, the previous owners retaining an interest.

It is the intention of the new owners to organize a stock company, but limited to themselves and their associates, among whom are Mr. Ferdinand W. Peck, Samuel K. Martin, and other prominent Chicago capitalists.

Development work has already been begun under the supervision of W. H. Jeffery, M. E., a force of nine men having been started at work immediately negotiations were concluded and the title to the property acquired.

The outlook for the Preston is very bright and it should soon become a valuable addition to the producers of high-grade ore and aid to swell the list of constantly growing dividend-paying mines in Greenwood.

The Illinois Central

Maintains unexcelled service from the west to the east and south, making close connections with trains of all transcontinental lines. Passengers are given their choice of routes to Chicago, Louisville, Memphis and New Orleans, and through these points to the far east.

Prospective travellers desiring information as to the lowest rates and best routes are invited to correspond with the following representatives: B. H. Trumbull, Commercial Agent, 142 Third St., Portland Ore.; J. C. Lindsley, Trav. Passenger Agent, 142 Third St., Portland, Ore.; Paul B. Thompson, Passenger Agent, Coleman Building, Seattle, Wash.

A Lesson in Mining.

A lode is a streak, as sure as you're born;
A dip is a pitch of the same;
A big bunch of rock, that spoils the pay shoot,
Is called a horse in the vein.

A hanging wall's the top, you know,
Or roof, of leads in place,
The foot wall's just the floor of them,
Or the bottom, bed or base.

An incline shaft is one that's sunk
Down on the lead's own pitch.
A straight one just don't seem to care
'Bout strikin' ore that's rich.

A crosscut runs to tap the vein
From a point that's picked as best.
A tunnel's about the same old thing,
So we'll let that subject rest.

A drift is a tunnel that follows a lead,
Not down, but in on a level.
A stope's a hole where ore was mined;
Now, don't that beat the devil?

A winze is a sort of shaft, you see,
That starts from a level below,
And why they picked that name for it
Is more, my friend, than I know.

A raise is made to connect two levels
Or to strike the shoot overhead;
And the face of a drift is the end of the thing;
And so, we'll say, enough said.

—Mines and Minerals.

Her Skin Was Yellow.

"I had only to try Dr. Hamilton's Pills to appreciate their merit" writes Miss Annie S. Bryce, of Woodstock. "My system was out of order. My blood was weak and thin. I had a nasty, murky complexion. My skin was hard and dry. The first box of Dr. Hamilton's Pills made a complete change. I felt better at once. Healthy color came into my face. In about three weeks I was cured." Dr. Hamilton's Pills effect an easy cure. Try these good pills, 25c. per box, or five boxes for $1.00, at all dealers.

Competition in Railways.

British Columbia is evidently going to have competition in railway building even if she does not have competition in transportation after the railways are built. We shall accept the first movement with thankfulness and hope for the best respecting the second. In any event we shall have competition in service in addition to a guarantee against exorbitant charges with the presence of two corporations within a coveted field.—Victoria Times.

HARDY BLOCK

THE OBSERVATORY

THINGS TALKED OF AT HOME AND ELSEWHERE

"It seems to me," said a resident of Phoenix the other day, "that the prospects for this town are brighter than they have ever been before." And the speaker has lived here four or five years and is an active business man.

When one stops to think of it, there is force in the idea, too. Inside of another month the Granby Co., with its two new giant furnaces at the smelter—making eight in all—will need say 35 per cent. more ore than is now sent out from the company's mines daily, or about 600 or 700 tons more each 24 hours. That alone means a goodly increase in the men needed to take out that ore. And on top of that there is the probability, at least, of a ninth furnance being added to the smelter battery this year.

Besides this, there are the Montreal & Boston mines. As one man put it, those interested in the company are now in too deep to close the properties for any length of time, and the statement that the tonnage will be increased when they do start up, or shortly thereafter, is most reasonable. With $250,000 in the treasury for development and improvements, as announced, the company will employ more men than ever before, and this means that most of them will be employed right here in Phoenix. So, the outlook is most promising.

For the last seven or eight years the Cranbrook Herald, published by F. E. Simpson, has been the only paper issued in that lively town in East Kootenay. For the same time, or rather a little longer, A. B. Grace has been publishing the Prospector at Fort Steele. Mr. Grace has hung on there as long as he could, but evidently the grass is growing too short so far from the railway, and he is starting up in Cranbrook. Thus Cranbrook will have two of the best boosters in the newspaper business in British Columbia, and there will be two "old men" to sing its praises to the outside world. "Beautiful Cranbrook" will become better known than ever, and that is not saying a little.

Some unknown writer has relieved himself in this energetic advice to the chronic kicker:

"There is no excuse for a man to live in a town if he does not like it. If you have no word of commendation to say of your town, its institutions or its people, emigrate. You won't stop the town clock by leaving, the church bells will have the same musical ring, the little dogs will play as briskly, the fish in the creek will bite just as well, and the pure air, bright sunshine and sparkling water will have the same health giving properties. Speak a good word for your neighbor is you can; if you can't, don't everlastingly enlarge his faults. If you have become so thoroughly sour and disgruntled, move away; go where things suit you."

The author of the following prose verses evidently understood his subject thoroughly:

If you toot your little tooter and lay aside your horn, there's not a soul in ten short days will know that you were born. He who gathers pumpkins is the man who plows all day, and the man who keeps a humping is the man who makes it pay. The man who advertises with those little jerks is the man who blames the editor because it never works. The man who gets the business has a long and steady pull and keeps his local paper generally quite full. He plans his advertisement in a thoughtful honest way, and keeps for ever at it until he makes it pay. He has faith in all the future, can withstand a bankrupt, shock and like a man of Scripture has his business on a rock.

The other day a procrastinator said: "I'll do some advertising next month if I live." He died. Another said: "I'll see about it tomorrow." He's blind. Still another said: "I'll advertise or go to the devil." He's gone.

Apropos of the new fence recently built around the city cemetery, we are reminded of the man who was once asked to contribute to a fund, in a country town back east, for building an enclosure around God's acre. He replied: "What do we need a fence around the cemetery for? Those inside cannot get out, while it is equally certain that those on the outside are not anxious to gain admittance."

MONTREAL HOUSEWIFE CAN NOW PERFORM HER USUAL DUTIES—THANKS TO PE-RU-NA.

Josephine Lupien, Hotel Dieu, Montreal, Can., writes:

"Four months ago I commenced to take your Peruna. I can tell you with entire truth that I do four times as much work this spring as I did before. I have done washing and house-cleaning without becoming much fatigued. I have received great benefit through your medicine and recommend it to every one.

"I have not had a cold or bronchitis this winter. The constipation has entirely disappeared, also the rheumatic pains."

One such case as that of Josephine Lupien ought to be all the evidence any one needs to be convinced of the priceless benefit of Peruna.

This lady was changed from an invalid into a busy housewife. She asserts that through Peruna she is able to do four times as much work as before, that she does not take colds any more, and that the rheumatic pains and constipation which had troubled her have disappeared.

Any medicine that brings about these changes needs no further recommend.

ALL GOOD THINGS

must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Sayce, LL.D., D.D., of Oxford University, England, has recently said of it: It is indeed a marvelous work; it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for.

A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.

FREE—"A Test in Pronunciation," instructive and entertaining for the whole family. Also illustrated pamphlet.

In The Supreme Court of British Columbia.

IN THE MATTER of the Estate of John Rundquist, deceased.

NOTICE IS HEREBY GIVEN that on the 17th day of May, 1905 it was ordered by M. Justice Martin that A. C. Sutton be administrator of all and singular the estate of John Rundquist, late of Phoenix, B.C., deceased intestate.

Every person indebted to the deceased is required to make payment forthwith to the undersigned and every person having in possession effects belonging to the deceased is required forthwith to notify the undersigned. Every creditor or other person having any claim upon or interest in the distribution of the estate of the said deceased is required before the 26th day of June, 1905, to send by registered letter addressed to the undersigned his name and address and full particulars of his claim or interest and a statement of his account and the nature of the security (if any) held by him.

After the said 26th day of June the administrator will proceed with the distribution of the estate, having regard to those claims only of which he shall then have had notice.

Dated at Grand Forks, B.C., the 19th May, 1905

Sued by His Doctor.

"A doctor here has sued me for $12.50 which I claimed was excessive for a case of cholera morbus," says R. White, of Coachella, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used, as I had good reason to believe it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by all druggists.

WILL DO IT WELL.

Department of Education Guarantees Good School Exhibit at Fair.

In reply to a request of the management of the Dominion fair to have the superintendent of education take charge of a school exhibit which it is proposed to have at the great National Exposition which opens at New Westminster on sept 27th, Mr. Alexander Robinson, superintendent of education, announces the appointment of Supt. Eaton of Victoria, to be assisted by a committee of all the school superintendents in the province.

Mr. Robinson writes: "The department is anxious to make the educational exhibit one of the most attractive features of the fair, and in order to do this a space at least 50x100 feet should be available. If the management can see its way clear to this the department will guarantee to make the educational exhibit one of the very best at the Dominion fair."

Manager Keary says the required space will be allotted and that the prizes will be made satisfactory to the department of education.

Water In Your Blood?

Lots of people have thin watery blood—they eat plenty but don't digest. When digestion is poor, food isn't converted into nourishment—in consequence the body rapidly loses strength. To positively renew health, nothing equals Ferrozone. It excites sharp appetite,—makes the stomach digest, forms life sustaining blood. Abundant strength is sure to follow. If you need more vitality, extra energy, better nerves, then use Ferrozone, the medical triumph of the age. Fifty cents buys a box of fifty chocolate coated Ferrozone tablets.

Old Mines Resuming.

One of the encouraging features of the mining situation is the resumption of operations on the properties of the camp which have been idle and the prospect of others soon being taken in hand, says the Rossland Miner. Leases have been taken on the R. E. Lee and the Lily May, old properties of the camp, and forces of men are actively engaged in working them. The Golden Rule, a promising property, is being operated by its owners, and like action is being taken with the Cascade Bonanza group, from which considerable ore was shipped a few years since, under a former management. The shareholders of the Novelty Mining Company are to have a meeting on June 5th and it is very probable that at this meeting ways and means for resuming work on the property of the company will be devised. The company is out of debt, has a property which has a splendid showing on the surface, and the conditions are all favorable for a resumption of operations. John C. Eden and associates recently visited the Cariboo, and it is probable that he and his associates will soon restart work on this property, on which some work was done last year.

Thrown From a Wagon.

Mr. George K. Babcock was thrown from his wagon and severely bruised. He applied Chamberlain's Pain Balm freely and says it is the best liniment he ever used. Mr. Babcock is a well known citizen of North Plain, Conn. There is nothing equal to Pain Balm for sprains and bruises. It will effect a cure in one-third the time required by any other treatment. For sale by all druggists.

No Competition.

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the relief and cure of bowel complaints both in children and adults has brought it into almost universal use, so that it is practically without a rival, and as everyone who has used it knows, is without an equal. For sale by all druggists.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

The old reliable, Boyle, the druggist.

J. L. Martin will buy International Coal shares.

Prescriptions our specialty, Boyle, the druggist.

Dr. Simmons, dentist, Balmoral hotel June 9 to 12.

Mayor Rumberger visited Grand Forks last Wednesday.

The Mullin brothers' hotel building has been getting up in the world this week.

Deeds, Mortgages and Bills of Sale made out and recorded. Ed. H. Mortimer, Notary Public

Blake Wilson, who is "it" with P. Burns & Co. in the Kootenays, was in Phoenix early this week.

It is the intention of the Boundary Iron Works at Grand Forks, to spend some $12,000 in improvements.

Noble Binns, of the firm of Clark & Binns, of Trail and Phoenix, spent several days in camp this week.

Have you a shipment that wants clearing through the customs? If so, get Mortimer, the broker, to attend to it.

Wedding invitations and announcements promptly executed in the latest styles in the Pioneer Job Department.

Alderman Roderick started Saturday on a trip to visit his Similkameen mining properties not far from Hedley.

Police Commissioner and Fence Viewer Alex. McDonald returned Monday from a week's trip to Nelson.

Mrs. Andrew Hackett, after spending several days visiting her daughter, Mrs. McMillan, returned to Spokane Monday.

E. V. Dynes, of Greenwood, will preach tomorrow evening in the Methodist church, there being no service in the morning.

Phoenix Socialist League meets Tuesdays, 7.30 p.m., Miners' Hall. Readings from Socialist authors given. Discussion invited.

The Ladies' Aid of the Presbyterian church are preparing to give a farce entitled, "The Sweet Family," about the middle of June.

J. E. W. Thompson started for Oxbow, N.W.T., last Saturday, and made no secret of his intending not to return alone about the end of next week.

A. D. McKenzie, proprietor of the Reco laundry, started Wednesday for his new ranch near Keremeos, where he intends to spend several days.

The Great Northern ballasting gang now have the Phoenix extension finished as far as Spencer. Supt. Morgan was here Wednesday in his private car.

Lindsay Crossen was elected by acclamation Monday as alderman of Grand Forks in the centre ward, to fill a vacancy that had existed for some weeks.

An operation for appendicitis was performed on J. W. Nelson, one of the pioneers of Greenwood and owner of the Pioneer hotel in that city, late last week.

Phoenix Miners' Union, No. 8, is preparing to give a dance for the benefit of William Howard, at the hall of the union on Monday evening, June 12th.

Chicken thieves have been doing business around town lately, the McIntosh and Brazel henneries being somewhat short of the usual quota of birds, as a result.

Alderman Bunting, of Greenwood who is a contractor also when not weighted down by municipal duties, has been busy here this week installing the bowling alley for Robert H. Karatofsky. Mr. Bunting is also this week finishing up the 30-foot dipping tank at Midway for the Dominion authorities.

Boyle is the druggist.

No meeting of the city council was held this week.

Any of the local mining shares for sale. E. H. Mortimer.

Quality first, price next; Boyle, the druggist.

Wanted at the Pioneer office, clean cotton rags. Bring them along and get your money.

Descriptions and prices of Mason & Risch pianos can be had from Mortimer, the agent.

Mrs. J. L. Martin spent this week in Spokane, where her son graduated from the high school.

Closing out Millinery, regardless of cost. Miss McDonald, at F. W. Hart's store, Hardy block.

E. L. Vaughan, one of the electricians at the Cascade substation here, left yesterday for a week's visit with relatives at Victoria.

Dr. Mathison is extending his annual visit to the Similkameen country, and will not be in Phoenix during June, but will keep his usual July dates, 10th to 14th.

James Sproat, formerly in charge of the Cascade sub-station here, but who has been taking a year in a medical college at Toronto, returned to Phoenix this week.

Otto Grumbach, formerly a resident here, who spent several months attending the brewers' academy at Milwaukee last winter, was in the city a few days this week, returning to Spokane Wednesday.

Rumors have been prevalent in the Boundary that the O.R. & N. Co. had purchased the Spokane and British Columbia and Kettle Valley lines—also known as the "Hot Air." As yet the rumor has not been confirmed.

It is generally understood around the city that both police officers have been asked to resign, it being the idea of the police commissioners to reduce the force to one man, but so far nothing official has been given out regarding the matter.

Hereafter the fare to Spokane over the Great Northern will be $5.65, a reduction of 45 cents over the old rate. On the 1st of June the Great Northern made a slight reduction on its passenger rates in the state of Washington, with the above result.

J. F. Royer now has over 30 head of horses in use on his Overland Flyer stage line, between Phoenix and Hedley. Travel is reported to be good, especially on the stretch from Oroville to Hedley. The line is a great convenience to those going into or out of the Similkameen country.

About $200 has been spent on the new baseball grounds, near the Great Northern station, and the boys now have the best place yet for the game in Phoenix. Bleachers and a backstop were erected this week, and an effort is being made to have a game here with the Greenwood club tomorrow.

Last Sunday Right Rev. Bishop Dontenville was here with Father Bedard, and confirmed the following at the Catholic church: Mrs. Dan Rankin, Constance Lowney, Mortimer Lowney, Walter McKelvy, William Dunbar and T. Archer. Special music was provided, high mass being sung here for the first time. The church was filled.

Topics in the Presbyterian church tomorrow will be in the morning: "The Builders"; and in the evening: "The Well by the Gate." The choir will sing an anthem in the evening. To make the pulpit more personally helpful, there will be a question box in the Presbyterian church into which questions of religious interest and practical duty may be dropped, which the pastor will answer on the next Sabbath evening.

"The Hottest Coon in Dixie."

What is claimed to be the best high-class colored attraction that has visited the west is "The Hottest Coon in Dixie," the latest musical comedy which will be seen at the Miners' Union hall, Wednesday, June 14.

This organization is said to be the best of any colored organization on the road. The company includes in its personnel many of the foremost colored singers, comedians and specialty artists of that race, names that have been prominently identified with all the big "coon" shows in the east for the past five years. The famous original "Clorindy" chorus of colored male and female singers, that for sixteen weeks was the rage at the Casino roof garden in New York City, is a feature of the performance. The costuming is rich and tasteful, and the girls pretty. The attraction, all in all, will be found the most enjoyable thing of the season.

If you want the old folks back east to know all about the Boundary, send them the Phoenix Pioneer for a year at a cost of only $2.

Found.

Found between postoffice and Great Northern depot, a watch. Owner can secure it by proving same and paying for this notice.
