Build Your Own Fortune

By buying a gold bond from the International Investment and Realty Co. of 403-4 Eagle Block, Spokane, Wash.

A Cumulative Bond matures in Ten short years by paying \$6.13 monthly, for which you receive 6% interest compounded annually. In Ten years you will have paid in \$735.60, for which you will receive \$1,000 in a heap.

Spokane Real Estate a specialty, on small cash payments and Easy Terms. Place your order with our Local Agents.

Cosgrove & McAstocker

We cordially invite YOU to call and see us when visiting Spokane

International Investment & Realty CO.

J. L. MARTIN, President

403-4 Eagle Block Spokane, Wash.

Be Conspicuous

There are different ways of being conspicuous in your clothes—a common, flashy manner—or in a way that commands admiration and attention.

It's notable what a transformation is effected by slipping into one of our new Spring Suits—you at once become the observed in any gathering of well dressed men.

Good cloth is often spoiled by indifferent cut; expert cutting is sometimes marred by poor material. When you find the combination of good fabric, best workmanship and style you have the acme of clothing integrity.

All we ask is a chance to show you the new styles we have ready.

Thos. Brown GENTS' FURNISHINGS

THE SEMI-ANNUAL VOTE FOR OFFICERS

Of Phoenix Miners' Union, No. 8, W.F.M.

The semi-annual election of officers of Phoenix Miners' Union, No. 8, Western Federation of Miners, for the ensuing term, takes place today (Saturday). Voting will take place at the same time for a delegate to attend the eighteenth annual convention to be held at Denver, Colo.

There will be a contest for practically all the offices and it is expected a large vote will be polled. There are about six hundred eligible to vote, Wellington camp and Oro Denoro, as well as Phoenix mines being in this jurisdiction. Following are the nominations:

President, Harry Reid, David Tyson.

Vice-President—Albert Howe, Patrick Clune.

Financial Secretary—Matt Halliday, Frank Gessler, Anson White.

Recording Secretary—Joe Thompson, W. X. McDonald.

Assistant Recording Secretary—August McKinnon.

Treasurer, D. W. McKenzie.

Conductor—August Coulombe, Jack Cosgrove.

Warden—Harry Elmore, Leonard Medcalfe.

Trustees—five required—D. W. McKenzie, Harry Sewell, Angus McKinnon, Walter Ross, Ernest Hart, Dan Paterson, W. X. McDonald, Jack Cosgrove, Duncan McGilvary, William Donnelly.

Delegate to Convention—W. J. Louttit, D. W. McKenzie, Q. Work.

Noted Musicians Coming

Piano enthusiasts will enjoy a rare treat in hearing Charles Harper, the noted pianist, who appears at the Raul Periers concert here in the opera house on June 6th.

Criticism from other cities of Mr. Harper's performances speak in the most glowing terms of his artistic ability; such expressions as the following are voiced by many delighted audiences.

The Nanaimo Herald says: "The great Rondo Capriccioso (Mendelssohn) as played by Mr. Harper was a really great performance, and he may rest assured that he will always be welcomed by the Nanaimo public."

Boundary Mining Notes

The force at the Oro Denoro mine has been increased to fifteen. Shipments to the British Columbia Copper smelter are being made at the rate of ten cars per week.

The ore shipments from Granby mines for the month of May were 98,21 tons. A total of over half a million tons have been shipped from its Phoenix mines and treated at the smelter during the first five months of 1910, as compared with about 390,000 tons during the same period last year.

Prospects are brightening at the Midway coal property and it is expected some test shipments of coal will be made in the near future. W. Fleet Robertson, provincial mineralogist, had a look over the prospect last week and advised the management to drift on the seam. J. H. McMillan has been engaged as manager of the property.

Charles Biesel, superintendent of the Snowshoe mine, returned on Tuesday evening after an absence of several weeks. Mr. Biesel is in east Kootenay testing a tie-cutting machine which he recently invented and it is understood the tests were entirely satisfactory. A. W. Davis, who has been acting superintendent during Mr. Biesel's absence, will return to Moyie in a few days.

New Doctor Coming

Dr. R. A. Scott will arrive in Phoenix in a few days to become associated with Dr. W. H. Dickson. Dr. Scott is an old schoolmate and fellow townsman of Dr. Dickson and comes with a long hospital training to recommend him. During the last four years he has served in the Ottawa General Hospital, the Ottawa Infectious Diseases hospital and the Vancouver General hospital. The doctor will arrive in Phoenix about the tenth of this month to take up his duties.

John Allen met with a slight accident at the Jackpot mine on Tuesday.

NORTH FORK PROPERTIES

Franklin Camp Examined by Granby

May Take Board on McKinley and Glouster

Although no bonds have as yet been taken it is more than probable that Granby interests will do some development work this summer on Franklin camp properties under option.

O. B. Smith, superintendent of Granby mines, returned a few days ago after making an examination of several properties on the north fork of the Kettle river, particularly those in Franklin camp. He was accompanied on the trip by J. C. McDonald, surveyor, P. Boyles, diamond drill expert, and M. Cranley. A report will be made to the company and it is not unlikely that Granby will become interested in one or more of the properties.

The McKinley and the Glouster are the particular groups of claims which Granby interests have under consideration. The McKinley mine has a tunnel of about 250 feet at a depth of 175 feet, and 115 feet of drifting. The property is owned by the McKinley Mines Co. Ltd., who claim to have secured assays running up to 10 per cent copper, 10 ozs. silver and \$1 in gold. Close to the McKinley are the Ajax, Jumpo, L.K.L., Manhattan and Gold King, all of which have good indications of ore.

The Glouster property is on Banner mountain, close to which are the Banner, Bullion, Mountain Lion, Alpha and Home Stake claims. The Glouster has a 50 foot shaft and is said to have ore running 13 per cent copper with \$2.50 in gold and silver.

Franklin camp contains numerous deposits of self-fluxing sulphide ores, with values running from \$8 to \$40, and with the Granby smelter only a distance of 45 miles away, there is good prospects for a flourishing camp on the north fork as soon as railway facilities are provided. Half the distance will be covered by railway this fall.

FATALITY AT MOTHER LODE

G. C. McKittrick Crushed by Falling Rock Last Saturday

G. C. McKittrick was the victim of a fatal accident at Mother Lode mine last Saturday, when he was crushed to death under a falling rock.

He had been operating a drill on the 200-foot level with F. C. Kilgour, and after the blasting they were barring down loose rock. A huge piece of rock hung dangerously and Foreman Lovers instructed the men to keep at a safe distance from it. During his absence, however, McKittrick took a chance and passed under the hanging boulder, which came down and killed him instantly. An inquest was held by Coroner Black, the jury returning a verdict of accidental death.

Deceased had recently come from Cobalt and was 27 years of age. His father resides in Indiana.

Mining in Alaska

John Tait, foreman of the Alaska Treasure mine at Juneau, Alaska, writing to the Pioneer, states that some record tunnel-driving is being done on the property. About 300 feet is being driven per month and as much as 75 feet has been driven in a week. This is being done by two machines each shift and six muckers (ten men in all) and only one-ton cars are used to haul the muck which have to be pushed 2000 feet to dump. Sixty men are employed at the Alaska Treasure and the tunnel, which is being driven to tap the lode, is the main work at present.

To Celebrate Dominion Day

Plans are under way for a big demonstration in Phoenix on Dominion Day under the auspices of the Fraternal Order of Eagles. It is expected that Grand Forks aerie will unite with the local members in the holding of a union celebration. Committees are working on a program of sports and it is expected an attractive list will be announced in a few days.

BANNER REBEKAH LODGE INSTITUTED

In Grand Forks on Saturday Evening Last

Banner Rebekah Lodge, No. 25, I.O.O.F., was instituted at Grand Forks on Saturday evening, May 28th. The ceremonies were under the direction of the officers and degree team of Phoenix Rebekah lodge, No. 17, who were assisted by Miss Bacon of Nelson, president of the Rebekah Assembly, and J. F. McDougall, local district deputy.

Banner lodge starts off with a charter membership of nearly fifty, forty of whom were instructed in the mysteries of the order for the first time Saturday evening. Applications have also been received from about thirty others.

The lodge was instituted in the beautiful hall in the Davis block, following which the following officers were elected for the ensuing term and were duly installed by the assembly president: Past grand, T. H. Powers; noble grand, Mrs. N. Taylor; vice-grand, Miss Bessie Spraggett; recording secretary, Miss Moore; financial secretary, Mrs. Cooper; treasurer, Mrs. Brereton; warden, Miss Attenbury; conductor, Mrs. Massie; chaplain, Miss May Miller; R.S.N.G., N. Taylor; L.S.N.G., Mrs. Spraggett; R.S.V.G., Miss Geordan; L.S.V.G., Miss Gaw; inside guardian, Mrs. Chapple; outside guardian, M. Lindsey; altar-attendants, Mrs. Clark and Miss Chapman.

Following the lodge proceedings an elaborate dejeuner was served in the banquet room of the hall; about seventy were seated around the tables which were laden with the delicacies of the season and decked with a profusion of cut flowers.

Among those present from Phoenix were: Mr. and Mrs. J. F. McDougall, Mrs. James Marshall, Mrs. W. A. Pickard, Mrs. S. McLeod, Mrs. R. K. Morrison, Mrs. O. D. Bush, Mrs. W. Mitchell, Mrs. Piper, Miss Hogarth, Miss McConic, Miss D. McKenzie, Miss N. Ingram, Miss Peterson, T. A. Bean, W. Ross, A. McKinnon, J. P. McKenzie, C. Wootton, P. Cranley, J. Anderson, and T. A. Love.

Knob Hill avenue is being graded with crushed rock from the Sternwinder mine. A splendid roadway should result when the rock is properly packed.

Boundary Side Lights

Mrs. T. Lyons returned to Mother Lode yesterday after a visit to Spokane. Strawberries of superior flavor are now being picked in the Kettle river valley.

Born—In Greenwood, on Monday May 30th, to Mr. and Mrs. J. T. Beattie, a son.

A spinners' convention will be held in Grand Forks; a siege of bachelorhood will now be in order.

A large acreage of land west of Midway is being irrigated and placed on the market by the Midway Fruit Land and Power company.

A car of B.C. whiskey and a car of Corby's have just been received by the Greenwood Liquor company; a car of Pabst beer and a car of G. & W. are now en route.

An important sale of ranch land, near Carmi, on the West Fork of the Kettle river, took place this week, when James C. Dale disposed of his property to Rev. Father Ferroux for \$1400.

Word comes from Mike Kane, who recently went to Sturgeon Lake, Ontario, to prospect, that his brother was drowned while returning from his claims to his cabin. At time of writing the body had not been found.

The marriage of Miss Ethel Murray to Dr. H. A. Leishman of Shoal Lake, Man., took place at Flemming, Manitoba, on Wednesday, May 25th. Miss Murray was a nurse on the staff of the Phoenix general hospital for two years. Dr. and Mrs. Leishman will reside at Shoal Lake.

Yesterday, June 3rd, was a statutory holiday, being the King's birthday. The birthday of the King is a national holiday, unless otherwise provided by special act. In the case of King Edward, his first birthday after he came to the throne was duly observed on Nov. 9th, but a special act provided that thereafter his birthday would be observed on May 24th.

JACKPOT MINE NOW A SHIPPER

B. C. Copper Resumes Operations

Company's Production Report for Month of April

The features of the week in Boundary mining are the resumption of operations by the British Columbia Copper company, after an enforced idleness of six weeks, and the commencing of shipments from the company's Jackpot mine, the Wellington camp property to which the C.P.R. has recently completed a 3 mile spur.

Two of the furnaces at the company's smelter were blown in last Sunday and all their properties are now operating at nearly full capacity.

The Jackpot's first shipment was made on Monday and the second on Thursday, the total being twelve cars, amounting to 480 tons. The property, which is in charge of Superintendent H. Johns, is in good shape to ship a large tonnage weekly, but only sufficient for smelter requirements will be sent. The ore carries good values in gold and silver and will not only flux well with the lower grade rock from Mother Lode but will assist materially in reducing the company's costs per pound of copper, under the usual system of crediting the higher values. Assays of Jackpot ore run up to \$40 per ton, but the average will run from \$7 to \$9. While the development of the property has been highly gratifying throughout, a strike of particularly good ore was made in a drift recently.

The report of the British Columbia Copper company for April shows a production of 3,000,000 pounds of copper, 126 ounces gold and 3611 ounces silver. This was for the first 19 days of the month, operations being suspended from April 19 till this week.

New C.P.R. Schedule

It is unofficially announced that a new time schedule will go into effect on the local branch of the Canadian Pacific railway. The time card has not been made public as yet, but it is expected on and after Monday next the Nelson train will leave Phoenix at 11.30 a.m., instead of 2 p.m. as at present. This is intended to make close connection at West Robson and a quicker trip to the coast, a third daily transcontinental passenger train going into effect on the main line. The train from Nelson is expected to arrive in Phoenix at 3.50, instead of 5 p.m. as at present, the Boundary trains crossing at Grand Forks.

V. Kistler, district freight agent for the Great Northern, was in the city on Saturday.

T. ALFRED LOVE, MANAGER.

SATURDAY, MAY 28, 1910

George V. Has Mind of His Own.

Whatever else George the Fifth may be, he will not be a constitutional king of the type which appears to commend itself to some popular politicians, whose ideal would seem to be that of a penny-in-the-slot kind of an automaton, round up every morning by his ministers, without initiative, conscience, or judgment of his own. It is written in Blackstone that the King of England can do no wrong, and is even incapable of thinking a wrong thought. That, of course, must be interpreted with the rider, in his official capacity as sovereign, for most of our kings have commended for their official incapability in word and in thought, by considerable license of thought and action in their capacity. What is certain is that our new monarch has not come to the throne with his mind as an immaculate sheet of white paper upon which his advisers may write what they please. When his Most Gracious Majesty is officially advised by his constitutional advisers that the welfare of the state demands that he should take any specific action, he will, of course, as in duty bound, act upon their advice. Walter Bagehot once said that it was a king's constitutional duty to sign his own death warrant if it were sent up to him by the vote of the Lords and Commons. But before King George acted upon the advice of any one set of ministers which he thought detrimental to the welfare of his realm, he would certainly do his utmost to find out whether it was not possible to furnish himself with another set of advisers with whose ideas he would be more in accord. For the great and wonderful thing about the new King is that he is a man who has ideas of his own, political ideas of his own, and what is perhaps more unprecedented still, we all know what these ideas are.—American Review of Reviews for June.

Why Some Mines Do Not Succeed

In mining the possession of nerve counts for much. The man who is not daunted by difficulties, but who determines to see the thing through in the face of obstacles, is the man who makes a success.

The fact is that few mines pay from the grassroots. It is true that many of them have done so, and the number of rich mines that have not only paid their way from the start, but have given wealth at the same time to their fortunate owners, is surprisingly large.

The Mixpah group at Tonopah made Butte and his first associates very rich, and out of the hundred odd men who took leave on the property twenty-five or thirty made fortunes, and all but five of us made money, although their leases had only nine months to run.

Nevertheless, the fact remains that the majority of mines only become producers after the expenditure of much money and the use of brains, backed by enthusiastic perseverance. The evidence of this fact lies patent on every hand, and there is hardly a mining district where properties, now rich producers, are not to be found which were turned down by wisacres who knew too much to spend money on such a prospect, or were too half-hearted to develop it properly.—Mining Review.

Asaya-Neurall

THE NEW REMEDY FOR NERVOUS EXHAUSTION. Grief and worry drain the nervous system with disheartening rapidity. The signs are lack of interest, lack of appetite, insomnia. The only remedy is Food, Rest and nerve repair. "ASAYA-NEURALL" is and makes possible this cure. It feeds the nerves, induces sleep, quickens the appetite, aids digestion, restores nerve vitality. \$1.50 per bottle. Obtain from the local agent.

JOHN LOVE.

Mining Institute Meets at Grand Forks

Papers on Mining Read and Discussed—Report on Franklin Camp Asked For

The eighth general meeting of the western branch of the Canadian Mining Institute was held in the city hall, Grand Forks, on Thursday evening, 26th inst.

LARGE ATTENDANCE

In the evening the hall was well filled, a cordial invitation to be present having been extended to all interested. This was taken advantage of by a number of representative men of Grand Forks, and several prospectors and others directly interested in the mining industry. The meeting was called to order by W. Fleet Robertson of Victoria, provincial mineralogist, who is chairman of the branch for the current year. The branch secretary, E. Jacobs, of Victoria, was also in attendance. Among other members of the institute present were Frederick Ketter, mining engineer for the B. C. Copper Co., Greenwood; Wakely A. Williams, O. B. Smith, Jr., W. B. Bishop and F. E. Laibe, of the Granby Consolidated M. S. and P. Co.; C. F. J. Galloway and E. J. Conway, of the Whitewater Deep Mines, Slokan; O. E. LeRoy of the Geological Survey of Canada, and Dr. J. Bonnell Porter, professor of mining engineering at McGill University, Montreal. Local residents present included Mayor Clark, Martin Burrell, M.P., Police Magistrate Cochrane, Judge Brown, G. W. Wooster, F. M. Kerby, C. S. Galloway, A. B. Hood, E. Spraggett, D. McCallum, R. A. Brown and many others. John R. Jackson of Midway, M.P.P. for Greenwood electorate, was among the visitors from other parts of the Boundary. After the chairman called the meeting to order Mayor Clark gave the visitors a hearty welcome to Grand Forks. In the course of a felicitous address he paid a tribute of appreciation to the chairman in his official capacity of mineralogist for the province of British Columbia, and acknowledged the value of his work and the general confidence placed by the public in his official reports. He next expressed pleasure at seeing there several of those who had for years been closely identified with the development of the larger mines of the district, among them Mr. Ketter, who had transformed the Mother Lode from a mere undeveloped prospect to a big producing mine, and Mr. Smith, who had during a similarly long period taken a prominent part in the development of the immense mines at Phoenix of the Granby Co. He also made suitable reference to Dr. Porter and Mr. LeRoy, distinguished in their respective mining or geological work. The attention of the visitors was called to the fact that Grand Forks possesses the largest copper smelter in the British empire, and its very considerable smelting capacity and modern methods were referred to with pride. The good work of the Dominion Geological Survey has already done and is doing in the district was acknowledged, and the hope was expressed that the members of the institute would at that meeting consider the desirability of recommending to the director of the survey the great need that exists for fuller information relative to the North Fork of Kettle river, and of Franklin camp in particular.

Martin Burrell, M.P., also welcomed the visitors and in a happy and appropriate speech showed them that Grand Forks appreciated the importance of the great mining industry with which they are so closely connected and recognized that they are doing much good work in developing it and thereby utilizing the great mineral resources of the country.

MINERS PIONEERS

The chairman gracefully acknowledged the cordiality of the welcome so heartily accorded the western branch of the Canadian Mining Institute, and thanked the mayor, Mr. Burrell, and the citizens of Grand Forks generally for the kindness thus shown the visitors. He paid tribute to the importance of the Boundary as a mining district, and stated that much of the increase in mineral production of the province in recent years was attributed to the steadily enlarging output of Boundary mines. He outlined the customary course of development of a country—the earliest pioneers were usually the trappers and fur-traders; then came the placer gold miners, who made trails into the country; and next followed the prospectors who discovered the ore bodies and opened them up sufficiently for the capitalists to expend money in their development. Following the successful development of the ore bodies railways were built and these facilitated the settlement of the

country and its being made available for agriculture and other industries under conditions that were favorable but not previously in existence. These several stages the district they were then in had passed through until now it possessed varied resources which it was practicable to turn to profitable account—in mining, lumbering, stock-raising, agriculture, fruit growing, etc. He was very pleased to be able to again visit this big and important district which he had also seen during several earlier stages of its settlement. He was glad to find that the institute he and his fellow members represented was recognized as doing important and useful work, and he most sincerely thanked the gentlemen who had made them welcome in such kindly terms.

PHOENIX DEPOSITS

"The Geology of the Phoenix Ore Deposits." In the course of his address Mr. LeRoy gave much interesting information, which was the more readily understood by non-technical men present by reason that the speaker illustrated his subjects with colored diagrams, showing the rock formations and the positions of the ore bodies to which reference was repeatedly made. After Mr. LeRoy had replied to some questions asked, he was freely applauded.

KETTLE RIVER ORE

The secretary next read a paper prepared by L. Reinecke, also of the Dominion Geological Survey, entitled, "Silver and Gold Deposits on the West Fork of Kettle River." In this Mr. Reinecke, who unfortunately had found it necessary to hasten to the West Fork to commence his season's fieldwork there, renewed the rock formations and occurrences of gold and silver-bearing ores in the west fork country, and gave information concerning development work hitherto done. The great drawback to extensive development had been the absence of transportation facilities, but this will soon be remedied and thereafter the ore bodies of the district will doubtless be further developed.

Following Mr. Reinecke's paper was a summary of the paper that had been prepared by Charles Cammell, also of the Geological Survey, whose work for several seasons had been principally in the Similkameen district, where he now is. In that paper the mineral resources of a portion of the southern interior of British Columbia lying between the Fraser and Okanagan valleys were described. The main features were outlined in the summary read to the meeting by the secretary.

VOTES OF THANKS

Votes of thanks were passed to the several authors of papers (that to Mr. LeRoy having been proposed by Mr. E. Spraggett on behalf of the prospectors, who, he said, appreciated that Mr. LeRoy is doing important work for the district), to the press of the Boundary and Kootenay for notices of the meeting, to the mayor and citizens of Grand Forks for their kindness and the many courtesies shown the visitors.

REPORT ON NORTH FORK

A resolution was also passed requesting the Geological survey to have prepared a report on the North Fork country, especially Franklin camp, and a suitable map to accompany same. No other business having been brought forward, the chairman declared the meeting closed.

In addressing the jury in a recent murder trial in Toronto, Judge Riddell remarked that in all the murder cases he had been called upon to try, only one was against a native-born citizen, and in that case the unfortunate man was seemingly not responsible for his act. We do not suppose that all the judges could say the same, but even the testimony of this one seems a striking tribute to the character of our native-born citizens.

NATIONAL PARK IN KOOTENAY

Victoria, May 30.—Proposals for the establishment of a British Columbia National Park in the Kootenay were advanced tentatively to the Timber and Forestry commission at the sitting of that important body here today by H. G. Chapman of the Geological Survey of Canada.

The chairman prefaced his proposal with an interesting explanation of steps in a similar direction already taken by the United States authorities who have reserved as a park an extensive area extending from the prairies to the north fork of the Flathead river on the west, and comprising in all some 1350 square miles. This area was formerly under reserve as a forest but its classification has recently been changed to that of a National Park. It is desired that British Columbia shall establish a similar National Park on this side of the boundary line, tacking on to the American park at the international line.

Such a Provincial Park would connect on one side with the Alberta Park reserve, and on the other with the National Park of Canada, intelligent provision thus being made for the protection of game in its annual migration north and south. The area proposed to be devoted to such National Park purchases by British Columbia is roughly about two hundred square miles, while the Alberta area connecting is somewhat larger as also that of the American preserve. It is contemplated that adequate provision shall be made for the utilization of the natural reservation, mineral, etc., within the proposed park boundaries the desired reserve limit being solely for a forest and game protection purposes.

Brighten your rooms with wall paper now selling at reduced prices at A. Altmoss's.

ZAM-BUK
 SAVED THIS BABY

Mrs. M. Barrett, of Montreal, says: "A horrid rash came out all over my baby's face and spread until it had totally covered his scalp. It was irritating and painful, and caused the little one hours of suffering. We tried soaps and powders and salves, but he got no better. He refused his food, got quite thin and worn, and was reduced to a very serious condition. I was advised to try Zam-Buk, and did so. It was wonderful how it seemed to cool and ease the child's burning, painful skin. Zam-Buk from the very commencement seemed to go right to the spot, and the pimples and sores and the irritation grew less and less. Within a few weeks my baby's skin was healed completely. He has now not a trace of rash, or eruption, or eczema, or burning sore. Not only so, but cured of the tormenting skin trouble, he has improved in general health."

Zam-Buk is sold at all stores and medicine stores, or a box or post free from Zam-Buk Co., Toronto, for price, please for 50c. A certain cure for all skin diseases, cuts, burns, etc., and for piles.

Zam-Buk

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, viable, and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes labor's advent easy and almost painless. It quickens and vitalizes the feminine system, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

"It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as 'just as good.' Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drug. Is a pure glyceric extract of healing, native American roots.

COLUMBIAN COLLEGE.

Founded 1892—Incorporated 1893.

NEW WESTMINSTER, B.C.

Provides a Christian home for students of both sexes at moderate rates. Has a preparatory class for junior students, doing grade public school work. Does high school work, confers all high school privileges, and prepares for teachers' examinations. Teaches all branches of a Practical Business Course and gives Diplomas. Gives a liberal education in its Collegiate Course and in the Ladies' Course for M.E.L. and M.L.A. In University work, can take students through the complete Arts Course, and the degree of B.A. can be obtained from Toronto University, which the college is in affiliation.

For fuller information and terms write Rev. W. J. Sippell, B.A., B.D., Principal, or Rev. J. P. Bowell, B.A.,

MI-O-NA

Relieves Stomach Misery Almost Immediately

If the food you ate at your last meal did not digest, but laid for a long time like lead on your stomach, then you have indigestion and quick action should be taken.

Of course there are many other symptoms of indigestion, such as belching up of sour food, heartburn, dizziness, shortness of breath and foul breath, and if you have any of them, your stomach is out of order and should be corrected.

Mi-o-na tablets have cured thousands of cases of indigestion and stomach trouble. If you have any stomach distress, Mi-o-na will relieve instantly.

But Mi-o-na unlike most so-called dyspepsia remedies, does more than relieve; it permanently cures dyspepsia or any stomach trouble by putting energy and strength into the walls of the stomach, where the gastric juices are produced.

A large box of Mi-o-na tablets costs but 50 cents at JOHN LOVE'S, and are guaranteed to cure or money back. When others fail, Mi-o-na cures. It is a producer of flesh when the body is thin; purifies the blood and makes rich red blood.

HYOMEI

(Pronounced HIGH-O-ME)
CURES CATARRH, ASTHMA, Bronchitis, Croup, Coughs and Colds, or money back. Sold and guaranteed by JOHN LOVE, Druggist.

Dry, wood in car lots. Apply to J. Trombley, Phoenix, B.C.

B. C. MINING

The Canadian Consolidated company is said to be negotiating for the purchase of some copper claims in the Mammett lake district.

W. A. Carlyle, at one time provincial mineralogist for this province and later manager of the Le Roi at Rossland, is now a professor of London university.

Three million dollars are to be immediately expended on the development and re-equipment with modern machinery of the Dunsuir collieries on Vancouver Island.

Expert examination of the Golden Zone-group of claims at Hedley has been under way for the Redeemable Investment company of Boston, and if satisfactory extensive development work will be commenced. G. F. Milliken, M.E., has been in charge of the examination.

M. K. Rogers, who is interested in the Hidden Creek Copper company, which has valuable properties at Goose Bay, in the Portland Canal district, states that the company is contemplating the immediate erection of a smelter at that point, with a capacity of 500 tons per day, which will take the product of their mines as well as make a bid for the business of the Alaskan mines. He says his company has spent \$400,000 in development work on the Hidden Creek mines.

COPPER

The New Edition of the
COPPER HANDBOOK

The Copper Handbook contains, in this new and greatly enlarged edition, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its greater bulk. It is filled with FACTS of vital importance to Vol. VIII, issued May, 1909, contains 1600 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters, covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Imports, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents; Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference
Book On Copper.

TERMS are the most liberal. Send no money, but order the book sent to you, all carriage charges prepaid on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

PRICE is \$5 in buckram with gilt top, or \$7.50 in genuine full library morocco. WRITE NOW to the editor and publisher,

Horace J. Stevens

36, SHELTON BUILDING, HOUGHTON MICH., U.S.A.

PROVINCIAL.

A third newspaper is being started at Prince Rupert.

Four hundred muskrats, trapped in a single week, sold for \$200 in Kaslo recently.

The jury returned a verdict of "not guilty" in the celebrated Coal Creek holdup case.

One hundred business men of Winnipeg will shortly make a tour of British Columbia.

The fruit crop in the Similkameen valley gives promise this year of an enormous yield.

Archie Leitch, the dean of the lumbermen of the interior, died suddenly at Cranbrook Saturday.

At Vancouver on May 25th the Rev. Neil MacNeil was consecrated as archbishop of British Columbia.

The first local strawberries on the market this year were grown by C. Clay, near Rossland and on sale last Saturday.

Yale and Cariboo have been constituted a separate public works department in charge of Hon. T. W. Aylmer.

The Similkameen river has never been known to be so high at this season as this year. A rise of 19 1/2 feet has been measured.

A townsite has been asked for at the mouth of Bitter Creek, Portland Canal, and a hotel and a couple of stores are under construction.

The Masonic grand lodge meets at Cranbrook this year, when the new temple will be opened and occupied for the first time. The convention will meet about the 23rd of June.

With the completion of the wireless plant at Prince Rupert, which has been under construction for some time, facilities are established for uninterrupted communication between that port and Vancouver.

The consolidated and revised companies' act of British Columbia, to which the legislature last session gave special attention, will be brought into force in accordance with that legislation itself on July 1st.

Last Saturday Vancouver lacrosse team defeated New Westminster, the Minto cup holders, by a score of nine goals to four. This was the second game of the league series, New Westminster having won the first.

By the capsizing of a sail boat in which they were out for a pleasure trip on Moyie lake last Sunday, Mr. and Mrs. A. K. Hilder of Moyie and their two children were precipitated into the water and narrowly escaped drowning.

A fisherman caught 87 pounds of salmon at Kaslo the other day. One salmon caught there this season weighed 21 pounds, while plenty are taken from the water ranging from 14 to 17 pounds. Kootenay Salmon is becoming famous and sells at 12 1/2c.

The steamer Kaslo had an accident at Ainsworth when trying to make a landing recently. The steamer was some distance from shore when a hole was discovered in her bottom and the crew escaped with difficulty before the boat went under water.

Two hundred school teachers of Spokane will visit various parts of the provinces of British Columbia, Alberta and Manitoba, and the state of Minnesota on their summer vacation trip, a special train on the Soo Spokane leaving Spokane on the morning of June 11.

NEW FURNACE FOR SMELTING

Edmonton, May 28.—An electric furnace that will generate 6000 degrees of heat and that will be used for the purpose of smelting ore at the mouth of the mines, has been manufactured by the Electric Construction company. The furnace was ordered by an old prospector who claims he has valuable holdings somewhere in the mountains. He intends to pack the furnace (which weighs little more than 100 lbs.) and a small generator to his mine, where he will generate the necessary electric juice to heat the furnace from a mountain stream and smelt the ore right on the ground, bringing back to civilization nothing but the pure bullion.

The furnace is about 18 inches square and is insulated with asbestos lumber and asbestos cement so perfectly that when the interior is heated to the full 6,000 degrees the outside remains practically cold. The heat is produced by an electric arc, to which the current passes through a regulator. A test of the furnace was made the other day with a small amount of silver ore in the crucible. In 14 minutes after the current was turned on the silver was melted. The interior of the furnace will remain at a red heat for some hours after the current is turned off owing to its complete insulation. This is the first electric furnace of the kind to be manufactured in Canada.

Spokane Interstate Fair

The 1910 premium list for the Spokane Interstate Fair has just been published and we have received a copy. The list of prizes offered is more liberal than ever before. The fair will be held from October 3 to 9.

Coal sells at \$120 a ton at Quesnel. The Mail will be Fort George's new paper. Freight on the plant from the coast will cost \$1500.

Fifty-six salmon canneries will operate in British Columbia this year, and pack between 500,000 and 600,000 cases.

MacKenzie & Mann are calling for tenders for building of the first 60 miles of their road in British Columbia. This construction will be from the coast eastward.

GREENWOOD, B.C.

Backache, Headache, Internal Pains.

"For this reason I recommend it to all those who are suffering with that terrible malady, dyspepsia. I hope that all who are afflicted in this way will take Peruna and Manthosaid." **Chronic Nasal Catarrh.**

Mr. Chas. H. Stevens, 122 Sixteenth St., Detroit, Mich., writes:

"It affords me great pleasure to testify to the merits of Peruna as a remedy for catarrh."

"I suffered for some time with chronic nasal catarrh, but after five months treatment during which time I used seven bottles of Peruna I am pleased to say that I am entirely well, there not being the slightest trace of catarrh left."

"Peruna is without a doubt, in my mind, the greatest remedy known for catarrh."

Weak, Tired Feeling.

Miss Marie A. Leaser, 625 W. 12th St., Chicago, Ill., writes:

"I am glad to give a good word for Peruna, and I hope that all who see this who are troubled with systemic catarrh as I was for years, will profit by it."

"I had tried many remedies, but none did more than give me temporary relief, and some did not even do that."

"I took Peruna at the suggestion of a friend, and was more than pleased and surprised at the results."

"I am now perfectly well and strong. That weak, tired feeling has left me, and I feel like a different person entirely."

The Slavery of Disease.

It is wonderful how many women in Canada and the United States have been practically made new again by the use of Peruna.

Not the victims of any organic disease, but just a half-dead and half-alive condition.

Miserable, dragging pains that keep a woman always from doing her best work, from being her best self. Cross and petulant, perhaps. May be even a disaster in her household, just because her health is continually below par.

She never feels quite right. She gets the reputation of being silly, or morbid, or ill tempered.

Her trouble is not a moral one at all, it is simply a physical one. Make such a woman well and she immediately becomes transformed into a new being mentally.

This is exactly what Peruna has done in a multitude of cases.

BRIEF TOPICS OF LOCAL AND GENERAL
INTEREST TO PHOENICIANS.

Old papers for sale at the Pioneer office.

Fresh seeds for sale at Love's Drug Store.

C. D. Hunter was in Grand Forks on Thursday.

Kennewick berries 20c. basket at the Big Store.

A good Kelson piano for sale; apply to O. D. Bush.

Jeff Davis of Grand Forks was in town on Tuesday.

Marion McHale left Thursday for the Shuswap district.

H. L. Goodwin returned Monday from a trip to Montana.

Fresh milk daily from the Phoenix Dairy for sale at Ellis' confectionery store.

To rent, house on Ironsides avenue; convenient to mines; apply to C. A. Ross.

The Misses Heidman returned on Monday from a visit with friends at Roseland.

Born—In Phoenix, on Thursday, May 26th, to Mr. and Mrs. D. Muscatto, a son.

Vegetable and flower seeds—seeds that grow—5c. per package at Love's Drug Store.

J. Manning, of the E.T. Bank returned Saturday from Grand Forks where he had been relieving for a few days.

F. Werner has been engaged to supply music at Christena Lake for dancing every Saturday during the season.

C. C. Thorne, travelling Great Northern auditor, spent a few days of this week at the company's local headquarters.

As a result of the change in the C. P.R. schedule, mail for the east will close at 11 a.m., commencing on Monday.

If you are thinking of building or require building material of any kind—lumber, shingles, lime, brick—call on me for figures. Phone A44. C. A. Ross.

Arthur Swanson, who has been attending Coeur d'Alene college, returned home on Monday. He will spend his vacation on a ranch at Curlew.

Thomas Brown left Tuesday on a trip to Vancouver. It is some time since our foremost clothier has ventured so far from home and a romance is hinted.

Mrs. J. Marshall and Miss D. McKenzie leave today for Kamloops to attend the Rebekah provincial assembly, being representatives from the local lodge.

J. McDougall, the popular engineer on the local run of the Great Northern, arrived in town Thursday evening, accompanied by his bride, the nuptial knot having been tied in Spokane on Monday.

F. W. Auvache, formerly on the staff of the Phoenix Pioneer, and Mr. Lever, recently of the Summerland Review, have acquired the Vernon Okanagan, which they will conduct along independent lines. The Pioneer wishes them every success.

According to the Daily Record of Juneau, Alaska, John Tait, who left Phoenix some weeks ago, has been appointed foreman at the Alaska Treasure mine, of which W. J. Priestley, formerly of Phoenix, is superintendent.

The fire department had a run to a chimney blaze on Aetna street Wednesday noon. Fortunately their services were not required. Had the blaze ever gained headway, the high wind blowing at the time would have made a clean sweep.

W. A. Pickard will leave in a few weeks with his family for the coast. Mr. Pickard is prominent in local lodge circles and during the past two years has been an efficient financial secretary of Phoenix Miners' Union and has many friends who will regret his departure.

J. F. McDougall, local district deputy grand master, and representative from Snowshoe lodge, leaves today for Kamloops to attend the grand lodge I.O.O.F. which meets on June 7th, 8th and 9th. Mrs. McDougall accompanies him en route for Vancouver, where she will visit for a few weeks.

The Methodist Ladies Aid wish to inform their friends that on the afternoon and evening of June 11th, they will serve ice cream, cake, strawberries, tea and coffee. Place of sale is the store between Nelson Carson's clothing store and Miss McDonald's millinery store. Popular prices.

Curlew Butter is reduced to 40c. per pound at the Big Store.

Mrs. J. C. Tait will leave shortly for Alaska to join her husband.

Mrs. Robert Carson leaves today for Enderby to join Mr. Carson.

Mrs. Charles Stalker left yesterday on a trip to the Old Country.

Two hundred miners' licenses were issued in Greenwood this week.

Stopping an ad. to save money is like stopping a clock to save time.

Furnished rooms to rent, Aetna rooming house; apply to A. Webster.

Expert watch repairing at Black's jewelry store; satisfaction guaranteed.

Mrs. J. T. Hawthorn is substituting for Principal Grant at the public school.

Miss Johnston of Minneapolis is on a visit to her cousin, L. W. Blaisdell.

Born—In Phoenix, on Tuesday, May 31, to Mr. and Mrs. Thomas Rowe, a son.

Mrs. O. D. Bush and Mrs. W. Mitchell visited friends in Grand Forks on Saturday.

For sale, cheap, six-roomed house with lot; next to Finnish hall. Apply to John Hendricksen.

The social given by the Ladies' Aid in the Methodist church Tuesday evening passed off very successfully. An enjoyable program was rendered and refreshments were served.

The Ladies' Aid of the Presbyterian church will give an ice cream social in the church on Thursday evening, June 9th. A program will be rendered during the evening. Admission 25c.

Some people put the savings of years into a home and then rely on their luck to avoid the thousand and one chances of a fire; others invest their entire worth in a store, innshop or other business, and think that they can carry the risk as well as the Insurance company, when a fire would perhaps mean utter ruin to them. The next whistle may mean your home or business. Don't risk it! D. J. Matheson represents Fire Proof companies.

A Speedy Capture

Ed. Burden's hotel, in Molson, was set on fire early Sunday morning and burned down. There were about 20 people sleeping in the house at the time, many of whom had to jump from the upper windows in order to save their lives. One girl fell onto the roof of a barber shop and was slightly injured. E. V. Kinney was seen to come out of the building when it commenced to blaze, mount his horse, and ride away. Sheriff Jones and two others attempted to arrest him but he stood the posse off with a gun as he was afraid of being lynched. Kinney crossed the line and a message was sent to the Provincial police office in Greenwood. Chief Bunbury, accompanied by Billy Wilson made a hard ride of 50 miles and captured Kinney in a shack on Anarchist mountain. He did not resist arrest nor make a gun play. Inside of 24 hours from the time of receiving the message Chief Bunbury had the prisoner behind the bars of the Greenwood jail. This is swift work when the long hard ride on horseback is taken into consideration, and shows that the provincial officers in this city are not asleep.—Lodge.

Notice to Householders

At present there is an outbreak of Diphtheria in the city of Phoenix, and there have been a great many cases of Measles develop both within the city limits and outside during the past month.

There has been about one case out of ten of the Measles reported to the proper authorities and this condition must be put a stop to.

It is probable that the householders of the district are not aware that all suspected cases of any infectious disease must be reported to the health officer within 24 hours and failure of such leaves the head of the house open to a fine of \$100, or six months imprisonment, or both at the option of the presiding magistrate.

The section of the health act is as follows:—

Chap. 91, Section 71, Health Act 97.

"Whenever any householder knows or suspects or has reason to know or suspect that any person within his family or household has the smallpox, diphtheria, scarlet fever, cholera, typhoid, measles, whooping cough, mumps, or any other contagious or infectious disease, he shall (subject in case of refusal or neglect to penalties provided by subsection 2, section 97) within 24 hours give notice thereof to the medical health officer of the municipality or district in which he resides. Such notice shall be given at the office of the medical health officer, or by a communication addressed to him, and duly mailed within the time above specified."

Subsection 2, Section 97, Chap. 91:

"Any person who violates any provision of this act shall, unless it is otherwise specially provided, be liable for every such offence to a fine not exceeding one hundred dollars with or without costs, or to imprisonment with or without hard labor for a term not exceeding six months, or to both fine and imprisonment in the discretion of the convicting court."

By reading the above several householders of the vicinity will see that they have left themselves open to conviction, and I shall ask them to notify me at once of any cases that have developed within their home during the last month. If there is failure to do so I shall be obliged to take action according to the above.

This notice only covers the town proper; but all outlying districts as I have been appointed Deputy Provincial Health Officer by the B.C. Government. W. H. DICKSON.

House for rent, partly furnished; apply at Pioneer office.

It takes two to make a quarrel and as a general thing three to make a divorce.

You don't have to have anybody help you get into trouble, but you are lucky if you don't have to have somebody help you get out.

If money really talks, some of us are of opinion that it ought to consult a good instructor on voice culture.

Some men swear because they think it funny, and others swear to influence the mind of others. The latter is more effective.

If you stick to a job in hope that it will recompense your action and faithfulness, you are due to get a job.

There probably is a smarter man in the world, but it is a safe bet that he is afraid to come out and prove it.

Adam was lured blest. He didn't have to pay any club dues nor qualify for any ancient order of anything.

The only reason for locking the barn after the horse is stolen is to let the thief know that you noticed it.

Simple violations of the law are easily overlooked when it is to our interest to be friendly with the violators.

When he talks much and long about high ideals he is either one of two things—a great financial success who wants to forget how he came that way or a great failure who ditto.

A lie is generally more agile and athletic than a truth, but that is because it has to be.

Leading the conversation yourself is a safe way either to get people talking about you or to keep them from it.

Anybody brimful of facts and figures can make a good talk, but it requires an expert to make one without the same.

Just Existence, Softly is the moonlight glowing. Swiftly is the water flowing. Warmly are the breezes sighing. Sweetly are the waves replying.

Bounds your boat along the billow. Who such night would seek his pillow? It's the ache of the season. When love tramples stupid reason.

Far beyond the dim horizon Lie the islands of our dreams. Music softly falls and dies on Love's own ears in liquid streams.

Like dull silver in the distance Gleam the happy islands far. We are drawn without resistance Where it's bliss to say "The end."

WHERE DO YOU BUY YOUR CLOTHES?

Whether you are well dressed or not is determined more by where you buy your clothes than by what you pay for them.

No matter what you pay us for a suit you may be sure that it's the best to be had for the money; best in material, workmanship, style—everything, and that you'll be well dressed when you get it on.

The more a man knows about good clothes and correct dressing the more pleased we are to show him our stock. He recognizes at once the perfection of style and material in every garment he sees here. Let us show you how we can suit you

for \$25.00

COSGROVE & MCSTOCKER, Proprietors

Tailoring

YOUNG MEN

often owe much to their appearance. Everything else being equal, the well-dressed fellow will get ahead faster than the carelessly attired competitor. We help young men and

OLD MEN, TOO,

or that matter, to get ahead as far as good clothes will take them. We make a suit or a coat so that it will fit and look as if it belonged to the wearer. The material will be right, the tailoring will be right, and the price will be right. At least you will say so. In reality it should be higher.

J. Carson MERCHANT TAILOR
