Boundary Mines Sent Out 390,000 Tons of Ore in 1901.

The Phoenix Pioneer.

Phoenix is the Centre and Leading Mining Camp of Boundary.

Devoted to the Interests of the Boundary Mining District.

VOL. III. PHOENIX, BRITISH COLUMBIA, SATURDAY, JUNE 7, 1902. No. 30.

THE BIG STORE

Our $10.00 Clothing Sale Still Lasts.

Are You Interested?

The Question of Clothing interests every man who wants to dress with credit to himself. Our solution of the Clothing Question will interest any man who wants his clothing money to go as far as it will. You can have more fashionable clothes on a given appropriation on our plan than any other. Will prove it at our Ten Dollar Sale.

Shoe Department.

The Genuine Slater Shoe made in all lasts. We guarantee to fit you, and in a fit there is comfort.

$4.00, $4.50 $5.50

We also handle the Celebrated Shoe for Ladies.

See Our Window for SUMMER HATS

Your Choice for 50c. A great snap at the price.

Grocery Department

The Grocery Department you will find is complete in all its lines. This season we have arranged for Semi-Weekly shipments of Fresh Fruits and Vegetables.

Our EGGS, BUTTER, CHEESE, AND ETC. we guarantee to be Strictly Fresh, not only during spring, but the year around. Only the Best is the motto of this Dept.

THE HUNTER-KENDRICK CO., Limited.

Phoenix. Greenwood. Grand Forks Sandon.

MORRIN, THOMPSON & CO.

With the Budding Spring Time.

Comes the desire to have the appearance of the house in keeping with nature,

Neat, Clean and Attractive.

We have all the requisite articles for the "Strightening Up Season."

KALSOMINE—All Shades.

STAG BRAND of PAINTS
ALL COLORS IN PINTS, QUARTS, HALF GALLONS AND GALLONS.

SCREEN DOORS—All Sizes
ADJUSTABLE SCREEN WINDOWS
SCREEN NETTING ALL WIDTHS.

DO YOU NEED AN
ICECREAM FREEZER ?
WE HAVE THE :::
:: GEM FREEZER
2 QTS., 3 QTS., 4 QTS., 6 QTS AND 8 QTS.

Give us your GROCERY order for June and be convinced that the place for VALUE is the CORNER STORE.

MORRIN, THOMPSON & CO.
POST OFFICE STORE

SNOWSHOE MACHINERY

Electric Compressor has Arrived.

65 MEN ARE NOW ON THE PAY ROLL

Many Cars of Material Being Used—Main Shaft is Down 275 Feet.—Will Be Continued to the 300 Foot Level.

The Snowshoe mine is the scene of the greatest activity these days. Some months ago the first half of a twenty drill air compressor was ordered, and within the last week or two most of this machinery has arrived from the Jenckes Machine Co., of Sherbrooke, Quebec, and is being placed in position as rapidly as possible.

This week John Wilson has been busy bricking in the two 80 horse power boilers, which will be used as an auxilliary plant. This work requires about 35,000 bricks. Several cars of the compressor proper have also arrived, and are being unloaded at the siding put in at the site of the new compressor house.

For the last two weeks the work of excavating for the foundations for the compressor has been going on. As the compressor house will be on solid rock itself, it will make the most permanent kind of a foundation to hold the heavy machinery. Yesterday work was started on the foundation timbers for the building, which will be about 40x80 feet in size, and it will be pushed as fast as men can do it.

The compressor is of the Rand duplex type, and is arranged to be operated by either electricity or steam, the current being taken from the Cascade power line, which runs close to the Snowshoe. It was built so that ten more drills can be added at any time, when needed.

Number of Employees Increased.

In order to keep up with the development of the property, and at the same time push the operations for the extensive improvements, the force of men employed at the Snowshoe has of late been materially increased. For a long time the average number was about 30, but lately this has been gradually increased, until at present there are between 65 and 70 men on the mine payroll.

At the main shaft of the Snowshoe, which is on an incline, the work of deepening that important part has been steadily progressing. After connecting the 200 and 100 foot railway tunnel workings with the surface, sinking was continued, and the shaft is now down more than 275 feet; and will soon reach the 300 foot level. This is a three compartment shaft, about 8x15 feet in the clear, and will be the permanent working shaft of the Snowshoe, and through which most of the ore will be extracted.

Plans are being made for the installation of one of the largest hoists in the Boundary country for use on the Snowshoe, and this will doubtless be put in this summer. At present the old hoist, formerly used on the old shaft, is being utilized, temporarily.

Dr. Mathison, dentist, will be at his office, Bank block, from June 10th to 14th.

FROM THE ROSSLAND EAGLES.

Communication Sent to Worthy Secretary in Phoenix.

FRATERNAL ORDER OF EAGLES,
Rossland, B. C., May 28, 1902.

To the Worthy Secretary,
Phoenix Aerie, F. O. E.

Dear Sir and Brother:—On behalf of Brother Gray, a number of our Aerie, I take this opportunity of thanking the Eagles in general in your town and more especially some of the officers of your Aerie for courtesy shown Brother Gray during his recent trip to your city, on which occasion he was shamefully misquoted by some of your citizens. But the Secy. of the Miners' Union here, Mr. Woodside, informed us that he had written the Miners' Union in Phoenix, stating they know nothing whatsoever against Brother Gray, and I should be pleased to hear from you if same is generally known, as Brother Gray may in the near future again visit Phoenix, and if said cloud was not lifted his trip would be fruitless.

Brother Gray has resided here for the past three years, and no one can say one thing against him. As a citizen he is one of our best. As a man you will always find him square and upright, and as a Brother steadfast and true. Awaiting a reply,

Fraternally yours,
H. DANIEL,
Worthy Secy. No. 10.

City and District Notes

Dr. Mathison, dentist.

We exchange at the Granby Exchange. 29-30

Wm. Yolen Williams went out on Monday's train to Spokane.

Wadds Bros., photographers of Nelson, will visit Phoenix again shortly.

W. B. Cochrane and P. C. McArthur visited Grand Forks this week.

Jay P. Graves, manager of the Granby Co., spent last Sunday in Phoenix.

Rev. Thompson, of Midway, will occupy the Presbyterian church tomorrow.

Mr. Justice Walkem finished his Supreme Court sitting in Greenwood this week.

Miss Johnson, matron of the Phoenix General Hospital, arrived on Saturday's train.

Mrs. J. B. Boyle left on Monday for Vancouver, where she will spend the summer.

For the month of May the average attendance at the Phoenix Public School was 81.85.

Some 26 or more actions have been started in Grand Forks against delinquent taxpayers.

The Grand Forks News-Gazette is now the best weekly ever published in the smelter city.

Wm. Tomlinson, chief clerk at the Snowshoe mine, returned Monday from a trip to Spokane.

Columbia city bonds will be hypothecated for $25,000, to carry out some civic improvements.

Jund 26, Coronation Day, has been proclaimed a public holiday throughout the Dominion.

No meeting of the city council was held this week, an adjournment being taken till next Wednesday.

Greenwood's city council appropriated $150 for the Fernie sufferers; Grand Forks appropriated $30.

After being closed on account of the prevalence of measles, the Greenwood public school is open once more.

Hugh McGuire, well known in Phoenix, is trying his fortunes in the Thunder mountain country, Idaho.

Jack Cole, formerly shift boss at the Brooklyn mine, was found dead at his ranch on Arrow lake Wednesday.

With characteristic promtitude, the Western Federation of Miners donated $3,000 for the aid of the Fernie sufferers.

The Too Rich to Marry Co. will reach Phoenix next week Thursday, and is assured in advance of a large house.

The young son of Frank H. Parker, cutter for P. Burns & Co., at Greenwood, died Monday night, after a short illness.

President Miner, of the Granby Co., is expected to arrive in the Boundary about July 2d, on his annual trip of inspection.

Mrs. G. E. McAuliffe and son Gus are spending the summer at Orondo, Wash., on the Columbia river, 15 miles above Wenatchee.

It is said that the government proposes to spend $7,000 in building a courthouse and jail in Greenwood. Both are badly needed.

Dr. R. W. Heinneker, the aged president of the Eastern Townships Bank, resigned this week, after serving the bank for many years.

Mrs. L. F. Holtz, who has been spending several months at Los Angeles, Cal., returned last Saturday greatly improved in health.

The city council of Grand Forks has "chipped in" to the tune of $1,000 for the Dominion Day celebration to be held in that city this year.

Rev. John M. Millar, M. A., and wife left for Rossland by Monday's train, and thence to Calgary where Mr. Millar will be for the balance of June.

Marshall & Shea have leased the storeroom in the McMillan block, adjoining their Bellevue hotel, and a doorway was cut through this week to connect the two buildings.

A force of men is now busy stringing the telegraph wire along the Washington and Northern and V., V. and E. railways—the official title to the Jim Hill railway line to Republic.

Householders, you are sure to have some goods that are useless to you, but can be used by some one else. Call at the Granby Exchange and exchange or get cash for them. 29-30

Robert McCutcheon, formerly of Phoenix, had his right leg nearly severed at the knee last week by falling against a circular saw in the new shingle mill at the head of Christina lake.

King Rees, the new local manager for P. Burns & Co., assumed his duties last Monday and moved up his family from Greenwood. They occupy the Presbyterian manse on Grey Eagle avenue.

AT UNDER $3 PER TON

Mining and Smelting of Granby Ore.

WHAT MR. GRAVES TOLD A REPORTER

Thought the Cost of Getting Out and Treating Ore Would Soon Be Within the Figure Above Named.

A reporter in Spokane recently interviewed Jay P. Graves in regard to costs of mining and smelting by the Granby Co. Here is what was published in the matter:

"I believe that before a great while we shall be able to mine and to smelt the Granby ores for $3 a ton," said J. P. Graves, general manager of the Granby properties.

"Do you mean that you will be able to handle ores running in value as low as $3 a ton?" Mr. Graves was asked.

"No, I do not," he answered. "The item of $3 will not include the cost of refining nor of marketing the product, and I do not care to say what the expense of those items is. The $3 figure, however, will include mining and smelting.

"We are steadily effecting economies in the cost of treating our ores. Coke is now costing us $6 a ton, delivered. I understand that the Northport smelter is obliged to pay $10 a ton for its coke, as it is unable to secure coal supplies from the Crow's Nest pass fields. The difference of $4 a ton which we have secured is a very material advantage.

Not Uneasy Over Copper.

"I am not uneasy over the outlook for copper. The surplus stock has been almost completely consumed, and the users of the brown metal have been living almost on a hand to mouth basis. The present low price of copper, ranging between 12 and 12½ cents per pound, is conceded to be manipulative, and under normal conditions it will soon right itself. I think that the price will be steady somewhere between 14 and 16 cents, and I look for a recovery in values in July. Whether or not the warring copper interests get together, the price of copper is sure to advance in response to the enormous demand for it, and we are already witnessing signs of that advance.

"Every business building, every manufactory, every ship, particularly every dwelling now uses copper in greater or less quantities for electric wiring. The use of copper in the electrical art is extended to Europe, which, aside from Germany, made little progress until lately in electricity.

"The consumption in the past year has been something like 10 per cent more than the production. The enormous drain on the surplus stocks has wiped them away, and higher prices for copper are almost inevitable."

GRAND FORKS RACES.

Programme for the Dominion Day Meet—$4,500 in Prizes.

TUESDAY AFTERNOON, JULY 1.

	Purse
Quarter-mile dash	$175
Three minute trot or pace, mile heats, best two in three	250
Grand Forks Derby, 1 mile dash	400
Quarter-mile dash, gentleman's saddle horse	75
Five-eighths' mile dash	250

The fourth event is open to horses which have never competed in any other class.

WEDNESDAY, JULY 2.

	Purse
Three-eighths' mile dash	$175
Free for all, trot or pace, mile heats, best two in three	400
Quarter-mile dash for ponies, 14 hand or under	50
Half-mile running, best two in 3	300
Three-quarter mile dash	250
Consolation half-mile dash, running, open to horses which have not won first or second money	150
Consolation trot or pace, mile heats, best two in three, open to horses on same condition as above	100

The Coast-Kootenay and Midway-Vernon railway bills have passed the first stages in the legislature and will probably go through.

STARTED FOR SOUTH SEAS.

Mr. Duncanson Sails from San Francisco on the 15th of June.

Tuesday's train carried D. H. Duncanson and wife, bound for San Francisco direct. Mr. Duncanson, who has accepted a position with the Pacific Construction Co., expects to sail for Fanning Island, in the Southern Pacific ocean on the 15th instant. The vessel will be the brig Galilee, a missionary sailing ship, destioned for the Samoan islands, but which will go out of its way to land Mr. Duncanson, and his crew of 40 men on Fanning Island.

On his arrival there, Mr. Duncanson will proceed to erect the needful buildings for the all British cable now being laid from Canada to Australia. In doing this he will expend something like $120,000 for the company, and expects to occupy about six months in the work, getting back to San Francisco about the first of next January. Only once during that time will he or his men hear from the civilized world, and that will a month later than landing, when a supply ship will be sent from San Francisco. The island itself is a coral reef and uninhabited at present. Mrs. Duncanson will accompany her husband to the other side of the world.

Boundary Mining Notes.

This week the Mother Lode shipped 3,232 tons of ore.

The Jewel mine, Long Lake camp, resumed shipments to the Granby smelter this week, sending out two cars.

One day this week it was asserted that 80 cars of coke were en route from Fernie and Michel to the Granby smelter.

J. A. Clark, of Trail has made a contract with the Granby smelter to supply 150 cars of clay, to be used for converter linings.

Last Monday the B. C. chartered Co., Ltd., began surface work on the B. C. group in Summit camp, under Foreman Anderson.

A force of 12 or 15 men is now working on the Providence, the Greenwood property that has attracted so much attention lately.

It is expected that Porter Bros. will be prepared to commence their contract with the Gsanby mines in about ten days. New steel cable was required from the east.

Several days this week the ore shipments from Phoenix camp were cut down to 1,000 tons. This was occasioned by one furnace at the Granby smelter not running because of lack of coke.

If all goes well, in another week or ten days the Sunset smelter, at Boundary Falls, should be ready to begin operations. The crushing machinery was delayed by the mud slides on the Crows' Nest Pass railway.

Phoenix Hospital is Open.

Monday the Phoenix General Hospital, which has so long been needed in this city, was opened, with Miss Johnson, of Victoria, as the matron. During the week city water, electric lights and a telephone have been put into the building.

Thursday the first patient was taken to the hospital, being J. K. Fraser, of the Fashion Stables, who is down with typhoid pneumonia.

Yesterday afternoon two miners, McCloskey and Redmond, were hurt, the latter seriously, at the Knob Hill mine by a blast, and were sent to the hospital.

Peace in South Africa.

Last Saturday the peace terms were signed between the British and Boers in South Africa, and that long struggle is now ended. The Transvaal burghers have been subdued, and will now gracefully submit. The news did not reach Phoenix till Monday night last. King Edward has recommended that a grant of $50,000 be made to Lord Kitchner, who had so much to do with bringing the protracted struggle to an end.

Owing to the limited room, on Monday and Tuesday next we will offer for sale a stock of about 50 ladies' trimmed and untrimmed hats, shapes and trimmings. You'll think we stole them when we quote our prices. Granby Exchange. 29

Mrs. Fred Sweetman, of Columbus, Montana, arrived Monday to visit Mrs. Geo. E. Breakenridge. Mrs. Sweetman was in a train wreck on the Northern Pacific last Saturday, but fortunately escaped without injury.

G. A. Evans, of the Grand Forks Evening Sun (which, by the way now shines but twice a week), has been granted a patent for an improved perforating device, which prints and perforates at a single operation, the process formerly requiring two operations.

WINNIPEG TO RESUME

Another Compressor Plant Will be Secured

INSURANCE WILL AMOUNT TO $5,500

Adjuster is Expected from Portland Today—Managing Director Plewman Spent the Week at the Mine.

It was a fortunate thing for the management of the Winnipeg mine that the machinery and buildings of the company were well insured, else the fire of last week Friday which destroyed the shafthouse, engine, boilers and compressor, would have been a serious loss to the company. As it is, it will delay getting at work again considerably, and will entail no small expense by reason of the workings filling with water.

Richard Plewman, the managing director, came over from Rossland on last Saturday's train, and has been spending the week in and around Phoenix, waiting for the insurance adjuster from Portland to arrive, and decide on the exact amount of loss. The insurance was in the Transatlantic Fire Insurance Co., there being a risk of $5,500, which it is expected will nearly cover the damage sustained; apparently the building and contents are a complete loss. Mr. Plewman stated to the Pioneer that it was his full intention to secure another compressor plant at once, and resume operations as soon as practicable.

Exactly how the fire happened is not known, but it is believed that one of the men on the night shift left his candle burning in the dry room, in the shafthouse, and that it burned down to the socket, and so set fire to the inflammable structure, and gained much headway before it was discovered by the blacksmith, who was just coming on shift. It was then impossible to extinguish the flames.

Found For Defendent.

The action brought by the Standard Pyritic Smelting Co., Ltd., against the B. C. Copper Co., Ltd., in the Supreme Court at Greenwood, to recover $687.35, stated to be due by the defendent company for a receiving well, etc., has been disposed of by the jury finding a verdict for the defendent. The chief point at issue was that the plaintiff company maintained that the receiving well was sold to the defendent company, whilst the latter produced evidence to show that it was only lent and that it had offered to return it in good condition when its own well, previously ordered was received.

Mr. McMillan Appointed.

Anthony J. McMillan, managing director of the Snowshoe mine, who has been spending the winter in England, conferring with his co-directors as to the future operations at this mine, will sail for this side of the water on the 11th inst.

On account of Mr. McMillan's familiarity with the conditions obtaining in Rossland, he was recently appointed a member of the investigating committee by LeRoi shareholders in London, to report on the condition of that apparently much mismanaged property. The appointment is no small compliment to Mr. McMillan.

Boundary Geological Survey.

W. F. O'Hara, who last year had charge of the Canadian geological survey, in connection with definitely locating the international boundaty line, arrived in Greenwood Monday, to begin his operations of a similar character for this season. With his party of some 16 or 18 men he will complete some work near Midway, started last year, and in two or three weeks will take up the same work at a point to the south of Rossland.

For the Fernie Sufferers.

The Granby Co. has subscribed $150 in Grand Forks and $100 in Phoenix. Phoenix Miners' Union No. 8 voted $100 to the same cause at Saturday's meeting. Altogether $350 has been subscribed in Phoenix thus far.

Ethel McKeown, the nine year old daughter of Mr. and Mrs. J. G. McKeown, died yesterday of scarlet fever.

BOUNDARY COKE SUPPLY.

One unlooked result of the disaster at the Fernie coal mines was the temporary cutting off of the coke supply for the Boundary smelters. This was a serious matter to the mining industry of the Boundary, but one that could hardly be foreseen. As a direct result, one of the four furnaces of the Granby smelter was forced to suspend operations for a time, entailing a loss, it is stated, of many thousands of dollars to that concern. Happily this was not destined to last long, as the supply was soon coming again.

In a recent issue, the Nelson Daily News, supposed to be the organ of the Crow's Nest Coal Co., asserted that the officers of the Coal Co. had approached the smelter managment, requesting that a supply of 1,000 tons of coke be laid in against emergencies, and that the suggestion was disregarded. This is not a statement of fact. At the time of the Fernie disaster the Granby Co. had 2,500 tons of coke on hand, which was soon used up when the daily supply of 200 tons, or ten cars, failed to arrive.

It had always been the custom of the Granby Co. to keep a supply of coke and ore on hand to provide against accidents at the company's mines or in transportation, but in view of the statements made that the Crow's Nest Coal Co. had so much coke that they had no market for, it was never thought that any trouble would be experienced in getting all that was needed. The terrible accident happened, and coke was not shipped for a time. The Granby Co. could not provide against this and could not be expected to do so.

THE FARCE AT VICTORIA.

If ever there was a government in the province of British Columbia that appeared to be thoroughly discredited by the people at large, it is the aggregation now masquerading under that name; under the guidance of Premier Dunsmuir, at Victoria. For months it has been holding itself in power by the narrowest of majorities, its downfall seeming imminent a number of times.

At the last session Mr. Dunsmuir promised to have an extra session and present his railway policy. But he forgot all about it till this year, and when the railway bill was finally brought down it was indeed fearfully and wonderfully made. So much so in fact, and such a hue and cry was raised throughout the province over the outrageous land grants tacked to the bill, that, in order to appease the people, and incidentally get votes enough to carry it through, the objectionable land grant feature was finally eliminated. This was to keep Joe Martin in line.

Then Messrs. Ellison and Clifford openly threatened to leave the government, and to satisfy them their continued allegiance was bought by bringing in bills for railways for their particular constituencies.

There is just one one satisfaction over the present condition of affairs, and that is, that it cannot last much longer. The farce is pretty nearly played out, and the curtain will soon be pulled down. As our government is the laughing stock of Canada, this cannot be done too soon to please the the majority of the people.

EDITORIAL COMMENT

Mighty few journals in the province are favorable to the present government. Is this not significant?

From the frequent use of the word "cur" by our wise men at Victoria, one might think a dog fight was in progress.

Now that peace is being declared in South Africa, let us hope that a similar condition will obtain in the Philippines.

Blood appears to be the price of coal with alarming frequency. Old King Coal may be a jolly old soul, but eventually his price is high—very.

Probably as long as we remain on this mundane sphere nothing like the coronation of Edward VII. will occur again. Perhaps that is the reason so much is being made of it. The date set is June 26th.

Smith Curtis has introduced a bill in the legislature to do away with the present signaling code required in mines. He asserts that prominent mining men claim it is unworkable.

The Provincial Progressive Party is getting a strong foothold in the Slocan, several local organizations having been formed there and in other parts of the province. Evidently the progressives scent a provincial election.

One result of the searching investigation being made of the recent Fernie disaster, will be more stringent regulations protecting the lives of the miners. Such regulations cannot be too complete nor too thoroughly enforced. Every man who goes into a mine takes his life in his hands and should be protected by all human ingenuity.

The Grand Forks News-Gazette asserts that upwards of $20,000 is sent out yearly to T. Eaton Co., Toronto, and other eastern departmental stores. A local man asks us why union men, getting union wages in a union locality should extensively patronize eastern non-union sweat-shops persistently and constantly. We pass the question up to our readers.

WHAT EDITORS SAY

JUST CHRIS FOLEY—The rumbling in the Slocan does not come from a restless volcano. It is just Chris Foley trying to make a St. Pierre out of the other party—Ledge.

FEW GOOD DEEDS—The good deeds of the present provincial administration have not been so numerous that one has had to turn any handsprings to keep tab on them.—Revelstoke Herald.

B. C. MINING NOTES

Rossland's ore shipments last week amounted to 4,615 tons.

The Whitewater mine in the Slocan shipped 385 tons of ore during May.

Last week 140 tons of ore were shipped from Slocan City Mining Division.

Zinc ore is being shipped from the Bosun mine, Slocan lake, to Belgium.

The Slocan Star was the only shipper from Sandon last week, sending out 42 tons.

Woodberry creek on Kootenay lake is active this spring. It is a dry ore district.

A nugget weighing 320 ounces, worth $4,800, has been taken from Bonanza Creek, Yukon.

Manager D. J. Macdonald of the Giant mine, Rossland, telegraphed to his London directors the result of a recent shipment of 85 tons of ore from the molybdenum ledge of the mine showing that there was a net profit of $2,750 or over $32 per ton.

The city of Slocan has limited its hotel licenses to eight.

PROVINCIAL NOTES

Trout Lake is enjoying a mild building boom.

Ferguson's new hospital is to cost $3,000.

Nelson's electric street railways is resuming operations, at least for the present.

A voters league has been organized in Victoria.

STRICTLY BUSINESS

Advertise as though you mean business and you will get business.

Vainly, vainly memory seeks—for advertisements unseen for weeks.

A natural display of enthusiasm on the part of the advertiser inspires confidence in the buyer.

Use enough space and enough words to tell your story. A story half told is unsatisfying and seldom remembered.

Never expert to make money by advertising in a hap-hazard way—successful advertising is the presistent, consistent and continuous kind.

People who try to accomplish something are soon called hustlers. Trying to get more business by using bright advertising matter is one form of hustling.

Why is your competitor doing more business than you are—is it because he has had more money with which to begin business—or because he has been a better or larger advertiser than you?

WORTH KNOWING

The total values of gold mined in Canada during the year 1901, was $24,462,222.

A carload of dynamite will contain 400 cases of fifty pounds each, or about 20,000 pounds of dynamite, net. A box of dynamite, fifty pounds net, weighs fifty-nine pounds gross.

British Columbia will in future share equally with the Dominion government the revenue derived from the Chinese immigration tax, instead of only receiving one quarter as heretofore.

The first step has been taken in the actual carrying out of a plan that has for some time been maturing to build in Los Angeles, Cal., an oil smelter and a plant for the manufacture of other smelters.

The Advertising Man.

From Dan on down to Beersheba,
And back again to Dan,
The forceful push of commerce
Is the advertising man.

In the onward march of progress,
That house is in the van,
Whose life is known to people
Through the advertising man.

Ye page of Dun and Bradstreet
Inquiring optics scan,
And where A-1 is noted
There's an advertising man.

In the little game of business,
Just count that man a "fan,"
Who trusts in type and paper,
And the advertising man.

In each "Deserted Village,"
Rivers of ink ne'er ran,
They never had a paper,
Nor an advertising man.

Among all breed of people,
The white folks, black and tan,
The gent that does the business,
Is the advertising man.

As fire and steam to engines,
Or to wheels the oiling can,
The same to wheels of business
Is the advertising man.

Why tie your hands' my brother,
And place on you a ban;
Folks only know you are living
Through the advertising man.

You may fret your liver torpid,
You may lie awake and plan;
When you know the only succor
Is the advertising man.

You may work yourself to frenzy,
You may hustle all you can;
But will only make a winning
Through the advertising man.

The yawning gulch of failure,
With speed you'll surely span,
When supported by the pencil
Of the advertising man.

You'll catch the golden nuggets,
In your little sluicing pan,
When shaken by the fingers
Of the advertising man.

—Denver Times.

No Wonder He Is Insane.

A writer in the Port England Mirror, a newspaper published by lunatics in an asylum at Grahamtown, South Africa, gives the following reasons for his detention:

"I met a young widow with a grown stepdaughter and the widow married me. Then my father who was a widower, met my stepdaughter and married her. That made my wife the mother-in law of her father-in-law, and made my stepdaughter my mother and my father my stepson. Then my stepmother, the stepdaughter of my wife had a son. That boy was, of course, my brother, because he was my father's son. He was also the son of my wife's stepdaughter and, therefore, her grandson. That made me grandfather to my stepmother Then my wife had a son. My mother-in-law, the step-sister of my son, is also his grand mother, because he is her stepson's child. My father is the brother-in-law of my child because his stepsister is his wife. I am the brother of my own son, who is also the child of my stepgrandmother. I am my mother's brother-in law, my wife is my own child's aunt, my son is my father's nephew, and I am my own grandfather."

"AMBER" Plug Smoking Tobacco is winning in its merits. Have you tried it? Save the tags; they are valuable.

Figures Talk

The fifth annual meeting of the shareholders of the Crow's Nest Pass Coal Company was held in Toronto on March 7th.

The net profit of the year after paying all operating expense and all charge of every kind amounted to $207,848.39. After paying a dividend at the rate of ten per cent. per annum, a balance of $28,142.89 was carried forward to the credit of profit and loss.

This company's assets are their coal mines and the Townsite of Fernie. Four years ago this Company had no transportation facilities, and their stock sold as low as eleven cents per share. Today their stock is selling at $90.00.

The Similkameen Valley Coal Company, Limited, assets are, coal mines, timber, water power, agricultural and horticultural land; city water works, electric light plant and the townsite of Ashnola, surrounded by the following resources: gold, copper, silver, lead, iron, lime, fire clay, platinum and a fine stock raising country and it is the smelting centre of the Similkameen Valley, with a climate all that could be asked. Today you can secure an option on this Company's stock by paying ten cents per share down and ten cents per month until fully paid, with non-forfeiture clause. This price is subject to a twenty-five per cent advance without notice, or as soon as transportation it assured. The present price is $1.10 per share. Do not wait until it is too late, but get in on the ground floor and make a handsome profit. A purchaser of 100 shares now, may gain a profit of $8990.00. Crow's Nest shares are an example. This would be a fair profit on an investment of $10.00 per month for eleven months. We invite the fullest inspection of the company's affairs by intending purchasers.

For further information apply to
Similkameen Valley Coal Company, Limited.
Nelson, B. C.

OPTIONS UP TO $750,000

On Coal Fields Over in Alberta.

TO DOMINION IRON AND STEEL CO.

Eastern Corporation Is Taking Hold of Coal and Iron Measures, and C. P. R. Has A Hand in the Big Deal.

It is reported on reliable authority that the Dominion Iron & Steel Co., which has taken options on local properties at Blaremore, Alta., in which Spokane men are interested, has secured the options on the basis of $750,000. In addition there is an $800,000 bond on the iron properties at Kitchner, B. C., which makes a total deal representing an outlay of more than a million and a half for the coal and iron mines alone.

It is declared that the C. P. R. has made arrangements with the promoters of the new company, so that the C. P. R. will always have a supply of coal from the new fields. This feature was brought out, it is said, because President Hill of the Great Northern recently secured heavy holdings in the Crows' Nest Pass Coal company, and expects to haul out the coal of those mines, to the detriment of the C. P. R.

Includes 18,500 Acres of Coal Lands.

About 18,500 acres of coal lands are included in the options, distributed as follows: The Hastings Syndicate tract, owned by English capitalists, 9,000 acres; the Livingston tract, owned by Maynard Cowan and Davenport, Paine & Co., of Spokane, 1,500 acres; the Fishburn tract, owned by W. H. Dowsing, of Spokane, T. G. Procter of Nelson, B. C., R. E. Fishburn, of Chicago and V. I. Baker, of Cranbrook, B. C., 5,000 acres; the Frank tract and the tract held by Lethbridge people, 3000 acres.

The Dominion Iron & Steel company was incorporated under the laws of Nova Scotia June 22, 1899. The headquarters of the company are at Sydney, Cape Breton Island, where it has established large iron and steel plants with a capacity of 1,600 to 1,200 tons of steel per day. This plant is expected to be in full operation at the end of the year.

Has Option of Leasing.

The steel company has the option of leasing the coal company's properties up to January, 1903, on paying as rental the coal company's fixed charges and 6 per cent per annum on its common stock. Last December a syndicate headed by James Ross of Montreal acquired control of this stock, amounting to $20,000,000, at par.

The officers of the steel company are: President, H. M. Whitney of Boston, who is also president of the Dominion Coal company; vice president, A. J. Moxham of Sydney; treasurer, H. M. Davies of Sydney. The directors are H. M. Whitney, J. S. McLennan of Boston, H. F. Dimock of New York, A. H. Paget, Geo. A Cox, Elias Rogers, Sir William C. Van Horne, R. B. Angus of Montreal, B. F. Pearson of Boston, James Ross of Montreal, and Robert McKay, David Mackeen and W. B. Ross of Halifax.

B. C. MINING.

Signs of Reviving Interest in the Industry.

The history of many mining districts includes: First, an initial boom accompanied by wild-catting and stock gambling; second, a consequent crash, followed by a long period of neglect; third, a final revival of operations on a sound, legitimate basis.

In British Columbia we have seen the initial boom with speculative accompaniments; there has followed a period of neglect which is not yet over, but there begin now to appear signs of reviving interest in the industry. A great deal of steady development work is being quietly prosecuted, and we do not doubt that British Columbia mining will before long be reestablished on a healthy, prosperous basis. We do not mean that there will be a rehabilitation of stock market quotations, but we think that there are the making in the western province of a goodly number of dividend payers.—Toronto World.

Was This in Greenwood.

An Irishman standing in front of the Canadian Bank of Commerce the other day read the line, "Rest $2,000,000." "Throth an," he remarked to his comrade, "they must be hard to plase, for surn, I cud resht on a d——d sight less than that."

Lodging house to rent. Apply to McArthur & Monk.

PEN SKETCH OF SMITH CURTIS, M.P.P.

Something Personal of Our Member in the Legislature.

The Victoria Times is running an excellent series of articles on the members of the British Columbia legislature.

In a recent issue appears a likeness of Smith Curtis, member for Rossland riding (of which the Boundary is yet a part) together with a short account of his business and political life. We reproduce the sketch in full:

"It is a free, and withal a wonderfully keen, lance which is wielded by the tireless member for Rossland, Smith Curtis. No man in the house more conscientiously follows every particle of business coming before the legislature than he. He seeks to compass the whole of the business, and this imposes on him a task which might be borne by three or four members.

"The deplorable handicap under which Mr. Curtis labors, namely partial deafness, seems only to have sharpened his other faculties, and it is rarely indeed that he is taken at a disadvantage. He is sleepless in his vigilance, and manages to sandwich an enormous amount of work in between the opening and closing of the session.

"Of his great ability, there is no doubt; of his courage and sincerity, there is little question. Other members are often unable to follow him in his advanced themes of political economy and of government, but they cannot but admire his forcefulness and his untiring zeal in propagating his views.

"Mr. Curtis speaks for liberalism and for labor, and nowhere in British Columbia do those great factors in its affairs find an abler exponent and advocate.

"He is a native of Ontario, having been born in Leeds county. At the age of fifteen he began teaching school, eventually obtaining a first-class grade A certificate and the degree of B. A. In 1882 he left Ottawa, where he was the first assistant master in the Provincial Model school, attached to the Normal school there, and came to Portage la Prairie, Manitoba, and studied law in the office of Joseph Martin, whose law partner he became in 1885, and remained such until 1891, when ill-health caused his retirement, and for five years prevented his engaging in active business.

"When Joseph Martin resigned his seat in the provincial legislature of Manitoba in 1891 to contest Brandon with the Hon. T. Mayne Daly in the federal election of that year, Mr. Curtis was selected by the liberals as candidate to succeed Mr. Martin; but upon the defeat of Mr. Martin by Mr. Daly Mr. Curtis retired from the local contest so as to enable Mr. Martin to run and he was again returned to the local house.

"He came to Rossland in 1896, where he practiced law for some two years. He has devoted his time principally to mining for three years past. In 1900 he was returned for the legislature, having first been appointed Minister of Mines in Mr. Martin's cabinet. One of his great achievements during his brief tenure of office was the settlement of the Rossland strike by conciliatory measures.

"He was married in 1890 to Lilly E. Mills, daughter of the late Wm. Mills, of Ottawa.

"Mr. Curtis is perhaps unsurpassed as a debater in the present house, is remarkable for his readiness, and is prompt and incisive in repartee. He withdrew his support from his old leader last session when he discovered that Mr. Martin proposed to support the government."

The Lardeau branch of the C. P. R. officially known as the Arrowhead & Kootenay, is completed to the foot of Trout Lake, thus opening up another big silver lead section.

What? Why, clean cotton rags—white preferred Look over your rag bags, and see if you haven't something you can turn into cash. First lot will bring high figures, if delivered at the Pioneer office.

THE MILWAUKEE

A familiar name for the Chicago, Milwaukee & St. Paul Railway, known all over the Union as the Great Railway running the "Pioneer Limited" trains every day and night between St. Paul and Chicago, and Omaha and Chicago, "The only perfect trains in the world." Dining Room First-class in Every Particular.

BRIEF NEWS NOTES

MATTERS OF GENERAL INTEREST TO PHOENICIANS.

HOTEL OPENING—The Knob Hill hotel bar will be opened to the general public today, Ed Monson being the proprietor. Last Tuesday the rooms and dining room began business also, Mrs. McKelvie being in charge.

V., V. AND E. PROGRESS—Work has started on the V., V. and E. bridge across Kettle river at Columbia and the grade work to the Grand Forks depot is nearly completed. The tracklayers are some distance below Curlew, and well on the way to Republic.

IMPROVING THE GRANBY—Contractor Smith began work this week on fitting up the loft of the Granby apartment house, and will have it completed in a couple of weeks more. This will give accommodations from 50 to 60 more men, for sleeping purposes.

ANNIVERSARY BALL—Thursday evening, June 19th, Snowshoe Lodge No. 46, I. O. O. F., will give its first anniversary ball at Miners' Union Hall. The committee on arrangements consists of R. A. Scott, Geo. R. Mead and W. S. Cook. The best of music will be furnished.

PRIEST EXONERATED—At the Greenwood term of court last week, in the case of Father J. A. Bedard against William Dinsmore, a shoemaker of Grand Forks, for slander alleged to have been circulated by Dinsmore, the jury returned a verdict against defendent for $50 and costs.

MEAT MARKET MOVED—P. Burns & Co.'s local meat emporium was moved Wednesday to the storeroom recently fitted up for the purpose in the Bank block on First street. All the business here will in future be transacted from this location, new ice boxes having been installed.

CORONATION SOCIAL—The ladies' aid of Emmanuel Congregational church are arranging to hold a Coronation social on Coronation Day, June 26th. The chief feature of the occasion will be a voting contest for the most popular young lady in Phoenix, details of which will be given later.

GRADING NEW STREET—This week a force of men was put at work grading a street in Golden Eagle addition to Phoenix, which will be nearly parallel and north of Grey Eagle avenue. Golden Eagle addition is owned by W. R. Williams, George A. Cox, Donald D. Mann and Donald A. Cameron.

BACK FROM SIMILKAMEEN—Murdock McIntyre returned Wednesday from from a six weeks trip to Aspen Grove in the Similkameen, where he has some fine prospects. Like all others, he says the Similkameen will stay quiet till a railway is built. Some of the old timers there have been waiting for 14 years. Mr. McIntyre will go back to Princeton next week.

FAREWELL TO REV. KINNEY—Wednesday evening a farewell reception was given to Rev. G. B. R. Kinney, the retiring pastor of the local Methodist church. Addresses were made by Rev. Broadley and Rev. Knox, the latter of Greenwood, and a pleasing program was rendered. A purse containing $51 was presented to Mr. Kinney, who left by Thursday's train for his new charge at Langley, in Westminster district.

MR. MONK RETURNS—E. Wentworth Monk, of the firm of McArthur & Monk, returned Thursday from a three months' trip outside. While away Mr. Monk visited various eastern cities, including, Montreal, Toronto, Ottawa, New York, etc. He also went to Vancouver, Seattle, Portland and San Francisco. He reports a good deal of interest in the east in Boundary mines, and believes that in a short time a large amount of additional capital will be available for investment in this section.

LOT CLEARING BEE—Monday morning at 8 o'clock those ingerested in the building of the Catholic church who can be present, are invited by Father Bedard to meet at the church site on Gospel Hill with shovels and other implements, for the purpose of clearing the lots for building. Father Bedard has secured the needed funds in Montreal for assisting in the erection of the church. The ladies of the church will serve lunch to those who assist in the clearing.

GAVE A GOOD SHOW — Miners' Union Hall was crowded to the doors Thursday evening to take in Prof. Parkes' picture show. Mr. Parkes has made a specialty of Klondyke scenes, which he has spent years in collecting personally, and he exhibits them in the best possible manner. For a variety he also puts on moving pictures and has a phonograph. The views are of the unusual kind, intensely interesting, and were thoroughly enjoyed by the large audience. He promises to make a return visit to Phoenix in the near future.

TOO RICH TO MARRY—An evening of play or an evening of specialties may be too much of the sameness for the average audience, so there is a variety given with "Too Rich to Marry" which will be at the Miners' Union Hall on Thursday, June 12. Besides the three acts of the comedy, there are specialties during the actions of the play and between the acts. The specialties are of the best and the performers have appeared in many of the leading vaudeville houses of the country before they were engaged for "Too Rich To Marry."

INSPECTING THE LINES—H. N. Galer, president of the Phoenix Water Supply Co., Ltd., came up from Grand Forks Tuesday with J. D. Lane, electrician for the Granby smelter, to inspect the lines of the Greenwood Electric Co., Ltd., in Phoenix, which the Water Co. will take over as soon as power can be supplied from Cascade. E. G. Warren, managing director of the Greenwood Electric Co., also arrived in town the same day, to talk over matters. It is not probable that the Cascade people will be able to furnish power much, if any, before fall.

NEW LODGE OF EAGLES—Thursday evening 16 members of the local aerie of the Fraternal Order of Eagles went to Grand Forks to assist in the institution of a lodge of the order in that city. Members of other lodges were present from Nelson, Rossland, Republic and Seattle. J. A. Mitchell, of Seattle Aerie No. 1, acted as the installing officer, being the special district deputy grand president. The Grand Forks aerie started off with 75 members, and there is every promise of the lodge having a rapid growth. The Phoenix boys returned early yesterday morning.

Seen in Passing

Did you ever hear of a newspaper office having "statuary" for sale? The Kamloops Standard so advertises in its own columns. Perhaps this has something to do with the nude in art.

There was no little interest expressed in town last week over the result of the Ontario election, by both grits and tories. Probably a majority were pleased that the Ross government was retained in power for another term.

A dispatch from Fernie early this week asserts that "it is unlikely that the smelters will suffer to any extent" from shortage of coke supply. Perhaps not, but it strikes some people that the loss of $20,000 or $25,000 suffered by the Granby Co. on this account, is an item of some importance—at least to that company.

The government's railway policy might easily be mistaken for the pigs-in-clover puzzle, says the Columbia Sun. No sooner is one bill sent in its hole than another emerges from its hidingplace.

...ey is spent all year round. More is spent in one season than in another, yet every day and all the time money is spent. Still there are advertisers, and their name is legion, who will not use printer's ink except in the busy season. Nothing in the world could be more illogical. What they seek is trade. When less of it is around they should be more strenuous in securing their share of it than when it is more active. In the latter case a fair part of it will come to them anyhow. When a seller withdraws from the advertising field in the dull season he surrenders to his rivals in trade the benefits which come of publicity.

One Good Investment is Worth a Life Time of work.

An Investment in Phoenix Realty at the present time is bound to bring a handsome dividend at no distant date. No one with an understanding of the possibilities of the Phoenix mines believes that present low real estate values will long prevail. With increased ore shipments prices are stiffening up. We still have some good values in Dominion Copper Co.'s Addition and other parts of the city at most reasonable figures. Whether you desire it for an investment or a home we can fill your wants.
