The Phoenix Pioneer

TWELFTH YEAR — PHOENIX, B.C., SATURDAY, JULY 1, 1911 — No. 32

B.C. Mining

The Standard mine, at Silverton, is now ready for operation.

Geo. L. Bremner and G. H. Bull have encountered on the Bimetalic group at Ymir, eight feet of free miliing ore, assaying from $12 to $18 per ton.

Recent work on the Highlander silver-lead property, in Ainsworth camp, has consisted in driving the big tunnel another eighty feet, giving it a total length of 2,900 feet.

Paul Deharnsie and G. T. Grobe recently discovered an entirely new vein on the Arizona, situated on Wild Horse Peak, between the Wilcox mine and the Canadian Pacific group, owned by them.

The month of May has been the biggest in the history of the Nickel Plate mine in ore tonnage and in every other way including closeness of extraction, showing that the new plant is meeting all the expectations held out for it.

John A. Finch, president of the Standard Silver Lead Co., operating near Silverton, says that such good progress is being made with the installation of the 8,000 feet tramway and the 200 ton concentrator, at the Standard mine, it is expected to open both in August.

The Kootenay Belle mine, Sheep Creek camp, has produced over $100,000 in gold from shipments during preliminary development. Recently a crosscut tunnel has intersected one of the veins at a considerable depth, and it is reported that very high grade ore was encountered.

In the Mother Lode mine, in the Sheep Creek camp, there has been developed and made available for mining, ore worth $1.200,000, in less than two years, above the 450 feet level. In addition $50,000 worth was shipped, taken largely from development faces. This property is now being equipped with an up-to-date reduction plant, and will within another year be paying large dividends.

Coal Miners' Strike Ended

As we go to press, it is reported on good authority that a settlement of the southern Alberta and Crow's Nest Pass coal strike has been arranged. The operators agreeing to offer the day mine workers an increase of seven per cent in wages and other concessions, and it is understood that the strikers have agreed to accept the offer. It is expected that the strike will be declared off at an early date.

O. B. SMITH, JR., APPOINTED GENERAL SUPERINTENDENT

Of Granby's Hidden Creek and Phoenix Mines—C. M. Campbell Appointed Assistant Superintendent at Phoenix.

The many readers of the Phoenix "Pioneer" will be pleased to learn of the advancement of O. B. Smith, Jr., to the highly responsible position of General Superintendent of of the Granby Consolidated Mining Smelting and Power Co.'s properties at Phoenix and Hidden Creek.

Mr. Smith has been connected with the Granby Company since 1899, gradually advancing step by step from the position of mining engineer, an office which he held for several years, to that of assistant superintendent, and now finally appointed to that of general superintendent.. While acting in these various capacities he has gained the respect of all those with whom he has come in contact, besides becoming a conspicuous figure in the mining circles of the west.

Another appointment that will be hailed with general satisfaction, is that of C. M. Campbell, who has held the position of mining engineer since 1904, and who has been advanced to the position of assistant superintendent of the Phoenix properties.

On being asked by a "Pioneer" representative, the nature of the developments to be pursued this summer at Hidden Creek. Mr. Smith stated that it was their intention to start work immediately, employing a force of about 50 to 75 men to make the necessary preparations for placing the property on an early shipping basis, the work primarily being the driving of drifts and the making of crosscuts At present nothing definite had been arranged as to the erection of a smelter plant this fall, he thought that probably arrangements would be made with some other smelting concern for the treatment of their ores until a smelter could be erected.

Howard McDonald, a local mining engineer, has been appointed superintendent of the Hidden Creek mine, and C. P. Seale, foreman.

F. M. Sylvester, assistant gen. manager; O. B. Smith, general supt.; and G. W. Wooster, treasurer and director, will leave next week for the northern properties.

Geeorge L. Walker of the "Boston Commercial" has the following to say regarding Granby interests in Phoenix and Hidden Creek: "Granby stock, which sold down to $20 last year, has recently sold above $40. As I have frequently pointed out the company has a variety of important assets, including its large smelting plant, an interest in the Crow's Nest Pass Coal and Coke company, and water rights at Kettle Falls on the Columbia River, all of which are of great present and prospective value. By adding to these the ownership of the Hidden Creek property for the low price of $450,000, the intrinsic value of Granby stock is very greatly increased. I feel very confident that within two or three years Granby will be in a position to pay dividends which will again entitle the stock to sell at par."

A Sensational Drop.

What at first hand appeared to be a most serious accident, but which had a very fortunate and withal, rather surprising sequel, occurred on Wednesday, at the Granby mine. A man named Sopel was standing on a car over a pocket on the 300 level, endeavoring to loosen some boulders which had become wedged, when by some unexplainable means, probably absentmindedly, he stepped on the load, which became loosened and disappeared along with him into the pocket, rolling a distance of thirty feet to the rock pile. The doctor was early on the scene, and the men started operations to get him out, a rope being lowered and the unfortunate, or rather fortunate gentleman hauled up. With the exception of a severe shaking, and a cut on the head he appeared to be none the worse for his adventure.

Boundary Ore Tonnages

Following are the returns of the output of the mines and smelters of the Boundary district for the week ending July 1, and year to date:

Granby	19,744	492,914
Mother Lode	5,334	161,033
Jack Pot	525	16,025
Rawhide	4,229	104,305
Athelstan	277	2,586
Lone Star	...	2,777
Napoleon	449	3,930
Insurgent	...	302
Others	236	236
Total	30,794	784,108
SMELTER TONNAGES		
Granby	17,055	487,224
B. C. Copper Co.	12,030	306,681

Phoenix School Closes.

The Phoenix public school closed for the summer vacation on Friday, after an eventful term. Very few schools on the American continent have passed through the visisitudes that have fallen to the lot of our local halls of learning, and not many school committees could have met and overcome so successfully the succession of calamities which have visited us within the short space of a few months. Last August, the fine schoolhouse on Knob-hill ave. was totally destroyed in the fire which well nigh threatened to wipe Phoenix off the map; while the temporary quarters in the Finnish Hall met the same fate on the 21st of last May. School will re-open in the spacious new school on August 28th., which fact has been made possible by the generous donation of $10,000 from the Provincial Government, the residue of $8,000 being made up by the city, unless the government with its well-known generosity comes to their rescue with a further supply of shekels. The lots on which the building is erected was exchanged by the Granby Co. for the two lots on which the old school stood.

E. E. Barnes, principal, who previously was attached to the staff of the Vancouver public schools, and who had the unfortunate experience when he arrived to take charge, of finding his school in ashes, has been a valuable source of help to the committee. He has gained the affections of his pupils, and the confidence of both parents and school board. We are pleased to state that he has been appointed for the ensuing term. He leaves today, with his family, for Vancouver. The following is a list of the honors for the past term:

Division I. — Deportment, Annie McKeown; Punctuality and Regularity, Laurel Pickard. Proficiency, Theodore McCammon. Speed and Accuracy in Arithmetic, Laurel Pickard, John Craig, Richard Elmgreen. Division II.—Deportment, Annie Hendrickson, Majorie Elkins. Punctuality and Regularity, William Wheatley. Proficiency, W. Owen. Division III.—Deportment, Mamie Silverthorn. Punctuality and Regularity, Owen Rowlands. Proficiency, Mary Miller.

B. C. Copper Treatment

The British Columbia company's smelter treated 12,030 tons of ore this week, as follows: Mother Lode, 5,333; Rawhide, 5,343; Athelstan, 311; Napoleon, 316, Wellington, 521, others, 206.

The state of Queensland has presented a horse to the king.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of KNOWN COMPOSITION. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. *See that you get what you ask for.*

Local and General

Mrs. M. Cranley left on Saturday morning's train for Vancouver.

Mrs. Puddy and children returned on Tuesday after a few weeks' absence in Spokane.

Mrs. W. Hower and her sister Miss Cora Dawson arrived home on Friday from Spokane.

E. Spragget, superindent of public roads, came in on Tuesday's train and returned on Wednesday.

Mrs. S. P. Smalley and son, who spent the Coronation holiday at Chesaw, arrived home on Saturday.

Mr. and Mrs. James Marshall left on Tuesday for the Pacific coast. He expects to be away for three weeks.

Miss Etta Murray, who has been visiting her sister in Spokane, was a passenger on Saturday evening's train.

Harry (Bach) Parry arrived in Phoenix on Tuesday from Wardner, where he has been employed for the last eight months.

John Floren, who had the misfortune to be overcome with powder gas this week, is quickly recovering, and expects to be out of the hospital in a day or two.

Thomas Oxley, shift boss, met with a painful but not serious accident this week, by having his foot crushed in the mine. He will be confined to the hospital for a few days.

E. F. Boyles, of the firm of Boyles Bros., diamond drill contractors, who, with Mrs. Boyles have been in town for the past few days, left on Tuesday. They are making an extensive tour of the province.

George Rumberger came in from the the prairies on Saturday. He reports things looking extremely prosperous throughout the North-west, the tide of emigrants arriving being enormous. The crop prospects never looked better, an abundance of moisture being recorded from all points.

Thos. Pilkington and his family left on Monday for their future home in Vancouver. Thomas has been amonst us for some years and made many friends who sincerely regret his departure. The "Pioneer" heartily joins with the crowd in wishing them every success in their new home.

John Hughes, who has been employed in the mines around Phoenix ever since its birth, left for Spokane on Tuesday. John has been a familiar figure around the mining camps of the west from their earliest inception, and some of his yarns of the early days would outclass a chapter from Bret Harte.

The rose of Florida, the most beautiful of flowers, emits no fragrance; the bird of Paradise, the most beautiful of birds, gives no songs; the cypress of Greece, the finest of trees, yields no fruit; dandies, the shiniest of men, generally have no sense; and the ball room belles, the loveliest of created creatures, are very often ditto.

Try and make a live, enterprising place out of your home town, and when working for its institutions or speaking well of the town and country remember you are accomplishing all the more for yourself. Don't be foolish enough to idle away your valuable time predicting failures and thereby decrease the value of your property.

Emil Carlson left on Wednesday for Davenport, Washington. He has been charged by the local Scandinavian society with the sad duty of identifying the remains recently taken from the river at Peach, Wash., and supposed to be that of Martin Lunquist, of this town. The unfortunate man was last seen at Marcus, Wash., about eighty miles from where it was picked up. The remains were interred at Creston, Wash. He is known to have had a considerable sum of money in his possession on June 2nd, the day he disappeared, while on the body recovered the sum of only $10 was found. This, together with the fact of serious bruises, lead the authorities to suspect foul play.

Do you feel, young fellow, that you have a hard time? Your hours are long. Your task is hard and the wages small. The contents of your weekly pay envelope will scarcely carry you over the week. Sometimes you must wear patched trousers or a frayed coat. Your employer expects a great deal from you. Other fellows dress well and always have money. They have coddling fathers and mothers, while you toil six days a week to make a living. Never mind, young man. You are ahead of the boy who has every luxury at home. You are getting experience that he must get somehow later on. Because, sooner or later he must fight the real battle of life himself. And yon have the advantage.

Notice to Owners of Stock!

Notice is hereby given that all stock found running at large on the streets of Phoenix will be impounded. By order

MARVEL Whirling Spray
The new Vaginal Syringe. Best—Most convenient. It cleanses instantly. Ask your druggist for it.

If he cannot supply the MARVEL accept no other, but send stamp for illustrated book—sealed. It gives full particulars and directions invaluable to ladies.
WINDSOR SUPPLY CO., Windsor, Ont. General Agents for Canada.

MARK THIS

I asked a man of wealth the secret of success—"Buy your winter clothes," said he, "This Summer."

A while back, stocks went UP! and they had to make a clearing IN THE WOODS for those who would not be happy without Phoenix property.

Stocks See-Sawed (as stocks were invented to do), someone shouted HELP! and Now, there are to be had some mighty SNAPPY BUYS in improved residential and business property.

Only an OUTSIDER need be told what interest rate Phoenix property earns.

Only because the truth of the matter is so impossible to the outsider. IS IT POSSIBLE to talk calamity down some people's throats to the ridiculous degree my listings show.

Put this down — PHOENIX MINES will be running when you and I are not. Call around to the Carpenter shop in the Stemwinder Block and let me show you the chances at your door—investments such as you could find **No Where Else.**

ZAM-BUK
SAVED THIS BABY

Mrs. M. Barrett, 602 Morean St., Montreal, says:

"A horrid rash came out all over my baby's face and spread until it had totally covered his scalp. It was irritating and painful, and caused the little one hours of suffering. We tried soaps and powders and salves, but he got no better. He refused his food, got quite thin and worn, and was reduced to a very serious condition. I was advised to try Zam-Buk, and did so. It was wonderful how it seemed to cool and ease the child's burning, painful skin. Zam-Buk from the very commencement seemed to go right to the spot, and the pimples and sores and the irritation grew less and less. Within a few weeks my baby's skin was healed completely. He has now not a trace of rash, or eruption, or eczema, or burning sore. Not only so, but cured of the tormenting skin trouble, he has improved in general health."

Zam-Buk is sold at all stores and medicine vendors, 50c. a box, or post free from Zam-Buk Co., Toronto, for price, 6 boxes for $2.50. A certain cure for all skin diseases, cuts, burns, etc., and for piles.

Zam-Buk

Local and General

Mrs. F. M. Harrison, leaves to-day for a holiday in Spokane.

Miss Tina M'Donald was a passenger on this morning's train for Spokane.

Mrs. A. H. Napper and son are spending a few days at Grand Forks.

Mrs. Arthur Webster is enjoying a week's vacation at Christena Lake.

Miss Mamie Coutts arrived in town Thursday from Grand Forks.

R. L. Getz, operator at Eholt, was in town for a few hours during the week.

Born, at Grand Forks, on Wednesday, June 28th, to Mr. and Mrs. F. Swanson, a daughter.

Miss Jeanette M. Ross arrived in town last Wednesday on a few months' visit to her brother and sister-in-law, Mr. and Mrs. C. A. Ross.

$50,000 will be given in premiums and prizes at Vancouver's Second Annual Exhibition to be held Aug. 28th to Sept. 4th.

Jack Pot mine, at Wellington camp, one of the B. C. Copper's properties, is steadily forging ahead, about fifty men being steadily employed.

P. E. Karrill, master mechanic and J. D. Doyle, assistant-superintendent of this division of the Great Northern, were up from Marcus on Thursday on a trip of inspection.

Regular morning services of the Presbyterian Church will in future be held in Phoenix, at 11 a.m. in the K.P. Hall. The officiating minister is the Rev. J. A. Petrie, B.A., of Greenwood.

Joe McNeil, who had the closest call of his life in the recent fire at Silverton, arrived in town on Thursday. He was badly scorched on the face and neck, and received a severe cut on the leg, besides losing a fat pocket book containing $140 in cash.

Morrin Thompson and Co. have certainly anticipated the season of picnics and excursions, or else they have prepared for a dry wave. The Pioneer man was agreeably struck by the tasty array of thirst destroyers displayed in their windows.

Charlie Nelson left on Thursday for Spokane. He appears to be getting worse, the cancer taking an alarming turn during the last few days. Arrangements had been completed by the local Scandinavian Broterhood to send him to Greenwood, but Charlie thought otherwise.

At Greenwood, on Wednesday, June 23rd, 1911, the marriage was solemnized between Alessandro Corsi of the Mother Lode mine, and formerly of Phoenix, and Miss Helrighel Palmiry, recently from Italy. The ceremony was performed by the Vicar of St. Jude's Church, Greenwood, in the presence of the friends of the bride and bridegroom.

A surprise party gathered Thursday evening at the home of Mr. and Mrs. A. Geddes, in honor of Miss Hunter, teacher of the 3rd division in the Phoenix public school. An unusual number of friends were present, and the merriment, which included card games, etc., was continued till after midnight. Ice cream and other refreshments were served during the evening. Miss Hunter, who has endeared herself to the little ones, and by whom she will be greatly missed, leaves today for Vancouver, where part of her vacation will be spent.

R. Denzler, one of the first prospectors to camp on the site of Phoenix was a visitor to the city during the week. Mr. Denzler arrived here just twenty years ago last month, at the same time as Geo. Rumberger dumped his pack and pitched his tent. Mr. Denzler was heavily interested in several claims in town, among them being the Snowshoe, Curlew, and Stemwinder mines, and we understand he has some valuable property in the neighborhood yet. He has made his home in Spokane.

Card of Thanks.

The officers and members of Grand Forks Lodge, No. 30, Knights of Pythias, wish hereby to publicly thank all our numerous patrons of the Pythian picnic, held on Coronation Day, at Christena Lake, and especially the members of Phoenix Lodge, who worked so assiduously and faithfully to bring about such an enjoyable outing.

Walter Hadden, K.R.S.

The length of the Lone Star tramway to Boundary Falls is 28,437 feet. It is divided into six stations, and has 68 towers, the highest being 67 feet. There are 82 buckets, each capable of carrying half a ton. The capacity of the tram at present is 22 tons an hour, and the bins at the unloading terminal will hold 900 tons.

John M'Kane, a prominent mining operator at Rossland, B. C., when that camp was at the zenith of its prosperity, died of pneumonia, in San Francisco, on Monday. He was instrumental in interesting C. M. Schwab in Nevada mines, and incidentally cleaned up $2,000,000.

Sir W. T. Lewis, the eminent British mining expert, has been raised to the peerage of the United Kingdom.

The Kings Hotel
UNDER NEW MANAGEMENT

The undersigned begs to announce that he has purchased the business and goodwill of the King's Hotel from Messrs. Shea and Williams and hopes by careful attention to business and courteous consideration of patrons to receive a continuance of the generous patronage which the King's has enjoyed in the past.

SATURDAY, JULY 1, 1911

That summer frosts, the bane of the farmer and orchardist, will soon become a thing of the past if the trees of the province continue to disappear as rapidly as they have of late, and that B. C. in not many years from now will be as renowned for her semi-tropical products as she is to-day for her timber, are two rather startling and interesting announcements made by climatological experts who have been comparing notes on the weather during the annual convention of the American Climatological Association held in Montreal.

This does not mean that the famous apples of British Columbia will be supplanted by the West Indian banana, nor our Okanagan peaches will be superseded by the California oranges, but it does mean that there is a change coming over Canada's climate. One of the reasons given is that the thinning out of our forests makes the air less stagnant, that the snow melts more rapidly, and that the thermometer rises earlier than in the old days when piles of snow might have been seen in the woods while the fields were bare and dry. On the other hand, it was pointed out that deforestation tends to drouth, as the snow all then melts quickly, causing a flood with no reserve of moisture.

The fact that there is a climatic reciprocity between Canada and the United States, by virtue of which the latter export their heat waves to us, Canada providing them with cold feet in return, was also alluded to despite the fact that the organization is non-political and there was nobody present to urge legislation for or against the exchange. Dr. A. D. Blackader, of Montreal, was elected president of the association, the first Canadian to be so honored. The association is composed mostly of Government weather prophets stationed in all parts of the American continent.

W. R. Ross, Commissioner of Lands for the province of British Columbia, brought out some telling points in a speech recently delivered.

He said that the loss which B. C. has sustained in the past by reason of the destruction of forests by fire can hardly be estimated. Fortunately the more valuable timber lands are fairly safe from great harm under normal conditions, but even in them much damage is frequently done. In the interior the loss may easily be very great, for there the conditions in the Summer are favourable to the spread of fire.

As far as this destruction of one of the most valuable resources of the province can be prevented by anything that the legislature can provide for, or the government acting in conjunction with the timber owners can do, every necessary step ought to be taken. It is satisfactory to know that in Mr. Ross the province has a minister whose appreciation of the great need for action is as prompt as his speech shows him to be.

Sir Edgar Speyer, one of the leading financiers of Britain, in a speech recently delivered in London, stated that John Bull had for a little over sixty years invested the enormous sum of $15,500,000,000. During 1911 he will receive in interest on his outlay the sum of $900,000,000. Half of this is invested in the British dominions, and the interest from them is a deal less than that from his foreign investments.

Now that we have the pleasure of the automobile in our midst, and bearing in mind the close proximity of the international line, it would not be out of place for the government to hang notices throughout the Boundary with the significant notice prominently displayed thereon —Keep to the left.

The Gold Trail.

(By Harry P. Leonard "14-Mile.")

Where Mammon reigns supreme they plod,
These pilgrims of the trail;
Each morning finds a dawn of hope,
Night hears the oft told tale.

King Midas each night envy
Who Nature thus defies,
As reclining by his camp fire,
He lies, and lies, and lies.

Where has the gold discovered gone?
Where are the lodes they struck?
How is it all the millionaires
Are now down on their luck?

Through tropics' dangers manifold,
Or chilled by Artic blast,
The "musher" plods that dim gold trail
While beans and bacon last.

His heart may fail, his grub stake go,
As for the quartz he tries,
Yet by his Siwash camping fire
He lies, and lies, and lies.

The C.P.R. has donated the sum of five thousand dollars for the purpose of assisting Lethbride to secure the International Dry Land Farm Congress of 1912.

Phoenix Beats Danville

On Sunday last Phoenix baseball nine drove down to Danville and scored a clean-cut shut-out game. This is the worst beating Danville has received for some time, being outclassed at every stage of the game, and when the boys emerged from the cloud of dust caused by their continual perambulation of the bases, at the end of the ninth innigs, the score stood 7-0.

The Phoenix line-up is as follows: Quinn, catcher; Hamilton, pitcher; 1st base, Whitey; 2nd base, Patterson; Folsom, s.s.; Ellis, 3rd base; Biner, left-field; Blair, centre-field; McKenna, right-field.

NOTES OF THE GAME.

Jas. Murdock, manager, piloted the home team to the first shut-out game of the season.

Hamilton caught Danville sleeping on first base.

Folsom slides to first.

Blair's sensational catch main feature of game.

Quinn and Ellis played ball all the time.

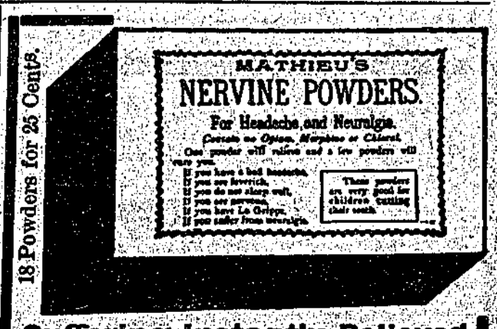
Pitcher Hamilton only gave Danville one hit, and struck out 16.

McKenna, in right field, laughed at the merry-go-round.

Biner, in left field, didn't have enough exercise to keep warm.

Phoenix boys proved to Danville that inside baseball beats luck.

On Dominion Day a series of games will be played at Rock Creek, when teams from Greenwood, Chesaw, Danville, Oroville and Phoenix will be represented.



Suffering Instantly Relieved

Seamen's Strike.

According to the British Columbian, the seamen's strike in London has taken on a more serious aspect, this week several thousand employees of firms which have not met the demands of the men for increased wages struck. More men are now out than at any time since the strike began.

To add to the traffic difficulties of the country, the railway employees are discussing a sympathetic strike.

Except at Southampton, where the companies have virtually yielded to the demands of the men, shipping throughout all England is at a standstill. Hundreds of deck hands are also quitting work in sympathy with the sailors.

An Interesting Element of Advertising

¶ An advertisment is like a story, it is interesting according to the telling.

¶ If you write it, and The Pioneer tells it, then there are two elements of interest united—you know the goods advertised and The Pioneer vouches for your intelligence with its acknowledged veracity.

¶ The people of the Boundary District not only rely upon The Pioneer, but respect those who obtain access to its columns. Every-day readers of the Weekly Pioneer easily cultivate a confidential acquaintance with even its occasional advertisers.

¶ It is all very simple, just as we said, like the telling of a story. Be the story ever so good, a great deal rests with the teller. And a good teller can do wonders with a good story.

Safeguard Your Food
by Always Using

Dr. PRICE'S CREAM BAKING POWDER

Made from Pure Grape Cream of Tartar

Its purity, wholesomeness and superior leavening qualities are never questioned.

NO ALUM—
NO LIME PHOSPHATE

"Alum is a powerful astringent with very decided irritant qualities, owing to which, when taken internally in sufficient quantity, it is emetic and purgative, and may soon cause fatal gastro-intestinal inflammation."—*U.S. Dispensatory, p. 144.*

"The use of alum and salts of alumina in food should be prohibited."—*Prof. Wood, Harvard Univ.*

Notice that all advertisements of the cheap baking powders conceal the presence of alum; Therefore read the label.

be taken by boat to Quebec, and then by train to Edmonton or to Athabasca Landing if the Canadian Northern has rails down to that point in the autumn; from there they will be transported down the river to Fort Smith, which is their destination.

The Spokaae Humane officer contends that there are no mad dogs on the Pacific Coast. The so-called mad dogs are only the victims of acute indigestion. It is supposed they might have been misguided enough as to sample the stake from a Chink or Japanese restaurant.

News was brought by the steamer Suveric, of the death at Fusan, Korea, on May 14, of Mr. T. Nosse, formerly Japanese consul-general in Canada, and previously consul at Vancouver. He was governor of the Cho Ilado province, Korea, at the time of his death.

Plans are under way for the placing of betweeen 4,000 and 5,000 Armenians on the land in British Columbia, according to information received by the government. This is almost the limit; why not try a few thousand Congo pygmies, they would look so picturesque moving about the woods.

A $100 a day fine has been imposed on the White Pass and Yukon Railway Company for failure to reduce its rates as ordered by the Dominion Railway Board.

The C.P.R. will have three townsites on the market shortly. A townsite will be laid out at Wasa, and an addition to the Fort Steele townsite, both on the line of the Kootenay Central, and a townsite will be laid out at Yahk junction, forty miles west of Cranbrook on the Crow line.

Another American smelting and refining company, with a capitalization of $115,000,000, divided into 1,150,000 shares of a par value of $100 each, has been authorised to carry on business in British Columbia. The head office will be in Jersey City, and the provincial office at Victoria.

The capitalists who were recently comparing conditions for the investment of capital in Ontario and Mexico, to the disadvantage of the province of B. C., will be rather startled by the statement of the Governor of Chihuahua that in Mexico hereafter "there will be no more selling out of the country by piecemeal. We will invite competition, not monopoly."

POINTED PARAGRAPHS

The Knights of Pythias have organised a lodge at Merritt.

Australia produced gold valued at $61,222,278 last year, and New Zealand $9,766,579 worth.

The assessment commissioner puts Winnipeg's population at 151,000, an increase of 20,000 over last year.

A system of electric signalling for mines to give alarm of fire or other mishap has been perfected. It is operated by a hand-driven generator.

There is little difference between labor and capital. Both use the cinch when they have it, and the fellow in between gets ground to pieces.

Duncan Ross, ex-M.P., has taken the contract to build the largest tunnel on the Grand Trunk Pacific. It is near Hazleton and adjoins his present contract.

Over 77 per cent. of the total production of alcohol in Germany is obtained from potatoes. There are about 6,000 small, and forty industrial distilleries in the empire.

A plan has been formed to build a canal 21 miles long between Montreal and Lake Champlain. At its lower end Lake Champlain would be connected with the Hudson river.

Scotland has a population of 4,759,444, according to the provisional figures of the census made public recently. This is an increase over 1901 of 187,832, and is the smallest increase since 1881.

Glasgow University has conferred the degree of LL.D. upon Premier Laurier of Canada, Premier Morris of New Foundland, Premier Botha of South Africa, and other representatives of the overseas dominion.

At the Coronation banquet at Buckingham Palace, the royal plate brought out only on historic occasions, and worth $15,000,000, was used. There surely was a change of dishwashers for that night.

Russia will increase its army corps in the far East to 160,000 men. Fortifications at Vladivostock are nearing completion, and are expected to be impregnable. It looks as if she intended to keep the "piece."—of Manchuria.

The freight from Hope to Steamboat, per pack horse, is 10 cents. per lb. The people of Steamboat are doing some strenuous kicking about it, maintaining that seven cents. is quite sufficient. Some of the big consumers threaten to put on their own trains. There are 86 horses on the trail, with an average carrying capacity of 250lbs.

The Canadian Government has made another addition to the transportation facilities of the country in the form of fifty reindeer. The purchase was made from Dr. Grenfell, of Labrador, who received $51 apiece for the animals. They will

To Walk Across Canada.

To win a wager of $5,000, G. C. Greenwood, magazine writer, left Vancouver, Wash., on the first of May, and arrived in Phoenix last Wednesday, on a walking tour across Canada, England, Ireland, Scotland, and Shetland Islands. The conditions being that he start absolutely without money, and that he support himself during the entire journey. Immediately on arriving in the city he secured work as a painter, where he will earn enough money to tide him over for the next stage of his journey.

Mr. Greenwood is about 32 years of age, and is apparently a man of some education. He expects to win the wager, and incidentally acquire a worldly knowledge that will be invaluable. The time allowed is two-and-a-half years.

Anti-Reciprocity Resolution.

Resolved — "That whatever may be the effect of reciprocity in its various other items, it is the unanimous opinion of our directors that it will have a detrimental effect on our fruit industry, and it is therefore to be vigorously opposed by all the legitimate means in our power." The foregoing resolution was passed at a meeting of the British Columbia Fruit Growers' Association, held at Kamloops, on June 3rd last.

About as good a way to study human nature is when you are out driving on the public road. If a man is willing to observe the laws and the courtesies of the road, he will duly give his share of it when meeting another, and shows he is willing to do the gentlemanly thing about it. But when you meet one who takes every advantage of those he meets, and holds the road for his own selfish self, often to the discomfort of those he meets, or will not allow them to pass, we are almost sure to think of pork.

After taking the treatment there will never be any need to drink intoxicants or use drugs again. Can be given secretly. We have yet to hear of one failure. Mailed under separate cover to any address. Price $5.00 box, or 3 boxes for $10.00. The Scobell Drug Co., St. Catharines, Ont.

W. S. FIELDING—Isn't that a Pretty Garden for Laurier to leave a fellow to tend.

Copper at 12.80 Cents.

One of the large selling agencies sold electrolytic copper at 12.80 cents a pound late Tuesday afternoon. This is the highest price the metal has touched in the current movement. The opinion prevails that the market is not far from 13 a pound.

Producers and selling agencies continue to talk 13-cent copper within the next two or three weeks. It is believed a favorable Producer's statement will have a stimulating effect on the trade.

As a result of better conditions all the copper companies are preparing to increase production, although they claim that output will be limited to consumptive requirement.

Supplying Liquor to Interdict.

Magistrate Stalker, of Wilmer, made his first conviction under the the new liquor act, imposing a fine of $150 and costs or four months in jail on a man, who, while admitting he had a knowledge of the act, purchased liquor over a hotel bar, and in spite of a warning supplied it to a man who had been interdicted.

Experts on behalf of British railroads have reported favorably upon the invention of a safety appliance which is a modification of the bogie principle. The invention practically makes impossible the derailment of trains while running curves, thus allowing an increased speed. It is claimed that it will enable trains to make the 185 miles between London and Manchester in two hours.

PUBLIC NOTICE.

TAKE NOTICE that I intend to apply to the Board of License Commissioners for the City of Phoenix at their next sitting for a transfer of the Liquor License held by me for the Butte Hotel, Dominion Avenue, to Messrs. George Vichary and Nick Muso.

Dated at Phoenix, B.C., this 20th day of June, 1911.
