evening. The four degrees will be conferred on a candidate, and will be followed by a banquet.

An athletic association has been ormed at Mother Lode, with Superinendent Couldray as honorary president; Charles Collier, president; Archie Burnett, vice-president; A. J. Morrison and W. J. Mitchell, committee. The association expects to have teams in both the football and baseball arena of the Boundary this summer.

Another tract of 1200 acres of land in the Kettle river valley, near Grand Forks, has been purchased by the Doukhobors. The land secured was the Vaughan property, which is said to include some of the finest land in the valley. The deal included a number of horses as well as machinery, and the consideration is said to have been

Greenwood citizens honored their champion hockey team by a public smoker in the auditorium on the 7th inst., the team having won both the Boundary league trophy and the British Columbia hockey championship. Dur ing the proceedings of the evening, a committee of the business men were appointed to complete arrangements for the building of a combined skating and curling rink during the coming summer. It is intended to have a good ice palace for next winter so that the hockeyists will be encouraged to win greater laurels next season.

MINING INSTITUTE, WESTERN BRANCH

Cleculae to Members Resident la Soundary

The next general meeting of this branch will be held at Grand Forks about the middle of May. Kindly in form me soon whether in your opinion it will be best to choose a date shorly before or after May 15th, (which wil fall on a Sunday).

Boundary district members are earn estly requested to actively co-operate in making the meeting a success. Two or three papers will be required for reading and discussion It is suggested that notes on details of practical mining are especially suitable for conaderation at branch meetings.

E. Jacobs, Branch Secretary. Victoria, B.C., March 14, 1910.

GRANBY HEAD VISITS MINES

Greenwood city council is consider. President J. Langeloth Makes Inspection

ager A. B. W. Hodges.

Mining, Smelting and development P. T. McCallum, immigration in Sunday. The president arrived by ments. spector for the port of Grand Forks, special over the Great Northern Sathas been appointed chief inspector for urday and was accompanied by George the Boundary district, with an increase C. Clark, Jr., who is on the directorate of both the Granby and the Great

On Saturday they visited the reducthe president's last visit, eighteen Harry Schultz, William Phipps and months ago. The greater part of W. Hodges; O. B. Smith, Jr., superintent; Dr. Otto Sussman, of New York, mine expert; W. V. Williams of Spokane, consulting engineer, and C. M. Campbell, local engineer.

Beautiful weather favored the presi dent's visit and afforded him an ex-Granby property. Mr. Langleloth made a complete tour of the headworks, driving to the Gold Drop outlet, and expressed much interest in the up to date machinery and methods obtaining at the Granby. He also met a number of the employees at the mine.

To the Pioneer the Granby presiof the Public Works Department, has dent stated that the company was very visited Greenwood and selected a site sorry to lose Mr. Hodges as manager for the new federal building there, the of the property; the management had Nelson property_at the corner-of Gov always been highly satisfactory to the ernment street and Greenwood street. directors, and he was greatly pleased Boundary Valley lodge, No. 38, In- with his inspection of the mines. dependent Order of Odd Fellows, will Questioned as to Mr. Hodges' sucentertain visiting degree teams from cessor, he stated that no definite action Phoenix, Oroville and Grand Forks at had been taken and the appointment would not probably be made for son

> At 4 p.m. on Sunday at the Granby shiftbosses' office, the retiring manager Mr. Hodges, was made the recipient of a gold watch chain and a fob, set with a large diamond, and engraved "Presented to A. B. W. Hodges by Granby employees, March 15, 1910.' The presentation was made by D. Paterson in the presence of about three hundred employees of the company. Mr. Hodges replied briefly, thanking them for the parting gift, which he said was entirely unexpected.

At a public reception in Grand Forks the previous evening, the employees of the smelter presented Mr. Hodges with a gold watch and Mrs Hodges with a solitaire diamond ring. On Monday evening of this week Mr. Hodges was tendered a banquet by businessmen of Grand Forks. Mr and Mrs. Hodges left Tuesday for New York en route to Peru.

Stuttz Players Coming

On Monday, March 21st, the Stuttz company of players will open a week's engagement at the Miners' Union opera house. On that occasion the entire proceeds will go to the Miners Union to be used in refurnishing the

The opening bill will be that popular success, "Until Death We Part," a play abounding in laughable comedy and startling situations, in four acts The company is a large one of recognized artists, and during their stay here will produce some of the best plays on the stage today. New scenery will be used with each new play, making each production complete in every respect. General admission, 25c. and 5cc.; reserved seats, 75c., now on sale at

ment work on his local mining claims, heart trouble.

BRITISH COLUMBIAN INVENTS SKY CRAFT

Will Have New Machine Ready in 60 Days

Zeppelin, Curtis, Wright Brothers and Bleriot will be totally eclipsed when Victoria's flying man takes his machine out within the next 60 days A ship that cannot collapse, that can fly in a gale, that can be built to carry Presentation to Retiring Man- 50 men and that can fly 100 miles an hour is the latest Victoria invention. The inventor is W. W. Gibson.

The new Gibson ship is made to Jacob Langleloth, of New York, fly end-on instead of side-on like all president of the Granby Consolidated the others It is an aeroplane with two long planes and a powerful engine company was a visitor in Phoenix on and is capable of all sorts of develop

In the opinion of the inventor it will be the style of ship used in the future both for carrying one or two men and for transporting as many as 50 at one time. It will be capable of making long flights and doing so in

Gibson has the framework of the ship partly ready and the engines are complete and one set of propellers attached. The planes, however, the most important part of the new invention, are kept out of the way of pry-

Gibson has not the slightest doubt of the success of his ship. He has made a number of models, the first being only about a foot, but the latter were five feet in length and worked and if turned over by main force, immediately righted themselves.

OPTIMISTIC OPINION OF GRANBY STOCK

Boston Commercial Advises Investors to Buy

Replying to a query re Granby stock he Boston Commercial, in a recent issue, gives the following optimistic duction works treated about 45,000 view of the value of the stock :

"We are utterly at a loss to explain the weakness of Granby Consolidated month of \$41,000. The cost of cop stock. We know that the company per produced was 7.88 cents per pound, is making a large output of copper at which included the expenses of all dea low cost per pound, and we believe velopment work at the mines. it to be earning at the rate of \$8 or \$9 per share The company's ore deposits are very extensive, comprising tens of millions of tons. We firmly believe that Granby stock is worth \$150 per share, and we have no doubt whatever that it will eventually sell at that

"We would remind you that th stock of approximately every successfu copper mining company has at one time or another sold at ridiculously low prices which were afterwards very difficult to explain. We believe that in vestors should buy Granby around pre sent prices and hold it, and that they will see an opporunity within two three years to sell it at an advance of 50 to 100% in price."

Jurymen Disagree

The coroners jury at Revelstoke in quiring into the death of the victims of the Rogers Pass snow slide were unable to agree on a verdict though out over an hour. As a result they were dismissed and a further investigation will be held.

It is understood the jury was evenly divided, three holding that the accident was unavoidable, but recommending further precautions in future, and the other three standing out for a verdice of negligence.

Inspector Will Make Report

Albert Sullivan, inspector of public schools for this division, paid an official visit to the local educational institutions on Thursday and Friday. While here the mayor and school trustees conferred with Mr. Sullivan in connection with the proposed new school for Phoenix, upon which the inspector will make a report to the educational department. Heappeared convinced that a new school was imperative and it is probable a favorable report will be sent to the department.

Sudden Death at Grand Forks

Mrs. Galer, wife of H. N. Galer, president of the British American Trust company of Vancouver, died at John Buckley arrived on the delayed her home near Grand Forks on Thurs-Great Northern train Saturday morn day last. Mrs. Galer had been out ing Mr. Buckley has just come from walking and upon returning home Prince Rupert and reports things tired, laid down on her bed. Five booming. He is here to do assess- minutes later she died apparently from

NEW C. P. R. BRANCH NEARING COMPLETION

Grading Finished and Steel Laid Half Way

Within a month the new branch, line of the C.P.R. to the Jackpot mine, in Wellington camp, will be ter treated 11,554 tons of ore this completed and in shape to handle ore week, 10,312 from Mother Lode, and tonnage for the British Columbia Copper company. The completion of the A small stringer has been cut in the line has been somewhat delayed from Greenwoood Phoenix tunnel and the the date originally set, but as the grading is now finished and about should see the railway in shape for traffic. The last of the trestles is now under construction.

H. B. Walkem, chief engineer for the C.P.R., arrived from Vancouver

on Thursday to inspect the line. No official information has yet been received by W. P. Tierney & Co. as to continuing of the line to the Lone Star mine, nine miles south from the Jackpot, though it is expected word to this effect will be received in the course of a few days. J. E. McAllister, general manager of the British Columbia Copper company, which owns the will be made to have the line completed this summer. The contractors Edward Berman has succeeded P. are holding their equipment at Wel-W. Lover as foreman at the Oro Den- lington to be ready to commence con-

Seyenteen Mile Tunnel

That the Great Northern railroad is planning to build a 17-mile tunnel from Chiawaukum to Skyomish in order to escape such disasters as occurred at Wellington a short time ago circles.

If such a tunnel was built it would be the longest tunnel in the world and would probably be one of the greatest engineering feats of all time. Several shafts would have to be sunk along the route and the total cost of such a project is variously estimated at from \$20,000,000 to \$50,000,000.

A preliminary survey of the district already has been made and the suppo. sition is that the experience of the last The Post-Intelligencer of Seattle few weeks was the only thing necess-

The Phoenix Pioneer And Boundary Mining Journal,

PIONEER PUBLISHING CO

SCRIPTION IN ADVANCE.

T. ALFRED LOVE, MANAGER

SATURDAY, MARCH: 19, 1910

A considerable sum of money has been appropriated for the improvement of roads in the Boundary district, and the time is fast approaching when this money will be expended. We would call the attention of the government agent at Greenwood to the possibilities of making a good winter road to escape the switchbacks between Greenoutlay. For several weeks every winter the road over the switchbacks, is abandoned for lack of snow and a trail up its present condition is very dangerous, railway company. being studded with roots and boulders. trail would provide a good winter road. of British Columbia. which would be a boon to traffic over

By the first of next month the United Kingdom will have under construction seven battleships, three ar mored cruisers, mine protected cruisers, two unarmored cruisers, thirty-seven destroyers, and, nine submarines—in all sixty seven vessels. This is certainly a terrific pace to maintain. Alf all the ships that were ever built to the 1900 were gathered together, this fleet now, building could destroy them without receiving any:damage.

wish that the women of Canada would take the sort of interest in public matters as is taken by the women of Eng-Columbia, that we think at would be an exceedingly good thing if the young men of this province took a deeper interest in the politics of the country This, is emphatically a young man's country.—Colonist.

With the commencement of the construction of \$20,000 postoffices at both Grand Forks and Greenwood and a \$12,000 school in Phoenix now practically assured for the coming symmer, and an appropriation of \$20. goo made for the purchase of a site for a new provincial government building at Grand Forks, substantial evidence of "growing times" in the Boundary cities is registered. It requires no optimist to predict a period of marked general activity throughout the Boundary district.

-Asaya-Neurall-

Nervous Exhaustion Alcoholic and physical excesses, mental shocks and bodily injuries drain the nervous system with surprising rapidity. Severe nervous exhaustion frequently results. The only remedy is Food, Rest and nerverepair. "ASAYA-NRURALL" is and makes possible this cure. It feeds the nerves, induces sleep, quickens the appetite and digestion, restores full nerve vigor. \$1.50 per bottle. Local agent.

IOHN LOVE.

WANT EX-MEMBERS QUEEN'S OWN

Several thousands of former members of the Queen's Own Rifles will assemble from all parts of the conti nent at Toronto next June, for a re union in celebration of the Semi-Centennial of the regiment. The festivi ties will commence Saturday, June 18th, with a reception at Government House, his Honor, the Lieutenant Governor, like many other notables, being an ex-member of the crack regi ment. On Sunday a monster church parade of ex-members will be a unique affair. During the week, grand his torical pageants on a scale only equalled at the Quebec Tercentenary, will be given by several thousand performers on the Rosedale Athletic Grounds. In addition, there will be numerous social meetings of old comrades.

In nearly every town and city in the Dominion, and in many in the United States and elsewhere, are men who have served in the Queen's Own, and the semi centennial committee is desirous of getting personally in touch with as many of them as possible. To that end, it will greatly facilitate matters if the ex-members who see this will at once communicate with the per manent secretary, Mr. G. I. Riddell, 36 King St. East, Toronto, and prevail upon all the other ex members they know to do the same. Mr. Riddell will promptly send them par

CANADIAN NOR-THERN PACIFIC

Davidson financier, together with such persons as become shareholders in the company, hereby incorporated, are hereby the guich used. The trail is the nat constituted a body corporate under the ural route for a road up the hill, but in name, of Canadian Northern Pacific

The head office of the company having numerous sharp curves, and its shall be in Victoria. The company by writing to the Department of Lands, narrowness making it impossible for is empowered to build the lines covered teams to pass. An expenditure of by the agreement between the Ca three or four hundred dollars on this nadian Northern and the government from whom the reader can secure blue

one of the most, important roads in the gage in coal mining and to own coal but first of all it would necessary for to more than £40,000,000, which is pany is to be \$25,000,000, divided to locate m. If that district has no New construction for 1910 will cos into 250,000 shares of \$100 each. Expropriating powers in respect to Lands Department at Victoria direct, year, land needed for its works are conferred on the railway. The company may amalgamate with the Canadian Nor thern or any other railway, subject to the consent of the lieutenant governor in council being secured.

GROWS NEST PASS COAL COMPANY

Toronto, March tt.—Figures shown An Eastern exchange expresses the to sha cholders of he Crow's Nest Pass Coal company, by President Elias Rodgers, at the annual meeting today, make it certain that, in July next the land. We join in this view and we four per cent dividend f this company add with special reference to British will be resumed. The result of the operations for 1909 shows a net, profit of \$1,45,020, 29, despite the fact that 10 cents per ton was written off for depreciation. This accounts for \$89,-904.05. Had not each ton been pared this 10 cents per ton the net profit would have been increased by that amount.

Production figures for the month of January and February, 1910, break all previous records for this mine. During January the output was 99,489 tons, as against 58,718 tons for January, 1909, and in February of this year 95,977 tons, as against 65,349 tons for February a year ago is the output.

Of subsidiary companies, while a year ago the Morrissey, Fernie and Michel railway operated at a loss, business for the first two months of 1910 offsets this loss and allows for a profit thus far this year. Although in his address Mr. Rogers made no promise that dividends would be resumed next July, it is well understood that this will

be done. In the course of his address, after congratulating the shareholders on the record showing made by the company, Mr. Rogers said that the government estimate was that the company had 40,000,000,000 tons of coal in their mines. If that figure was reduced to 10,000,000,000 it would allow the company, operating 300 days a year, to produce 20,000 tons per day for 1500 years. The company stated that as fast as it could be brought about the company would get the mines on a 10,000 ton per day production basis,

PRE-EMPTING IN BRITISH COLUMBIA

For the benefit of the reader who enquires where he may obtain information regarding free land in British of all, that there are no free homesteads granted in this province, but lands may be pre-empted for \$1 per acre. For particulars of mode of procedure he would do well to consult official government bulletin books Nos. 22 and 10. These books contain a great deal of information for the pros pective land pre emptor, and No. 10 handbook contains a list of government agents for each district in British Col-

Victoria. There are 24 government agents prints, etc., informing him where lands The company is authorized to en for pre-emption purposes are available, ies. The capital stock of the complim to decide on the district he wishes an increase of nearly, £5,0 agent, He can communicate with the £13,279,930, against £8,885,194 las

GLOBE EDITOR INTERVIEWS TAFT

Washington, March 12.-- I. acdonald, editor of the Toronto Globe, called upon president. Taft totween Canada and the United States. The president informed Mr. Madonald, that the tariff experts, who had peen sent to Ottawa, were preparing report which would be submitted to him by Monday, when he would, be in a position to discuss with him the relations between the two countries, which appear at this moment to the somewhat strained because of the inability of the experts to reach a satis umbia. The books may be obtained factory agreement for the acquisition by the United States of the same preferential terms accorded by the Dominion to France, in the special arrangement between Canada and that

The British Navy estimates amount

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitts mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

and healthy. It cleans the digostive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prootration. It contains no sloohol or habit-forming drugs.

Constinution is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

GROWTH DEMANDS INCREASED CAPITAL

News which will be of great interest to Vancouver residents and Provincial Investors generally, as indicative of the almost magical progress and growth taking place in Vancouver, is the announcement made by the directors of the Dominion Stock & Bond Corporation, Limited, that they have reorganized the company, increased the capital stock to \$1,000,000. This increase in capitalization is rendered necessary by the rapidity with which the business of the corporation is growing and is directly in line with its contemplated projects, which include the erection of a magnificent new, modern, ten storey office building of brick and

From the beginning, the history of the Dominion Stock & Bond Corporation, Limited, has been one of remarkable success, constituting a fine record of progress which is all the more praiseworthy because it is characterized by permanence and stability. Originally established to buy and sell Real Estate, to invest funds for clients, and handle bonds and debentures, it is now proposed to widen the field of the corporation's activities, to include those of a loan and savings business, administer estates, invest funds for clients and other duties of a fiduciary

An Interesting Element

Advertising

An advertisement is like a story, it is interesting according to the telling.

If you write it, and the Pioneer tells it, then there are two elements of interest united—you know the goods advertised, and the Pioneer vouches for your intelligence with its acknowledged veracity.

The people of the Boundary not only rely upon the Pioneer, but respect those who obtain access to its columns. Every-day readers of the weekly Pioneer easily cultivate a confidential acquaintance with even its occasional advertisers.

It is all very simple, just as we said, like the telling of a story. Be the story ever so good, a great deal rests with the teller. And a good teller can do wonders with a good
