The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over $50,000, while the Rawhide pay roll is $18,000.

THE PHOENIX PIONEER

Devoted to the Interests of the Boundary Mining District

The PHOENIX PIONEER is published in the highest municipality in Canada—altitude, 4,800 ft. The city has a population of 1,500, and possesses first-class hotels, opera house, schools

FOURTEENTH YEAR PHOENIX, B. C., SATURDAY, MARCH 22, 1913 NUMBER 36

BIG SMOKER AND DANCE FOR HOCKEY TEAMS

Miners' Union Hall Crowded to Overflowing—Big Program Rendered.

The members of the victorious hockey teams, with their friends, gathered in the opera house in strong force on Friday of last week and celebrated the finish of the hockey season with a concert, which was followed by a jovial smoker in the lodgeroom of the building. The business men of the city gave liberally towards the entertainment, and the funds obtained helped to swell the somewhat depleted exchequer of the sports committee. R. K. McCammon presided over the concert, the program of which included songs, recitations and instrumental selections by an orchestra consisting of Messrs. J. Finlay, Chas. McKay, Albert Biner and Chas. King, the latter of whom made a most acceptable accompanist.

The smoker, held afterwards, was another success, and the proceedings were thoroughly enjoyed by all present. Throughout the evening there was a liberal supply of cigars, tobacco and other refreshments on hand, while song, speech and story enlivened the evening. The captured trophies of the past hockey season were triumphantly displayed and occupied conspicuous places to the right and left of the chairman. J. E. Thompson, pres. of the sports committee, addressed the gathering and complimented the players on their success. He also referred in flattering terms to the public spirit displayed by the town in building the rink and to the loyal support accorded the games. The arrangements for the evening were in the hands of an exceptionally energetic and capable committee, consisting of John Finlay and A. A. White, to whom the success of both entertainments is in a great measure due.

St. Patrick's Ball

St. Patrick's Day was not forgotten in Phoenix, and while the genuine emblem commemorative of the gentle old saint was absent, the wearing of the green was much in evidence. In accordance with custom, the local aerie of the Fraternal Order of Eagles gave their annual dance, which as usual was very largely patronized. Jas. Marshall performed the duties of floor manager and gave a fine exposition of what a rale ould Irish gentleman ought to be. The popular Ironsides orchestra discoursed sweet music for the revellers and included in their program a few of the old time favorites which were much appreciated. A delightful supper was served by Danny Dean in the banquet room of the building. The ball room was tastefully decorated with the illuminated arms of the order and the noble bird of prey was in evidence on all sides. The affair was among the most successful held in the camp and the committee in charge of the arrangements are to be congratulated on the result.

The following composed the committees: Floor Committee—D. A. Vignaux, H. R. McCoskrie and J. E. Thompson.

Reception Committee: Danny Dean, J. Darraugh and W. Donnelly.

Cold Wave

The recent cold wave that visited the eastern portion of the country struck the Boundary district this week and sent the mercury and the thermometer hovering around zero. The coldest weather of the week seems to have been on Thursday when the instruments registered 8 below at five oclock in the morning. Phoenix, however, was not the only sufferer in the Boundary as a temperature of 15 below was reported from Grand Forks.

Some people believe all they hear. At least they repeat all they hear and add some to it.

B. C. Mining

William Morrison, a partner of William Moberly and company of Atlin, arrived in Vancouver last week from the North. He declares that it is absolutely impossible now to use the Wrangel-Stikene route and points out the fact that the government is using the Atlin route for getting mail into the district. He says that there will be an easy water route, via Atlin, by which the creeks can be reached as soon as the ice goes. Other people who are acquainted with the district confirm this report.

Howard Porter, who is well known around Stewart as an experienced prospector, has come out from Silver Creek and is on his way to Altin to record his claims and to obtain supplies. He has also hired Indians from Telegraph creek to haul in 400 pounds of supplies for immediate purposes at 25 cents per pound. He says that he has sunk a hole on his claim, but that now there is ten feet of water in the workings and this has obstructed development. He has found a few good colors and altogether he says, the district has given him a favorable impression as being a splendid one for placer mining.

Ore samples tested by competent analysts at the assaying laboratory of the University of Alberta in Edmonton prove that the mineral wealth of the province has as yet only been vaguely surmised. Some of the ore runs high in gold, silver and copper, while other pieces show iron and lead. Prospectors, who have tramped over the foot hills of the Canadian Rockies, predict that the next big "rush" on the north American continent will be into northwestern Alberta and eastern British Columbia, adding that the vast hitherland also will be a scene of activity with the introduction of transportation lines. More than a dozen exploration companies are boring for oil, natural gas and asphaltum in districts north of Edmonton, and as the tests are highly satisfactory they will continue development work throughout the season.

A despatch to the provincs says that assays giving platinum values of about $7 to the ton have been secured by a Sandon assayer from ore from Crawford Bay claims owned by Bruce White and associates, stated Mr. White a few days ago. Some weeks ago Mr. White secured from a Nelson assayer a certificate giving a slightly higher value in platinum from this ore and he regards the result of the test at Sandon, which was carried out under his direction, as confirmation of the presence of the metal in the Crowford Bay rock. Speaking of the difficulties met with in assaying for platinum, Mr. White, who has become a believer in the existence of platinum in ores in this section of Kootenay, mentioned that one well known Slocan assayer who has been carrying on experiments in testing ore for the platinum metals, placed a piece of platinum metal in some pulp and on the first assay secured no results. The metal, said Mr. White, remained in the slag. On the second trial it "came down" and gave the results. The Crawford Bay ore formation, said Mr. White, is similar in many respects to that of the nickle fields at Sudbury, Ont., the rock carrying a percentage of nickle. He regards it as significant that considerable quantities of platinum are known to be contained in the nickle matte shipped to United States refineries from Sudbury. He added that he had in his possession a federal government publication which showed that considerable quantities of nickle were present in the ores of the Queen Victoria mine near Nelson, which is now being operated by the British Columbia Copper company.

Trip Through Mining Districts

M. Grbich, organizing sec. for District No. 6 of the W. F. of M. returned to town this week from a tour of his jurisdiction. In a chat with a Pioneer representative on the prospect for mining this season, he appeared to be extremely sanguine, and outside of the big camps conditions seem to be improving. At Moyie in East Kootenay, he found things considerably improved. Two diamond drills being at work on the St. Eugene, which has been dormant for years, while thirty five men were engaged on a scheme of development which gives excellent promise of useful results. Northport was also included in his tour, and while there he had an opportunity of visiting the Star mine, which he and others consider possesses one of the truest copper gold ledges in the whole of that district.

The Paulson Inland Mining Co., situated at Paulson, Mr. Grbich says, are expecting big things this summer. The property at present employs about twenty five men, and already possesses an efficient ten stamp compressor, which is to be immediately increased to a fifty stamp capacity. In addition to other inprovements, including a more effective hoist, the mine is to be supplied with a 25 drill compressor. At Curlew, Wash., the Curlew Mining company, a working man's proposition, are now industriously at work on the actual ledge, their outlook being regarded as bright. Trail, the center of smelting operations for the Canadian Consolidated was a perfect hive of industry, between 600 and 700 men being constantly employed. "It is five years since I was there," said Mr. Grbich, "but I scarcely recognized it last week." The company have recently added a couple of zinc furnaces to their splendid smelting and refining plant. The later town is agog with excitement over the decision of the C.P.R. to extend their line into Idaho and Washington. The Consolidated company have recently been very active all through that district and have now taken over numerous claims in the vicinity of Peterson, about 8 miles from Rossland, some of which, Mr. Grbich learned, were to receive immediate attention.

Coming nearer home, our informant stated that the Fife lime quarry was working full blast, the whole of the product going to the Trail smelter. Rumors were also rife around Fife to the effect that Fife Mining company, a Spokane outfit, were shortly to re-commence operations.

Hockey and Curling Trophies

The display of silver plate on view in the window of Ed. Black's jewellery store testifies more eloquently than words to the brilliant play of the Phoenix hockey teams. In all there are four splendid pieces of silverware displayed. First in order of importance is the McBride cup, emblematic of the interior hockey championship and the most recent of the trophies offered for competition in British Columbia. But in point of size and beauty that offered by the Nelson Daily News, easily is the most conspicuous among the captured emblems. The Boundary trophy seems hardly worth mentioning by reason of the fact that it has now seemingly become a fixed exhibit in this camp. Not the least important of the four, however, is the cup presented by Dr. Stone, J. E. Thompson and Ernest Miller, M.P.P. for competition among the intermediate Boundary teams. But while the hockey teams have been busy gathering in silverware, the curling club were by no means idle, both the Smith and Burns trophies bearing testimony to the members' skill in the roaring game.

Daily Picture Show in Phoenix

The spirit of enterprise which has been prevalent to a marked degree in our city of late has received a further development in the way of providing recreation for Phoenix people. J. E. McDonald of the Kings Hotel is installing a high class motion picture house in the premises adjoining the hotel. The plans of alteration of the premises have been passed upon by the responsible authorities and the transformation into a commodious and comfortable theatre is already under way. The seating capacity will be over 200 and the latest style of opera chairs have been secured.

Mr. McDonald who was in Spokane during the week, arranging for film service, etc., informs us that he expects to have an opening celebration about the end of this month. A complete change of program will be presented every night. More complete announcements will be made in our next issue.

Sad Mining Accident

R. Draca, an Austrian miner, employed in the Granby mine, sustained fearful injuries in an accident on Wednesday morning, when an explosion of dynamite inflicted injuries that possibly may result in a total loss of sight. An authentic report of the circumstances leading to the accident is to the effect that Draca was engaged in a drift, working a Murphy drill and while clearing away the ground in preparation for setting up his drill, his pick either came in contact with some stray powder or struck a "missed hole". He was alone at the time of the mishap, his condition being discovered a short time after by Wm. Oxley, who was attracted to the spot by the man's groaning. Draza is unmarried and has been a resident of the camp for four or five years.

A new salmon cannery will be built on the Fraser river this year.

DEVELOPMENT WORK ON DUNCAN GROUP

N. J. Carson Inspects Operations—Kettle Valley Railroad to Run in Two Weeks.

"Excellent progress is being made on the Duncan mine, near Beaverdell and the future prospect for that property are highly encouraging," says N. J. Carson, secretary of Phoenix Mining, Smelting and Development Co., which owns the property. Mr. Carson returned to town on Friday from a visit of a few days to the group which consists of three claims. Throughout the winter the company have had from four to six men employed in both developing and sacking ore. There is about one carload of fine ore on the dump, while the company has another two carloads at the railroad siding awaiting shipment. The principal shaft is down about 100 feet following the lead almost from grass roots, and the present scheme of development consists of a tunnel which it is intended to tap the vein some twenty feet lower than the shaft has yet reached. The ore is a high-grade silver-lead product and the lead has a dimension of 18 inches.

Mr. Carson said that there is very little snow in the valleys and the logging camps are breaking up. The river is unusually low at present. It is expected that the Kettle Valley Railroad company will take over the road from the contractors inside of two weeks, news having been received to the effect that the Railroad Commissioners had passed favorably on the undertaking.

Patients Improve

Encouraging reports come from Toronto concerning the cases which were treated by Dr. Friedmann this week. A. W. Cheeseworth, whose wife was among those to receive an injection, said that Mrs. Cheeseworth is already improved.

"Six-Man" Hockey

"Six-man hockey will never be introduced on the coast," says Frank Patrick, the Vancouver manager. "I consider the brand inferior to the seven-man style." Lester Patrick is not over-enthusiastic over the six-man game, while J. Gardner, the New Westminster manager thinks that the Coast league will make the mistake of its life should it adopt the abbreviated style.

"There is not the action in six-man hockey that the rover adds to great winter game," continued Frank Patrick, "and while it gives plenty of scope for speed skaters, the ice area is too large for the players to keep up their efforts. The game may be all right in the N.H.A., where they have been forced to bring out all manner of dead ones and has-beens, but here on the coast, where we have the cream of Canadian hockey talent, the public must be given the seven-man style with its wonderful combination rushes, and with such players as we now possess, it would be an imposition upon the P.C.H.A. fans to ask them to patronize six-man hockey."—Vancouver Province.

C.P.R. to Protect its Employees

The C.P.R. has compiled and is now having printed for general distribution among its employees, placards containing a set of safety resolutions which uregs all of its employees to follow minutely. Steps are also being taking by the officials to perfect organization among the employees, the object of such organization to be the spreading of these resoluations. Several men from each branch of the service will be designated to further safety in their respective departments. General Manager Grant Hall has declared that the movement is yet in its infancy.

Following are the safety resolutions which are urged to be learned heart by the men:

"I will not stand in front of a moving car or engine to board same.

"I will always respect the blue flag, because the lives of my fellow employees depends upon it.

"I will not stand between the cab and the apron when coaling an engine.

"I will not push a drawbar with my foot or hands, when cars are moving, or when they are close together.

"I will not turn down boards with nails sticking out of them.

"I will not adjust a coupler, turn an angle cock or uncouple hose bags when cars are in motion.

"I will not hold on the side of a car when passing platforms, buildings or obstructions close to the track.

"I will not use two inch nails in building a scaffold where four inch nails would be safer.

"I will not shove cars into a freight shed or on a team track, without first making sure that all men and teams are clear.

"I will do all I can to stop the loss of life and lessen the injuries to my fellow employees.

"I will not kick cars into a siding where boarding cars, or cars being loaded or unloaded, are standing.

"I will remember it is better to let a train wait than to cause an accident.

"I will not take chances.

"I believe that safety first is simply a habit and I will cultivate the habit.

"The prevention of accidents is a duty I owe myself, my family, and my fellow employees.

"I believe that accidents are not inevitable, and I know a great majority of them can be prevented by care.

British Immigration Insufficient

After many years of conservatism in immigration, as far as all immigrants other than those speaking the British language are concerned, the Australian authorities have decided to appeal to Denmark for immigrants. Hitherto practically all immigration came from the British Isles, Canada or the United States.

The Australian government, however, feels that a wider field should be sought out, and are seemingly convinced of the necessity of drawing supplies of settlers from other countries besides Great Britain.

Referring to Lieut. Mawson's wireless message to Melbourne in connection with the terrible weather encountered in the Antarctic, the returned members of the expedition state that observations proved the velocity of the wind to reach at times a rate of 202 miles an hour. The scientific members suffered great hardships.

Important Conference

Victoria, B. C., March 20,—An important conference upon the matter of forest protection along the lines of operating railways in the West has just closed at Winnipeg, the British Columbia Departmrnt of Forestry having beeu represented thereat by Mr. R. H. Benedict of the headquaters staff and the parties to the convetion being the federal Board of Railway Commissioners, the province of British Columbia, and the Canadian Pacific, Grand Trunk Pacific, Canadian Northern and Great Northern railway companies. General protection to timber along the right-of-way was of cource the theme of the discussion. The patrol system inaugurated by this province last year was reported to have proven generally satisfactory and will be continued this season, with slight variations where large bodies of timber justify more thorough patrol. Last year every mile of right-of-way was inspected by the provincial officials and the regulations strictly enforced to guarantee the safety of near forests and due payment of royalty for timber cut on crown lands. The work of inspection is peculiarly onerous in connection with construction operations, and on the whole the provincial officers have been well supported by the railway companies. The rule has been laid down that everything cut without permit is considered to constitute a trespass, and where timber is cut with or without permit, the brush must be properly disposed of without delay. The system of handling this inspection work on all lines under provincial jurisdiction and control is to have it preformed by the provincial officials and the cost collected from the railway companies. In the case of the Grand Trunk Pacific (a Dominion controlled undertaking) the company has been paying one-half of the fire protection costs, and this arraugement the company's representatives stated at the Winnipeg gathering they are willing and anxious to continue.

Pugs Classed as Undesirables

When the Pacific Coast steamship Umatilla arrived in Victoria last Saturday an interesting clause of the immigration act was disclosed and resulted in the prohibiting of a prizefighter, Chas. Reilly, of San Francisco, from entering Canada. Reilly was coming north to fight Joe Bailey, lightweight champion of Canada, at Steveston on March 29. He was booked to Victoria but the immigration officials refused to let him disembark.

Prizefighters, or anyone who engaged in performances of an uninstructive nature, are classed as undesirables and therefore are not permitted to land in Canada. Prizefighters who bring down big purses for their fights will no doubt be somewhat put out on learning that they are undesirables. Reilly was not the only one who could not disembark from the Umatilla. His trainers and the moving picture man, who was to record the fight on the film, were also refused admission to Canada, being classed as undesirables.

A number of frequenters of the Barbary Coast, which was closed down at San Francisco a short time ago, were also unable to land at that port. They went on to Seattle. Reilly and his party, if they desire to come to Canada, will have to obtain special permission from the superintendent of immigration at Ottawa.

Peps For Coughs Colds and Bronchitis

THIS unique medicine for throat and chest ailments merits a place in every home. By simply dissolving a pleasant tablet on the tongue, Peps convey a potent and valuable medicine direct into the throat, lungs and bronchial tubes; a medicine which invigorates the weakened organs, soothes inflammation and irritation, loosens phlegm, destroys disease germs, cures chronic disease, and makes breathing deep and easy. Free from all harmful drugs, Peps suit young and old alike.

The only breathing cure for coughs, colds, sore throat, bronchitis, weak chest, influenza colds, and other throat and chest ailments. Be sure you see the name—Peps—on every box.

The Medicine you BREATHE into your Lungs

Dr. PRICE'S CREAM BAKING POWDER

You will find it a great satisfaction to do

More Home Baking

You will make biscuit, cake and pastry clean, fresh and tasty—better every way than the ready made foods.

Dr. Price's Baking Powder is specially devised for home use, and makes home baking easy and a delight. It will protect you from the dread alum baking powders, which are too frequently found in the ready made articles, and insure you food of the highest healthfulness.

Loss Through Strikes

Over a million days' labor was lost in Canada last year owing to strikes, according to the Dominion Labor report. This is only about half the loss that occurred in 1911. The total number of employees who went out on strike was 40,500. There were few important strikes affecting public utilities and thus coming under the Industrial Disputes Investigation Act. Nineteen were referred to arbitration under the Act, and all but three were settled.

Filipino Leader to Visit Canada

Emilio Aguinaldo, the former leader of the Filipino insurgents, expects soon to visit Canada in order to study the working connection between the Dominion and Great Britain. He believes that a similar connection between the Philippines and the United States might be the solution of the Philippines problem.

The revenue of Japan for the past year shows a total of $292,000,000.

DO YOU WANT TO MAKE MORE MONEY

IN placing your Newspaper Advertising, place the greatest value on the paper with the greatest influence on its readers.

¶¶¶

Use the medium that is watched for every week by the people of your community.

Spend the money with the paper that is read with interest. It reaches the people and you know that you're getting into the homes of the people you want to reach.

¶¶¶

Quality has not yet become popular, but the day is not far distant when this will be one of the main features of Newspaper Advertising. In the meantime business men, who have faith in quality, are reaping huge returns.

¶¶¶

Remember first, last, and always, that circulation counts; that quality of service gives quality in returns. The high priced medium pays. Like the high priced servant, you will find money well expended.

¶¶¶

You can make more money by selling more goods; you can sell more goods by advertising in The Phoenix Pioneer, whose constituency is the Boundary district.

¶¶¶

The way to test the truth of this statement is to send us the copy for your ad. right away. The experience would not be an expensive one, and satisfactory results are assured.

¶¶¶

We use the most modern type and machinery money can buy, combined with thorough workmanship—a combination which enables us to do the best work at a moderate cost.

SATURDAY, MARCH. 22, 1913

Low Wages For Girls

A witness who has not been called before any minimum wage commission to give her testimony, but who knows, perhaps more about the wages a young girl should have to enable her to live a respectable life, spoke her opinion in Portland, recently, in the course of a lecture.

The party in question was Evangeline Booth of the Salvation Army. "I think," she said, "I know, in fact, that in New York city, where I make my headquarters, a working girl cannot live—barely live, mind you—without being harassed to death, without being subject to the worse temptations, on less than $9 or $10 per week. It cannot be done.

"That is in New York, but I do not believe a girl can live for any less in other cities."

Miss Booth answered with scorn the statements of wealthy Chicago manufacturers that the amount of a girl's wages made no difference as to whether she went wrong.

"Oh, it makes all the difference in the world," she exclaimed. "It makes such a difference that I know—I know personally from the result of the investigations the Salvation Army has made in New York during the course of its work—that hundreds of working girls are advised to go wrong when in employment.

"Why, a girl will be told that she cannot live on the wages she will get, and that she had better get a 'friend' like the other girls. No secret is made about it. And yet they say it makes no difference what wages a girl is paid.

"Not many girls go wrong for sheer want of bread, perhaps," Commander Booth continued. "It isn't the need of present starvation that drives them to vice. But it is the continual pressure, the constant lack of money, the want of $2 or $3 to get a new hat or to make a little trip, that drives a girl down. It is just those little sums of money that make the difference—and it is just such little sums that she can get by yielding to temptation."

"God Help The King."

During the debate on the naval contribution, or rather gift, a certain Geo. W. Kyte allowed his patriotic ardour to soar to such heights as to suggest that Canada should remain neutral in the event of Great Britain being engaged in a European war. According to this it would seem as if our old loyal friend, Sir Wilfrid was losing control over some of his followers. Sir Wilfrid has never quite gone so far as Mr. Kyte, but he certainly attached a tough string to his own naval proposals when he inserted the condition that the sanction of the Parliament of Canada should be necessary before the ships of the Dominion lined up for battle alongside of those of Britain. We repeat, it would be a tough string, especially if the Opposition resorted to the undignified tactics that have attended the present naval discussion. Mr. Kyte, (we never heard of him before) also points out the unprotected state of Canada if the three Dominion dreadnaughts are stationed in the North sea. But the hon. gentleman will surely admit that the wisest policy is to fight a battle as far removed from home as possible and where could a better spot be found than in the North sea, for even if the Imperial fleet with its Canadian units were defeated, does Mr. Kyte suppose that the enemy would be so little damaged that it could afford fo meet the northern or southern blockading squadrons which would bar the way to Canada either by way of the Straits of Dover or the 350-mile passage between Aberdeen and Christiansand. Of late we have heard a great deal of "God Save the King," but if the House contained a few more like the hon. member for Richmond, the anthem might aptly be changed to "God Help the King."

Canada's Revenue Still Rising

The ever increasing volume of customs receipts which has been such a feature of the administration of the department by the Hon J. D. Reid is shown in the returns for the eleven months of the present fiscal year. The revenue for that period was $103,485.000, compared with $77,716,000 for the corresponding eleven months of the last fiscal year. This shows an increase of $25,769,000, or in other words, the increase for the eleven months of this fiscal year is greater than the entire customs revenue for 1898-99, which was $25,734,000.

In order that the bounding revenue from customs alone may be appreciated, the following statement shows the collections for the first three years of the Liberal administration. The first year of the Laurier regime showed a customs revenue of $19,891,000. For the year 1897-98 the revenue was $22,157,000 and only in 1900 did it reach $28,000,000 or slightly over the increase for the eleven months of the past year.

The revenue for the month of February was $9,156,000, and for the corresponding month last year $7,447,000, being an increase of $1,707,000.

Motion Picture Censor

The provincial government has appointed C. L. Gordon of Vancouver to the post of censor of motion picture shows. His duty will be to pass upon all films shown in British Columbia, and to forbid the production of those which he regards as harmful. In addition, he will exercise supervision over the structural appliances in theatres where the cinematograph is shown, the fire prevention appliances and exits and the sanitary arrangements. Mr. Gordon has for the past 14 years been engaged on the editorial staff of the Vancouver Province, latterly as city editor.

Trout Fishing

Trout fishing commenced in the coast districts last Saturday, March 15th. But in the interior portion of the province the time for landing the speckled beauties is still unchanged, viz. the 15th of May.

This division of the trout waters into two zones with differing regulations was instituted several years ago in accordance with the recommendations of a commission which pursued its investigations during the years 1905, 1906 and '07. The dividing line is the 121st meridian.

How a cut led to 4 years of suffering

Mr. J. E. Arsenault, a Justice of the Peace and station master at Wellington, on the P. E. I. Ry., says: "Four years ago I fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead it developed into a bad ulcer, and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged.

"I consulted two doctors, and tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse.

How Zam-Buk cured.

"This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did.

"It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema."

Purely herbal in composition, Zam-Buk is a sure cure for all skin diseases, cold sores, chapped hands, ulcers, blood-poisoning, varicose sores, piles, ringworm, inflamed patches, cuts, burns and bruises. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price.

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got THE NEW METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $31 and never loose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It may suppress the symptoms—our NEW METHOD cures all blood diseases.

Local and General

Easter lilies and carnations at the Union store.

F. E. Ackerman left during the week for Nakusp.

Geo. Heidman returned to his home in Vancouver on Friday.

Chas. Hagan left on Monday for a short vacation in Spokane.

Mrs. M. McKibbie left on Thursday for a ten-day vacation in Spokane.

Dr. Verrall left town on Wednesday for a short business trip to Vancouver.

Born—At Phoenix, on Monday, 17th March, to Mr. and Mrs. J. Fuller, a son.

Born—At Phoenix, on Wednesday, March 19th, to Mr. and Mrs. D. Rankin, a son.

Born—At Phoenix, on Tuesday, March 18, to Mr. and Mrs. Albin Almstrom, a son.

Mrs. Thos. Richards is the guest of her daughter, Mrs. J. Campbell of Grand Forks.

Miss Ada Pierce returned to Nelson on Monday, after a couple of weeks' visit to her parents.

J. O. Johnson C.P.R. section foreman, left on Tuesday to visit his ranch near Northport, Wash.

The Phoenix Miners' Union have decided to proceed immediately with the renovation of the big ballroom.

Ted. Horrell, who for the past fifteen months has been at the Hidden Creek mine, arrived in town on Monday.

N. J. Carson, accompanied by his son, Sherman, spent a few days this week at the Duncan mine, near Beaverdell.

Danny Deane, prop. of the Deane hotel, returned from a two months' health trip to Vancouver on Monday last.

Mike Badzek was badly injured on Wednesday when he was caught between a car and side of the drift in the Granby mine.

H. H. Higgins, brakeman on the local Jim Hill express, is spending a few days' leave of absence with his people at Chewelah.

Angus W. Smith is now in charge of the local Great Northern passenger in succession to R. Schultz, who has been transferred to Marcus.

For Sale—Log House, centrally located and in excellent repair. Will sell cheap for cash. Inquire of Axel Strand or at Almstrom's bookstore.

A. C. Kaiser, travelling representative of the famous American Type founder company, paid one of his business trips to the burg on Monday.

For Sale—Log house, 3 rooms, situated across the track from C.P.R. depot. Will sell cheap for cash. For particulars, apply John Bengstberg.

Mrs. Bert Schock came up from Spokane on Wednesday. Mr. Schock commenced work recently in the lower town hairdressing establishment.

Ed. E. Campbell, mining expert of the Granby company, returned to town on Wednesday from a professional trip to the Hidden creek mine at Anyox.

Walter Williams, mucker boss in the Granby mine, sustained a painful injury to his foot this week, that necessitates his detention in the hospital for a few days.

Ed. Cambray left town last week on a visit to his home in England. Edward will have charming company as far as Liverpool, but it will be much nicer coming back.

Jack Morrison, formerly shiftboss at the Mother Lode mine, left on Wednesday morning for Alberta, in response to a telegram announcing the serious illness of his brother.

Dr. R. G. Stone, of Greenwood, who recently received the appointment as physician to the Granby company's Hidden Creek mine, is expected to leave for the scene of his new practice early next week.

Mr. Alex. McDowall and children returned to Columbia gardens on Monday. Owing to the use of the school being required for an apple packing class the children were given a week holday in lieu of the usual Easter vacation.

Geo. W. Thomas of Colville, Wash., has taken over the proprietorship of the Hewson Hairdressing parlor in the upper town. The establishment is one of the most complete of its kind in the city and numbers among its appointments an up-to-date bathroom. adv.

For Sale.—The Biner block, centre of upper town; four suites of housekeeping apartments; all furnished; always rented; adopted for any kind of business; very cheap; money making chance of life time to right couple. Part cash, rest terms. Apply to owner on premises.

—Mrs. Ed. Lover returned to town on Saturday from a two days' visit to the coast. While visiting at the Orphan's home she was successful in roping a stork that had been hanging around there for some time and brought its burden (a fine baby boy) back with her to Phoenix.

The rink management have decided to hold a masquerade on Tuesday evening, March 22. The price of admission to the ice has been fixed at 25c, irrespective of whether the person is masked or not. The charge for spectators will be 15c. For particulars see handbills.

W. B. Marks arrived in town on Wednesday from Tulameen for the purpose of enrolling pupils for his next and final dancing class in Phoenix. To Mr. Marks, more than any other teacher, belongs the credit of having directly and indirectly taught the great majority of the dancers of this city. Intending pupils are requested to hand in their names to the secretary of the Miners' union as soon as possible.

Mr. and Mrs. Wm. Delahay, left for Spokane on Friday morning.

Counted Thirty-Two Deer

A splendid instance, showing the wisdom of the Provincial government's game protection laws, was to be seen on Wednesday, near Spencer, about eight miles from Phoenix, when an unusually large heard of deer were observed quite close to the track of the Great Northern railway. Jos. McDougal, driver of the local passenger, counted as many as thirty-two in one bunch. The approach of the train by no means disconcerted the animals; on the contrary they all stood quietly gazing inquisitively at the passing engine and coaches.

Succumbs to Injuries

Paul Nelson, who was so severely injured in a mine accident on Wednesday of last week, passed away on Thursday afternoon. Everything possible was done for him by the medical and nursing staff of the hospital but from the first it was seen that recovery was hopeless, the injury to the back being particularly dangerous.

Nelson who has been a resident of the camp for the last twelve months, has two brothers working in Phoenix. He was 23 years of age and a native of Sweden. The funeral will take place in the Oddfellows cemetary here, tomorrow, Sunday at 1:30, under the auspices of the local lodge of Oddfellows to which order the deceased belonged.

Conservative Club to Meet

A meeting of the Phoenix Conservative club has been called for Tuesday next, in the Scandinavian hall on Ironsides avenue. As stated in our last issue, the provincial government has cancelled the entire voters' list. This action is in accordance with the provisions of the Federal law, which calls for a new list every ten years. The attorney-general has appointed a number of commissioners in this district for the purpose of taking the affidavits of intending voters. Among them are the following, resident in Phoenix: R. K. McCammon, P. J. Cook, Fred. C. Graham, E. E. Barnes and Jas. Marshall. Affidavits can also be made before any magistrate, provincial or special constable, government agent, city clerk or postmaster or city councillor. All British subjects (male) of the full age of 21, who are domiciled in the Grand Forks district one month prior to the date of application, and who have resided in the province for six months are eligible for the list.

Boundary Ore Tonnages

Following are the returns of the output of the mines and smelters of the Boundary district for the week ending Mar. 16th, and year to date:

Granby	27,255	283,809
Mother Lode	8,280	76,621
Rawhide	4,870	56,492
Napoleon	584	8,167
Queen Victoria	531	6,551
Others	151	1,003

SMELTER TONNAGES

Granby	24,585	258,513
B. C. Copper Co.	15,375	145,929

B. C. Copper Treatment

The B. C. Columbia company's smelter treated 15,375 tons of ore this week, as follows: Mother Lode, 10,601; Rawhide, 3,889; Napoleon, 900; Queen Victoria, 525.

Coast papers report that Skagway is crowded with gold seekers fitting out for the scene of the gold strike at Teslin. All the boats arriving at the former place have full passenger lists.

Seam-in-front stockings would seem absurd! Then why any seam?

You have kept on wearing stockings with a seam up the back—shapeless, uncomfortable things! because you probably didn't realize the perfection reached by

Pen-Angle

Full-Fashioned Seamless Hosiery

These are hose *without the sign of a seam*—look for the sign of the trade-mark. As they are being knit they are shaped lastingly to the curves of the foot and leg. *They fit*—they wear better—and the utter absence of any seam at all makes them ever so much more comfortable. No difference in cost—but much in quality, in economy and in comfort. 65

Spring's Sarsaparilla

Price, large bottle, 100 full doses, $1.00—and well worth it, too. It's better to take no medicine at all than to depend upon cheap concoctions that are compounded to sell at a low price and a big profit just because there is a large demand for certain remedies at certain seasons of the year.

There are so-called sarsaparillas offered to us to sell to our customers at 75c. a bottle that would pay us a larger profit than Spring's Sarsaparilla sold at $1.00.

Nyal's Spring Sarsaparilla purifies the blood, arouses the torpid liver, drives out all impurities, cleanses and tones up the system, and helps nature throw off the dullness that comes from the indoor life of winter. It arouses energy, brightens the eye, clears the brain, gives lightness to the movements.

Spring Sarsaparilla is not the only thing you will find in this drug store. We make a specialty of articles of merit.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

It's the CLEANEST, SIMPLEST, and BEST HOME DYE, one can buy—Why you don't even have to know what KIND of Cloth your Goods are made of.—So Mistakes are Impossible.
