The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over $50,000, while the Rawhide pay roll is $18,000.

# THE PHOENIX PIONEER

**Devoted to the Interests of the Boundary Mining District**

LIBRARY LEGISLATIVE ASSEMBLY MAY 13 1913 VICTORIA B.C.

THE PHOENIX PIONEER is published in the highest municipality in Canada—altitude, 4,800 ft. The city has a population of 1,500, and possesses first-class hotels, opera house, schools

FOURTEENTH YEAR — PHOENIX, B. C., SATURDAY, MAY 10, 1913 — NUMBER 43

## That $400 Reward

In February of last year the U.S. postoffice, at Oroville, Washington, was broken into and the safe blown open and rifled. The robbers afterwards made for Molson, where they afterwards hired a team and buggy and made tracks for British Columbia. In the meantime the Provincial police throughout the Boundary district were notified, among the officers told off being Geo. Stanfield of Phoenix. This constable, while in a livery barn, overheard a conversation which he considered afforded him a working clue, and a few hours later arrested a couple of men whom he regarded as answering the description of the parties wanted. The arrest, which was accomplished on this side of the International boundary line, was quietly made, the Phoenix officer coolly walking up behind the fugitives and telling them to "keep agoing boys, you are both under arrest, etc." Evidently under the impression that the officer had the drop on them (he was unarmed) one of them remarked that "if it wasn't for your gun you wouldn't find the job so easy."

Both the prisoners waived extradition and were handed over to the care of the sheriff of Oroville, who later discovered that one of the culprits was an old offender with a penetentiary record.

Now the question arises. Who is entitled to the standing reward of $400 ($200 for each man) offered by the United States government? Will it be the Canadian officer who followed a slender clue and arrested the robbers single-handed in the open country, or the United States police official who "boldly" arrested them when they were safe in the cells of a British Columbia jail?

Over a year has now elapsed since the incident, and if any reward has been paid, it certainly has not found its way into the pocket of Mr. Stanfield, who without doubt is the party entitled to receive it.

## Favorable Copper Market

The following culled from the "Weekly Copper Letter of J. L. Walker in the current issue of the Boston Commercial:

Copper is strong at sixteen cents for lake, 15¾ cents for electrolytic and 15⅝ cents for casting brands. The demand continues good both for domestic consumption and export. Producers are sold ahead and the outlook is all that could be desired. Whatever reaction there may have been thus far in other lines of industry, on account of tariff agitation, no let up is noticeable in copper mining. The producing companies are operating at capacity and are planning to increase their output.

It is expected that the Copper Producer's statistics for April will make a favorable showing and that another large decrease in the visible supplies will be recorded. The foreign visible supply during the last half of April decreased further and the total foreign stock of copper is lower than at any time since 1908. There is scarcely three weeks' supply ahead in foreign warehouses.

The more favorable news from Europe concerning the restoration of peace undoubtedly will be reflected soon in easier money abroad. This will enable copper consumers to resume business under normal conditions and to purchase their copper supplies in advance of actual requirements. Under the conditions prevailing for the past seven months, foreign copper consumers have refrained from carrying their usual supplies and they have allowed their reserves to be drawn down almost to the vanishing point.

At home there are a great number of electrification plans held in abeyance, owing to the inability of the railroads to raise money by the sale of bonds at reasonable prices. Sooner or later these plans will be carried out and will result in a large increase in the consumption of copper.

## Mining Notes of British Columbia

J. M. Short, of Joplin, Mo. the largest owner of zinc mines in the world, was in Princeton recently on his way to Tulameen and Leadville. He could not reach the camp Leadville owing to the snow but will come again when it is gone.

The future of Leadville is assured. J. C. Reilly discovered the Mother-lode. It is over thirty feet wide. Reilly and Jensen have established a camp in four feet of snow, and have got in five shots on the lode. It opened suprisingly good.—Similkameen Star.

A. W. Davis, geologist for the Consolidated company, was in town the past week. He had been on a trip to the Boundary and Similkameen inspecting work on the company's holdings in those districts. He had not heard particulars of the company's deal for the Ottawa mine, Slocan City, when here, and only knew of the transfer through reports published in the newspapers. On the Lucky Thought, recently bonded by the company, buildings have been erected, and a contract for driving a tunnel let to Erickson & Johnson. The tunnel is already in between fifty and sixty feet.—Slocan Record.

It is likely that the first shipment of ore will be made from the Red Elephant mine, on Hall creek, in the Upper Duncan section by the owners, J. W. Power and Hughie McKay, during the coming summer. With the construction of a good trail between Haly's Landing and the mouth of Hall creek, it will be possible to get ore packed from the Hall creek basin to Haly's. Water transportation from that point to Howser will take the ore nearer the railway and a short overland haul between Howser and Howser station will place it on the cars. The shippers do not expect to make anything from the ore to be sent down, which will be in the neighborhood of twenty or thirty tons, the idea being to give it a thorough smelter test and also have tests made that will indicate the best method of treatment.—Kootenain.

Wm. B. Dornberg, mining man, arrived in Rossland on Wednesday from Spokane, on a visit to his Rossland friends. Mr. Donberg is operating some claims in the Summit Camp in the Similkameen mining division. The government has started to build a wagon road into the camp, which will make it easier to get in supplies. He and associates are running a 700 foot cross-cut to tap the ledge, and about half of it is completed. The ledge has two feet of ore on the foot wall that goes $125 to the ton and a foot of ore on the hanging wall that assays $100 to the ton. The ledge is from eight to twenty feet in width and has been drifted on for a hundred and fifty feet. Where the drift ends the ore is of a better grade than where it was stated. Charles Connell the veteran prospector, of this city, has some claims that abut those being operated by Mr. Dornberg. There are many other promising properties in the camp, which promise to become shippers when railway transportation is furnished.—Rossland Miner,

The tunnel on the Wire Gold group is now in some 47 feet following a well defined quartz vein, measuring four and one half feet. Ole Johnson and John Johnson, who are partners with Bouggy and Magee, are doing the work. The property is conviently located on the Marmont river trail about one and a half miles from the sault chuck. Mr. Magee, who has been spending the winter in Vancouver, writes his partners that he expcets to bring back an engineer to sample and report on the property. —Portland Canal Miner.

## Change of Proprietorship

W. C. Chalmers, of Grand Forks, proprietor of the motion picture shows, which have delighted large audiences at the Miners' Union Opera house for the past year, has disposed of his interest to P. C. McWha, of Grand Forks. The transfer has already gone into effect and the new proprietor has retained the services of W. S. Wetherell, whose skilful manipulation of the kinetoscope has evoked considerable praise on the part of the opera house patrons, and stamped him as the premier operator in southern British Columbia. Next week the public are promised an exhibition of exceptional merit and new developments are under consideration.

## Guest at the Hospital

While beating a ride on the returning ore cars the other night; a young fellow giving his name as John Ross, stepped from the car and according to his statement fell off one of the bridges. He was brought into the town by the evening train and accommodated with a bath and bed in the general hospital. Up to the present, the doctor has not been able to ascertain the extent of his injuries that is if there is any. He claims to be 16 years of age, but if looks count for anything he seems old enough to be called "pa" by a son or daughter of that age.

## B. C. Copper Treatment

The B. C. Columbia company's smelter treated 11,906 tons of ore this week, as follows: Mother Lode, 8,767; Rawhide, 2,360; Napoleon, 335; Queen Vict., 400; others, 44.

Miss Annie Lyden, of the Grand Forks telephone exchange, whose sister has been sick for some days, was a visitor in town on Thursday.

## Boundary Ore Tonnages

Following are the returns of the output of the Granby mines and smelter for the week ending May 10, and B. C. Copper company for the week ending May 4th, and year to date:

| | | |
|---|---|---|
| Granby | 27,108 | 456,176 |
| Mother Lode | 6,450 | 125,085 |
| Rawhide | 5,363 | 95,257 |
| Napoleon | 560 | 14,076 |
| Queen Victoria | 526 | 9,886 |
| Others | 89 | 2,064 |
| SMELTER TONNAGES | | |
| Granby | 24,440 | 433,379 |
| B. C. Copper Co. | 11,906 | 243,306 |

## Eight Months' Hard Labor

The trial of Fred Hall and Geo. Stoy, who were committed for trial on March 29th, charged with an aggravated assault on Val. McDavis in Phoenix, was held at Greenwood, on Wednesday, before his Honor, Judge Brown. A. S. Black of Greenwood, appeared for the accused, while C. J. Leggatt of the same city presented the case for the Crown. The former charge of aggravated assault, which was at first preferred, was enlarged to "assault causing actual bodily harm," this latter offence carrying with it a maximum sentence of three years' imprisonment. Counsel for the defence was quite unable to shake the evidence of the only witness to the assault, and who was commended by his Honor for her lucid account of the affair. Dr. W. S. Verrall in giving evidence as to the extent of the complainant injuries, expressed the opinion that the fractures to the jaw could be caused by a blow with a naked fist. In summing up, the court thought that Mr. McDavis was mistaken in a portion of his testimony, while he doubted the account given by the prisoners. He sentenced Hall to eight months' hard labor and acquitted Stoy. Hall almost broke down when he heard the sentence.

## City to Have Provincial Lock-up

D. J. Matheson, mayor of Phoenix, received a communication this week from Supt. Campbell, announcing the government's intention to commence at once the construction of a provincial lock-up in this city. While the city council have not officially decided to offer a site, those to whom the matter has been broached have given the proposition a favorable hearing and a suitable site, consisting of two lots, has been offered the authorities. *This prospective site for the structure is near the bottom of the hill leading to the C.P.R. depot, and in addition to the apartments of the resident police official, the building will contain a set of steel-lined cells and a room for the transaction of magisterial business.*

## Leave of Absence

Miss McKnight, matron of the general hospital, left on Wednesday for the prairies having obtained a well earned leave of absence for thirty days.

A man-killing bomb, loaded with screws, nails and lead slugs was found this week in St. Paul's cathedral. The mechanism was timed to operate at midnight.

## Police Court Cases

Police Magistrate Mulligan, on Monday heard the case of Dominic Sgro, against whom a charge of using abusive language to a member of the Granby company's engineering staff was preferred. The accused was arrested while at work in one of the stopes of the mine by Provincial Police Officer Stanfield, and in answer to the charge stated that his indelicate language was only one of his little jokes. The accused, however, had made a previous appearance a couple of years ago, when he was charged with the serious offence of carrying a dangerous weapon, to wit, a pistol, for which he was heavily fined. For this latest offence no fine was imposed, but he was ordered to find two sureties of $100 apiece in addition to another $100 to be furnished by himself.

The court convened again the following day, when Wm. Roberts appeared before the beak to explain the reasons which influenced him in kicking up a disturbance in front of the Kings' hotel. Chief Docksteader was the only witness. The court condemned the erring one to pay a fine of $5 and $2.50 costs.

## Phoenix Baseball Club

The local baseball fans took the preliminary steps on Wednesday towards the foundation of a club of ball twirlers. The meeting, which was held in the club rooms, was largely attended, and as a send-off it was arranged to hold a smoker to-night, Saturday, for the purpose of raising the necessary funds to commence the season. The matter of placing the ground in suitable shape for the games came up for discussion, and it was decided to commence the clearing and laying out of the diamond on Sunday, when a scheme for levelling it off by hydraulic means will be given a trial. This will be brought about by connecting the water tank on Granby hill with a system of pipes which it is calculated will produce a pressure of from 150 to 200 pounds. The following are the various committees appointed:

Finance: John McLaughlin, J. F. McDougall, H. Goodwin, J. S. Whittaker, Jas. Walsh and J. J. Strutzel.

Committee to arrange for suits, paraphernalia, etc.: N. J. Deichert, E. A. Black, Lawrence McKelvie and J. J. Strutzel.

Grounds Committee: N. W. Sweetser, Jas. Marshall, F. S. Norcross, D. Stafford, Wm. Biner, C. Davidson, W. Hower and C. Sayers.

## Concentrates

The fruit trees throughout the Okanagan were not affected by the cold snap which passed over that district in April.

Rev. A. M. Sanford, B.A., B.D., formerly pastor of Rossland Methodist church, has recently been appointed president of Columbia college, New Westminster, in succession to President Hetheriugton who has resigned.

A large body of prisoners were drafted from the Provincial Jail at Kamloops to Oakalla near New Westminster on May 1, when Chief Constable Fernie, Constable Calder, and others of the provincial force conveyed over thirty men from Kamloops.

After wanderings which have taken him half-way round the world, Eugene Viljoen, son of the famous Boer general, prominent in the late South African war, and who was in a great measure responsible for the overthrow of President Diaz, is now employed as wireless operator on the coast steamship, Umatilla.

The Imperial government has denied the report that an ultimatum has been presented to Guatemala. At the foreign office it was said that all that had been done was to renew the demands for a settlement of that country's indebtedness, the bulk of which has been owing for twenty-five years.

The steamship Makura arrived at Vancouver, on Friday of last week, with four hundred immigrants from Australia, the great majority of whom contemplate settling in this province. During the voyage a fire broke out in the mail room and damaged six thousand letters. Fearful weather was also experienced in the south Pacific.

The Japanese government are reported to be negotiating for the sale of an island in the Caribean sea, situate within 60 miles of the Atlantic end of the Panama canal. The island in question is the property of the Caribean Guano company, and possesses a splendid harbor. The establishment of a coaling station is said to be the reason for the contemplated purchase.

## BRITISH COLUMBIA

### Water Act and Amending Acts

### Before the Board of Investigation

NOTICE OF THE SUBMISSION OF EVIDENCE TO PUBLIC INSPECTION.

In the matter of the determination of the relative rights to the use of the waters of certain streams lying in that part of the Similkameen water district situate in the Greenwood and Grand Forks Mining Divisions.

Notice is hereby given that all of the claims, testimony and proofs taken heretofore in the said proceedings, together with the maps prepared under the direction of the Board, will be open to public inspection at the times and places stated below:

At the Court House, Greenwood, on the 12th and 13th days of May, 1913.

At the Court House, Grand Forks, on the 15th and 16th days of May, 1913.

All persons interested in the relative rights of the various claimants to the waters above indicated are entitled, either personally or through an agent, to examine the evidence submitted and to file statements, objections or contests.

All such objections or notices of contest must be filed with the Board at Victoria on or before five o'clock in the afternoon of the 30th day of May, 1913.

It is not necessary for a claimant to be present at this inspection to protect his right, but he is given this opportunity of seeing what other persons are claiming, and of filing an objection or contest if he thinks fit, and he is strongly urged to lay before the Board any facts within his knowledge relating to the wrongful claims of others.

A final opportunity to file claims by record-holders who have heretofore failed to make claim under their records will be given at the commencement of this inspection, afterwards a special procedure and special consent of the Board will be required for the filing of any claim.

The final hearing of all the claims to the said waters will be held at the Court House, in Greenwood, on the 10th day of June, 1913, at four o'clock in the afternoon, and at the Court House, Grand Forks, on the 12th day of June, 1913, at two o'clock in the afternoon. Claimants will be duly notified if any objections are filed against their claim.

For the Board of Investigation,

J. F. ARMSTRONG, Chairman.

Dated at Victoria, B.C., the 22nd day April, 1913.

### Iron and Steel Industry in B. C.

It is gratifying to be able to report a more promising outlook for the iron and steel industry in British Columbia. Sir William McKenzie and Sir Donald Mann, at the request of Sir Richard McBride, Minister of Mines, have been investigating the iron resources of the province, and though the report of R. H. Flaherty, their engineer, was not favorable to the charactor of the iron ores he examined, they have, as we are informed on reliable authority, acquired the Texada Island iron dedosits from the Puget Sound Iron company, and it is understood that an iron and steel plant will shortly be installed to handle the ores from these deposits.

Iron ore from Texada Island was shipped to the Irondale plant, Washington, from 1883 to 1903, and most of the pig iron made from it went to the Union Iron Works, at San Francisco, where it was used in the construction of the battleships Oregon and Monterey, and the cruiser Charleston, of the United States Navy; also in the construction of two battleships for the Japanese Navy, which ships were in action in the engagement which ended in the destruction of the Russian fleet.

Iron manufactures from Texada Island ore was also used in the manufacture of car wheels for the Northern Pacific Railway. Capt. W. H. Lee, who represented the Puget Sound Iron company in their mining operations on Texada Island, said of this ore: "We challenge the world to show up iron that will stand the test for strength equal to our Texada iron." If this iron proved good enough to build war ships which have done credit to the United States and Japanese fleets, there appears to be no reason why it should not be used to build the Pacific fleet of the Canadian Navy. There are ample stores of magnetite ores in British Columbia but a dearth so far of red oxide ores, the discovery of which would do much to bring to realization the iron and steel industry on the Pacific Coast. Information of a more encouraging character is now coming to hand, and it is probable the discovery and development of hematite and limonite deposits of economic value are only a matter of time and exploration work.—B. C. Mining Record.

### Militia Camps at Petawawa

Particulars of the arrangements for militia camps during the coming summer have recently become available. It is expected that between forty-five and fifty thousand militiamen will be under arms at one time during the months of June and July. The forces will comprise four regiments of cavalry, ten brigades and one Imperial battery of field artillery, a single heavy battery and the regiment of garrison artillery from Montreal, five field companies of engineers and one cavalry field ambulance.

### Mineral Act.

Form F.

CERTIFICATE OF IMPROVEMENTS.

NOTICE.

"Belmont Fractional" Mineral Claim, situate in the Greenwood Mining Division of Yale district.

Where located:—Greenwood Camp.

TAKE NOTICE, that I, Donald J. Matheson, agent for Eric E. Jackson, Free Miner's Certificate No. 49,806B, intend sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issue of such Certificate of Improvements.

Dated this 19th day of March, A.D. 1913.

### Visits Lonely Fanning Islands

The British sloop of war, Algerine, has arrived at Honolulu on her way to Esquimault after a cruise of some months among the islands of the southern Pacific. Before leaving the Hawaiian Islands she will drop anchor at Kealekekon bay, where a delegation of sailors will land and proceed to put in order the plot of ground that contains the monument erected years ago to the memory of Captain Cook, the great explorer. During her cruise, visits were made to the lonely Fanning and Washington islands.

Chas. Robinson, a colored prize fighter, recently married Jennie Guidosh, one of the prettiest Slav girls of Fernie. The nigger actually found a minister in Fernie to "solemnize" the marriage.

The discovery is reported of an extensive salt bed at Kwinitsa, on the line of the Grand Trunk Pacific, in B.C. The importance of the find lies in the fact that about the only other deposits of any commercial value in the Dominion are situated in Ontario. The great future of the British Columbia fisheries makes this find of great value.

## DO YOU WANT TO MAKE MORE MONEY

IN placing your Newspaper Advertising, place the greatest value on the paper with the greatest influence on its readers.

¶¶¶

Use the medium that is watched for every week by the people of your community.

Spend the money with the paper that is read with interest. It reaches the people and you know that you're getting into the homes of the people you want to reach.

¶¶¶

Quality has not yet become popular, but the day is not far distant when this will be one of the main features of Newspaper Advertising. In the meantime business men, who have faith in quality, are reaping huge returns.

¶¶¶

Remember first, last, and always, that circulation counts; that quality of service gives quality in returns. The high priced medium pays. Like the high priced servant, you will find money well expended.

¶¶¶

You can make more money by selling more goods; you can sell more goods by advertising in The Phoenix Pioneer, whose constituency is the Boundary district.

¶¶¶

The way to test the truth of this statement is to send us the copy for your ad. right away. The experience would not be an expensive one, and satisfactory results are assured.

¶¶¶

We use the most modern type and machinery money can buy, combined with thorough workmanship—a combination which enables us to do the best work at a moderate cost.

## B. C. Mining Towns

The tales told by the returned traveller are always interesting, but few of us realize how strange the stories concerning our western mining camps must sound in the ears of our eastern friends. They certainly must occasion many an incredulous smile and provoke a frequent request for the salt shaker. Possibly nine-tenths of our eastern and European visitors imagine before their arrival in Phoenix, that they are about to witness something of the wild and woolly life they have read about or seen portrayed on the screens of the moving picture theatres, but instead of the swaggering wild-eyed miner of fiction they are confronted with quite another class of gentry, as far removed from their conception of what a miner is, as the distance between the north and south poles. This disillusionment was humorously commented upon only recently by one visitor. "To think," said he, "that here I am on the top of a 5000ft. mountain, the guest in as comfortable a hotel as it is possible to find in any eastern city; an establishment equipped with every requisite for the comfort of the traveller. Perhaps my greatest surprise was the electric light. I fully expected my nasal organ would be assailed with the "perfume" of that which made John D. famous. But you can imagine my surprise when out visiting to find the lady of the house manipulating an electric iron. I don't know if the ladies still use the curling irons, but I wouldn't be surprised if they used the same agency in Phoenix for heating them." Then pointing to the menu card, he remarked that such an array of dishes would put in the shade many of the premier hotels in Canada's large cities. "I can scarcely realize that I am in a British Columbia mining camp, but I think that the letters you fellows send east are mainly responsible for the misconception that unfortunately exists."

Hundreds of other instances could be quoted touching the ridiculous ideas that many people possess of British Columbia mining towns. Four years ago a couple of young fellows, bound for this town, were heard discussing the delightful prospect that confronted them. One of them, evidently scared out of his wits, enjoined his compaion to refrain from discussing anything of a controversial nature. "The wisest thing to do in Phoenix," he said, "was to not contradict a miner!" We are pleased to state that both of them succeeded very well in the camp and are still alive and well with not even a single bullet mark disfiguring their respective hides.

Madam Albani was another instance of the perverted conception of the make-up of a western Canadian town possessed by the outsider. Previous to her appearance in Rossland, some years ago, she expressed her serious misgivings at including that peaceful burg in her itinerary, and no one in the party accompanying her was more surprised at the intelligent interest displayed by her audience than the prima donna herself. She fully expected the applause would be punctuated by the explosion of pistol shots.

## The Mormon Campaign

British Columbia, which has recently been the scene of a Mormon propaganda, will be interested in the decision of the Australian government to adopt the most rigorous precautions against the introduction into the Commonwealth of the religion of Mormonism. The activity of the Mormon elders have been noted and Australia, unlike Canada, is not to be caught napping and that land made a happy hunting ground by the disciples of the pernicious doctrine of polygamy, such as are now settled in large numbers in Alberta. The action of the late Laurier administration in permitting their entry into Canada is inconceivable, knowing as they must certainly have known, that their creed included a strong belief in a practice, which if generally adopted, would upset one of the most fundamental principles of present day civilization. It is of little use their telling us, as they do, that the plurality of wives is not now a part of their religious system, for while its actual practice may have somewhat diminished, no Mormon can be found who will deny that this particular tenet is without scriptural authority. That the Canadian government has its suspicions aroused over the report of the existance of polygamy among the Mormons of Alberta is proved by the orders to the Mounted Police to keep a sharp watch on their settlements.

## Lost—A Recruiting Ground

The Japs in California are not the only sons of Nippon, who, to use an Americanism, are "getting it in the neck." Alaska has also fallen into line. On April 30th, the territorial Senate of Alaska, by a unanimous vote, passed the Anti-Alien Fishing Bill, a measure designed primarily to bar the little brown men from fishing in Alaskan waters. The bill was passed by both Houses a month ago, but on April 1st the Senate delayed the measure for the purpose of securing legal advice. If British Columbia is to have that naval reserve it is about time that something of the same kind was started in this province, for if matters are allowed to drift as they have done for the past fifteen years it will be of little use for the government to look for recruits among the B.C. fishing fleet.

The British suffragettes are reported to have arranged a plan for Mrs. Pankhurst to escape from England by aeroplane, but the scheme was defeated by the vigilance of the police. O! Why did those policemen interfere?

**100**

**PERSONS CURED OF ECZEMA**

**Within the past few months over 100 persons have written to the Zam-Buk Co. reporting their cure of eczema, rashes and skin diseases by Zam-Buk!**

**Does this not prove that Zam-Buk is something different?**

**Don't you need it in your household?**

Miss Mary McCuaig, 918 St. Catherine Street W., Montreal, says: "I do not know words powerful enough to express my gratitude to Zam-Buk. Eczema broke out on my scalp and hands. The irritation of the scalp was so bad that I could not sleep or rest, and I feared I should have to have my hair cut off. On my hands the disease appeared in sore patches, the burning and itching of which drove me many times to spells of weeping. I went to the dispensary, but they referred me to a skin specialist, who said that mine was as bad a case of eczema as he had seen. He gave me some ointment, and then a second lot, but neither gave me any relief.

"I was in a very bad condition when Zam-Buk was introduced, but I soon found out that it was different from all the other remedies. I persevered with the Zam-Buk treatment, and each box did me more and more good. The irritation and smarting soon disappeared, then the sores began to heal, fresh healthy skin grew over the parts which had been sore, and I am now quite free from all traces of eczema, both on head and hands. My hair has also been saved."

Zam-Buk is also a sure cure for piles, eruptions, blood-poison, cuts, burns and all skin injuries. 50c. all druggists and stores, or Zam-Buk Co., Toronto, for price. Refuse substitutes.

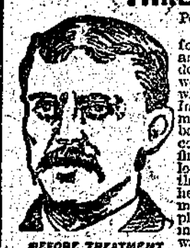
ZAM-BUK

# NERVOUS DEBILITY

**OUR NEW METHOD TREATMENT** will cure you and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all drains cease—no more vital waste from the system. You feel yourself a man and know marriage cannot be a failure. Don't let quacks and fakers rob you of your hard earned dollars.

**NO NAMES USED WITHOUT WRITTEN CONSENT**

**THREATENED WITH PARALYSIS**



BEFORE TREATMENT

AFTER TREATMENT

Peter E. Summers relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, but received little benefit. I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the NEW METHOD TREATMENT and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and continue to do so.

**CURES GUARANTEED OR NO PAY**

We treat and cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases peculiar to Men.

## SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Al. Keating, who journeyed to his home town of Rossland, a few days ago, returned to the camp on Thursday accompanied by Mrs. Keating and baby.

## Church Services

There will be no service to-morrow, May 11th, in St. Andrew's church.

Tomorrow, Sunday, May 11th, the Methodist and Presbyterian congregations will hold a united service at 7.30 p.m. in the place of worship of the former. The Rev. J. R. Munro will deliver the sermon. All welcome.

St. John's Church—Sundays: Holy Communion, 8 a.m.; Matins, 10.30 a.m.; Holy Communion and sermon, 11 a.m.; Sunday school, 3 p.m.; Evening service, 7.30. Week days: Matins, 7.30; Evensong, 6.30. Wednesday, Holy Communion, 9 a.m.

The stated services in the Catholic church are as follows: First and third Sundays in the month. Mass at 10 a.m., Sunday School at 2.30 pm.; Evening Service at 7.30 p.m. Rev. Father Choinel, pastor.

## CITY OF PHOENIX

### NOTICE

Public Notice is hereby given that the first sitting of the annual Court of Revision for revising, correcting and hearing complaints against the assessment as made by the Assessor for the year 1913, will be held at the City hall, Phoenix, B.C., on Wednesday, the 18th day of June, 1913, at 8 p.m.

Dated at Phoenix, B.C.,
May 9th, 1913.

H. HARTLEY, City Clerk.

## Local Agent Transferred

Jos. Ingram, Great Northern station agent, handed over the charge of the company's affairs to H. S. Votaw, on Wednesday evening, leaving the following morning to take up his new duties as agent at Grand Forks. Mr. Votaw, whose commission in Phoenix is but a temporary one, is numbered among the most experienced of the company's agents, having occupied for the past twelve years the post of agent at Laurier.

## Local and General

Wm. Dawson was among the passengers on Wednesday's train for Spokane.

Miss Jane McKenzie left town on Monday for a visit to friends in Oroville, Wash.

Mrs. Chas. A. Campbell is paying a visit to her parents, Mr. and Mrs. Jas. McGeer, of Vancouver.

Mrs. Jas. McKeown and Miss McKeown, who have been spending a two weeks' vacation in Spokane, returned to town on Monday evening.

Miss Campbell, of Grand Forks, arrived in town on Wednesday and is once more attached to the nursing staff of the Phoenix hospital.

G. W. Falconer, who has been visiting his daughter, Mrs. N. J. Deichert, for the past six months, left on Monday for his home in Papallup, Wash.

The Rev. J. J. Nixon returned to town on Thursday from Kaslo, where he attended the district Methodist meeting.

A full attendance of resident members of the order of Knights of Pythias is requested for Tuesday next, when the second degree will be conferred.

Mrs. P. W. Wilkins arrived in town recently from her home in England, after a most disagreeable sea trip. Mr. and Mrs. Wilkins have taken up their residence in the Bank block.

The first of the weekly half-day holidays for the local store employees commenced on Wednesday last, and for the next few months the business in all stores will be suspended after twelve o'clock.

Mrs. Ed. Campbell left on Tuesday for Vancouver, to join Mr. Campbell, who as mining expert for the Granby company, is reported to be about to start on an extended professional tour of the northern coast districts.

On Saturday afternoon, May 17th, under the auspices of the Ladies' Aid of St. Andrew's Presbyterian church, Mrs. Jas. Carter, assisted by Mrs. P. Crane, will dispense afternoon tea at the residence of the former.

Mr. and Mrs. W. Ramsay left on Wednesday for the government road camp, about a mile from Hale, which Jos. Darragh is establishing in readiness for the work to commence on Monday.

Harry Read, who invariably passes the fall and winter months in Phoenix, heard the call of the wilds on Monday and headed for his fruit ranch in the picturesque Shuswap country. Henry considers he made a very good stroke of business when he took up his homestead four years ago, as the land around him is changing hands at sixty and $100 per acre.

The Morrin, Thompson company, who are the sole agents in British Columbia for the famous Overland motor cars, recently received another shipment of vehicles, which are now being distributed to their purchasers throughout the Similkameen and Okanagan districts by J. A. Morrin.

Monday, Tuesday and Wednesday next, the city council have arranged for the scavenger team to haul away all refuse from around dwelling houses in the city, and all those requiring its services are requested to have their refuse raked up and ready.

Dr. Emily Freece, licensed optometrist for the State of Washington, anounces that she will be in Phoenix throughout the coming week, and all those desirous of having their eyes tested and fitted with glasses are invited to command her services. Hours, one to four p.m. Room 16, Aetna block.

For Sale—Four-roomed house and lot, situate on Spion Kop; furnished; good well about ten feet from house; sufficient furniture for two families. If you are looking for a bargain this will be worth investigating. Will sell very cheap. For particulars apply Pioneer office.

The Miners' Union are working energetically for the success of all entertainments held in their splendidly appointed and comfortable opera house. Especially do they call the attention of the public to the motion picture shows which have so successfully catered to the amusement of Phoenix people for the past twelve months. Hitherto the shows have been held twice a week, but an insistent demand on the part of the public for a daily entertainment has influenced the management to accede to the request. This innovation goes in to effect on Monday next as does also a reduction in the price of admission, which in future is to be 10c. and 15c. The class of films exhibited will be of an even better standard than hitherto, and has the union has rightly pointed out, any patronage given their shows by their friends and members is much the same as putting the money in their patrons' pockets. Eight o'clock every evening.

### K.P. Basket Social

The local lodge of Knights of Pythias gave the first basket social that they have held for many years on Thursday evening in their lodge room. In spite of the inclemency of the weather, the comfortable rooms of the society were filled with a merry throng who entered heartly into the programme of entertainment provided by the hospitable knights. The prizes for the whist drive were carried off by Mrs. R. E. Pope and John McKenzie who won eight successive games. Two first prizes for the most unique design in baskets were offered and two were picked out by the judges, the design of one being a decorated automobile and the other a triangle with the alphabetical mottoes of the K.P.'s prominently and neatly displayed in gold. Some lively bidding for the posseasion of the prizes then took place and a little later the artistic designers were found to be Mrs. Geo. Elkins and Miss Mattinson. The proceedings terminated with an enjoyable little dance. The music by Mrs. Knight and Chas. McKay assisted by T. Silas, was, as usual, a big factor in the success of the social.

### Leave Anyox for Vancouver

Mr. and Mrs. Duncan McInnes, formerly of Phoenix, and recently of Anyox, were given a send-off by their numerous friends in the new mining camp on April 25th. The affair was given in the shape of a large surprise party who took possession of the McInnes home and proceeded to enjoy themselves with whist, games and dances. Roy Patterson and Mrs. P. J. Teonetti captured the first prizes, while Mrs. F. E. Lindhe and A. J. Lind consoled each other on winning the valuable "booby" prizes. The following Sunday, Mr. and Mrs. McInnes boarded the steamer Prince Rupert and left for their new home in Vancouver.

### Visit of Milliner

We are requested by Miss Huffman, of Grand Forks, to state that she will be in the sample room, opposite the Brooklyn hotel, on Wednesday, May 14th, with a full line of summer millinery, which the ladies of Phoenix are cordially invited to inspect.

# DOCTOR THE CAUSE NOT THE EFFECT

If you are afflicted with boils, pimples, scrofula, salt rheum, eczema, or any other indication of impure blood, don't waste time and money in external remedies for the treatment of these symptoms.

**YOU CAN AVOID ALL THESE THINGS BY TAKING NYALS' BLOOD PURIFIER**

Sometimes there are no outward symptoms of impure blood, but instead there is a feeling of langour, a run-down listless condition, loss of appetite,—showing that the organs and tissues of the body are not being nourished as they should be.

The use of Nyal's Blood Purifier is followed by the most pleasing results. The boils heal up and disappear; the skin becomes soft and smooth again, instead of harsh and scaly, or pimpled. The liver is stimulated, the blood enriched, and soon the whole system feels the beneficial effect of this excellent remedy.
