BRITISH COLUMBIA'S MOTHER LODE MINE—NOW SCENE OF ACTIVITY.

B. C. COPPER CO'S MINES NOW OPERATING

Miners Started Work at the Big Mother Lode, Emma and Oro Denoro on Thursday.

Long Tie-up of Boundary Mines is Over and There is Employment for Several Hundred More Men--General Rejoicing in Boundary Camps.

Last Tuesday the best news that has come to the Boundary in months, was made known in Phoenix, when it was reported that the British Columbia Copper company would resume operations at once at both mines and smelter. On communicating with J. E. McAllister, the general manager, the report was confirmed, he stating that the company would begin employing men on Wednesday morning at its big Mother Lode mine, Deadwood camp; Emma and Oro Denoro mines, Summit camp, and also at the smelter adjoining Greenwood, and at least six hundred men would be required.

There was a good deal of rejoicing at Greenwood and Phoenix over the above announcement, as well as throughout the rest of the Boundary, meaning as it does the addition of several hundred men to the wage earners of the Boundary. The B. C. Copper company expects to pay about the same scale of wages as that now in force by the Granby Consolidated.

As soon as the forces at the several properties can be organized, and the ore bins filled, the three-furnace smelter of the company will be blown in, and as the present price of copper is so low, it is certain that the B. C. Copper company will endeavor to operate at fullest capacity, in order to reduce the cost per pound of copper—just as the Granby company does now.

It is nearly six months since the mines and smelter of the B. C. Copper company closed, being done at the time all the other Boundary copper producers ceased, last November, because of low copper and high operating costs. At that time the company was employing about 400 men at mines and smelter, but in resuming it is expected that the force will be greatly increased. The miners of the Boundary have expressed themselves as ready to go to work, so that the company is having no difficulty in proceeding with operations, and a large number of men are already at work at each of the company's mines, where the whistles are blowing regularly.

As the B. C. Copper company has a contract for treating the ore of the Consolidated Co.'s Snowshoe mine, in this camp, it is more than likely that work at the latter will be resumed before long, which should add another 150 or 200 men to the camp's payroll—the B. C. Copper company needing the Snowshoe product to keep the smelter up to full capacity.

By next week some time, as the smelter has now a large supply of coke on hand, the B. C. Copper company's reduction works should be handling in the neighborhood of 2,000 tons of ore per day, and the converting plant should be turning out merchantable blister at the rate of 1,500,000 pounds per month. And this increased and most welcome activity in the Boundary should mean the increase of the monthly payroll from $50,000 to $60,000 per month at least.

During 1907, with the last two months omitted, when the mines were not working, the B. C. Copper company's mines shipped 242,788 tons of ore, as follows: Mother Lode, 208,321; Emma, 18,274; Oro Denoro, 14,481; B. C. mine, 1,712.

Boundary Mining Notes

Next Monday is the monthly payday in Phoenix camp.

The whistle of the Emma mine had a musical ring to it on Tuesday.

The former superintendent of the Skylark, William Rowe, has taken the management of the Little Bertha mine, on the North Fork of Kettle river.

The Mother Lode grade was put in shape last week for mine operations, four C P.R. engineers—E Corry, A. M. Smith, C. S. Ross and J. R. Walmsley—spending two days on it.

Thirty tons of ore were shipped from the Crescent mine, in Skylark high grade ore camp, to Trail smelter, on Thursday. The ore is from stoping done on the 225-foot level earlier in the year, the mine not being in operation at present.

The Dominion Copper company's mines are all being kept in shape, and the smelter in readyness, to start up when the necessary instructions come. Manager W. C. Thomas, of Boundary Falls, returned on Monday from a business trip to Spokane, but has no information to impart as to the company resuming.

Considerable work of general repairing was in progress at the Emma last week, and the mine was in a very creditable condition for opening up on Wednesday. The water had been kept pumped out, and many improvements had been made in the fittings of the mine by Superintndent Lover and O. T. Scott. The new bunk house, completed just before the shutdown, will accommodate about half the men of the mine.

Granby ore shipments for April totalled 87,202 tons, which although considerably less than the record month of March was greater than for any month previous to March. The decrease from March is the result of one or more furnaces at the smelter being out of commission, while being connected with the new steel flue dust chamber, and the smelter treating less accordingly. The shipments from the Granby mines for the first four months of 1908 were 351,784 tons, as compared with 201,001 tons shipped during the same months in 1908.

SHORT STRIKE OF COAL MINERS

International Men Return to Their Work.

Last week Wednesday a strike of some 500 men employed by the International Coal and Coke Co., at Coleman, Alberta, took place, but lasted only a few days, the men all returning to work on Monday of this week.

Some new work was to be started, and it was agreed by the joint committee from the union and employers that this work should be done at the start by day's labor. It was so begun, and then the union ordered the two new men to quit work, and tied up the entire property to enforce the demand

The rank and file of the union, however, soon discovered that the attitude taken could not be held, and the men were all ordered by the union to return to work again. Most of the actual digging of coal is done by the piece, as a rule, but this new work was to be an exception for a time, at least, as per orders of the joint committee. The strike, therefore, was the result of a misunderstanding more than anything else.

Every Confidence in Dominion Copper Co.

G. L. Walker, Boston Commercial, says: "Dominion Copper interests state that the company expended its treasury surplus of about $400,000 on mine development, equipment and smelter improvements last year, and that it was a heavy loser when the price of copper declined from 25 to 12½ cents, as it had a large amount of metal in transit and in process which had not yet been sold. The company's increase of production had only fairly begun when the decline in metal prices occured. The company is said to have about $60,000 worth of supplies, and $15,000 cash on hand. It owes about $27,000, and has $800,000 of bonds outstanding. Some of the inside interests express a determination to raise the necessary money and pay the bond interest, and also to provide for a resumption of operations at the mines after copper prices advance a little further. They have every confidence in the value of the company's properties.

Boundary Side Lights

The assizes open at Greenwood on May 26.

The C.P.R. hotel at Grand Forks has been purchased by P. Donaldson.

The firemen of Grand Forks purpose holding a celebration in that city on May 25th.

J. A. Chenier, fruiter and tobacconist, of Greenwood, has assigned for the benefit of his creditors.

Mrs. W. S. Horton died in Greenwood hospital on Wednesday. Deceased leaves a husband and six children.

At the recent provincial teachers' convention in Vancouver, W. May, of Grand Forks was elected second vice-president.

The road between Eholt and the North Fork is in very bad condition at present, and should be given the attention of the authorities.

The Canadian Mining Institute proposes to establish a library in Greenwood, for the use of prospectors, assayers and mining engineers, if the board of trade will provide a place for it.

Robert Scott, of Caledonia, Ontario, brother of O. T. Scott, bookkeeper at the Emma mine, arrived at the Oro Denoro a few days ago. He is having a ranch cleared along Eholt creek.

Messrs. Hodges and Williams of Grand Forks, accompanied by their wives and daughters, came into Greenwood on Sunday with their autos. This is the first time that automobiles have been driven into Greenwood from an outside point and makes a new record for transportation in the Boundary.—Ledge.

G. Muoal, a successful fruit farmer of North Yakima, is in Grand Forks looking for an opportunity to purchase fruit land. He is most enthusiastic over the future of the Kettle river valley. He says that the land there is much superior to that of the Yakima valley, and when the proposed irrigation systems begin operating in this valley he predicts that land there will bring the same prices that it does now in Yakima valley. Land in the Yakima valley sells for $200 per acre.

COMING AND GOING

A. S. Hood was a passenger to Grand Forks yesterday.

Mrs. C. A. Arnott returned on Friday from a visit to her home in Spokane.

Mrs. J. J. Strutzel returned last week from Medical Lake, Wash., much improved in health.

D. Gunn, chief of police, went to New Westminster on Saturday to look after some land interests there.

John McInnis, M. L. A, went to Revelstoke last week, intending to continue his journey to Edmonton.

John A. McMaster, proprietor of the Hotel Balmoral, returned on Saturday from a two weeks' visit at the coast.

Mr. and Mrs. J. Cooke, who came to Phoenix recently from England, left Wednesday for Eholt and the Oro Denora respectively.

Eric Jackson left last week for Victoria to represent Phoenix Lodge No. 28, at a meeting of the Grand Lodge of Knights of Pythias in that city.

Mr. and Mrs. Hugh Jones, who resided in Phoenix for the past three years, left last week for Edmonton, Alberta, where Mr. Jones has a ranch.

Rev C. Wellesley Whittaker went to Nelson on Tuesday to attend the annual district meeting of the Methodist church, which opened Wednesday.

Mrs. A. B. Hood and daughter, who left Phoenix about eight months ago and have been visiting at Sherbrooke, Quebec, returned last week to Grand Forks.

W. J. Twiss, of Vancouver, provincial manager for the Mutual Life of Canada, who has been visiting Phoenix periodically for the past nine years, was in the city on Wednesday.

Mrs. J. A. Morrin left on Saturday via the Arrow Lakes for Peachland to join Mr. Morrin. A number of her friends were at the depot to see her off and she will be much missed among a large circle of acquaintances in Phoenix.

E. H. Mortimer, of Greenwood, formerly of Phoenix, was a welcome visitor to our office on Tuesday, while in town calling on old friends. He said the residents of Greenwood were rejoicing in having just received the information of the resuming of the B. C. Copper company.

W. B. Willcox, late editor of the Pioneer, accompanied by Mrs. Willcox and daughter, Elizabeth, left on Saturday for Spokane, where he will remain for a few days before taking a trip to the coast. He will take a well-earned holiday of some weeks before re-entering business again.

Mayor D. J. Matheson and Alderman L. Y. Birnie are spending a few days fishing at Fish lake. They took Mr. Birnie's famous boat the "Mad Woman" and tackle such as has never been seen near Fish lake before, and a vehicle capable of carrying home hundreds of pounds of trout. For our next issue we expect they will furnish the Pioneer with an up-to-date fish story.

Latest Prices in Metals

NEW YORK—Copper, electrolytic, $12.60 @ $12.62; lake, $12.12½ @ $12.87½.
Bar Silver, 54⅝
Lead, $4 12½ @ $4.17½.
Spelter, $4.60 @ $4.65.

TUNNEL PLANS PROGRESSING

Engineers to Arrive in a Few Days.

Launching of Big Project Will Soon Be Accomplished.

According to information received by the Pioneer, the plans of the promoters of the Greenwood-Phoenix long and deep tunnel are being shaped up, and it is thought that the launching of the project, in its initial stage, will soon be successfully accomplished. By the middle of this month, or inside of two weeks, the engineers for the company are expected to arrive in the Boundary from Chicago to lay out the tunnel site and get ready for the beginning of actual work.

The title of the corporation is to be the Greenwood-Phoenix Tunnel Co., Limited, and it will have a capitalization of $5,000,000 in one-dollar shares. Of this amount $2,000,000 will be in the treasury. It is proposed to absorb the following companies or properties, on the first mile of the route of the tunnel, on the basis as outlined below, purchasing the same outright with tunnel stock as specified.

Strathmore, Nelson and Caleo fraction, 200,000 shares.

Crescent and Crescent No. 2, 200,000 shares.

Chicago, B.C. Mining company (Don Pedro, Lake and Yellowstone), 200,000 shares.

Defiance and fraction, 50,000 shares.

Preston Mining company, 50,000 shares.

Prince Henry Mining company, 50,000 shares.

Last Chance Mining company, 100,000 shares.

These propositions are now being submitted to the respective companies, special meetings called for consideration of the same, and some have already been ratified.

As stated before in the Pioneer, while the long and deep tunnel project will start from Greenwood, it is hardly likely it will reach Phoenix for years to come, if ever. But it will be a good thing just the same for many of the high grade mines, as it will tap a number of rich ore bodies on the respective claims, at great depth, give natural drainage, do away with hoisting and ore hauling (both expensive items), and bring the ore to the mouth of the proposed double track tunnel, on or near the Strathmore claim, at the minimum of expense. If driven but a mile, or say 6,000 feet, it will reach all the mines above referred to, and be a good thing in nearly every way.

National Stock Company.

Commencing next Monday, the National Stock company will be at the Phoenix opera house for one week, with a change of bill every night. The company comes highly recommended for high class plays. They played two weeks at Nelson to large audiences and both daily papers commented favorably on the attractions. The entire company headed by Miss Jean Russell and Roy Brandon, are all first class, high-salaried people. Few companies of such merit visit the Boundary country.

May 9, '08

BOUNDARY ORE TONNAGE.

The following table gives the ore shipments of Boundary mines for 1900, for 1901, for 1902, for 1903, for 1904, for 1905, for 1906, and 1907, as reported to the Phoenix Pioneer—

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Dry wood in car lots. Apply to J. Trombley, Phoenix, B. C.

Old newspapers for sale at this office at 25 cents per 100.

Before buying your furniture elsewhere, call on R. J. Gardner.

Second-hand Sewing Machines of all makes, for sale, see Miss McDonald.

Prescriptions carefully prepared at Thrasher's Drug Store—'Phone 16.

Service in the Church of England tomorrow will be in the evening.

The subject for Sunday at the Methodist church will be, "The Lost Christ."

"Old Frank" has taken charge of the Dominion Barber Shop. Give us a call.

Come and get first choice of Baby Carriages and Go-Carts at Binns, the Furniture Man.

Furnished rooms to let, in the Marsh block; apply to Mrs. Ida Corrigan.

P. Burns & Co., Ltd, are making some improvements to their building in Phoenix.

The members of Fjelltoppen, No. 47, held a May-day feast in the Scandinavian hall last night.

Word from J. A. McMaster, proprietor of the Hotel Balmoral, says that he is on his way from Vancouver to Prince Rupert.

Last week Friday Phoenix Lodge No. 158, F.O.E. gave a social at Miners' Union hall, which was thoroughly enjoyed.

The beautiful weather of last Sunday enticed many citizens to the mountain trails. All available driving outfits and saddle horses were in commission.

The Murray Comedy Co., which comes to Phoenix opera house next week, is said to have been playing to crowded houses in Kootenay cities.

Morrin, Thompson & Co. had two new awnings placed over the show windows of their store this week, adding considerably to its appearance.

David Garland was knocked off a box car last Monday at the Curlew tunnel, and sustained a double fracture of his arm, being now in the hospital.

The local baseball club, which was recently organized, have accepted an invitation to play a game in Grand Forks tomorrow with the club of the latter place.

It speaks well for the confidence in this country, when as this week, a book agent was in Phoenix, soliciting for and securing orders for a work that costs but $125.

A. A. Barnet, formerly of Phoenix, but now a resident of Greenwood, is out once more this week, after having a tree fall on him while hauling ties on Skylark wagon road.

The moving picture shows in the opera house on Tuesday and Friday nights attracted good audiences who appeared to thoroughly enjoy the life-like scenes on the canvas.

A May day dance was held last night in Miners' Union hall in aid of the Phoenix baseball club, and it is now expected the enthusiastics will get busy on the diamond.

The rake and a camp fire would go a long way to improving the yards and surroundings of many homes in Phoenix. The "cleaning up" habit is something that should become general.

Work is being started again at the Golden Eagle mine, about ten miles up the North Fork of Kettle river from Grand Forks and is likely to be vigorously prosecuted when the work gets well under way.

Last week commercial travellers in the Boundary were scarce, due to the C.P.R. washouts. This week they have been much more plenty. On Tuesday evening the Brooklyn hotel was unable to accommodate all its transient callers.

Sewing Machines from $10 up, see Miss McDonald.

You can get a bargain in China any time at Thrasher's Drug Store.

House-keeping rooms to rent; apply to J. McIntosh, Old Ironsides avenue.

The National Stock Company has arranged for a week's engagement at Phoenix opera house.

It will pay you to see N. Binns if you are wanting Furniture, as he has now a full stock in most lines.

Four disorderly gentlemen (?), two colored and two white, were rounded up by the chief of police on Monday night and pleaded guilty before the beak, being assessed $20 and $2.50 costs each. One vagrant pleaded guilty to being drunk and was released on suspended sentence.

Blake Wilson, of Nelson, general manager for P. Burns & Co., was in town yesterday, having just returned from a trip to Prince Rupert, where he was looking after the meat contracts for the G.T.P. construction. He says, like others, that it is altogether too early to go Prince Rupert.

Harry James will shortly move his stock into larger quarters. Mr. James is always up to date with a complete and fresh assortment in his various lines—confectionery, fruits, cigars and tobaccos, music and cut flowers—and a larger store is found necessary to meet the requirements of his growing trade.

It has been generally understood in town for the past week that the Great Northern would commence their Sunday train service to Phoenix again starting tomorrow. This, however, is not the case. The Sunday train will be operated between Spokane and Marcus, but will not come to the Canadian side.

Roy Thompson, formerly a resident here and a brother of J. E. W. Thompson, is starting on a thousand-mile trip north from Ashcroft. He will go through the Cariboo, Ootsa lake, Nichoco valley, and Balkley valley districts, and down to Prince Rupert, reporting on conditions generally for the Methodist missionary society.

W. R. Williams returned on Monday from attending the Yale-Cariboo Conservative convention, and now considers the election of Mr. Burrell a foregone conclusion. The convention, he says, was one of entire unanimity, except for the scrimmage of the 129 delegates present for the pleasure of nominating the coming member of the riding.

In token of her long and faithful work as a member of St. Andrews' Presbyterian Ladies' Aid, Mrs. John A. Morrin was given special recognition last Wednesday evening, when she was presented with two beautiful pieces of cut glass, accompanied by an address, which was read by Rev. S. Lundie. The Ladies' Aid, church managers, choir, and a number of other intimate friends were present, the occasion being on the eve of her departure for Peachland.

Last Sunday being the 89th anniversary of the founding of the Independent Order of Odd Fellows, the members of Snowshoe Lodge, No. 14, and Rebekah Lodge, No. 17, mached in a body to the Methodist church in the evening, where the pastor, Rev. C. W. Whittaker, preached an elequent and inspiring sermon. He took as his text Luke 10:30, basing his remarks on the true friendship of the Good Samaritan, and exhorted members to endeavor to practice the grand principles of Oddfellowship.

SHILOH'S QUICKLY!

Quick case for the worst cough—quick relief to the heaviest cold—and SAFE to take, even for a child. That is Shiloh's Cure. Sold under a guarantee to cure colds and coughs quicker than any other medicine—or your money back. 34 years of success commend Shiloh's Cure. 25c., 50c., $1. 316

FRANCIS KNOTT IS SECURING PATENT

On Self-Dumping Device For Mines.

In last week's issue of the Pioneer appeared a description of the self-dumping device lately put into effect at the 400-foot level of the Granby mines. Those who have seen the thing in operation are loud in their praises of its simplicity and feasibility. Mr. Knott, who was draftsman for the Granby Co. last year when the car was planned and experimented on and brought to success, thinks that the Pioneer was not quite clear regarding the part which he had in getting up the self-dumper, he not claiming all the credit, but thinking he is entitled to more than was given to him by this paper, from what he had been able to learn regarding the invention and its practicability.

In order to get the matter straight, the Pioneer man this week was present when Mr. Hodges and Mr. Knott were talking over this phase of the matter, and the conclusion is that both gentlemen are entitled to some credit in the matter. Mr. Hodges said he had no wish or desire to detract from the credit due to Mr. Knott in the matter, but at the same time, while the latter's ideas and suggestions were acted on and found useful, it was not all due to him

Mr. Knott stated that he had applied for patents on the self-dumping device in both the United States and Canada, and expects to hear of favorable action on the application at an early date. Every one hopes that the invention may prove a provitable one for Mr. Knott.

In New Dress.

The Kaslo Kootenain appeared in a brand new Easter "dress" last week having installed a monoline type-setting machine. The Kootenian is a bright, breezy newspaper and the installation of the monoline indicates that it is going to be right up to date. The monoline is a luxury that but few of the interior weeklies as yet have invested in.

A Wonderful Feat.

F. E. Griffith has seven men employed on the Westmouut on Ten Mile Creek, in the Slocan from which he ships a carload of selected ore every month, which goes about $3,000 to the carload. He located the Westmount in 1896 and at once went to work on it, and has remained doggedly at work ever since. He performed the wonderful feat of driving a 1,000 foot tunnel single handed. Often for three months at a time he never saw a human face or heard the sound of a human voice except his own. He stayed with the game steadily and is now meeting his reward in the shape of profits on the ore which he is shipping The vein of the Westmount varies in width from six inches to a foot. The richest ore is at the lowest level yet reached. Mr. Griffiths is only awaiting for spring to sink again and run out one more level. If the ore values persist he will have a bonanza.

Latest Mining Stock Quotations.

[Corrected by Mighton & Cavanagh, Nelson, B. C., to April 8, 1908.]

The stock market is a sure indicator of the trend of business. A more buoyant feeling is pervading the different markets, and all stocks are firm at the following quotations:

CHILD'S SEVERE BURNS

HEALED BY ZAM-BUK

The little girl of Mrs. Lewis Best, of Carlisle P.O., recently fell against the stove and burned her forehead very badly. Mrs. Best says:—"The burn was about the size of a fifty cent piece and was near the bone. It made my little girl's eye swell till it almost shut, and then she got cold in it. It began to run matter very badly, and I could not stop it, although I bathed it good every night and morning. At last I sent for some Zam-Buk which soon stopped the matteration and very quickly healed the wound. I have never seen a burn heal so quickly, and I am sure Zam Buk has no equal for curing cuts or burns, and I shall always keep a box on hand in case of emergency."

Every home needs Zam-Buk! All diseases of the skin quickly yields to it. It is also an excellent remedy for piles (blind or bleeding), rheumatism, etc. All druggists and stores 50c. a box, or post paid from Zam Buk Co, Toronto.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

Monte Grand & California Fraction mineral claim, situate in Greenwood Mining Division of Yale District.

Where located—Greenwood Camp.

TAKE NOTICE that I, Forbes M. Kerby as Agent for John Mulligan, Free Miner's Certificate, No. B1011 intend, sixty days from date hereof to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further Take Notice that action, under Section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 27th day of June, A D., 1907.

28— FORBES M. KERBY, Agent.

THE attention of the Lands and Works Department having been directed to the fact that town lots in a townsite named Prince Rupert, being a subdivision of Lot 642, Range 5, Coast District, situated on the mainland between the mouth of the Skeena River and Kaien Island, are being offered for sale, it has been deemed necessary to warn the public that the said townsite is not situated at the terminus of the Grand Trunk Pacific Railway, and is not the townsite which is owned jointly by the Government of British Columbia and the Grand Trunk Pacific Railway Company.

CO-OWNERS' NOTICE.

To OLIVE STERN, of Farran's Point, Ontario, and J. S. C. FRASER, of Rossland, British Columbia

YOU ARE HEREBY NOTIFIED that I have expended $100.00 in labor and improvements on the "Laura B" Mineral Claim, situate in Greenwood Camp, in the Greenwood Mining Division of the District of Yale, as will appear by the Certificate of Work recorded October 8th, 1907, in the Office of the Mining Recorder for the said Greenwood Mining Division, in order to hold such Claim for the year ending October 11th, 1907, and that I have also paid $2 50 for recording such Certificate of Work:

And if at the expiration of 90 days from the first publication of this notice you fail or refuse to contribute your proportions of the expenditures required under Section 24 of the Mineral Act, to hold said Claim for the year above mentioned, together with all costs of advertising, your interests in said Claim will become vested in the subscriber (a coowner) under Section 4, of the Mineral Act Amendment Act, 1900:

The amount due from you, OLIVE STERN, on account of such work, and recording the Certificate thereof is $25.62, and from you, J. S. C. FRASER, is $8.54.

Dated at Phoenix, B. C., the 23rd day of January, 1908.

D. L. McINTOMINEY.

—86.

B. C. MINING

All free miners' certificates expire on May 31st and must be renewed prior to that date.

The Eureka mine at Sandon has reopened for the season with an increased working force.

The blind lead on the Ymir mine, for which search has been persistent for the past year, was struck last week.

The output of the Crow's Nest Pass Coal company during the past month has averaged 3,200 tons for each working day

The returns from the last shipment of the Slocan Sovereign to the Trail smelter, go 90 ounces in silver and 62 per cent lead.

The Richard III mine at Mount Sucker is being kept in good condition ready to open the moment the price of copper advances sufficiently to allow a margin of profit.

Encouraging reports come from the Findlay river district. Plenty of showings of coarse gold, black sand and iron boulders are said to have been found and there is a general stampede into the district at present.

The placer miners on Wild Horse creek are reported to have commenced piping last week, and at present are removing a large amount of gravel. Present indications are that a considerable amount of the yellow metal will be taken out this season,

The following report of the operations of the Le Roi mine for March was cabled to the London office of the company: "Shipped from the mine to Northport during the past month 6,700 tons, containing 2,680 ozs. gold, 4,600 ozs. silver, 170,000 lbs. copper. Expenditure on development work during the month, $7,250.

The Buffalo mine, near Silverton, is about to be reopened. Instructions have been received from the company to begin as soon as possible the continuation of No. 3 level, which is now in about 120 feet. This will be pushed for about 350 feet, when it is expected the lead will be picked up, and drifting will commence for another 100 feet.

Last Saturday the Queen mine, at Salmo, was sold by the owner, W. Waldie, to Wisconsin men for $175,000, $50,000 being paid down and the remainder to be paid at the end of 30 months. In the meantime the purchasers will pay 14 per cent of the mint and smelter returns to the vendors, the amount thus accruing to be installments upon the purchase price. Just now the property is being opened up by a force of 38 men and a mill of 10 stamps is in constant operation On the railway siding, awaiting the opening of the roads, are 10 more stamps, which will bring up the capacity of the mill from 185 to close 400 tons a week.

Mining Anecdotes.

To mining anecdotes there is no end, and I try to avoid anecdotes and confine myself to facts. This is a fact. In the early days of The Financial News in London an American of the most pronounced type called upon me to tell me about the extraordinary richness of property in Colorado which he had for sale. It was in the afternoon, and my visitor quite evidently lunched not wisely but far too well. When he had talked me into a state of nerves and himself only a trifle less than half sober, I asked him what the quarts yielded in gold. He replied: "I can't quite remember; but it's either five ounces to the ton or five tons to the ounce; I'm not sure which."

At the height of the West Australian mining boom a property favorably reported on was acquired for an English company. While the company was in the process of incubation a large block of rock, very rich in gold, was sent to the London office, where it was exhibited to all comers, and helped greatly to attract subscriptions. The prospectus was well received, all the shares offered.—Ex.

Of Interest To Women.

To such women as are not seriously out of health but who have exacting duties to perform, either in the way of household cares or in social duties and functions which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSITION, a full list of all its ingredients being printed, in plain English, on every bottle-wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and absolutely *free* if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

BOUNDARY & KOOTENAY 1908 ORE RECORD

NOTICE.

NOTICE IS HEREBY GIVEN that, thirty days after date, I, JOSEPH J. BASSETT, of Hartford Junction, B.C., intend to apply to the superintendent of provincial police, F. S. Hussey, of Victoria, for the renewal of a retail liquor license for the Hartford Hotel, at Hartford Junction, B.C.

JOSEPH J. BASSETT.

Hartford Junction, B.C., April 21, 1908.

Only Two Bits Per Month.

The cost of having us send the Pioneer to any part of the world, for a short time, is only 25 cents per month. Leave names and addresses at the Pioneer office.

ANOTHER $56,000 IN DIVIDENDS

Paid by International Coal and Coke Co.

Total of $226,000 Has Now Been Paid.

On May 1st the International Coal and Coke company paid a quarterly dividend of two per cent on the issued shares of $2,8000,000, making a disbursement of $56,000. This makes a total of $266,000 paid by this company in dividends to date, distributed as follows:

February 1, 1907	$28,000
May 1, 1907	28,000
August 1, 1907	42,000
November 1, 1907	56,000
February 1, 1908	56,000
May 1, 1908	56,000
	266,000

Announcement is also made to the shareholders that hereafter the company will, for the present, make its quarterly dividend at the rate of 1¼ per cent each, or 5 per cent annually, to permit the retirement of the $200,000.

The mines of the company are located at Coleman, Alberta, just across the line of British Columbia, and are in first-class shape. Some 500 men are employed, the superintendent being George L. Fraser, formerly of the Granby mines at Phoenix. At present the output is 3,000 tons daily, with a contract with the C.P.R. that will last two or three years yet. The company has also a large battery of coke ovens.

More than ordinary interest is taken in the International Coal and Coke company by many residents of the Boundary, as at the time of its organization, some four years ago, its chief promoters were either residents of or heavily interested in this section. It is also known to be closely indentified with interests friendly to the Granby company. Those who took their stock at up to fifty cents per share are now receiving dividends that are equal to 16 per cent on the cost of the shares, the rate being now two per cent quarterly on the par value of $1 per share. S. H. C. Miner, A. C. Flumerfelt and H. N. Galer, all of whom were actively indentified with the Granby Co. a few years ago, are at the head of the International Co.

PROVINCIAL.

A school has been opened at Prince Rupert with eight pupils as a starter.

A joint stock company is being formed to start canneries at Vernon and Kelowna.

A new city to be called Queen Charlotte is to be laid out at the mouth of the Skeena river.

Over 40 applications have been received by F. S. Hussey for liquor licenses at Prince Rupert.

The brewery at Sandon was burned to the ground Thursday of last week. Loss $15,000; insurance $6,000.

The retail merchants of New Westminster are forming a branch of the Retail Merchants Association of B. C.

Fire completely destroyed the Vancouver sash and door factory on False Creek, last week, loss being $30,000

William Scott, foreman of sidewalk construction in Victoria, was electrocuted last week through catching hold of a live wire.

F. J. Deane has sold the Nelson Daily News to W. G. McMorris, who for a year or more has been the business manager.

A county Orange lodge was organized at Nelson last week. Rossland, Trail, Sandon and Nelson were represented by delegates.

The Liberal nominating convention for the Dominion electoral division of Kootenay will be held in Nelson on Thursday, June 4th.

J. H. McDonald, superintendent of the Rossland Engineering works, has been appointed collector of customs at Rossland, including the sub-ports of Paterson and Trail.

W. A. Galliher, M.P., has been offered the position of western solicitor and legislative agent for G.T.P. with headquarters at Vancouver. It is stated that he wil accept.

Two thousand fruit trees, imported from the United States, were condemmed at Vancouver by Thomas Cunningham, provincial inspector of fruit pests. The trees were peach, plum and apple, and they were infected with wooly aphis, black peach aphis, root gall, anthachose and sannai exitiosa.

PE-RU-NA RELIEVES AFTER-EFFECTS OF LA GRIPPE.

La Grippe Sows the Seed of Chronic Catarrh, Indigestion, Nervous Prostration and a Host of Ailments Too Numerous to Mention.

PERUNA is a remedy for the after-effects of la grippe.

Nearly every person who has had the grip during the past winter finds himself left with some chronic catarrhal condition more or less intolerable.

It may be a hacking cough, or a tired, all-worn-out feeling.

Sometimes indigestion appears and hangs on in spite of all remedies.

A short course of Peruna removes all these symptoms and puts the patient right again.

We have a multitude of testimonials along this line.

La Grippe Leaves a Case of Systemic Catarrh.

Judge Horatio J. Goss, Hartwell, Ga., writes:

"Some five or six years ago I had a very severe spell of grip which left me with systemic catarrh.

"A friend advised me to try your Peruna, which I did, and was immediately benefited.

"The third bottle completed the cure."

Holds Pe-ru-na in High Esteem.

Miss Ernestine Durocher, 2611 Notre Dame, St. Henri, Montreal, Can., writes:

"During several years I experienced much inconvenience on account of weakness and heart trouble.

"The best doctors treated me, but without success.

"A year ago I commenced to take Peruna.

"I persevered with it regularly and a change took place more rapidly than I expected. To-day I am entirely cured.

"I hold Peruna in the highest esteem and I am always ready to speak a good word in its favor. I owe my cure to Peruna."

"Pe-ru-na Was Recommended by One of My Friends."

Mr. N. Beauchamp, 126 rue Notre Dame, Lachine, P. Q., writes:

"I tried the famous remedy, Peruna, which was recommended to me by one of my friends, R. Pilon.

"I have not been without this valuable remedy for seven months, and now I see that I am entirely cured.

"Formerly, on lying down I was unable to breathe through my nose and I never passed a day without headache.

"To-day I experience none of these symptoms and this is due to Peruna."

MR. J. A. GOYER.

Mr. J. A. Goyer, president La Pharmacie Latonlnse, 1069 Berri St., Montreal, Can., writes:

"I can highly recommend your inestimable preparation, Peruna, to all those who suffer from the bad after-effects of la grippe.

"Two bottles of Peruna have brought to me a complete cure of that sickness, and it has acted as the best tonic for the system that I have ever experienced."

Head and Stomach Were Affected by Catarrh.

Miss Olivine Perrault, 527½ rue Albert, Montreal, Can., writes:

"I write you a word to congratulate you on your famous remedy, Peruna. I tried other remedies, but my cold did not get any better, and I feared I was becoming consumptive.

"The condition of my head and stomach was very annoying. I had coughed day and night for three months, as the result of a cold which I had contracted from sudden change of temperature.

"My brother advised me to try Peruna and I did so, for he was cured by Peruna. I took it regularly and improved steadily. I have now taken three bottles of it and am completely cured."

The Phoenix Pioneer

Is acknowledged by those who read it regularly to be the leading journalistic exponent of the Boundary District of Southeastern British Columbia.

It is published in the centre of the great Copper Mining Industry of British Columbia, and prints the news of the Districts while it is news. It plays no favorites, but aims to give everyone a square deal.

The Pioneer costs $2 per annum; to American subscribers, $2.50, and more than one of its readers subscribes for two, three and even five years. Address, with remittance,

Pioneer Pub. Co., Phoenix, B.C.

NOTE—We have a few Copies of the last PIONEER ANNUAL left, price 25 cents each, or a copy will be sent free to a new subscriber.

B. C. Copper Co. Resumes.

The information given out on Tuesday that the British Columbia Copper company would resume operations at once, was glad tidings to residents throughout the Boundary, and many smiling faces are beaming over the camp fire this week. Particularly welcome news was it to people of Greenwood city, where mining operations have been at a standstill during the past six months, many men out of employment, and general business much depressed.

It was also pleasing news in Phoenix, Summit camp being close to the city, and the resumption of the B. C. company will probably mean the opening of the Snowshoe mine in the near future; people will now be inspired with more confidence in the camp and a general stimulus to business should result.

Although this announcement from the B. C. Copper company has been looked for for some weeks, it was realized, however, that the low price of copper leaves but little chance for a margin for shareholders of the company. The clearing of expenses is about all the company will look for until there is a rise in the price of the red metal.

THE TORTURES OF

BILIOUSNESS

There is no need to suffer the tortures of biliousness. Mother Seigel's Syrup will cure you—must cure you—because it restores your liver to healthy action. Headaches, dizziness, sickness, indigestion, all disappear when Mother Seigel's Syrup is used. Try it.

ARE ENDED BY

MOTHER SEIGEL'S SYRUP.

Sold everywhere. Price 50 cents per bottle. A. J. White & Co. Ltd., Montreal.

Nelson's Daily Changes.

Announcement was made a few days ago that F. J. Deane had sold the Nelson Daily News to a syndicate composed of local men, largely Conservatives. The Daily Canadian, which was Conservative, has been merged with the News, and thus a strong combination is made.

Mr. Deane published the Daily News for six years, and sent out what is admitted by all practical newspaper men to have been the best daily, in a city of same size, in Canada. It was always an uphill job to make both ends meet, and few would have cared to have tackled the proposition for the mere glory that was in it. Mr. Deane spared no effort or expense to give the people of the interior a daily of which they might feel proud.

W. G. McMorris, the new manager, grew up with Mr. Deane on the News, and has made good. If the chief feature of the News is not to be of a political nature, with its new financial backing it should continue to be of the greatest utility in the Kootenay. If it is to be merely a mouthpiece for the Conservatives, it will lose half its value and force for the upbuilding of the country it might otherwise excellently serve.

Incidentally, it is interesting to note that the World, of Vancouver, is now the only Liberal daily paper on the mainland of British Columbia. In short, the Conservatives seem to be securing a stronger hold than ever on the newspapers of the province. Perhaps the coming election has something to do with it.

Optimistic reports come from the prairie provinces. Seeding is three or four weeks earlier than a year ago. From 50 to 75 per cent of the wheat fields of Manitoba, Saskatchewan and Alberta are already planted. In different sections the increase in the acreage is from ten to one hundred per cent. The condition of the ground generally is reported as excellent.

With the provincial elections in Ontario early in June, and in Quebec a month or two later, and the Dominion elections probably before the year closes, considerable activity is looming up on the eastern political horizon.

In a careful examination of the new coaches placed in commission this week on the Great Northern running into Phoenix, the editor recognizes them as the identical pair ordered by the Pioneer, through Uncle Jim, some weeks ago.

The Granby Consolidated.

Stevens' "Copper Handbook" is an annual volume whose appearance is welcomed by copper workers the world over. As the work of one man, it is a monument of industry and intelligent discrimination. It is reliable and comprehensive. Of dubious enterprises it expresses its opinion unhesitatingly. Hence it is of extraordinary value to the investor.

It is pleasant to read Mr. Stevens' warm praise of a Canadian copper concern. In concluding a detailed description of the Granby Consolidated Mining & Smelting Company's mines and works at Phoenix and Grand Forks, B. C., Mr. Stevens speaks thus of the company's execution:

"Both mine and smelter have been brought to a high state of efficiency, and the cost sheet is one of which my directorate well might be proud. The Granby is one of the few copper properties of the world of which a careful investigation leads to the verdict that there is nearly everything to commend, and scarcely anything to criticise."

Mr. Stevens' praise is worth something—Canadian Mining Journal.

OUR COPPER CORNER

MATTERS OF INTEREST TO THOSE INTERESTED IN THE COPPER MINING INDUSTRY

Copper and Steel.

Recent reports from London represent that in all probability copper has touched bottom and will advance smartly in the next sixty days, says Mines and Mining. There are a few open accounts, but they do not cut much of a figure. On the other hand consumers are holding off to see if the market is going any lower.

One reason for this is that throughout Europe and the British Isles few new orders are going forward for electrical work or other engineering operations. In Europe there is nothing that points to any rapid recovery. But later in the season, when electrical and other engineering works begin to revive copper will gradually move up and better conditions prevail.

In this country there is already seen a wholesome revival in all branches of business, and copper, zinc and lead are looking up with a smile. The effects of the recent financial flutter are almost forgotten and normal conditions are not far away. So far our agricultural outlook is highly promising, and that of itself stimulates the metal market and busines in general. It is confidently predicted that a gradual improvement in all lines of business will characterize the remainder of the year, and in view of that feature the metal markets will take on more activity, become stronger and more stable.

Already there is considerable activity in steel, and as the season advances that condition will increase in a marked degree. A large amount of railroad building is blocked out in this country for the next few years and that means more steel, more electric powers, telephone and telegraph lines, increased demand for copper, iron and other metals. In fact were it not for iron and its products; copper and its products; zinc and lead, with plenty of silver and gold on the side, the business world would stop and men go back to barbarism.

In the last ten days the demand for copper has been so great that the metal jumped up to 13 cents and over and copper producing companies have sold ahead to the extent of more than 100,000,000 pounds. Among these sales the United Metals Selling Company has orders for future delivery covering 50,000,000 pounds, and independent producers 20,000,000 and 30,000,000 pounds respectively, the entire amount being sold at 13 cents. The surplus stocks, it will be seen, are exhausted and orders are coming in ahead of production for millions of pounds. It is believed by conservative producers and dealers that copper will go to 15 cents in the next thirty days.

The United States Steel corporation is now operating about 58 per cent of its capacity with inquiry for its product steadily increasing. The working capital of the great corporation is now $240,000,000, and its annual report for the past year, which is in the hands of the printers, will show it to be the greatest dividend payer of any corporation in the world, not excepting the Standard Oil Company. It is claimed that as soon as the money is in sight the railroads will place orders for 500,000 tons of steel rails a month for the next eighteen months, or a total of 9,000,000 tons.

If the manipulators will give the markets normal play the great staple metals—silver, copper, lead, zinc and iron, will at all times command a fair price, both to the producer and consumer, and consumption will keep pace with production the world over.

The Copper Situation.

Managing Director Ryan, of the Amalgamated Copper Company, has issued a statement, saying that a considerable change for the better has taken place in the copper metal market. Large sales for European shipment have been made in the last few weeks, and there is no accumulation of copper unsold worth considering. Mr. Ryan expressed the hope that by the time the increased production, resulting from the resumption of operations reaches the market—which is about three months—the American demand for the metal will have increased sufficiently to make up the increased production. The copper situation is undoubtedly improving.

Mr. Burrell Answers Call.

Martin Burrell, who was recently chosen by the Yale-Cariboo Conservatives as their candidate for the next Dominion election, considers his unanimous nomination a mandate. The following letter has been received by W. H. Johnston, president of the Kamloops Conservative association, from Mr. Burrell:

Grand Forks, B.C., April 28, 1908.

My Dear Sir,—Would you be good enough to express to the members of your association, and to my friends throughout the district of Kamloops how greatly I appreciate the kind way in which they have lately expressed themselves towards my candidature in the constituency of Yale-Cariboo. I very much desired to withdraw from active politics at the present time, but so clear a call to a public duty could not be lightly disregarded, and I need hardly assure you that I deeply appreciate the honor of being so unanimously requested to be again the standard bearer of the Conservative party. Knowing how loyally and enthusiastically Kamloops Conservatives have worked in the past I know well that their efforts will be redoubled now that the evident trend of public opinion throughout the Dominion is towards the re establishment of Conservative government. It will be my constant and earnest endeavor to merit the confidence which has been reposed in me, and I again assure you of my grateful regards.

Yours very truly,
MARTIN BURRELL.

Public Library Dance.

Arrangements here have been made for a grand ball to be given under the auspices of the public library on the evening of Tuesday, May 12th. The management are endeavoring to secure funds to add new books to the library and hope to make the dance a success financially as well as otherwise. Gentlemen's tickets will be $1.00, and ladies attending are invited to contribute a book to the circulating library.

Buster's Philosophy.—XXV.

Resolved, that I have been guilty of asking Tige to do something that I wouldn't have done myself. Well that is one of our inconsistencies—we ask things of our friends that we wouldn't be willing to do for them. Come let us try to be a little more reasonable. This world is a pretty fine place to live in and we should keep up with the rest of it by being kind and cheerful to every one, and too honest to ask a favor—especially a favor we can't return.

ADVERTISING
IS NOT A LUXURY
IT'S A NECESSITY

A merchant with a big store, a big stock of goods, clerks and equipment, who expects to do business without advertising, is like the man who pays a lot of money for fine gas fixtures but hopes to get along without having a meter put in and the gas turned on, "because of the expense." In both instances costly equipment will give poor results.

The cuticle covering the human anatomy is entirely renewed every few years—not a particle of the old skin remaining. A store undergoes this change every few weeks or months, according to the advertising enterprise of its owners. The progressive store of today is completely a new store as compared with itself a few months ago.

Speak to 1500 people weekly through the columns of the PIONEER—the paper that bring results.

COPPER HANDBOOK
(New Edition issued March, 1908.)
SIZE: Octavo.
PAGES: 1228.
CHAPTERS: 25.
SCOPE: The Copper Industry of the World.
COVERING: Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.
The Copper Handbook is concededly the
World's Standard Reference Book on Copper.
THE MINER needs the books for the facts it gives him regarding Geology, Mining, Copper Deposits and Copper Mines.
THE METALLURGIST needs the book for the facts it gives him regarding copper milling, leaching, smelting and refining.
THE COPPER CONSUMER needs the book for every chapter it contains. It tells what, and explains how and why.
THE INTESTOR IN COPPER SHARES cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.
PRICE: $5.00 in buckram with gilt top, or $7.50 in full library morocco.
TERMS: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?
WRITE NOW to the editor and publisher.
