Provincial Library
VICTORIA, B. C.
1913

The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over $50,000, while the Rawhide pay roll is $18,000.

THE PHOENIX PIONEER

Devoted to the Interests of the Boundary Mining District

The Phoenix Pioneer is published in the highest municipality in Canada, altitude, 4,200 ft. The city has a population of 1,500, and possesses first-class hotels, opera house, schools

FIFTEENTH YEAR — PHOENIX, B. C., SATURDAY, NOV. 1, 1913 — NUMBER 16

Looking for Rink Pointers

In order to procure the very latest in the way of ideas for their proposed new skating rink at Merritt, the citizens of that town sent two delegates this week into the Boundary to inspect the rinks at Phoenix, Greenwood and Grand Forks. F. A. Reid, mayor of the city, was one of those selected, and the other was J. W. Ellis, publisher of the Merritt Herald and an old time printer in this country. Years ago Mr. Ellis worked at his trade in Greenwood when the Boundary Creek Times was owned by Duncan Ross.

Naturally Messrs. Reid and Ellis were favorably impressed with the Phoenix rink, which cost $10,000, and is probably the best in the interior of the province. At Merritt it is proposed to build a rink about 120 feet wide by 180 feet deep with two curling rinks side by side, and at the other end of the building a large skating rink. Up to date dressing rooms for both ladies and gentlemen are to be provided, and the scheme involves an expenditure of not less than $10,000.

Money in Trapping Furs

The money picked up by the trappers in a season is something that would make a great many people sit up and take notice. Fifteen years ago 75 cents was good value for a skunk, $1 was considered a high quotation for a mink and 10 to 15 cents was all anyone ever expected for a muskrat. Compare these prices with present day values, $4 to $5 for black skunk, $6 and $10 for a prime mink and 50 to 60 cents for spring muskrats. The foregoing is from the statement of A. B. Shubert, Inc., of Chicago, one of the largest houses in the world dealing in raw furs.

Ontario is over half dry now, and each year sees a large number of municipalities placed upon the dry list and still a larger number of barrooms wiped out.

Want Resident Rule at Carnival

That a strong recommendation should be sent by each club of the West Kootenay Divisional Hockey league to the committee of the Rossland winter carnival urging that all players participating in the carnival games should have played at least two league games and have been duly registered at least 15 days with the club with which he plays, the 15 day resident rule to apply to the clubs outside of the league competing in the carnival games. This was the gist of a resolution passed at the meeting of the club held at Nelson last Saturday evening. The opinion of the meeting was almost unanimously in favor of seven-man hockey.

A meeting of the league will be held at Trail or Rossland this month, when the schedule for the season will be drawn up.

One delegate from each of the affiliated clubs will be sent to Grand Forks to the annual meeting of the West Kootenay and Boundary hockey league, which will be held shortly on a date to be set, and the delegates will be instructed to draw up by-laws to govern the leagues.

Delegates to the meeting were: Rossland—J. S. Deschamps, G. A. Lafferty, Graham Cruickshank and D. Thomas. Trail—James Buchanan and C. A. Reese. Nelson—C. F. McHardy, Dr. M. J. Vigneaux and Ernest Hacking.

There was a strong feeling at the meeting in favor of the unification of the West Kootenay and Boundary divisions of the league, but no steps were taken in the matter.—Nelson Daily News.

Barnum Goes Free

Howard H. Barnum, the aged gate keeper who was charged with allowing Harry Thaw to escape from the Mattewan asylum for the criminal insane, has been discharged. The grand jury of New York state refused to indict him.

Much that passes for enthusiasm is nothing but gush.

The Copper Situation

Four years ago, in November, 1909, the world's surplus of copper was just four times as great as it is now. The metal was around 13½ cents and copper stocks were selling all the way from 25 to 150 per cent higher than they are now. At that time the world's surplus of copper stood at 361,699,012 pounds, not including stocks at Hamburg and Rotterdam. With these included the world's surplus is now about 90,000 pounds, and it has been decreasing steadily for several months past. Those copper producing companies not idle because of labor troubles are earning from 50 to 100 per cent more in annual profits now than then, and the prospects are that their net incomes will increase considerably in the near future as a result of a still further advance in metal prices.

The United States consumes nearly 40 per cent of the world's copper output.

The whole world has awakened to the utility advantages and the economy of electric power. It is being applied to railroads, to manufacturing, mining and almost everywhere else that power is used. This condition has been reached in the world's progress at a time when there is a distinct shortage in the supply of copper.

Probably 40 to 45 per cent of the copper produced goes into brass making, roofing, plumbing supplies and other uses in which competing materials will take its place to the extent of one half if the price advances to around 20 cents a pound. It is quite probable that conditions are gradually shaping themselves for a sustained 18 to 22 cent copper market.

In view of this outlook it seems absolutely certain that there will be a market at higher prices than has ruled for many years past for all the copper the mines can produce. A realization of this situation should create public confidence in good copper mining investments and arouse the speculator to the possibilities that exist in the shares of those mining companies having good future prospects.

McBride at Ottawa

A record crowd which numbered amongst its notables His Royal Highness, the Duke of Connaught, assembled at Ottawa last Monday night in the Chateau Laurier at the dinner given in honor of the visiting provincial premiers by the Ottawa Canadian Club. The spacious dining room was packed with a representative gathering of Ottawa people and with the members of the visiting provincial governments.

To Hon. Sir Richard McBride, premier of British Columbia, and Hon. Walter Scott, premier of Saskatchewan, fell the honor of addressing the assembly.

A Lucky Operator

J. R. Burns, chief operator of the C. P. R. at Winnipeg, won the Salmon sweepstakes, worth nearly $50,000. Mr. Burns held the ticket for Cantilever, the winner of the Cambridgeshire, one of the famous English racing events. He held just one ticket, so that the whole of his huge prize is pure gain. Burns has been connected with the C. P. R. telegraph department for the past 13 years.

Mining Notes

This month the deep level tunnel on the Noble Five group at Sandon will be started. The tunnel will be run about 2,000 feet to strike the ore body at a depth of about 800 feet below the present deepest level.

Another new high record has been established by the Consolidated Mining & Smelting company by treating at its smelter at Trail last week 9,463 tons.

Placer Strike at Tulameen

The Golden Gate Vancouver Syndicate at Granite creek in the Tulameen country seems to be in a fair way to make a big success of their proposition. Work is being carried on under the supervision of Thomas Stewart, who was formerly superintendent of the bridge building department of the C. P. R. and later made a great cleanup in Alaska.

Old timers around the Tulameen tell many weird tales of the big rush of '86 at Granite Creek—of a wide open camp with 27 saloons running in full blast night and day, of an average daily cleanup of $500 in dust being squandered across the bar the same evening, and many other freak stunts peculiar to an old time "roaring camp." And it looks as though history were going to repeat herself to a certain extent now the richness of this creek has developed beyond a doubt.

A Coming Treat

Too much praise cannot be given the Phoenix Miners' Union for engaging the Schubert Symphony Club and Lady Quartette of Chicago to appear here on Saturday evening, November 8th, at their hall. This company is in the height of its success, and is acknowledged everywhere to be the most up to date musical company traveling. Everybody likes music and everybody enjoys a hearty laugh. A delightful blending of pure fun and fine music is one reason why the above company has won its way to the top notch of public esteem.

Struck Galena Ore

Joe Darraugh was out at his old stamping ground near Hale, and is quite elated these days on account of his stumbling onto what he considers a veritable hidden treasure. One day last week while out in the vicinity of his ranch he kicked a small rock aside, and was surprised to find that it was sprinkled with galena. The indications looked so favorable that he decided to locate the ground and further develop the showing. He believes he has a good thing, and one well worth giving a fair trial.

Strikers Are Sentenced

At Nanaimo last week Judge Howey passed sentence on more than two score Nanaimo rioters. The maximum sentence was two years. Many union officers will spend the next year in jail.

Some of the mines around Nanaimo have reopened with non-union laborers and the situation among the men is very bitter.

The little courtroom was crowded with the wives and children of the prisoners long before the hour of opening. The miners marched into court under guard of special police and took their place in the jury box and on chairs provided for them in the court. When his honor commenced to pass upon the men, who stood up in answer to their names, women and children in the gallery commenced to cry softly and several wives became hysterical when their husbands were committed to jail.

Three men and two boys were sentenced to serve two years in the penitentiary, 23 were given imprisonment for one year and were fined $100 each, and 11 were sent to jail for three months and will have to pay a fine of $50 each, all sentences dating from the time of arrest.

Kaslo Line Nearly Finished

Work on the Kaslo and Slocan railway line, which will provide through railway connection between Kaslo and the Slocan, Arrow lakes and coast, will be completed and ready for operation by December 15th. Four hundred and fifty men are rushing the work. Grading is practically finished.

Hockey at Greenwood

A very large, representative and most enthusiastic hockey meeting was held in the Star theater on Tuesday night to further discuss hockey matters for the forthcoming season and to say that Greenwood now possesses an up to the minute hockey club is indeed putting it light, for with the exception of one or two, the whole city is behind hockey and are working tooth and nail to do their share in making this strenuous game popular in the Boundary. To add interest and to lend zeal to the series of games which this club intends to engage in, a strong committee has been appointed to manage the team, engage players, rent the rink, appoint sec-treas., hire rink manager, etc. The following officers were elected:

Hon. President, James McCreath;
Hon. Vice-President, O. Boyer;
Patron, O. Lashmund;
President, Mayor MacLaine;
Vice-President, B. Logan;
Committee—W. G. Pond, F. S. Norcross, W. B. Fleming, Dr. McLean and Mr. Brunell. A committee was appointed to solicit subscriptions, and already over $1,000 has been subscribed.—Greenwood Ledge.

Hit Former Phoenix Man

Wm. Anderson, a bartender at the Cliff House at Rossland, was charged in that city the other day with assaulting Daniel Gunn. Mr. Gunn was formerly chief of police at Phoenix, and according to Anderson, had arrested him. Gunn went into the Cliff without recognizing Anderson, and the latter struck him in the face inflicting severe bruises, which Gunn had a doctor attend to. The only excuse Anderson gave in pleading guilty was that he had it in for Gunn. As the assault was unprovoked, the court fined the defendant $20 and $5 doctor's bill.

The output of the Granby mines and smelter have already passed the million ton mark this year.

Left for Old Country

John Anderson and wife left Tuesday for a visit to their old home in Sweden. They have been away for several years. En route east they will stop over in Michigan for a few days and visit with some friends. Mr. Anderson was engaged in the hotel business in Phoenix for several years, and recently has been ranching and contracting. Before leaving he was presented with a gold chain and charm by his friends in the Scandinavian Aid and Fellowship Society. He was president of the Phoenix lodge of this order for two years, and has been a member for 16 years, having joined back in Michigan.

Foster will Be Candidate

W. W. Foster, deputy minister of public Works, announces he will be a candidate for the Conservative nomination at the forthcoming by-election in the Islands constituency, which is vacant through the elevation of Hon. A. E. McPhillips to a judgeship. Mr. Foster has been promised the support of the different Conservative organizations in the district and is certain to secure the nomination. As yet no Liberal candidate has been announced.

Ready for Ice-Making

Everything at the big skating rink is in readiness for making ice. A. F. Geddes has been busy during the past week with a crew of men superintending the laying of cinder beds in both the big rink and the curling rinks. As soon as the cold weather sets in, there will be no delays in starting to make ice. The curlers are already becoming enthusiastic, and so far eight rinks have been formed.

Ore Tonnages

Following are the returns of the output of the Granby mines and smelter for week ending Oct. 26:

Granby	22,561	993,061
SMELTER TONNAGES		
Granby	22,200	996,572

The Big Store

Carload of Fancy Apples just received from Keremeos, B.C. They are the finest we have ever had, fancy packed, and delicious red stock.

Snows, Winesaps, Kings, Jonathan, Greenings and Spitzenbergs

$2.25 per box

We suggest that you order a Box of Snows right now, as they will soon be sold.

MORRIN-THOMPSON & CO.

The Difference in Clothes

IT is the easiest thing in the world to buy poor clothes. They prevail to a much greater extent than that of the well-tailored and distinctive kind. The poor kind is the easiest to make, and the profits thereon are larger. But when it comes to satisfaction, that is, wearing quality, perfect workmanship and faultless fashioning, it is Only the Good Clothes Make a Return on Your Investment, and these are features we can conscientiously claim for the clothes we sell.

You can't get anything but good clothes at this store, even though you spend as little as $10 for a garment. Our $18.00 Suits, for instance, contain the best quality of fabrics and workmanship that has ever been produced in this country for that sum of money, and the patterns are as diversified as the higher priced lines.

We have in stock a full line of Men's Furnishings, Coat Sweaters, Gloves and Mitts, Shirts, Ties, Collars and Underwear in all lines.

SATURDAY, NOV. 1, 1913

Everybody is a high liver these days. Can't be anything else.

The climate in Phoenix this fall has been ideal, in fact it could not have been better had it been made to order.

If a piccolo player is an adept at eating corn on the cob, the harmonica player ought to be graceful with a sliced watermelon.

The second Battle of Chateauguay seems to have been won very much on the lines of the first just one hundred years ago.

As a matter of political history it would be interesting to know who was clerk of the court when Adam got his marriage license.

Between picking their apples and prunes and discussing the Doukhobor situation the people of Grand Forks are pretty busy just at present.

Considerable hockey is already being played in Phoenix—around hotel lobbies and other places where there are comfortable fires. The real article will come later on.

Hope is one of the wonderful things in life. As an exchange says you may knock it down, kick it in the ribs and throw it into the rummage closet of has been, and within 24 hours it will come back and smile.

The output of the Granby smelter so far this year has just passed the million ton mark, and practically all of this ore come from the mines at Phoenix. No other mines or smelter in Canada can approach this figure.

A lady at Eholt writes and puts the following question: "What is the best way to serve a lobster?" Our answer would be that all depends on how much money he's got. Offhand, we would say—serve him as you would a meal ticket with only one number left.

The irony of fate was exemplified over on the coast last week when Thomas Read died just as his property near Newport took a sudden rise in value. He lived in comparative poverty until the advent of the P. G. E. railway. The property is now said to be worth $500,000.

A Canadian doctor may now practice in every province in the Dominion. The first examination under the Canadian Medical Act was held last week, when 71 candidates presented themselves and 44 passed. This shows that examinations are quite hard enough to keep out unskilled physicians or surgeons.

"Alterations to Mary," reads a headline in the Victoria Colonist. In our anxiety to learn what these alterations might consist of, we read further down the article and discovered that Mary in this case is simply the name of a ship, in fact, the Princess Mary, to be more correct, and that she is to be placed in dry dock and lengthened. That's all.

A Los Angeles judge put a crimp in some "joy riders" the other day when he imposed a sentence of ten years' imprisonment for the theft of an automobile. The judge wisely pointed out to them in passing sentence that an offense that imperils lives and destroys property has passed the "harmless mischief" stage, and calls for prompt suppression.

A movement to raise the status of the business of hotel keeping to a higher plane in Canada has been inaugurated within the past few weeks. Geo. Wright is proprietor of the Walker House, Toronto, and president of the Licensed Hotelkeepers' Association. Mr. Wright says that it was the intention of his association to establish one or more training schools where aspiring young men and women who wish to take up the business of hotel work, could be instructed in the sciences that form this business. The plan seems to be a good one.

In the recent election at Chateauguay the Liberals could not have asked for better fighting ground. Chateauguay is an historic Liberal seat. It has been held by the Liberals without a break since confederation. The majorities in most cases have been in the neighborhood of 400. In addition the Liberals in Chateauguay chose their strongest possible candidate, Hon. Sydney Fisher, ex-minister of agriculture, an old campaigner, wealthy and a fluent speaker in French. The county was simply over-run with Liberals orators and workers. In spite of all these odds the Conservatives carried the seat by the splendid majority of 144. The Liberals demanded a contest in Chateauguay. This was granted and the result of the outcome shatters all their hopes of maintaing a solid Quebec.

LAND REGISTRY ACT

In the matter of an application for duplicate Certificate of Title to Lot 1, Block 31, May 60, City of Phoenix (Old Ironsides Sub-division)

NOTICE is hereby given that it is my intention at the expiration of one month from the date hereof, to issue duplicate certificate Certificate of Title to said lands issued to Matthew Clayton and numbered 15169A, except in the meantime valid objection be made to me in writing.

Dated at the Land Registry Office, Kamloops, B.C., this 23rd day of September, 1913.

C. H. DUNBAR, District Registrar.

New Use for Copper

Tests of the service rendered by steel railroad rails containing one-half of one per cent of copper have been made by the Chicago, Milwaukee & St. Paul railway, and following the results shown by a year's service of 5,000 tons of rails double that quantity has recently been ordered. It is understood that if further tests prove equally favorable the company will adopt this alloy as standard in its rail specifications. Since over three million tons of rails are made annually in the United States, an important avenue of consumption of copper might result for the adoption of this style of rail alloy by even a few of the larger railroads. Whether this would be reflected directly in the copper market, or would merely open the way to the use of iron ores in the blast furnace that contain small amounts of copper is less certain. There are many mines that could furnish copper contaminated iron ore.—Mining and Scientific Press.

Clothing Styles for Men

Skimpiness predominates in the season's styles for men's clothing, as shown in the fall exhibition of the Chicago Society of Merchant Tailors, which has opened in that city.

Men's coats gre to be tighter, more narrow shouldered and shorter. Trousers cut so close as to almost preclude the presence of pockets. They are to be cuffless and high enough to expose a flash of hosiery as the wearer strides.

Waistcoats are to be six buttoned and high enough to show above the low lapels of the coat.

The close fitting style has spread to the overcoats. These are to be off the knee length, with either the roll or flat lapel and collars. The fuzzy ones, with belts in the back, are expected to be popular.

Turbans Too Bright

Fernie Free Press—The city is polluted with Hindus. Their new fall styles in turbans are classy, but are somewhat too brilliant to lend much dignity to the luxurious crops of facial herbage these ginks wear.

It is better to be honest from force of circumstances than not at all.

Will Use Meter System

Rossland is to be put on a meter system of electric lighting. The present rate of 50 cents a light per month will give place to a meter charge of 10 cents per kilowatt hour. Meters will be charged for at the rate of 25 cents per month. Entire change to be made within a year, beginning in a few weeks in the commercial district, residences following later. In this move the company is endeavoring to fairly distribute the cost of light. Power is now being used that is not being paid for. People have been warned and police court proceedings have been taken at different times. The flat rate has permitted the constant burning of lights, and the consequent necessity of the company supplying power which was being wasted.—Miner.

Hangman Is Sore

The official hangman of Canada is said to be sore on account of the commuting of the death sentence of a Toronto man, thus knocking him out of his fee.

Notice to Contractors

PHOENIX LOCK-UP.

SEALED TENDERS, superscribed "Tender for Phoenix Lock-up," will be received by the Hon. the Minister of Public Works up to noon of Tuesday, the 28th day of October, 1913, for the erection and completion of married constable's quarters and lock-up at Phoenix, in the Grand Forks Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 10th day of October, 1913, at the office of Mr. S. R. Almond, Grand Forks; the Provincial Constable, Phoenix; or the Department of Public Works, Victoria, B.C.

Intending tenderers may, for the sum of ten dollars ($10) obtain one copy of the plans and specification by applying to the undersigned. This sum will be refunded when the plans are returned in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for a sum equal to 10 per cent of tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.
Department of Public Works,
Victoria, B.C., Oct. 8th, 1913. o-c9

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

Major Megraw, editor of the Hedley Gazette, has been apointed coroner.

Work has been commenced on a cement plant at Blairmore that will cost $700,000.

Harold Selous, ex-mayor of Nelson, intends leaving shortly for a trip to England.

More than ten thousand Methodist ministers in the United States preach and work the year round for less than $500 each.

Moyie citizens are agitating for better fire protection, and all of the old dilapidated buildings in the town will be torn down.

At Cranbrook Sunday morning burglars broke into the safe of the steam laundry and got away with $150. Nitro-glycerine was used.

F. B. Whiting, who has sold the Strathcona hotel at Nelson to James Marshall of Phoenix, will remain in Nelson when he retires on November 15.

The contract for building the Taghum bridge near Nelson has been awarded. It will cost $75,000 and will be ready for next summer's traffic.

While engaged in opening an acid tank at Trail the other day M. Williamson was badly injured by a premature explosion. Both his legs were broken.

L. A. Campbell, M. M. P. of Rossland, is in Montreal attending the annual meeting of the West Kootenay Power & Light company, of which he is manager.

The report that Rev. Father Jeanotte, of the Slocan lake parish, had died at Montreal seems to be without foundation. He has been in the east for some time in an endeavor to regain his health.

Construction work has been started on the new cannery at Grand Forks. The building with machinery will cost about $14,000. The structure will be of brick and scone, and will have concrete floors.

Another big store in Vancouver has been forced to quit business on account of the money stringency. The Progress Clothing House on Hastings street was one of the largest men's outfitting establishments in that city.

The C. P. R. liner Empress of India has been on the run between Vancouver and the Orient for 22 years and has made 115 voyages. Many of the Chinese servants have been with the ship since her maiden voyage 22 years ago.

In Edmonton they operate moving picture theatres by placing collection plates at the doors, instead of selling regular admission tickets. By operating in this way it is claimed there is no violation of the Lord's Day Act of Alberta.

Hon. W. R. Ross, Minister of Lands, has gone to Ottawa to represent the B. C. government at a conference which has been called to discuss and consider the question of the pollution of inter-provincial water highways and streams.

A Christmas box fund is being raised for the wives and little tots of the Nanaimo miners who are out on strike. Already $5,000 have been raised. The unorganized miners in the Merritt camp have made one of the largest contributions, namely, $420.50.

At joint meetings of the Vernon city council and the directors of the Vernon Jubilee hospital, it was decided that the city shall take over the hospital, assuming all its assets, which total in excess of $80,000, and assume all liabilities, which are about $7,000.

The two steamers, the Conveyor and the Operator, owned by Foley, Welch & Stewart, which used to be run on the Skeena river, but now on the Fraser, after the G. T. P. constuction may be moved to the Peace river. At present the Peace river district is attracting a great deal of attention.

The New York Central railway company is suing August Fritzner, weight 350 ponnds, for the price of double fare from New York to New Orleanes. The company alleges that Fitzner, on account of his huge size, ocupied the whole seat of a Pullman car when the ticket only entitled hem to half a seat.

Bears are causing so much trouble at the Inland Empire mine near Paulson that Frank Pearce, the manager, is allowing the employees their time to go out and hunt. Raids on pigs and poultry at the mine caused Mr. Pearce to take this step. Two silver bears, each weighing 400 pounds, have already been killed there.

Miners who have worked the beach sands at Nome for gold, think it likely that the storm that half destroyed the northern city drove ashore gold bearing sands that will more than pay for the damage done. After each big storm miners pan the new sand that has been cast up. The bottom of the sea in front of Nome is rich in gold, but no method of working it has been successful.

What is said to be the first instance in British Columbia, and the second in Conada, where a Doukhobor has been legally married, occurred in Grand Forks on October 15th, says the Gazette. The groom is a Russian resident of the valley, but not a Doukhobor, while the woman was formerly a member of and was married in the Doukhobor colony, but left the colony a year or two ago.

On January 8th at Nelson there will he a legal hanging, when Bruno Cutri, an Italian, will pay the death penalty for the murder of a fellow countryman over in East Kootenay last summer. So far in the history of Nelson there have only been three hangings. The last was Henry Rose, who in 1902 murdered a companion on the Arrow lakes. The other two were Doyle, who killed a man at Kuskanook in 1898, and Woods, who killed a mon by the same name in Nelson in 1897.

Rule of the Road

The recommendation of the grand jury at Vancouver that vehicles shall keep to the right side of the road instead of the left, will meet with general approval in British Columbia. In every other province of the Dominion as well as in the United States vehicles take to the right side, and people coming from the east and the south, constituting as they do the greater part of the influx to this province, are constantly endangered because of their unfamiliarity with our road rules. There is absolutely no reason why the present custom should be retained. It was imported from the old country and is at varience with that of every other part of this continent. It tends to endless confusion and not the least important reason for its abolition is the fact that drivers of motor cars, which, owing to their speed, are the greatest danger on our streets, are almost a unit in favor of the change. —Vancouver Sun.

Lalonde in Business

A despatch from Montreal says that "Newsy" Lalonde, the well known French-Canadian hockey and lacrosse player, has definitely decided to go into business in that city. He will become proprietor of a haberdashery store. This will settle the question of whether Lalonde is coming back to the coast or not. Although he is the property of the Patricks at Vancouver, it is said he absolutely refuses to play for them, preferring to play with the Canadiens.

Note the dressy appearance of these Penman Sweater Coats

It drapes the figure as *gracefully* as a custom tailored garment because *knit-to-form* —knit with *exacting* care to fit the varying physical types of men, women and children.

Local and General

T. H. Roberts left for Spokane Monday.

Mrs. F. Ohman is in Spokane on a short visit.

H. R. Townsend was over from Rossland on Tuesday.

Mrs. John Hallberg left on Monday's train for Spokane.

Mrs. John Walters left on a trip to Spokane the first of the week.

Mrs. Jos. Ingram returned to her home in Grand Forks Saturday.

Mrs. Herb Sawrey paid a visit to friends in Grand Forks this week.

Wanted—Plymouth Rock hens. Will buy twelve. Apply, box 156.

Al. Almstrom has started a circulating library. Call in for particulars.

H. M. Lang, a former Phoenician, arrived in town Friday from Saskatoon.

Mrs. H. Brooks and family left Tuesday for Oroville, where they will now reside.

Mrs. Ab. Hillier, accompanied by her son, and Mrs. John Hanna left Monday for Rossland.

J. J. Beckett, who is employed at the Granby smelter at Grand Forks, was in town Thursday evening.

A telephone system is being installed between Christina lake hotel and Cascade, the poles being already in place.

Elmer Ness, proprietor of the Christina lake hotel, arrived in town on Thursday, accompanied by John Fiva.

D. L. McElroy and Robt. Forshaw announce that on and after Nov. 1st, Tamarac and Fir wood will be $6 per cord.

N. J. Deichert, proprietor of the Phoenix Club, is now confined to his bed suffering from a severe attack of la grippe.

Lost—A wallet containing some cash. Finder can keep the cash if he will return the wallet to box 117, Phoenix.

F. Kiser of Spokane spent a few days with his daughter and son-in-law, Mr. and Mrs. D. J. McDonald, and returned home Tuesday.

E. Evans, government mine inspector, was in the Phoenix camp the first of the week making an inspection of the varous mine workings.

M. V. Grbich, district organizer of the Western Federation of Miners, left the first of the week for a trip through Washington and Idaho.

Mrs. J Coutts returned to Grand Forks this morning after spending the week with her daughters, Mrs. James Marshall and Mrs. O. D. Bush.

Remember the date of Dr. Taube's visit to Quance's drug store, Friday, Nov. 14, and if there is anything wrong with your eyesight, do not fail to consult him.

Eighty-five per cent of headaches are caused through eye strain, so if you are troubled that way, do not fail to consult Dr. S. L. Taube, at Quance's drug store on Friday, Nov. 14.

Silas Smith and Ernest Nicholson were out hunting the first of the week on Cedar Creek on the main Kettle river. They brought home six deer, making the first large bunch to be brought in this season.

M. A. Pasco has taken over the restaurant in connection with the King's Hotel, and opened the place for business today. Mr. Pasco is an experienced caterer, and is bound to make a success of his undertaking.

The Juvenile Bostonians played to a good house Wednesday evening. This company has been on the road for several years and have made frequent trips through the Boundary. The "Princess Chic" proved a very creditable production.

D. McDougall, an old Phoenix resident and property holder, returned Monday from the east, where he has been for several weeks on a visit. After spending a few days in town he again left for Hidden Creek, where he will work for the Granby company on their new smelter.

The Great Northern train was two hours late Wednesday evening pulling into Phoenix. The delay was caused by some of the cars in an ore train getting off the track near Spencer, and it was necessary for the passenger train to use the C. P. R. line to get around the wreck.

The Phoenix Miners' Union are making every endeavor to please the patrons of their shows, and also those who rent their hall and lodge room. Just now they are installing two large hot air furnaces, each with a capacity of 60,000 feet of air. This will insure a good warm building throughout during the coming winter months.

A real treat will be offered to our patrons Saturday night, when we will show our special hand colored three reel feature, "Nobility." It is made by the Pathe company, who are the recognized leaders in photo plays today. A good drama with a moral. It will please all. We have a program with a good comedy entitled, "Found Out at Last." Admission 15 and 5 cents.

At the meeting of Snowshoe Lodge No. 46, I.O.O.F., next Monday evening, Nov. 3rd, there will be a roll call of the members, and those who are not there in person to answer are supposed to write a letter, which will be read at the lodge. The Rebekah branch of the order will serve refreshments, and there will be dancing the latter part of the evening. Only members of the order are invited.

Minimum Wage for Girls

William Christianson, manager of a 5, 10 and 15 cent store at Victoria, has given evidence before the labor commission regarding the working condition of girls in such stores. Commissioner McKelvie charged that the girls in these stores were not being paid a living wage. The contention of the witness was that only inexperienced girls aged from 14 to 16 were employed.

They lived at home and being young were not worth more in earning power than the wages of $4.50 to $6.50 which they received. He denied that such wage conditions tended to immorality, claiming care was taken to get only those girls who lived with parents or relatives. When the commissioners suggested that a minimum of $12 per week for girls might be fixed, witness said that in such event these stores would employ older girls, and require them to possess salesmanship, while at present young clerks are not required to press the sale of goods.

Extra Municipal Wholesale Liquor Licence.

NOTICE.

NOTICE IS HEREBY GIVEN, that on the 25th day of November next application will be made to the Superintendent of Provincial Police for the grant of an Extra Municipal Wholesale Licence for the sale of liquor in and upon the premises known as the Phoenix Brewing Co., Ltd., Phoenix, B.C.

Dated this 25th day of Oct., 1913.

ALBERT BINER,
Phoenix Brewing Co., Ltd

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial? Especially if you could try it for fifty cents!

Peps is the discovery!

Peps are little tablets, neatly wrapped in air and germ-proof silver foil. They contain certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the capillaries and tiny air sacs in the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

Peps are entirely distinct from the old fashioned liquid cough cures, which are merely swallowed into the stomach, and never reach the lungs. Peps treatment of coughs and colds is direct treatment.

If you have not yet tried Peps, cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial package will then be sent you. All druggists and stores sell Peps at 50c. box.

PEPS

Eyesight

We have made arrangements with the Taube Optical Company of Vancouver and Calgary for their Eyesight specialist

DR. S. L. TAUBE

who has had forty-two years experience in the Optical Business, to be at our store on FRIDAY, NOVEMBER 14.

If there is anything wrong with your Eyesight do not fail to consult him.

All Work is Guaranteed absoluely as Tested.

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got THE NEW METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never loose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It may suppress the symptoms—our NEW METHOD cures all blood diseases.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our NEW METHOD TREATMENT will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—"Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.
