CARIBOO HAS BEEN LEASED

Secured by Syndicate of Phoenix Men.

Famous McKinney Dividend Payer Resumes Work.

This week a deal was made which, it is believed, is one of the most important that has taken place in the Boundary for some time past. This is nothing less than the acquisition by lease of the properties, machinery and stamp mill of the Cariboo-McKinney Mining & Milling Co., Ltd., of Toronto, by a syndicate of Phoenix men. The property is the well known Cariboo free gold mine, in Camp McKinney, situated some 30 miles west of Midway.

Negotiations for the lease have been carried on for some months with the officers of the company in Toronto, of which Robert Jaffray is president, and have only just been successfully completed. A force of men has already been sent to the property, to put the machinery in order and to begin pumping out the mine, preparatory to active operations. The lease was secured by Dr. R. B. Boucher, W. S. Mac, L. Y. Birnie and A. B. Hood and associates. A practical mining man of experience will be secured as superintendent and have charge of the operations to be conducted at the Cariboo.

History of the Cariboo.

Probably no mine in the Boundary has had a more checkered career than the Cariboo, with ups and downs the story of which would fill several columns. It is one of the oldest claims in the Boundary, has produced, according to official reports, more than \$1,000,000 worth of gold bullion, and has paid more than \$500,000 in dividends. Work was discontinued at the end of 1903, on the recommendation of the superintendent, and the more or less extensive underground workings allowed to fill with water, having remained that way for something like three years, or up to the present time, the property being in charge of a caretaker.

Old timers in Camp McKinney have always had great faith in the Cariboo, up to the time of closing the most successfully conducted property in that camp, and the only one which ever paid any thing back to its owners. Notwithstanding the closing of the mine, on the advice of those in charge, they believed that the property still had great possibilities as a gold producer. It is hardly necessary to state that the few old timers who have stayed with the camp, with their great faith, are not a little gratified to see operations once more being started on the most important property of them all.

Camp McKinney's discovery dates back to 1884, when two placer miners, Goerick and Runnels, came across the cappings on the Victoria and Old England mines. The camp, however, takes its name from a prospector, Al. McKinney, who three years later discovered and located the croppings of the new famous Cariboo vein, which stood out boldly to view, with the free gold plainly visible within. The property was worked more or less in the early nineties, the Butte and Boston Company having an option on it in 1894-5. George B. McAulay and J. P. Keane, of Spokane, and who had been operating in the Cover d'Alene, but were discouraged with the then prevailing low price of silver, became interested in the Cariboo, and it was worked more steadily, and it is understood, with no little profit. James Monaghan, of Spokane, was at one time the largest owner, and it is understood that his profits from the Cariboo put him on his feet in the hard times.

The first unit of the stamp mill was brought from the Rainbow mine, in Washington, and it is stated that the owners of the mine had difficulty in raising money enough to pay the duty on the machinery. This was soon arranged, however, as soon as the stamp mill was started in operation. From that time on the mine produced no small amount of gold, for a time losing the vein, and then finding it again after spending thousands of dollars in the search. Once it cost \$35,000 to find the faulted vein, but gold worth \$200,000 was the result.

The owning company has title to seven claims in Camp McKinney, being the Cariboo, Amelia, Okanagan, Alice, Emma, Maple Leaf and Sawtooth fraction, all adjoining. The property is fully equipped with all needed machinery, including a ten drill Rand air compressor, hoist, pumps, 20-stamp mill, consisting of four batteries of five stamps each, boilers, settlers, concentrating tables, etc. A maximum depth of 500 feet was attained in the shafts, with several thousand feet of workings at the several levels. Official reports covering the last four years of operation by the Cariboo company

gave the following interesting details: Ore stamped and milled, tons, 60,376
Bullion produced, oz., 38,878
Concentrates produced, tons, 2,077
Total values, realized, \$575,589

The average ore output of the Cariboo was in the neighborhood of 15,000 tons per year, values running from \$5.50 to \$10 per ton. From 40 to 50 men were employed at the property.

Munro-Dunlop Wedding.

A quiet wedding took place on Wednesday, at 2.30 p.m., at the residence of W. J. Prendergast, Oro Denoro, the contracting parties being Henry Alexander Munro, well known in Phoenix as the proprietor of the Skating rink, and Christina McLain Dunlop of Arnprior, Ontario, sister of Mrs. Prendergast. The bridegroom was assisted by J. Stuart Hudson, of Phoenix, and the bridesmaid was Miss Mary Backlund, of Medical Lake, Washington.

After the ceremony the party sat down to a substantial repast, after which Mr. and Mrs. Munro left by the C. P. R., while the mines tooted their whistles in honor of Denoro's first wedding, to spend their honeymoon in Spokane, intending to take up their residence on Granby place, Phoenix, on their return. Rev. C. Wellesley Whitaker, pastor of Phoenix Methodist Church, performed the ceremony.

OCTOBER HAD 94,860 TONS

Ore Output From Boundary Mines.

Ten Months' Record Nearly 1,000,000 Tons.

Notwithstanding the troubles at the Crow's Nest Pass Coal Co.'s coal mines, whence the bulk of smelter fuel supplies for this section were formerly secured, the ore output of Boundary mines for the month of October, was 94,860 tons larger than it was for the month of September. The September total was 92,311 tons, while October's record was 94,860 tons of ore. The Granby sent out some 6,000 tons less than the previous month and the Snowshoe contributed very little, but the B. C. Copper Co. is once more on the list with 12,120 tons to its credit, and Dominion Copper Co. beat September by 1,200 tons. In detail, the figures for the several individual mines for October, as reported to the Phoenix Pioneer were as follows:

MINES.	TONS.
Granby Consolidated.....	62,335
Snowshoe.....	680
B. C. Copper Co.....	
Mother Lode.....	10,620
Emma.....	855
B. C. Mine.....	645
	12,120
Dominion Copper Co.:	
Brooklyn-Stem.....	11,941
Idaho.....	285
Rawhide.....	4,003
Sunset.....	3,206
Mountain Rose.....	390
	19,825

High Grade mines:	
Providence.....	60
Skylark.....	20
Strathmore.....	60
Carmi (concentrates).....	30
Duncan.....	30
October total.....	94,860

Ten Months' Record.

Herewith is appended a table showing the tonnage output of Boundary mines for 1906, by months for the first ten months of the year, for purposes of comparison:

MONTH.	1906
January.....	104,378
February.....	105,429
March.....	112,638
April.....	107,798
May.....	100,694
June.....	102,580
July.....	83,343
August.....	92,442
September.....	92,311
October.....	94,860

Total for 10 months..... 996,482

Boundary Customs Receipts.

R. R. Gilpin, customs officer at Grand Forks, makes the following detailed report of the customs receipts at the various Boundary sub-customs offices, as reported for the month of October:

Greenwood.....	\$5,063 23
Phoenix.....	1,868 67
Grand Forks.....	3,296 67
Midway.....	5,551 59
Cascade.....	191 68
Sidley.....	174 85
Keremeos.....	23 20
Osoyoos.....	20 71
Carson.....	48 60
Total.....	\$16,239 00

McRae Bros. & Smith, Ltd., are beginning to get their Holiday goods in shape.

G. N. HAS ITS OWN TROUBLES

To Get Coal to Haul Ore, Coke, Etc.

Impasse at Coal Strike Centre Continues.

The present shortage of coal, due to the existing strike of coal miners in the Crow's Nest Pass Coal Co.'s collieries, in East Kootenay, now in the seventh week, is beginning to affect the Great Northern railway, as well as the Trail and Northport smelters, and other smelters to some extent. The Great Northern has, it is said, thousands of tons of eastern coke on the road for the Granby smelter, that it finds the greatest difficulty to haul, on account of shortage of steam coal. In addition, there are thousands of cars of general merchandise tied up all over the system for the same reason. The coal now being used in this district comes from Sand Coulee, Montana, but it is poor, and there is not enough of it.

For the last week the Granby smelter has had its troubles even in hauling ore from Phoenix, because of lack of steam coal. Last week Friday, the G. N. did not take a ton of ore out of Phoenix, and the same thing has happened this week. Not being able to get even the expensive eastern coke to the Granby smelter promptly, at one time four of the eight furnaces were banked or blown out, to be blown in again in a few days. Six furnaces have been running part of the time this week.

The C. P. R. seems to be able to get along better than the G. N. for steam coal, probably for the reason that the C. P. R. has a number of other sources of supply in the Kootenays that the G. N. does not reach.

Strikers Still Hold Out.

For eight or ten days there were conferences between Manager Lindsay, of the Crow's Nest Co., and National Board Member Burke, of the United Mine Workers of America, at Fernie, but on Tuesday it was announced that the negotiations did not produce a basis of settlement, and the strike still continues.

Divested of all frills, it has practically come down to the question of the "closed shop" or "open shop" policy at Fernie, the men standing for the former, and the management for the latter, with neither willing to make concessions. One thing seems pretty sure, and that is that shareholders and directors want results in the shape of dividends, and they are not getting them under management of G. G. S. Lindsay, of Fernie. When they get tired of waiting, Mr. Lindsay will be told, in the language of the street, "Skidoo 23," and a man who can secure results will succeed him, one who can get along with the coal miners, difficult as that task seems to be.

BLOWN TO PIECES AT THE GOLD DROP

Charles Hedberg Tamped the Powder Too Hard.

About midnight Tuesday Charles Hedberg was blown to pieces at the Gold Drop mine by a premature explosion, while his working partner, Peterson, next to him, miraculously escaped without a scratch. Hedberg had been working in the camp for several years. Was a young man of 25 years and unmarried.

A round of holes had been drilled in the drift from the tunnel, about 300 feet from the entrance, and one hole had been loaded. The second hole was being loaded by Hedberg, he having put in seven sticks of powder. While he was tamping the powder down, Peterson warned him that he was doing it too hard and that it was dangerous. Just then Peterson stooped to get the eighth stick, with fuse and cap, and the explosion took place, instantly killing Hedberg and blowing him over Peterson. The unfortunate man was badly mangled in the explosion.

Wednesday afternoon a jury was empanelled by the Coroner A. S. Black, consisting of the following: David Oxley, J. F. Jones, Ed. Brown, David Spence, Angus Nicholson and John Manning. After hearing the evidence of Peterson and foreman John Swanson, the jury returned a verdict of accidental death from a premature explosion at the Gold Drop mine.

The funeral of Hedberg was held Thursday afternoon under the auspices of Phoenix Miners' Union No. 8, of which deceased was a member in good standing, the burial taking place in the Phoenix city cemetery.

Latest Prices in Metals.

New York—Copper, electrolytic, 22-1/2 @ \$22.00; lake, 22-1/2 @ \$22.00.
Bar Silver, 71 1/2
Lead, 16 1/2 to 16 5/8

Boundary Mining Notes

Ore is being received at the Boundary Falls smelter from the Oversight mine on the American side.

A strike of no little importance is reported from the Mavis mine, adjoining the Bay, and which is believed to have the rich Bay lead.

Monday night the building and seven drill compressor at the B. C. Copper Co.'s Oro Denoro mine, Summit camp, was burned to the ground.

During October, 48,010 shares of Dominion Copper were traded in on the New York curb. High was \$7.50, low was \$5.25, and last sale was at \$6.

Ore was sent out from the Idaho mine again this week, after a cessation to permit the filling of the Dominion avenue glory hole with waste from the Idaho ore bins.

Last week Friday four furnaces were blown out at the Granby smelter, owing to the shortage of coke which was expected from the east. Early this week two furnaces were blown in again, and by today two more are expected to be operated, making the full battery of eight, if coke is not again short.

J. A. McMaster, of this city, has taken a bond on the Mountain Chief group, in Franklin camp, consisting of the Mountain Chief, Mountain Chief fraction and Victoria claims, which have an excellent copper showing. The vendors are Patrick Maginnis, Donald Matheson and J. C. Henderson. The bond is for eighteen months, and active development will be started in the spring, the property being located near the well known Gloucester mine.

E. H. Thurston, chief owner of the Carmi mine, in the West Fork district, who recently closed the property, has given a lease and bond on the mine to George H. Williams and Julius Erlich, of Greenwood. Mr. Williams was formerly superintendent of the B. C. Copper Co.'s smelter at Greenwood, while Mr. Erlich is well known throughout the Boundary. The Carmi mine is reputed to be one of the best properties in the West Fork section, and the lessees are now equipping it with whatever additional machinery may be necessary, and will systematically develop the mine.

New Minister for St. John's.

The bishop has appointed a new minister for St. John's church of England in Phoenix, Rev. R. A. Heath, formerly of West Plains, Missouri. Mr. Heath, accompanied by his wife, arrived here Thursday, and will have charge of the church services tomorrow, at which Rev. Archdeacon Beer, of Kaslo, will also be present and take part. Regular services will be held at the church tomorrow morning at 11 o'clock, at which Holy Communion will be dispensed, there also being preaching services in the evening at 7:30 o'clock. All churchmen and others interested are heartily invited to be present.

BOUNDARY DIVIDENDS.

NAME OF COMPANY.		AUTHORIZED CAPITAL.	ISSUED
Cariboo-McKinney—gold	\$ 3,750,000	1,750,000	
Granby Consolidated—copper	15,000,000	1,435,000	
Providence—silver	200,000	31,000	

BOUNDARY ORE TONNAGE.

The following table gives the ore shipments of Boundary mines for 1906, for 1905, for 1904, for 1903, for 1902, for 1901, for 1900, for 1899, for 1898, for 1897, for 1896, for 1895, for 1894, for 1893, for 1892, for 1891, for 1890, for 1889, for 1888, for 1887, for 1886, for 1885, for 1884, for 1883, for 1882, for 1881, for 1880, for 1879, for 1878, for 1877, for 1876, for 1875, for 1874, for 1873, for 1872, for 1871, for 1870, for 1869, for 1868, for 1867, for 1866, for 1865, for 1864, for 1863, for 1862, for 1861, for 1860, for 1859, for 1858, for 1857, for 1856, for 1855, for 1854, for 1853, for 1852, for 1851, for 1850, for 1849, for 1848, for 1847, for 1846, for 1845, for 1844, for 1843, for 1842, for 1841, for 1840, for 1839, for 1838, for 1837, for 1836, for 1835, for 1834, for 1833, for 1832, for 1831, for 1830, for 1829, for 1828, for 1827, for 1826, for 1825, for 1824, for 1823, for 1822, for 1821, for 1820, for 1819, for 1818, for 1817, for 1816, for 1815, for 1814, for 1813, for 1812, for 1811, for 1810, for 1809, for 1808, for 1807, for 1806, for 1805, for 1804, for 1803, for 1802, for 1801, for 1800, for 1799, for 1798, for 1797, for 1796, for 1795, for 1794, for 1793, for 1792, for 1791, for 1790, for 1789, for 1788, for 1787, for 1786, for 1785, for 1784, for 1783, for 1782, for 1781, for 1780, for 1779, for 1778, for 1777, for 1776, for 1775, for 1774, for 1773, for 1772, for 1771, for 1770, for 1769, for 1768, for 1767, for 1766, for 1765, for 1764, for 1763, for 1762, for 1761, for 1760, for 1759, for 1758, for 1757, for 1756, for 1755, for 1754, for 1753, for 1752, for 1751, for 1750, for 1749, for 1748, for 1747, for 1746, for 1745, for 1744, for 1743, for 1742, for 1741, for 1740, for 1739, for 1738, for 1737, for 1736, for 1735, for 1734, for 1733, for 1732, for 1731, for 1730, for 1729, for 1728, for 1727, for 1726, for 1725, for 1724, for 1723, for 1722, for 1721, for 1720, for 1719, for 1718, for 1717, for 1716, for 1715, for 1714, for 1713, for 1712, for 1711, for 1710, for 1709, for 1708, for 1707, for 1706, for 1705, for 1704, for 1703, for 1702, for 1701, for 1700, for 1699, for 1698, for 1697, for 1696, for 1695, for 1694, for 1693, for 1692, for 1691, for 1690, for 1689, for 1688, for 1687, for 1686, for 1685, for 1684, for 1683, for 1682, for 1681, for 1680, for 1679, for 1678, for 1677, for 1676, for 1675, for 1674, for 1673, for 1672, for 1671, for 1670, for 1669, for 1668, for 1667, for 1666, for 1665, for 1664, for 1663, for 1662, for 1661, for 1660, for 1659, for 1658, for 1657, for 1656, for 1655, for 1654, for 1653, for 1652, for 1651, for 1650, for 1649, for 1648, for 1647, for 1646, for 1645, for 1644, for 1643, for 1642, for 1641, for 1640, for 1639, for 1638, for 1637, for 1636, for 1635, for 1634, for 1633, for 1632, for 1631, for 1630, for 1629, for 1628, for 1627, for 1626, for 1625, for 1624, for 1623, for 1622, for 1621, for 1620, for 1619, for 1618, for 1617, for 1616, for 1615, for 1614, for Pioneer's Fourth Annual.

More than three years ago the Pioneer undertook the more or less formidable task of publishing an annual or Holiday Number, fully illustrated, in book form. It is a matter of newspaper history now how success was achieved with that number, from a publicity standpoint, if from no other. Each succeeding year a number of this kind has been issued, and was kindly received and liberally patronized by those most interested in the upbuilding of the Boundary district. If the publisher did not grow rich from these issues, he had the satisfaction of knowing that his efforts to make the Boundary more widely known were appreciated, and it is quite within the bounds of reason to state that the Boundary is better and more favorably known on this account.

If such an elaborate publication was worth while and accomplished effective work then, how much more room there is for another and better number this year, with the accomplishment of profit paying mining operations in the Boundary.

Accordingly, about Christmas time, the Pioneer's Fourth Annual will make its appearance, and we believe that we are justified in promising a better and more complete publication than has yet appeared, even from the power presses of the Pioneer. While last year, we undertook to publish 3,000 copies of the Holiday Number, this year the edition will be 5,000, and will thoroughly cover the mining and smelting industries of the Boundary. For this number we are now having made scores of new half-tone engravings, and no effort will be spared to make the text as reliable and accurate as possible under the circumstances. While this Holiday Number will cost more to issue than previous numbers, the price of copies, 25 cents each, will be the same. Those who desire to secure copies will do well to place their orders in advance, as it is next to certain that the entire edition will be spoken for before the last form is off the presses.

In this connection the manager of the Pioneer will be glad to receive good photographs, clearly printed and well finished, of mining, smelting or other scenes of general interest in the Boundary, with a view to reproducing them in the Holiday Number. Such photographs, however, should be sent to this

office at once, as the plans for publication are now well matured and the mechanical work will be started next week.

Chapped Hands.

Wash your hands with warm water, dry with towel and apply Chamberlain's Salve just before going to bed, and a speedy cure is certain. The salve is also invaluable for sore nipples, itching piles and skin diseases. For sale by all druggists.

PROVINCIAL.

A board of trade is being formed in the Nicola Valley.

The Bank of Montreal has opened a branch at Summerland.

Silverton, on Slokan lake, has four large producing mines and other ships.

Kaslo has sent five boxes of locally grown apples and pears to the Colonial Exhibition which will be held in London in December.

A proclamation appears in the B.C. Gazette calling the attention of all loyal subjects to the King's Birthday, on November 9th, 1907, as a day of celebration thereof.

Some time next month the C. P. R. expects to operate trains from St. Paul to Spokane via the Soo line, C. P. R. and the new Spokane and International, or Corbin line, which is just being completed.

Hoping for Better Postal Service.

In a recent public address, Hon. Mr. Aylesworth is reported by the Toronto Globe as saying: "Mr. Aylesworth took occasion to refer to the splendid surplus in the postoffice department, and intimated that he believed his Ministerial colleagues had under careful investigation the whole situation with the hope of giving back to the people of Canada much of that money in the way of better service, better postal delivery and better salaries."

That's just what the people want and expect and the sooner the policy is adopted the better for the people.—Lethbridge Herald.

In Time of Peace.

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds, and it should be kept at hand ready for instant use. For sale by all druggists.

Travelling in Pairs.

Mr. J. A. McDonald and Mr. Dun-can Ross have been travelling in pairs through the Similkameen district again, this time addressing meetings on the political issues of the day. We are informed by the local organ of the opposition that they were greeted with thunderous applause at almost every point where they deigned to address the electors. This is good news, but it is overshadowed and chilled by the probable fact that not one of the enthusiastic electors knew what those spellbinders were talking about. According to the local organ, Liberals do not understand political speeches, and it is now up to some authority to tell us who directed these Similkameen people when to shout.—Nelson Canadian.

SELLS MORE OF CHAMBERLAIN'S

Cough Remedy Than of All the Others Put Together.

Mr. Thomas George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines I have on my shelves put together. Of the many dozen sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by all druggists.

REPORT ON OUR ZINC RESOURCES

Summary of Work of the Commission.

The investigation of the zinc resources of B.C. was undertaken in response from petitions from the Silver-lead Association and the Associated Boards of Trade of British Columbia. The work was divided amongst the most experienced men that could be obtained and the investigation was intended to cover the following points:

(1) The examination of the present development of mines to determine the tonnage of zinc ore immediately available; its occurrence and character and the future prospects, together with the cost of mining. (2) Examination of the present methods of milling. (3) Investigation of the adaptability of the ores to the new methods of concentration (magnetic, electric, etc.) (4) The study of conditions affecting the marketing of the concentrates, including the question of smelting in the province or elsewhere in Canada. (5) The investigation of the possibility of the special utilization of the zinc ore if of high silver content.

It was found that zinc in large commercial quantities could be produced in B.C. With respect to the occurrence and character of zinc ores these have, in every case, been carefully examined and described in detail. The report is accompanied by plates illustrating their geological features. The future prospects of milling are that correct methods of treatment must be adapted for the different classes of ore and that by observance of the suggestions made by the commission, a stable zinc industry will be established. The cost of mining in every possible case was determined and amounted to \$2.50 per ton of raw material taken out in two of the largest mines; this sum includes general and engineering expenses.

The proper method for milling of each class of ore is clearly set forth in the report and if closely followed will enable these non-producers to resume operations at a profit. Several schemes for milling with best appliances are also enumerated. It was found possible to produce zinc concentrate assaying upwards of 40 per cent zinc and sometimes 50 per cent zinc. Up to 1905 the production of zinc ore in B.C. was approximately 11,000 tons which was chiefly exported to the United States. Since the establishment of Canadian smelting works at Alberta, Canada has entered the market for these ores.

The question of smelting in British Columbia or elsewhere in Canada is minutely treated in the report. B.C. is the better situated because coal can be produced for about \$1.50 per ton; one ton of ore requiring two tons of coal for smelting. It was demonstrated that zinc ore smelting is commercially fashionable in Canada. The report, dealing as it does with the metallurgy of zinc, is the only one of its kind in existence and is already recognized as a high authority on these subjects. The demand for copies of this volume has been enormous. It consists of 378 pages, beautifully illustrated with maps and pictures and with reports by the leading mining experts of today.

Group.

A reliable medicine and one that should always be kept in the home for immediate use is Chamberlain's Cough Remedy. It will prevent the attack if given as soon as the child becomes hoarse, or even after the croupy cough appears. For sale by all druggists.

A Puzzle.

Here is a puzzle that puzzles everybody. Take the number of your living brothers, double the amount, add to it three, multiply it by five, add to it the number of your living sisters, multiply the result by ten; add the number of deaths of brothers and subtract 150 from the result. The right figure will be the number of deaths of brothers, the middle the number of living sisters and the left the number of living brothers. Try it and see.

Yes, Think of It.

Printers' ink is one of the great causes of the prosperity in the west. Without the printer little would as yet have been known about our wonderful resources. Think of this when the editor strikes you for an ad.—Greenwood Ledger.

Rooms to let over Morrin, Thompson & Co's. Entrance next door to post office.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all cases of the lung passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell.

SHILOH
This remedy should be in every household.

This is style 340, for women—dull kid top, vamp of polished calf, roomy toe, new Cuban heel and arch, rising and falling toe. Sensible but Stylish. GOODYEAR PROCESS.

PRICE PROTECTION

What's to prevent a retail dealer who sells a not-priced shoe from sizing you up as a well dressed prosperous person and charge you \$6.50, or \$5.50, or \$4.50 for a \$3.50 shoe? Never thought of that, did you.

Nothing! You can't tell whether a dealer should charge you \$3.50 or \$6.50. Even if you were an expert you couldn't tell, as all shoes look alike when painted and polished. Paint and polish veneer cover up a multitude of shoe sins.

There's but one way you can prevent the dealer from overcharging you. There's but one way for you to know that you're paying the right price. That way is to buy a Slater in an authorized and chartered Slater Shoe Store or Agency.

That store is bound by contract to sell genuine Slater Shoes and to sell them at not one cent higher, nor one cent lower than, \$3.50 and \$4.00, for women and \$4.00 and \$5.00 for men.

Besides, the price is labelled on the lining of each and every Slater Shoe.

Moreover, our advertisements proclaim from the house tops that the price of Slater Shoes is \$3.50 and \$4.00 for women and \$4.00 and \$5.00 for men.

You've absolute Price Protection in the Slater Shoe. Costs a dollar less than the best American makes, and is precisely the same shoe. For men and women.

HUNTER-KENDRICK CO., LIMITED, EXCLUSIVE AGENTS, PHOENIX, B. C.

THE OBSERVATORY

THINGS TALKED OF AT HOME AND ELSEWHERE

John D. Rockefeller has made a gift of \$75,000 to the Baptist Home Missionary Society towards the rebuilding of churches destroyed in the San Francisco earthquake, and we may now expect the price of oil to be moved up a peg.

R. C. Campbell-Johnson, an English mining engineer, will be remembered by many old timers in the Slokan, having operated in that section when things were booming with the white metal. Later he was in the Boundary for some months, but he continued west, and lately has made headquarters in the Nicola district. There it is reported he has succeeded in interesting the Guggenheim interests in the I. X. L. group of claims on Ten Mile creek.

Here is a bit of philosophy, from an exchange, that is worth reading twice:

Do not get it into your head that you are to slave out your life for the sole purpose of accumulating all the money you can possibly lay your hands on. No, mix it up with work and rest, making and spending, help yourself and help the other fellow. That is the well rounded life.

Mayor Mowat of Kingston says the militia department is the most stupidly managed in the public service. If he came out west he would soon change his mind and present his adjectives to the postoffice department.

Cut this out and take it to any drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. For biliousness and constipation they are unequalled. They improve the appetite, strengthen the digestion and regulate the liver and bowels.

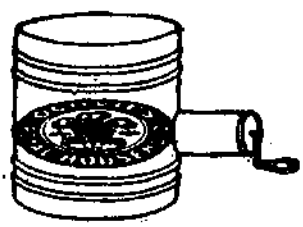

B. C. MINING

The Diamond Vale Coal Co. are busy drilling on their property at Nicola.

The new Heberlein roaster at the Hall Mines smelter has been installed, thus placing a valuable adjunct at the service of the smelter in its pursuit of economical reduction of ores.

"Saucy Sally" is the name chosen by Arthur E. Hepburn, engineer for the Guggenheim Exploration Co., for that corporation's large holdings on Guichon Creek in Upper Nicola. The group is three miles long and a mile wide, aggregating nearly forty full sized mineral claims.

J. J. Campbell, of the Nelson smelter, acting also, it is understood, for P. S. Coudrey, of LeRoi No. 2, Rossland, and R. Eslinger, of Spokane, owning a controlling interest in the Hewitt, has bought a half interest in the Lorna Doona and three other properties on Slokan Lake, adjoining the Hewitt and Vancouver group, lately acquired by Coudrey.

It takes more than modern machinery to produce good flour. It is the care used in selecting the wheat before it is ground and the searching tests of expert chemists afterwards that give

Royal Household Flour

its nutritious qualities, its purity and its uniform goodness. In its preparation no process tending to improve its quality is omitted or slighted. Tell your grocer that you want Royal Household because the makers guarantee it.

REPORT ON EMMA MINE

At Annual Meeting of Hall Mining & Smelting Co.

Average Values Obtained were \$4.77 Per ton.

The annual general meeting of the Hall Mining & Smelting company was held in London, England, on Monday, October 29. J. J. Campbell, the business manager, in the course of his report, had the following to say about the Emma Mine, Summit Camp, in which the company has one-quarter interest:

Emma Mine.—The British Columbia Copper company, who own a three-quarters interest in this property, have continued in charge of the operations under their agreement with us.

There has been much disappointment in getting electrical power for operating this mine, and it is not now expected until November 1, the power company not being able to secure delivery of the necessary copper wire for transmission. Operations have been consequently hampered, and it was found necessary to install a temporary steam-driven compressor plant to supplement the power from the Oro Lenora plant. This temporary plant was provided by the British Columbia Copper company from their Mother Lode mine and their smelter, and the cost of installation has been charged to working expenses.

The new plant has been installed ready for the electrical power. It consists of a 200 h. p. 2200-volt Westinghouse motor, an 8x10 Lidgerwood hoist, and a compound belt-driven Rand air compressor with Corliss valve-gear, capacity 1400 feet of air per minute.

The policy has been to use as much as possible of the limited available power upon development work, at the same time shipping enough ore to supply the needs of the British Columbia Copper company's smelter and our own. Much of the ore so shipped was from No. 1 tunnel, which entered the ore body a short distance from the shaft and has been driven altogether in ore since, to a distance of 387 feet from the shaft. As the tunnel was driven the ore was extracted for the full width of the vein excepting for about 50 feet, where on account of the ore containing a higher percentage of lime than usual, it was desirable to leave it until shipments were increased. The vein is about 20 feet wide until it reaches this point, then for about 50 feet the width has not been determined, and for the last 60 feet of the tunnel it has been from 30 to 35 feet wide, the whole width of the vein being magnetite carrying about 1 per cent copper, gold and silver to the value of about \$1.00; 45 per cent metallic iron, about 15 per cent lime, and 12 per cent silica, and worth at the mine at present about \$5 per ton. Some ore has been taken from the upper stopes, and about 8000 tons are broken in the stopes ready to be drawn off into the tunnel when required.

The sinking of the shaft has been continued, and it is now 272 feet from the collar to the bottom. No. 2 tunnel will soon be started from a point 250 feet below the collar, giving about 90 feet vertical depth between the two tunnels.

The British Columbia Copper company has nearly finished extensive additions to its smelting plant which will give it a capacity of about 1500 tons daily, so that its requirements of Emma ore will be much increased though the extent to which this will be the case will depend upon the analysis of the ores received from the other mines.

The new plant will admit of an output of about 400 tons daily, and I think it probable that 50,000 tons will be disposed of during the current financial year. The past year has been one of development and equipment, and during it the mine has very greatly increased in value, and we may now look for regular profits from it.

Owing to various causes the proposed prospecting work on the Jumbo claim in the Emma group has not been done, but it is hoped that it will not be much longer deferred.

Mountain Rose.—Our co-owners in this claim, the Dominion Copper company, shipped to their smelter during the year 846 tons of this ore, and have now finished driving a tunnel cutting the vein 50 feet below the tunnel driven by us. The ore there is the same as above and the vein is about 15 feet wide.

The ground under No. 1 tunnel has been prospected by three diamond drill holes from the bottom of that tunnel. One at an angle of 70 degrees west passed out of the ore at about 20 feet, a vertical hole did the same, and a hole at an angle of 70 degrees east continued in ore for 40 feet, indicating that the vein had again faulted to the east.

No. 1 tunnel has about 300 feet to go to come under the most northerly point, where we uncovered the vein on the surface, at which point we found the highest grade copper ore.

The shipments during the year have been: 2079 tons to the British Columbia Copper Company. 1025 tons to the Granby Consolidated Mining, Smelting and Power Company, Ltd. 8060 tons to the Hall Mining and Smelting Company, Ltd.

A total of 11,164 tons, with a value of \$53,229, or an average of \$4.77 per ton.

FOUND RELIEF BY TAKING PE-RU-NA

Suffered Thirteen Years With Pelvic Troubles, Unable to Find Relief.

AN OPERATION ADVOCATED.

Pe-ru-na, Taken as a Last Resort, Brings Health and Strength.

ANNA MUNDEN, Brinkley, Ark., writes:

"I suffered with female troubles for thirteen years, and tried the best doctors in Louisville, Ky., without relief. I spent thousands of dollars at the Springs."

"The doctors desired that I have an operation performed to remove my ovaries, which I would not consent to. I saw an advertisement of your Pe-ru-na and bought one bottle and before I had taken it all I could get out of bed and walk about."

"After taking three bottles I was as well and hearty as ever."

"I gained in flesh. From 118 I increased to 180 pounds."

"If it had not been for your great and wonderful medicine, I would now be in my grave."

"I would advise all women sufferers to try it."

"I would not be without it for the world."

A WOMAN'S LETTER TO WOMEN.

Mrs. Caroline Kramer, Fort Collins, Col., writes:

"The majority of women who are suffering from disordered periods and other troubles, have such strong faith in doctors that they allow them to experiment on them for kidney, liver, or stomach troubles, until they become discouraged and their money is gone."

"This was my unfortunate experience for nearly two years, when my attention was called to Pe-ru-na."

"I hardly dared believe that at last I had found the right medicine, but as I kept on using it and was finally cured I could only thank God and take courage."

"I have had most satisfying results from the use of your medicine and have advised dozens of women who were suffering with women's ailments to use Pe-ru-na and let the doctors alone, and those who have followed my advice are better today and many are fully restored to health."

THE COPPER HANDBOOK

A practical book of nearly a thousand pages, useful to all and necessary to most men engaged in any branch of the Copper Industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the every-day man.

It is a dozen books in one, covering the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper.

It gives the plain facts in plain English without fear or favor. It lists and describes 3,849 copper mines and companies, in all parts of the world, descriptions running from two lines to 12 pages, according to importance of the property.

The COPPER HANDBOOK is conceded to be the

World's Standard Reference Book on Copper

The miner needs the book for the facts it gives him about mines, mining and metal.

The investor needs the book for the facts it gives him about Mining Investments and Copper Statistics. Hundreds of Swindling Companies are exposed in plain English.

Price is \$5 in Buckram, with gilt top; \$7.50 in full library morocco. Will be sent fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

In and Around Phoenix

BRIEF TOPICS OF LOCAL AND GENERAL INTEREST TO PHOENICIANS.

Dr. Mathison, dentist. Don't forget Boyle is the Druggist. Hannam's milk suffers no addition or subtraction.

New and second hand goods sold by R. J. Gardner.

Prescriptions properly prepared by Boyle, the Druggist.

Woodchoppers wanted. Inquire of J. J. Bassett, Hartford Junction.

Next Monday the Phoenix Socialist League will give its second annual ball at Miners' Union hall.

Fifty-five names were added to the civic voters' list last week by the city clerk, who collected the \$2 road tax from each one.

A few inches of snow fell this week, bringing the first real touch of winter. Runners were in use Tuesday for the first time this season.

Thus far more than \$1,000 have been taken in by the city clerk in real estate taxes, since the notices were issued a few weeks ago.

On November 14th and 15th the Great Northern will sell round trip first-class tickets, Phoenix to Kansas City, good till December 14th, at \$55.10.

Considerable interest was shown locally in the results of last Tuesday's American elections, especially in the states of New York and Idaho, and returns were eagerly awaited.

Horses Wanted.—S. G. Stooke, of Midway, B. C., will be at McIntyre's stable on Thursday, November 14th. Send your horses out and have them well cared for. Terms, \$10.

Work was started this week on the painting of the new postoffice and custom house block. The completion of the building has been delayed by the non-arrival of the windows from Vernon.

On account of delay in receipt of some new fixtures, ordered some time ago from Montreal, Postmaster Matheson does not expect to be able to occupy the new postoffice building till some time in December.

On Thursday, November 29th, "The Deacon," a farce-comedy, will be given at the opera house, by the Phoenix Dramatic Club. No little interest is being taken in the entertainment, and it bids fair to be well worth while to the amusement lovers.

A bunch of Italians mixed up in a cutting scraps in the lower end of the city, and several of them landed in the city bastille, which held them safely this time. On being brought before Police Magistrate Williams on Tuesday, they were defended by Solicitor A. M. Whiteside, and given \$10 and costs by the bank.

The winter time table on the C. P. R. is expected to go into effect tomorrow, being the same as last winter in the Boundary, meaning that the passenger trains from Phoenix connect both ways at Eholt, thus giving good mail and passenger connections all over the Boundary district.

Seattle Times, November 4: Mr. and Mrs. Fogel entertained a large circle of friends at their home, 912 East Lynn street, last Sunday evening, to announce the engagement of their daughter, Esthe, to R. H. Karatofsky, of Phoenix, B. C. Mrs. Fogel was assisted in receiving by Mrs. A. Sultan and Mrs. I. Kay. Miss Fogel and Mr. Karatofsky will be married early in the spring.

Kid Parker who had a glove contest here a few weeks ago with Barney Mullin, is now in Spokane, and writes that he would like a go with the winner of the contest which may take place here next week. In the last go Parker was handicapped by a bad hand and by being lighter than Mullin, but no one has yet been found that did not think the contest was on the square and that they had their money's worth.

D. J. MATHESON HAS RESIGNED

City Clerk Wishes to be Relieved.

Mayor Rumberger and Aldermen Kane, Oxley, Brown and McKenzie were present at Wednesday's city council meeting, and the following accounts were ordered paid:

Morrin, Thompson & Co.,	\$36.31
C. P. R., freight,	24.00
Phoenix Electric Lighting Co.,	109.00
Phoenix Livery Stable,	5.00
Thomas Drug Co.,	1.75
J. N. Campbell,	3.75
Bank of Montreal,	203.80
Yale-Columbia Lumber Co.,	210.98
B. C. Telephone Co.,	12.30
Pioneer Pub. Co.,	13.00
J. P. McLeod,	33.60
M. H. Kane,	60.20
Hotel Brooklyn,	20.15
Total,	\$733.64

City Clerk Matheson read his own resignation, which was made to take effect December 31st, 1906. The council, however, deferred action on the matter. The board of works was instructed to see to laying sidewalks around the new postoffice building, and the request of Fire Chief Dockstader, for supplies, including sleighs for the fire hall, two five gallon fire extinguishers, etc., was complied with.

Boyle, the Druggist. Fresh eastern oysters at P. Burns.

Dr. Mathison, dentist, Bank Block, Nov. 10th to 14th, inclusive.

Water has been growing scarcer each week, especially in the neighborhood of Spion Kop.

Salma Jakrisan and Anna Kieri, of Phoenix, were married Saturday week at Greenwood, by Rev. M. D. McKee.

Duncan Ross, M. P., has presented what is known as the Checkahko cup for competition to the Hedley Rifle Association.

The fourth sermon in the series, Manhood in the Making, will be delivered Sunday evening, in the Methodist church. Subject, "Citizenship."

Today is payday for October at most of the mines of the Boundary. In Phoenix camp something like \$70,000 will be paid out in wages.

Next Wednesday, November 15th, is the last date on which city taxes can be paid this year to obtain advantage of the rebate for prompt settlement.

A Japanese and his wife billed the town last Saturday for a moving picture show at the opera house that night, depicting the Russo-Japanese war. Before the time came, however, they concluded not to give the entertainment, and left for Grand Forks.

Boundary Side Lights

Tenders are being asked at Grand Forks for the new bridge across the Kettle river at that point.

Grand Forks city council is going into the scavenger business, and will doubtless make it a profitable enterprise.

Last week the Greenwood Ledge appeared in enlarged form, each column being a couple of inches longer than before.

Close to a foot of snow is reported from Camp McKinney this week, where operations have been started at the Cariboo mine.

A Miners' union hall and reading room has been completed at Boundary Falls, and was opened this week with a ball Thursday evening.

The V. V. & E extension from Midway to Molson is now ready for passenger traffic, as soon as coal can be obtained for locomotives.

A party of Manitoba capitalists, who are interested in the Belcher mine, across the line, visited the property this week, and also the Granby smelter on their return.

Duncan Ross, M. P., left Greenwood this week for Ottawa, via Spokane, to be present at the session of Parliament, which begins November 22d.

Married, at Grand Forks, November 6th, Miss Ida Donnan and Charles Pickerton, Rev. McLeod officiating. The happy couple expect to reside in Vancouver.

Greenwood's Boundary Creek Times under the management of J. W. Ellis, has been made eight pages in size, and much improved. W. G. Gaunce will wield the editorial pen, which is a good thing for the Times.

MATHESON MADE FATAL MISSTEP

Brooklyn Mucker Boss Fell to His Death.

Hugh Matheson, a mucker boss at the Brooklyn mine, was killed Sunday evening about 6.30, by falling down the glory hole, within a hundred yards of the postoffice, dropping into what is known as the cow barn chute, and dying by the time he was brought to the surface in the skip. The glory hole is fenced.

It appears that Matheson was perfectly familiar with the opening of the glory hole, where, on one side, a ladder offers a short cut into the mine. He was evidently walking around the edge of the hole in the dusk, when he miscalculated and dropped down in the mine, striking the jagged rocks, and tumbling into the chute below, where he was found by his men. His head was badly crushed, and although the company's physician was hastily called, the unfortunate man breathed his last just as he was brought to the surface.

Monday afternoon Coroner A. S. Black empaneled a jury, consisting of John McInnis, J. A. McMaster, J. O. Ellis, R. D. Mitchell, P. W. George and Walter Morrison. After hearing testimony from Robert Goodman, Alfred McDonald, Foreman Sampson and others who found Matheson, the jury returned a verdict of death from falling down the Brooklyn glory hole and into the cow barn chute.

Hugh Matheson was 23 years of age, and a native of River Dennis, Nova Scotia. He has been employed in this camp for a long time, also having a brother, Alex Matheson, here. He was a member of Phoenix Miners' Union No. 8, and the funeral was held by that organization Tuesday afternoon, Rev. Samuel Lundie officiating, the burial taking place in the Phoenix cemetery.

COMING AND GOING

David Whiteside, of Grand Forks, was a visitor here Thursday.

Alex McDonald returned Wednesday from a trip to Spokane.

Alderman E. Spraggett, of Grand Forks, was here on Wednesday.

Mining Inspector James McGregor, of Nelson, was here Wednesday on an official trip.

Hugh Reed returned from the West Fork Saturday, where he has extensive interests.

L. A. Campbell, the Bonnington power concern manager, was here on business last Saturday.

Frank W. Hart was in the city Sunday, on his way to Spokane. He intends to settle down in Greenwood.

Chief of Police C. H. Flood went to Spokane and the Cour d'Alenes last Saturday, on a two weeks' vacation.

R. H. Karatofsky returned this week from Seattle, where he has been visiting his cousin for the last six weeks.

Mrs. J. L. Martin accompanied Mr. Martin to Spokane last Sunday. Mr. Martin spending the week in the Cour d'Alenes.

Mrs. P. F. Roosa, of Boundary Falls, accompanied her husband, paymaster of the Dominion Copper Co., to Phoenix yesterday.

J. A. McLoughlin, who has been a resident of this camp for several years, left last week for Stockton, Cal., where he has accepted a responsible position.

Dr. W. H. Dickson, of Grand Forks, and Dr. J. E. Spankie, of Greenwood, were here Wednesday evening, to attend a meeting of the Boundary Medical Association.

H. P. Renwick, surveyor, J. E. Hooper, of the Allan house, and J. Fisher, all of Rossland, came in this week to do some work on some claims in Wellington camp.

John Rogers, the Grand Forks mining man, who is largely interested in the Pathfinder and other properties, spent a day or two in the city this week.

Treasurer Wooster, the man whose name at the bottom of Granby cheques, makes some 700 or 800 men feel happy each month, spent a couple of days in the city from Grand Forks this week.

Alex. Faulds, M. E., of Nelson, was in the city Tuesday, on his way to the Similkameen country. He has recently been inspecting claims in White's or Central camp, on both sides of the international boundary line.

Notice.

Notice is hereby given that Murdoch McIntyre has purchased the retail lumber business of the Yale-Columbia Lumber Co., Ltd., in Phoenix. All accounts due said company must be paid on or before November 30, 1906.

Dated November 1, 1906.
