THE BIG STORE

Have You Stopped To Think It Over?

That our system of retailing brings the sources of production close to the consumers and eliminates the in-between profits. We now offer to sell our leading tea

Sterling Brand

a 75c value, for 50c per lb. We have for years been trying to purchase a tea that would give satisfaction to the majority of our customers. At last we have discovered it, and in order to be able to retail it at the popular price of 50c per lb.

We have purchased 50 chests, with 60 lbs to the chest, making 3,000 lbs. STERLING TEA is an Indian tea which has positive and outstanding merits —strength which means economy, and flavor which means favor. Try it.

Remember a 75c Tea for 50c.

This Week's Addition

To Our Grocery Stock.

One Car "Anchor Brand" Flour

unquestionably the best on the market.

One Car Tartan Canned Goods

The word "Tartan" is a sufficient guarantee, it means the highest degree of quality in Fruit and Vegetables.

One Car Apples

almost every variety. These apples were packed specially for us and we feel safe in saying that for size and flavor they are easily ahead of any in town. Juet an even 500 boxes in the car. Our price is $2.00 per box.

2 Cars Potatoes and Vegetables

These spuds are first class—big and dry—$2.00 per 100 pounds.

BIG SHIPMENT OF

Apple Butter, Honey, Jellies, Jams, Etc.

To tell the truth, we feel a trifle proud of our grocery stock, it never was as complete and large as now. Space will not allow us to tell of all the good things —come and see for yourself. We might add, however, that we are already planning for Christmas trading on an elaborate scale. Most all our Christmas goods are on the way and some have already arrived. In the course of a couple of weeks we will send you an invitation to look over the choicest lot of Christmas goods in the Boundary. In the meantime you cannot serve your own interests to better advantage than by doing the bulk of your trading at the Corner Store, where quality is paramount.

## To The Electors of Yale-Cariboo.

### CONSERVATIVE NOMINEE'S PLATFORM

**Need of Vigorous Opposition at Ottawa Now Greater Than Ever—Reasons Why He Should be Elected.**

GENTLEMEN:

As Conservative candidate for Yale-Cariboo I certainly ask for a strong support of my candidature from now till the last ballot is cast on the 22nd inst.

The people of Canada by their decision on Nov. 3rd, have replaced the Liberal party in power. In regretting that decision, I wish particularly to pay a whole-hearted tribute to the defeated leader of the Conservative party, the Hon. R. L. Borden, whose sincerity and ability commanded the respect of all, and whose fine integrity of character has lifted our political life to a higher level.

During the past eight months I have had the pleasure of speaking to audiences from Cariboo to the International line. I should be ungrateful indeed if I did not recognize the personal kindness extended to me, even by many who may have dissented from my political views. It has been an unalloyed satisfaction to find that in any appeal for a higher tone in Canadian public life there has always been a strong response from the vast majority of our people. I have nothing to regret, and nothing to retract in what I have said in advocating my views during the campaign in this constituency.

So far from being discouraged by the result of the general election, I am stimulated to greater efforts, and believe that stronger reasons than ever exist for returning a Conservative representative of Yale-Cariboo.

It is entirely unnecessary for me to say, that after travelling over the length and breadth of this vast constituency, my faith in its resources has been greatly confirmed, and it will be my special privilege, if elected, to promote its interests in every way possible.

The argument has been, and will be advanced, that the material affairs of the riding could be better looked after by a government supporter. It is an argument framed to appeal to the baser side of human nature, and no man of personal or political convictions should be affected by it.

But I might point out its entire fallacy in this particular case, when so overwhelming a preponderance of Liberals in the House reduces the power of the individual member to a minimum, and renders it impossible to secure appropriations for the greater part of these large western constituencies.

On the other hand there was never so strong a need for a vigorous opposition.

It is admitted by thoughtful Liberals themselves that so large a majority is the reverse of good for the country.

I would, therefore, specially point out to the electors that, with reference to Yale-Cariboo, their district will be given a special prominence, and a special opportunity will be afforded of advocating its interests if a Conservative represents them in the next House.

I propose to fight till the last minute of the last hour, and believe my hopes for a Conservative victory will be justified.

I have the honor to be, gentlemen,

Yours faithfully,

MARTIN BURRELL.

Grand Forks, B. C.,

### Jay Cramer Very Low.

Thursday afternoon Jay Cramer, the 16-year old son of Mr. and Mrs. W. J. Cramer, was taken to the hospital, and that evening was operated upon for appendicitis. It was found that the appendix was in a bad condition, and he could not possibly have lived without an operation. Yesterday he was very low, and it was a question whether he would recover. There were three physicians present at the operation. The young man had only been feeling badly for a few days.

### More Mining Men Arrive.

E. B. Kirby, manager of the Centre Star and War Eagle mines in Rossland, accompanied by Carl R. Davis, superintendent of the same mines, arrived here early this week, to take part in the examination of the Snowshoe mine, now being done by Prof. R. D. Brock, of the Dominion geological survey. J. W. Astley, of the LeRoi, and Wm. Tomlinson of the Le Roi office staff also came over. Mr. Astley and Mr. Kirby returned Thursday, but a dozen men are still busy at the work of sampling the Snowshoe above and below ground, with a view of consolidation with the properties mentioned.

# LIBERAL RALLY ON THURSDAY

## Candidate Ross Appears First Time.

### CURTIS TALKED ON DEAD ISSUES

**Kerr, As Usual, Made the Meeting Lively—Meeting Was No Special Help to the Grit Cause.**

Thursday evening the Liberals held the boards at Miners' Union hall and Smith Curtis literally held them for not far from two hours, till the audience was tired out and the chairman had to stop him.

Alderman Delahay was in the chair, and introduced Mr. Curtis, who for over an hour discussed what is now not an issue in this campaign, the Grand Trunk Pacific. Mr. Curtis has many friends here, but they regretted to see such a waste of time over a subject that is now settled.

He finally got down to what the Liberals had done for the cause of labor and went into it in detail, making a good showing, from his stand point, at least. He was interrupted several times by questions from the audience, but stood to his guns in good shape, after each statement of things done by the Laurier government for labor, saying, "What more do you want?" He enlogized Sir Wilfred Laurier, and asked for support for Duncan Ross. He also ridiculed a number of statements in the election address of Ernest Mills, the Socialist candidate, which caused the interruption.

R. B. Kerr, for the Socialists, was the next speaker, and leaving the dead issue of the Grand Trunk Pacific alone, he proceeded to dissect Mr. Curtis' remarks about Grit legislation for labor and Grit royal commissions. He showed that during the eight years of Liberal rule, when both Canada and the United States were prosperous, wages had not increased at all; but, on the unquestioned authority of Dun and Bradstreet, the cost of living per capita had increased from $60 to $90 by one authority and from $74 to $99 per year by the other. "What more do you want?" queried Mr. Kerr, to the great amusement of the audience.

One by one, Mr. Kerr dealt with Mr. Curtis' labor legislation arguments and to his own satisfaction and that of most of the audiance, at least, showed their fallacy. He then launched into Socialism all over the world, and told what it had done, as well as here in British Columbia. It was evident that the audience was largely in sympathy with him.

### Duncan Ross Appeals.

Mr. Ross, although tired with much speechmaking for the last month, took the floor, and went all over the Grand Trunk Pacific bargain again for the benefit of the long suffering hearers. He spoke easily and well, but was undoubtedly up against the hardest audience to convince that he had yet met.

He tried to show the electors that the Liberal ticket was the right one to support, even from the standpoint of the laboring man, telling what had been done by the Grits for the sons of toil, and how the new railway would provide labor for years in this province. Interruptions did not rattle him in the least, and once in a while he received applause from the 31 Grits who voted in last year's provincial election in Phoenix, who seemed to be all there. Mr. Ross criticised the Socialists, as well as the Conservatives.

F. J. Deane, editor and proprietor of the Nelson News, was on the platform to make an address, but the hour was too late, and the meeting closed with cheers for Ernest Mills.

# LANGELOTH AND de NEUFVILLE

## German Metallurgists Visit Phoenix.

### WITH PARTY OF GRANBY OFFICIALS

**First Trip of Both, Who are Greatly Impressed with the Great Copper Producers of this Camp.**

Thursday morning a special train over the C. P. R. brought up from Grand Forks a party of officials of the Granby Consolidated and their friends on a trip of inspection to the mines of the company. The personnel of the party was as follows: George Martin Luther, of New York, secretary-treasurer of the Nicholls Chemical Co., and Jacob Langeloth, president of the American Metal Co., of New York, both directors of the Granby Co.; Dr. Rudolph de Neufville, of Frankfurt, Germany, a director of the Metal Gesselschaft, the famous German selling concern; J. B. Francis Herreshoff, metallurgical expert of the Nicholls Chemical Co.; J. P. Graves, vice president and general manager of the Granby Co., with Treasurer Geo. W. Wooster and Superintendent A.B.W. Hodges, of the Granby Co.

All of the gentlemen are interested in the Granby Co. as shareholders or officials, and those from the east came at the invitation of Mr. Graves to look over the properties of the company. After going through and over the Granby mines that afternoon, the entire party took the special train for Grand Forks the same evening, where a day or two was spent inspecting the Granby smelter. This is the first visit of Dr. de Neufville and Mr Langeloth to the Boundary country, the other two gentlemen from New York having been here over a year ago, when a large party of Granby directors visited the mines and smelter of the company.

### What Mr. Langeloth Said.

Mr. Langeloth being at the head of one of the largest dealers in the products of copper and other mines in America, was asked by the Pioneer man for his impressions of the Granby mines, which he had just seen for the first time, and said:

"The general impression here is one which one never forgets, and the enterprise and foresight shown by the gentlemen who originally took hold of the Granby mines is really most commendable. The way in which the entire problem has been laid out and carried on showed enormous foresight.

"To induce the railways to come into a practically unknown section of country was unquestionably a most difficult matter, and it is of the greatest interest to the entire country that the Great Northern railway is now coming in and will be of such assistance to the mining interests here.

"The ore bodies developed in the properties of the Granby Co. are simply enormous, and have evidently only been scratched, even with the great amount already spent here. Untold riches are still hidden under those hills, and will for years and years serve not only the present smelter capacity, but a much larger one, which I expect to see here in due time.

"The site of the smelter at Grand Forks was admirably chosen, as with the cheap water power the ores can be treated very economically, and an excellent commercial product is the result.

"It is my candid opinion that the future of the Granby Co. is a very bright one, and great credit is due to the enterprising gentlemen who have worked up the properties to the present excellent state. The shareholders will soon see the time when the investment will prove to be a very judicious one."

### Dr. de Neufville Pleased.

Dr. de Neufville, whose company at Frankfurt-on-the-Main, in Germany, corresponds with the American Metal Co. in New York, is travelling all over America, visiting the great copper mining centres. He has already visited the Lake Superior, Montana, Arizona and Mexican sources of supply, and from here goes to Iola, Kansas. His company is what is known as a holding company, having large interests in zinc, copper and brass works in Europe, and is closely allied to the American Metal Co.

He was not a little pleased with what he saw of the Granby mines and smelter, and expressed himself to that effect. Familiar as he must be with great copper producers, the plant, methods of development, extraction and reduction in use by the Granby Co. compared favorably with the largest of them.

### 800 Tons Copper a Month.

Mr. Herreshoff and Mr. Luther were here last year and noted great improvements at the Granby mines and smelter, the full battery of six furnaces now being in operation and turning out from 500 to 600 tons of copper bars per month. The former gentleman noted that at the great Anaconda copper mine, in Butte, where he stopped on their way out, the values are no greater than in the Granby mines today—low as the latter are known to be. But at the Anaconda mine a great tonnage was handled, and as the world knows, immense profits have been made therefrom.

He looked for the time, and at no distant date, when the Granby Co. would be treating two or three times as much ore as at present.

### Only Himself to Blame.

The Cranbrook Herald says that "If Duncan Ross is defeated he will have himself to blame. The publishing of that picture of himself three times, top of column, next to reading matter in his own paper was enough to defeat the strongest man."

### City Water Troubles.

Owing to breaks in the main by the railway contractors, water was unavailable from the usual supply nearly all last week, but connections were finally made. Last Monday night the main burst on School street, and 100,000 gallons of water poured down into the railway grade. It required two more days to repair the damage, and now the usual supply is available. These little things are costing the railway contractors a pretty penny.

### Traffic Blocked 24 Hours.

Monday night, engine No. 902, a big compound, was derailed near the Brooklyn mine, on the trestle and on a twenty degree curve. Traffic to and from the Brooklyn and Stemwinder mines was completely blocked for 24 hours, till Roadmaster Johnson and his extra gang succeeded in getting the 16 wheels on the iron again. This is said to be another proof that compound engines are of little use in the Phoenix yards.

### Starting Around the World.

Rev. W. A. Robins, of Greenwood, started this week for a trip around the world, via Vancouver, Japan, Singapore, India, the Red Sea, etc., on his way to his old home in England. Before leaving he was presented by his parishioners with a purse containing $300, as a mark of esteem, the Sunday school giving him a handsome walking stick. Rev. Amor, his successor in the Church of England, has arrived from Nova Scotia.

### Latest Prices in Metals.

NEW YORK—Copper, electrolytic, $13.87½@$14.00; lake, $13.87½@ 14.12½. Bar Silver, 58¼. Lead, $4.20 at $4 50.

# TO BE HERE BY CHRISTMAS

## Great Northern Will Then Be Finished.

### SO SAYS THE CHIEF ENGINEER

**Pat Welch Also Corroborates the Statement —Railhead is 8 Miles Out of Grand Forks —Notes.**

If nothing goes wrong, the Great Northern will be running trains into Phoenix by Christmas day. This is the flat statement of Chief Engineer Kennedy, as well as of Patrick Welch, in charge of construction, both of whom were in the city yesterday.

The iron squad now has rails laid nearly eight miles out of Phoenix, and another week will see the railhead at Summit City, and a few days later at Deadman's gulch, just six miles from Phoenix by the grade.

At Deadman's gulch is to be the largest and highest bridge on the line, but which it is expected can be crossed with the steel in ten days, after the tracklaying gang reaches that point. Already work is well under way on the foundations for the piers of the bridge, the timbers being hauled with horses over the completed grade from Denoro, two miles distant. A large force is already at work on this huge structure.

From Deadman's to Phoenix there are but two heavy rock cuts yet uncompleted—one at Scarpelli's under Burns & Jordan, which is to be finished in some three weeks, and the great thorough cut being put through by Patrick Hughes. The latter is the heaviest on the entire line, but Mr. Hughes asserts that the first week of December will see his work so that the rails can be laid.

Up at this end the grading is being completed fast, and two or three weeks' time will leave but little yet to be done.

### Finished Rawhide Spur.

Last Tuesday the spur which W. P. Tierney, C. P. R. contractor of Nelson, has been constructing from the Phoenix branch to the newly built Rawhide ore bins, was completed, the iron also having been laid on the new grade. Altogether the spur is about 3,500 feet long, with two side tracks from the main line to accommodate the heavy ore shipments that will shortly be started from the Rawhide by the Montreal & Boston Consolidated. As is customary in such cases, the C. P. R. required the mining company to advance the cost of the spur, the amount to be rebated in ore freights as fast as they are earned.

### Roosevelt Was Elected.

In Tuesday's elections in the United States, Theodore Roosevelt was re-elected president by a tremendous majority, having 325 votes in the electoral college, against 150 for Parker, with a few doubtful. Every northern state went for Roosevelt.

In the neighboring state of Washington, Mead, Republican, was elected, as well as nearly the entire state ticket.

### Thanksgiving Day Rates.

Account Thanksgiving Day the Canadian Pacific Railway will sell tickets to and from all stations west of Port Arthur at fare and third for round trip. On sale Nov. 16th and 17th, good to return till Nov. 19th.

### OUR SIXTH YEAR.

With this issue the Phoenix Pioneer enters upon its sixth year of publication, it having been conducted during its five years of life under the same continuous management and editorship.

As our brethern of the fourth estate in the Boundary know only too well, those five years have not by any means been years of profit and ease in the publishing business. In fact, if we may judge by the changes that have occurred in that time, conducting even a weekly newspaper in the Boundary has been a strenuous business, and one hardly conducive to fattening plethoric pocket books. Since the Pioneer was started on its career at least ten papers, daily and weekly, have given up the ghost in the Boundary.

While, even under favorable conditions, a newspaper publisher's life is not a bed of roses, if he does conscientious work and secures a moderate living in this work-a-day world, he must needs be content as well as thankful that the banker or the sheriff has not yet found it advisable to take possession.

In our initial number, published in November, 1899, we said:

"We hope to attain a good old age in the ordinary course of events, and during its attainment to be of some service to the community in which we have cast our lot. We have implicit confidence in the future of Phoenix; it cannot fail to be a populous and prosperous centre, surrounded as it is by mines so rich and all the natural resources necessary for speedy development. It shall be our object to make known to the world the richness of this great country and to encourage by every legitimate means in our power its healthy progress."

How well we have succeeded in our mission so far we leave to others to decide, but with the confidence born of experience, that our course was the true one, we shall continue in the future largely as in the past, to publish the best paper we know how to produce.

In closing, just a word to a certain small class. Do you believe that a neat, clean, live, energetic, newsy, weekly newspaper is entitled to the support of every up-to-date business man in its town? If so, and your name is not on our subscription list, nor represented in our advertising columns, we invite your hearty co-operation. We know we can be of benefit to you, as you can be to us. Let us work together to our mutual good. We want to help you and thereby help ourselves, and help Phoenix and the Boundary.

### SNOWSHOE-LEROI CONSOLIDATION

That an amalgamation of the Le Roi, Centre Star and War Eagle at Rossland with the Snowshoe mine at Phoenix is among the possibilities of the near future, is now an admitted fact. Therefore, it is not out of place, at this time, to note something of the past.

It is unpleasantly notorious that, up to the time A. J. McMillan became manager of the LeRoi mine, that great property had, in one way or another, been used as a football on the London stock exchange. It had been mismanaged and maligned, and had generally gotten into bad repute on both sides of the water.

Mr. McMillan placed J. H. Trevorrow in charge as mine superintendent and J. W. Astley as general superintendent, and immediately distinctly better results are noted—in fact, they are remarkable. With an increase of values of less that $1.00 per ton in August over the ore shipped in May, the profits have increased from $1.20 per ton in May to $3.50 per ton in August—thus showing what honest, intelligent, capable management can do with the LeRoi.

Now the Snowshoe is being most thoroughly sampled and tested. Interests supposed to be inimical to the LeRoi assert in the public prints that Snowshoe ores will not mix to advantage with LeRoi ores; but this problem can safely be left to those in charge. If this proves to be a fact, no amalgamation will take place. Mr. McMillan and Mr. Waterloo will not blast their reputations by foisting an unprofitable deal on the LeRoi shareholders. The Snowshoe itself, and its management in the past by Mr. McMillan and associates, has been successful as far as it went, and the future will show, we believe, that it is an exceedingly valuable mine.

If the proposed consolidation is effected, the Pioneer predicts that Rossland low grade ores will be concentrated on the ground, and that the high grade ores will be brought to some central Boundary point for smelting, the Boundary ores not being able to stand a long haul. This appears to be a logical conclusion. It appears also that Messrs. McMillan, Waterlow and associates are carefully working out the future of successful mining in Rossland camp, which will also greatly benefit the Boundary.

### NOTED IN PASSING.

The politicians are now trying to explain how it happened.

Will some one be good enough to state where the Grand Forks News-Grzette stands in politics?

Even the Russians now think that Port Arthur is getting ready for a fall. What a relief it will be.

President Roosevelt did not do a thing but vote last Tuesday. His election was a foregone conclusion.

Query—Why is it that a fine tooth comb will be required to find the labor vote that will be cast for Duncan Ross?

By the galaxy of politicians Duncan Ross is importing to Yale-Cariboo, he must realize that he has anything but a cinch.

If the Russian Baltic fleet gets into trouble with a fishing boat, what would happen to them if they ran up against the real thing—the Japanese fleet?

From the number of mining men at the job the Snowshoe will be the most thoroughly sampled mine in the Boundary in a few days. More than one evidently has a good opinion of the property.

## B. C. MINING

Rossland ore shipments last week were 6,180 tons, or 290,855 tons for the year.

The collieries around Fernie are producing at the rate of a million tons of coal a year.

An ambulance class has been started in Coal Creek, which will supply a long-felt want.

After nearly a two year close down, work has been resumed at the rich Mollie Gibson mine.

The Nahmint mines near Alberni have been taken over by a Portland, Oregon, syndicate, which intends developing them and instituting operations on a large scale should the values prove what is expected.

The southeast Kootenay Coal & Petroleum Company, Limited, has filed articles of incorporation with the county auditor at Spokane. The company is organized to prospect for coal and petroleum in East Kootenay, B. C. The capital stock is $250,000, divided into 1,000,000 shares at 25 cents each. The incorporators and first trustees are George W. Kerr, Rossland, B. C.; William Kelly, Jr., Stewardville, Minn., and W. A. Nelson, Spokane.

The Pathfinder Mining Company, Limited, held its annual meeting in Grand Forks, recently, when the officers for the coming year were elected. Those chosen were John Rogers, president; W. K. C. Manly, vice-president; M. S. Martin, secretary-treasurer. The report presented at this meeting showed that this mine is now free from debt.

### Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr. W. L. Roderick, of Poolesville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect." For sale by druggists.

## OLLA PODRIDA.

Never argue with others if you would avoid that tired feeling.

A sensible man is one who has the commonest kind of common sense.

The wind may be tempered by the shorn lamb, but not in the stock market.

A baby does not see why any one else should want to sleep when it is not sleepy.

One peculiarity about money is that it takes so much longer to earn it than it does to spend it.

If a young man would get up with the sun he shouldn't stay up later than 10 p. m. with the daughter.

**The Greatest Family Remedy.**

And one well known in most Canadian homes is Nerviline, a perfect panacea for all internal and external pain. Mrs. M. E. Cartwright of Morris says:—"I couldn't think of being w thout Nerviline. When I get toothache Nerviline stops it. If I get a sick headache, have a trouble with my stomach or bowels I can rely on Nerviline to cure me promptly. To break up a cold or rub on for rheumatism or neuralgia Nerviline has no equal. It's priceless in any family." Nerviline is king over all pain and costs 25c.

## STRICTLY BUSINESS

One good advertisement paves the way for more.

The good advertisement tells some things and suggests others.

People may "guess" what you have in your store; if you tell them they'll know.

It is bad business to let any one look in vain for an advertisement of your business.

You can talk more effectively through newspaper advertising than in any other way. Try it!

Money put into good advertising will came back and bring a lot of com pany; but the advertising must be good.

**FROM SOUTH AFRICA.**

**New Way of Using Chamberlain's Cough Remedy.**

Mr. Arthur Chapman writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby." This remedy is for sale by all druggists.

**Hurried and Worried All Day.**

And the worst of it is you are a little run down and have mighty little chance to catch up. Everything seems like a grindstone wearing down your nerves. You are irritable and get less sleep than is absolutely necessary. Better stop before things get worse. Your best plan is to use Ferrozone for a while and give your nerves and brain a chance to pick up. Ferrozone is the finest tonic a busy man can take. It makes new blood, nourishes the body, strengthens the nerves, improves the appetite and rehabilitates the whole system. Try Ferrozone. Price 50c.

## Mr. Tooley on the Campaign.

With Apologies to F. P. Dunne.

"An' fhwat do ye think of th' Dominion ilictions now, Tooley?" asked Mr. Hennessey.

"Phwat do Oi think?" said Mr. Dooley. "Oi think as Oi always did, an' thot was thot th' men who had th' most votes was ilicted—they a-lways a-re. Oi wont till ye how they got th' votes, or how much they cost or annything of thot kind, fur it don't make anny difference now, annyhow. Sir Wilfrid had th' offices, he had th' men, an', as results show'd, he had th' votes, too. 'Twas a glorious victory, th' most glorious since Sir Jawhn MacDonald went down to defeat.

"An' now th' people of th' Dominion will have th' Grand Thrunk Pacific consthructed, right away or sooner. That is, it'll be built in th' coorse of th' next few years, an' times will be good all over th' counthry while th' buildin's going on. Me frind, Senator Templeman says, says he, that th' province of British Columbia 'll not have to give a cent to th' new raleway line, not even a land grant, an' that it's all due to Sir Wilfrid with th' assistance of providence."

"But, Misther Tooley, if th' Grand Thrunk Pacific's not goin' to ask th' province f'r anything, phway didn't they agree to sthart wo-rk f'm both ends at wanst? Tell me that, if ye can."

"Oi can, Misther Hinnissey. Whoile it's cut an' dried loike a red herring now, Misther Cox, Misther Hays an' th' ithers won't lose anny opporchunities fer ra-akeoffs, an' whin th' surveys a-re completed, or before maybe, they'll be thryin' to do business at Victoria, an' sayin' that on account of th' heavy cost of buildin' thro' th' mountains they'd loike to have th' koind assistance of th' Provincial government to th' chune of tin thousand acres per moile or something loike that. Ye'll see, Hinnissey. An' th' byes at Victoria 'll back an' fill, an' finally th' pressure 'll be so sthrong that Misther Cox and Misther Hays an' th' ither byes 'll go away happy, an' say to themselves, They're moreaisy than th' government at Ottawa."

"Why is it, Misther Tooley, that th' iliction in Yale-Cariboo was postponed to th' 22nd of November?"

"That's aisy, Misther Hinnissey. Duncan Ross was afraid of a landslide at th' gineral ilictions, an' so he an' his frind, Galliher, in Kootenay, had them fixed later, so they cud get th' benefit of th' Liberals winning, if they did win."

"But do ye think Ross 'll get in, Misther Dooley," said Mr. Hennessey.

"Ye ast me a ha-rd question, Misther Hinnissey," said Mr. Tooley. "But, as the byes say, he's got his wa rk cut out f'r him, annyhow. Why, they tell me that he'll not get half a dozen labor votes in th' Boundary, an' that manes a good manny that Misther Burrell 'll get. Duncan Ross, in the past, has rubbed it into th' Socialists, an' now w'en they have a chanst, they won't do a thing to Misther Ross.

"To be sure th' Socialists, have a candydate, Ernest Mills, but they know he sthands no show of winnin' out, an' so manny of them will vote f'r the best man, Martin Burrell, who's been makin so manny frinds all over th' counthry. Th' Socialists have some good ideas, an' some day some of them will be adophted, but most of th' ideas are a hundhred years ahead of th' toimes, or even further.

"Another rayson why Misther Ross 'll get few votes here is that th' Liberal government, with all th' boasts of what it's done f'r th' counthry, has done nawthin' f'r th' Boundary. W'en Phanix asked f'r a custom house, on'y a few miles f'm th' boundary loine an' smugglin' goin' on all the toime, Mr. Ross' frinds at Ottawa turned the request down cold. Whin they wanted direct mail service with Granewood, Misther Ross' own town, they didn't get a pleasant smoile—an' Misther Mulock, th' postmasther-giniral at Ottawa, told about th' big surplus f'r last year.

"Yis, Hinnissey, if Misther Ross gets ilicted it'll be a surprise, even to himself, f'r Oi don't think he expects it."

THE SON OF EX- U. S. MINISTER TO ENGLAND

Commends Pe-ru-na to All Catarrh Sufferers.

Hon. Louis E. Johnson is the son of the late Reverdy Johnson who was United States Senator from Maryland, also Attorney General under President Johnson, and United States Minister to England, and who was regarded as the greatest constitutional lawyer that ever lived.

In a recent letter from 1200 F St., N. W., Washington, D. C., Mr. Johnson says:

***"No one should longer suffer from catarrh when Peruna is accessible. To my knowledge it has caused relief to so many of my friends and acquaintances, that it is humanity to commend its use to all persons suffering with this distressing disorder of the human system."—Louis E. Johnson.***

**Catarrh Poisons.**

Catarrh is capable of changing all the life-giving secretions of the body into scalding fluids, which destroy and inflame every part they come in contact with. Applications to the places affected by catarrh can do little good save to soothe or quiet disagreeable symptoms. Hence it is that gargles, sprays, atomisers and inhalants only serve as temporary relief.

There is but one remedy that has the desired effect, and that remedy is Peruna. This remedy strikes at once to the roots of catarrh by restoring to the capillary vessels their healthy elasticity. Peruna is not a temporary palliative, but a radical cure.

COPPER

The new edition of the COPPER HANDBOOK lists and describes 3,311 copper mines and copper mining companies, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most condensed and get-at-able form.

There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of Copper and everything pertaining to the metal.

It is the World's Standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker, and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morrocco, and the book, in either binding, will be sent, fully prepaid, on approval, to any address in the world, to be paid for if found satisfactory, or may returned within a week of receipt and the charge cancelled. Kettle Valley railway engineers are reported to be running lines south of Republic on the proposed extension of the road to Spokane.

In about two weeks the Thomas Drug Co. expects to occupy the new store being built for the concern by G. W. Rumberger on Dominion avenue.

Good pointers are essential in any business. I would be pleased to give you some good pointers on the good qualities of the Mutual Life of Canada. Ed. H. Mortimer, the Phoenix agent.

Christmas catalogues from eastern stores are beginning to arrive here, but from the preparations being made by local merchants to handle the trade, they will not be needed this year.

Monday evening Father Bedard married E. E. Young to Miss June Moriarity at Grand Forks. Tuesday evening he married A. A. Frechette to Miss Hemelda Gauthier, also in Grand Forks.

Safety first, profit next, these factors for thirty-four years have placed the Mutual Life of Canada as the true policy-holder's Company to insure in, where your savings are safe and profitable. Get Mortimer to give you figures.

Some people thought last Wednesday was a legal holiday, not knowing that the celebration of the King's birthday had been postponed by royal command and official proclamation to May 24, 1905. The school children had a holiday, as a result.

...The resignation of F. J. Finucane, manager of the bank of Montreal's Spokane branch and well known in the Boundary, is announced. Mr. Finucane will sever his connection as soon as a successor is appointed to take his place. His future plans are not given out.

The largest sheet of plate glass in Kootenay or Boundary, 10 by 13 feet, was set in the Hotel Balmoral window this week to replace one broken by a blast last winter. It cost about $500 and was insured. Plate glass was also received for the new Rumberger and McHale blocks this week.

William Hall, who has just spent another season in the hospital, as a result of injuries received by being buried in an ore slide May 7th in the Knob Hill mine, started for Spokane last Monday, intending later to proceed east and secured an artificial leg. He was in the hospital last on account of trouble with his back.

The many friends of James H. Trevorrow, formerly foreman at the Snowshoe mine, but now superintendent of the LeRoi mine, will sympathize with the family in their loss of the nine year old son, Ulysses S. Trevorrow, whose funeral occurred at Rossland last Saturday. The cause of death was appendicitis.

Mr. and Mrs. John Jordan and Mr. and Mrs Edward Burns entertained a few friends Wednesday evening at an informal dance in Miners' hall. The affair was given in honor of Mr. and Mrs. Martin Welsh of Grand Forks. A number of railroad people from Grand Forks were present. Supper was served at twelve and dancing was continued until two, a most enjoyable evening being spent.

"Chosen in the Furnace of Affliction," and "Bright Visions," will be the topics in the Presbyterian church tomorrow.

"Prof." Hepburn, the dancing teacher, is reported to have left the Okanogan valley towns without completing his course of lessons, as he did here.

Senator Templeman and W. W. B. McInnis, M. P. P., are scheduled to hold a Liberal rally here next Monday evening. It should be interesting.

Patrick Welch proposes to spend more of his time in Phoenix from now on, to see to the crowding of the work on the construction of the Great Northern.

W. J. Gaunce, who has been doing the brain work on the Greenwood Times, while Editor-Candidate Ross was campaigning, went over the Montreal & Boston mines in this camp last Monday.

M. H. Roy, of the Miners' Exchange hotel, has moved across the street, near Miners' Union hall. His old hotel building is now being moved farther up the street to a lot below the old telephone office.

Any subscriber to the Phoenix Pioneer can get the Montreal Family Herald and Weekly Star free for rest of 1904 by simply paying up his subscription or paying for a year in advance. This is an offer worth taking advantage of—getting the best paper in the Boundary and the best weekly in the east at a low figure. A $2 bill will do the trick, and it can come by either mail, telegram, or Marconigram.

**Presbyterian Bazaar Nov. 23.**

On Wednesday, November 23rd, the ladies of the Presbyterian church will give their annual bazaar, for which extensive preparations have been made. Hazelwood ice cream and cake will be served, and in the evening a good musical and literary programme will be rendered, including vocal and instrumental solos and duets. A flag drill will also be given. The articles for sale will include fancy and useful things for men, women and children, largely suitable for holiday gifts.

**Card of Thanks.**

I wish to tender my heartfelt thanks to the Ladies' Aid and to all those who took part in the recent Labor Day Celebration for my benefit.

WILLIAM HALL.

**Dissolution of Partnership.**

Notice is hereby given that the partnership heretofore existing under the style and title of Oxley & Fleming, proprietors of the Summit Hotel, at Phoenix, B. C., has been dissolved. All bills due the firm of Oxley & Fleming will be collected by David Oxley, who will settle all accounts against said firm.

Dated at Phoenix, B. C., this 27th day of October, 1904.

Signed, DAVID OXLEY.

CENTURY 20 SHORT

This Shorthand is totally different to others. It takes weeks to learn in instead of months or years. It was invented by practical reporters. It is reliable, thorough, and may be read like print. The first three lessons enables you to take private notes and the ninth lesson brings you to corresponding style, the 20th, the final lesson to reporting. A specimen may be seen at the Phoenix Pioneer on applica ion to the manager, W. B. Willcox. Lessons taught by mail are quite easy.

Typewriting taught by mail. We forward you lesson sheets to teach you the correct fingering—all the fingers taught on the blind touch system. Write saying the machine you have, or we can supply you with a new or second hand one, any make from $40 to $150. We do not hire out machines.

Terms—For shorthand $40, to completion, payable by instalments. Typewriting $25, to completion. Address, The Secretary, Studios: Vancouver, Granville St., Box 861. Victoria, over Imperial Bank, Victoria, P. O. Box 176. Other branches throughout Canada will shortly be opened.
