The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over $50,000, while the Rawhide pay roll is $18,000.

LIBRARY, LEGISLATIVE ASSEMBLY NOV 12 1912 VICTORIA, B.C.

THE PHOENIX PIONEER is published in the highest municipality in Canada—altitude, 4,800 ft. The city has a population of 1,500, and possesses first-class hotels, opera house, schools

FOURTEENTH YEAR — PHOENIX, B. C., SATURDAY, NOVEMBER 9, 1912 — NUMBER 17

BOYLE BLOCK SOLD TO MONTANA MAN

J. T. Miller, the Purchaser, says Prospects Good in Phoenix—Purchase Price, $4,000.

Real estate in Phoenix is anything but a drug on the market if the property happens to be located in the right locality. About two years ago Sam Matthews acquired at a very low figure the property adjoining the store of Al. Almstrom and the club billiard rooms, and has now disposed of it to J. T. Miller of Butte, Montana, for the sum of $4000, considerably in excess of the figures he purchased with. That the deal is not out of reason from a purchasing standpoint is evident from Mr. Miller's statement in which he says that after visiting many of the likely towns of Alberta and British Columbia, Phoenix appeared to him to offer the chance for which he was in search of. The admission of Mr. Miller is backed up every day by the numerous drummers who daily pass through the town and unanimously declare that Phoenix is the most promising and stable community outside of the coast cities. That this statement is by no means extravagant is evidenced by the fact that Phoenix camp is the home of 2000 people and has two of the largest copper-gold mines within its boundaries running at full blast, the combined payrolls of which total nearly $70,000 per month.

Possibly more men will be actively engaged in the Stewart River valley this winter than for many years. The opening of rich pay on Scroggie is a great incentive. The government road which was put through there this summer has opened the way for prospectors to get into the heart of a number of good gold-bearing streams hitherto inaccessible.

City Band Dance

The regular attendance at practice which has characterized the members of the city band for some months past has borne good fruit, and the advance made has been most favorably commented upon not only by local critics, but by the members of the musical world of other out-lying towns. As far as the matter of instruments goes the organization is fairly well off, a BB bass and three b flat cornets having only recently been added. At present the attention of the band committee is directed to the matter of providing suitable uniforms, and on American Thanksgiving the first of a series of dances will be given for the purpose of raising funds for this purpose. Although considerable money has already been expended on the purchase of instruments, music, etc., there is still a balance on the right side of over ninety dollars. The band is not only a worthy institution, but a valuable asset to the city and deserving of every assistance from the people.

Boundary Ore Tonnages

Following are the returns of the output of the Granby mines and smelters for the week ending Nov. 3rd, and year to date:

Granby	24,214	1,046,274

SMELTER TONNAGES

Granby	24,702	1,051,447

Colin Fraser of London, England, formerly chief geologist for the geological survey of New Zealand, is in the Slocan district examining some of the Slocan mines.

Born—At Grand Forks, on Oct. 28th, to Mr. and Mrs. T. A. Love, a daughter.

According to the Ledge, Mayor McLaine of Greenwood and five well-armed men recently turned out to hunt a big black bear, which eventually materialized into a common black cat.

SPECIAL MEETING OF GRANBY DIRECTORS

Convertible Bond Issue Not Considered — Ample Funds for Hidden Creek Purposes.

At a special meeting of the directors of the Granby Consolidated Mining, Smelting & Power company held in New York this week it was decided to continue the development and equipment of the plant and property at Hidden Creek out of the earnings of the company.

The question of making a convertible bond issue was not considered. It was stated that the company has ample funds on hand to continue the work without resorting to a bond issue.

After the meeting of the directors William H. Nichols, president of the company, made the following statement:

"We have instructed our people at the Hidden Creek property to go ahead with the construction of the plant which will have a capacity of 2000 tons a day as rapidly as possible. This plant will be financed out of the earnings of the company, which will mean that dividends will be delayed for a while.

We have expended so far about $500,000 and it is estimated that bout $1,520,000 will be required to complete the plant and equipment. This money we have on hand so that a bond issue is unnecessary.

"Developments at the property are very good. We have about 5,000,000 tons of ore in sight, rangfrom 3 ½ to 8% copper, the average being about 3%.

"Providing machinery, etc., can be got together, the plant should be in operation in about a year. While the plant will have a capacity of 2000 tons a day, it has ample water power for a much larger mill. The plant itself is so arranged that its capacity can be increased at any time."

It is stated that in September the Granby smelter, for the first time in several years, was able to operate to its full capacity during the entire month, thereby resulting in a new high record of output with a total of 2,083,118 pounds. This is the third time the company has made an output of more than 2,000,000 pounds in any one month.

The gold output in September made a new high record of 5291 ounces as compared with 4626 ounces in August; while the output of silver was 34,901 ounces against 28,731 ounces in August. The high precious metal values added materially to the net profits for the month which were $181,000, or at the rate of $14.50 a share per annum.

The authoritative Boston Commercial still adheres to its optimism concerning Granby's future prospects and appears to be more than usually well informed as to happening here in Phoenix and Hidden Creek. The following is culled from the current issue:

"At the end of next year, the Granby should have between $1,000,000 and $1,500,000 on hand for working capital. Thereafter the company's net earnings per share annually, with copper selling at various prices, should be about as follows:

Price of Copper	Earnings per share
18c.	$27.00
17c.	$24.00
16c.	$21.00
15c.	$18.00
14c.	$15.00
13c.	$12.00

"It is anticipated, therefore, that after the new property is on a producing basis the market price of Granby shares will fluctuate between $100 and $200, and perhaps go above the last figures while it is possible, of course, that results may fall short of these estimates, there is an excellent chance that they will be exceeded."

B. C. Mining

Wm. Miline, of Vancouver, came down from Poplar creek Friday and reports that a very fine showing of silver-lead ore has been uncovered on the Golden Gate Mining company's property, of which he is manager.

Gold shipments to the Vancouver Assay office during the past week have been exceedingly large. There is now on hand in the office more than half a ton of gold in bars ranging from small bricks to large ingots. Most of this gold came from the placer mines of British Columbia. A small portion is from stamp mills of the province, while the remainder is from the northland, including the Yukon and Alaska.

G. S. Maltoch, of the Dominion geological survey, Ottawa, who has just returned from the Groundhog Basin, a new coal field in the north, says: "The field is hardly so extensive as at first supposed and it is somewhat cut by faulting. There promises, however, to be an enormous tonnage available for mining. The coal can be described as an anthracite, picked samples running from 83 to 85 per cent in fixed carbon. One Vancouver company which is doing quite a lot of development work will keep a party of workmen there during the entire winter.

The find in the Rodney drift (1650-foot level of the Le Roi Two) is reported by the management of the Le Roi Two to be turning out well. The ledge is 22 feet wide in places, has been drifted in for a 100 feet, and while it is not all high grade ore, most of it carries 4 dwts. in gold and 1 per cent copper. The ore is being taken out through the Le Rio workings. Though the shoot has not yet been fully developed it is sufficiently large already to justify the management in regarding it as one of the most important that has been made in recent years in the Le Roi Two properties.

Messers. M. M. Page, C. P. Page, C. P. Mutter and M. R. Marshall have been visiting the Queen Charlotte Islands, looking over a big coal proposition in which they are interested. Mr. Campbell, who is a geologist of note from Washidgton D.C. and a man of long experience, is very well satisfied with all he was able to see upon this short visit, and says that coal of a first-class quality and suitable for cooking purposes undoubtedly exists in large quantities, but as to the actual extent later examination will have to prove. The party expect to return early next summer to go into the matter of developing their property, which is crown granted, and which they have every intention of going ahead with as a commerical enterprise at the earliest possible opportunity.

George A. Clothier, superintendent of the Indian Mines, visited the property for a few days this week and found everthing satisfactory except the snowfall, there being about eighteen inches of the "beautiful" at about 2,000-ft. altitude. The main tunnel is now in a distance of 190 feet and the vein is being crosscut at the face of the tunnel, showing at present a width of ten feet. The main filling of the vein is quartz, throughout which is scattered galena and iron carry good values. On the hanging wall outside the quartz there is from one to three feet of fairly clean galena in which the values are principally silver and lead, the gold values seemingly are confined to the quartz section of the vein. The face of the tunnel is about 150 feet from the big galena outcropping, and the fact of the vein being mineralized at the distance from where the ore shute is supposed to be promises well for its improvement as it approaches the ore shute.

Leaves For The East

Omar Cote, manager of the dry goods department of Morrin, Thompson & Co., severed his connection with Phoenix on Wednesday, when he boarded the local passenger en route for Buffalo, New York, and his home in the east. It is also whispered that after an important event has taken place he will leave for Los Angelos, where he has secured a lucrative appointment with an automobile company. Mr. Cote arrived in Phoenix about two years ago, and from the first, owing to his ability and courtesy became very popular with the patrons of the big store, while few social events were complete without the presence of the "gentleman from Quebec." The great majority in Phoenix were unaware of his intention to leave us, but the best wishes of his friends in the British Columbia mountains will follow him to his new home under the sunny skies of California.

Division II Wins the Pennant

The banner for the largest attendance percentage for the month of October was captured by Division II with a percentage of 92. Division I was a close second with 90, while the youngest scholars of Division III totalled up 86 per cent., which latter, considering the extraordinary weather seems very satisfactory. Following are the names of the pupils who had perfect attendance:

Division I. (33 pupils)—Winfield Almstrom, Earl Case, Kathleen Draisey, Marjorie Elkins, Marjorie McCammon, Christie McKinnon, Mary McKinnon, Wm. Owen, Cora Pearson, John Rosener, Mamie Silverthorn, Florence Swanson, F. Walters and W. Wheatley.

Division II. (41 pupils)—Enis Abranson, Aimel Almstrom, Evelyn Draisey, Elizabeth Hanson, Edith Johnson, Effie Larson, K. McKilla, Elizabeth Mussato, Robert McKinnon, Donald Matheson, John Owen, Ethel Silverthorn, Hedrick Strand, Harold Stafford, Oscar Vick and Robert Wilson.

Division III. (44 pupils)—Adner Almstrom, Henry Bakke, Daniel Draisey, Orville Docksteader, Martha Jackson, Ella Johnson, Harry Johnson, Angelina Mussato, Harold McDonald, George McGuigan, Olive McIntosh, Rubart Makwas, Helli Roine, Virgil Smith, Clarence Smith and Carl Vick.

INVESTS A THOUSAND DOLLARS IN BUILDING

Granby Company Decides to Assist Undertaking—Work Making Good Progress

The funds for the erection of the combined curling and skating rink for Phoenix, were considerably augmented last week, when the news was received that the Granby Consolidated had very generously decided to assist the project by investing the sum of $1000. The news of the company's decision is extremely welcome and caused quite a flutter of excitement among the townsfolk, who in the matter of hockey have few rivals in the province in their enthusiasm for that popular pastime. O. B. Smith, jun., who is mainly responsible for the company's action is deserving of considerable praise, his interest in the realm of healthy sport being proverbial throughout the entire boundary country.

Interviewed the other day, Les. Connell, who is in charge of the building operations, said that so far there had been little interference with the work on account of the snow, which he thought would not greatly impede matters. The installment of waterpipes was commenced this week and on Wednesday a shipment of timbers arrived which will be ample for foundation purposes. The sheet of ice to be devoted to skating will have a dimension of 170x70 feet, considerably in excess of that in the old rink, which only measured 90-75ft.

SOME SNAPS IN THE GROCERY DEPARTMENT

St. George Cream, large cans, 10c.
Pink Salmon, 2 Tins for 25c.
Australian Mutton, per tin, 15c.
Corn Beef, per tin, 15c.
Kelowna Tomatoes, 2 tins for 25c.

Additional Reductions

Fancy Dry Onions, 8 lbs. for 25c.
Fancy Apples, 5 cents per lb.
Gold Coin Butter, 40c. per lb.
10 lb. boxes Macaroni, 85c.
Icing Sugar, 2 lbs. for 25c.

This is the only store in Southern British Columbia which is constantly making reductions in price, this is due to the fact that we buy in large quantities, and deal direct with the Manufacturers.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Every Woman
is interested and should know about the wonderful
MARVEL Whirling Spray
The new Vaginal Syringe. Best—Most convenient. It cleanses instantly. Ask your druggist for it.

Concentrates

According to a recent census, there are 104,956 Indians in the Dominion and about 4600 Esquimos.

Heaven help us! the Douks are about to invade Phoenix. A settlement will most likely be founded on Spion Kop.

Three undefended divorce actions were tried before Mr. Justice Morrison last week and absolute decrees were granted in each case.

The extensive ranch at Quilchena formerly owned by Raspberry Bros., has changed hands. There are upwards of 9000 acres of excellent range and agricultural land.

The ladies of Canyon city must be a fierce lot. They have recently organized a "ladies aid," and the Creston Review seems to think there will be some demand for hair restorer.

Thirty thousand members of the British naval reserves have received warning to hold themselves in readiness for immediate service. In veiw of the present European situation, this is regarded as of grave significance.

As a result of the conference between the cannerymen of British Columbia and the representatives of the provincial cabinet at Victoria recently, Hon. Sir Richard McBride, premier, and Hon. W. J. Bowser have gone to Ottawa.

Colonel W. P. Anderson, chief engineer of the department of marine and fisheries, has been appointed to represent the Canadian government at the convention of the river and harbor congress to be held in Washington in December.

It has been discovered that fifty-five thousand miles of screens a year are required now to satisfy the demands of the moving picture houses. That is enough to wrap the earth twice around at its thickest part, and still have some to spare.

"Newsy" Lalonde and Donald Smith, two hockey players, who played for Vancouver and Victoria, respectively, last winter, will leave Cornwall, Ont., about the middle of November for the coast and will play in the Pacific Coast League this season.

Announcement was made this week that within one month there will be at work fifteen hundred men on the construction of the railway line between here and Fort George. Wagon loads of supplies are now being sent in by the contractors, Messers. Foley, Welch and Stewart.

Edwin Stokeley, convicted of the murder of his prother Frederick in July last, was sentenced a few days ago at Calgary by Mr. Justice Walsh to hang on January 24. His lordship refused a new trial and remarked on passing sentence that there was no "excuse in this land of ours for anybody carrying a gun".

The federation of the British West India colonies is probably to be brought before the British government for approval very shortly. The proposed federation has been much discussed since the colonial office granted permission for the trade agreement between Canada and the West Indian colonies.

An order from Ottawa has been received by the superintendent of the Dominion park, at Wainwright, to take immediate steps towards killing about 50 of the oldest bull buffaloes. Quite a number of them have passed the half-century mark and are being attacked by the younger bulls. The herd numbers about 1000.

Weather and traffic conditions on Lake Superior never were better. Several boats had to return to port this week owing to a heavy northwest gale, but the wind has calmed and full through traffic has been resumed. Elevators are working day and night giving dispatch to grain boats, but notwithstanding that fact a blockade at the elevators is faced.

Ben Pugh, an old man from the provincial home, who is an interdict got into trouble recently with the provincial authorities, when he managed to procure enough liquor to become drunk. When arraigned before the magistrate at Kamloops, he stated that the whiskey always had the peculiar result with him of affecting his memory and he could not recollect from whom he got it.

That there is a female Raffles in Vancouver who rivals the famous Diamond Sappho of New York and Chicago, is indicated by the fact that in the home of Mr. Walter H. Smith, 1831 William street, which was burglarized last week and a quantity of jewlery stolen, a hairpin, colored and lacquered to suit blonde hair, was found lying on the floor of the dining-room.

The Provincial Game Warden draws attention of trappers to the fact that it is illegal to set traps for bear south of the C. P. R. line, and that anyone found violating this statute will be prosecuted accordingly. This precaution has been found necessary owing to the rapid settlement of the district south of the railway line, and the setting out of bear traps and pitfalls is detrimental to the safety of the settlers.

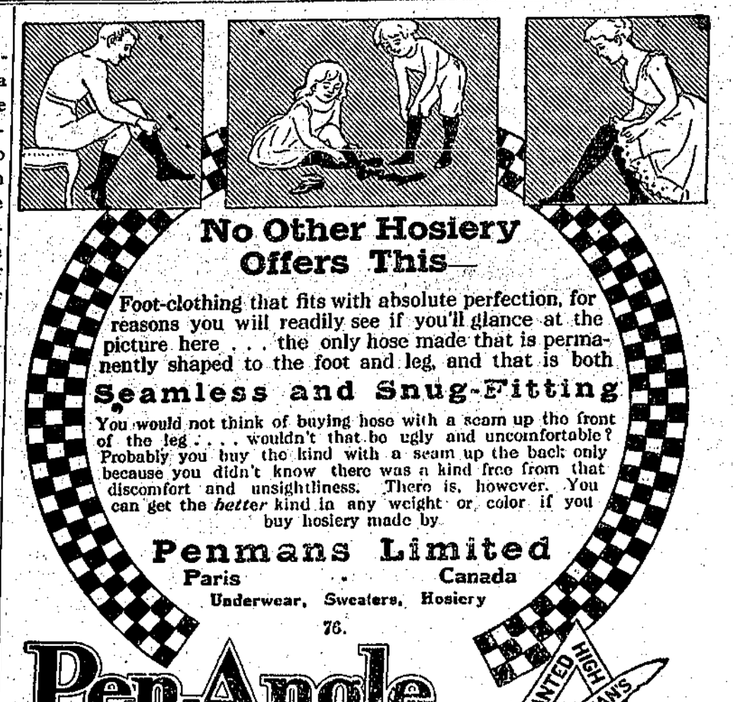
In future the men who enlist for service in Uncle Sam's army will enlist for a period of seven years, instead of four years as heretofore. This is in accordance with the long term provision of the new recruiting law. Only four years of active service are to be required, however, after which the soldier who does not care to re-enlist will be transferred to the army reserve, without pay or allowance, but subject to recall at a moment's notice. Through the creation of the reserve, the nation will be able to greatly increase the army without delay and without asking for volunteers.

Dominion Forestry Service

The forestry branch of the Department of the Interior has had a number of parties out during the past season continuing the examination of the unexplored districts to find out the supply of timber on Dominion Lands and determine the lands which should be reserved permently for timber purposes. These parties are generally in charge of graduates of the Forest School of the University of Toronto. The work for the season is almost completed and the parties are now returning from the field. Two of the parties have already reported.

Mr. S. H. Clark examined during the past season the district lying north of Lac LaBiche and east of the Athabaska River in Northern Alberta, which is along the route which was proposed for the Alberta Great Waterways Railway. The season was wet, and, as the district was found to be covered largely by muskeg, the examination of it was difficult. The muskegs were almost impassable, and the few trails that were found are in bad condition. In spite of the condition of the trails quite a large number of people were going in to Fort McMurry to locate.

It had been reported that there was considerable large timber north of Lac LaBiche, but the examination brought out the fact, which has too frequently been the case, that the quantity of large timber is small and only in a few scattered areas. There is, however, a large quantity of immature spruce and Jack pine which needs only protection from fire to be a most valuable crop for both pulpwood or lumber. The land is generally covered with muskeg, and the soil, nowhere first-class, becomes lighter and sandy towards the east, where it consists of sandy Jack pine ridges with muskeg between. The undrained muskegs make the timber growth slow, but the whole district is more suited for timber growth than for agriculture.



No Other Hosiery Offers This—

Foot-clothing that fits with absolute perfection, for reasons you will readily see if you'll glance at the picture here . . . the only hose made that is permanently shaped to the foot and leg, and that is both

Seamless and Snug-Fitting

You would not think of buying hose with a seam up the front of the leg . . . wouldn't that be ugly and uncomfortable? Probably you buy the kind with a seam up the back only because you didn't know there was a kind free from that discomfort and unsightliness. There is, however. You can get the *better* kind in any weight or color if you buy hosiery made by

PILES

Nothing known to Science is better for this painful ailment than Zam-Buk. It reduces inflammation, stops bleeding, ends the agony. Easily applied and cleanly. Why go on suffering? Why not try it? Read the following cures.

Some Proofs of Zam-Buk's Power.

MR. THOMAS J. HOGAN, Champion Clog Dancer of Canada, 59 Chambord Street, Montreal, writes:—

"For some time past I have been troubled with Piles, but this year I suffered so much that I was obliged to cancel a number of engagements. I tried all the so-called remedies that were recommended, but they seemed to do me no good. Having been advised to try Zam-Buk, I purchased a fifty-cent box and after applying it a few times I felt marked relief. I continued with the Zam-Buk treatment and the relief was extended into a permanent cure.

MR. WILLIAM KENTY, of Upper Nine Mile River, Hants Co., N. S., says:—"I suffered terribly from Piles, the pain at times being almost unbearable. I tried various ointments but all failed to do me the slightest good. I was tired of trying remedies when I heard of Zam-Buk, and thought as a last resource I would give this balm a trial. I procured a supply, and after a very short time Zam-Buk effected what several other ointments and medicines had failed to effect—a complete cure."

Zam-Buk also cures ECZEMA, BLOOD POISON, ULCERS, COLD SORES, CHAPPED HANDS, SCALP SORES, CUTS, BURNS, BRUISES, SCALDS and all SKIN INJURIES and DISEASES. All druggists and stores, or Zam-Buk Co., Toronto, post free for price. Refuse harmful substitutes.

GRANBY BAY

"THE PAY ROLL TOWN"

Home of the 2000-Ton Per Day Granby Copper Smelter

and sawmill now producing over 600-000 feet of lumber per month, both owned by the Granby Bay Consolidated Mining, Smelting & Power Co., Ltd., a corporation with assets of over seventeen millions!

The mines at Granby Bay already have the stupendous total of 4,500,000 tons of rich copper ore "in sight" and the mining carried on in the winter of 1911-12 proved the wealth of the properties beyond guess-work. The ore now in sight will keep the smelter busy 75 years. Think of it! And this not taking into account various other adjoining properties, some under option to the Granby Co. It is estimated that the Granby Co. can produce copper here for 23 cents a ton cheaper than at its Grand Forks smelter. When the big smelter is completed the total investment of the Granby Co. here is expected to be nearly two millions and that over 1,000 men will be employed here.

When you consider the fact that today two bustling cities in British Columbia are almost entirely supported by the payrolls of this company—Phoenix and Grand Forks—you can get an idea what Granby Bay will be.

Granby has a good deep-water harbor and today the G. T. P., the C. P. R. and the Union Steamship Company operate regular steamers to this point.

Granby Bay is going to be a Payroll Town. And that is the kind of a town that is always "up and doing." A conservative estimate places the number of men to be employed at 1,000 and their monthly payroll at about $100,000, without figuring on any other industries outside of the properties and smelter of the Granby Co.

Grasp those facts!

Granby Bay is in the very heart of a developed, fabulously rich copper mining district.

Granby Bay has a smelter owned by a formidable commercial giant, the Granby Company.

Granby Bay will have an immense payroll every month.

Granby Bay must have have a population of over 1,000 people.

Granby Bay is a seaport.

Granby Bay can produce copper cheaper than in places where big profits are made from mining and smelting.

Every lot in Granby Bay is a gilt-edged investment.

Only a few choice lots are being offered for sale in Granby Bay Towhsite—and there is not much doubt that they will be snapped up quickly. The prices are very low. To avoid disappointment applications for lots should be made now. The Continental Trust Co., Ltd., of Prince Rupert, is acting as trustee for the property. Fill out the coupon and mail today for full particulars, maps and prices.

That Wonderful Event

IF THERE is a time above all times when a woman should be in perfect physical condition it is the time previous to the coming of her babe.

During this period many women suffer from headache, sleeplessness, pains of various description, poor appetite, and a host of other ailments which should be eliminated in justice to the new life about to be ushered into this world.

DR. PIERCE'S FAVORITE PRESCRIPTION

is a scientific medicine carefully compounded by an experienced and skillful physician, and adapted to the needs and requirements of woman's delicate system. It has been recommended for over forty years as a remedy for those peculiar ailments which make their appearance during "the expectant" period. Motherhood is made easier by its use. Thousands of women have been benefited by this great medicine.

Your druggist can supply you in liquid or tablet form, or you can send 50 one-cent stamps for a trial box of **Dr. Pierce's Favorite Prescription Tablets**, to Dr. Pierce, at Invalids' Hotel and Surgical Institute, Buffalo.

It is your privilege to write to Dr. Pierce for advice, and it will be gladly given free of charge. Of course all communications are confidential.

SATURDAY, NOV. 9, 1912

German Military Instructors

Field Marshal Von Der Golz, the chief of the German General staff, who is reported to be mainly responsible for the "rejuvenation" of the Turkish soldier, has not, in the light of recent events, accomplished much to be proud of, particularly in the matter of organization. But in spite of his great failure, the civilized world owes him and his assistants an everlasting debt of gratitude for the work he didn't do and which has made it possible for the armies of the Cross to triumph over the motley legions of the Ottoman Crescent. It would seem that we have placed too much stock in the German military system. During the Zulu war it became a fixed maxim with the German lieutenant that he was the equal in military intelligence of a British lieutenant-colonel of the line, but the uprising in German West Africa forced our warlike cousins to quickly alter their opinion on the matter, and as in the case of the lieutenant, so it is in the matter of generals, the much-vaunted German military system has not come up to expectations, while the criticism by the American officers of German army tactics have been amply justified by the recent disasters to the Turkish arms.

During the iniquitous reign of the "great assassin," Abdul Hamid, the deposed Sultan of Turkey, the German Emperor made a somewhat pompous pilgrimage to Jerusalem, and in thanking the Ottoman monarch for certain courtesies on the trip, referred to the blood-guilty scoundrel as "my friend the Sultan," and if the press reports are to be relied upon, the war lord has not lost any of his affection for the royal exile, for in order to show his fondness he has ordered a German ship to be on hand to remove to safety, what W. E. Gladstone aptly described as the "incarnation of hell's worse type." The Kaiser has even asked the Almighty's blessing on Abdul, and in a speech piously remarked "God Bless the Sultan," a sentiment that was received with horror throughout the Christian world, and evoked from Dr. Parker in one of his sermons, the retort, "God Damn the Sultan," his immense congregation rising as one to show their sympathy with the eminent divine. The Kaiser has professed his friendship for many strange people, but his love for the great murderer "passeth all understanding."

Motion Pictures

One of the most important departments of public entertainment is that provided by moving picture shows, says the Victoria Colonist. They afford pleasure to many thousands, to whom more expensive entertainments are closed by reason of expense. There may be objections to them on the score of their affect upon the eyes, but they do not appear to be very serious. At least, after a number of years' experience, the medical profession has made no very earnest representations on that score. This being the case, it must be admitted that whatever can supply the public with a cheap, informative, and amusing entertainment is worthy of encouragement. In this connection the following observations from the Denver Republican are timely:

But beyond the revolution the motion picture has worked in the matter of optics, comes the development of the "movies" as means of entertainment. It has spread to a degree unheard of. Never can the "legitimate" theatre hope to reach as many people in a week as the moving picture film reaches in a day. The great mass of people now has its playhouse, which may be nothing more than a made-over storeroom. As soon as the moving picture man begins to turn the crank, all the joys of the world are flashed before the observer's eyes. To keep this great educational force clean should be one of the objects of the state. America has taken the lead in film production, which speaks well for the tendencies of moving picture audiencies, for most of the American fims are clean and breathe of the outdoors. Such a vast force for public good or evil should be kept above reproach. Infinite capacities for good or evil lurk in the "movies," and the evil should not be allowed to creep in.

Rise in Precious Stones

"Diamonds are dearer, and the cost of all precious stones is rising. Last week there was an increase of from 5 to 10 per cent in the cost of all precious stones, the price of which during the past month has risen fifteen per cent. These increases are likely to continue," says a prominent British importer. "The ever-growing demand for diamonds is exceeding the supply. There are thus smaller supplies at bigger prices. The demand from the United States is very great. During the last ten years the prices have advanced 300 per cent. The making of colored stones and fashionable sapphires has gone up fifty per cent. Emeralds are much more expensive, while pearls have become enormously costly."

There are over 100 oil burning locomotives in B. C.

Listen!

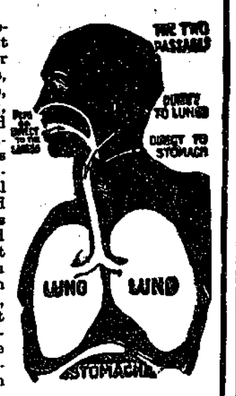
Have you heard about Peps?

Peps is a new scientific preparation put up into tabloid or pastille form, which provides an entirely new and effective treatment for coughs, colds and lung and throat troubles.

There is no connection between the lungs and the stomach.

Suppose something were wrong with your stomach—say indigestion, or ulceration—would you think of taking some medicine which went—not to your stomach, but to your lungs? Certainly not!

Why then, when your lungs and chest are affected, should you dose your stomach—an absolutely separate organ—with medicine? Is it not far better to treat the ailing organ direct?

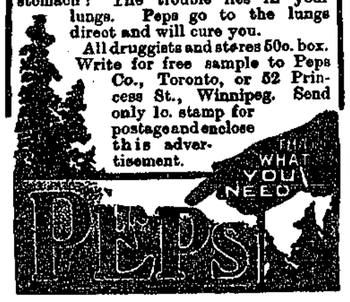


Peps provide a direct treatment for coughs, colds, bronchitis, and all lung, chest and throat troubles. Peps contain highly medicinal essences and pine extracts condensed into tablet form. You put a Pep on your tongue, and as it slowly dissolves, these volatile essences turn into vapor. You BREATHE the remedy to your sore ailing lungs direct—not swallow it to your stomach, which is not ailing. (See diagram.) The healing fumes, thus breathed down, bathe the delicate, inflamed membranes of your breathing-tubes and pass right on to the tiny passages of the lungs—a course no liquid or solid medicine could possibly take.

Peps fumes are healing and antiseptic. They heal sore tissue and kill disease germs. Peps bring pine-forest fumes to your home, instead of you going to the pine forest!

For that cold, that night cough, that touch of bronchitis, don't dose your stomach! The trouble lies in your lungs. Peps go to the lungs direct and will cure you.

All druggists and stores 50c. box. Write for free sample to Peps Co., Toronto, or 52 Princess St., Winnipeg. Send only 1c. stamp for postage and enclose this advertisement.



NERVOUS, LIFELESS DEBILITATED MEN

YOUNG MEN AND MIDDLE-AGED MEN, the victims of early indiscretions and later excesses, who are failures in life—you are the ones we can restore to manhood and revive the spark of energy and vitality. Don't give up in despair because you have treated with other doctors, used electric belts and tried various drug store nostrums.

Our New Method Treatment has snatched hundreds from the brink of despair, has restored happiness to hundreds of homes and has made successful men of those who were "down and out." We prescribe specific remedies for each individual case according to the symptoms and complications—we have no patent medicines. This is one of the secrets of our wonderful success as our treatment cannot fail, for we prescribe remedies adapted to each individual case. Only curable cases accepted. **We have done business throughout Canada for over 20 Years.**

CURABLE CASES GUARANTEED OR NO PAY

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. **Consultation Free.** No matter who has treated you, write for an honest opinion **Free of Charge. Books Free—** "Boyhood, Manhood, Fatherhood." (Illustrated) on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.

E. A. BLACK - The Jeweler

Local and General

W. S. Macy of Spokane, was in town for a few days this week.

Mrs. Turner and daughter booked for Princeton on Monday.

There is an excellent opening in Phoenix for a dentist.

Miss M. McDonald is paying a short visit to Nelson.

Jas. E. Carter, C.P.R. agent, left on Friday on a business trip to Nelson.

Sam Matthews and Frank Peterson were visiting in Grand Forks on Friday.

E. E. Campbell, mining expert for the Granby company, left on Monday for Spokane.

John Bradshaw, the Nelson fire bug, was sentenced to three years in the penetentiary.

On account of the dance on Tuesday, Nov. 12th, the motion picture show will commence at eight o'clock sharp.

Mrs. J. Campbell, of Grand Forks, arrived in town, on Saturday, for a few days' visit to her parents, Mr. and Mrs. T. Richards.

The opening night of the Camera club has been fixed for next Wednesday, November 13, when a full attendance of the membership is expected.

Mrs. G. W. McAuliffe and son, Gust, arrived in town Wednesday from their ranch near Kamloops, and have taken up residence on Brooklyn ave.

Mr. and Mrs. H. M. Laing returned this week from a visit to the provincial capital and other coast points. They have taken up their residence on Brooklyn avenue.

Norman McLeod is enjoying a short vacation among his friends in the Queen city. John Morrison is compounding prescriptions during his absence.

Frank Peterson with John E. Anderson returned this week from a successful hunt up the main Kettle river. The rig was loaded with three fine deer.

Ed. Stanaway returned to town on Thursday from Midway, where he has had charge of Morrin, Thompson and company's auto on the Midway to Beaverdell stage run.

Mrs. R. Lindsay and son are expecting to leave during the course of next week for Montreal, en route for Scotland. Mrs. Lindsay intends if the attractions of Scotland are strong enough, to make a long visit.

Hidden Creek.—Yes. More than you were astonished at their singing. We agree with you that an effort should be made to induce them both to appear in a Christmas Cantata. Some even assert that nothing like it has ever been heard in the town.

John Morrin returned a few days ago from an auto trip through the Okanagan and Similkameen districts, where he has been demonstrating the superior advantages of the 1912 model Overland car, of which his company are the accredited sole agents for southern British Columbia.

F. Hayhurst, who has charge of the clearing out sale of C. F. Edwards' house-furnishing establishment, and who announced his intention of keeping at it until there was nothing left but the bare walls, bids fair to have his intentions realized sooner than he had anticipated. The sales so far have been phenomenal and the bare walls are beginning to make themselves very evident.

The Phoenix Miners' Union have announced their intention of giving a free smoking concert in their hall, tonight, Saturday. An attractive program has been prepared for the occasion, consisting of boxing bouts, songs recitations, etc. Chas. E. King will officiate at the piano and an invitation is extended to all members who are musicians to bring their instruments and contribute a share in the evening's entertainment.

Andrew Thompson, who has been visiting his daughter, Mrs. Chas. Lackie and Miss Nellie Thompson, left on Friday for his home in Nanaimo. Mr. Thompson, who was suffering from impaired health when he arrived here, is loud in his praise of the Phoenix climate which worked wonders in his case.

"Kid" Olmen, a fistic gladiator, of Skidegate, B.C., writes us that he is losing considerable nightly repose owing to his unavailing search for a foeman worthy of his serious attention. "I am willing to meet any man in the world at 150lbs," he says. "My record may be obtained by writing to the Wisconsin State Journal, Madison, Wisconsin and the Daily Times of Fairbanks." He is a veteran of 39 slogging encounters and has lost but two on decisions.

Those popular entertainers and musicians, Messrs. Chas. King and Ed. Dyer, announce a dance on Tuesday next, Nov. 12th. Needless to say there will be a large attendance. Some novel features are to be introduced with the new dances in addition to some of the old favorites. The newest and prettiest production is the "rainbow" dance, which will be given with M. P. Wetherel in charge of the electric effects. An effort is to be made to make the dance a special success and a fitting opening to Messrs. King and Dyer's season.

The prevalence of deer in the immediate neighborhood of Phoenix has of late been quite marked. Their tracks have been seen less than three miles away and a few days ago one was seen close to town crossing the provincial road. The nearest, however, was that sighted on Sunday last by the train crew. The animal, which was a fine buck was first sighted coming down the mountain above McKays' ranch and actually came within three or four hundred yards of the Great Northern trestle. Geo. Rogers, who was on the work train en route for distant hunting fields, at once descended and covered a couple of miles in pursuit, but unfortunately George's wind supply gave out and Mr. Mowitch made a safe getaway.

A Warning

In order to avoid serious confusion, we have been requested to state that the Granby Bay townsite, lots of which are now on the market, is in no way connected with the Anyox townsite of the Granby company. The latter of course is directly adjacent to the Hidden creek mine and smelter site, while the location of the former is some two miles distant across the bay.

Phoenix Athletic Association

Work on the gymnasium of the Phoenix Athletic Association is progressing very rapidly. The basket ball outfit has already been installed and daily practices are being held as a result of which former exponents of the game feel assured they can "come back" while beginners are quickly acquiring knowledge and skill. A system of steam heating for the gymnasium is practically completed. The sec. is already corresponding with Nelson and Rossland with a veiw of meeting the basket-ball quintettes of those cities. The first regular meeting of the association is to be held at the Granby office on Tuesday evening Nov. 12th, at 7.30.

HOUSE FOR SALE.

The property known as the Biner block; best location in town; four suites of three rooms each; well furnished for housekeeping; all rented. Lower floor can be used for any kind of business; very cheap, part cash, rest terms; no encumbrance; clear, title; a money-making chance to right party. See owner on premises.

Church Services

The Services on Sunday in St. John's Church are: Holy Communion at 7.30 a.m., Morning Prayer at 10.30, Holy Communion at 11 a.m., Sunday School at 2.30 p.m., Evening Prayer at 7.30. Rev. L. B. Lee, Rector.

The stated services in the Catholic church are as follows: First and third Sundays in the month. Mass at 10 a.m., Sunday School at 2.30 pm.; Evening Service at 7.30 p.m. Rev. Father Choinel, pastor.

Methodist Church—Sunday school and Bible class, 2.30 p.m.; evening service, 7.30 p.m. Prayer meeting, Thursday evening, at 7.45 p.m. Rev. J. J. Nixon.

St. Andrew's Presbyterian church—Service will be held in the above church on Sunday, Nov. 10th, at 7 30 p.m. A cordial welcome. Rev. J. R. Munro, pastor.

NYAL'S BEEF IRON AND WINE

This is a delicious tonic worth trying. We never ask anyone to buy the second bottle—they always buy it without asking.

Delicious in taste, it contains iron to enrich the blood, peptonized (digested) beef to feed the tissues and choice wine as an appetizer. If you feel worn-out, tired and run down, you need a tonic; you couldn't fine a better one than this. We sell a great deal of it—like all Nyal remedies it is of highest quality. We can sell you cheaper kinds, but you will be glad you paid a **$1.00 for Nyal's.**
