

The largest copper mines in the Dominion are situated at Phoenix. The Granby Co. employs 500 men, and has a monthly pay roll of over \$50,000, while the Rawhide pay roll is \$18,000.

THE PHOENIX PIONEER

Devoted to the Interests of the Boundary Mining District

FOURTEENTH YEAR

PHOENIX, B. C., SATURDAY, NOVEMBER 23, 1912

NUMBER 19

PHOENICIANS BUY THE COLIN HOTEL

Theo. Biner sells to Sam Matthews and Frank Peterson—Consideration \$14,000.

The Colin hotel, one of the most desirable pieces of hotel property in the Grand Forks district, changed hands again to-day, Saturday, when Theo. Biner, of the Phoenix Brewing company, transferred his proprietary interests to Sam Matthews and Frank Peterson of Phoenix. The consideration is stated to have been \$14,000. The premises is one of the most favorably situated in the district, being located in close proximity to the Great Northern depot at the Forks, and has recently been completely renovated and fitted with a very serviceable steam-heating plant. Messrs. Matthews and Peterson have been residents of the camp for years, and in view of their well-known business ability and the future prospects of the Forks as an important railroad centre, the purchase has the merits of proving a highly remunerative one.

Basket Ball Game

A fast and exciting practice game of basket-ball was witnessed on Tuesday evening by a number of interested spectators. These were unanimous in expressing the opinion that the game would in future be one of the favorite pastimes of the young men of the city, filling in as it does that hitherto dull period between summer and mid-winter sports.

A regular schedule of games is to be played each Tuesday and Friday evening between four teams captained by Messrs. McCoskrie, Crane, Swanson and Barnes. The games take place in the rooms of the Athletic Association on Ironsides avenue, and visitors are cordially welcome.

Ski Club Arrangements

The energetic attempt of the Phoenix ski club to arouse a more general interest in the fine winter pastime of ski-ing, has so far met with a favorable response, quite a number of novices having signified their intention of learning the mysteries of the art. The advertised meeting for the purpose of organizing the club took place a few days ago, when the election of officers for the new term occupied attention, the following being selected: Hon. pres., F. Norcross, jun.; E. Engen, pres.; R. Elmgren, vice pres.; Ernest Olson, sec.-treas.; A. O. Johnson, Hans Hanson and Helmer Bakke, trustees. Arrangements were also made for the holding of a dance on December 20th. Some discussion also took place on the matter of changing the location of the ski course from the outskirts to the centre of the town, near the rink, and a committee was formed to interview the rink authorities.

McNevin-Mayhew

The wedding of Miss Elva Abi Mayhew and Neil McNevin took place on Wednesday, Nov. 13th, at the Grand Forks Presbyterian church, the pastor, Rev. M. D. McKee, officiating. The happy couple have taken up their residence in Grand Forks where both the contracting parties have resided for a number of years. The bridegroom is a brother of Hector McNevin, a former well-known resident of this town.

Slight Stoppage of Ore Shipment

The freezing of a furnace at the smelter in Grand Forks necessitated the loss of a couple of shifts' work in the Granby mine, this week. Operations, however, have been resumed and the regular shipments continued. An over supply of ore for the British Columbia Copper company's smelter also brought about a similar cessation of work at the Rawhide mine.

B. C. COPPER COMPANY BUYS NEW CLAIMS

New Property Considered More Valuable than Voight Claims.—B.C. Copper Stock, \$4.50.

The B. C. Copper Co. is operating six diamond drill outfits in the Copper Mountain district, near Princeton, B. C., where it has the Voight property, and also another group of claims of approximately 200 acres, under option. The results of this work have been so satisfactory that the company have made initial payments on the last mentioned group of claims; but it has not yet been fully decided that the Voight property, the option on which expires December 21, will be purchased. The indications are that the smaller group of claims, the price of which is considerably lower, is a more valuable property than the Voight itself.

British Columbia has slightly less than 600,000 shares of stock outstanding. The par value of its stock is \$5.00, and on this it is now paying twelve per cent dividends—that is, 15 cents per share quarterly. To keep up these disbursements requires net earnings of about \$30,000 monthly; and although its ore has been running unusually low of late, for reasons previously explained, the monthly profits considerably exceed dividend requirements. October earnings having been about \$47,000.

Notwithstanding these splendid operating results, large dividend yield, the fact that the company has very strong financial backing, an efficient and progressive management, and that one and possibly two more valuable mines will soon be purchased, the stock is now selling around \$4.50 per share on the New York curb. It would seem to present an unusually attractive speculative and mining investment opportunity at this price. If new mining property is to be bought and developed it stands to reason that the necessary financing will be anticipated by a considerable advance in the price of stock.—Boston Commercial.

Cabinet Minister Elected

Hon. Louis Coderre, who was recently appointed secretary of state in the Borden cabinet, was elected by his constituency on Tuesday with a decisive majority of 2206 over his opponent, Louis Doyon. So meagre was the support given to the Liberal candidate that his cash deposit was forfeited, he having failed by ninety votes to poll the necessary minimum. Of the total vote polled, the Dominion minister succeeded in capturing 4222, while Mr. Doyon was let down with 2016.

While no doubt existed as to Mr. Coderre's ability to hold the seat, considerable surprise was manifested at the size of his majority, while no one had the temerity to predict that the opposition standard bearer would lose his deposit. The naval issue was kept well to the fore and no side issues appear to have intruded themselves. In view of Mr. Borden's expected naval statement, the result cannot but be regarded as significant.

Boundary Ore Tonnages

Following are the returns of the output of the Granby mines and smelters for the week ending Nov. 17th, and the B. C. Copper company for the week ending Nov. 10th, and year to date:

Granby.....	20,858	1,089,866
Mother Lode.....	6,432	408,945
Rawhide.....	6,734	223,357
Napoleon.....	738	11,912
Queen Victoria.....	66	66
Others.....	340	11,979

SMELTER TONNAGES

Granby.....	23,385	1,097,297
B. C. Copper Co.....	15,255	580,180

Barrister Visits Old Friends

Among the visitors to the camp this week was A. McNeil, barrister, of Fernie, B. C. He is attorney for District No. 6, Western Federation of Miners, and is here on business connected with the affairs of the federation, and incidentally to visit old chums of his, the McPherson boys, whom he had not seen for fourteen years. Mr. McNeil, who is still a young man, was at the outset of his career, a blacksmith, and successfully practiced his trade for three years in Guysboro Co., Nova Scotia. But his quest for knowledge induced him to give up his trade and enter the University of St. Francis Xavier, from whence he graduated with high honors four years later. After teaching school in the west for some years he finally entered Dalhousie University for the study of law. He was admitted to the bar in British Columbia last April, and has now acquired an extensive and lucrative law practice in Fernie. It is confidently predicted by those who know him that he will prove just as skillful and successful in welding together the links in a chain of evidence as he was in welding the steel or iron at his former trade back in his native province of Nova Scotia.

Sullivan-Hartman

A wedding of much local interest took place on Wednesday, November 20th, at Grand Forks, when the Rev. Father Beck solemnized the nuptials of John H. Hartman, manager of the Queen's hotel, Phoenix, and Miss Agnes Sullivan, also of this city. The ceremony was performed at the residence of the bride's sister, Mrs. M. J. Quinliven, and the bride was attended by her sister, Miss Maggie Sullivan; while M. J. Quinliven, brother-in-law of the bride gave her away. After the wedding, the bridal party drove to the Colin hotel, where the wedding repast was served and later in the afternoon Mr. and Mrs. Hartman left for Marcus en route for Spokane and the coast.

Curling Club Elect Officers

A meeting of the members of the Phoenix Curling club was held on Thursday evening, and the following officers were elected: J. A. Miller, president; J. F. McDougall, vice-president; and A. F. Geddes, secretary-treasurer. A committee was also appointed to make arrangements for the coming season. The matter of arranging skips and rinks will be taken up at a future meeting. The financial standing of the club is excellent.

Overtime at Jewel Mine

Reports from the Jewel mine, on Long Lake, continue to be of a gratifying nature, and while no returns as to cleanups are obtainable, the continued activity on the property seems to promise well for the future. The underground work is being vigorously pushed and considerable overtime is being done at the stamp mill. It looks as if the old mine was coming into its own.

Women's Suffrage Movement

Miss Dorothy Davis, organizer of the B. C. Political Equality League, arrived in Phoenix on Friday, but owing to an unfortunate misunderstanding, she was unable to arrange a meeting for the evening of her arrival. She however, purposes to hold a meeting next Friday, of which due notice will be given. She expresses the hope that any local ladies interested in the movement will communicate with her in Nelson. She leaves this morning for Grand Forks.

Meeting of Liberal Association

A meeting of the Phoenix Liberal Association will be held on Wednesday next, November 27th, in the committee room of the Miners' Union hall, at 7.30 p.m. A cordial invitation is extended to all interested to be present.

A. H. McPHERSON, Sec.

B. C. Mining

The Standard mine at Silveston has declared a dividend of \$50,000 this month, according to a communication received by Nelson stockholders. This brings the total distributed by the company since April last \$375,000.

P. J. Higgins, of Rossland, is in receipt of a telegram from Duke Harris, dated Hazelton, stating that three feet of high-grade silver-lead ore has been uncovered on the 100 foot level of No. 1 claim of the American Boy group, located a short distance from Hazelton. The group is owned by the Harris Bros. and considered a very valuable property.

It is reported that an important strike has been made in the Van Roi, located at Four-mile, in the Slokan district, on the No. 7 level. The Van Roi has been and probably will be one of the largest producers of high-grade ore in the province. Ernest Levy, manager of the Van Roi, and of the Number Two properties, has been at the Van Roi for several days past looking over the mine and particularly the strike.

A meeting of the Iron Horse Mining Co. was held in the offices of E. S. H. Winn at Rossland on Tuesday, and it was resolved that the company should go into liquidation. There will be another meeting on or about the 27th of November, when the shareholders will ratify the action of this meeting. The property of the company consisting of the Iron Horse mineral claim, has been sold to the Consolidated Co. for \$10,000, and there is about \$5,000 due to the creditors of the company.

According to the "Kootenai", the Florence Silver Mining Company, in which Spokane people are heavily interested, made its first shipment from the Florence mine at Ainsworth, on Tuesday. The company has been working the property, which is now considered one of the most promising in Ainsworth camp, for some time, and the completion of the wagon road to the mine a few days ago made it possible to start shipment of ore. The initial shipments consisted of three cars of very high-grade ore and the present plans are to maintain shipments throughout the winter at the rate of a car per week.

Charles Cammell, the Dominion geologist, whose reports as to the presence of diamonds in the Tulameen placers created wide spread interest, has the following to say of his exhaustive field work in the above section:

"At the beginning of the season in the Tualmeen district, where field work had been carried out the preceding year, and where an interesting discovery of diamonds was made in the peridotite of that district, the place was again visited for the purpose of searching in the gravels of the stream and other places for diamonds of a larger size than those previously found in the solid rock. The season of the year at which the examination was made was not favorable for such work, because the streams were at high-stage and the most likely gravels could not be reached. Nevertheless some tests were made both on the gravels in the stream beds and on the decomposed rock which was already known to contain diamonds. Concentrates obtained by panning from each of these locations were submitted to R. A. Johnston, of the Canada Department of Mines, for examination, and in both samples Mr. Johnston was able to detect diamonds, not, however, of a commercial size."

"In this connection some work was also done, toward the close, on Scottie creek, a tributary of Bonaparte river, near Ashcroft, where diamonds are known to occur under similar geological conditions; and here also no diamonds larger than those previously found in the rock in place were obtained from the gravels."

DR. PRICE'S CREAM BAKING POWDER

A pure, healthful, Cream of Tartar Baking Powder

When buying an article of food you are entitled to know exactly what you are buying—its quality and ingredients.

If this information is refused don't buy it.

Some of the low grade baking powders are advertised, but the ingredients of the powders are scrupulously concealed.

A housekeeper would not use a baking powder containing alum if she knew it.

It is well when buying to examine the label on the can. Unless it shows the ingredient cream of tartar, don't buy it.

Dr. Price's baking powder is absolutely free from alum.

Concentrates

Nelson feels a boom coming.

Eighty per cent of the headaches are produced by defective eyesight. Question? Defective drinks would be nearer the mark.

Official announcement of the resignation of James Bryce as ambassador to the United States was made at the foreign office recently. Sir Cecil Spring Rice was appointed his successor.

Five hundred men and women, natives of Canada, and their friends assembled last week at the Hotel Astor for the eighth annual dinner of the Canadian club, which was followed by a dance.

The Pioneer mining Company of Nome Alaska, has made the biggest strike in years in an old channel opposite No 3 Anvil Creek, is the news from the north. The pay dirt runs 25 cents to the pan.

In view of the luke-warmness shown recent Canadian issues, it is noteworthy that the city of Sydney's half million four per cent, ten-year debentures at 97 have been considerably over subscribed.

One of the men concerned in the murder of Chas. Acheson, at Kamloops, is reported to be well and favorably known in Hamilton, the mayor of that town having telegraphed instructions for counsel to be provided for his defence.

Declaring that John Bradshaw, convicted of incendiarism at the Nelson assizes recently, had not been given a properly-conducted trial, the trades and labor council recently have decided to petition the minister of justice for a reprieve of the three-year sentence which he is now serving at New Westminster.

Speaking last week, Earl Selborne said some radicals had talked of stopping Lord Robert's pension because of his warning to be prepared, and when Lord Roberts heard this he said: "I am proud to have won a pension in the service of my country and shall be proud to lose it in her service."

Hugh O. Lyall, who was stabbed in a hotel at Grand Forks, recently, is the civil engineer in charge of the construction work being undertaken by the Canadian Pacific Railway in that city. Upon examination at the hospital it was found that he had received five wounds, one of which penetrated his lungs. His condition has considerably improved.

Russell Greenwood, a 14-year old boy, living with his parents near Royal Oak station, on the Vancouver-New Westminster interurban line, was instantly killed last week when he came into contact with a live wire. The wire had fallen in the afternoon when a tree fell across it, and everybody in that vicinity had been warned of the danger.

Using electricity the Walla Walla

Hothouse Vegetable Company has "slipped one over" on lettuce, and as result, four crops are now grown where three were produced. The theory is that the lettuce doesn't know when night comes and keeps on growing. Results are obtained by the use of eight 2000 candle-power flaming arc lights as soon as the sun goes down.

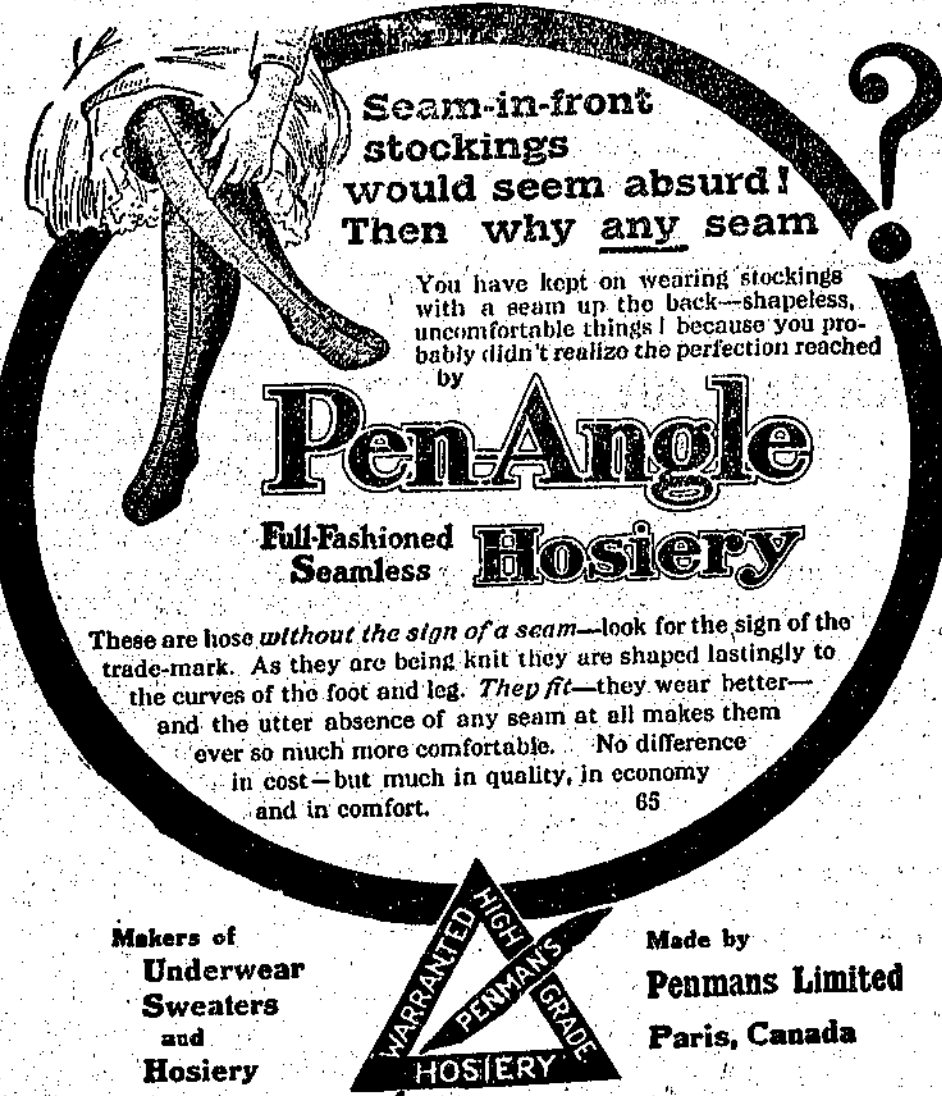

The Canadian High School Cadets are becoming more delighted with New Zealand as their tour of the islands draws near its end. The boys reached Rotorua a few days ago and attended a big Maori concert in the evening. The performers were in native costume, and the native dances and games excited the wonder and admiration of the boys from the sister Dominion. One and all, they voted it the best entertainment given in their honor during the entire tour.

The flower garden at the C. P. R. depot, at Grand Forks, has just been awarded the special cash prize offered by the railway company for the best-kept garden during the summer of 1912 at the depots in this division of the C. P. R., which extends from Arrowhead south to Nelson and Kootenay Landing and west to Midway. This is the fourth time this garden has won the divisional prize, and two years ago it was awarded the \$50 prize for the best appearing garden on the Canadian Pacific system in British Columbia.

Three hundred Mormon "missionaries" from the mormon town Raymond, south of Lethbridge, are to engage in what will be the greatest mission propaganda ever inaugurated in Southern Alberta by that sect. The work is to be conducted during the winter months, and all the territory south of the main line of the C. P. R. will be touched. The mission is under President Bradley, formerly president of the Swiss mission, and he will have assisting him business men and farmers of the best ability procurable. The plan is one which has recently been adopted in Utah, where it was found to be very successful.

The British commission which has been investigating the subject of divorce for several years, has now made public the result of its enquiry. The majority report recommends that the two sexes be placed on an equality before the law with regard to grounds for divorce, which shall be adultery, desertion for three years, incurable insanity after five years confinement, and habitual drunkenness found to be incurable after three years from issuance of first separating order. It recommends that all divorce cases shall be heard by judge alone, who is to be empowered to close the court during the hearing, and further to prohibit the publication of details.

The remains of an enormous mastodon, with tusks 12 ft. 6 in. in length has been found in Alaska.

Seam-in-front stockings would seem absurd! Then why any seam?

You have kept on wearing stockings with a seam up the back—shapeless, uncomfortable things! because you probably didn't realize the perfection reached by

Pen-Angle Hosiery

Full-Fashioned Seamless

These are hose without the sign of a seam—look for the sign of the trade-mark. As they are being knit they are shaped lastingly to the curves of the foot and leg. They fit—they wear better—and the utter absence of any seam at all makes them ever so much more comfortable. No difference in cost—but much in quality, in economy and in comfort.

Beware of Blood-Poison

Zam-Buk Is A Sure Cure

Mr. Jas. Davey, of 786 Ellice Avenue, Winnipeg says:—"A few months since I was cured of a poisoned finger through the timely use of Zam-Buk. I cut a deep gash across the knuckle on the first finger of my right hand in opening a lobster can. I suffered at the time with the soreness and pain but had no idea it would become a serious wound. However, in about two days I was greatly alarmed; as my whole hand and arm to the elbow became suddenly inflamed, and the finger was much discolored showing signs of blood-poisoning. The pain was dreadful and I was forced to leave off my work and go home."

"The wound on the knuckle had been poisoned by dust and dirt getting into it. I then decided to start the Zam-Buk treatment, and having first bathed the cut, I applied the healing balm. It soothed the pain almost instantly, and by next day there was a great improvement."

"In a week's time, through perseverance with this wonderful preparation, a complete cure was brought about."

Zam-Buk is just as good for eczema, ulcers, scalp sores, abscesses, piles, ringworm, boils, varicose ulcers, running sores, cold sores, chapped hands, etc. It draws all poisonous foulness from a wound or sore and then heals. Use it, too, for cuts, burns, bruises and all skin injuries. Zam-Buk Soap should be used in conjunction to the balm for washing wounds and sore places. Excellent, too, for baby's bath.

All druggists and stores sell Zam-Buk at 50c. box and Zam-Buk Soap at 25c. tablet. Post free upon receipt of price from Zam-Buk Co., Toronto.

Native Sons and Daughters

Native born sons and daughters of Canada, living in the United States, Canada and Europe, will be invited to participate in a Canadian drama, written by a Canadian author, and played by Canadian players, to be produced at the completion of the Grand Trunk Pacific transcontinental system in 1913 or early in 1914. H. C. Boyd of Edmonton, who suggested the idea, plans to make a tour of the principal cities of Canada, after which the play will be seen in the smaller cities and towns throughout the Dominion. The play will deal with development of Canada as a whole, introducing historical characters and scenes. Mr. Boyd is in correspondence with authors and players in various parts of the world and expects to make a definite announcement regarding his plans early next year.

PUBLIC NOTICE.

TAKE NOTICE that I intend to apply to the Superintendent of Provincial Police for a renewal of the Liquor License held by me for the Hartford Hotel, Hartford Junction. Dated at Phoenix, this 1st day of October, 1912.

(Signed) J. J. BASSETT.

SYNOPSIS OF COAL

MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

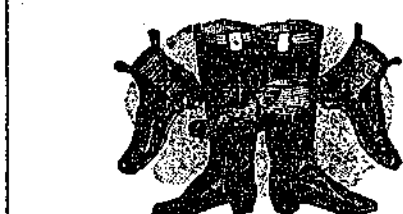

W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

St. Sophia

Should Constantinople again become the centre of a Christian power, reason would that the most venerable of Christian shrines should be restored to the purpose from which it had been for centuries perverted. That should, however, in such a case, be done with all possible respect for the best sentiments of those who would thus be despoiled of it. For the present there is no certainty that the invaders will hold Constantinople. On their behalf it has indeed been said that they will not attempt it, realizing presumably that to hold the key of the Bosphorus would be to put themselves in tutelage to the Powers. Turkey has been. On behalf of the powers it has been understood by many, that the displacement of the Turks will not be permitted. If they should not be going to restore the church to Christendom it would be an act of pure vexation to "desecrate" it.

St. Sophia, one of the greatest of religious structures, was built by the great Justinian, the law-giver, in the sixth century, and was for nine hundred years a Christian church, the most elaborate in the world. It is in the interior the most impressive of buildings. The religious mosaics are all plastered over, but the Italian who had this job, had also the faith that some day the building would be redeemed, and managed to place matting between the art work and the plaster. Howbeit the Most High dwelleth not in temples made with hands, and however we may desire to see a venerable building revealed in all its beauty, religion will be none the better for changing the rites that shall be performed beneath its dome. Religion is a spiritual thing that is only more or less belied by these formalities. — Montreal Witness.

The Government of British Columbia, which offered a reward of \$1500 for the conviction of the person or persons responsible for the series of incendiary fires at Nelson, will not follow the example of the authorities of that city, which has decided not to pay its offered reward of \$500 on the ground that the conviction of Bradshaw was secured for an arson committed outside the limit of the city municipality. "The offer of the reward by the province," said a responsible officer of the crown last week, "was to secure a termination of the repeated acts of incendiarism and the punishment of the person responsible. It makes no difference whether the fires for the setting of which a man was convicted, were within or without a city's limits. The provincially offered reward will be paid, of course."

Fit-Reform

MORRIN THOMPSON

Phoenix, B.C.

THE wonderful success of Fit-Reform is due to the fact that it enables thousands of men, in every part of Canada, to wear garments designed and tailored by masters of the craft.

Whether you select the lowest or the highest priced garments, you will find the same attention has been given to every detail.

An inspection of our Wardrobes will show you better than words what Fit-Reform offers you.

The Cheerful Life

It is the right of everyone to live and enjoy the cheerful life. We owe it to ourselves and those who live with us to live the cheerful life. We cannot do so if ill health takes hold of us.

The wife, mother and daughter suffering from hot flashes, nervousness, headache, backache, dragging-down feeling, or any other weakness due to disorders or irregularities of the delicate female organs—is not only a burden to herself, but to her loved ones.

There is a remedy. Forty years experience has proven unmistakably that

DR. PIERCE'S Favorite Prescription

will restore health to weakened womanhood. For 40 years it has survived prejudice, envy and malice. Sold by dealers in medicine in liquid or tablet form. Dr. Pierce's Favorite Prescription Tablets can be had of druggist or mailed on receipt of one-cent stamps—for \$1.00 or 60c size. Address: L. V. Pierce, M. D., Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

Mr. Neugebauer's Letter

Our statement a couple of weeks ago that in the light of recent events in the near east, the German methods used in the Turkish army have not reflected much credit on the chief of the German General staff, has evidently roused the ire of a certain local champion of the Fatherland, and in a letter to the Pioneer he emphatically pronounces our somewhat mild criticism as unjust—"an insult to the German army and Kaiser." The blame for the Turkish military disasters he seems to attribute to the well-known Ottoman love for graft which played such sad havoc among the commissariat, transport and ordnance departments, in which our informant says there were no German officers; but if there had been, says our arm-chair critic, "the war news would have been vastly different from what they are." The latter is however a doubtful supposition, and we are as much in order as Mr. Neugebauer if we assert to the contrary, for if the tactics have been abortive, and the Krupp artillery ineffective, there is little reason for us to suppose that German direction of other departments would have materially altered the course that events have taken.

Our mentor also gives credit to the Turkish soldier for possessing some intelligence, and evidently is not satisfied with his previous explanation of the Turkish rout, for he adds that "no intelligent Turkish officer or soldier can see any cause for which he should fight, when they can see that the Christian population of Turkey and the Balkan States were outraged by the Turkish government for centuries." This latter point we regard as extremely interesting, as along with a great many others we imagined there was little or no up-to-date intelligence among the rank and file of the Ottoman army. If there is, or ever was, they have put it to a strange use when they almost exterminated the Armenian Christians of Anatolia and Sassun.

In our article we also drew attention to the strange affection the Kaiser has displayed for that unspeakable reprobate, the dethroned sultan, an affection so strong that Wilhelm even prayed to the Almighty to bless the wholesale murderer. Mr. Neugebauer has taken a note of this, and, being unable to deny its truth, airily explains that it's only one of Willie's little artful dodges. He doesn't mean it at all. It's only another instance of diplomatic hypocrisy, a cunning political subterfuge to enable that divinely-appointed monarch to increase his trade interests in Palestine, etc., and more wonderful still, provide the pilgrims of all nations with the necessary protection while visiting those places rendered sacred by their association with the life on earth of the Great Master. Now, while we freely admit the possible truth of the former, we emphatically reject the latter as a reason for the Kaiser's affection for his beloved Abdul, and in passing we might mention that the Emperor might easily rid himself of any anxiety as to the safety of the French or British pilgrims. Their interests will be admirably watched over by their respective governments, without the necessity of any assistance from "William the Spectacular."

We fail to discern the purpose of Mr. Neugebauer's letter, which we publish elsewhere. It contra-

dicts nothing and teaches us much less. During the Boer war the nation from which our friend emanated, was unscrupulous in its criticism of our troops and their commanders, hence a little mild and truthful criticism on our part should not be resented.

Fruit Packing Schools

The Department of Agriculture, in accordance with its policy of the past three years, will continue the fruit packing schools during the coming winter. The packing schools proved even more popular in 1912 than previously and we expect, from the number of applications already in, that there will be a great growth in the work this winter. It is hoped that this year schools will be placed in every fruit district of the Province, where a sufficient number of pupils can be secured.

The class of instruction furnished by the experts employed by the Department in previous years, has demonstrated its efficiency in the competition of Oregon and Washington in fruit packing. The experience and standing of the instructors secured and the confidence reposed in them by the Department, guarantee to the fruit growers the highest class of instruction.

As in previous years the local administration of the packing schools will be placed in the hands of a responsible local body, such as the Farmers' Institute, the Fruit Growers' Association, or the Board of Trade.

The Department of Agriculture provides the instructor and pays his expenses. The Department will also bear the cost of the packing paper, the fruit and all other legitimate expenses, except that of the secretarial work, which it has been found most satisfactory to leave to local arrangement.

The responsible organization in each case will be required to guarantee a minimum of twelve pupils, but not more than fifteen, with the proper qualifications, at a fee of three dollars each, to take the twelve lessons of two and a half hours a lesson, the school extending over one week. In a limited number of districts a double packing school can be arranged for, in which the minimum guarantee will be twenty-pupils, but not more than thirty, for the same number of lessons. The guaranteeing organization will also arrange for and bear the expenses of the hall, its heating and lighting.

The hall for fifteen pupils must be at least thirty by fifteen feet, and well lighted. It must also be sufficiently heated to prevent chilling of the fingers of the packers, and to avoid the freezing of the fruit during the night.

*Worn out
with
Coughing?*

Nothing is more exhausting than a persistent cough. Old folks and very young folks alike, find a bad cough most distressing. No need to go on suffering!

Peps will end the worst cough or cold. Peps contain the balsamic essences and fumes of the Pine tree, with other medicinal ingredients, so prepared, that as soon as a Peps is put into the mouth it dissolves and these medicinal fumes are liberated. They are then breathed down the throat, and direct to the lungs.

Ordinary cough mixtures go to the stomach. Peps go to the lungs—there's the great fundamental difference between the old-fashioned forms of treatment, and the Peps treatment.

Most cough mixtures contain opium and other poisons. Peps don't. Better for children!

The most stubborn cases of asthma, bronchitis, catarrh, tightness across the chest, cold, or winter cough, will yield to Peps treatment.

All druggists and stores sell Peps at 50c. box or you may obtain post free by sending price to Peps Co., Dupont St., Toronto. If you have not tested this unique remedy, send 1c. stamp to above address (to pay return postage) and you will receive a free trial packet of Peps.

PEPS

MEN-YOU NEED NERVE

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

The nerves control all actions of the body so that anything that debilitates them will weaken all organs of the system. Early indiscretions and excesses have ruined thousands of promising young men. Unnatural drain upon their vigor and vitality and they never develop to a proper condition of manhood. They remain weaklings, mentally, physically and sexually. How you feel? Are you nervous and weak, despondent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, debilitating dreams, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, carvorn expression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, premature decay, bone pains, hair loss, etc.

This is the condition our New Method Treatment is GUARANTEED TO CURE. We have treated Diseases of Men for almost a lifetime and do not have to experiment. Consult us FREE OF CHARGE.

and we will tell you whether you are curable or not.

We guarantee curable cases of NERVOUS DEBILITY, VARICOSE VEINS, BLOOD AND SKIN DISEASES, GLEET, BLADDER URINARY AND KIDNEY COMPLAINTS.

Free Booklet on Diseases of Men. If unable to call, write for QUESTION LIST FOR HOME TREATMENT.

Local and General

Claude McAstocker left on Wednesday for Vancouver.

Donald Mackenzie was a passenger on Tuesday's outgoing Great Northern train.

J. O. Johnson, of Fisherman, came up the mountain for a short visit on Monday.

Born—At Phoenix, on Monday, November 18, to Mr. and Mrs. Chas. J. Johnson, a daughter.

Born—At Phoenix, on Friday, November 15th, to Mr. and Mrs. Isaac Hill, a daughter.

Mrs. Jas. Carter left on Friday, for a few days visit to her sister, Miss Jessie Mackenzie of Nelson.

Rev. Father Choinel spent a few days in Penticton and district this week.

W. Ainslie, train master, and E. Hall, road master, of the local C.P.R. system, were in the burg for a short visit during the week.

Joe Strutzel, accountant for the Granby mine, and John Swanson, foreman, were visiting in the Forks on Thursday.

The locomotive of Friday's Great Northern passenger left the track on the lower town trestle and delayed departure for about three-quarters of an hour.

Wes. Connell, foreman of the rink construction gang, had the ill-luck to fall from a sill this week, but fortunately escaped with nothing more serious than a few bruises.

George Rogers and W. Jenks are out on a week's mowitch hunt. They have established their camp in the neighborhood of Canyon City, one of the favorite hunting localities of southern British Columbia.

Ed. Finlay, who has been visiting his sister, Mrs. Harold McCoskie, for some days, bade a reluctant farewell to the snow-clad conning slopes of Phoenix, on Monday, and returned to his home in Kennewick, Washington.

Mrs. Cuafek, of Olympia, who has been the guest for some months of her sister, Mrs. Dan Biner, of Greenwood, left on Monday for her home. Mrs. Dan Biner and Miss Mary Biner travelled with her as far as Spokane.

Walter Kennedy, proprietor of the Club Cigar store of Greenwood, spent a couple of days in the camp this week drumming up Christmas orders for Messrs. Cowan and Co., of Toronto, the famous Canadian chocolate manufacturers, for whom I. S. Kennedy is the accredited agent in these parts.

W. O. Chalmers, of Grand Forks, has taken over the complete control of the local motion picture company. Mr. Chalmers has been for years a prominent business man in the Forks and may be confidently expected to keep the entertainments up to their usual high standard.

It seems rather premature for Christmas announcements, but as there are quite a few expected, and the time for them being naturally crowded into a few days, we have been requested to announce that the Christmas tree entertainment of St. John's church has been fixed for Monday, December 23.

The sale of tickets for the coming band dance on American Thanksgiving day has, up to the present, been very large, and everything points to a record attendance. The band committee are busily engaged on the arrangements, while the proposed novel features will immeasurably add to the evening's enjoyment.

N. J. Carson, proprietor of the lower town clothing store, has taken over the remainder of the house-furnishing stock of C. F. Edwards, Fred Hayhurst of the Vancouver Sale and Advertising Co., who has so far successfully conducted the previous sale, has been retained by Mr. Carson and will be on hand for the final clearance.

Chas. Stalls, the popular culinary artist, arrived in town last week and took over the duties of chef in the Brooklyn hotel on Monday. Mr. Stalls, as usual, spent the summer on his ranch, near Chewelah, and was showing his Phoenix friends some fine specimens of produce raised on his location, that rather belies its name of "Stump ranch."

Dr. G. W. Averill, of Grand Forks arrived in town during the week and commenced a two weeks' practice of dentistry in all its branches at his rooms in the Brooklyn Hotel. While the doctor has not decided on any stated date for his future visits, he wishes us to announce that he will answer any call for a consultation when requested to do so. His address is Grand Forks.

The pernicious practice of coasting on the sidewalks indulged in by the children requires the immediate attention of the authorities. An accident arising from the above cause was brought to our attention a day or so ago, when Mr. Richard, of the B. C. office staff was thrown violently to the ground and narrowly escaped serious injuries.

The funeral of the late Austin J. Logan, of Greenwood, who died at Kamloops, on November 11th, took place in the Greenwood cemetery on Tuesday last. The service preceding

Re German Military Methods

To the Editor of Phoenix Pioneer.

Phoenix, Nov. 18, 1912.

Sir:—I almost overlooked two articles in your issue of Nov. 2, and only yesterday happened to notice them, one article a critic against the German army, the other a critic against the German emperor. As the contents of these articles look pretty much like a challenge against people of German nationality if not to mention a sheer insult against the German army and emperor, I take it upon myself to explain matters in this regard a little better to you than your articles show you to understand them, viz: The German emperor has for many years past been striving to redeem the Holy land (Palestine) to the whole Christian world, to render it easy of access to pilgrimages to the city of Jerusalem and other points where Christ has been known to live, to teach and to suffer, etc. The German emperor also has through pretended friendships for the sultan succeeded to colonize Palestine with many thousands of German subjects, so that nearly every other person in Palestine is a German, besides Germany has built and is controlling some thousand miles of railroad in Palestine, Syria, Asia Minor into Persia and established large industrial and trade interests in those countries and hence this pretended friendship of the German emperor for the unspeakable Turk, which friendship is simply to insure the protection of the Turkish ruler and government for the German subjects and interests in the Ottoman empire. Perhaps you

have seen in some newspaper cartoons more than once which showed the heads of various countries are shaking hands and drinking each others' health, while the left hand is busily engaged holding a murderous weapon behind their backs ready to plunge them into the other fellow when he least expects it. As for German officers in Turkish service the same may be said, but it is also a fact that the prejudice of the Turkish officers is rendering the efforts of the German officers ignored and powerless, besides the Turkish quartermaster department at Constantinople and other Turkish strongholds, whose duty it was to provide clothing, food and ammunition for the army and navy, have been rampant with fraud, bribery and inefficiency of the worst kind as all newspapers show, and no German officer was ever connected with this department, and if there had been, the war news would have been vastly different to what they are. As a matter of fact the Turkish soldiers lacked food to keep body and soul together with, and ammunition to fight with. Moreover, no intelligent Turkish soldier or officer can see any cause for which he should fight and give his life, when they can see that the Christian population of Turkey and the Balkan States were outraged by the Turkish government for centuries past, and who are bound to find it their holiest duty to fight to the bitter end and throw off the Turkish rule and atrocities for ever.

M. H. NEUGEBAUER.

NYAL'S BEEF IRON AND WINE

This is a delicious tonic worth trying. We never ask anyone to buy the second bottle—they always buy it without asking.

Delicious in taste, it contains iron to enrich the blood, peptonized (digested) beef to feed the tissues and choice wine as an appetizer. If you feel worn-out, tired and run down, you need a tonic; you couldn't find a better one than this. We sell a great deal of it—like all Nyal remedies it is of highest quality. We can sell you cheaper kinds, but you will be glad you paid a \$1.00 for Nyal's.

DEATH HOVERS ABOUT A NEGLECTED COLD

Statistics tell of the awful ravages of colds in the Fall Season. Trifling at the outset, serious in a few days, fatal in the end. Carelessness in dealing with colds is a criminal dallying with death. Fight the cold at its inception and it is vanquished.

Tar is a great healing agent, one of the oldest, surest, safest known. Cod Liver Oil has world wide use for all weakening and wasting diseases.

Mathieu's Syrup of Tar and Cod Liver Oil is the most scientific combination of these two remedies and is the greatest cold preventing and cold curing remedy ever known. Its benefits are instantaneous, its results are marvellous. Large bottle costs only 35 cents.

Sold everywhere. When headache, fever are present with a cold take Mathieu's Nerve Powders to reduce the fever and allay the pain. Both preparations are sold by dealers everywhere. J. L. Mathieu & Co., Prop., Sherbrooke, Que. (U.S.A.)
