Fall... Clothing

WE HAVE JUST PLACED IN STOCK A LARGE ASSORTMENT OF

MEN'S SUITS and OVERCOATS

FOR THE

FALL TRADE

These Garments are made up in the Latest Styles, fresh from the best known Clothing Houses in Canada. In cut and style they are everything that can be desired, but besides this they are made up of good, honest, All-Wool Materials, which guarantee this lasting quality. Come in and look them over before deciding.

We also make a Specialty of Measuring for "Campbell's" Tailor Made Suits.

In MEN'S FINE SHIRTS we are making a larger showing than ever before. The New Patterns for Fall are especially Bright and Attractive, and we offer you a choice of Colors and Designs which is sure to please your fancy.

In AMERICAN SHIRTS we handle the "Interstate Brand," imported by us direct from New York; and of course we still Stock the old reliable "W. G. & R." and Crescent Shirts, made in Canada, and guaranteed to satisfy.

The Hunter-Kendrick Co.

Fruit for Preserving

Now is the season of the year for securing fruit for preserving, and as we have fresh shipments, direct from the Orchards, almost daily, we can make the prices right.

Peaches, Pears, Plums, Apples

and Many Other Varieties.

We also have JARS in any quantity, Pints and Quarts, and the Sugar to do them up with.

Send us your order at once—we'll do the rest and do it right.

Morrin Thompson & Co.
GROCERS AND HARDWARE MERCHANTS

At Boundary Mines

The sixth annual meeting of the Pathfinder Mining Co., Ltd., was scheduled to be held in Grand Forks last Monday.

At the Dimond-Texas, near the Providence mine, the crosscut at the 110-foot level is in about 20 feet in well mineralized rock.

But two furnaces, out of the battery of three, are still being operated at the smelter of the British Columbia Copper Co. at Greenwood.

This week a flagpole was set on top of the new Granby Victoria shaft, and the Union Jack flung to the breeze at a distance of 140 feet from the ground.

About 70 cars of coke are now en route for the B. C. Copper Co.'s smelter. No complaint is heard from the Granby works nowadays regarding coke.

Two cars of ore have been shipped by the Golden Eagle mine, North Fork of Kettle river, to the Granby smelter, over the new North Fork railway.

No word has been received this week from President Warner Miller, of New York, and other Dominion Copper Co. officials, who are said to be on the way to the Boundary.

Snowshoe mine this week shipped nearly 1,000 tons of ore daily, being 6,909 tons for the seven days, as follows: To Trail smelter, 3,234 tons; to B. C. Copper smelter, 3,675 tons.

Copper has been steadily dropping in price this week, as usual for the last three or four months, and the quotations are narrowly watched by thousands in the Boundary each day. Copper at 11 or 12 cents does not leave much, if any, margin for profit, but many feel that it ought to begin to slide upward before long.

Steam is being kept up in one boiler at the Brooklyn mine for the purpose of pumping, until the wishes of the Dominion Copper Co. officials, who are about due here from the east, are known.

Jay P. Graves, general manager of the Granby Consolidated, returned to Spokane on Thursday, after attending the annual meeting of the company in New York. Directors of the company may visit the Boundary later.

This week the B. C. Copper Co's smelter treated 6,971 tons of ore as follows: Mother Lode, 3,796 tons; Napoleon, 204 tons; Emma, 6 tons; Lone Star, 35 tons; Snowshoe and custom, 2930 tons.

S. Yamada, a Japanese mining engineer, visited the smelting plants of the Boundary last week. In Japan he has charge of copper properties that employ some 10,000 men and turn out about 20 tons of copper daily.

Probably Fritz Augustus Heinze was too busy with his Amalgamated Copper friends in New York, to take up the $100,000 bond, or something of that kind, which his secretary, Patrick A. O'Farrell, was understood to have taken on the McKinley group in Franklin camp, and which, according to report, was due on October 18th.

The new electric machinery at the Crescent mine was being tested this week, and active work is to be started about the first of the month. The mine now has an electric air compressor of six drill capacity, an electric hoist and an electric fan. Power is furnished by the Greenwood City Water Works Co., and comes from the South Kootenay Power Co.'s plant. The compressor will make about 800 cubic feet of air per minute, with a three-phase motor, operated at a pressure of 2200 volts.

Boundary Side Lights

Anaconda, adjoining Greenwood, would like to have a flag station on the C. P. R.—and should have one.

Boundary Valley Lodge No. 38, I. O. O. F., will give an annual ball at Greenwood next Thursday evening.

No postmaster has yet been appointed at Midway in place of the late E. A. Hain, who died some weeks ago.

If report be true, Mayor McIntosh has put another padlock on the lid at Grand Forks, and is also sitting on the lid itself.

A masquerade ball will be given at the town hall, Eholt, on the evening of November 8th, the proceeds to go to furnishing the hall.

Alex Robinson, of Greenwood, is starting a lumber and tie camp on the North Fork of Kettle river, and will install a sawmill.

No nominations were made in Grand Forks this week to fill the aldermanic chair vacated by N. D. McIntosh when elected mayor last week.

Miss E. Byrnes, of New Denver, and Philip Davidson Ahier, superintendent of the Cariboo-McKinney mine, were married last week at Enderby, and are making their home at the mine.

N. F. Kendall, for two years in the Bank of Montreal, Greenwood, left for Nelson Thursday, where he receives a promotion in a branch of the same bank.

Charles Deitz, one of the old timers of the Boundary, who recently died at the Old Man's home, Kamloops, was in his eightieth year. He reached Victoria in 1857 from Germany, and thence came by trail to Rock Creek.

The 20,000 club, of Grand Forks, has asked the C. P. R. from the east to run its passenger trains right through to the Boundary, thus avoiding the night's layover at Nelson. This would mean a night's run, with sleepers, on this division.

Greenwood's Methodist church has followed the example of the Anglican church in the same town, and is now out of debt. Anniversary services were held last week, and the balance of $370 was subscribed in a short time to accomplish the desired end.

The smelter managers near Greenwood did not take care to endorse the idea of the Greenwood board of trade, when interviewed, to petition the Dominion government to refuse further favors to the V. V. & E. till the company built its line from Midway to Denoro, via Greenwood, as agreed.

William Anderson, for the last nine years a resident of Cascade, as superintendent of the Cascade Water, Power & Light Co., Ltd., which was recently acquired by the West Kootenay Power & Light Co., Ltd., has been appointed hydraulic engineer for the latter concern, and has moved with his family to Rossland.

Dr. Matheson went up to the Nickel Plate on Thursday and spent several busy days. Up there he claims to have the highest dental office in the Dominion of Canada.—Hedley Gazette.

Married at Greenwood, October 16th, Miss Hannah Damm and Benjamin Perkins, formerly of Westport, Ont., and nephew of the late Benjamin Perkins, Rev. M. D. McKee officiating.

Members of the grand jury drawn this week for the supreme court sitting at Greenwood were Duncan McIntosh, foreman, H. F. Stow, David R. Tait, Isaac Crawford, Albert Logan, Robert Wilson, W. H. C. Wilson, J. L. Coles, Ed. H. Mortimer, Duncan C. McRae, T. A. Garland, G. S. Baker and R. H. Hewer.

In the supreme court at Greenwood this week, before Mr. Justice Clement, the case of the Crown vs. Joe LeBlanc, for alleged falsification of payrolls, came up. The grand jury found a true bill, but on trial, which lasted two days and two nights, he was acquitted, the evidence not being sufficient to convict. J. D. Spence defended and Ernest Miller represented the Crown.

The impressions of Sir Thomas Shaughnessy, president of the C.P. R., taken on his recent trip to the Boundary, must have been vivid. His special train shot over the mountains as far as Grand Forks, stopped there 37 or 43 minutes, and then shot back again to the Columbia river. He visited none of the mines of the Boundary and but one smelter town.

CITY FATHERS PAY BUNCH OF BILLS

At Semi-Monthly Session Last Wednesday.

Those present at the semi-monthly session of the city council Wednesday evening were Mayor Matheson and Alds. Porter, Carson, Roderick and Birnie. A railing was ordered placed on Phoenix street, and the assent of the council was obtained to the location of a new powder magazine by the Giant Powder Co., Con., it being located on the Bank of England mineral claim, and farther removed from the city than hitherto.

The following accounts were examined by the finance committee and ordered paid by the city treasurer:

Hotel Brooklyn	$6 05
E. A. Black	75
E. P. Shea	12 00
James Turner	3 30
Dr. J. D. MacLean	60 00
Snowshoe mine	25 00
D. L. McIntominey	48 75
B. C. Telephone Co.	11 40
N. Lemieux	7 00
Meadow Lark Dev. & M. Syn.	17 00
Bank of Montreal	171 40
John Harrigan	80 50
P. J. McCabe	8 00
W. R. Matheson	12 00
David Ryan	8 00
Thomas Robb	21 00

The city clerk was instructed to write to the attorney-general, and ascertain what proportion of the small pox outbreak expenses the city is liable for.

BIG DEPOSITS OF HEMATITE

Found By Boundary Prospectors.

Details of Trip and About the Discovery.

Recently the Pioneer printed a short story of the discovery of valuable iron claims in the Sturgeon lake district, Ontario, by Boundary prospectors. The Port Arthur News gives the following particulars of the remarkable find:

The story of a country wonderfully rich in minerals, and which before their visit never felt the touch of the prospector's pick is brought by a party of seven British Columbia and Ontario mining men who came into Port Arthur today after a summer spent in the northeastern part of the district of Thunder Bay.

They tell of a huge deposit of iron ore upon which they spent most of the summer, of indications of other large ore bodies, and of free gold along the route of ingress, which would indicate that in their season's operations they were able to touch only the fringe of a great mineral country.

The party was made up as follows: Philip McDonald, John Frost, Thomas Russell, Michael Kane and Patrick Hickey, of Greenwood, B. C., and James Carss and A. M. McGill, of Chatsworth, Ont., all mining men of many years experience.

OUT ALL SUMMER.

"We went out early this summer," said one of the party to a representative of The Daily News, "because we had heard there were indications of mineral along and north of the right of way of the Grand Trunk Pacific railway, and were willing to spend a few months investigating. What we found was beyond our expectations, and even had we not taken up the claims which we did, where we found iron ore, we would go out again next season."

The party after outfitting and procuring canoes at Port Arthur went west on the line of the Canadian Pacific railway as far as Ignace, and from there started north in the direction of Sturgeon lake, which is two hundred miles west of here and fifty miles north. Along the Sturgeon lake route they saw many indications of gold, and in some places free gold. One sample, almost pure nugget, was shown to the reporter, and the statement made that much of it could be found. Several prospectors had been at work in that vicinity, and all were being well rewarded. But the objective point of the party was further north than Sturgeon lake, and they continued their trip north until they had passed the right of way of the Grand Trunk Pacific railway, crossed the height of land and reached Long lake, the waters of which flow towards Hudson's Bay.

AT LONG LAKE.

At Long lake they commenced prospecting and soon found a vein of iron. Conditions for prospecting were poor because of the heavy and frequent rains, and the subsequent condition of the ground, but as long as they worked they were able to uncover the iron ore. They found the vein to vary in width, but to be in some places as wide as three hundred feet, and traced it five miles. Their supply of powder was limited, and they only put in a few blasts, but found the vein to be a very strong one.

The assays show the ore to be hematite, which is the quality productive of the best steel, and averaging between fifty and fifty-three per cent.

Mining engineers representing at least two companies have since gone to examine the property, and it is possible a sale will be negotiated. The names of the engineers and the companies they represent are being withheld for the present.

The members of the prospecting party took in twenty-one claims, of forty acres each, or 840 acres in all.

The property is situated only about eight miles north of the Grand Trunk Pacific and it would be an easy matter to make shipping connections with that line. Next year some development work will be done. The members of the party will return during the winter and take out supplies over the ice roads along with steel, anvil, bellows, etc. More stripping will be done, shafts will be sunk and cross cuts made so that the true value of the deposits may be estimated.

Latest Prices in Metals

NEW YORK—Copper, electrolytic, $11.-62½ @ $11.87½; lake, $12.00@ $12.25
Bar Silver, 61⅜
Lead; $4 55 @ $4.75.
Spelter, $5.40 @ $5.45.

Jno. Anderson and A. O. Johnson have leased the Central hotel on Old Ironsides avenue, from August Jackson, the owner, for a term of fifteen months, and have taken possession.

SALAAM, SALAAM, VOTARIES OF D.O.K.K.

To Take Possession of Phoenix Tonight.

On the arrival of the Great Northern train from Spokane this evening, the city will practically be turned over to that higher order of the Knights of Pythias, the Dramatic Order of the Knights of Khorassen. The poster, of which a thousand were printed and sent out, in mammoth size, reads as follows:

"Salaam, Salaam; votaries of El Mabarraz Temple, No. 92, D. O. K. K. Hear ye, all the faithful. His majestic majesty has decreed that the 19th day Ramadan, being the 9th month of the year A. H. 1325, or to you fellows who have not paid your dues to December 31st, 1907, means October 26th, 1907. You are commanded to gather at the Oasis of Phoenix, Desert of British Columbia A class of 100 tyros await the coming of Mokannah's band, to lead them out of the desert. A chance to appreciate the full beauty of seeing others done, even as we have been done, and as we have done done others. "Go ye into the desert and seek the tyro and bring him hither, that he may become wise." They will always love you for your kindness in placing them in a position to be ever happy, and we will thank you for the assistance you will give us in this "disturbance." Yours, "All in Fun," H. E. Oswald, Royal Vizier; That's a promise, R. A. Koontz, secretary. See the big street parade at 7.30 p.m. To conclude with a grand banquet.

Members of Phoenix Lodge No. 28, K. of P., have arrangements practically completed for the visitors, who are expected here tonight to the number of 100 or more, and all the lodges of the order in the district will be represented with large contingents, most of them tyros, who will be led over the burning sands. The parade itself will be worth going a long distance to witness. Danny Deane will furnish the banquet after the terrible ceremonies of initiation, both of which will take place in Miners' Union lodge hall.

Sixth Annual I. O. O. F. Ball.

Next Wednesday evening, Thanksgiving eve, Snowshoe Lodge No. 46, Independent Order of Odd Fellows, will give its sixth annual ball at Miners' Union Hall. These balls have become events of the season, and there is every indication that this will prove no exception, and that there will be a large attendance. Snowshoe lodge is one of the strongest lodges of the order in the Boundary and has a membership of over 100. The proceeds of this ball will go towards a home for Odd Fellows, to be located in British Columbia. Music will be furnished by a full orchestra, and supper will be served at Deane's hotel.

Texas Ranger Next Monday.

"A Texas Ranger" which comes to the Opera house, for one night only, next Monday evening, is claimed to be the greatest of all Western melodramas.

The characters are all clean-cut types of men and women who count in the world of strenuous life. The story centers around a typical cowboy named Jack Dallam, and the most exciting escapades of his wild career are graphically told. While sensation is a feature of the piece, the comedy element has not been overlooked, with the result that "Dalrymple" and "Wildcat" are two as laughable characters as were ever conceived. There are two very pretty love stories interwoven throughout the play, that hold the attention of each and every one present.

COMING AND GOING

Ernest Miller, barrister, of Grand Forks, was a visitor here last Tuesday.

Alderman P. T. McCallum, of Grand Forks, was a visitor here yesterday.

David Whiteside, of Grand Forks, was renewing acquaintances here Wednesday.

C. E. Lane, head electrician for the Granby Co. came in from the Forks on Tuesday.

James Moran, the well known rancher from the Curlew district, was in the city yesterday.

A. D. Morrison, the jeweler, was up from Grand Forks this week, visiting his local jewelry store.

A. D. Macfarlane, the new editor of the Greenwood Times, made his first visit to Phoenix on Thursday.

Mrs. W. S. Macy came up from Spokane Sunday, spending the week here and intending to return tomorrow.

J. L. Martin will leave for a trip to the Coeur d'Alenes tomorrow, for a week, Mrs. Martin going as far as Spokane.

J. E. McAllister, general manager of the British Columbia Copper Co., Ltd., was here from Greenwood on Wednesday.

Mrs. A. O. Bouterious and Mrs. Tuck Collins, her daughter, returned Saturday from a several weeks' visit in Seattle.

Thomas Newby, of Grand Forks, owner of the Gloucester group, above Franklin camp, was a visitor in camp Thursday.

W. H. Callicotte started Monday on a trip to Bear creek in the Similkameen, expecting to be absent a week or ten days.

Mrs. Thomas Lyons, of the Mother Lode, who has recently been east on a trip, is visiting her mother, Mrs. William Walters, on Gospel hill.

Frank E. Hardy, G. N. passenger conductor on the Phoenix branch, went to Spokane Thursday, Conductor Killian taking his place for a few days.

Police Magistrate A. S. Hood has returned after a month's trip to the far east, visiting Toronto, Sherbrooke, Montreal, Boston and other cities on both sides of the line.

P. H. Burnham, district freight and passenger agent of the Great Northern at Grand Forks, was here yesterday on his return from a trip to Hedley and Princeton.

President J. Langeloth and Manager J. P. Graves and other officials of the Granby Consolidated, are expected in camp shortly on a trip of inspection of the company's properties.

Mark F. Madden, president of the Providence Mining Co., who was in Greenwood several days last week to be present at the annual meeting of the company, left for the east on Friday.

Harry Johns, superintendent of the B. C. Copper Co.'s Napoleon mine at Boyd's, who has been on the sick list for several weeks, has been visiting at the house of Frederic Keffer in Greenwood, with Mrs. Johns.

D. L. McElroy, proprietor of the Phoenix-Greenwood stage line, is once more handling the ribbons, having returned last week from a trip to Arcola, Sask., where he has some wheat land. He spent several weeks going over that country, and thinks British Columbia looks pretty good to him—and to many others who are headed this way.

BOUNDARY ORE TONNAGE.

October 26, '07

The following table gives the ore shipments of Boundary mines for 1900, for 1901, for 1902, for 1903, for 1904, for 1905, for 1906, and 1907, as reported to the Phoenix Pioneer—

Mine.	Camp.	1900	1901	1902	1903	1904	1905	1906	1907	Past Week
Granby Mines	Phoenix	64,555	231,762	309,858	393,718	542,703	653,389	801,403	554,101	21,148

Three or four years ago, it was difficult to find any one in the Boundary who would buy Boundary coppers at the then prevailing low prices quoted. How different the situation today when most of the buying orders come from the west and from the Boundary, where the oldest residents have increasing confidence in the country and its resources as the years roll on. As the sales are mostly in small lots, it shows also that it is not the men of largest means that are thus showing their faith in the Boundary.

In its issue of last Tuesday the Rossland Miner announced its suspension as a daily publication, but will hereafter probably appear as a weekly. The Miner is eleven years old and, under William K. Esling, has made valiant fight for Rossland and ... a metalliferous industry ... its great serving of better ... It was deceived, and ... support than it receives, under the circumstances, ... surprising that it has continued publication as a daily as long as it has. With but a third of the business men of that city as patrons, Mr. Esling thinks he can make more money by keeping his presses and linotypes idle. And he is right.

There certainly have been explanations enough to suit the great majority as to the cause of the drop in the price of copper. Overproduction and inability to finance many electrical projects has been generally accepted as a great factor; but with the financial troubles of F. Augustus Heinze, the copper magnate of Butte, comes the theory that Amalgamated, who was defied by Heinze for years, were after the Butte man, and at last have got him in the toils, down among the bulls and bears of Wall Street, and that an improvement in the situation is the next move. If the Amalgamated crowd have secured the scalp of F. Augustus, it will be the first time in some dozen years that they have been able to catch him napping, and even now he may be playing possum.

Many and different are the speculations as to the intentions of the C.P.R. between the Boundary and the coast. The great railway, of course, intends to fill in the gap some day, and just now is considering the Midway & Vernon charter to that end, making connection at Penticton, at the foot of Lake Okanagan, with a line from the Nicola district, which is now reached. As the Great Northern is now operating trains to Keremeos, in the lower Similkameen, it serves as an excellent spur to the See Pea Are to be up and doing something, or see Uncle Jim Hill secure the trade of that rich section, which is already flowing his way. And so, shortly, there is likely to be developments along the lines indicated.

Quinzy, Sprains and Swellings Cured.

"In November, 1901, I caught cold and had the quinzy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially good for sprains and swellings. For sale by all druggists.

It is hinted that Rudyard Kipling's mission to Victoria and Vancouver was to study the immigration question on behalf of the British government.

A Certain Cure for Croup—Used for Ten Years without a Failure.

Mr. W. C. Bott, a Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years, and though they much feared the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to take effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequaled for croup and whooping cough. For sale by all druggists.

OUR COPPER CORNER

MATTERS OF INTEREST TO THOSE INTERESTED IN THE COPPER MINING INDUSTRY

Copper Production Cut In Two.

The leading copper interests are of the opinion that the copper production of the country is now running at the rate of approximately 50 per cent of the normal output, says the Wall Street Journal.

The output of the country last year was approximately 907,000,000 pounds, according to government figures, so that the present rate of production is less than 500,000,000 pounds a year, compared with the country's actual output in 1897 of 494,000,000 pounds.

The output of the Washoe and Great Falls smelters of the Amalgamated Copper company in the current month will be about 8,000,000 pounds as compared with the normal output of 24,000,000 pounds a month.

The lake copper companies are about the only concerns that have not followed the policy of the Amalgamated interests in reducing output. In other words, the Amalgamated, Phelps, Dodge and Clark mines have been holding the umbrella, and if decreased production serves to regulate the situation the credit will be due solely to the policy pursued by these companies.

The Phelps, Dodge mines produce in the neighborhood of 170,000,000 pounds of copper a year, so that a reduction of say 50 per cent of their output would be equivalent to a production of about 85,000,000 pounds a year.

W. A. Clark states that the production of his mines has been curtailed about 60 per cent, so that the output of these properties is now running at the rate of about 24,000,000 pounds a year.

Table of Comparisons.

The production of copper in the United States over a series of years, and the present rate of production estimated, follows:

Year.	Production. Pounds.
Present rate	500,000,000
1906	907,000,000
1905	902,000,000
1904	813,000,000
1903	698,000,000
1902	669,000,000
1901	602,000,000
1900	606,000,000
1899	569,000,000
1898	527,000,000
1897	494,000,000
1896	460,000,000
1895	384,000,000

Interests of the companies that have already curtailed their output are of the opinion that the lake companies will eventually see the wisdom of such action and follow suit.

As it is, the stocks of copper on hand continue on the increase, notwithstanding the heavy falling off in output. The Amalgamated Co... in company will, within the nea... copper make a still further reduc... future, duction, if there is no ... on in production, better in the situation ... change for the

Copper ... Metal is King.

... in New York last March ... 25.55 cents a pound; it is ... 11 cents lower; in sympathy ... the quotations for copper shares have fallen one-half. The situation is reviewed in the October Engineering Magazine, of New York, by Dr. James Douglas, president of the Copper Queen Company, of Arizona, one of the largest producers in the world. His pages are brimful of facts and richly repay a second reading. First he tells us why copper is so much dearer than iron: usually but two tons of ore suffice for a ton of iron; but fifty tons of ore are required to yield a single ton of copper. In a careful survey he remarks that the average percentage of ore in the great mines of America is steadily declining, and will probably continue to decline. But while ores become scarcer and poorer, chemists are busy devising means for more economical modes of extraction. They are particularly successful in taking out very small fractions of gold and silver. Indeed so far has ingenuity gone in this field that as little as twenty cents worth of worth of precious metal may be removed with profit from copper ore. Here, as in many another service, electricity is the indispensable agent. Last year in Canada the gold and silver thus separated amounted to no less a sum than $460,000.

From Canada, Mexico, and even from New Zealand, last year the United States imported copper, to the enormous total of 136,829,906 pounds, about one-seventh as much as the output of American mines. So far went the stimulus of prices without precedent! What is likely to be the future of copper? "A forecast," says Dr. Douglas, "is impossible. It is safe to predict that, if no substitute is discovered and the demand for the metal increases as it has done during the modern industrial era, the supply will fall short of the demand, and the value of the metal will rise.

But upon the American continent there are wonderful possibilities of future discovery—in Alaska, and in British Columbia; in the Labrador peninsula; in the great belt of country in which Cobalt and native silver deposits have so recently been discovered, between the lakes and Hudson Bay. Nor should the great Canadian Northwest, even within the Arctic Circle, be eliminated from view, for even the Yukon's Copper River would not be shut off by ice from the world's markets by the closure of Hudson Bay for many more months than were the mines of Lake Superior till within very recent years, when their copper production could reach the East only after the opening of navigation." Dr. Douglas, be it remembered, is a native of Quebec, whose frequent visits to the Dominion have kept him thoroughly informed as to its outlook for the production of minerals.

As he closes his article, he corrects an error widely entertained. Most of us are too much impressed by the electrician's demand for copper; we are wont to suppose that copper is his purchases that are to blame for the high price borne by the metal. But, as Dr. Douglas points out, when a trolley or ... wire is once installed, there ... ions, virtually unworn, uncorroded, through years of use. So, also ... the copper that goes into dynamos, motors, and other electrical machinery: it lasts indefinitely.

DR PRICE'S CREAM Baking Powder

A pure, Grape cream of tartar baking powder—Makes Food More Delicious and Wholesome—No Alum—No Phosphates

Care Must be Taken to Keep Alum From the Food

Dr. Alonzo Clark: "A substance (alum) which can derange the stomach should not be tolerated in baking powder."

Prof. S. W. Johnson, Yale College: "I regard their (alum and soluble alumina salts) introduction into baking powders as most dangerous to health."

IS MAKING WONDERFUL PROGRESS.

Hon. J. H Turner Commeats on Prosperous State of Fruit Industry

In a recent interview in the Colonist, Hon. J. H. Turner, Agent-General for British Columbia in London, says:

"I was very much struck throughout my tour by the wonderful change in the country and the great prosperity of all the people I encountered. At many points that I had known before I left British Columbia for England and which then appeared to be simply rough forests or rock I now found thousands of acres of cultivated fruit lands. Fruit shipments were being made from some places which a few years ago, except for a prospective value from any mineral which might be found to exist, were valueless.

"Horticulture seems to have changed the whole character of the country and put renewed spirit into all the people.

"I met men who told me that off their hundred and sixty acres of land only a few years under cultivation, they were making some $2,500 profit. It was very evident from the increased and steadily growing demand for fruit their net income in a few years would amount to $10,000. From my knowledge of the condition of the fruit trade in Great Britain, I was able to assure them that when it was desired, there would be a great market for their fruit in the old country, especially for their choicest fruits. The great fruit dealers of London have found that with the increased supply of fruit, there is a steadily increasing demand and taste for fruit amongst the people of Great Britain."

How to Cure a Cold.

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less the danger of pneumonia and other serious diseases. Mr. W. L. Hall, of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all druggists.

"Egyptian of Pompeii."

The Egyptian of Pompeii, under the direction of Harold Nelson and Clifford Lane Bruce, will appear at the Phoenix opera house, Nov. 6, 1907.

The plot is good. The costumes are typical of that early era, the sandalled feet, the flowing robes, and the band of Christians in their black cloaks and hoods.

While this production is under the direction of Harold Nelson and Clifford Lane Bruce, they have spared no pains to make this new venture a success. A capable company of New York players have been chosen to fill the various roles to support Miss Helene Scott, who appears as Irene, the Neapolitan maiden. Miss Scott is too well known through the west to need mention, having appeared for so many seasons as leading woman for the Nelson, Bruce Co,

Mr. Joseph De Stefani, an actor of great ability and long experience, appears in the role of Arbaces, which demands more than ordinary talent to portray. The play is a dramatization of Bulwer-Lytton's famous novel, The Last Days of Pompeii.

Special scenery has been provided, and the curtain descends upon the magnificent spectacle of Vesuvius in eruption.

The Phoenix Pioneer

Is acknowledged by those who read it regularly to be the leading journalistic exponent of the Boundary District of Southeastern British Columbia.

It is published in the centre of the great Copper Mining Industry of British Columbia, and prints the news of the Districts while it is news. It plays no favorites, but aims to give everyone a square deal.

The Pioneer costs $2 per annum; to American subscribers, $2.50, and more than one of its readers subscribes for two, three and even five years. Address, with remittance,

Pioneer Pub. Co., Phoenix, B.C.

NOTE—We have a few Copies of the last PIONEER ANNUAL left, price 25 cents each, or a copy will be sent free to a new subscriber.

THE OBSERVATORY

THINGS TALKED OF AT HOME AND ELSEWHERE

A gentleman named A. E. Watts, of Wattsburg, B. C., offers $5,000 reward for information leading to the conviction and unseating of any M. P. from the Kootenays for bribery and corruption in elections; and what is more, Mr. Watts has sent a letter to Sir Wilfrid Laurier asking his co-operation in the project. The chances are 5,000 to one that Sir Wilfrid will sidestep on this matter.

It used to be thought that this "sea of mountains" was good for nothing but the production of minerals, with an occasional wildcat or so. Now, it is a trifle different. Most of the wildcats have sought their holes permanently, the mineral production is greater than ever, and fruit raising is being done all over the Kootenays and Yale in a highly profitable manner. One man in Keremeos recently refused $600 per acre for a fruit tract, which, it must be admitted, is going some.

The added interest in horticultural matters has evolved the agricultural and horticultural fair. First it took root in Nelson, then in Kaslo. Now Cranbrook has the fever and its people have subscribed over $5,000 to this end. Grand Forks, too, here in the Boundary, which has some of the best fruit lands that the sun shines on, is in the field, and doubtless some day will have its own fruit fair. Diversity of production is a splendid thing for any country. Let the good work proceed.

When it comes to talking of agricultural products, these immediate parts can tell a pretty fair story, too. This week there have been six giant potatoes on exhibition in the store of McRae Bros., Ltd., bearing this legend: "Raised on the Macy ranch, near the Granby hotel, Phoenix. First Prize at Phoenix Agricultural Fair." They excited the wonder of hundreds of passers by, and wagers were made as to their weight, which proved to be exactly 15 pounds for the half dozen spuds. Next,

We have never claimed that this is in the banana belt, but if any climate has been more desirable than that experienced in Phoenix for the last month, it has yet to be heard from. It has been just about as perfect an Indian summer as the imagination could conjure.

Last spring the Pioneer exposed a wildcat calling itself the British-American Copper Mines and Smelter Co., which had its lair at first in Cleveland and then in Chicago. Its mineral claims, if it really has title to any at all, are in the fastnesess of the Golden mining division, many miles from transportation; but that did not deter the promotors from selling reams and reams of shares to a confiding public —and much of it on the false inference that the mines were near the Granby Consolidated. It has seeming dropped out of sight, probably because the Granby is separated from it by hundreds of miles and two or three mountain ranges. But now comes a little house organ by Pierce Underwood, of Chicago, called "Profitable Investing," who tells about the properties of the British Columbia Copper Mines and Smelter Co. being located at Phoenix, B. C. This is surely adding insult to injury, for Phoenix has no desire to father any such concern as this has proven itself to be by its own statements.

A short time ago the Nelson Canadian stated that, after seeing Dr. Fagan there, it learned that there were 17 cases of small pox in Phoenix—at a time when there were exactly four cases, no more and no less. We'll wager our Web perfecting, multicolor, lightning press against all the machinery that the Canadian has, that Dr. Fagan never said anything of the kind—he is not the kind of a man to be given to the promulgation of misleading statistics. Incidentally, it would be of interest to learn where the small pox came from to Phoenix. At any rate the best efforts of municipal and provincial authorities, coupled with medical science, were bent to prevent it spreading, and succeeded, evidently.

The Canadian Mining Journal, of Toronto, continues its onslaught against Cobalt and other wildcats, and is doing excellent work in this direction and should be encouraged by all legitimate mining men. It pours hot shot into Law & Co., of Toronto, and also into the Toronto Globe and World, which received pay for wildcat promotors, and were thus accessories to the fleecing of the innocents all over Canada. Incidentally the Ontario government has ordered the stoppage of publication certain promotors' announcements of this nature—something that the post-office department could have taken up legitimately many months ago by denying the use of the mails.

And, speaking of Cobalt and Larder Lake untamed felines, reminds us that a gentleman from the east recently made the statement to the Pioneer that undoubtedly millions upon millions of eastern Canadian dollars had been sunk in such propositions, being largely withdrawn from savings banks and old socks; and, further, that the people of Eastern Canada, who felt sore after the Rossland boom of a few years ago, when the wily promoters took their money in exchange for worthless certificates of stock, were hit this time many times as bad—and were beginning to feel correspondingly sore.

Another Big Success.

C. P. Walker, of the Walker theatre, Winnipeg, who has been responsible for many of the most satisfactory theatrical performances in western Canada, will present another attraction, which, he is confident, will prove as popular as anything appearing heretofore under his direction. Under a considerable guarantee, Mr. Walker has secured, for a limited season, the excellent company of metropolitan players presenting the delightful romantic comedy, "We Are King," and will offer this attraction in the local opera house at some early date.

"We Are King" has enjoyed phenomenal success during the past four seasons in the theatrical centers of the world, and Mr. Walker has shown great confidence in the theater goers of the west by bringing this company to them.

Church Services Tomorrow

Church of England—St. Johns, Rev. J. Leech-Porter, rector. Service every Sunday evening at 7:30.

FOUND RELIEF BY TAKING PE-RU-NA

MRS. ANNA MUNDEN

There can be no doubt about it that the tendency to resort to surgical operations has been too great in the past and that this harmful tendency is growing less every day.

Experience has demonstrated that many ailments which seemed to require surgical operations in the past are now being cured by the use of harmless remedies. Peruna has done as much as any other remedy to establish this very important fact.

SURGICAL OPERATIONS AVOIDED.

Thousands of people have been condemned to undergo surgical operations. Their physicians have told them that they must either submit to such operations or lose their lives.

After this they have resorted to Peruna and found relief.

Other good remedies have accomplished the same result, but it is safe to assume that no other remedy has equaled Peruna in its beneficent work.

Many of the alleged incurable derangements of the pelvis are dependent upon catarrh.

There is no cure for these except the removal of the catarrh.

Peruna seemingly works miracles in some of these cases. The explanation, however, is very simple. Peruna removes the catarrh and Nature does the rest.

Suffered Thirteen Years With Pelvic Troubles, Unable to Find Relief.

AN OPERATION ADVOCATED.

Pe-ru-na, Taken as a Last Resort, Brings Health and Strength.

ANNA MUNDEN, Brinkley, Ark., writes:

"I suffered with female troubles for thirteen years, and tried the best doctors in Louisville, Ky., without relief.

"I spent thousands of dollars at the Springs.

"The doctors desired that I have an operation performed to remove my ovaries, which I would not consent to.

"I saw an advertisement of your Peruna and bought one bottle and before I had taken it all I could get out of bed and walk about.

"After taking three bottles I was as well and hearty as ever.

"I gained in flesh. From 118 I increased to 186 pounds.

"If it had not been for your great and wonderful medicine, I would now be in my grave.

"I would advise all women sufferers to try it.

"I would not be without it for the world."

A WOMAN'S LETTER TO WOMEN.

Mrs. Caroline Kramer, Fort Collins, Col., writes:

"The majority of women who are suffering from disordered periods and other troubles, have such strong faith in doctors that they allow them to experiment on them for kidney, liver, or stomach troubles, until they become discouraged and their money is gone.

"This was my unfortunate experience for nearly two years, when my attention was called to Peruna.

"I hardly dared believe that at last I had found the right medicine, but as I kept on using it and was finally cured I could only thank God and take courage.

"I have had most satisfying results from the use of your medicine and have advised dozens of women who were suffering with woman's ills to use Peruna and let the doctors alone, and those who have followed my advice are better to-day and many are fully restored to health."

THE COPPER HANDBOOK

(New Edition Issued November 15, 1906.)

Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor. It lists and describes 4626 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property. The COPPER HANDBOOK is conceded to be the

World's Standard Reference Book on Copper.

The mining man needs the book for the facts it gives him about mines, mining and metal. The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is $5 in buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

Second-hand Sewing Machines of all makes, for sale, see Miss McDonald.

Musical instruments and supplies at Toronto prices at ALBIN ALMSTROM'S

Don't forget to register during the present month if you desire to vote at the next municipal election.

Our "Health" brand mattresses are made of pure materials and are sanitary—Binns' Furniture.

Just received, a carload of iron beds, mattresses and springs, the best of their kind.—Binns' Furniture.

Phoenix Socialist League gave a Haywood dance at Miners' Union hall Thursday evening.

Quite a number of residents attended the sitting of the county court held this week in Greenwood.

Look out for the dance to be given by the Anglican church on the American thanksgiving, November 28th.

Rev. J. Leech-Porter states that services will be resumed in the Church of England tomorrow evening as usual.

Since the first of October the price of wood locally has been $5 per cord, a raise of 50 cents from the former rate.

One fare and a third rates for round trip are announced by the C. P. R. for Thanksgiving. Tickets on sale October 29, 30 and 31, with final limit November 2d.

Next Thursday, October 31st, is the last day in which nonproperty holders can register for the municipal elections in January. As that day is Thanksgiving in Canada, better attend to it sooner.

The first car of lumber from the new sawmill, established by McDonald & Loftus, about three miles across the hills from Phoenix, was loaded this week at Anaconda for the new wagon road bridges east of Phoenix.

Thursday afternoon Rev. Samuel Lundie joined in marriage Oscar Nelson and Annie Thostrom, both of Sweden, the couple being supported by Charles Olson and Helma Brusk. The ceremony took place in the parlors of the Knob Hill hotel, Mr. and Mrs. Nelson intending to reside in Greenwood.

Last Saturday evening Dr. MacLean, the medical health officer, lifted the quarantine from the city, and the small pox guards were withdrawn. The patients are all doing well, there being but three of them now, and another week should see them out once more, if all continues to go well. The fine weather has doubtless helped in stamping out the disease and preventing its spread.

There are five patients in the local hospital.

Secure one of the violins at ALBIN ALMSTROM before they are all gone.

Remember the date, Monday, Oct. 28th—Hallow'en Social at St. Andrews' Presbyterian Church.

Horses pastured for the winter by Stooke Brothers, of Midway. Particulars from McRae Bros., Ltd., at Phoenix.

School was reopened last Monday morning as usual, after a recess of two weeks, due to the four cases of small pox that were discovered here.

As the evenings grow longer, the Free Library and Reading Room is getting more patrons, and is proving itself to be as useful as last season.

James Carter, of the local staff of the C. P. R., started Monday on a two weeks' well-earned vacation, which he will spend in and around Vancouver.

Lost, Collie dog which answers to the name of Fritzel. Color, sable and white with white ring around the neck. Reward to the finder.—GEORGE COLE, Phoenix, B. C.

Stephen Tinney, employed by the Hunter-Kendrick Co., was injured last Saturday while driving out of the barn, his shoulder being slightly dislocated. He is now improving at the hospital.

J. Wilkinson has purchased a lot in Golden Eagle addition, north of the Brooklyn spur, adjoining the Knight residence, and will shortly erect a six room residence, about 22 x 28 in size, A. E. H. Clark having the contract.

WANTED—Wide awake boys in every town and village to sell Western Canada's new weekly newspaper, "The Western Homestead." Hustlers can make money. No capital required. Write for terms immediately. The Western Homestead, Calgary.

Active work is now under way on the new powder magazine for the Giant Powder Co., Con., on the Bank of England mineral claim, east of the Rawhide. Messrs. L. Y. Birnie and H. A. Munro have the contract, the building to be of stone and iron, and about 22x32 feet in size.

Police court matters have been quiet for the last six weeks. This week a serious charge was laid against a stranger who recently arrived in town. But after an adjournment the plaintiff weakened and the case wae discontinued. Steps will be taken at once to terminate the citizenship of both.

"A Texas Ranger" will be the nex attraction at the Opera House, where it will be seen for one night only, Monday, Oct. 28. The play deals with the life of some cow-punchers and miners who seek adventure and gold in the Lone Star State, the hero being Jack Dallam, a typical cowpuncher of the Panhandle country.

Opportunity For Young Men.

Attention is called in another column to Evening Classes that will begin in Union Hall, Tuesday evening, October 29th, by Mr. W. J. Woolsey, a graduate in mining engineering. It is intended to employ the first evening for a discussion of the work and its advantages, and all interested are invited to attend.

Sick Headache Cured.

Sick headache is caused by derangement of the stomach and by indigestion. Chamberlain's Stomach and Liver Tablets correct this disorder and effect a cure. By taking these tablets as soon as the first indication of the disease appears, the attack may be warded off. Get a free sample and try them. For sale by all druggists.

THE SWASTIKA

Is the oldest cross, and oldest symbol in the world.

Despite many theories its origin is unknown, although it is certain that it dates from remotest antiquity. It has been found all over the habitable world; in the ruins of ancient Rome; in the excavations of Grecian cities; graven on the solid rock of the mountains of India; on ancient Buddist idols and Chinese porcelains, and is historically attested on coins as early as 315 B. C.

Fortune Smiles Upon the Wearer

Found among the relics of all ages and people. From time immemorial the Swastika has been considered as a talisman; a charm to drive away evil and bring good luck, long life and prosperity to the wearer.

We have just received a large assortment of the Swas-ti-ka goods.
