A Few Pointers Where to get the Right Goods at Right Prices.

Nice line of **Trunks, Valises, and Dress Suit Cases.**

Our Grocery Dept.

is stocked with a Fresh, Clean, Up-to-Date Line of Groceries, Fruit, Dairy produce, Etc. Just what's wanted to coax the appetite these hot days.

HARDWARE DEPARTMENT.

McCLARY, Stoves, Graniteware and Tinware. We are sole agents for these Celebrated Stoves and carry a complete stock on hand.

BUILDING HARDWARE

a Specialty. Let us give you an estimate on your next building. Car load of Windows and Doors JUST REC'D.

Our **CROCKERY** AND **GLASSWARE**

Stock is Complete.

This Week FRUIT JARS at COST.

Our Large and Rapidly **Increasing Trade** speaks for itself as to the Satisfaction We are rendering our CUSTOMERS. We guarantee that OUR PRICES cannot be beat in the city or district.

THE HUNTER-KENDRICK CO., Limited

General Merchants, Old Ironsides Avenue, Phoenix.

Warm Weather

Sets the Busy Housewife Thinking

Something to Eat

Is the hardest problem to solve. Everything seems tasteless and unpalatable. A visit to our Grocery Department will settle the question for you.

Our store is full of Summer Groceries ready to eat and just suitable for the warm weather.

We make an effort to have everything fresh. A small order will convince you that we accomplish it.

We expect our fruit for preserving this week.

In our Hardware Dep't we have a nice lot of Family Ranges and Cooking Stoves at prices to suit all purses.

Screen Doors, Screen Windows, Window Netting, Ice Cream Freezers, etc., etc.

Come in and see us; you are always welcome whether purchasing or not. All orders delivered promptly.

HAD BIG TIME

Labor Day Celebration Was Successful.

MANY VISITORS WERE IN TOWN

Hawkins Bested Denny in Six Rounds---Great Drilling Events, With Horse Races, Foot Races, Etc.

Labor Day in Phoenix was a success from almost every standpoint. It was the first celebration of any kind ever held in the pay roll city, and it was taken hold of with a vim by the citizens as well as the labor organizations generally. Preparations had been made for many out-of-town people to enjoy the programme, and they were here in large numbers. The special train brought in several coaches from Grand Forks, Cascade, Eholt and other places, it being estimated that 250 came from Grand Forks alone. A single coach was run to Greenwood to accommodate those who wished to visit that place.

All day Sunday the men who had been working on the streets and sidewalks of the city were at work putting on the finishing touches as far as they could be made in the short time at their disposal. Monday was an ideal day for a celebration. The sun did not show itself till some time in the afternoon, and the weather was delightful—could hardly have been improved upon if made to order.

The programme, although somewhat lengthy, was carried out as arranged, and the usual tedious waits were conspicuous by their absence. A great deal of interest was manifested in the rock drilling contests, which were witnessed by the multitudes. The horse races also had many devotees, and the small sports were well attended. Every committee has done its work well, and complaints were few and far between.

It was 9:15 when the parade began to form at Miners' Union hall, on lower Dominion avenue. All of the labor organizations in the city were in line, headed by the Phoenix Brass Band, with P. J. Holohan as marshall, with several assistants. The line of march was up Dominion avenue to Phoenix street, thence to Old Ironsides avenue to the C. P. R. depot, where the special excursion train was met. The line then re-formed and marched down Knob Hill avenue to the Dominion Copper Co.'s flat, where the drilling contests were to start the sports of the day.

Results of Drilling Contests

There was but one entry in the senior event for rock drilling, but as the juniors would take first money if they beat the seniors the latter put in their best licks. The rock was a very hard granite. Ross and McLeod, weighing 194½ and 187 respectively, drilled 43 inches in the allotted 15 minutes with 5-8th steel.

In the junior event there were four teams entered. The first to do business was Durham and Tallent, of the B. C. mine, weighing 169 and 158, who drilled 30¼ inches; then came Forrest and McKinley, weighing 158 and 143, who drilled 31 9-16 inches; Riley and McLeod, of Republic, weighing 146 and 163, drilled 33¾ inches; and Henderson and Cox, of the Brooklyn mine, weighing 167 and 173, took first money by drilling 36⅝ inches.

In the boys' lightweight event, Guidotti and Demuth, of Rossland, drilled 12 5/8 inches and got first prize, the second going to Lowery and Morse, of Republic, who drilled 11⅝ in the given time of ten minutes.

In the boys' heavyweight class Hackett and Ross, of Phoenix, drilled 9½ inches, and Furlong and Martin, of Republic, drilled 14¼ inches, the latter getting first money.

Single Handed Drilling Contest

The single hand drilling contest was gotten up at a late moment, and was due largely to the efforts of Judge Williams, who interested himself in the matter. There was a good deal of interest in the outcome, as some extra good men were entered. The contest was held about 6 p. m., in front of the Brooklyn hotel, and there were four entries. Eric Stevenson, foreman of the Brooklyn mine, took first money with a hole 13¼ inches deep, which he made in the time given, ten minutes. Mike Burns was next on the list, making 12½ inches in the same time. Pat Dillon drilled 10 5/8 inches. Chas. Sanberg drilled 7⅜ in a little over eight minutes, when his drill broke.

Foot Races.

The foot races were pulled off on Old Ironsides avenue after dinner, and were as follows:

100 yards open—1st, Jack Lynch of Greenwood; 2d, Fred Mitchell, of Greenwood; also ran, Jack Nunn, of Nelson, A. O. Cochrane, of Grand Forks, and A. S. Williamson, of Phoenix.

220 yards open—1st, F. Mitchell; 2d, Jack Lynch; also ran, J. Nunn and A. S. Williamson.

120 yards hurdle—1st, Jack Lynch; 2d, F. Mitchell; also ran, J. Nunn.

Boys under 10—1st, Jack McLaren, of Carson; 2d, Jack Pierce, of Phoenix.

Girls under 16—1st, Ethel McLaren, of Carson; 2d, Agnes Pierce, of Phoenix.

Horse Races.

The horse races were scheduled to come off at three on Dominion avenue. A number of good animals were entered, and some money changed hands on the result. Some flyers from Grand Forks were much in evidence.

First on the list was the three-eighths mile race. In this dash L. A. Manley's Yellow Girl came in first, with Dr. Averill's Black Bird second and Jack Holland's Ginger third.

In the quarter mile race, the places were reversed to some extent, Black Bird leading by two lengths, Yellow Girl being second and Ginger third.

All but local horses were barred from the saddle horse race, notwithstanding that some of the racers hoped to carry off everything in sight. Joe Gillis' Brownie was first, Harry McQuaid's Bill was second, and Chas. Sears' Bingo third. Phoenix Maid and Dirty Bob also ran.

Caledonian Sports.

Throwing 16-pound hammer—First, Ross; second, McLeod.

Throwing 56-pound weight—First, W. F. O'Hara; second, W. P. Tilton.

Putting 16-pound shot—First, W. F. O'Hara; second, D. McIsaac.

Running hop step and jump—First, W. P. Tilton; second, Harly Cox.

Running broad jump—First, W. P. Tilton.

Running high jump—First, W. P. Tilton; second, W. Munroe.

Owing to the darkness the attempt to pull off the tug-of-war did not materialize.

A number of visitors went to the glory hole of the Knob Hill mine and witnessed the air drilling exhibit. While this is an old story to Phoenicians, it was of great interest to strangers, especially when it took place in one of the greatest mines in British Columbia.

The ball given in the evening under the auspices of Phoenix Trades and Labor Council, had an immense attendance. Prof. Kauffmann's music was good and the dancers enjoyed themselves till an early hour Tuesday morning.

C. P. R. Official Killed.

E. J. Duchesnoy, assistant superintendent of the Pacific division of the C. P. R., was instantly killed Tuesday by a rock falling on his head in a tunnel 11 miles from North Bend. He was 45 years old and had been connected with the C. P. R. since 1873. He leaves a widow and four children.

City Fathers in Session.

Wednesday's meeting of the city council was a short one. Replying to a letter from Richard March, the council stated that owing to the state of the city treasury, the city could not make any improvements on Victoria avenue this year. McPherson Bros.' account of $503 for lumber was approved and ordered paid, and the council adjourned till next week.

Scarcity of Railway Laborers.

Contractors on the V., V. and E., and Grand Forks and Republic railway still complain of a scarcity of laborers. Chief Engineer Kennedy of the former, is quoted as saying that his road could use five times as many men as are now at work. It is also said that there is absolutely no truth in the report that the building of the branch to Phoenix will be postponed, but that it will be constructed as soon as laborers can be had.

Broke Connecting Rod.

Last Saturday's incoming Boundary train met with a mishap near the high Porcupine creek bridge. The locomotive struck a rock and broke the connecting rod, but managed to reach Grand Forks. A locomotive was sent from Eholt to get the train up the hill, but endless delays ensued, and the Phoenix cars were brought up on a 23 car ore train with the Shay engine, reaching Phoenix about 4 o'clock Sunday morning. There were about 50 passengers for Phoenix.

PRESIDENT MCKINLEY SHOT

Two Bullets Took Effect in Stomach and Abdomen.

DETROIT MAN THE ASSASSIN

Occurred in Temple of Music at the Pan American Exposition at Buffalo---Now at the Exposition Hospital, in a Serious Condition.

Buffalo, N. Y., Sept. 6.---Special to the Phoenix Pioneer ---President McKinley was shot this afternoon in the Temple of Music. Two shots took effect in the stomach, and the condition of the president is serious. He is in the hospital at the Pan American Exposition grounds. He was shot by a stranger.

President is Likely to Die.

BUFFALO, N. Y., Sept. 6.—[Special to the Phoenix Pioneer.]—President Wm. McKinley was shot this afternoon on the Pan American Exposition grounds at Buffalo, while he was holding a reception near the Temple of Music.

His assailant was a well dressed man, who fired two shots point blank while shaking hands with the president. One shot took effect in the breast and one in the abodmen. The wounds will likely prove fatal. He was removed to the official building, where one ball was extracted from near the breast bone. He is now conscious, and resting easily.

The murderer was Fred Neiman, from Detroit, and is now under arrest at the police station.

Receipt of News in Phoenix.

When the news of President McKinley being shot was received in Phoenix today, a little after noon, it created the most profound sensation all over the city. In a short time every resident was aware of the fatality that had befallen the president of the United States. The telephone in the Pioneer office was constantly ringing, inquirers wishing to hear the latest to be had from Buffalo.

ROBBED OF $2,000 AT EHOLT.

Kayser's Hotel Held Up by Three Masked Men.

Another daring hold-up and robbery has taken place—this time at Eholt—and like the others the thieves are still at large, and a number of people are short, collectively in cash and valuables, about $2,000.

Last Tuesday evening about 10 o'clock three masked men entered Fred Kaiser's Commercial hotel at Eholt, and ordered all present to throw up their hands. The request was responded to quickly, one man even holding aloft a glass of beer which he was about to dispose of. Several railway men were in the house, and all were lined up by two of the robbers, while the third systematically secured all the cash and valuables in the house and on the persons of those present—about nine in all.

After looting the cash register, one of the highwaymen rubbed Mr. Kaiser on the head with his revolver and commanded him to open the safe. This was promptly done, and about $500 in cash, besides some checks, which were discarded, was secured. Diamonds, jewelry and watches were readily contributed by the frightened people, and it is said that the total taken by them foots up to over $2,000 in value.

Before backing out of the door and decamping in the darkness, the robbers regaled themselves with champagne, beer, whiskey and cigars, and warned those present not to attempt to follow them. A stranger coming in five minutes later found the nine men with their hands high in the air, the man with the glass of beer included.

An alarm was at once given and the police at Greenwood, Phoenix and Grand Forks being warned by telephone that night. Unfortunately no description of the robbers could be given by the victims. It was all done quickly, and the men were not recognized. The provincial police have been working on the case, but so far have not even been able to get a clue. The robbers are probably far over into the United States by this time.

60,000 TONS

Will be Shipped From Snowshoe Mine.

IS SURFACE ORE OF GOOD VALUES

Contract Made With Greenwood Smelter for One Car Per Day---From the Glory Hole.

A contract has been made, according to report, for the shipment of one car of ore daily from the Snowshoe mine to the Greenwood smelter. This ore will be largely taken from the surface, or from a glory hole, work on which has already been started.

The Snowshoe people are fortunate in having a large body of decomposed ore lying on the surface of the claim, which gives very satisfactory values. This body is from 300 to 500 feet in width and about 200 feet in length, with a depth of 5 to 8 feet. The assay values are said to run from $10 to $30 per ton in gold and copper.

Figuring conservatively, say on a basis of 300 feet long, 200 feet wide and five feet deep, this body is expected to yield at least 60,000 tons. Again estimating conservatively as to values, on a basis of $10 per ton, this ore will yield $300,000. If the cost of mining, transportation and smelting is, say $5 per ton—another liberal estimate—this surface ore will give a profit of $150,000 to the Snowshoe Gold and Copper Mines, Ltd. This should make a satisfactory showing to the shareholders of this company, which has just started in business.

In the meantime, of course, the regular development work on the property will be proceeded with as usual.

New Addition to Phoenix.

James Moran, owner of the No. 13 claim, adjoining the Old Ironsides townsite near the depot, has decided to plat about 20 acres and lay it off into town lots for residential purposes. The lots will be large and the prices low. Sydney M. Johnson, P.L.S. has charge of the surveying, and as soon as the work is done, it is expected that the property will be placed on the market.

Pleased With the Celebration.

Sheriff Lowery and family, accompanied by Jack Reilly, of Republic, were among the visitors to Phoenix for the celebration. He expressed himself as highly pleased with the cordiality of our citizens and expects to pay us another visit in the near future. There was some misunderstanding in reference to the saddle horse race, but when the sheriff understood the conditions and that the race was confined to local horses, he was entirely in accord with the judges in their refusal of his entry. It is his intention to have some good horses the next time we have races and fully expects to carry of his portion of the prizes.

PHOENIX BRANCH ORE SHIPMENTS.

The following table gives the ore shipments of Phoenix Branch and other Boundary mines for 1900, for the past week, for 1901, and the total to date:—

	1900	Week	1901	Totals
Old Ironsides, Knob Hill and Victoria	64,533	4,167	151,054	215,587
B. C. Mine	19,494	270	32,446	51,940
Golden Crown	2,500	....	....	2,500
Winnipeg	1,075	120	235	1,355
Athelstan	1,200	....	550	1,750
Snowshoe	300	70	515	815
Brooklyn	150	....	....	150
R. Bell	....		560	560
Totals, tons	89,252	4,627	185,316	274,657
Mother Lode, Deadwood,	5,340	736	55,947	61,287
Sunset, "	....	....	250	250
No. 7, Central	...	70	630	630
Other Boundary mines	3,180	...	500	3,680
Grand Totals, tons	97,772	5,433	242,653	340,504

HAWKINS WAS THE WINNER.

And Will Meet Coolgardie Smith for $500 a Side.

One of the chief events of Labor Day to a large number of persons was the glove contest that took place in the evening in the old skating rink between Dal. Hawkins, champion lightweight of the Pacific coast, and Martin Denny, champion lightweight of Australia. Lovers of the manly art of self defense from all over the Boundary were present to witness the contest.

The contest began about 10:30 o'clock, Hawkins having Danny Dean, Tommy Hogan and F. Funk behind him, while Denny was seconded by Harold Smith and Fred Clark. The contest was for $500 a side. The referee was David Oxley.

Referee Oxley started the men off in good shape after having warned them. The first round was tame; both men fiddling a good deal and hardly a blow being struck. In the second they mixed up a little, seemingly getting warmed up a bit. The third round was lively, and honors up to this stage were even. In the fourth round Hawkins started in to make things hot and he chased his man all over the ring. Denny at this time seemed distressed, and acted on the defensive, being knocked down once and taking the eight seconds to get up. In the fifth round Hawkins rushed his man and knocked him down four times, each time Denny taking the full time limit to recover. Denny was plainly groggy and it was seen that he could not hold out another round. The gong saved him from a knockout. It took Hawkins just two minutes in the sixth round to put Denny out, Denny being cleanly put out by a right-hander on jaw.

Hawkins, who was in the pink of condition, had been training here for a week or more, and seemed to have the best of the contest from the beginning. On the other hand, Denny who had been training in Grand Forks, had not seemingly allowed for the difference in the altitude of the two places, and was thus put at somewhat of a disadvantage.

Hawkins vs. Coolgardie Smith.

This week another contest has been arranged for, to take place between Coolgardie Smith and Hawkins at Grand Forks on the 21st inst. Some of the Grand Forks sports who saw Smith here and also saw Hawkins, were anxious to arrange a match, and on Wednesday the articles were signed for a twenty-round contest with five-ounce gloves for $500 a side. It will take place under the auspices of the Grand Forks Athletic Association, of which L. A. Manley is president. Alex Miller is understood to be backing Smith heavily, and Hugh McGuire of Phoenix is doing the same thing for Hawkins.

Smith has no particular record locally, but it is said he has won a number of contests in Australia. Hawkins is already in training at Greenwood, and Smith is getting ready at Grand Forks. Each side has posted a forfeit of $100.

Working on Water System.

Bids were opened this week for the excavating for the new water system soon to be laid, but R. A. Jones, the engineer in charge, says the work will probably be done by days' labor.

Mr. Jones will make his residence in Phoenix until the system is completely laid and in running order. If all goes well, and there is no delay in getting the pumping machinery, already ordered, installed, the work should be done in the course of six or eight weeks.

The first car of pipe left Spokane a week ago, and is due here almost any day. Altogether there will be 17,000 feet of pipe for the domestic and the fire system. Two tanks, each having a capacity of 100,000 gallons, will be erected on the hills on each side of the city, the work on which will commence shortly. The supply for the fire system will be mine water, while the domestic supply will be taken from Marshall lake.

Our Mines AND Smelters. LATE NEWS NOTES FROM THE SEVERAL CAMPS.

Five cars of ore were sent out by the Winnipeg this week.

Shipments from Phoenix for August were the largest in the history of the camp, amounting to 20,218 tons.

After eight days' suspension for renewals, the Greenwood smelter was blown in again last Saturday morning.

This week's shipment from the B.C. mine were cut down on account of changing the tracks so that ore cars can be used.

It is understood that the management of the Sunset mine in Deadwood camp, has contracted to ship 1,000 tons of ore to the Hall Mines smelter at Nelson. Managing Director Munro is authority for the statement that the ore in sight above the 200 foot level exceeds half a million tons.

EDITORIAL COMMENTS.

The war in the Transvaal is supposed to be nearly over, but reports of Boer successes continue to be sent out with unpleasant frequency.

Phoenix is blessed with but one telephone system now, the lamb having laid down inside the lion, the latter being the Vernon and Nelson Co.

John D. Rockefeller with his thousand million dollars, is by far the richest man in the world. And he didn't make it in the newspaper business either.

There is no reason to believe that the work on the V. V. & E. railway branch to Phoenix will not be started at an early date. At least, this is what those best informed assert.

That was a pretty compliment to S. H. C. Miner, president of the Granby Co., when the united cities of Grand Forks and Columbia decided last week to call the consolidated place Miner.

Smith Curtis, with engineers, is following Mr. Dewdney through the Hope mountains, looking for that much talked of railway pass. It is safe to say that Mr. Curtis will find it.

One day last week over 1,800 tons of ore were on the cars at one time in the Phoenix yard of the C. P. R awaiting transportation to the smelter and this is not so unusual a circumstance, either.

There is quite a shake-up in the provincial cabinet, started by Mr. Turner's resignation, followed by that of Richard McBride, minister of mines. When these shake-ups get a good start there's no telling what the end will be.

In another month the Duke of Cornwall and York will arrive in British Columbia on his tour around the world. Victoria and Vancouver are preparing to do his royal highness honor in a manner befitting his station.

It is to be hoped that the Chicago owners of the Lake mine, located a couple of miles or so from Phoenix, will take up their option on the Standard Pyritic smelter at Boundary Falls. The more the merrier, and there's plenty of ore for all.

With the fishermen's and trackmen's strikes settled, it is unfortunate that we cannot chronicle also the end of the Rossland strike and the great steel strike. The far reaching results of a labor strike can hardly be appreciated by the average mind.

Albert Geiser is making an effort to start the Le Roi mine at Rossland and is reported to have some 70 men at work. Mr. Geiser has contracted with Manager McDonald to get out 150 tons of ore per day. It is hardly probable that his efforts will finally be crowned with success.

If the political prophets know what they are talking about Premier Dunsmuir pays more attention to the advice of Joe Martin than to that of any other person. As a proof they say why should James Cunningham Brown have been invited into the cabinet if this is not so? We give it up.

There seems to be no diminution in the interest shown in the international yacht race for America's famous cup. It will occur on September 21st, this year. Thus far it has remained on this side of the water, but knowing ones think it will go back to England this time.

After many years connection with official life in British Columbia, James Herbert Turner resigned the office of finance minister this week, and shortly takes up his duties as agent-general of the province in London. Mr. Turner will carry with him the good wishes of men of all political opinions.

While the smelter builders have credited Mr. Breen with the intention of building the Dominion Copper Co.'s reduction works at some 20 or 30 different points, nothing definite has yet been given out. Over in East Kootenay, however, the Sullivan mine owners have decided to erect a 150-ton plant at Marysville.

Less than two years since the first shipment of commercial importance was sent out from a Boundary mine, yet the total to date is nearly 840,000 tons. Not half bad for a for an undeveloped country.—Grand Forks Gazette.

The Gazette man has more than doubled the correct figures in his estimate, but still 340,000 tons is a respectable showing, even for two years.

"A useless wagon road," would be a good title for the new highway recently built between Phoenix and Summit City, at a cost to the government of $3,600. It is an excellent mountain road with easy grades for its four and a half miles, but it is not completed. At the Phoenix end a team cannot possibly get to it, and at Summit it is not much better. The slight work needed should be done at once.

WHAT THE EDITORS SAY.

It may well be called the Year Book of B. C. (Before Christ.)—Moyie Leader.

Some men are born miners, some acquire wildcats, and others have mines thrust upon them.—Rossland Evening World.

Says ex-Governor Dewdney: "There are more surveyors in this blessed country than there were inhabitants when I laid out the Dewdney trail."—Victoria Post.

There are fifteen establishments in Silverton. Six of them help support this paper; the others we never see, except when they wish to have something to their interest deadheaded in the paper as news matter.—Silvertonian.

The Year Book issued by the B. C. Government is somewhat fossilized. It says that New Denver is 40 miles from Spokane. Such silly mistakes make people wonder whose child compiled this publication.—New Denver Ledge.

About this time look out for the jokes about carving Turkey, the roasting of Turkey, the giving of the wishbone to Russia, and little things of this sort. This is not one of the least of the terrors of war in that badly named country.—Vancouver World.

It is reported that when the Duke of York goes through Canada, T. G. Shaughnessy, of the C. P. R, will receive the honor of Knighthood. Great as this honor is he would receive a greater one by digging up a little more pay per day for the toiling trackmen of the great railroad over which he holds the flag.—New Denver Ledge.

Canadian Newspaper Directory.

A. McKim & Co., Montreal, announce the publication of the third edition of this valuable book. Like its predecessors the work is a complete and interesting handbook of Canadian newspapers, and all that appertains thereto. It is useful as a business directory, because a carefully prepared synopsis is given of each town in which a newspaper is published.

The directory contains complete lists of newspaper towns, arranged alphabetically by provinces, with ample detail as to the issue, publishers politics and estimated circulation of each paper. Similar lists condensed for ready reference, a list of daily papers, a list of newspapers by counties and a classified list showing the many different kinds of papers published in Canada make this a most complete newspaper gazetteer.

Nitrous oxide and oxygen for painless extraction of teeth at Dr. Mathison's. Both phones. *

FROM FAR AND NEAR.

Rossland shipped 480 tons last week.

Last week 260 tons of ore were shipped from Slocan lake points.

Official returns give Nelson's population as 4,610. Rossland has 6,138 people.

W. J. Goepel has been appointed government agent at Revelstoke, vice F. G. Fauquier, removed.

David S. Tait, of Victoria has been offered the position of principal of th public schools at Rossland.

Work was stopped Saturday on the federal government building at Nelson, as the architect and foreman could not agree.

F. G. Fauquier, government agent at Revelstoke, charged with embezzlement, has been arrested and held under bonds for trial.

The Slocan City Board of Trade has been organized with the following officers: President, W. T. Shatford; Vice-President, Dr. Forin; Sec-Treas., C. E. Smitheringale; Committee, W.S. Johnson, T. J. Baty and J. A. Baker.

POINTERS FOR ADVERTISERS.

Advertising is the wind that swells the sales.

The non-advertiser is looking at his trade through the big end of a telescope.

The advertiser proceeds like the flea, by leaps and jumps, and he always lights on his feet.

A man who wants business must establish a reputation which shows he deserves business.

Advertising has no kinship with charity—except that is should begin at home.

A dollar's worth for a dollar will always remain good business policy for the man who advertises.

The ideal ad has a scope so wide that it takes in practically all readers, while, at the same time, no single reader has cause to even suspect that he will be "taken in."

PROVINCIAL GAME LAWS.

Pointers for Hunters in Regard to the Shooting Season.

The open seasons for game are, respectively, as follows, both days being inclusive:

September 1st to February 28th—Bittern, ducks of all kinds, heron, meadow lark, plover.

September 1st to December 31st—Caribou, elk, wapiti (bull), grouse of all kinds, including prairie chickens, hare, moose (bull).

September 1st to December 14th—Deer (buck); deer (doe), mountain goat, mountain sheep (ram).

November 2nd to March 31st—Beaver, land otter, marten.

Unless specially provided, it is unlawful to shoot or destroy the following: Insectivorous birds, English blackbird, caribou (cow or calf) chaf-finch, deer, (fawn under 12 months), elk; wapiti (calf under two years), gull, linnet, moose, (cow or calf under 12 months), mountain sheep (ewe or lamb), English partridge, cock pheasant, quail of all kinds, skylark, thrush, and eggs of protected birds.

It is unlawful to buy, sell or expose for sale, show or advertisement: Insectivorous birds, birds, bittern, English blackbird, caribou (cow or calf), chaf-finch, deer (fawn under 12 months or doe), elk, or wapiti of any sex or age, grouse of all kinds, except blue grouse, which may be sold during the open season; gull, linnet, meadow lark, moose (cow or calf), mountain sheep (ewe or lamb), English partridge, cock pheasant, hen pheasant, quail, robin, skylark, thrush, at any time.

It is unlawful to buy, sell or expose for sale, show or advertisement: Caribou, hare, bull moose, mountain goat, mountain ram, before October 1st; buck deer, blue grouse, plover, during the close season.

Farmers only may shoot robins in gardens, between June 1st and September 1st.

It is unlawful to kill and take in one season more than five caribou, ten deer, two elk, 250 duck, two moose, five mountain goats, three mountain rams, and to hunt deer with dogs, or to kill deer for hides alone.

What we Prophesied

LAST APRIL we prophesied that Phoenix would be shipping more ore than any camp in British Columbia before the end of the year.

Over 250,000 tons of ore have been sent out over the Phoenix branch of the C. P. R. since July, 1900---one year; and this camp is today producing more ore than any mining camp in the Province.

"PHOENIX WILL SHIP AS MUCH ORE IN 1901 AS ALL OTHER CAMPS IN BRITISH COLUMBIA TOGETHER."

Let me tell you something more about Phoenix and its possibilities for investment. Correspondence promptly answered.

RUMBERGER & TAYLOR, PHOENIX, B. C.

Option Secured on Standard Pyritic Smelter.

CHICAGO CAPITALISTS THE PEOPLE

Owners of Lake Claim, Near Phoenix, Visit the Property and Are Looking for More Good Claims.

Last week a party of capitalists from Chicago visited the Lake property, in Providence camp, two or three miles from Phoenix, which they are operating under the title of the Chicago and British Columbia Mining Co. They were so well pleased with the outlook that they arranged for an option on other properties as well as on the Standard smelter at Boundary Falls.

The party consisted of W. L. Springer, president of the Chicago Roofing Co., and his son; Geo. R. Phamer, president of the Empire Lumber Co.; P. L. Liddell, another big lumber manufacturer and Theo. Speaber, manufacturer of caskets. Mr. Springer is president of the company owning and working the Lake, and after giving the property a thorough examination, it was decided to place the mine on a shipping basis as soon as possible. The ore in the shaft is reported to be widening and also improving in quality as depth is attained.

Took Option on Smelter.

In Rossland last Sunday the securing of the option on the smelter was announced in the following dispatch:

"W. L. Springer, president of the Chicago-British Columbia Mining Co., announces that a group of Chicago manufacturers and capitalists has taken an option on the controlling interests in the Standard Pyritic Smelter Co. in the Boundary, together with all the company's assets, which include the Marguerite property adjoining the Mother Lode, and the Standard, a promising property.

"The option is for a short time only, and he expected that the matter would be closed favorably shortly after the arrival of himself and friends at Chicago. If a sale be consummated as he expected, as the Chicago people have been most favorably impressed with the outlook, he says the plant would be blown in at an early date. He declared he is satisfied that there is abundant ore available to keep the plant in constant operation for an indefinite period."

WONDERFUL SHAY ENGINE.

Easily Takes Twenty Cars or 600 Tons of Ore to Smelter.

For a little over a week the wonderful Shay locomotive, that formerly worked on the Rossland hill, has been taking ore from the Phoenix mines to the Granby smelter. The big machine easily handles double that of the old engines, the ordinary load being 20 cars, or 600 tons of ore—and sometimes more.

The following description of this remarkable machine is taken from the Trail News:

It was with a view to increasing the load of empties that could be hauled up the mountain at one trip that the Canadian Pacific purchased this engine. It is known as the Shay locomotive, and is so called after its inventor. It was built at Lima, O., and has been in operation on the Canadian Pacific road since last fall. The locomotive is carried on two 4-wheeled trucks, one beneath the front end of the boiler, and the other beneath the coal-pocket, which is located immediately to the rear of the cab. The water-tender is carried on a single truck, and serves for merely carrying water, for which it has a capacity of 6 tons.

In place of the customary two cylinders beneath the smoke-box, working direct upon the drivers, the engine consists of three high-pressure cylinders, 15 inches diameter, by 17 inches stroke, which are carried upon the right-hand side of the boiler at the front end of the cab, and are arranged vertically above a longitudinal driving shaft which extends the full length of the engine.

This driving shaft, which is 6 inches in diameter, is arranged in sections, with two universal couplings between each of the three trucks, the arrangement being such as to give the trucks full flexibility for taking the curves. The flexibility, indeed, is such that the locomotive can round with ease much sharper curves than with the ordinary type; and it is claimed it is less liable to derailment. The wheels are all utilized as drivers. They are 40 inches in diameter, the width of the tire, including flange, being 8 inches.

The total weight of the locomotive, when in working order, is 112 tons—a weight which is only exceeded by a few of the latest locomotives built for the ore carrying railroads of the east. Results of operation show that, as the result of her own weight being available for adhesion, and of the advantage gained by being geared down in the ratio of 2 to 1, this locomotive will haul about twice the load that can be hauled by the ordinary "consolidation" of the road. The speed, of course, is low on such a heavy character, the average rate with a full load, on a 4 per cent. grade, being about 10 miles an hour.

EXPECT TO SHIP 1000 TONS.

King Solomon Mine, in Copper Camp is Getting Ready.

Eight men are at work on the King Solomon, in Copper camp, and it is expected that a commencement will soon be made to ship ore to the smelter at Greenwood. The wagon road from a short distance above the Morrison up to the King Solomon has been improved from a very rough bush road to one of the best mining camp roads in the district, excepting the main stage roads. The owners of the mine concluded that there was little use expecting the provincial government to do this very necessary work, so they did it themselves, and now they have a road over which there will not be any difficulty in hauling the ore they have arranged to ship to the smelter. It is stated that J. W. Hartline has contracted to haul about a thousand tons of ore to the railway siding at the Deadwood sawmill, and that next month teams will be put on to commence hauling. The ore will be taken thence to the smelter by rail.

The King Solomon ore is well known as the prettiest copper ore yet found in the district in quantity and is generally believed to be the richest in copper. It is claimed that much of it will run as high as 30 per cent. copper, but an estimate places the average value of what is not being mined at about half that percentage, but this latter is regarded as a conservative estimate.

In following the vein the width has been found to vary considerably, it having pinched to about a foot in one place, but where it was being broken down when visited last Tuesday it had a width of from eight to ten feet of good ore. As the ground is rising the probabilities are that a deeper face will soon be opened.—Greenwood Times.

Go to Zimmerman for watches, clocks and jewelry. Opposite Eastern Townships Bank.

Leased the Humming Bird.

E. R. Shannon, John Layeux, and C. F. Harrigan, all of whom are practical miners, have leased the Humming Bird mine, north fork of Kettle river, for six months. They will continue the extension of the tunnel and within a fortnight expect to be able to ship several carloads weekly to the Granby smelter. The Humming Bird is a high grade proposition, the returns from previous shipments to the Granby smelter averaging $20 per ton. A large portion of the stock is owned in Spokane.

He Advertised.

When Larkin, the rich soap man of Buffalo, started business by making soap in his kitchen, carrying the materials in a wheelbarrow, he used his first profits to advertise in the newspapers. As the profits increased he enlarged his purchase of newspaper space. He now employs nearly 1,000 men, and credits his success to newspaper advertising.

Great Ore Exhibit at Spokane.

British Columbia mine owners are credited with the intention of making the biggest exhibit of minerals yet seen at the Spokane fair. To assist them in their effort, the Canadian Pacific and Great Northern roads will carry all samples to the fair gratis, and the American customs will charge no duty. With this assurance mining men and commercial bodies in the province are collecting a large and excellent exhibit from the various mines. At present exhibits are reported as being collected at Phoenix, Grand Forks, Midway, Rossland, Trail, Nelson, Ymir, Ainsworth, Kaslo, Sandon and a number of other points.

At the Exposition held in Spokane last year, the British Columbia mineral exhibit carried away many prizes, and it is the intention that the display shall far exceed that of last year. The same mines from which collections were made last year have undergone considerable development in the past twelve months, and it has been proven that their ores increase in value as development advances.

This is Horse Sense.

The columns of a newspaper constitute the stock in trade of the publisher. Every line except editorial should be either an item of news or an advertisement. All matter of more interest to any person, party or class than to the general public is advertising, and should be paid for. The taking of space, to the exclusion of news, and for the benefit of any class without paying full space value, is equal to appropriating a similar value from a drygoods store without paying the merchant's price.—Ex.

More sidewalk building is going on this week.

Fresh Hazelwood ranch Eggs and Butter at Reeves,'—lower town.

Bell & McBeath expect to complete their grading contract next week.

Mrs. Wm. Dey, who has been quite ill this week, is rapidly recovering.

Snow now adorns the distant hill-tops over in the state of Washington.

The city is doing work this week on Knob Hill avenue, east of Second street.

Another townsite in the Similkameen is on the market. It is called Ashnola.

G. W. Wooster, treasurer of the Granby Co., came in on Tuesday night's train.

Born, last Monday, to the wife of Geo. S. McKenzie, Brooklyn avenue, a daughter.

Mrs. J. F. Hemenway has been visiting with the family of Geo. W. Wooster at Grand Forks.

W. B. Cochrane returned Tuesday from a trip to Rossland and Grand Forks on legal business.

A delegation of Greenwood sports came up Monday to witness the Hawkins-Denny glove contest.

E. Escalet, who has conducted cafes in Rossland and the Boundary, has once more opened in Greenwood.

G. T. Dalmage, manager for J. W. Mellor in Greenwood, was married in that city last Tuesday to Miss West.

R. A. Jones, of Spokane, who will have charge of putting in the new water system, arrived on Wednesday's train.

James H. Kennedy, chief engineer of the V., V. and E. railway, took in the Phoenix Labor Day sports last Monday.

W. P. Tiernay, the well known Nelson contractor, was an arrival who registered at the Victoria house last Thursday.

The first issue of the West Fork News, at the new town of Beaverdell, is expected to make its appearance this week.

A. J. McMillan, manager of the Snowshoe, went to Rossland early in the week, and is expected back in a few days.

R. L. Crawston, the cattle king of the lower Similkameen, who lives at Keremeos, saw the races in Phoenix Labor Day.

The infant child of Foreman P. J. Dermody, of the Granby Co., died Wednesday morning, interment taking place at Greenwood.

Miss Grant, formerly operator for the Columbia Telephone Co., is now occupying a similar position with the Vernon and Nelson Co.

William Hunter, of Silverton, head of the house of the Wm. Hunter Co., Ltd., came in this week to make a visit to his Phoenix store.

J. L. Parker, superintendent of the Brooklyn, went to Rossland Tuesday. He returned Thusday, accompanied by J. E. Boss, of Toronto.

Martin Denny, who was defeated by Dal Hawkins, left for Portland, Oregon, the next day, where he is shortly to have a contest with Coe.

A meeting of Greenwood Typographical Union No. 338, having jurishdiction all over the Boundary, was held last Sunday in Phoenix.

Tomorrow is the date of the regular stated election of officers for Phoenix Miner's Union No. 8. The nominations were held last Saturday.

Neil Stewart is raising the Mint hotel to the new grade on Dominion avenue, and Hugh McGuire is doing the same with the Hotel Brooklyn.

H. R. Davidson, manager of the Bank of Commerce, Greenwood, spent last Sunday and Monday with his wife as guests of J. L. Parker in Phoenix.

Next week Rev. Flewelling, the newly appointed rector of St. John's Church of England, is expected to arrive and take up his work in Phoenix.

Walter Foss, Presbyterian missionary at Eholt, was a visitor in the city Thursday. Mr. Foss occasionally holds services at the Winnipeg and B. C. mines.

Mrs. P. McKelvey, who has had charge of the Stemwinder dining room, this week took over the Snowshoe boarding house. Miss Jennie Fronnick, of Rossland, is now in charge of the Stemwinder.

Labor Day was celebrated at Revelstoke by a football match between the home team and that of Golden, resulting in a winning for Revelstoke. Score 2 to 0.

McRae Bros. & Smith have their new building on Knob Hill avenue roofed, and the plasterers are in charge. McLean & Conway will occupy part of the building.

The funeral of John Wahlberg was held last Sunday at Miner's Union hall, the Rev. Geo. A. Kinney officiating. The remains were interred in the Greenwood cemetery.

Last Tuesday 62 non union men were brought to the Northport smelter from Joplin, Mo. The next day all had left but 17, saying the situation had been misrepresented to them.

Regular Methodist services in the old school house tomorrow. Sunday school 3:30; preaching 7:30 p. m., subject, "The Greatest War of the Age." Rev. Geo. Kinney, B. A.

Montgomery Smith, representing G. F. and J. Galt, Vancouver, the packers of the famous Blue Ribbon tea, was in town Thursday. Mr. Smith had just returned from a trip to the Klondike.

It is reported from Grand Forks that W. H. Covert expects to gather this season a deal of fruit from his orchard near Carson, including about 20,000 pounds of prunes and a lot of apples.

Residents of the upper part of town no longer have to go to the postoffice to secure postage stamps. McRae Bros. & Smith have been appointed agents by the postoffice department at Ottawa.

W. H. Pierre returned Tuesday from a business trip to Beaverdell and the West Fork. He is interested in claims in that locality, and thinks it is one of the coming sections of the province.

David Wilson, inspector of public schools for the mainland, visited the new Phoenix building last Tuesday, and was much pleased. The painters finally completed their work on the building this week.

Next Friday the farce, "The Mouse Trap," will be given at Miners' Union hall by the ladies of the Presbyterian church. The entertainment will be preceded by a short program, and refreshments will also be served.

The Phoenix Tennis club held a meeting Thursday evening and appointed a committee to arrange for a handicap for the Henderson trophy. The first of the games will be played off next week, weather permitting.

The request recently made by Agent Dey, of the local office of the C. P. R., for an operator, has been acted favorable on, and last Wednesday W. Choate, formerly located at Coryell, arrived to handle the lightning here.

The services in St. Andrew's church will be conducted tomorrow at 11 a.m. and 7:30 p. m. by Mr. D. A. Stewart, B. A., who was the first student of the Presbyterian church to conduct a religious service in this camp, over two years ago.

Last week R. Gardom, fruit inspector, of Midway, condemned twenty-one boxes of apples, brought in from the Okanogan country by Mr. Nash. The fruit which was affected with Codling moth, was destroyed.—Midway Advance.

Smith Bros. are now making good headway on the $15,000 Bank block being erected by Messrs. Graves and Williams. The stone and brick work on the lower story is completed, and another week will put the second story in an advanced condition.

Rev. M. McGregor, representing the Westminster, of Toronto, the representative Presbyterian weekly of Canada, has been spending the week with his old friend, Rev. Millar. This is Mr. McGregor's first trip, and he is most favorably impressed.

D. A. Stewart, the original Presbyterian missionary in Phoenix, has been spending the week here renewing acquaintances with many old friends, and will preach tomorrow in the Presbyterian church. Mr. Stewart originally had charge of the missions in Greenwood, Phoenix and Eholt.

Wm. Downie, superintendent of the C. P. R. branches in Kootenay and Yale, with Trainmaster Lawrence of the Boundary railway, visited Phoenix last Saturday, on a general trip of inspection to the different Boundary mining camps. On this trip they visited the B. C. mine, the Mother Lode and the Snowshoe. One result of Mr. Downie's visit, was the decision to increase the railway yard room here, to keep pace with the largely increasing business that the company is doing in Phoenix.

Only One Telephone Line Now.

Last Tuesday the Columbia telephone exchange was closed, and the wires run into the Vernon and Nelson Co.'s office in this city. In Rossland, Grand Forks and Greenwood the Columbia Co. has first class exchanges in operation, but Phoenix is the one place that has been systematically neglected by the company, with the result that the V. and N. Co. has for some time been getting most of the business. It was understood when the V. and N. Co. recently acquired control of the Columbia system that the lines would be run separately as heretofore, but the Columbia lines were in such bad shape here, that it was thonght best to consolidate the two offices, which has accordingly been done. The consolidation really is a benefit to the business men in one way, so long as the rates are not raised, and no intimation of doing this has yet been given out.

Stephen Irwin, foreman of the V. and N. Co., arrived in the city Tuesday, and will have charge of the improvements that company will shortly begin in this city. A new line will be built along the new part of Dominion avenue recently graded, and the system will be improved in many ways. The company now has over 100 subscribers to the exchange in Phoenix, which number is growing constantly.

For the last week the Granby smelter treated 4,636 tons of ore, or an average of 622 tons daily. This is a new record for the Granby, being larger than any previous week. The total to date is 210,674 tons.

Neil Lamont, of the Russell-Law-Caulfield Co., Greenwood, was married last Wednesday to Miss Weeks, the ceremony being performed by Rev. McEwen.

Copperfield
AT Junction of Whipsaw Creek and Similkameen River, at the foot of Copper and Kennedy mountains, famous for their enormous showings of Copper and Gold ores, nine miles above Princeton. Copperfield is the natural Smelter City and mining center for this district and south to the international boundary. Several hundred horse power is already developed in Whipsaw Creek. Large Smelter Site reserved. Coal croppings and exposures under and surrounding townsite, and negotiations are pending for exploitation of adjoining coal measures to the west. Also extensive ranching, fruit and cattle raising.

Mr. Curtis has gone to supervise the platting of lots and will reserve for Phoenix and Greenwood purchasers exclusively a number of the best lots on the business and residential street. First choice to those first applying and paying a deposit to the undersigned. Prices, $65, $55 and $50 for lots on business streets, and $30 and $25 for lots on residential streets. A limited number only will be sold at these prices. TERMS—One half cash, balance in six months. The big boom in the Upper Similkameen mining country is beginning. Why not be in it?
