Notice—C. M. Parker..... 6

MINERAL FLOAT

A strong company with large capital are now operating in the oil fields of East Kootenay.

The oil industry is conceded to be one of the most important in the United States and it offers attraction for investments not equalled by any other.

Recent discoveries of oil in the south eastern portion of South East Kootenay will attract attention to this district.

The good or bad condition of the Crow's Nest Pass mining industry affects happily or unhappily the lives of thousands of the people of this district.

This district contains many prospects and partly developed mines, many of which will prove valuable when the necessary capital comes to open and operate them.

Snow in the mountains, and an early spring has made glad the heart of the placer miner in this district.

It is estimated that $90,000,000 represents the investment in machinery aloue, employed in the gold mines of South Africa.

The mineral resources alone, in the vicinity of Fort Steele, are enough to make us feel certain that within a very short time Steele will be the mining center of the district.

The miners of South East Kootenay feel that better times are in store for them.

Greater activity in mining will probably be experienced in this district during the present year than for many years past.

In 1901 the falling off in copper consumption in Europe was 15.6 per cent, due to the depressed condition of trade and the general suspension of work on new electrical enterprises.

Through any year come hundreds of letters seeking information about the mining industry of this district.

It is said that the average prospector says "porphyry" when he doesn't know what the rock is.

The development of the mining industry largely depends upon the men engaged in the search for mineral deposits and the development of them to a point at which capital is justified in taking hold and making them productive mines.

The mining field has taken advantage of the extent to which electric power can be subdivided and the ease with which it can be transmitted to any given point to an extent which would have been regarded as highly improbable four or five years ago.

The once famous Wild Horse creek placer mines, bids fair soon to revive again the fame of its olden days.

A number of important deals are now being considered.

Work is progressing on a number of claims with flattering results at Tracy creek.

The present rate of consumption of copper is at the present time enormous, considered at every point.

The outlook for the mineral industry of this district is brilliant and full of promise for the future.

This fact alone leads to the assumption that copper is at its level, and much higher prices may be looked for in the near future.

Nothing will more fully conserve the interests of the mining industry than the application of correct business methods in securing capital for investment.

ESTELLA.

Reports from the Estella mine at Tracy creek continue to be favorable. It is said that the company will make most of its improvements this year. A concentrator, air compressor and wagon road to the mine are among the improvements now being considered.

MAIL SERVICE WANTED.

Residents of the Windermere Valley are Emphatic in Demanding a More Up-to-Date Service.

Peterborough, March 20.—A meeting of the residents of the Windermere valley was held at Windermere on March 20th for the purpose of devising ways and means for the improvement of the mail service between Cranbrook, Fort Steele, Wasa and Peterborough.

It was the largest public demonstration ever held in the Windermere valley, residents from every town, from Sheep creek to Peterborough were present. S. Brewer was elected chairman; Charles Estmere, secretary; the following resolutions were passed:

"That petitions be drawn up and signed by the people of Peterborough, Athalmar, Canterbury, Windermere, Fairmount Thunder Hill, Wasa, Fort Steele and Cranbrook. In addition to individual letters, which petitions shall ask for a mail route from Cranbrook to Peterborough in such a manner as to give the people of this district a twice a week mail in conjunction with the Golden and Windermere route."

"That one copy of the petition be sent to Inspector Dorman and one sent to the Postmaster General be forwarded to Mr. Galliher, M. P., for presentation to the Postmaster General personally with a request to plead the cause in behalf of the people of this district."

"It was moved that a copy of resolutions be sent to the Boards of Trade at Cranbrook, Fort Steele and Golden with the request to co-operate with the people of the Windermere district in their efforts to have this mail route established."

BOARD OF TRADE MEETING.

A meeting of the Fort Steele Board of Trade was held on Monday evening to consider the request of the people of the Windermere district for assistance in requesting the Postmaster General to establish a mail route between Cranbrook and Peterborough, via Fort Steele. A committee was appointed to draw up petitions, draft resolutions to be forwarded to the Postmaster General, calling his attention to the necessity of establishing the mail route as called for by the people of Windermere and South East Kootenay district.

Easter Day.

Divine service will be held in St. John's church on Sunday next at 11 o'clock a.m.

The Ladies Guild are arranging the floral decorations and mottoes for the festival.

The coal deposits of South East Kootenay is one of the most important factors in the commercial and industrial development of the district.

CONCENTRATOR FOR ESTELLA MINE.

The Thunder Hill Plant Will be Taken to Tracy Creek.

C. Hungerford Pollen, local representative of the English syndicate, owners of the Estella mine, while in Vancouver last week purchased the Thunder Hill concentrating plant and will remove the entire outfit to Tracy Creek, where it will be used to concentrate ores mined at that camp.

The plant was erected at Thunder Hill some eight or nine years ago, and never operated. At that time it was considered up-to-date in every particular. The plant which consists of rock breakers, rolls, trommels, elevators, Hartz jigs, Buddell tables, engines, five boilers, pumps, steam drills, cars, are all in excellent condition. The capacity of the plant is in the neighborhood of 100 tons.

A mill site has been secured at Tracy creek, and among other improvements contemplated is the installation of a compressor plant, and a wire tramway from the mine to the concentrator.

The Estella group consists of eight claims, up to the present time nearly 2,000 feet of tunnels, shafts and adits have been run. The ores are complex, gray copper, copper oxide, galena and pyrite predominate, carrying good average values and occasionally high ones in copper and silver. In No. 1 tunnel the ledge is from three to six in width, in the Rover tunnel the ledge is from two to twelve feet, the ore is galena and considered a good concentrating proposition equal to other mines in the district.

Death of Alexander McTavish.

The death of Alexander McTavish has removed one of the most respected citizens of Fort Steele. His demise will be deeply mourned by all who knew him.

His illness which ended in death was not of more than seven days duration. He was first taken down with throat trouble which developed into epithelial cancer advanced from the lip to the throat. It was not until his death was announced that the public was aware of the serious condition of Mr. McTavish. There was an expression of universal regret when the sad truth became known.

The funeral took place at 11 a.m. Sunday from the Presbyterian church and was well attended, the coffin was covered by floral tributes of friends. The funeral cortege was formed and moved through Riverside avenue to the cemetery; a long procession of vehicles followed to the grave-side, where the service of the Presbyterian church was read by the Rev. D. McK. Reid.

AFTER DELAREY.

Kitchener Has Burghers in a Tight Place.

In a dispatch from Pretoria, Lord Kitchener, says:

The combined movement against Delarey was undertaken by columns of mounted men, without guns or impediments of any sort. The column started from Commando Drift, on the Vaal river, and travelled rapidly all night and at dawn March 24 occupied positions along the line from Commando Drift to the Lichtenburg blockhouse line, with the object of driving the enemy against the blockhouses or forcing an action.

Kekewich's column, after the commencement of the action, captured three fifteen pounders, two pom-poms, nine prisoners, and a hundred mules, carts and wagons. General Kitchener's column captured 89 prisoners, 45 carts and wagons and a thousand cattle.

The troops covered 80 miles in 24 hours. The total number of prisoners is 135.

CANADA TO SEND TROOPS.

A Contingent of Two Thousand Men Will be Sent to South Africa.

The Dominion government has offered a fourth contingent to go to South Africa to aid the cause of the British empire.

It is understood that the contingent will be the largest on record. If the imperial authorities accept, Canada will forward with the utmost dispatch 2000 armed men.

There will be no difficulty in getting all the men necessary, indeed there will be far more recruits offering than positions will be available for.

East Kootenay Stock.

	Asked.	Bid.
Crow's Nest Coal	$	$350.00
North Star	26	24
Sullivan	10	8¼

Silver-lead Quotations.

New York, March 28:

Bar Silver	53¼
Mexican dollars	43¼
Lead	4.12½
Copper	12.47½

London, March 28.—Silver, 24 13-16d; copper, £52 2s 6d; lead, £11 6s, 3d.

Market Conditions.

Sullivan stock showed a slight advance this week.

The new copper rules will go into effect at the metal exchange on April 15th.

The hydraulic mines on Wild Horse creek will resume operations about the first of April.

Trade in mining supplies is showing some improvement.

General trade is slightly improved on account of pleasant weather.

Silver quotations at London, Eng., remained very dull and depressed during the past week.

A little firmer feeling was apparent in copper.

Items of Interest.

King Edward proposes signalizing his coronation by giving a dinner to half a million of the poor of London.

It is believed that the real intent of the Anglo-Japanese treaty is to compel Russia to evacuate Manchuria.

Since leaving Puget Sound on October 14th the battleship Wisconsin has steamed 20,000 miles.

The impression is general that the Transvaalers favor a wholesale surrender of the Boer forces.

The directors of the Cunard Steamship Company have declared a dividend of 4 per cent.

Final Payment.

The final payment of $5,000 on the Perry creek placer ground will be made on April 1st.

On to Elko.

Tracklaying on the Crow's Nest Southern railway is progressing rapidly. Five miles of track has been laid north of the boundary line. It is expected that the steel will be laid as far as Elko by April 15th.

Late Telegraphic News

Special to The Prospector.

TO PLAY IN AUSTRALIA.

San Francisco, Cal., March 29.—William A. Brady's "Way Down East" company, after a successful tour of America, sails today for Australia. The company is booked to open at Melbourne May 1.

BIG DEAL IN COAL LANDS.

New York, March 29.—The Union Trust Company of Baltimore is financing a syndicate to acquire upwards of 100,000 acres of coal land in Southwest Virginia and to build the old Virginia and Southwestern and Ohio River and Charleston railroads. The plan is to organize a new company, with a capitalization of from $9,000,000 to $12,000,000. The railroad lines to be completed will form a short route from the coal fields of Wise County to Lincolnton, N. C. From there they will run over the Seaboard Air Line to Southport, N. C., where large coal piers and docks will be built to handle the coal and other business.

OFF FOR AMERICAN TOURNAMENT.

New York, March 29.—More than a score of the most prominent marksmen of the East left this afternoon for Kansas City to take part in the Grand American Handicap tournament to be held in that city next week. The party travels by special car and will arrive in time Monday morning to begin the week's shooting.

ELECTRIC LIGHTS IN ST. PAUL'S

London, March 29.—The long talked of installation of electric lights in St. Paul's is completed and worshippers tonight are to see the illumination for the first time. Though all of the standards have been fixed, the choir will be seen in a blaze of light. It is estimated that the change from gas to electricity, through the gift of J. Pierpont Morgan, will cost not less than $50,000.

KAISER'S YACHT READY.

New York, March 28.—The Kaiser's yacht "Meteor left the Townsend Downey shipyards today for her trial trip. If the spin is successful the yacht will be rigged with her cruising canvas and will start under convoy for the other side early in the coming week.

CANADIAN WHIST CONGRESS.

Toronto, Ont., March 28.—Expert whist players from many parts of the Dominion are taking part in the seventh annual congress of the Canadian Whist League which opened at McConkey's today under favorable auspices. The prominence and large number of the contestants promise the most successful tournament in the history of the league.

A CORONATION EDITION.

Paris, March 28.—Mr. James Gordon Bennet, the owner of the New York Herald, who also edits that paper from his foreign home as well as the Paris edition of the Herald, is to issue a Herald in London next June during the coronation of King Edward VII. He will establish a complete publishing plant in the English metropolis and show the Londoners the secret of American newspaper making. He will have editions on the street hourly and expects to lead the great English newspapers in everything. He has engaged a staff of French and English illustrators and will make the London Herald a model of pictorial neatness.

At the Hospital.

A good deal of work has been done at the hospital lately and the grounds have a neat and well kept appearance, showing that they have been looked after, thanks to the thoughtfulness of a friend of the hospital who does not wish his name to be made public. The institution has an excellent reputation throughout the country and the work done by the efficient staff is appreciated by the public.

PERRY CREEK PLACER MINES.

Hydraulic Plant to be Installed.—Sawmill Erected.—Flumes and Ditches Constructed.

About a year ago Messrs. Boynton and Trow, representing a large Wisconsin syndicate acquired a large tract of placer ground on Perry creek. The work of development, and the installation of a large hydraulic plant has commenced.

Messrs. Boyntou and Trow have been at Perry creek for the past week engaged in examining the ground in order to determine what will be the best method of working the ground. It is reported that a large hydraulic plant will be installed, several miles of flume constructed, and a bedrock flume will convey the gravel to a convenient dump.

The Wisconsin syndicate during the past winter have had three men at work prospecting their ground and that the returns from the winters work give a satisfactory account of the richness and extent of the pay gravel.

Perry creek in the early sixties had a reputation as a placer camp, and since that time has been worked continuously by means of tunnels and shafts with excellent results frequently producing a large amount of the yellow metal. A number of Fort Steele men have been engaged during the past five or six years in working the deep channel of Perry creek with varying results, sometimes taking out pay that amounted to as high as $20 per day to the man, with an average of six to eight dollars per day, this has been obtained with crude appliances for hoisting gravel, and pumping water from shaft and tunnel.

It is said that Mr. Hanson has about completed arrangements for the erection of a sawmill on Perry creek.

Visitors From Alberta.

Mrs. Kemmis, Miss Kemmis and Miss Jackson arrived on Saturday last and will stay at Fort Steele for some weeks. Already they are delighted with the district, on account of its climate and picturesque surroundings.

Leaving for the Nor West.

The Rev. David Reid, missionary in charge of the Fort Steele district in connection with the Presbyterian church, will preach his farewell sermon in the Presbyterian church next Sunday evening. He has been called to a new field of labor in the Nor West. Many kind wishes go with him for his success in his labor of love. His work here will be continued by Mr. McDougal, a student missionary.

Death of Cecil Rhodes.

Capetown, March 26. — Mr. Cecil Rhodes died peacefully at 5:57 p.m. He slept during the afternoon but his breathing became more difficult and his strength preceptibly diminished until he passed away.

The Prospector.

ESTABLISHED 1895.

A. B. Grace,

PUBLISHER AND EDITOR.

THE PROSPECTOR, is published every Saturday, and has a guaranteed circulation larger than any other paper in East Kootenay. It is all home Printed and contains double the news of any other paper in the district.

As an advertising medium it is unexcelled.

Devoted to the upbuilding of Fort Steele, the development of the vast mineral resources of the East Kootenay mining district.

Subscriptions.....$2.00 per year
Advertising rates made known on application.
Contributions are solicited from all parts of the district, but all matter intended for publication must have the writer's signature.

THIS PAPER Is kept on file at the advertising agency of Alexander &Co., Suite F., First National Bank Building, Spokane, Wash., where contracts can be made for it.

This Paper is kept on file at E. C. DAKE'S Advertising Agency, 64 and 66 Merchants Exchange, San Francisco, California, where contracts for advertising can be made for it.

This Paper Is kept on file at the A. McKim & Co. Newspaper Advertising Agency, Montreal, where contracts for advertising can be made for it.

This Paper Is on sale at J. W. Graham & Co's book store, Spokane, Wash.

The Prospector.

SATURDAY, MARCH 29, 1902.

"No Enemies to Punish—No Special Friends to Serve."

THERE is no doubt that prosperity is general in South East Kootenay, and that the people of the district have more faith in the future than ever before. The attention of capital is being directed to the resources of this district with the result that important industries of large proportions are now contemplated which will bring success and profits from investments.

* * *

Every new industry formed is good for the district and tends to attract others to consider, and secure property.

* * *

Coal mining in South East Kootenay is rapidly assuming large proportions. The present output is 3000 tons daily. The completion of the Crow's Nest Southern railway will increase the output to 6,000 tons.

* * *

Information from the oil fields in the south eastern portion of the district indicate a large and rapid development. Contracts have been let for sinking a number of wells; and the recent report of striking oil, has been found to be correct. It is taken for granted that there will be a large boom this year in the oil developments of the district.

* * *

The large iron deposits of the district are again attracting the attention of investors, and the splendid success of investors in the western portion of the district, will prove a strong incentive to investors to follow and secure the large deposits of iron on Bull River and Dibble Creek.

* * *

It is not unreasonable to predict that in the present year that a larger amount of capital will be expended in the purchase of mining property and the development of prospects than in years past.

* * *

The construction of a smelter at Marysville to treat ore from the Sullivan mine is of much importance to the district.

* * *

The attention of the home seeker has been attracted to the Kootenay valley, and people are coming to appreciate the agricultural possibilities of the district.

* * *

It is now thought very probable that the Boer war will be finished before the coronation of King Edward takes place.

* * *

Advertising pays a great deal better than advertisers do.

* * *

Canada is one of the coming copper countries. British Columbia alone made nearly twice as much copper in 1901 as the entire Dominion produced in 1900.

* * *

The Redistribution Bill passed its first reading on Thursday of last week, and its second reading was set for Monday of this week

At All Times of Year Pain-Killer will be found a useful household remedy. Cures cuts, sprains and bruises; Internally for cramps and diarrhoea. Avoid substitutes there is but one Pain-Killer, Perry Davis.

SATURDAY, MARCH 29, 1902.

Electricity in the Service of Man.

The waterfalls have been at work for untold ages. Within a generation man has harnessed their force, converted their energy into electricity and compelled nature to do the work. In thirty years electrical science has advanced from the field of discovery and invention to practical application to the arts and industries, developing a tiny laboratory spark into a powerful agent which moves the wheels of industry and commerce. The telegraph and the arc light were known before; but the telephone, the electric railway, the incandescant lamp, and the electric motor have been used only within a generation.

Electric cranes and hoists would build the Pyramids to-day with ease and dispatch. The thousands of unskilled workmen who actually wore out their lives in that monumental labor of dead ages paid the penalty of ignorance. Economy and concentration of effort are the lessons of the twentieth century.

The automobile truck wheeling tons of dead weight from place to place under the guidance of a driver whose only labor is to pull a lever, is an example in every day life of an electric machine doing safely and economically work which was but recently the wearisome task of man and beast. Merchandise will soon be collected by electrically operated express wagons, transferred to electrically propelled freight cars, and whirled from New York to Chicago at a speed of 90 miles per hour, over trunk lines whose problems of electrical equipment and maintenance have solved themselves.

Traction and lighting are the two applications of electrical energy to everyday life which are most in the public eye. Twenty years ago there were no electric cars in the United States The application of electricity to trunk line railway traction is believed by many experts to be a development of the near future. —Western Mining World.

A Builder—Are You Losing Weight? "The D. & L." Emulsion will always help and build you up. Restores proper digestion and brings back health. Manufactured by the Davis & Lawrence Co., Ltd.

There are repositories of ore in South East Kootenay that cannot be exhausted for many years to come.

Soda water in siphons. The most economical way to handle it.

NOTICE.

NOTICE IS HEREBY GIVEN that sixty days from the date hereof I intend to apply to the Chief Commissioner of Lands and Works Victoria, B. C., for a SPECIAL LICENSE to cut and carry away timber from the following described Crown Lands:—

Commencing at a post planted at a point situate one mile north of the North East corner of timber limit held under S. Lane's special timber license, situate near Lake creek, East Kootenay. Thence East eighty chains; thence North eighty chains; thence West eighty chains; thence south eighty chains to the point of commencement comprising in all about 640 acres of timber lands.

Dated this 19th day of October, 1901

44 CHARLES E. FINCH, Applicant.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, asthma, and thought you had overspoken yourselves but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

We want to send to every sufferer a trial treatment of Asthmalene, similar to the one that cured Mr. Wells. We'll send it by mail POSTPAID, ABSOLUTELY FREE OF CHARG to any sufferer who will write for it, even on a postal. Never mind, though you are despairing, however bad your case, Asthmalene will relieve and cure. The worse your case, the more glad we are to send it. Do not delay. Write at once, addressing DR. TAFT BROS.' MEDICINE CO., 79 East 130th St., N. Y. City. Sold by all Druggists.

LOCAL NEWS.

C. Hungerford Pollen returned from a visit to the coast on Saturday last.

H. Haines was a visitor at Steele on Sunday.

W. F. Milburn, Toronto, was at the Imperial on Sunday.

Government Agent Armstrong visited Elko on official business on Monday.

Mrs. and Miss Hannington returned to Fort Steele on Thursday.

M. A. Beale, Moyie, visited Steele on Thursday.

This district has many knockers and spouters, but only one oil gusher.

C. H. Pollen and J. Laidlaw visited the Estella mine on Monday.

Colonel and Mrs. Henderson came up from the ranch on Monday.

The postal department should promptly establish a mail route from Cranbrook, via Fort Steele to Peterborough.

A large number of pleasure seekers from Cranbrook visited Steele on Sunday last.

Bronchial Affections, coughs and colds, all quickly cured by Pyny-Balsam. It has no equal. Acts promptly, soothes, heals and cures. Manufactured by the proprietors of Perry Davis Pain-Killer.

W. R. Ross and H. W. Barnes Fernie, visited Steele on Sunday last.

Charles Estmere returned from Windermere on Monday.

The annual boat race between Oxford and Cambridge University crews was run on Saturday last, resulting in a victory for the light blues (Cambridge) by nearly eight lengths.

The Fort Steele Flour and Feed Store have received a consignment of fine Ceylon teas.

Hydraulic mines on Perry creek will commence operations as soon as the season will permit.

A wreck on the Crow's Nest line delayed the east bound mail on Saturday last.

One fact is better than ten hearsays. Ask Doctor Burgess, Supt. Hospital for Insane, Montreal, where they have used it for years, for his opinion of "The D. & L." Menthol Plaster. Get the genuine made by Davis & Lawrence Co., Ltd.

Invitations have been received at Fort Steele for the marriage of Mr. S. R. Rogers and Miss E. Kershaw, daughter of H. Kershaw, the event will take place on Wednesday evening, April 2nd, at Fernie.

Any candidate who believes half the promises made prior to election needs his head examined.

Some get up with the lark while others are not content without a swallow the first thing in the morning.

C. Hungerford Pollen, manager of the Estella mine, left on Tuesday for England. He will return in about two months.

Government Agent Armstrong was at Fernie on Friday.

N. Hanson was in town on Thursday.

Good Friday was observed as a legal holiday at Steele.

E. G. Boynton and A. G. Trow Merrillan, Wisconsin, were at the Imperial on Wednesday.

Card of Thanks.

MR. EDITOR

I wish through your paper to thank the many friends of the late Alexander McTavish for the assistance so kindly given during his fatal illness, and especially to Nurse Folson for her efficient nursing. Also to the ladies of Fort Steele for their floral tribute. Once more thanking all those who kindly volunteered their assistance. I remain yours truly.

A SINCERE FRIEND.

RECOMMENDED BY PHYSICIANS

Pond's Extract

Over fifty years a household remedy for Burns, Sprains, Wounds, Bruises Coughs, Colds, and all accidents liable to occur in every home.

CAUTION—There is only one Pond's Extract. Be sure you get the genuine, sold only in sealed bottles in buff wrappers.

EXAMINATION FOR ASSAYERS FOR LICENCE TO PRACTISE IN BRITISH COLUMBIA.

IN ACCORDANCE with section 12 of the Bureau of Mines Act, examinations for efficiency in the practice of assaying will be held at Nelson, B. C., on 21st April, 1902, and on such following days as may be found necessary.

ENTRANCE FOR EXAMINATION.

Entrance for any examination must be made in writing to the Secretary of the Board of Examiners, at least ten days before the date set for beginning of examination, and must be accompanied by the prescribed fee ($10).

The examination will consist chiefly of the practical assaying of samples, and while the Department of Mines will provide all the apparatus and chemicals usually necessary, it will not undertake to provide any special or unusual appliances or chemicals which might be called for, and if a candidate should require such he will have to provide them at his own expense.

Candidates must provide themselves with such platinum ware and sets of weights as they may require.

The Department of Mines will make no charge for the use of chemicals or apparatus, but a candidate will be charged for all breakages or unnecessary loss caused by him.

Any additional information desired may be obtained from H. Carmichael, Secretary, Board of Examiners, Victoria.

E. G. PRIOR,
Minister of Mines.

Department of Mines,
Victoria, B. C., 18th March, 1902

Notice to Delinquent Co-owners

To W. R. Williams and John J. Costella.

Or to any other person or persons to whom he or they may have transferred his or their interests in the "Mountain Daisy" mineral claim, situate at Tracy creek in the Fort Steele mining division of East Kootenay and recorded in the Recorder's office at Fort Steele, B. C.

You and each of you are hereby notified that I have expended on your undivided one fourth interest in above claim since the third day of August, A. D., 1899, fifty dollars in labor and improvements upon the above mentioned mineral claim under the provisions of the Mineral Act. And if within ninety days from the date of this notice you fail, or refuse to contribute your portion of such expenditure together with all costs of advertising, your interest in said claim will become the property of the subscriber under Section 4 of an Act entitled "An Act to Amend the Mineral Act, 1900"

E. H. THRUSTON.

Dated at Fort Steele this 2nd day of January A. D., 1902. 1-

QUARANTINE SERVICE.

The Dominion Government is now maintaining a quarantine service to prevent the introduction of small-pox and other contagious diseases from south of the Boundary at Tobacco Plains.

The quarantine guards there are M. PHILLIPPS and J. B. LANGLEY and all persons desiring to cross into Canadian territory must report to them, giving satisfactory evidence of recent successful vaccination, or otherwise must submit to be vaccinated on crossing.

A heavy fine may be imposed on any persons neglecting or defying quarantine regulations.

HUGH WATT, M. D.
34- Dominion Quarantine Officer.

Notice to Delinquent Co-owners.

To Joseph McCann, J. W. McCann and W A. Harris, or to any person or persons to whom they or any of them may have transferred their or his interest in the "Big Bend Boy", "Honey Comb", "Queen of Sheba" and "King Solomon' mineral claims, known as the "Golden Five Group" and situate at the Forks of Wild Horse creek, in the Fort Steele Mining Division of East Kootenay and recorded in the office of the Mining Recorder at Fort Steele.

You and each of you are hereby notified that I have expended $2,800 in assessment work on the above mentioned mineral claims since the 8th day of August, A. D., 1894, under the provisions of the Mineral Act. And if within ninety days from the date of this notice you fail, or refuse to contribute your portion of such expenditure together with all costs of advertising, your and each of your interests in said claims will become the property of the undersigned under Section 4 of an Act entitled "An Act to Amend the Mineral Act, 1900".

Dated at Fort Steele this 27th day of March, 1902.
