NOTE AND COMMENT.

As the Western Mining World candidly admits, there is not much chance of the smelting business in Kootenay ever attaining any magnitude without an export duty on ore, and the imposition of a duty on lead ores, as has been promised, is a step in the right direction. At the same time there are other questions such as rates to be considered before this industry will take any importance in Canada. The point to be aimed at is not the establishment of a smelter here or a smelter there, but rather of the rise of some big smelting and refining centre among us. Nature seems to point out the coal fields of East Kootenay as the most likely point for such a town to spring up. They are in close proximity to the mineral districts and will soon be linked to them by the construction of the Crow's Nest Railway, which will also render them quite as accessible to the bullion market as are Great Falls, Anaconda and Butte in Montana. There seems to be no valid reason why we should continue to ship our ores for all time to the States to be smelted.

The question of the market is one in which the Dominion Government can most materially help out the situation. The establishment of a mint, in favor of which project Senator McInnes' arguments in his recent speech in the Senate seem unanswerable, would at one stroke give immense encouragement both to smelting and mining in Canada with exceedingly little expense to the government, at the first, and of considerable profit in the long run. We stand in Canada in a very humiliating position with regard to our currency. An English or Australian sovereign, or a United States eagle is good money all over the world. Canada has no currency of any denomination or kind that is any use to a Canadian twenty miles across the frontier. If we were coining 5 and 10 dollar gold pieces of exactly the same value as the United States pieces we should be in a very different position in this matter and would also, it is to be presumed, not be quite so entirely dependent out west on the States for small silver coinage for change.

The outcry at the incapacity or indifference of the post office department to keep pace with the development of Kootenay is being at present swelled considerably in volume from the Lardeau country. With communication established daily, almost one may say hourly, between all parts of the lake, from which the principal points in the Lardeau are within an easy drive, the government is content with its old weekly mail and a promise of a mail twice-a-week after the first of July, which as nothing has been heard of the contract is probably like the Big Bend service still undergoing consideration by the Postmaster-General. The annoyance and inconvenience caused by the inactivity of the Postmaster-General to give a decent, or for that matter any mail service into these points with which Revelstoke is doing her trade is very considerable. Our business interests are suffering to allow Mr. Mulock by saving twopence here and cutting off twopence there to make both ends of his department meet. To some men this is their only idea of efficiency in the conduct of public office. It does not seem to count anything in their calculations that the whole business of the country is suffering, to permit them to strike a balance.

POLICE COURT.

(Before J. D. Graham, S.M.,)

On Friday, Thomas Camp, who is beginning to be quite a familiar character round town, took fourteen days on a charge of drunk and disorderly.

James Smith, who was also d. and d. and who allowed his enthusiasm for the Anti-Mongolian cause to carry him to the length of assaulting Chas. Sing, the cook at the Chinese restaurant on Thursday, was given two months in which to look into the deeper aspects of the Chinese question in quiet seclusion at Kamloops.

Inquest on Chas. Berger.

Dr. McLean went up to Illecillewaet this morning to hold an inquest on the remains of the late C. Berger, a miner, who was killed by an explosion of dynamite at the Gold Hill claim last fall. Men have been out searching for portions of the body for some time past, with the result that the head, one arm, one leg and portions of the trunk have been discovered. The jury will have to proceed nine miles up to the claim to view the remains, which owing to their condition will have to be buried on the spot. This makes the 8th inquest which Dr. McLean has held within the last two weeks.

OUR FORTHCOMING BOOK

About North Kootenay, Its Mineral and Other Resources.

The compilation of the HERALD'S DIAMOND JUBILEE SOUVENIR book, descriptive of the mining and other resources of North Kootenay, is progressing rapidly. From the material already in hand and the picturesque nature of the subjects to be reproduced in pictoria form, there is now no doubt but that the book will be one of the handsomest of its kind ever produced in any part of the world, and the grandest advertisement that the somewhat neglected country of North Kootenay has ever had.

The district is so large that it is impossible for the HERALD'S representatives to visit the whole of it in the limited time at their disposal, for the book is to be brought out this summer. Readers of the HERALD, and in fact all having an interest in North Kootenay are earnestly invited to co-operate in making this great descriptive work a complete success by communicating to the "Souvenir Editor, the HERALD, Revelstoke, B.C.," any information about mines, claims, timber lands, natural features or other matters of general public interest that should properly receive mention.

When a man has property to sell, if he is a wise man he advertises it. There are many ways of advertising. One is to employ a trustworthy and capable special agent, and after equipping him thoroughly for the road, to send him out to travel till he finds a purchaser. This, however, involves an expense beyond the means of most of the property owners of this district. The next best course is to procure adequate, accurate and attractive description of the property that is for sale, and to take care that it comes under the immediate attention of the persons whom it is desired to interest.

This, the HERALD'S forthcoming book will effect, as arrangements have been made by which it will reach nearly every English-speaking part of the world. It is no mere local publication for the pleasure of self-glorification, but an earnest, well-designed attempt to apprise outsiders with energy and capital of the marvelous riches of North Kootenay that await development.

ST. LEON HOT SPRINGS

Described in an Interesting Interview with Mr. W. M. Brown.

The St. Leon Hot Springs are with the increasing population, and more settled order of things attracting much attention. Their beneficial effects are attested by numerous well authenticated cures, more especially in connection with rheumatic complaints. The St. Leon establishment is situated about 18 miles below Arrowhead, and the C. P. R. steamers call twice a day when required, landing freight and passengers. The springs are about 1½ miles back from the lake shore, and eventually the medicinal water will be piped to a magnificent boarding house and pleasure resort that will be erected to meet their increasing popularity and patronage.

The situation is a beautiful one for such a purpose. The lake here forms a small bay of still water about a mile and a half from point to point, and running inland three quarters of a mile. Two creeks of considerable size rush down the mountain side into the bay, one of them forming, close to the landing place, a waterfall of remarkable beauty that in itself is worth a visit.

At the landing there is at present comfortable cottage accommodation for about ten visitors, while at the springs there are two log cabins, a bunk house, dining room, kitchen and the usual outbuilding, together with a bathing establishment which has now been in use for two years past.

Mr. W. M. Brown, of the Columbia Hotel, returned from the St. Leon last Thursday and is enthusiastic about the hot springs and their healing qualities. "Why," said Mr. Brown in speaking of the matter yesterday, "It is perfectly marvelous. A man went there a short time ago, all crippled up with rheumatism. They had a terrible time getting him down the gangplank off the boat, and then packing him on a horse up to the springs. When I was at St. Leon he was going about as lively as possible, looking first rate, and couldn't say too much about the good the waters had done for him.

"Another man," continued Mr. Brown, "went from Revelstoke after doctoring for a bad leg without any good result for a long time. He is now coming round first rate, and will be all right again shortly."

Mr. Brown reports passenger traffic on the Arrow Lakes as increasingly busy—all sorts and conditions of men travelling both up and down, and the steamers crowded. Many are now switching off at Arrowhead for the Lardeau, Trout Lake and Ferguson districts, and people returning from the Trail Creek and Slocan country are mostly making for the Lardeau. If it were only better known how easy it is to get about in that country all the summer tourists would visit it.

ILLECILLEWAT ACCIDENT

Result of the Coroner's Inquest held on Wednesday.

The inquest on the bodies of the five men who perished in the collapse of the mud tunnel between Illecillewaet and Laurie was held by Coroner Maclean in Richardson's hotel, Illecillewaet, on Wednesday afternoon. The bodies were identified as those of Albert Johnson, George Phillips, Nelson Oleson, George Cummings and Alf. Arvidson. The evidence of the survivors of the catastrophe was to the effect that a party consisting of the five dead men, S. Olsen, who escaped with injuries to his hip, and Kimberley and Campbell, were at work on the top of the tunnel, removing the earth in order to put in a fresh bent in the tunnel. They were rolling a big boulder on a plank, fixed across the span from which the old bent had been taken, which Kimberley and Campbell were holding down to steady it. Suddenly the boulder slipped from their control, and knocked away the key segment of the next bent, carrying down the dead men and Olsen with it, while the released plank shot the two men holding it 15 feet clear of danger. At the time of the collapse Alex. McGregor, the foreman of the gang, was just in the act of leaving the tunnel. Thos. Kilpatrick, the bridge inspector, gave expert evidence as to the condition of the tunnel. The jury brought in a verdict that the deceased came to their deaths by suffocation and wounds in the collapse of a C. P. R. rock tunnel 2½ miles east of Illecillewaet. They censured the C. P. R. company on account of their allowing the timbers in the tunnel to get in a bad condition. The bodies of four of the men were brought in on Thursday's No. 1 and buried the same evening at the cemetery, Rev. F. A. Ford officiating; that of S. Oleson was sent to Vernon, where his sister is married to a section foreman, for interment. Cummings was from Whitewood, Assa., and has a brother working on one of the Horne-Payne Co.'s mines in the Lardeau. Johnson, Avidson and Olesen were from Sweden. Geo. Phillips was from Bowden, Alberta, and joined the bridge gang about three weeks ago. He was a stonemason by trade.

OPINIONS OF THE C. P. R. OFFICIALS.

The following information as to the recent fatality at the Mud Tunnel, near Laurie, was gathered among the C. P. R. officials yesterday. The tunnel is constructed through the debris of an old earthslide, which is naturally a very loose formation. The tunnel is watched day and night by a watchman, who walks through it before and after the passage of every train. It is also frequently inspected, and bridge inspector Kilkpatrick recently noticed signs of crushing on some of the timbers. It is thought a fresh slide passed over the tunnel this last spring, the weight of which probably caused the crushing which was observable about half a inch on the ends of some of the timbers. McGregor's bridge party was accordingly put on to replace some of the bents in the tunnel. While at work the loose earth and gravel falling through decided them to get out on the top and remove the earth, which is about four feet thick. They were engaged in moving a boulder about 2½ feet long, which was buried in the earth, and to do this put a plank across the space, three feet, from which the bent had been removed, and were rolling it along. In doing this it escaped from their control and fell into the tunnel, knocking away the key segment of the next bent as it fell, which of course collapsed, carrying the men down with it. It is claimed that the fatality was in no way due to the condition of the timber, but was owing to a pure accident in handling the boulder. The timbers were for the most part the same as put in in 1885 at the time of the original construction of the road, but are good as far as their condition is concerned for another two or three years.

Public School Jubilee Exercises.

There was a very small attendance at the very interesting entertainment given by the children of the public school yesterday in honor of the Diamond Jubilee. Among those present were Mrs. Clarke, Mrs. Grogan, Rev. J. A. Wood, Dr. McKechnie and Mr. Abrahamson. The recitations, readings and exercises were admirably rendered. W. Beavo, the head boy, giving a very interesting reading of the proceedings at the last Jubilee in 1887. The conclusion, when the girls knelt and sang "God Save the Queen," was very pretty and appropriate. Mr. McTaggart is to be warmly congratulated on the progress made by the children both in their studies and deportment during the few months, in which they have been under his charge.

TUESDAY'S PROGRAMME.

10 a. m.—Baseball ground — Baseball match, Gold Hill Club vs. C. P. R.

1:30 p.m.—Athletic sports on the baseball ground.

7 p.m.—Bicycle and horse races, Front street.

9 p.m.—Fireworks on baseball ground.

Band in attendance.

EXPORT DUTY ON ORES

IMPOSED BY THE DOMINION GOVERNMENT

Terrible Tornado in Illinois—The Fate of Mrs. Barnato—The Crow's Nest Agreement.

(SPECIAL TO THE HERALD.)

OTTAWA, June 19—The Crow's Nest Pass agreement has been passed without a division.

The export duty on logs and pulpwood will be $3 per 1,000 lbs. On nickle 10 cents per pound, copper 2 cents per pound. On ores containing copper or other metals except nickle and lead 15 per cent. On lead or lead and silver ores, to the country which imposes a duty on lead in bars or pig lead in excess of the import duty on lead and lead ores, or on lead and silver ores, duty is laid on the lead contained in the ores exported to an amount per pound equivalent to such excess.

CLEVELAND, Ohio, June 19—Another chapter has been added to the tragic fate of Barney Barnato. Mrs. Blackmore, his alleged wife has disappeared, and the police say that she has met with foul play.

LINCOLN, Ill., June 19—A tornado here yesterday destroyed an immense amount of property. By the collapse of a coal shed, 26 seeking refuge were buried. Four were killed and six seriously injured.

CANYON CREEK

A Rich District at the South End of Trout Lake.

Canyon Creek runs into the southern extremity of Trout Lake. A ledge, which is a contact of granite and slate, an unusual combination in the Lardeau or Trout Lake districts, is traceable for a considerable distance on this creek. Two groups of claims have been staked out on the ledge, the Broken Hill and the Brookland. On the Broken Hill group on which Ed. Andrew and H. J. Stewart of Trout Lake City, own claims, the ledge is 12 foot wide and assays from the surface have gone 157 3-5 oz. in silver and 80 per cent. lead, and 171 oz. in silver and 76 per cent. lead. The Brookland group is owned by the Commonwealth Mining and Development Co., of Brandon. Alec. Morrison and P. A. Lindgren own claims on the ledge beyond the Brookland. At present the mine owners are busy constructing a road 10 miles up the creek from the lake, to which the province is contributing $400, but as soon as the road is made active development will commence both on the Broken Hill and the Brookland groups.

TROUT LAKE MINING.

The Silver Chief Mine Situated on Gainer Creek.

During the week there have been numerous prospectors and mining men in town visiting the stores of Revelstoke, which is the natural distributing point for the larger outfits. Amongst this week's visitors was Mr. H. J. Stewart, the manager of the Trout Lake Mining Co., which is operating the Silver Chief mine, situated, about 12 miles easterly from Trout Lake up Gainer Creek a tributary of the South Fork. The Trout Lake Mining Co. has its head office in Winnipeg; it's capital stock is $1,000,000, in $1.00 shares, the very liberal appropriation of $500,000 in shares being set aside for treasury purposes. There are no shares on the market, the stock being owned principally among friends. The president is Mr. J. R. Grant; vice-president, A. M. Stewart; and the secretary and treasurer is Mr. T. L. Metcalfe.

The Silver Chief, which is a full claim, was located by Mr. W. J. Stewart himself, and work has been going on all spring. There is a well defined vertical ledge, between slate and limestone. At a crossent, 20 feet deep, the ledge is exposed 11 feet wide with three feet of clean galena running about $63 to the ton in all values. There is some copper in the ore and traces of gold. At the present time a tunnel is about being run from a point 60 feet below the crosscut before mentioned. Six men are employed and work will be pushed on rapidly. There is sufficient water for camp purposes on the ground and also fuel and mining timber. There are a few tons of ore on the dump at present, and when the tunnel taps the ledge a shipment will be made to some smelter of a sufficient quantity to give a fair bulk test.

Mr. H. J. Stewart, who has an office in Trout Lake City, is exceptionally well posted in what is going on in that locality, and is always willing to impart his information to strangers visiting the district in which his mining interests are already very considerable.

SATURDAY, JUNE 19, 1897.

A correspondent of the Winnipeg Free Press says: A person who knows says that the Indians are not troubled about the changes in the staff of officials, but that a bad effect has been produced by the reduction of salaries. They cannot conceive that those to whom they have looked for guidance and advice have had their salaries reduced unless the Great Mother has lost confidence in them, and as a result the Indians have ceased to have that respect for the officials over them that they have had hitherto.

One of the fruits of the Jubilee is asilly agitation to change the name of England. One correspondent wants it rechristened Wiseland, the first four letters being the initials of Wales, Ireland, Scotland and England. This is capped by another correspondent who wants the empire to be called Enwiscolia to bring in the colonies of England, and all the subjects of the Queen would be called Enwiscolians. All of which proves that the fools are not all dead.

BARNEY BARNATO DEAD

One Account Says He Threw Himsel Into the Water and Another that He Fell Overboard — The Body Recovered—A Passenger to England

LONDON, June 14.—(Midnight.)—A special despatch from Funchal, Island of Madeeia, off the the west coast of Morocco, says that on the arrival there today of the British steamship Scot, which left Table Bay, Capetown, on June 2nd, for Southampton, it was announced that Barney Barnato, the South African diamond king, who was among the passengers had committed suicide by jumping overboard. His body was recovered.

FELL OVERBOARD

LONDON, June 15.—The Daily Telegraph, which announces the death of Barney Barnato, says on the authority of the news agency that he fell overboard.

INDIANS

REPORTED MAKING TROUBLE AT SASKATOON

MR. A. VOICE'S RELATIVES

Are the Culprits—Fifteen Red Skins Kill a Rancher's Cattle—Police Sent Out—The News at Regina—A Denial at Saskatoon

(From the Calgary Herald)

A despatch received On Sunday from West Prince Albert states that reports reports have been sent to Superintendent Gagnon, who commands the Mounted Police at that point that a band of 15 Salteaux Indians from Nut Lake, relatives of Almighty Voice and the other outlaws who were killed two weeks ago at Manichanas Hills, had turned themselves loose and had been for some days engaged in chasing settlers' cattle in the neighbourhood of Saskatoon, and that one animal had been actually killed. A squad of Mounted Policemen from Duck Lake and Batoche in charge of Sergeant Will left on Saturday night for Saskatoon, and another party in charge of Corporal O'Kelly, who fired the shot which killed Almighty Voice's companion, was sent out yesterday afternoon from Prince Albert to reinforce the others. Instructions have been sent to the police to order all wandering Indians to return at once to their reserves, where they will be fed by the Government. It is said that the Nut Lake Indians are heading for Battleford, but the police authorities are determined that they shall not be allowed to get there, and no effort will be spared to head them off. It is not probable that there will be any trouble of a serious kind at present, but the police have made all necessary preparations as far as is possible to cope with any emergency.

THE COMMISSIONER INTERVIEWED

A representative of THE HERALD waited upon Indian Commissioner Forget who passed through the city this morning on his way to Edmonton. Mr. Forget stated that the trouble was not at Nut Lake as reported, but on another reserve in the vicinity of Duck Lake. The reports of the trouble had been greatly exaggerated and were altogether misleading. The supply of bacon for the reserve where the trouble existed had been exhausted, and a further supply was due to arrive on the 15th. In the meantime the Indians had become dissatisfied and were expressing their discontent with more force than was necessary. Mr. Forget on receipt of the intelligence at once wired the agent to purchase locally the provisions required, pending the arrival of the regular supply.

ANOTHER ACCOUNT.

REGINA, June 14.—The situation among the Indians up north in consequence of recent events is assuming an annoying shape. Fifteen Indians attacked the farm of Mr. Gordon between Saskatoon and Duck Lake and killed all the cattle in the corral. They then went to the farm of Mr. Sinclair where they contented themselves with threats.

In consequence of these reports eight constables of the Mounted Police under Corporal Marshall left Regina, on Thursday to proceed to the spot by trail. They will join a small detachment recently sent out under Sergt. Smith at Nut Lake.

A further detachment is being held in readiness to proceed by the next train if necessary. It is believed that the instigator of the outrages is a family connection of Almighty Voice often called Almighty Voice's brother.

DEGENERATES INTO A CALF MISSING

REGINA, June 15.—The Indian scare telegraphed here from Prince Alberta yesterday, notwithstanding the fact that it was sent on the authority of one who pretended to have been an eyewitness, has for its basis the fact that a calf was missing from Sinclair's band. 30 miles east of Saskatoon, and it was at once assumed that it had been killed by Indians digging roots in the neighbourhood.

THE TRANS-CANADA

THE NEW NAME OF THE CROWS NEST ROAD

The Bill Passes the Railway Committee —The C. P. R. and the British Columbia Southern—The New Name of the Company

OTTAWA, June 12.—The Bill under which the C.P.R. propose to construct the Crows Nest Pass Railway and take over the British Columbia Southern was passed in the Railway Committee yesterday. Judge Clark stated in reply to a question that the C.P.R's interest in the British Columbia Southern was acquired on January 14, 1897. Clarke declined to say who the parties were who negotiated the British Columbia Southern charter. The new company will be known as the Trans-Canada Railway.

IN THE COMMONS

DAVIN CHAMPIONS DISMISSED OFFICIALS

And Talks of What Might Have Been —Oliver and Davin Protest Against the Decrease of the Police Force—A Hint that Laurier will be Knighted

OTTAWA, June 15.—In the House of Commons yesterday, N. F. Davin, championed the cause of a number of dismissed officials in the North West. He claimed that had his opponent in the late election been been a supporter of Laurier his (Davin's) majority would have been colossal or even mountainous.

He spoke of the Immigration Agent at Regina, who had not at all opposed the present Government. John Dobbin of the Regina Land office was also mentioned by Davin as "one of the whitest souls walking the earth."

On the Mounted Police vote Davin and Oliver protested against the decrease in the force. Oliver pointed out that the Indians required watching as recent events shewed.

SIR WILFRID LAURIER, K. C. B.

The Free Press tonight hints that Hon. Mr. Laurier will return from England a K. C. B. It also says that Sir Richard Cartwright will be made an Imperial Privy Councillor and will receive the Grand Cross of St. Michael and St. George.

Private Stewart of the 48th Highlanders, Toronto, won the bayonet competition at the military tournament at Islington and was awarded the Empire prize.

Mr. Davin's interest in the gentleman who rejoiced in the name of Almighty Voice was probably due to a sort of family feeling. He is a mighty voice himself.—Montreal Gazette.

THE ONLY CANADIAN BICYCLE

That received an award at the World's Columbian Exposition for points of general excellenee was the Brantford Red Bird, the strongest, speediest and most beautiful bicycle sold in the Dominion today.

The wisdom of this award is verified by the fact that four out of five of the Class B championships for '95, and four out of five of the professional championships for '96 were won on a Red Bird. Notwithstanding what the riders of other wheels may do, the fact remains that when anything worth winning is won, the trick is generally done on the fast and beautiful Red Bird.

Branches: Toronto, Montreal, St. John, Winnipeg and Sydney, Australia.

RECEIVING THE PREMIERS

ELABORATE ARRANGEMENTS MADE IN LIVERPOOL

Transportation of the Canadian Troops —Mounted Police Horses Arrived— Premier Laurier Reached Liverpool on Friday Night.

LONDON, June 11.—The Times this morning gives the official programme of the procession for June 22. An imposing array of regulars with bands and seven batteries of artillery will form the vanguard. Then the Royal aides de camp, field marshalls and their equeries, foreign attaches and deputations, the Queen's Prussian dragoons, the Lord Mayor, 36 English and foreign princes, the Indian escort and Lord Wolseley immediately preceeding the Queen, who will have the Duke of Cambridge on her right hand and the Prince of Wales and the Duke of Connaught on the left.

In the separate colonial procession the Canadian troops are to be followed immediately by Premier Laurier who will be the first after the advance guard of the Royal Horse Guards.

MONTREAL, June 11.—The Star's special cable from Liverpool says: "Arrangements for the reception to the Colonial Premiers here tomorrow include an at home and luncheon by the Lord Mayor. The Premiers who are expected to be present are: Laurier (Canada), Turner (Victoria), Nelson (Queensland), Braddon (Tasmania), Kingston (South Australia), Forest (Western Australia), Seddon (New Zealand), Escombe (Natal).

In the evening there will be a banquet given by the Chamber of Commerce to the Duke of Devonshire, president of the British Empire League, and the visiting Premiers. The visitors will be the guests of Lord Crewe over Sunday.

Premier Laurier is expected to land about nine o'clock this evening. Sir Donald Smith is here to meet him and the flag is on the city hall in his honour,

TRANSPORTING THE TROOPS

LONDON, June 11.—Colonel Ivor Hobert has gone to Liverpool to make arrangements for the reception and transportation to London of the Canadian contingent on board the s.s. Vancouver. The North West horses have arrived there. Two died while on the voyage across the Atlantic, but the others are in good condition. The Mounted Police will lead the Colonial portion of the Jubilee procession.

OUR PREMIER'S RECEPTION

England Gives Canada's Premier First Place in Her Esteem—The Tariff Reciprocity Proposals Appeal Strongly to British Sentiment

LIVERPOOL, June 12.—(Star cable.)—It was approaching midnight last night when the Cunarder Lucania, on which was Premier Laurier and party, anchored off the landing stage, having been delayed in the Irish Channel and Mersey by fog.

The colonial premiers and their ladies, including the Canadian Premier, Hon. Wilfrid Laurier and Mrs. Laurier were guests this evening of the Liverpool Chamber of Commerce in the concert room of St. Agnes Hall. A large and distinguished audience gave an enthusiastic welcome to the visitors.

ELABORATE PREPARATIONS.

LONDON, June 14.—The coming Jubilee engrosses public attention to the exclusion of everything else. Even the serious revolt of tribesmen on the Punjaub frontier is passing as an ordinary detail of the burdens of the empire.

Mr. Laurier's arrival today brings into prominence the Imperial idea which is the dominating note of the Queen's gala week. No other colonial Premier can hope to rival him in popularity and prestige.

His tariff reciprocity proposals are designed to place the Mother Country in a better position to trade with the Dominion and that is the English idea of Imperial Federation.

No other Premier can receive so hearty a welcome, but every one has been greeted warmly and the greatest enthusiasm shewn whenever any Colonial Premier makes an after dinner speech or addresses a public assemblage.

OUR PREMIER HONOURED

HIS FIRST APPEARANCE IN THE OLD COUNTRY

The Duke of Devonshire Taffies Our Wilf at a Meeting and Canadians Present Were So Delighted that They Cheered the Speaker Heartily

LIVERPOOL, June 14.—At a meeting of the Chamber of Commerce on Saturday afternoon to welcome the Duke of Devonshire, President of the United Empire League, and the Colonial Premiers, Mr. Laurier occupied the place of honour on the right of Mr. Chairman.

In the course of his speech the Duke of Devonshire paid a high personal compliment to Mr. Laurier and the large audience applauded and cheered with greatest enthusiasm, the demonstration being frequently repeated.

Canadians present were delighted with the Duke's compliments to their Premier, who was the principal speaker at the banquet at night.

THE FRENCH TURF

PARIS, June 14.—Le Grand Prix de Paris, the chief event of the French racing and serial year, for a purse of 200,000 francs. ($40,000), was won by Doge, who is owned by H. J. Amaud.

Word comes from Prince Albert that the body of R. Tait, who with his brother was drowned in the Saskatchewan opposite that place last summer, was found on Friday partly buried in the sand a short distance from the spot where the accident occurred.

MASSACRE OF TROOPS

SERIOUS REPORT FROM SIMLA IN INDIA

Is There to be Another Indian Mutiny? British Troops Are Outnumbered— Twenty-five Privates and three Soldiers Have Already Been Killed

BOMBAY, June 12.—A despatch from Simla, the residence of the Indian Government Officials during the heated term period of the year, announces serious trouble on the northern frontier and the massacre of a number of British officers and native soldiers in the Government employ.

According to the first accounts of the affair two guns belonging to the Bombay Mounted Infantry, escorted by 300 Sikhs belonging to the First Punjab Infantry, were treacherously attacked in the Tochi Valley by a large force of hostile natives.

Colonel Bunny, two officers and 25 privates were killed and three officers and 25 men wounded.

Later reports indicate that the affair is more than a mere conflict with warlike natives, and that the notorious Mullah of Powindah is at the bottom of the trouble. This account says a police officer named McGee was visiting Shirani with an escort of troops when they were attacked at Maisa by vastly superior force. The British troops were compelled to retreat and were followed several miles by overwhelming numbers of the enemy.

THE KILLED

The fighting was desperate, all the British officers were severely wounded. Captain Brown of the First Sikhs, a son of the late Sir James Brown, and Lieutenant Crookshank of the Royal Artillery, were killed. Sergeant Higginson, Lieutenant Higginson, and Lieutenant Stone Brown of the Punjab Infantry, are wounded.

A second dispatch does not mention the death of Colonel Bunny, but from the fact that it says Colonel Gray from Miranshah has taken over the command of the British force engaged it is inferred Bunny is also among the dead as at first announced.

ANOTHER ATTEMPT

On the Life of a French President—A Bomb Exploded.

PARIS, June 13.—An attempt was made today to assassinate Felix Faure, president of the French Republic, while riding in his carriage on Long Champs to witness the Grand Prix.

While Faure's carriage was passing a thicket near La Cascade restaurant in the Bois du Bologne, a bomb was exploded. It subsequently proved to be a piece of tubing six inches long and two inches in diameter and of a thickness of half an inch. It was charged with powder and swan shot. No one was injured.

Two more negro lynchings are reported from the United States.

LOCAL AND GENERAL NEWS

An Interesting Budget of Local, Personal and General Items Round and About Revelstoke.

* H. N. Coursier is agent for the Heintzman Piano.

† A carload of Canned Goods just unloaded for C. B. Hume & Co.

Mr. G. B. Nagle went down to Trout Lake on Wednesday's train.

Mr. W. H. Vickers left on Thursday evening on a trip of a few days to the Lardeau.

Mr. Jas. Hutchison is getting his stock placed in his new store on Front street.

* The celebrated Arbuckle's coffee, a large consignment at C. B. Hume & Co's.

Mr. Charles Molson returned from San Francisco this morning, and is going on down into the Lardeau at once.

The remains of the late Capt. J. Reid were shipped through on Wednesday to Vancouver for burial. His brother resides in that city.

† Webb's Fancy Chocolates, a fresh and new stock just opened up at C. B. Hume & Co's.

John Sanderson and Jas. McFarlane have got the water out of the Last Chance mine, McCullough Creek, and are now at work on the mine itself.

H. L. Simmons, expert for Bowes, Scott & Co., of London, was in the Slocan last week, and is now in the Lardeau.—New Denver Ledge.

A washout of the bridge at Anthracite by the Bow river is assigned by report as the cause of the non-arrival of No. 1 yesterday.

* Feather pillows and eider-down pillows, also pillow casing. See them at C. B. Hume & Co's.

A man named Conture was brought in this morning from Clinton by the police. He is wanted on a charge of stealing from a party named Nelson.

The Rough and Ready, on Lemon creek, is being experted by an expert from Vancouver.—New Denver Ledge. Mr. O. D. Hoar is interested in the Rough and Ready.

The News-Advertiser says that the company represented by Mayor Templeton and C. N. Davidson will in a few days put on a force of men to resume development work on the Orphan Boy.

Mr. J. W. Sutherland, from San Francisco, who is examining the mining resources of Kootenay for some Californian investors, was in town on Thursday. He will visit the Lardeau and Trout Lake districts.

Arrangements are being made for extensive distribution and sale of the HERALD'S DIAMOND JUBILEE SOUVENIR book, descriptive of the mining resources of North Kootenay in London and throughout the United Kingdom. The book will be the grandest advertisement to the outside world that any district in the province has yet produced.

The Rossland correspondent of the Ledge says: We all thought that the daily running of the boats between Arrowhead and Trail would mean a a daily mail service from Rossland and Trail; in fact, I believe this was promised by the postoffice authorities, but we have still to drag along in the same old way with three mails a week. Postoffice Inspector Fletcher seems to be the same sort of fossil he always was.

John Thomas, of Rossland, local manager of the British Columbia Exploration company, of Tacoma, Wash., yesterday purchased for $20,000 from Schultz & White, the Ottawa, near Trout Lake, in the Lardeau country. Joe Young has just returned from an examination of the property and it is on his recommendation the purchase was made. The B. C. Exploration company was organized last fall and the Ottawa is the first property it has purchased.—Rossland Miner.

In spite of the wet weather the strawberry social at the Methodist church on Wednesday evening attracted quite a number of guests, there being about 50 present. The brass band was in attendance and discoursed some excellent music in the church, where the evening's entertainment was conducted on account of the rain. The evening was very pleasantly spent in social intercourse, and the discussion of the strawberries and other good things provided for the entertainment of their guests by the ladies of the congregation.

With reference to an item in the Vancouver News-Advertiser to the effect that the action to set aside the sale of the Orphan Boy mine has been discontinued in favor of other proceedings to be taken in another line. Mr H. N. Coursier told a HERALD reporter that although he could not say exactly what was being done, he was certain that proceedings would still be carried on through which a complete investigation into the affairs of the company will be made. As hinted in the News-Advertiser, it is likely that an effort will be made to get the civil action supplemented by making the matter a subject of presentment by the grand jury.

Ben. Reamy, Geo. Bole and T. P. Downing are working away at the Mohawk on Pool Creek. They are stripping off the iron-capping from the ledge on both sides of the creek and are disclosing a most astonishing body of ore in the process. Assays from the lead went 90 to 150 oz. in silver from the surface, but since then ore of a much higher grade has shewn up in the course of development. The group is located about 8 miles from Thomson's Landing on Pool Creek, and has been known for the past three or four years, but owing to its being heavily capped with iron, not much attention was paid to it till this year, when assessment work has proved it to be one of the most promising properties in the country, which will soon take an assured rank along with the Silver Cup and other crackerjacks of the district. Messrs. Reamy and Downing have been offered a good stiff price for the property, but this is a claim which a poor man can work for himself, and the fortunate owners have ore to ship and plenty of it on the dump right now.

COMING EVENTS.

June 20.—Accession Sunday. Open air service, 7 p.m. in front of the English church.

June 22.—Grand Celebration of the Diamond Jubilee. $500 in prizes. Public holiday.

June 23.—Church of England social in Peterson's Hall.

July 1.—Dominion Day. Public holiday.

July 12.—Grand Orange Celebration at Revelstoke.

C. B. Hume & Co. intend to erect a large store at Trout Lake immediately.

According to the London correspondent of the Rossland Miner, Mr. and Mrs. Grant Govan, and Col. F. H. Austey, late R.E. sailed on the 9th inst. for Canada.

Mr. J. D. Sibbald has started a party of men clearing up the trail to the Glengary and will go in again on Wednesday to take in supplies and a party of six or eight men to start development.

We call the attention of the public to the notice published in another column warning them against doing business with a party representing himself as agent for the Manufacturer's Life Insurance Co.

Slocum City is the way in which the rising camp at the foot of Slocan Lake appears on the government labels for the mail bags. Slocoach, Ottawa, would make an admirably appropriate telegraphic address for the Postmaster-General's department itself.

A new edition to our exchange list is the Mining Review published at Sandon, a large weekly sheet, owned by Chas. Cliffe, a Brandon newspaper man and formerly editor of the Brandon Mail. The Review is a creditable looking journal and will no doubt fill the bill.

A. Bourgeois' party came in this morning from the mines at Carnes Creek. They have fixed a good trail up there. The Carnes Creek Co. intend to ship 200 tons of ore for a mill test now the road is opened. They have about 60 feet of tunnel run, and quite a large quantity of ore on the dump.

Diamond Jubilee Service.

The following will be the order of service at the special outdoor evensong which will be sung tomorrow at 7 o'clock, outside the English church.

Hymn—"Arise, O Church of England."

Opening Sentence—1 Tim. II; 1, 2, 3.

Exhortation, General Confession, Absolution, Lord's Prayer, Special Hymn for Queen's Accession Day and Proper Psalms 20, 21 and 101.

First Lesson—Joshua 1 to verse 9.

Magnificat.

Second Lesson—Romans XIII.

Nunc Dimittis.

Apostles' Creed, Lord's Prayer and Suffrages. Special Prayers for Queen and Royal Family.

Hymn—"To thee O God be Praise."

Special Prayers for Unity, etc.

Hymn—"Lord of all Thrones."

Patriotic Address by the vicar, Rev. F. A. Ford.

Hymn—"God of Supreme Dominion"

National Anthem. The Blessing.

Drs. McKechnie & Jeffs, Attendants.

Question?

What does a tailor do that we can't do?
Nothing.
What do we give that even some tailors can not?
Much;
Saving of time—and money; a much wider choice of cloths; the opportunity of seeing them made up; your money back if you want it.

R. S. WILSON,
Merchant Tailor.
