OUR FORTHCOMING BOOK.

What the Newspaper Press of British Columbia has to say of the Herald's Book to Advertise North Kootenay's Resources.

If anything were wanting to emphasize the usefulness and importance of the HERALD'S forthcoming book about the resources of the North Kootenay country, it is the generous and spontaneous notice it is receiving from the newspaper press of the province. From exchanges a few extracts are re-printed.
 The News-Advertiser of Vancouver says:
 "The Revelstoke 'Herald' is preparing a 'Diamond Jubilee Souvenir' descriptive of the mining and other resources of North Kootenay. This is a section of West Kootenay, which has not in the past, from various circumstances, received that attention from prospectors and others, to which its resources entitle it. The 'Souvenir' should be of valuable assistance in making the section known and from the prospectus which the 'Herald' has issued, the 'Souvenir' will be both a full exposition of the natural wealth and the possibilities of the district and a testimony to the enterprise of its publishers."
 The Victoria Times says about the HERALD'S forthcoming book:
 "Johnson & Pettipiece, publishers of the Revelstoke Herald, have announced a proposed Diamond Jubilee Souvenir, illustrative and descriptive of the mining resources of North Kootenay. It will be an interesting and comprehensive work, indexed, illustrated and printed with artistic finish unsurpassed by anything hitherto produced in the Dominion of Canada. It will deal principally with the mining interests of Revelstoke, Lardeau, Big Bend, Trout Lake, Illecillewaet, Albert Canyon, Jordan Pass and other points of the North Kootenay. The enterprise of the Revelstoke publishers merits, and should be accorded, a generous support."
 The Vancouver World says:
 "The enterprising proprietors of the Revelstoke Herald intend to celebrate the Diamond Jubilee of the Queen by getting out a beautifully illustrated book descriptive of the mining and other resources of North Kootenay. They deserve to be fully encouraged in their meritorious venture."
 The subjoined notice is from the New Denver Ledger:
 "The Revelstoke Herald is preparing a Souvenir which will deal principally with the mines and prospects of North Kootenay. It will be in book form and will no doubt be very interesting."
 The Colonist of Victoria says:
 "The Revelstoke Herald proposes shortly to issue what it describes as 'a beautifully illustrated book, descriptive of the mining and other resources of North Kootenay.' Revelstoke is the natural distributing centre for the district referred to. The book will be as timely, as we know it will be interesting and valuable."
 The Rossland Miner says:
 "The Revelstoke Herald announces a Jubilee edition consisting of a handsomely illustrated book descriptive of the mining and other resources of North Kootenay."
 The Nelson Miner makes the following comment:
 "The enterprising publishers of the Revelstoke Herald intend publishing shortly a Diamond Jubilee Souvenir. It will not be a mere pamphlet, but an interesting and comprehensive work, carefully edited, copiously illustrated and turned out with artistic finish. It will naturally deal principally with the mining interests of Revelstoke, Lardeau, Big Bend, Trout Lake, Illecillewaet, Albert Canyon, Jordan Pass, and the other points of the North Kootenay."
 The foregoing extracts are only a few out of many, and serve to show the widespread interest that is being taken in the HERALD'S forthcoming DIAMOND JUBILEE SOUVENIR book, and how important it is for everyone having an interest in the resources of North Kootenay to lose no time in communicating with the "HERALD'S SOUVENIR EDITOR," Revelstoke, B.C.

THE DIAMOND JUBILEE
 How It Was Celebrated by the Citizens of Revelstoke
 June 22nd, 1897, will be a day long remembered among the people of Revelstoke. In the girle of rejoicing which ran round the orb of day, Revelstoke took her part worthily, as a link destined in the not distant future to greater and greater importance. The weather, though at one time threatening and showery, was on the whole more enjoyable than the intense, cloudless heat of the day before. The baseball match between the Gold Hill club and a C. P. R. team was played in the morning before a number of spectators. The sports in the afternoon and the bicycle and horse races in the evening attracted a large crowd of holiday makers, and the day was wound up in the orthodox style by a display of fireworks on the baseball ground, which was greatly enjoyed.

THE BASEBALL MATCH
 was rather a walkover for the Gold Hill, the representatives of the C. P. R. being a team hastily got together and somewhat wild in the field. The score was as follows:

	GOLD HILL	C. P. R.
Short c.	2	15
McLean, p.	2	0
Kelchide, 1b.	2	0
Adams, 2b.	2	0
Vannell, 3b.	1	0
Doyle, rf.	1	0
Fleming, lf.	2	0
White, cf.	2	0
Laing, lb.	0	0
Moore, 2b.	0	0
Graban, 3b.	0	0
Campbell, rf.	0	0
Thomas, lf.	0	0
Upp, p.	0	0
Barber	0	0

THE SPORTS.
 comprising 18 events, came off on the baseball grounds in the afternoon. The following was the programme:
 100 yards boys' race—Frank Brown 1, W. Deivo 2, J. Benson 3.
 100 yards open—T. Taylor 1, Geo. E. Ward 2.
 100 yards amateur—W. F. Craige 1, W. Morris 2.
 High jump—B. Gainer 4ft. 9in. 1, R. McIlmoyl 2.
 Long jump—R. McIlmoyl 18ft. 6in. 1, Chas. Field 17ft. 10in. 2.
 Quarter mile open—R. McIlmoyl 1, T. E. L. Taylor 2.
 Quarter mile amateur—P. Leake 1, W. F. Craige 2.
 Hop, step and jump—B. Gainer 30ft. 1, Thomas 35ft. 2.
 Pole jump—R. McIlmoyl 7ft. 3in. 1, B. Gainer 2.
 Putting the shot—J. P. Sutherland 20ft. 11in. 1, Dan. Dunbar 27ft. 3in. 2.
 Sack race, open—C. Field.
 Sack race, amateur—W. F. Craige 1, A. Tremblay 2.
 Mile open—Chas. Field 1, Chas. Wilson 2, T. E. L. Taylor 3.
 Consolation race—E. Moore 1, Dwight Ross 2, A. Dean 3.
 Race of war for a keg of beer—Angus McDonald's team vs. R. Fleming's team. Won by former.

BICYCLE RACES
 came off on Front street in the evening and consisted of six events.
 Quarter mile, 2 in 3 local; Heat 1—E. Edwards 1, G. McTavish 2; Heat 2—E. Edwards 1, R. Scott 2; Heat 3—R. Scott 1, G. McTavish 2.
 One mile amateur—E. Jackson 1, W. Morris 2.
 Ladies' race, quarter mile—Miss Northey 1, Mrs. Yolland 2.
 Half mile local—E. Edwards 1, H. Scott 2.
 Half mile amateur—B. Northey 1, P. Leake 2. Prize not awarded owing to foul.
 One mile open—E. Edwards 1, F. Lewis 2.
 The only contretemps occurred in the half mile amateur, in the finish of which Bert Northey, who was slightly leading, and E. Jackson collided, with the result that the latter took a header which put him hors de combat. A dog coming up towards W. Morris, who was coming up a good third, ran into a dog and got a very nasty spill indeed, though fortunately without serious injury.

HORSE RACE.
 Quarter mile, free for all, was awarded to M. Pettipiece's Lark after some dispute about the start.
 The programme was well carried, the crowd was good humored and orderly, and the day was taken altogether, a most pleasant one. The band and some selections in the evening, which added greatly to the enjoyment of the people and showed that considerable progress is being made by the members. Great credit is due to the various committees and their officers for the admirable manner in which the arrangements for the day were planned and carried out.

Kindergarten Jubilee
 The Jubilee exercises of the kindergarten, which took place on Saturday afternoon, were well attended by a number of the parents of the little ones and others interested in the institution. The manner in which the children rendered their very interesting programme was an excellent illustration of kindergarten work, and reflects the greatest credit on their teacher, Miss Martin, particularly considering that she has only had the children under her direction for a few weeks.

A Well Known Banker Visits Revelstoke
 Amongst the week's visitors to Revelstoke was Mr. J. Waldron Scott, the well known banker of Listowel, Ont. Mr. Scott is making an extended tour, and combining business with pleasure, by visiting several mining properties in the Rossland and Slovan districts, where he and his eastern friends have considerable interests. Mr. Scott was favorably impressed with the prospects of Revelstoke in the immediate future.
 He said that the people of Ontario were now exercising more caution than a few months ago in the matter of mining investments, and that many people were beginning to realize that they had been too precipitate in rushing into extensively advertised companies without sufficient investigation. Mr. Scott, however, says that there is no lack of confidence in the ultimate permanence and stability of the mines of British Columbia as a whole, and that he is beginning to realize more clearly than before that mining is a business which, to be successful, must give any other he understood by those taking part in it.

THOMSON'S LANDING.

Bear Stories from Fish Creek—Big Deals in Lardeau Properties—The Ferguson Saw Mill.
 From Our Own Correspondent.

THOMSON'S LANDING, June 17.—D. Robinson and D. Ferguson with a new steam saw mill for the town of Ferguson, arrived here last night. They started out with it today and will probably arrive at Ferguson tomorrow.
 The continuous rain is interfering with prospecting, and all the hotels in Lardeau and Trout Lake are full to overflowing.
 One of the members of the survey party working under Mr. Currie had a close call from a bear the other day about 2 miles west of Thomson's. As they were on their way to camp, one of the party, who fortunately had a small hand axe in his belt, went up a tree to get his bearings for camp. No sooner had he got the tree than he observed a huge black bear trailing them up and warned his companions who also went up trees. The bear trailed them up and promptly climbed up after No. 1, who drew his axe and waited his arrival. When the bear came within striking distance the surveyor slashed his head with the axe laying bare his skull, the skin of which flapped over his eyes, the blood blinding him. The bear then slid down the tree and after pawing round and trying to find out what was the matter with his head for about 15 minutes, disappeared in the bush. The surveyors were afraid to come down for some time, but eventually did so, and ran all the way to camp.

Ben Reamy, the champion nitro of the Trout Lake country was held up one Monday by a big Fish Creek Silver Tip. It was a mean thing for a bear to hold up an unarmed man. Ben says if he only had his gun things would have been different. Ben tried to reason with the bear, and no doubt told him of his exploits in Kansas, Colorado, Texas, Montana and Kootenay, but the bear didn't seem to bluff with a gun and commenced to advance. Ben who is a genuine Yankee and never fights without his gun quickly scrambled up a tree. The bear came up and after making observations went on up the trail, no doubt concluding that his intended victim wasn't fat enough to waste time on.

George White and his partner who discovered a claim on the Silver Cup lead the 25th of May, sold out to Mr. Jos. Young of Spokane. The consideration is said to be in the neighborhood of \$50,000.
 The saw mill at Trout Lake has started up and run for a few hours.
 There are a number of big dens on the tapers in the Lardeau and Trout Lake districts, and it will probably be known next week whether they will go through or otherwise.
 M. Benton came to the Landing today. He is waiting for his partner, who is expected from Calgary with a cartload of horses.

THE ORPHAN BOY.
 The following correspondence appeared in the Victoria Colonist of the 17th inst.
 Under Vancouver news in yesterday's issue you state that the share-holders of the Orphan Boy have withdrawn proceedings. Allow us to state that such is not the case, the committee having the matter in charge are working hard getting things into shape, and when the trial takes place revolutions will be made that will astonish the investing public. We regret to find your correspondent publishing such news without first speaking to any member of the committee. Hoping you will give equal publicity to this contradiction that you did to the item in question and oblige the

CHAIRMAN AND SECRETARY.
 To Whom it May Concern,
 TO THE EDITOR OF THE HERALD:
 Sir,—Please allow me space in your valuable columns to draw the attention of whom it may concern to the fact that about one year ago a few of us interested opened up some streets near the corners of McNaughten and Kensington avenues, as it was necessary to get teams to our places of business. We were promised that public money would be spent after we had opened these streets at our own expense. Now we wish to know are those who are endeavoring to improve the town to be encouraged or not. Is no public money to be spent where it so badly needed? Must we rest content to daily lift wagons out of the mud?
 Yours, RATEPAYER.

Great Washout on the Bow.
 From Thursday week there was no through train till yesterday. The cause of the delay are extensive washouts occurring in the Bow River valley, owing to a cloud burst in the Devil's Lake, about 8 miles from Banff. The waters of the lake rose 8 feet in an hour and swept down the Devil's Creek into the Bow, washing out the bridges and damaging the road bed as far down as Calgary, the lower part of which was flooded, 15 houses being carried away and much damage done to irrigation works in the valley. Four bridges are gone. Local trains have been running from Banff.

DIAMOND JUBILEE

THE PROCESSION-VIEWED BY VAST THROGS.

Enthusiastic Reception of Her Majesty
 —Mr. Laurier and the Canadian Contingent Meet with an Ovation—The Illuminations and Jubilee Beacons.
 (SPECIAL TO THE HERALD.)

LONDON, June 22.—The vast crowds waiting for a glimpse of the Queen for 10 consecutive hours were amazing in their patience. The police had little trouble. A Royal salute of sixty guns, announced the approach of the procession to the waiting millions. The Colonial section first moved into line; and the Hon. Wilfrid Laurier escorted by Canadian Hussars and Dragoons and the Mounted Police received thunders of applause. Then followed the other Premiers, who were succeeded by the mounted troops of the Crown Colonies. The Dominion troops again came in for great praise. Britain's war strength was shown in the military procession, which filed passed the palace 50 minutes after the Colonials had reached Constitution Hill. The sight was one to stir the blood as only soldiers have stirred it from the dawn of time. Last of all came the Royal contingent and the Queen. Such thunders of applause were never heard in London before, as the Royal carriage passed through the millions of packed humanity.

Mr. Laurier met with an especially warm reception at the Colonial stands opposite the Horse Guards. He was greatly impressed by the splendor of the day's ceremonies, and by the enthusiastic ovations from the crowds.
 With the coming of night the illuminations, miles on miles of brilliancy and sparkling color, burst out all over the metropolis. These were followed by the Jubilee beacon flash, starting on Malvern hill and flashing across the United Kingdom from the Hebrides to Cornwall. The weather throughout the celebration was perfect, and not an untoward incident is reported from any quarter.

THE JUBILEE IN VICTORIA.
Henize Going to Build the Road to Petition Anyhow.
VANCOUVER, June 23.—The city was extremely quiet during the Jubilee celebration. By tacit consent Vancouver and New Westminster sent over 1500 people to swell the crowds at the capital, where the mammoth celebration occurred. In the military display the chief attraction was the American bluejackets, who took part with the British jack tars in doing honor to the Queen. The Vancouver company of the 2nd Battalion took the first prize in the march past. The city was beautifully decorated, every available yard of colored bunting and every flag available being used in the decorations.
TRAIL, June 13.—An indignation meeting was held last night over a report from Ottawa that the charter and subsidy for the Columbia & Western railroad extension to Penticon were not to be granted. Strong language was used against Dr. Milne and his associates, and a strongly worded resolution was telegraphed to Minister Blair.
VANCOUVER, June 23.—There is a persistent rumor on the street this morning that Henize is going to build the branch to Penticon any way.

The Jubilee Services.
 The services in St. Peter's church took a jubilee character throughout on Sunday. At morning prayer the psalms, lessons, hymns and collects were all special for the occasion, as were the gospel and epistle in the celebration which followed. The open air service in the evening was well attended and both choir and band rendered the special music prepared for the occasion very pleasingly, and the whole service was greatly appreciated by the numbers who were present. Rev. P. A. Ford, gave an impressive patriotic address recalling the blessings accorded to this Empire during the Queen's long reign. The service closed by the singing of the National Anthem, which was most heartily and feelingly rendered by the whole congregation.

Now is the time for housewives to be considering the purchase of preserving jars. C. B. Hume & Co. invite them to inspect their enormous stock of glass sealers, which are quoted at right prices.
 The HERALD is in receipt of the Jubilee number of the Toronto Globe. It is about the most ambitious and at the same time successful effort at illustrated journalism, which has yet appeared in Canada. It is superbly got up with a profusion of excellent half-tone engravings of the members of the royal family, and scenes in England connected with the coming celebration, together with pictures of Canadian interest bearing upon the events of Her Majesty's long and glorious reign. We congratulate our big contemporary on its magnificent contribution to the celebration of our Imperial Jubilee.

SATURDAY, JUNE 20, 1907.

OUR LADY OF THE RAINS

A nation spoke to a nation,
A queen sent word to a throne,
"It's pretty damp in mamma's house,
But it's damper in my own;
My climate's getting awful,
And if Mr. Kipling designs,
How in future will address me,
As 'The Lady of the Rains.'"
"The skies have been weep, weep,
weeping,
Weeping for many days;
My white men go their ways;
Not to the gentle's clamor,
But to chillblains, coughs and amirsep
Do my people knuckle under,"
Said "Our Lady of the Damps."
"My speech is clear and single,
I talk of common things,
Words of the dripping eavetroughs,
And the colds the downpour brings.
I feel a bit dishevelled,
For I wear my oldest duds,
And I'm mocked of my own people,"
Said "Our Lady of the Duds."
"I called my Chiefs to council,
(And they all arrived soaked
through)
But when it's a matter of weather,
Well—what can my chiefs do?
The path we tread is a damp one,
And we tread it with regrets,
In a week we'll be web footed,"
Said "Our Lady of the Wets."
"Carry the word to my sisters,
To the queen of the East and the
South,
Tell them I'd like to trade them
Some of my rains for their drought.
I was much too rough on Rudyard,
For when this wet wind blows,
I'd like once more to figure,
As 'A Lady of the Snows.'"

A nation spoke to a nation,
A queen sent word to a throne,
"It's pretty damp in mamma's house,
But it's damper in my own.
I'd no idea that springtime
Was a time for aches and pains,
But this weather's really beastly,"
Said "Our Lady of the Rains."

The Government will refund money paid by dismissed civil servants into the superannuation fund.
The bicycle bill is being strongly opposed by the railways and may be thrown out by the Senate.
The Pacific cable project will be discussed by the colonial premiers in London after the Jubilee celebration.

CROW'S NEST

PARLIAMENT AGREES TO THE
SUBSIDY

MEMBERS HAD BEEN PAID

And Many Had Left for Home—No
Opposition to the Vote—The
Government Asking for Large
Borrowing Powers

OTTAWA, June 19.—With the members anxious to leave for home Minister Blair moved today the ratification of the arrangement with C.P.R. for the construction of the Crow's Nest Pass Railway. Before the order was called, instructions were given to the accountants to pay out the sessional indemnities and all the members who can get pairs will leave tonight. The few who were left listened to a loud declamation by the Minister of Railways on the importance of building the railway and the resolution passed without a division.

BIG LOANS
The Government asked for authority to borrow \$15,000,000 at a rate not exceeding 4 per cent. This is in addition to the authority that now exists for borrowing. The Government has authority to borrow thirteen or fourteen millions in addition to the sum now asked, making power to raise a loan of twenty eight or twenty nine millions. It is unprecedented for the Government to bring down such a motion after the members have been paid off. The money raised is to be applied to floating indebtedness or public works.

MERRY DEL VAL
Senator Laury asked in the senate if the Government had been advised as to the truth of the report coming from Winnipeg, that Mr. Merry Del Val had advised Catholics of Manitoba to accept the Laurier-Greenway settlement of the school question. The Secretary of State said the Government had no information on the subject.
Clifford Sifton left suddenly for Winnipeg this afternoon, and it is rumored that his departure has something to do with the school question. Ministers here are telling their followers that the papal delegate examined and approved of the system, with or one two minor changes which he suggested, and that Sifton has gone West to explain these to his former colleagues, and to ensure their acceptance.

MANY BILLS PASSED

The Senators Have a Tiff Over the
Old School Question—Crow's Nest
Pass Bill Is Read a First
Time

OTTAWA, June 21.—The House of Commons' order paper was cut down considerably at Saturday's sitting and the Senate order paper grows in proportion.
The tariff bill was finally allowed to go through.
The Intercolonial railway extension bill was read three times, after a further protest from Messrs Foster and Haggart and sent up to the Senate along with other measures of minor importance.
The act respecting trial by jury in the North West Territories passed its final reading.
The Crow's Nest Pass railway bill got its first reading.

A TIFF OVER SCHOOLS

Hon Clifford Sifton's sudden departure for the west caused a warm discussion in the Senate yesterday, when Senator Bennier asked the Government if he was carrying out further negotiations regarding the school question.
Senator Scott replied quite crossly. There was nothing to be made public, he said. Years ago the Government of Sir John Macdonald were too cowardly to vote on the Manitoba school act, and the rights of the minority were sacrificed.
Senator Bennier assured the Government that if they did not soon do some

thing in the way of getting the minority their rights they would find that the question was by no means dead.

Ex-Premier Bovell said he was amazed at the audacity of the Secretary of State accusing the Government of Sir John Macdonald with cowardice in not voting on the Manitoba school act, when he knew that had that course been followed the legislature of the province would have enacted the legislation over and over again. The refusal of the Secretary of State to answer the question put to him was an evidence of the truth of the report in the newspapers. The action of the Government right through its negotiations on this question in refusing to give Parliament the record of its negotiations was an act of arrogant cowardice.

ROWING OVER RAILWAYS

DEL VAL SAID TO FAVOUR THE
NATIONAL SCHOOLS

Intercolonial May and May Not Reach
Montreal—Liberals Buck on the
Columbia and Western—Merry Del
Val in with Laurier and Greenway

OTTAWA, June 18.—The Government's bargain with the Intercolonial and Drummond County railway for the completion of the Intercolonial system through to Montreal received the ratification of the Commons yesterday and goes to the Senate after it has been framed into a bill. In the Upper House it is likely to have a much more stormy time, some of the Senators threatening openly to throw it out.

"The Heinze gang," as the Columbia and Western promoters are known, were turned down this morning. The railway committee was called upon to put a charter through, but several of the Liberals refused to attend the committee and stood out in the corridors while the committee was counted out for want of a quorum.
The report is current and has gained considerably stability that Merry Del Val, as the result of his visit to Manitoba, decided to report in favour of the Laurier-Greenway school settlement, and will advise the minority to accept the public school system. This report, if true, will be a great victory for the advocates of national schools.

NOT WANTED

The Kind of Englishman Who Should
Stay at Home.

Jno. Love, a successful Englishman of Grenfell, Assn., has been telling the Canadian Gazette some racy impressions of the North West. Among other things he said:

"We don't want the kind of Englishmen you have most to spare. We have had a lot of them and a poor hash they make of it, and always must make of it. We don't want your young English fellow with a thousand pounds or so to chuck away. Let them chuck it away at home or at Monte Carlo, or anywhere they like, except the North West. They are a curse in a country where a man must work if he is ever to do anything for himself. At first of course the stores do good business with these thousand pound young Englishmen; then they get to the end of their money and bad debts begin to accumulate, and they go home, and this sort of whine goes all round your English drawing room—'North West Canada! Oh yes, poor dear Charlie went there and what a lot of money he lost! It is an awful country, truly awful.' Well, let them keep away; that awful country wants none of them, or any such as they. They don't know how to work and never will learn. They only know how to gamble, and drink, and swear, and live on remittances. If they should happen by chance to do a bit of work one day, they want to loaf around all the rest of the week, shooting or having a picnic party. That's all bosh. We don't want them."

LIL PROTESTS

WASHINGTON, D. C., June 18.—Ex-Governor Lal of the Hawaiian Islands filed a protest in the office of the Secretary of State today against the annexation treaty. Secretary Sherman treated the bearers of this protest most courteously, but gave no indication of his action in the matter.

STILL EN FETE

JUBILEE REJOICINGS CONTINUE IN LONDON

Banquetted by the Lord Mayor—Seven Hundred Colonial Soldiers at the Lyceum—The Senate Kicks Over the Traces—Total Loss of a Russian Ironclad

(SPECIAL TO THE HERALD.)

LONDON, June 26.—The Jubilee celebrations still continue, in banquets, receptions and balls. Yesterday afternoon the lord mayor of London banquetted all the princes and princesses, home and foreign, that were in the procession. The Prince of Wales toasted the lord mayor and lady mayoress.

Sir Henry Irving invited the colonial troops, 700 in number, to a special performance at the Lyceum. Their march from Chelsea barracks to the Strand was almost a repetition of the ovation of Tuesday.

The National Liberal club is to banquet Laurier.

The premiers are to have a conference with Chamberlain regarding imperial federation before leaving for their homes.

OTTAWA, June 26.—After a discussion lasting 2 hours, no further progress was made in the Crow's Nest Pass bill in the house yesterday.

If the Senate decides to throw out the Supply bill, the government must bring down a new bill with the Grand Trunk appropriation eliminated.

QUEBEC, June 26.—Rev. Canon Bruchesi has been created Archbishop of Montreal.

WINNIPEG, June 26.—The crop reports are all to the effect that there will be more than an average crop owing to the recent rains.

THE NEW YORK MARKET.

Today's Quotations in the Metal Market.

NEW YORK, June 26.—Bar silver, 60; copper, broker's 11.25; lead, broker's 3.25.

VISITING IN THE LARDEAU

Mr. Sussman, M. E., of the C. P. R., Visiting Kootenay's Richest Camp

Mr. Sussman, M. E., who is the confidential mining engineer and expert for the C. P. R. Co., is now visiting the Lardeau country and judging of the merits of the different mines where actual development work is in progress. Mr. Sussman is from Boston, which for many years past has been the financial centre of all the largest mining combinations and transactions in the United States. Mr. Sussman does not visit the Lardeau as a stranger, as he was there when the district began to come into prominence over a year ago. He at that time predicted a great future for it, and is still of the same opinion, possibly more so than before. Mr. Sussman is a gentleman of great scientific attainments, and has given special attention to the question of smelting, about which he knows possibly as much as any man today in British Columbia, not excepting Mr. F. Aug. Henize and Mr. Bellinger of the Trail Smelter Co. Mr. Sussman's present visit to the North Kootenay has a pronounced bearing on the immediate prosperity of the district. The opinion that he forms as the result of his investigations will be regarded with the greatest respect both on this continent and in Europe.

JUBILEE AMENITIES.

Very gratifying to loyal subjects in British Columbia, has been the sympathetic and kindly manner in which the press of the States immediately across the boundary has spoken on the occasion of the Queen's Jubilee. It shows how the intercourse, which has so rapidly sprung up in the west within the past few years between the two peoples has tended to soften asperities, and led to a better mutual understanding. It is still of course incomprehensible to the editors of Idaho and Washington how it is that Canadians persist in clinging so firmly to what they call the monarchical idea. On the other hand it is equally hard for us to understand how our cousins across the line fail to see that as subjects of the Empire we enjoy as full a measure of freedom as they themselves in their capacity as citizens of the Great Republic, and that we have good reason to regard our liberties as founded on a more secure and solid basis than even their own. But differences of opinion of this kind only reveal a spirit of sober patriotism, without which no man, whether Britisher or American is worth his salt. It is a great thing to see our neighbors in Spokane and Seattle discard the unreasoning spirit of suspicion and unfriendliness to which part of the United States press is only too willing to lend itself, and to throw up their caps and shout "God save the Queen" with a hearty sympathy and good will.

For whether they like it or not, the same destiny is coming upon the people of the United States, as that which Great Britain has, not always cheerfully or willingly, borne for the past hundred years. Gradually but surely their rule will extend itself beyond their own borders, and they will find themselves face to face with the problems, which the constant expansion of the Empire has trained British statesmen to confront and overcome. Once they enter upon their inevitable course and take up the burdens of empire, they will begin to understand what the friendship of Great Britain really means and what it is really worth. With responsibility will come increased dignity in the councils of the republic, and the role of the spoiled child of international politics will have to be laid aside for one more worthy of her destiny. Grave questions of diplomacy will no longer be the sport of irresponsible and long-winded members of the United States Senate, whom the republic will have to devise some method of relegating to the natural obscurity, which providence obviously intended that they should occupy.

There is no greater or truer friend of the American nation than the people of the British Empire, nor one, which they have allowed their self-seeking politicians to treat with such contumely and ingratitude. In spite even of recent appearances to the contrary the HERALD firmly believes that the time is approaching when they will arrive at a better understanding of this matter and, that, as has been said, the course of inevitable events

will prove to the United States, both the reality of our friendship and the absolute necessity of cultivating it. In the meanwhile the evidence continually cropping up that our neighbors of the important states immediately south of British Columbia are as the natural result of intercourse beginning already to find this out and appreciate it, is very welcome and gratifying.

Jubilee Day at Arrowhead.

The first social and dance ever enjoyed in Arrowhead was given by Mr. and Mrs. G. T. Newman on Tuesday evening in honor of the Queen's Jubilee. The evening's entertainment consisted of a programme of vocal music finished up with a dance. At the fashionable hour of 9:30 p. m. the guests began to assemble and soon the music started up, and the merry dancers were gliding about the room in the dizzy waltz. Mr. and Mrs. Johnson, Mr. and Mrs. G. T. Newman, Miss Edith Johnson and Mr. Taylor gave some very classical vocal selections which were highly appreciated. At 12 o'clock all hands sat down to a most bounteous repast, where a social hour was spent discussing the viands, after which all joined in singing "God save the Queen." After wishing the host and hostess a long life and many returns, the guests dispersed all agreeing that they had never spent a more enjoyable evening.

Among those present were Mr. and Mrs. G. T. Newman, Mr. and Mrs. J. J. Foley, Capt. and Mrs. Williams, Capt. and Mrs. Gore, Mr. and Mrs. Johnson, Mr. and Mrs. Trussler, Chief Engineer and Mrs. Rodgers, Miss Weeks, Miss Willets, Miss Pander, Miss Gore, Miss Edith Johnson, and Messrs. J. Bruce, Vic Anderson, J. Graham, W. J. Forbes, Gayman and Claud Pender.

A vote of thanks was tendered the Messrs. Taylor and Johnson who kindly furnished music for the dancing.

The Orange Celebration.

The single fare for the round trip on the occasion of Grand Orange Celebration to be held here on July 12th has been reduced to \$2.50 from Salmon Arm and \$5 from Kamloops. Other places single fare. The grand procession will start about 10 a. m. from the station through the town and back as far as the baseball grounds, and then disperse for dinner. Speaking will commence on the baseball ground at 2 p. m. sharp. A dance on a platform on the grounds will bring the day to a pleasant and social close. It is expected that close on 200 Orangemen will take part in the proceedings. Mr. R. Sparling of Vernon, and Revs. Glassford of Trail, and Procurier of Kaslo, have been invited to speak and the last two gentlemen are expected to take part in the open air service on the baseball grounds which will take place at 7 p. m. on Sunday, July 11th.

The Public School

The closing exercises of the public school term were held yesterday before a good attendance of parents and friends of the children. After Principal McTaggart had put the children through their facings, which were very creditably gone through, Rev. J. A. Wood presented the rolls of honor as follows: W. Beavo, proficiency; Edith Fraser, punctuality and regularity; and Ernest Wood, deportment. Master Beavo was also presented with a handsome gold watch, the gift of his friend, Mr. W. M. Brown. Cakes, fruit, ice cream, and candies, provided by their friends, were then discussed by the children with much enjoyment, and the school term was brought to a pleasant close.

The contract for the court house has been awarded to Thos. Hiller, who is just about completing his contract for the Imperial Bank.

BORN

FRASER.—On June 24, the wife of J. Fraser, C. P. R. despatcher, of a son.

MARRIED.

SLOAN—KANE.—At St. Peter's church, Revelstoke, on June 24th, by Rev. F. A. Ford, David Sloan, of Slokan City, B. C., and Margaret Kane, of Three Forks, B. C.

RUSSELL—CARLTON.—On June 25th, at St. Peter's church, Revelstoke, by the Rev. F. A. Ford, Edmund Clowes Russell, of Nelson, B. C., to Mary Beatrice Carlton, of Esher, Surrey, England.

Police Court

Before J. D. Graham, S. M.

Friday morning P. Ryan, drunk and disorderly the day before, received a week to sober up in.

A. Stewart, who had a slight discussion with the bartender of the Columbia and the business end of a rubber hose on the day before, took two weeks.

An unfortunate woman, who calls herself Annie Rooney, and who is stated to be the heroine of that popular song and to be a considerable musical genius herself, struck the town on Thursday from Kamloops. She got a bad kick in the face from a loose horse running round on Douglas avenue last night, which might have ended her career. She is slightly disfigured but still in the ring.

Jas. Nixon and Dan Cameron have come up from Ferguson, having completed their contract on the Nettie L. They ran 30 feet of a tunnel on the ledge, and crosscut the ledge about 15 or 20 feet. The ledge shows 7 feet of almost clean galena and grey copper. Preparations are being made to tap the ledge at a depth of about 150 or 200 feet, and the owners expect that when this is done the mine will prove itself second to none in the Lardeau.

The Great Western Co. are working on No. 2 tunnel, which they expect to have completed up to 150 feet on the ledge, with crosscuts 50 feet each way, by the end of July. They will then commence work on No. 3, which will be run in the same way as No. 2. If the three tunnels show up as well as the indications look at present, the company will consider itself justified in building a concentrator. They have already had an offer from a smelting man to put up a customs concentrator at the mine.

The At Home in Peterson's hall, held by the ladies of St. Peter's church, was well attended. The hall was sumptuously and elegantly got up as a private drawing room. The first part of the evening was spent in games, in the course of which a select musical programme was rendered. The vanishing lady turn was given, as well as a mandolin solo by Mrs. Reid. Light refreshments were served during the evening, which wound up with a dance, which lasted till three in the next morning, when the guests dispersed after loyally singing "God Save the Queen."

Mr. Robt. W. Wilson, who is engaged in the compilation of the HERALD's forthcoming Souvenir book about the North Kootenay, accompanied by Mr. G. E. Grogan, the HERALD's editor left this afternoon for an extended tour to Comaplix, Thomson's Landing, Trout Lake City, Ferguson and the adjacent mines. At Ferguson they will join Mr. Sussman, M. E., who is now there looking at the various properties in course of development with a view to advising the headquarters staff of the C. P. R. as to the permanency of the field and the necessary arrangements for keeping pace with the traffic and providing the facilities that the fast increasing requirements of the Lardeau demand. Mr. W. B. Pool will join the party in the early part of next week.

LOCAL AND GENERAL NEWS

An Interesting Budget of Local, Personal and General Items Round and About Revelstoke.

H. N. Coursier is agent for the Heintzman Piano.

The new saw mill has reached Ferguson safely, and is being rapidly put up.

Dr. McKechnie and Jeff's hospital is now ready for the reception of patients.

A surveying party started in to survey the new townsite at Rosenheim on Thursday.

Mr. W. Abrahamson is putting up an elegant and commodious residence on Douglas street.

Capt. Williams has purchased a lot in Arrowhead and contemplates erecting a handsome residence on it at once.

Fred. Edgar and W. Chapman left on Thursday to do assessment work on the Margaret claim, an extension of the Sultana on the North Arm of the lake.

Mr. P. Arena will open the Hotel Rosenheim at Rosenheim, Galena Bay, about the middle of July. The house will have 19 bedrooms, a spacious dining room and a first class bar.

A new paper, to be called the Economist, will be issued at Nelson during the early part of July. Mr. D. M. Carley, a well known newspaper man, will run the new journal.

Mr. F. McCarty left yesterday for Vernon to purchase a car of hogs, which will be shipped into the Lardeau with a car of beef cattle on the first of the week.

The American company, which bonded the Black Bear on Pool Creek, have a crew of six or eight men at work on the group, on which extensive operations are in progress.

The lis pendens filed by Mr. Williams in the case of the Orphan Boy has been withdrawn and another instituted in the name of the whole body of shareholders.

Jack Staubert is jubilant over a fresh strike he has made on the north shore of Trout Lake, about 12 miles down from Trout Lake City, which he says is the biggest thing he has struck yet.

The deal for the Hotel Ferguson between Black of Sandon, and Dave Crockett did not go through. It is understood that Mr. Black is going to put up hotels both in Ferguson and Trout Lake City.

D. Canfield, a railway man from Craigellachie, came in on Wednesday to be treated for diphtheria. The anti-toxine treatment rendered him convalescent yesterday, and he will return to Craigellachie after being disinfecting.

The interest taken by the outside public in our Jubilee Souvenir Guide Book to North Kootenay is pleasingly illustrated by the fact that we are already in receipt of inquiries from people in the east, asking where it can be obtained.

Mr. John Humer of the Vienna bakery, Ferguson, was in town yesterday getting bricks for his oven. Mr. Humer ran a well known bakery and restaurant for the last four years in Nelson. He will run a coffee saloon in connection with his bakery in Ferguson.

P. Gorman has restaked the St. Helena on the hill above the town, and transferred it as the Mountain View to Fred Edgar. About four hundred dollars worth of work has been done driving a shaft on the claim, assays from which have gone all the way from a trace to \$312 in gold to the ton.

Brakesman Bond of Kamloops, met with a bad accident at Clanwilliam on Tuesday night. He was making his first trip in the capacity of brakesman and had to couple three cars at Clanwilliam. He got through the first two all right, but in coupling the third got one of his fingers so badly nipped that it had to be taken off.

Now is the time for housewives to be considering the purchase of preserving jars. C. B. Hume & Co. invite them to inspect their enormous stock of glass sealers, which are quoted at right prices.

In the inquest on the remains of the late Chas. Berger, which was held at the scene of the accident on Monday last, the jury brought in a verdict of death by an accidental explosion of dynamite. The remains were buried on the spot on Gold Hill, 9 miles from Illecillewaet.

Messrs. Dunn and Farrell of Vancouver, and Mr. Jas. Dixon went into Ferguson on Sunday to examine the Silver Queen claim on the Great Northern group, which was bonded to them by John Staubert a couple of months ago.

Mr. Frank Trainer of Trout Lake, came in on Monday. He met with a bad accident while doing assessment work on a claim near Ferguson, a large rock falling and crushing one of his fingers. He came to town to get the finger attended to, and the top joint was amputated on Monday.

Now is the time for housewives to be considering the purchase of preserving jars. C. B. Hume & Co. invite them to inspect their enormous stock of glass sealers, which are quoted at right prices.

Mr. J. E. Boss is making preparations to start extensive development work on the Hunter and Trapper. He has a party of six or seven men and has sent in a pack train loaded with supplies. He intends to ship ore this season.

George Chapman and W. Holloway have finished assessment work on the Silver Bow on Pool Creek. They ran a twenty foot tunnel on the ledge and report plenty of ore in sight of a very high grade character. Work will be commenced on an extension of this claim in a few days.

Engineer Carey and Mrs. Carey of Canmore were in town on Thursday. Mr. Carey described the ruin at the time of the clond burst at Devil's lake as descending literally in sheets for three days. The water of the lake rushed over the whole country in its descent to the Bow. Mr. Carey has been with this part of the C. P. R. since construction, but never saw any such inundation as there befell the Bow River valley.

The disputed quarter mile horse race of Tuesday was run again on Thursday evening, when after several false starts, M. Pettipiece's Lark won by a short length from F. McCarty's bay. J. McCallum's horse started, but so badly as to render his chance hopeless. Mr. McCallum has watched him against the Lark for a half mile race on Dominion Day for \$50 a side.

On all sides and in every direction new buildings are springing up and the cheerful sound of the hammer is heard. Stores, warehouses and residences are rising up everywhere, and it is now incontestable that 1897 will see an immense stride in the progress of this place towards that importance in the commerce of this province, to which its geographical position has certainly destined it.

There is a crew of men working on the new trail up Pool Creek, a section of the country which is being rapidly developed and bids fair to shew up as well as any part of Kootenay. There are 15 or 20 different outfits operating on the creek and from 60 to 70 prospectors working through it.

Now is the time for housewives to be considering the purchase of preserving jars. C. B. Hume & Co. invite them to inspect their enormous stock of glass sealers, which are quoted at right prices.

When completed the enlarged Lake View Hotel, under the management of Mr. J. J. Foley, will be one of the finest hotels in West Kootenay. There will be a spacious bar and billiard room, a comfortable office, a large dining room and kitchen with all the latest modern improvements and an elegant parlor besides twenty-five bedrooms. A tower and observatory will add greatly to the architectural features of the building and afford an extensive view of the romantic scenery of the lake.

Diamond Jubilee Souvenir

...of the...

REVELSTOKE HERALD

A Beautifully Illustrated Book Descriptive of the Mining and Other Resources of NORTH KOOTENAY.

SINCE summer began, and the mountain roads and trails have been open to travel, the attention of mining speculators and business men has been largely attracted to the North Kootenay district of British Columbia, of which Revelstoke is the natural distributing centre. Time and again the HERALD has been asked to follow the example of other papers by publishing a special edition descriptive of the district. At one time this came near being done, but after a careful survey of all that should properly be brought within the compass of one little newspaper edition, the magnitude of the task became apparent, and it was decided to preserve in lasting book form the work of gleaned information about the marvelous mineral and other resources of North Kootenay.

The HERALD'S DIAMOND JUBILEE SOUVENIR will not be a mere pamphlet, but an interesting and comprehensive work, carefully indexed, copiously illustrated, and turned out with artistic finish unsurpassed by anything hitherto produced in the Dominion of Canada. It will naturally deal principally with the mining interests of Revelstoke, Lardeau, Big Bend, Trout Lake, Illecillewaet, Albert Canyon, Jordan Pass, and the other points of the North Kootenay.

The proprietors of the HERALD believe, as does everyone who knows this district, that the day is almost at hand when the North Kootenay will be known as one of the greatest mining fields of the world. It is the object of the Jubilee Souvenir book to hasten that knowledge and to apprise the outside world of the riches that here await the judicious investment of capital. The North Kootenay is not "a poor man's country" in miner's phraseology. Nature's richest treasure vaults lie hidden under a rugged exterior, and it takes time, money and skilled labor to break into them. These requisites the original prospector and locator can rarely command, but he has now pioneered the path with sufficient certainty to show the way to those who can.

The HERALD'S Souvenir is not an advertising scheme on the part of some outsider to take money out of the district. It is undertaken for the purpose in which everyone in the dis-

trict is interested—that of making an accurate, adequate, and attractive presentation to the outside world of the great opening there is for capital at the present time in the North Kootenay. The HERALD'S book will not glorify individuals, nor will it "boom" any man's mine. It will state the truth entirely unbiased, will be no write-up scheme, but will form one magnificent and grand advertisement for the district as a whole.

Arrangements are being made by which there will be a large distribution of the Souvenir book, and it will be sent free to the principal hotels, to the leading newspapers, and to the mining centres of the Dominion and the United States, where it will come under the notice of the mining and monied classes whose interest it is desired to attract. It is upon its wide distribution that the proprietors principally rely for anticipated results.

The undertaking is, for a young paper, a large and costly one, but the spirit of enterprise was never stronger than it is today in North Kootenay, and relying with confidence upon the good will and friendly assistance of its neighbours and supporters, the HERALD proposes to bring out a work that will show that it does not intend to lag in the van of progress. Where there is such a mass of information to arrange and select from, and such an area of country to be visited, the ordinary staff of the HERALD is inadequate to overtake the work. Arrangements have already been made, at large expense, to secure the best available skill in both the literary and art departments of the Souvenir, which, however, can be produced in an entirely satisfactory way only by the hearty co-operation of all in the district.

Suggestions of all kinds relating to the forthcoming book are cordially invited, and parties owning mines, hotels, stores, timber lands, or other property which they think are of general interest and worthy of mention, are requested to communicate without delay with the "Souvenir Editor." The HERALD, Revelstoke, B. C., when a representative of this paper will call upon them personally.

JUBILEE

MOST REMARKABLE CROWDS IN LONDON

THE SUNDAY SERVICES

In St. Paul's Cathedral and Elsewhere, Great Banquet to the Colonial Premiers—Canadian Troops Are Much Admired

LONDON, June 20.—Never in the history of Great Britain has London so strikingly shown itself the heart of the world as it does tonight, the eve of the jubilee. At all times the busiest hive of the human race, tonight London is crowded to its innermost door by a stupendous gathering of strangers representing nearly every race under the sun and nearly every country found upon the map.

The main object of this crowd, participation in the greatest historical pageant yet witnessed in the history of the British Empire, gives tone and complexion to every minute of time, to every thought and action. There is nothing in men's minds at this hour, from the highest prince in the palaces to the lowest sneak thief in the streets but the jubilee.

It is impossible to pass along any of the crowded thoroughfares without everywhere remarking two prominent notes of the occasion: The world's desire to honour Queen Victoria and the proud wish of her subjects in doing so to impressively demonstrate the strength and vastness of her empire.

THE RELIGIOUS SERVICES
Queen Victoria began the celebration of her diamond jubilee today before the altar of her faith in St. George's chapel, Windsor, while throughout London, the United Kingdom and Empire, in every cathedral, church and chapel of the established Church of England similar services of thanksgiving were going on.

The national psalm of praise and thanksgiving found official expression in Westminster Abbey and St. Margaret's Westminster. At the Abbey Dean Bradley officiated before an immense congregation. A procession of Peters, headed by the Lord Chancellor with his usher, the Black Rod with his assistant, the Sergeant at Arms with mace and pursebearer, was followed by the Clerk of the House of Lords with the Secretary, and these in turn by about 100 peers.

There were two services at St. Paul's Cathedral, at 11 and at 3 p. m. today. An immense crowd filled all the approaches to the Cathedral at the morning service, anxious to get a glimpse of the royalties and distinguished personalities who are to be present, including all the Protestant envoys.

held in the local English churches and numerous attended.

A GREAT BANQUET
LONDON, June 19.—The Prince of Wales as President of the Imperial Institute presided at the banquet given by the Institute in honour of the Colonial Premiers. Among those present were Lord Salisbury, Mr. Chamberlain, Earl Kimberley, the Marquis of Dufferin, Lord Ripon, Lord Lansdowne, the Marquis of Lorne, Lord Rosebery, Mr. Laurier, Baron Rothschild, Lord Lyton, Playfair, Sir Donald Smith, the Archbishop of Canterbury and men of high rank in the army and navy, church and civil service, with some literary, scientific and artistic leaders.

JUST LIKE THE GUARDS.
The North West Mounted Police are getting their horses used to the noise on the streets and the contingent generally are getting themselves together for Tuesday's great parade. The Canadian contingent yesterday marched around the city for a distance of six miles in order to accustom themselves to the route. They were under the command of General Herby. The Canadian lads were well received by the populace, such remarks being heard among the crowd as "Just like the guards," "Aren't they of splendid physique."

MYSTERIOUS MURDERING

THE MURKY THAMES YIELDS SEVENTEEN SLAIN

Handsome Young Women in Costly Adornment, and Otherwise—Men with Money—All Secretly Murdered—No Apparent Motive for the Slaughtering

LONDON, June 18.—Scotland Yard has a murder mystery of the most extraordinary kind to unravel. The bodies of seventeen persons have been taken out of the Lower Thames within the last three weeks, most of them being near London bridge and Lower bridge. All the bodies had money or jewellery about them, but none as yet have been identified. One of the bodies that was taken out of the river yesterday was that of a young woman stylishly dressed with clothing of the best material. Upon her person were found a number of valuable articles. She had a purse well filled with gold and silver and also containing a split ring upon which were several fancy keys and a number of American coins. Only a few days ago another body, that of a beautiful young woman, was found floating in the river entirely nude, but upon her arms were a pair of gold bracelets and a pair of handsome ear-rings were fastened in her ears.

Several of the bodies recovered were those of males, and expensive watches and considerable sums of money were found upon them, thus showing that they had not been robbed. The police are unable to ascribe any motive for the drowning or other means in killing these persons. None of the bodies have as yet been identified.

GOLD IN THE ELBOW

An Assay of \$25 in Free Gold in Elbow River Sand

Prospectors in the Calgary district are daily increasing both in number and activity. The latest discoveries are on the Elbow river. Not only has gold been washed out of the river gravel at the Weasel Head crossing by the ordinary panning process, but quantities of black sand similar to that which is causing such excitement on the Saskatchewan have been taken out. George Cook, of First Street west, has samples of the gold bearing sand which he took from the river and which are precisely similar to samples from the Saskatchewan. One assay of \$20 has been obtained from Elbow river gravel and old prospectors are of the opinion that the river is destined to produce large quantities of the precious metal.

Fresh strikes are also reported from Sheep Creek, south of Calgary. Samples of stanniferous or black silver, have been brought in from the south fork and the native silver is visible in small globules when the samples are subjected to the blow pipe.

A large number of citizens, including Senator Loughheed, P. McCarthy, G. C. J. Bangs, Alderman O'Brien, T. J. S. Skinner, John Donohoe and others have claims staked and will no doubt proceed with development work at once.

Oriental Hotel

Free bus at all trains. Comfortable and first-class in every respect. Rates: \$1.00 and \$1.50 a day. LANTZ & GIBBONS, Proprietors.

L. A. FRETZ
