

GREAT DEPARTMENTAL STORE

This Store is Growing Better All the Time.

A characteristic feature of this business is its constant improvement, a "growing better" all the time and along the line, a fact never so much in evidence as at the present time. Our ambition is never allowed to flag; our energy never tires, and our progress knows no limit. Our success in Revelstoke in the past is the inspiration for still greater achievement in the future, and that means a more perfect store organization, a better store service and greater comfort and convenience for visitors at this store. It's all a part of our plan of usefulness, and tends to give a greater measure of satisfaction and pleasure for those who come here.

In the collection and distribution of worthy goods, this store leads all North Kootenay. It has the largest buying power and the biggest constituency. That fact touches every many-sided business, and every year you see values grow better and better throughout the store, with conditions more and more in our favor. Just now we're swinging into the biggest season's business we've ever known. That's encouragement enough for special values all over the store, including some splendid chances in what remains of our great "salvage sale" stuffs. Everything marked in plain figures.

The Store Panorama.

Next week will be our exhibition week in all the stocks of each department. The whole store is sparkling with newness, and the magnitude of the displays, the novelty and beauty of the styles, the astonishing variety and unusual values easily discount any ever offered in this city.

In stylish Dress Goods, Mantles, and Millinery our leadership is admitted, and you can't imagine a worthy style or quality we haven't got. The new stocks are full of abounding interest to shoppers. No such care was ever taken before to make a store perfect, and nothing that we can say will tell nearly as much as a half hour spent among the goods, nicely displayed, in our store. You ought to come and see, if only to see. But few people are satisfied to go away without buying something.

Our aim is to make this store so pleasant that you'll want to come every day. Every convenience is provided for shoppers, and people who don't wish to trade are equally welcome with those who do. Business is solicited only upon the basis of absolute satisfaction, and any purchase made, if not as represented, may be cancelled by returning the goods.

Extra Inducements for Monday.

When the doors open at 8 o'clock on Monday morning we want to have the counters lined with eager buyers. We are perfectly willing to make extra inducements for that purpose, and so have arranged values that are simply irresistible. It will be a day long to be remembered by those who come to share our offerings.

New Fall Cloaks Are Ready for You.

We want the Ladies of Revelstoke and their visiting friends to come and see our CLOAK DEPARTMENT. As far as we know it is the largest in Revelstoke, and recent alterations and improvements will go a long way towards making it the best as well. But while surroundings are all that could be desired, it is the magnificent stock of Cloaks we have a reason to be proud of, and which will prove very interesting to our visitors. Our Cloak reputation is too well known to require any emphasis from this store. It is enough to say that we are ready with the newest styles in:

Ladies' Jackets, Suits, Capes, Dress Skirts, Silk Waists, Wrappers, Tea Gowns and Underskirts. Also Misses' and Children's Outer Garments in Great Variety.

This collection comprises styles and creations from the world's foremost designers. It reflects the dictates and fancies of those who set the pace in the fashion centres of the world. It represents that point of excellence and elegance never before attained in North Kootenay. But no need to say more. Come and see for yourself. Bring your friends and visitors. You'll be surprised at what there is in store for you.

Ladies' Ready-to-Wear Felt Hats

This is a Millinery Store in a class of its own. There is but one verdict: The best, most complete and up-to-date MILLINERY display will be found at this store. That is emphatically true of our READY-TO-WEAR FELT HATS, our assortment of which comprises scores of distinct styles, including many novelties confined exclusively to our trade. Our stock includes:

Smart Sailors, new Blocks with Fancy Bands. Fedoras and Walking Hats, newest shapes and all prices. Rough Riders and Golf Hats, the popular styles with Oriental and Fancy Silk Trimmings.

It would be useless to attempt a description of the various lines. Nothing short of a personal visit will satisfy. The earlier you come the greater will be your pleasure, because now the assortments are at their best.

Johnnie Ross

C. B. HUME & Co.

Our Fall Goods

Are Arriving Almost Daily.

All our lines have been replenished with a carefully selected and well bought stock. But in the following we can offer you very special inducements:

Boys' Suits

All kinds, all prices.

Men's Reefers

A splendid stock.

Pants

A large and complete range.

Underwear

Best assortment in town.

Boys' Caps

The latest and newest.

Men's Caps

Latest styles, all prices.

Neckties

The latest, and very pretty.

Rugs

Mats

Carpets

Linoleums

Quality tells.

Quality tells.

Prices tell.

No Sham Sales Strictly Business

We Want You to Come Again.

We are alive to our own interests. It would be foolish, in the face of persistent and keen competition, for us to offer you a tempting bait one day and overcharge you the next in order to make up the loss.

We don't promise you that one dollar spent here will go as far as two spent somewhere else, but we do assure you your money's worth every time you make a purchase of us.

Our constant endeavor is to so treat you that you will come again and again.

THE SIDEWALK BLOCKED

The Double Sidewalk is Now the Sticker.

NO DECISION YET ARRIVED AT

Last Night Was Another Sidewalk Session of the Council.—Ald. Brown's Motion to Call for Contracts Defeated on a Tie.—He Gives Notice of a Motion Re the Sunday Closing By-Law.—Either Enforce or Repeal.

The regular meeting of the city council took place last night. Present: Ald. Kilpatrick, Graham, McKeechie, Wells, Brown and Craze.

In the absence of the Mayor, Ald. McKeechie was voted to the chair.

CONCURRENCE.

G. E. Grogan with regard to the graves which the present line of the fence proposed to be erected around the cemetery will leave unenclosed. Reform and Trade Association asking that the sidewalk be built by half frontage and half general tax and that the men who fought the fire at the back of the cemetery be recompensed. On the first point of the R. & T. Association's communication the clerk was instructed to state that the council was governed by the Municipal Act, which does not permit of building sidewalks in the method recommended by the association. With regard to the cemetery fence a short discussion showed that the city engineer had mistaken his instructions which were to run a fence round the whole of the cemetery.

PETITIONS.

A largely signed petition was presented by R. Tapping, asking that all sidewalks be built by half frontage tax.

THE SIDEWALK.

Ald. Brown moved that the city engineer be instructed to prepare plans and specifications for an eight foot plank sidewalk along both sides of McKeechie avenue from Victoria road to "Finch," a six foot plank sidewalk along First street and Campbell avenue to the south side of Second street, along Second street to the east side of Charles street, to Third street and along the east side of Kootenay street to Douglas street, and along south side of Douglas to King and along King to Front and for an eight foot sidewalk on each side of Front street.

In putting the motion Ald. Brown said there was very little time to be lost as it was already settled to the satisfaction of the council that the city was to go ahead and build the sidewalk. The motion was seconded by Ald. Craze.

Ald. Graham objected to the motion as it left the council free to go where it liked for the construction of the sidewalk.

Ald. Kilpatrick objected to coming in both sides of two streets with the proposed so-called trunk sidewalk.

Ald. Craze said he was not prepared to take a strong stand on the double sidewalk on McKeechie avenue and Front street.

Ald. Brown explained that both sides of these streets had been originally mentioned in the budget for the present year. The motion was originally proposed by the full council and if a double sidewalk was required then it was now.

Ald. Kilpatrick said that the original proposition for half frontage tax had been dropped entirely and in the second proposal of the board of works for construction by full frontage tax there was no mention of a double sidewalk.

Ald. Craze agreed with Ald. Kilpatrick for the first time for a very long time. He regarded the motion merely as a means of bringing up discussion.

Ald. Brown thought that the double sidewalk was always agreed by the council and had never heard it argued otherwise. It was the general impression at first among the electors that the sidewalk was to be built out of the money raised by debenture.

Ald. Wells wanted to see the sidewalk built to connect the two ends of town and asked Ald. Brown to change the motion so far as the double sidewalk was concerned.

Ald. Craze also urged Ald. Brown to change the motion to read from Victoria road to McKeechie avenue as was the intention at the last meeting.

Ald. McKeechie thought that the motion would have to be changed, if at all, to read from the corner of McKeechie and First to the corner of King and Front.

Ald. Craze did not think the council had the right to cut off McKeechie avenue and Front street.

Ald. Graham said he had always maintained that the trunk sidewalk ran from the Roman Catholic church to the corner of King street.

LABOR IS SOVEREIGN

So Says Joe Martin and W. B. McInnes.

MCINNES WILL RESIGN HIS SEAT

As a Protest Against Laurier's Trickery on the Chinese Tax Question.—Joe Martin Appeals to the Labor Vote Against Cotton's One Man Administration.—Semlin Only Jumps When Cotton Pulls the String.

The principal speakers on Monday afternoon were W. B. McInnes, M. P., and Mr. Joseph Martin. Mr. McInnes made the important announcement that he intended to resign because of the Liberal party's refusal to raise the tax against Chinese. Mr. Martin appealed to the labor vote against Cotton's one man administration. Semlin only jumps when Cotton pulls the string.

Local Notes: From Armstrong.

ARMSTRONG, B. C., Sept. 6.—The weather continues very unfavorable for the crops. The grain shocks in some localities are looking quite green and the wheat that is standing is beginning to sprout in the head. But the sky is clear today and looks like fair weather again.

The flour mill is running again after a two-week's stoppage. The miller has the foundation laid for his new store.

Mrs. Schubert's new residence is now ready for the finishing touches. Mr. Barnard has the contract for the plastering and chimney work.

Mrs. Smith, the barber's wife, arrived from Kansas this morning to join her husband here.

A great many potatoes are being shipped from this place. The crop is very good.

Quite a number of the boys are seen coming from the bush with grouse, doves and quail. This is the order of the day.

Another game of football was played Saturday evening. Canadians vs. English, and was won by the former, of course.

Work on the White Elephant nining property commenced today.

The Silver Star mine was bonded for \$30,000 this week. The company will put on a force of men at once. The present showings are very satisfactory. In all probability, the company will purchase their supplies here, which will help materially the centre of the Okanagan.

Carnes Creek, Consolidated.

The extensive operations which have been carried on on the Carnes Creek property, by the Carnes Creek Consolidated, have turned out very satisfactorily.

The lower level tunnel, which crossed the ledge at 117 feet, has now been extended, and is proving the permanency of the high grade ore chutes.

After cutting the ledge a drift was run along it in one all the way for 280 feet, at which point the high grade ore chute was tapered off directly below the spot at which it was struck in the upper workings and at a lower depth of about 200 feet.

Work will be kept going all winter containing the drift, on which the high grade ore is seen rapidly. Winter quarters are being erected consisting of a cabin, blacksmith shop and sheds. A track and car are to be put in on the lower level tunnel and a heavy derrick is being put in supplies now to last all winter. The company may well be congratulated on the successful result of their pioneer operations in this most promising camp.

To Write Up B. C. Mines.

"British Columbia's mines," says the London-England correspondent to the Toronto Globe, "have not up to the present received as much attention as they deserved in London, but there are signs that better times are coming. Not very long ago the Economist had a series of letters upon them, but these strange to say, attracted little or no notice."

The intention of writing them up. This is Mr. J. W. Bromhall, a well known authority on mining subjects, who was the founder of the West Australian Chamber of Mines in London, and has represented the Financial Times, the leading financial daily, and The Statist, the well known weekly authority on monetary matters, and has been exceptionally well informed, by an experienced engineer.

Alderman Kilpatrick Explains.

Ald. Kilpatrick has given the HERALD a clear explanation of the cemetery fence matter mentioned in our last issue. It appears that two blocks of land have been given by the government for the burial ground. It is proposed to enclose the whole area covered by these two blocks with a fence and to clear block 33, in which monuments are now being altogether made. But by some mistake or another several graves have been dug on block 33, which was not included in the government grant for a cemetery.

All the land that is now being cleared is outside of the fence. Ald. Kilpatrick thinks that the best way out of the difficulty will be to petition the government to include block 33 in the cemetery grant.

Fredrick Jones, late assistant manager of the C. P. R. western division, who is now manager of the Columbia River Milling Company, is now in the city on business connected with his firm, which own large lumber mills at Golden, Moberly, Notch Hill, Tappen Siding and Salmon Arm. Mr. Jones states that the lumber business this season has been exceptionally busy one, and it has been extremely hard to supply the demand which has been greater this year than ever before. The weather this season at Golden has been exceptionally fine not only on the eastern slopes of the mountain has it been wet. The lumber produced by these mills is shipped east as far as Broadway. Winnipeg Telegram.

PRAIRIE LOVE

Oh for the life on the prairie! Oh for the breeze from the west! Oh for the bloom of the roses!

So far from the close crowded city, With its sins and its sorrows so deep, Its out on the open green prairie,

So its oh for the life on the prairie! And its oh for the breeze on the cheek!

And its oh for the bloom of its roses! For there is the life that I seek.

Its solitude truly is awful, Its stillness so intense and so deep, That at times it appals by its calmness,

As its meanings I earnestly seek. Chorus: So its oh for the life on the prairie!

And its oh for the breeze on the cheek! And its oh for the bloom of its roses!

For there is the life that I seek. Tet its wide open bosom's pleasant,

It is just the sweet prairie for me, For its spirit has captured me wholly,

And its life is my life now to be. For the hand who has planned the green prairie,

Has planned all my pathway for me, So I'll trust in the Power Who over-ruled,

And my home on the prairie shall be. Chorus: So its oh for the life on the prairie!

And its oh for the breeze on the cheek! And its oh for the bloom of its roses!

For there is the life that I seek. If you glance at history's pages,

In all lands and eras known, You will find the vanished ages,

Far more wicked than our own, As you scan each word and letter,

You will realize it more, That the world today is better

Than it ever was before. There is much that needs amending

In the present time; no doubt, There is right that needs defending,

There is wrong needs crushing out, And we hear the groans and curses

Of the poor who starve and die, While the men with swollen purses

In the place of hearts go by. But in spite of all the trouble

That obscures the sun today, Just remember it was double

In the ages passed away, And these wrongs shall all be righted,

Good shall dominate the land, For the darkness now is lighted

By the torch in Science's hand. Forth from little notes in chaos

We have come to what we are, And no evil force can stay us,

We shall mount from star to star, We shall break away each fetter

That has bound us heretofore, And the world today is better

Than it ever was before.

WESTERN MARKSMEN

Surprise the Crack Shots of Ontario and the East.

Dominion Rifle Matches Close

—Personnel of the Bisley Team

Ottawa, Sept. 2.—The rifle matches came to an end yesterday afternoon. During the morning the first stage of the Governor General's match was shot.

Magnificent scoring was the order of the day. Corporal Love, Manitoba Dragoons, established a new record over the 200, 500 and 800 yard ranges, scoring 102 out of the possible 105.

The really great event of the day, however, was won by the Manitoba team, capturing the celebrated Provincial match. When it is considered that there were only nine from that province and eight were required to make up the team, while Ontario and Quebec has representatives by the hundred, the victory of the Manitobans is all the more remarkable.

The Bisley team Manitoba has only one representative, Private Fleming, who stands fifth. The following is the full Bisley team for next year: Sergeant Langworth, 74th battalion; Private Leungman, 74th battalion; Private Langworth, 74th battalion; Private Leungman, 74th battalion; Private Langworth, 74th battalion; Private Leungman, 74th battalion; Private Langworth, 74th battalion; Private Leungman, 74th battalion.

Private Fleming, 14th; Lieutenant Blair, 74th; Sergeant Corrigan, 59th; Lieutenant Crooks, 4th; Private Fleming, 14th; Lieutenant Blair, 74th; Sergeant Corrigan, 59th; Lieutenant Crooks, 4th; Private Fleming, 14th; Lieutenant Blair, 74th; Sergeant Corrigan, 59th; Lieutenant Crooks, 4th.

The Manitobans succeeded in carrying off the London Merchant's cup, and \$60. They scored 734, made up as follows: Captain C. N. Mitchell, 90; Captain Wynn, 94; Sergeant Inman, 92; Sergeant McKay, 92; Sergeant Gilroy, 92; Private Fleming, 90; Corporal Love, 102.

Total, 734. The Ontario team with 712 were second; Nova Scotia, 711; British Columbia, fourth, 690; New Brunswick, 682; Prince Edward Island 655.

Reputation is more than a bubble to the soap manufacturer. The softest of snaps is the click of a well filled pocket book.

You might well accept the inevitable, even the editors can't decline it. A cheerful view of life depends on knowing which end of the telescope to look through on different occasions.

Some rich people's idea of brick-abrac is that it is a megaphone for their money to talk through. Fine feathers don't make fine birds.

Nothing makes anything else of a woman who is a goose, or man who is a jay. None of us wants to hurt anybody else's feelings; but it sometimes seems necessary to our own peace of mind.

One of Roosevelt's Rough Riders with Alvin's circus collected \$95 from Seattle diversers and left town with it. He had been with Main's circus for five years and had served through the entire war.

The Louisville, Ky. Courier-Journal asks editorially, "Is the razor a deadly weapon?" We should say it is. At least many men have had close shaves from it at the hands of the barber.

Owing to the prolonged rain the directors of the Kamloops Agricultural society have decided to postpone their exhibition until October 11, 12 and 13. The original dates were September 20, 21 and 22.

Captain Coughlin is authorized for an interesting story of the taking of Manila. Dewey says, "I sailed into Manila harbor, fought, his battle and then cut the cable. The English admiral wanted to help, but he didn't dare. But he thought that Dewey might take a hint, so the English admiral said over to Dewey and said: 'Ah, I see you have cut a cable.' 'Yes,' answered Dewey, 'Which one?' asked the innocent English admiral. And then Dewey, knowing for the moment there were 2 cables, rushed back, grasped for the second cable and cut it."

The new fast freight train from Fort William to the coast which the C.P.R. has established is causing a great deal of favorable comment among all classes of business men who handle mail matter. It is to the freight carrier that the Imperial Limited is to the passenger and universal satisfaction is expressed at this new achievement of the company.

The new thing on the programme of advancement, said a C.P.R. official, will be the starting of a fast daily freight from the Pacific coast to Winnipeg.

One out come of the recent conference between the joint committee of the engineers and firemen and the C.P.R. officials at Winnipeg is that a change has been made in the schedule of wages for operating consolidated and mastodon engines. Two rates were formerly in force—\$2.50 and \$4.00 per 100 miles for engineers, and \$2.00 and \$2.50 per 100 miles for firemen. These rates have been done away with and from August 1st of this year, a rate of \$1.15 for engineers and \$2.50 for firemen, per 100 miles, went into effect. This alteration and increase in rates affects only the engineers and firemen operating the large "hog" engines.

WHAT'S IN A NAME? "They say you are making a gay fuss Dreyfus;

A kind of political typhus, Dreyfus; But no, no, no, but criminal refuse Dreyfus;

And now, at last, you must play the game, And Dra-fus, Dri-fus, Drec-fus—clear your name."

HOW HE MET HIS FATE

WHISTLIN JACK'S LAST JAUNT WITH ALKALI IKE.

Being the Reminiscence of a Quiet Little Time Spent by the Two Worthies in Celebrating Their Reunion, Whereby a Tragic Ending was Brought About.

"That sorter reminds me," began Alkali Ike in a reminiscent tone, "of the manner in which Whistlin Jack went off the jump."

"He was mislaid for a year or two when one day—ho-yero comes Whistlin Jack whirling in from the Panhandle. Nether! enough, having formerly been as thick as Damon and What's-his-name, we got surfin around rattin our horns together. I hain't recallin the exact details of our relaxation, burez after a bit our smoke gets kinder thick and the air so obscure that I hain't never since been able to recollect much."

"Mebby it was S o'clock in the evenin when around the corner comes somethin fyin along in the moonlight that wa didn't know the nature of till we had stopped it by bendin a gun over its head. Then it strikes me that I have consider-able like some stranger that had been tarred and feathered, which opinion I impart to Jack."

"'Naw,' says he, 'I reckon it is a trained bear that has got loose from some Indian, and—'

"'Oh, gentlemen,' says our captive earnestly. 'I am not a bear. I—'

"'Aw, you jest think you hain't,' says Jack. 'Appearances are prone to be deceptive. You might get to lookin consider-able like some stranger that had been tarred and feathered, which opinion I impart to Jack.'

"'Dat, good gentleman—'

"'At present,' says Jack, 'we hain't good gentleman to be, and as it hain't down on the records that bears is to talk say I reckon you'd better shut up. I'm sayin guine, to be, that the Roman you so basely deserts is bewailin his bereavement this minute. Each lookin the case, it's time for us to hum him up and return you to him if I along thar, Buller!'

"Several things happened soon after that, but owing to the obscurity, which I am before mentionin, I don't recall 'em all. But anyhow for the next two hours we drives that thar pro tem bear about the settlement, and not been able to locate his sorrowin owner, we whirls in and ex-hibits him on our own hazen hook, as it is everbody the pleasure of witnessin a great moral performance without cost."

"The way that thar brain danced when Jack indicated him with the muzzle of his six shooter was shrewdly exact, and was unanimously enjoyed by the crowd that witnessed it, includin a few tourists that were cornered and favored with a special performance. They 'peared kinder reluctant about imposin on us at first, but when Jack made oration 'em about the sin of ingratitude, sorter punctuatin the same by spinnin his shootin iron around his finger, they burgan to see whar he was right."

"'Wani, nobly mornin would have found us still in the show business if it hadn't been for an episode that upset our plans. Directly we rounded up in front of the ball whar the Kamnabook club was havin a grand ball, and Jack gits the idea that thar was nothin in the man's eye but a novelty into the festivities by introducin our jestly celebrated dancin bear. Accordin, in we tracked, draggin Dolliver. We hain't more than got inside when over comes Plunk Pritchett and whisks us off to one side."

"'You gents have jest come,' says he, 'and I'm plumb wore out. Miss Birdie Slide expects me to dance this next waltz with her, and, honest, I'm too tired. So it will be an exceeding favor of one of you will take her off my hands this trip.'

"'She's too heavy for me,' says Plunk. 'I don't know as Jack, yere, been plumb can swing her, but you, Ike.'

"'I hain't the kind of a gent that can't swing that thar lady myself,' says Jack, sorter bristlin up."

"'Jest then some feller informed us that our bear had got impatience and left. 'Let 'im go!' says Jack. 'We dono our best to return him to his owner, and a kind intention is never lost.'

"'Upon that he begins for to trip the right fantastic with Miss Birdie, and about the second whil around the room he slips off a grouse step on the floor, and the lady lady fell on him with a thud that shook the house. His breast bone was crushed in, and poor Whistlin Jack died before mornin from internal injuries."

"'Dor, anyhow, I s'pose he' be gasped jest before his light went out.'—New York World.

Too True. Mrs. Struckoyle—John, I've decided to take Emeralda to the States for a few months in hopes that some nobleman will marry her.

Struckoyle—It's no use, Sarah. The kind of nobleman who'd have Emeralda don't stay in Europe—they come to America.—New York Times.

Just Written. Husband—I'll drop you a note from the office if I am detained tonight, my dear.

Wife (with fine scorn)—Oh, you needn't trouble to drop it from the office, because you're to drop it from your pocket. I have just picked it up off the floor.—Comic Cuts.

Great Time Saving Scheme. "No," he said, "I don't care for poetry, fact is, I haven't time to read much of anything."

"Why," she sweetly asked, "don't you try to learn to read your cigarettes with no hand?"—Lodge Post-Dispatch.

BABY SUPERSTITIONS. Turn a baby upside down and it will never have liver trouble.

It is unlucky for a child to see itself in the mirror before it cuts its teeth. It will be vain and proud.

When a baby is dressed for the first time and its left arm is put into the sleeve that it will be left handed in everything.

Wrap a baby in her father's shirt and she will have lots of lovers, but the shirt must be the first garment wrapped about her.

In regard to the child, if every important incident is done on Sunday, it will be all the luckier, as "the better the day the better the deed."

If the "blatant" for a baby be entirely new, it will grow up to be a spendthrift. The more old things it has, the more economical it will be.—Exchange.

ANIMAL ODDITIES. The goldfish is a great coward, and a tiny fish with courage to attack it can frighten it almost to death by looking at it. Before rain snails crawl upon leaves. If the rain is going to be light, they lie on the outside of the leaf; if long and heavy they go on the underside.

The insect known as the water boatman has a regular pair of legs, his legs being used as such. He swims on his back, and in that position there is less resistance to his progress.

The wings of his are not only to aid locomotion in the air, but also on the ground and water. One hind end, under the "elbow" of its wings to aid it in climbing. The dothing is a modification of the skin, just as hair and nails are, and sometimes it closely resembles hair.

A PANEL AFTER TURNER

The peacock on the balustrade Of yellowed marble sleek and gray, His listless train's begemmed array Sweeping the glories to cascade.

The ancient Triton flings about His silver in the livery sun, Where shines the like of moonbeams, Like tinsel, basking moonbeams out.

And wearied of the filmed air The butterfly—white Pierrot— Droops o'er the jasmine, pulsing slow Twin petals puffed with powder rays.

They dream, afar see tumbling high The storm's gay chaos. Its acres The crowded plianage of the tree Proclaims, "Faint rose, the rain is high." —Thomas Walsh in Donahoe's.

CIRCULATING MUSIC.

It Proves a Popular Department of the Brooklyn Library.

The Brooklyn Library established its department of music in the autumn of 1883. The idea of circulating music in the same manner as books was suggested by one of the directors of the library, who supplied his suggestion in a most practical manner by supplying funds for the purchase of the volume. The section of this music was made by a large music importing house in New York and included in the several additions subsequently made the selection has been made by means of musical education and possessing a wide acquaintance with the works of the most noted composers and therefore better fitted for the requirements of the case than a librarian more closely acquainted with books than with music. The collection is largely for single piano (two hands) this being most in request, but there is much that is arranged under other headings, such as "Piano Duets" (four hands), "Piano Trios" (three hands), "Piano Quartets," "Vocal Music," "Songs," "Oratorios," "Operas" and the like.

The rules for circulation are the same as with books. Readers who apply first for a work that is in demand get what they require. In other cases, necessarily wait until later, as is usual in a circulating library. The collection now numbers 2,000 volumes, exclusive of works on the theory and practice of music and musical biographies. The collection has been issued devoted to music alone. The more recent additions are given under a separate heading in the catalogue. But for use at the library the collection is given in one complete list under the usual headings in a Rudolph index card, instead of with the book additions in the card catalogue.

A Little Too Far. "There is such a thing as overdoing your part," declared a man of the law who has the knowledge gained by much experience.

Shortly after I began practice in the west I was called upon to defend a man who had drawn a revolver on another and threatened to kill him. The accused did not admit a revolver, but I proposed that the prosecuting witness was also steady in reputation, and I made the most of this fact. I pictured him as a desperado of the most dangerous type, a man that was a constant menace to the community and who would recognize no other law than that of force. Such man as he, I insisted, made necessary the organization of vigilance committees and injured the fair name of the west among the older communities. As soon as court adjourned the forum of the jury came to me and said, "You ought to have recognized the man's character as a desperado, but the prosecuting witness was also steady in reputation, and I made the most of this fact. I pictured him as a desperado of the most dangerous type, a man that was a constant menace to the community and who would recognize no other law than that of force. Such man as he, I insisted, made necessary the organization of vigilance committees and injured the fair name of the west among the older communities. As soon as court adjourned the forum of the jury came to me and said, "You ought to have recognized the man's character as a desperado, but the prosecuting witness was also steady in reputation, and I made the most of this fact. I pictured him as a desperado of the most dangerous type, a man that was a constant menace to the community and who would recognize no other law than that of force. WAR IS NOW ALMOST A CERTAINTY.

Great Britain Calls Out Her First-Class Reserves.

Awful Drowning Catastrophe at Halifax

News of the Dreyfus Trial is Very Meagre.

London, Sept. 5.—The war office has sent an urgent order to the bureau of stationery and printing to prepare copies of the proclamation calling out the first class reserves.

The proclamation must be ready by tomorrow morning.

In the British army there are four classes of reserves, or auxiliary forces: Militia, Yeomanry, Cavalry Reserve Corps and Army Reserve Corps.

The army reserve of the first class called out by this order numbers 1,000 men. The number of effective men according to the latest report is \$2,000.

Today's news from the Transvaal is of the gloomiest description. The withdrawal of the Boers of the five years' residence franchise qualifications, qualified by their assent to the proposed conference at Cape Town, it is thought may be a mere pretence to gain time.

Thirty thousand men in the Transvaal and 20,000 in the Orange Free State will take the field.

The Standard and Digges' News gives what purports to be the secret session of the Volksraad on Saturday.

According to this report the Volksraad not only rejected the five year residence proposal, but also stoutly opposed it. Kruger is visiting Cape Town and resolves to make a stand for the abrogation of England's claim of suzerainty. The Boer government organ then asserts: "The government, both rural and burghers, feel that they have offered all that they intended to offer and are now resolved to stand or fall by this decision."

DEWEY AT GIBRALTAR

Olympia and British Garrison Exchange Salutes

Gibraltar, Sept. 5.—The United States cruiser Olympia, with Admiral George Dewey on board, which arrived here at 9:15 a. m., fired the usual salute in honor of the admiral and the compliment was returned by the batteries on shore and by the British battleship Devastation.

At noon the American commander landed, the batteries again saluting. With the second battalion of the Grenadier Guards in attendance, Admiral Dewey drove to the palace in a carriage of General Sir Herbert Blauquh, the governor and commander in chief, for the purpose of paying Biddulph an official visit.

The Olympia is expected to sail on September 11th en route to New York.

NEWS(?) ABOUT DREYFUS

Rennes, Sept. 5.—The fifth week of the court martial of Dreyfus began today with the largest attendance yet seen at Lycee. Interest in the trial grows as the end approaches. Six to ten days is given as the limit for the further duration of the trial. There were an exceptionally large number of ladies present today, their bright costumes giving a gay look to the court room.

COLUMBIA CHOSEN

To Defend the American Cup Against the Shamrock

Newport, Sept. 5.—The regatta committee advised that the Columbia is superior to the Defender, and the third race, scheduled for Wednesday, will not be sailed. This means that the Columbia will defend the cup against the Shamrock this year.

The Columbia beat the Defender in a trial race today by 11 minutes, 40 seconds. The Columbia crossed the finish line at 2:32 and the Defender followed at 2:44.

A PROSPECTOR DROWNED

Wanderers, September 2.—(Special)—While crossing the Kootenay river on Sinclair Pass, Joe D. Gandy and fell from his horse and was drowned. He accompanied by Wm. Goudry and Lee Crockett left Okotoks on August 9th for Wanderers to do assessment work on their claims the Sunset and Sunrise, located by them on Finlay creek last year.

When they reached the ford about 10 o'clock in the morning they found it very high and swift but having met a party of Indians who had safely forded it a few hours before, they started across. Goudry taking the lead and Garand following. When Goudry had reached the shore and Garand about the middle of the stream, Garand's horse stumbled, losing his feet in the current and turning over two or three times. He finally righted himself and made the bank but his rider was gone. Garand drifted down about 150 yards and sank. His companions searched along the bank for five miles but found no trace of him. The cliffs here are so full of gorges and cliffs that the body may never be found, and when it is it may be miles below.

From a note book found among the dead man's effects it is learned that he was from St. Lami, Quebec, about 45 years ago, when some of his family are supposed to now reside. He also has two brothers in Montreal. For some time he had been in the employ of John Lineham, a lumberman in Alberta.

AN ABOPTIVE STRIKE

London, Sept. 5.—The general strike of seamen and steamer firemen which has been threatened for some time has been declared today. The ship owners refused to accept the invitation of the Seamen's and Firemen's Union for a conference in regard to the fixing of a rate of wages. Reports as to the effect and thoroughness of a movement have not yet been received, except from South Shields, where it is stated that 2,000 men have gone out. Many meetings have been held in the vicinity of the London docks. The speakers expressed the determination of the men to remain idle until their demands had been granted. It is not likely that the strike will be completely ordered for several days and until then its extent will not be known, or its result keenly felt. The manifests of the Union ordering the men to strike includes all ports of the United Kingdom.

Later.—The strike has ended in a fiasco in London, Liverpool, Glasgow, Newcastle and elsewhere, the ship owners being ready to fill the strikers' places at once. The strikers are without funds.

WINNIPEG WINS

Winnipeg, Sept. 2.—"It is not always the best team that wins" is an old saying that was fully exemplified at Fort Garry yesterday afternoon between Winnipeg and Holland across teams for the intermediate championship of Western Canada. This match resulted in a win for the Winnipeg by a score of 4 goals to 3, extra time having to be played before the result was achieved.

LABOR DAY

Winnipeg, Sept. 5.—The Labor Day celebration here was a great success yesterday. The procession was one and a quarter miles long. Six thousand people paid for admission to the exhibition park, where the sports were

AWFUL DROWNING ACCIDENT

A HALIFAX YACHTING PARTY'S TERRIBLE EXPERIENCE

Seven Drown and the Rest Saved by Heroic Bravery

Halifax, Sept. 5.—A terrible accident, resulting in the loss of seven lives occurred off the harbor last evening. The victims were a picnic party which left here yesterday morning in a yacht. Their destination was McNab's island, about two miles from the city. The boat reached its destination in safety and the pleasure seekers spent an enjoyable day. The party included Robert Davidson, aged 25, his wife, aged 28, his sisters, Mabel aged 13, Florence aged 12, and Bertha, 2 and Louise 29, William H. Hamilton of the city clerk's office aged 29, J. Hauck aged 40, J. Poole and Edward Jude of H. M. S. Talbot.

About 5 o'clock the party started to return home with a strong wind blowing. The wind blew until until it assumed the proportions of a gale and heavy squalls followed one after the other, in quick succession. It was one of the most dangerous sailing days that has been experienced here for some time, and when the boat was in the most dangerous part of the channel, with all sails set, a tremendous gust of wind broke over them and tore the mast from its box. The second gust forced the heavy timber back, and striking the bottom smashed a large hole in it. In a moment the whole party was doomed to face death. Eleven were battling for their lives. Poole and Jude, who were excellent swimmers, caught Louise and Bertha Davidson in their arms, and started for the shore. The others were left to their fate. Mrs. Davidson was the first to disappear beneath the waves and shortly after the others followed her.

For nearly a quarter of an hour the brave officers fought against the terrible odds and were at last picked up by a passing steamer. The women were almost gone and it was only after careful medical attention that they were brought to.

THE TRANSSVAAL QUESTION

London, Sept. 2.—The Transvaal situation continues to become more warlike. The palpable and clumsy parrying of President Kruger has all out exhausted the patience of British statesmen, even as it long ago exhausted the patience of the British public, both at home and abroad. Nothing short of an ultimatum of the most unmistakable type will, it is believed, bring Kruger to a just realization of the position, then he must either fight or crawl under the gun. The probabilities are in favor of his being forced to fight, for his people, who have lived in a fool's paradise since England's blunder at Majuba Hill, would never tolerate submission on the part of Kruger until driven to it at the point of the bayonet. Indeed Kruger has admitted to a friend that he believed war now to be inevitable and that it will come quickly.

ELEVATOR ACCIDENT

St. John, Sept. 2.—An accident occurred yesterday on the new British colonial grain elevator. Four men who were working inside, undertook to raise their light staging structure. They held it in position preparatory to making it secure when some lumber fell from above, striking the men from their grasp. Two men fell a distance of over 50 feet. One named Herbert Harris, Truro, Nova Scotia, aged 27, alighted on his head on the floor, and his brains were dashed out. Another man named Donald McEachran escaped with only serious external injuries.

SAMPSON TO BE RELIEVED

Washington, Sept. 2.—At the conclusion of the Dewey celebration at New York, Admiral Sampson will be relieved of the command of the North Atlantic squadron. This action is taken at the request of the admiral, who has already had much more than the share of sea service in his grade.

HAD A HOT FIGHT

Southampton, Sept. 2.—A fight among the firemen on the American liner New York occurred this morning. Five men are in the hospital, one not expected to live. The police quelled the riot and are now looking for the ringleaders.

DREYFUSARDS ARE GLUM

Rennes, September 2.—M. Godfrey Cavaignac, former minister of war, arrived at Rennes last evening. There is much speculation respecting the motive of his reappearance, which general conjecture is that it implies a fresh shuffling of the cards of the prosecution. Symptoms of despondency have manifested themselves in Dreyfusard circles during the last few days.

MANITOBA CROPS

A Large Proportion Cut—No Frost—Yield 25 Bushels to the Acre

Winnipeg, Sept. 2.—Crop reports from points along the N. P. railway are most satisfactory to the country. Seventy per cent of the wheat is cut. The wheat is nearly all No. 1 hard. The acre and there has been no frost.

STRANGE DEATH OF A FARMER

Brandon, Sept. 2.—A most mysterious case has occurred at Souris, Fort, near Melita. A wealthy farmer named Alex. Smith, a bachelor, lived a hermit life. None of his neighbors know anything about him. On August 23rd smoke was seen as if the house were on fire and this proved to be true. Smith was found in a dying condition and died next day. He was about 48 years of age, was born in Scotland, lived in Iowa and settled in Manitoba about 10 years ago. Anyone having information about Smith should send the same to John Creaser, of Melita, or the official administrator, R. M. Matheson, of Brandon.

THE OLD STORY

A Toronto Girl Ends Her Troubles With Carbolic Acid

Toronto, Sept. 2.—A girl of 22 years of age was found in Johnson's Lane in a central part of the city last night in a dying condition owing to the effects of carbolic acid. She died at the hospital at midnight without identification. It is evidently a case of deliberate suicide from the usual cause.

FERGUSON

THE ROSSLAND OF THE LARDEAU

Lardeau Is the richest mining district in British Columbia

Ferguson Is right in the heart of Lardeau's richest mines

Now is the Time to Invest in Ferguson Real Estate

And Here are the Reasons Why You Should Get in on the Ground Floor of this Rising Mining Camp

First: Is in the heart of the mines and so situated that it will always be the outfitting joint for all the big shippers. A glance at a map of the district will convince the most skeptical of this fact.

Second: The miners and mine owners will make their headquarters at Ferguson.

Third: Next year Ferguson will have two railways, namely the Lardeau, Duncan and the C.P.R. Both lines have been surveyed into the town, and the Lardeau, Duncan are right now clearing the land for their new depot and workshops, sidings etc.

Fourth: The Silver Cup, Sunshine, Nettie I., Tower, Trac, Fissure, Bad Shot, Broadview, Old Sanoon, Silver Queen, Silver Belt, The Horn Lodge Group, Big Five, Wagner, Abbott, Holy Moses, Empire, and other well known properties are tributary to Ferguson and are all within a radius of 10 miles of the townsite.

Now is the Golden Opportunity

Next summer may be too late to get in at ground floor prices. Advice—Act promptly.

Ferguson Is absolutely without a rival in the Lardeau District.

Lots Are Selling Fast—

Spokane Capitalists are reaching after Ferguson property and expect to pull out with a handsome return, as experienced by them in the early days of Rossland.

Why Not You?

Lots selling now at from \$150 to \$250—Choice Corners.

All information can be procured on application to

F. BUKER, Local Agent, FERGUSON TOWNSITE

SIX HUNDRED KILLED

Yokohama, Sept. 2.—Six hundred lives have been lost by the flooding of a copper mine at Besshi island of Shlomo.

BREVITIES BY WIRE

Professor Smale, of Toronto university, has resigned.

The British government Transvaal dispatches of a recent date have been published.

The International hotel at Fort Steele was destroyed by fire yesterday, and the whole town had a narrow escape.

The season's fur trade in the Edmonton district has been good. Word has been received from the Glen-Campbell party in far north Cape Colony has been summoned to Pretoria.

In a collision, on the North Sea canal, near Amsterdam, nine persons were drowned.

"Well, what day will they hold their Sunday school picnics on?"

If seeing is believing, the one eyed man would be of a skeptical turn of mind.

President Kruger quotes the 83rd psalm against John Bull, who might retort by quoting from the 2nd psalm which may be freely translated into "Why do the Boers rage and Oom Paul imagine a vain thing?"

LOCAL AND GENERAL NEWS

Baltimore Oysters at Woodrow's.
Mayor McCarty is away in the Okanagan valley.
Mrs. H. A. Brown has been spending the week at the Halcyon Hot Springs.
Trout fishing at the St. Leon Hot Springs is reported to be excellent.
W. F. Gray left this morning on a business trip to Albert Canyon and Heclett.
No quorum at the meeting of the council of the Board of Trade on Thursday evening.
H. J. Bourne intends to convert J. F. Weigl's carpenter shop behind the Herald office into a residence.
P. P. Clarke has left Jas. Gill & Co's. employment and has taken a position as night clerk in the Union Hotel.
R. Lapping is circulating a counter petition to have the proposed sidewalk built by half frontage and half general tax.

City Engineer Back has been busy for the last couple of days putting in the stakes for the long expected sidewalk.
J. Morgan left for Ferguson this morning. He will return next week to Camp McKinney by the Okanagan route.
The famous Godfrey band were through an engagement at Rossland.
The long expected deed for the two lots on McKenzie Avenue owned by the Roman Catholic church, has arrived at last.
J. J. Bland, of the Front street hotel and shoe store, left on Friday night with Mrs. Bland for Vancouver, where he will open up business.

The Revelstoke-Lime Co. shipped a car of lime to T. Tompkins, Sicamous, the other day and expect a car in for the local trade in a few days.
A. E. Watt, proprietor of the Diamond Core Drill, was in town this week from the Glenavoy, where the drill has been at work this season.
T. Tompkins, the C.P.R. contractor was in town on Wednesday. He reports the new hotel and station at Sicamous as ready for the plasterers.
A representative of the Seattle P.T.I. has been doing the town on the basis of a free write-up of half a page in return for 60 subscribers for three months each.
Rev. S. J. Thompson will preach tomorrow at both services in the Methodist church in the evening he will conclude the series on the story of Francis Willard.

Alex. Allen, one of Vancouver's star lacrosse players, was in town yesterday visiting his brother, J. G. Allen, one of our popular lacrosse players for the Dominion Lacrosse Co.
A. Munro, the well known Lardian mining manager, was in town this week after a prolonged visit to the mining districts on the coast and south Kootenay. He is on his way to Montreal.
An interesting Epworth League meeting will be held on Wednesday evening. The subject is "Cause and Effect" will be the subject. F. Baker is the leader, which ensures a good meeting.
Bourne Bros. have decided to open a dressmaking department in the rear of their store and employ a dressmaker from the east with all the latest modes and fashions, to arrive shortly to take charge of it.

Now is the chance for Indies' hunting bargains at Bourne Bros. Three cent postage stamps marked down to two cents at the Big Department Store. Come early and avoid the rush at the stamp counter.
W. A. Carlyle, formerly provincial mineralogist and now superintendent of the B. A. C. properties, has according to a Rossland despatch, been offered the superintendency of the famous Rio Tinto copper mines in Spain at a salary of \$25,000 a year.
Fred Fraser reports so far only a poor collection of mineral specimens from this division for the Paris exhibition. The collection is still here as the instructions to forward it to Victoria were countermanded and Mr. Fraser is still open to accept additional specimens.
At the regular meeting of the Reform and Labor Association it was resolved to ask the societies in the city, some with other friends in the west and labor, to meet the association to arrange for a lecture from the noted labor leader and orator Eugene V. Debs, in October.

C. F. Lindmark has disposed of his present residence on Campbell Avenue and intends to erect a new one on a larger one on the same ground. The new home is to be ready for the family to go into on their return from their proposed visit to Sweden, where they intend to spend the coming winter.
Mr. Mackenzie-Bowell arrived here on Thursday, No. 1 and left by the south train next morning. He was accompanied by his daughter, Mrs. McCarthy, and his grandchildren Miss McCarthy and Mrs. Charles Holten. He intends spending about a month in the west and will visit the coast before returning.
The private car Eamscliffe was attached to Monday's No. 1 leaving Montreal and was occupied by E. S. Clouston, general manager of the Bank of Montreal, Major Lawrence and Mrs. Drummond and Major and Mrs. Atterly. The party intend to spend a month in British Columbia and the west.
Eugene Stinger, travelling financial agent for the Salvation Army, is to visit Revelstoke, Sicamous, etc. He will conduct special services all day Sunday in the Army hall at the usual hours and on Monday at 8 p. m. The mission will give a magic lantern service entitled "Gives in Christ." This is a very interesting, instructive and pathetic service.
Mr. Geo. H. Morikill, of Comaplix, manager for the Kootenay Lumber Company, has been visiting the city, and went out last night for a walk. Next to do some business in the Territories. Mr. Morikill speaks most encouragingly of mining prospects in the Lardian country and is looking forward for a degree of activity that will surprise those who have been more or less sceptical of the richness of that region.—Nelson Miner.

Comparisons are odious.
This fact is emphasized when you try to drink other teas after having once used Blue Ribbon Ceylon

NOTE AND COMMENT.
Seeing that the cemetery here is the place of burial not only for the inhabitants of the town but also for the whole population of a district extending at least 50 miles in each direction, it seems that the provincial government might very well be asked by our city and county authorities to consider the expense of fencing and clearing it.
As the Herald predicted he would, Joe Martin has come out with a flat-footed plan to keep out of the province to place him in power at the next general election, which cannot certainly be postponed for a very long time after the opening of the next session of the legislature. And he looks very much as if W. B. McInnes meant to join the redoubtable Joe in the coming melee. It will at all events be a relief to have a provincial election depend on the acceptance or rejection by the electors of some well defined principles. One thing, however, is certain. If Martin gets in as labor premier this province will be an excellent place to keep out of. The trouble is over and the gates of the socialistic paradise are open. You cannot make an omelette without breaking eggs, neither can a labor party be organized without disturbing business as to cause uncertainty, lack of confidence and depression. But after the omelette is made it may eat all right.

To-Day's Announcements.
The V. C. T. U. of Revelstoke will meet in the Methodist church next Tuesday at 3.30 p.m. A full attendance is particularly requested as the annual election of officers and the election of a representative to the convention will take place.
The ladies' aid of the Methodist church decided at their meeting yesterday to hold a Japanese social at the residence of Mrs. T. Down's, Second street. The date selected is Tuesday the 19th inst. A good time will be had.
A special meeting of L. O. L. No. 1555 will be held in the Oddfellows' hall to-night at 9 o'clock sharp.
