REVELSTOKE HERALD.

ISSUED TWICE-A-WEEK—TUESDAYS AND FRIDAYS

Vol. IV. No. 57 | REVELSTOKE, B. C., TUESDAY, JULY 17, 1900. | $2.00 a Year in Advance.

C. B. HUME & CO.

Direct from Ceylon

30 Cases Ceylon Tea

15 Cases celebrated 5 o'clock Tea

This is the first lot we have had direct from the plantation and it is much superior to the 5 o'clock we have had before.

15 Cases BEN HUR 40c. per lb.

This can not be equalled for the money.

Just in another shipment of Lipton's 40c and 50c PER LB.

10 Cases THE FAMOUS Ram Lal's The best Package Tea on the Market.

Coffee ! Coffee !!

Five barrels Java and Mocha—the best that can be procured in Canada. Also five barrels of Santos.

JUST ARRIVED

Jars THAT ARE Jars

Two Hundred Dozen Preserving Jars just arrived. Everybody is in great need of them at this time of year Come and look at this large assortment before boiling down your berries. In this shipment we have jars in all sizes. Anyone wanting anything in this line should make a special effort of looking this shipment over.

GLASSWARE

We have to draw your attention to our glassware department—it is brim full of new goods.

RAM LAL'S TEA as a Package Tea cannot be beat. It has no equal in the Market, as a sample package will convince all lovers of good Tea.

C. B. Hume & Co.

THE SILVER LARDEAU

The Report of the Mining Recorder for the Year 1899.

Maybee Mineral Claim—Adjoins the Nettie L. on the north. A cross-cut is being pushed ahead to tap the ledge at a depth of 300 feet, and is now in 300 feet, but the ore body is not expected to be met with for some distance yet.

Other properties on the same ledge are the I. X. L. Group, on which a cross-cut is in some 60 or 70 feet, and the Bran and Raven mineral claims; a cross-cut of 80 feet on the latter is just nearing the ledge.

The Glosscap Group, in this vicinity, is under the control of a Toronto Syndicate, which has just completed a survey in order to obtain a Crown grant. This property has not been developed to any depth, but an arrangement is now being completed towards this end.

Silver Queen Mineral Claim—This claim, on Great Northern Mountain, has been acquired by Mr. A. St. G. Hamersley, of Vancouver, representing an English Syndicate. An old cross-cut, which had been driven during previous years 190 feet, was continued a total distance of 280 feet, cutting through, 1st, about 2 feet of zinc ore; then about 10 feet of concentrating ore, consisting of galena, in a quartz gangue; then some 12 inches of iron ore, and, finally, 18 inches of solid steel galena. Drifts have been run on the ledge, to the right and left of the crsss-cut, for about 30 and 25 feet, following the vein of steel galena. Work on these drifts is still continuing, and a contract has just been let which will require the greater part of the winter to complete. A rawhide trail is being built from the mine to the trunk road on the North Fork.

St. Elmo and Yankee mineral claims adjoin the Silver Queen. A cross-cut tunnel, 125 feet below the upper workings, is now in some 40 or 50 feet, and a small force of men is at work. A shipment of ore from the upper workings was made to the Hall Mines Smelter, and netted $55.18 per ton in all values.

Of the balance of the many promising claims in this vicinity, none have been doing any active development since my last report. Many promising locations have been made in this neighbourhood during the past season which have good surface showings, and may possibly become of importance.

NORTH FORK OF LARDEAU CREEK.

Glenside and Vera Groups.—The Commonwealth Mining and Development Company, which owns these properties, has not followed up the development as was expected. The only work done on the groups during the past year was in making surveys. Crown grants are being applied for.

Surprise Group.—On the Surprise Group of mineral claims, on the Horne lead, the ledge has been cross-cut at a depth of some 50 feet, cutting a 10-inch vein of solid galena and about 3 feet of concentrating ore. The walls are very regular at this depth, and are of lime and slate. The ledge has been stripped on the surface at several points, and has very heavy iron cropping, which carries small gold values.

Rob Roy and Highland Chief Groups.—The Rob Roy and Highland Chief Groups, also on the Horne ledge, have recently been acquired by the Scottish Canadian Mining and Development Company, of London, Ontario. The claims have been surveyed and Crown grants supplied for. The main ledge is about 12 feet wide, with a heavy iron capping, and lies in contact of lime and slate. Two smaller leads are found running parallel with the main ledge, distance from one another about 50 feet, and carrying small veins of galena. A 200-foot cross-cut which will tap all three ledges, is being extended under contract, and is now in about 70 feet. The Company has also built about two miles of good trail, connecting with the Trunk Government Trail, and commodious quarters for the men have been erected.

The Black Warrior Group.—At the head of Surprise Creek, has a cross-cut in about 180 feet. The lead is not expected to be cut until some 200 feet have been run.

The I. X. L. and Ellsmere Group—On the Blackburn ledge, have a very large surface exposure of concentrating ore, from which some good values in gold have been obtained. No development at depth has yet been undertaken.

Mount Begbie Hotel

A company, known as the Mount Begbie Hotel Company with capital of $15,000 has been formed and the money all subscribed for the purpose of purchasing the site on the corner of First Street and Connaught Ave. immediately opposite H. A. Brown's new block and erecting thereon a building for hotel and stores to cost in the neighborhood of $12,000. The plans and specifications for the hotel, which will be known by the name of the Mount Begbie, are to be prepared in Vancouver and the erection will begin at once and the building be completed in three months. As soon as the plans arrive the HERALD will give a full description of the proposed structure.

Hunter and Trapper.

The Hunter and Trapper claims on Pool creek, owned by the Canada Mutual M. & D. Co. Ltd., Toronto, are now having assessment work completed by contract, with the intention of surveying and crown granting as early as possible. It is stated that the company intends floating a strong subsidary corporation to develop and work these claims for dividends, giving their shareholders the first issue of their shares at a ground floor price.—Topic.

GREAT DEPARTMENTAL STORE

OUR SPECIAL CLEARING SALE ..OF SUMMER GOODS..

Will be Continued on Wednesday

You can rely on what we say. We are bound to make it the most Gala Dollar Saving Occasion you've ever enjoyed. The liberality of the reductions made will be doubly appreciated because of the seasonable and fashionable goods that are offered. You'll find the newest and daintiest Summer Fabrics and Garments awaiting you at prices that will amaze you. The figures speak for themselves. All we can add is our advice to come promptly in order to enjoy very best choice.

Dress Goods at 15c Wednesday

Just enough of these 25c and 30c Dress Goods to make it exceedingly interesting and profitable for the shopper who comes to the store at 8 o'clock on Saturday morning. Anyone can afford to buy at such remarkable low prices.

Men's Summer Coats AT HALF PRICE ..... 75c. Each

Men's Good Wearing Pants—$1.50 per pair.
Men's Fifteen Dollar Suits for Nine Dollars.
Men's Ten Dollar Suits for Four-Fifty.

1,200 Yards Fine Flannelette, superior quality, medium and high colorings, in Stripes and Plain Colors. On Sale in the Shirting Department at 8c

BOURNE BROS.

General Merchants . . Revelstoke, B. C

HON. W. C. WELLS INTERVIEWED

A Favorable Response Accorded to the Big Bend Wagon Road Proposal

Hon. W. C. Wells, M. P. P., the new Commissioner of Lands and Works, came up from the south on Saturday. While here he was busily engaged with government officials and others all the evening, among whom President H. A. Brown and the board of trade had their turn. In the interview which followed and at which Thos. Taylor, M.P.P., H. A. Brown, W. M. Brown, I. T. Brewster, J. M. Scott, C. F. Lindmark, R. Gordon and the members of the local press were present, the case of the proposed wagon road into the Big Bend district was the subject of discussion and the arguments for the road were presented by the various members present from different points of view and a copy of the memorandum, which is to be attached to the petition was handed to the minister. It seemed to be the general feeling that if we could get $25,000 this next session to build the road as far as Carnes Creek, it would be a reasonably satisfactory answer to our request. Mr. Taylor said that he thought the ministers whom he had recently seen in Victoria were favorable to that proposition. After hearing with great courtesy and attention the whole discussion Mr. Wells said that for his part he was in favor of a vigorous policy of development of the resources of the country by road and trail building. His idea was that a sum of two million dollars should be borrowed to form a fund for this purpose, and if his proposal to that effect was accepted by his colleagues and the house he thought that Revelstoke might confidently expect to see the Big Bend road built. As it was now train time after being tendered a hearty vote of thanks for the patient and kindly hearing, which he had accorded the deputation, Mr. Wells left on the Imperial Limited for Victoria.

Saturday's Cricket Match.

The cricket match on Saturday was intended to be a return game, Town v. C.P.R., but a good many of the C. P. R. players were away at the wreck at Horseshoe Pit and some of the Town side's best men had to play for the C. P. R. to make up their 11. One innings was played on each side, the C. P. R. going in first, captained by C. Wilks and putting up 62, to which B. R. Atkins contributed 24 and E. Thacker 16. The town eleven, captained by Dr. Carruthers, scored 40 runs. A curious feature of cricket in Revelstoke is the number of left handed players. At one time on Saturday there were two left handed men in and one left handed player bowling. A match "Left hand vs. Right" has been suggested. The few Saturday afternoons on which the weather this summer has permitted a game have revealed considerable cricketing strength in town. With a little practice in the field, which is the weak point, a rattling good eleven could be got together to represent Revelstoke if a match could be arranged with some other place. The ladies are taking great interest in the game. A number were present on the ground on Saturday and Mrs. Atkins, Mrs. J. M. Scott and Miss Corbett dispensed refreshments, which were immensely appreciated.

Placer Properties in the Big Bend.

There is a prospect of considerable work this year among the placer properties in the Big Bend district. On the Consolation, Perry Leake is working with five men on a fresh plan of operations, which is expected to yield good results. On the Ophir, C. Caesar and a party of men are opening up the old claim out of which some years ago big money was taken by a company, which put in a big hydraulic plant there. It might have been worked to this day with the same results if the company had not fallen out among themselves and the property been put into litigation. W. Kirkup has shipped up a train load of supplies to the French Creek Co.'s property. On Smith Creek, besides the work on the Revelstoke claim, which is giving the excellent returns of $22.50 in gold to the cubic yard and on which work will be vigoronsly pushed this season; the Pittsburg company represented by E. A. Bradley, are preparing for active operations on their claims above the Revelstoke.

Ask for El Presidente Cigar.

The Triune Group.

S. A. Sutherland and D. Ferguson were up to the Triune group on Monday. The lessees, Messrs. Gunn and Lade Bros. are busy taking out and sacking ore. These men are working in the mine and are taking out three tons of clean shipping ore per day. They have about 20 tons ready for pack horses, (the only means of transportation they have) and will commence shipping regularly at once.

They expect returns of at least $200 to the ton net. The tunnel is driven in on the lead and all the ore taken out so far is just what was encountered on the way in, doing away largely with dead work. As soon as a few shipments are made and they are in far enough, drifting will be commenced. Never in the history of British Columbia was there such a showing in so short a time.—Lardeau Eagle.

THE CITY COUNCIL

Revised Offer from the R.W.P.&L.CO. —Rate of Taxation for 1900

Met as usual on Friday evening. Present, Ald. Gordon, in the chair, Newman, Kilpatrick, Abrahamson.

COMMUNICATIONS

Were read from P. R. Peterson enclosing a view of the Douglas street sidewalk, which he requested the Council to accept as a souvenir of the good work done in the years 1899 and 1900, which was accepted with thanks; from Chief Bain, reporting a false alarm from Box 4 on which the bylaw committee were instructed to frame a bylaw to meet cases of false alarms rung through carelessness or negligence.

PETITIONS

From property owners on Mackenzie avenue, enclosing a sketch according to which they requested that the work proposed to be done this year by the council be carried out. Referred to P. W. committee.

REPORTS.

The special committee on the Water and Electric Light Plant deal reported, the receipt of the following revised offer from the company with the understanding that at a later date the actual figures shall be arrived at from an examination of the company's books: the company will accept the amount of the capital stock actually paid in—$34,750, plus the amount of the bank loan of $29,000, plus the amount of the earnings of the company expended on capital account, plus 15 per cent. per annum on the capital actually paid in, calculated from the several dates when the same was paid in, and deducting from such total the profits earned by the company from the date the business was commenced—all calculations to be made to Sept. 1, 1900, that being the earliest possible date at which the purchase can be completed.

The report was adopted and B. A. Lawson was selected to assist the committee, in the task of arriving at the actual figures from the company's books.

THE RATE FOR THIS YEAR

The Finance committee reported as follows: "The Finance committee beg leave to report that they have considered the estimates for the year 1900 and find that the amount required to be raised by general rate to meet estimated expenditure for the current year will be the sum of $3029.37, and that the amount required to be raised by special rate to meet interest on debentures issued, and sinking fund, will be the sum of $1,4969.49. Your committee therefore recommend that a bylaw be introduced for levying a general rate of 12½ mills in the dollar on assessed value of real estate and not more than 50 per cent. of the assessed value of improvements, provided said rate is paid by the assessed on or before the 1st day of November, 1900, and a general rate as aforesaid of 15 mills on the dollar if paid after Nov. 1st, 1900. And for levying a special rate of 3 4 7 mills in the dollar on assessed value of real estate and on not more than 50 per cent. of the assessed value of improvements. Appended to this report will be found a detailed statement of the estimates for the year:

RECEIPTS

Cemetery	$ 46 00
Debentures, Series B	2000 00
Fire Department	303 57
Trade Licenses	1455 00
Liquor Licenses	1940 00
Dog Tax	200 00
Road Tax, 1900	206 00
Government 1899 taxes	1700 00
Paid acct. debenture series C	200 00
Police Fines	1078 30
Total	$9128 87

EXPENDITURE

Prisoners' keep	$ 491 45
Interest	153 00
Election expenses	47 40
Fire Brigades	3750 00
Health department	217 00
Light rental	1259 75

Miscellaneous	101 50
Office rent	20 00
Office furnishings	90 00
Fuel	50 00
Total	14158 24

After carrying to the third reading a bylaw framed according to the recommendation of the committee, the council adjourned.

Double Eagle Mining & Development Co

At the meeting of the above company held in their office on Front street, on Thursday last, the old board of directors were re-elected and the following officers appointed:

J. J. Young, president; W. F. Cochrane, vice-president; W. B. Pool, managing director, A. H. Holdich, secretary.

The company has acquired two additional claims, making five in all. The financial report presented was very satisfactory. The trail to the Trilby group is to be built immediately. On the May Bee, the banner claim of the company, which is very valuable owing to its proximity to its sister claim, the Nettie L. $5,000 worth of development is to be done, besides miners' cabins, blacksmiths shop, etc., built.

There is a good opportunity still left to get in on the ground floor in this company. The shares are still held at 10 cents before the figure is raised. Only a limited number of shares are now available and the sale will probably be closed altogether shortly.

Revelstoke Herald

Published in the interests of Revelstoke, Lardeau, Big Bend, Trout Lake, Illecillewaet, Albert Canyon, Jordan Pass and Eagle Pass Districts.

A. JOHNSON.....PROPRIETOR

A Semi-Weekly Journal, published in the interests of Revelstoke and the surrounding districts, Tuesdays and Fridays, making closest connections with all trains.

3. Correspondence with reference to anything that has appeared in another paper must first be offered for publication to that paper before it can appear in THE HERALD.

WHAT FIRE INSURANCE REALLY MEANS.

One of the things which the average property owner, especially in the small towns and rural districts, is very slow to comprehend is, that a policy of fire insurance is not a promise that in the event of a loss by fire the company will pay the full amount named therein. In many minds the idea seems fixed that the possession of a policy of a thousand dollars, for example, entitles the holder to that amount from the company in case of fire, even if the destruction wrought is not equal in value to that amount. Experienced adjusters fully appreciate the difficulty of making clear to a large class of the insured that the fundamental idea of insurance is to replace or enable the owner to replace that which has been lost—simply to furnish indemnity. The company names in its policy the maximum amount which it undertakes to guarantee in case the loss should reach that amount, the actual payment below that maximum being always equal to the actual loss sustained. Thus,the actual loss, whatever it may be, within the policy limit, is the maximum of liability of the company. This practice proceeds upon the principle that, for a stipulated consideration, the insurance company, in case of loss, puts itself exactly in the place of the insured. To pay less than the actual loss would be robbery of the insured; to pay more would be robbery of the insuring companies.

ANOTHER BROKEN PLEDGE.

Speaking at Winnipeg before the general elections, Sir Wilfrid Laurier said:

"I pledge my honor that as soon as the Liberals come into power in Ottawa they will take a plebiscite of the Dominion, by which the party will stand, and the will of the people will be carried out, even were it to cost power forever to the Liberal party."

Now a plebiscite has been taken and a majority of the voters have decided in favor of prohibition. The vote was not confined to any province or territory; it covered the whole country. The hopes of the prohibitionists rose. Sir Wilfrid was a man of his word, and would obey the majority of the voting electors. A prohibitory measure was assured.

Now, however, Sir Wilfrid says that he never made a pledge to introduce a prohibitory law as the result of a majority vote. He feels that it would not do to "coerce" Quebec, whose people are strongly opposed to prohibition. Quebec may "coerce" the rest of the Dominion, but her views must be respected. Consequently Mr. Parmalee' amendment was supported by the government, every member of the cabinet present voting for it. This is what the amendment says:

"At the plebiscite of 1898, only about 23 per cent of the registered electors of the Dominion voted for prohibition; in the provinces and territories, excepting Quebec, only 27 per cent of the registered electors voted for prohibition. These results show that there is not an active prohibition sentiment sufficiently pronounced to justify the expectation that a prohibition law would be successfully enforced, and therefore, in the opinion of this house such a prohibitory law should not be enacted at present."

Meantime the prohibitionists who voted for Sir Wilfrid in 1896 on the strength of his promises have been beautifully fooled. They know now what Sir Wilfrid's ante-election pledge of his honor amounts to.

As for the Conservative party, they have invariably refused to make any promise looking towards the introduction of a prohibitory law. Which is the most honorable part?

THE WHITEWASHING OF BORDEN

Dr. Borden, minister of militia, now known to fame as the "emergency ration" man, has been whitewashed in parliament by a majority of 13, which to superstitious people is in itself a significant fact. Ten Liberal members voted against him, and characterized the deal as a "swindle," but the abject followers of the government were ready as usual to assist in covering up what they must have known was a fraud perpetrated on the country so that a Grit contractor might pocket the people's money.

The people of Canada cannot be deceived at this stage of the game by any dose of parliamentary whitewash, however thick. They have read the evidence and they know that the report of the majority of the committee was absolutely contradicted by the facts brought out in evidence. They know that had our boys in South Africa to rely on the emergency ration, they would have died just as surely as if it were deadly poison. They know that the money which it cost was a gift to Dr. Devlin and some other interested parties. And they also know what to do about it when the time comes for them to express their opinions.

The Century Dictionary gives the work "khaki" as an adjective and noun meaning dust-colored, or clay-colored, adopted from the Hindoo. The pronunciation is ka-ki the "a" being pronounced as a in far, father, and "i" as in pin. The word is of Persian origin, khak ("a" as in fate) meaning dust, earth, ashes. It should no more be pronounced "karkee" than law should be pronounced "lawr."

DIABOLICAL PLOT

To Assassinate the President of the United States.

New York, July 11.—A plot to assassinate President McKinley has been frustrated. It was concocted by a group of Spanish and Cuban conspirators, whose headquarters are in New York. One of the plotters wilted and sent a warning letter to a member of the the Republican National committee. That letter was placed in the hands of Secretary Charles Dick, who referred it to B. B. Odell, the chairman of the New York State committee for investigation. Mr. Odell engaged a detective who speedily verified certain important allegations made in the warning letter. Thereupon Mr. Odell reported to Mr. Dick, who laid all the facts before Senator Mark Hanna. Odell's report caused great alarm among the president's friends and advisors. Odell made it plain that he regarded the plot as a matter of the utmost seriousness and urged that extreme precautions be taken to keep the president out of harms reach. Odell admitted that he and certain members of the National committee discovered the plot to assassinate the president.

MANITOU TORNADO

Causes Serious Injury to Life and Property.

Manitou, July 11.—Last evening a tornado passed at the outskirts of the the town in a south westerly direction. Harmers' farm building, a mile and a half from town, was in the path of the storm and suffered severely, the barn being completely demolished. The house was also damaged. A small house and stable, on the next farm, unoccupied, were also destroyed. Two miles further on John Tait's house was picked up and entirely destroyed, with all its contents. The occupants at the time were Mrs. Tait, two children and a man named Martin Fiddelicks, from Morden. Fiddelick's leg was broken, a little boy had one arm broken, while the others escaped with a severe shaking up. Very little hail accompanied the storm, and no damage is reported from it.

MANITOBA CROPS

Have Been Much Benefitted by the Recent Rains.

Winnipeg, July 11.—General Superintendent Oberne of the Canadian Pacific railway has just received what he states is the most important crop report yet received from agents along the C. P. R. lines in the province of Manitoba and the North West Territories. The reports show the most promising outlook yet given this year, and predict a good crop of wheat, while good yields of oats, barley and hay are also looked for. At Territorial points the report show the wheat to be above the average. Around the north central sections, west of Minnedosa, which are included in the bulletin, and at some districts along the Brandon and South Western sections, 19 bushels to the acre will be reaped. At points in the Mennonite district and on the Souris sections, where previous reports showed wheat to be only good for about five bushels to the acre, in nearly every case six bushels is now looked for, and in many cases seven and eight bushels are predicted, showing the good results of the recent rains. The most pleasing feature to be noticed is that the farmers this year will have no trouble over feed. The grass is now in splendid condition at all points and greatly improved by the rains.

McKENZIE AND MANN

Have No Intention of Building Beyond Edmonton.

Ottawa, July 11.—A report has been set out that the recent visit of Wm. Mackenzie, the well known railway magnate to England, was in connection with a project to extend the Mackenzie and Mann railway, known in the North West as the Canada Northern to the Pacific coast. While in the very distant future there may be a second transcontinental line within Canadian territory it may be stated that Mackenzie and Mann have not the remotest intention at present to extend their railway beyond Edmonton.

TROUBLE AT VANCOUVER

Japanese Compelled to Leave or Be Shot.

Vancouver, July 11.—The trouble between the Japanese and the whites is very serious. The whites are compelling the Japanese to leave under penalty of being shot.

SPARKLETS

Winnipeg, July 12:

Chicago wheat advanced two cents.

Two Ontario boys were killed by lightning.

The Washington express was wrecked near Folsom, Pa.

Treaty payments are in progress on St. Peter's reserve.

The colonial cruiser Fiona is ashore on the Newfoundland coast.

The British battleship Conqueror went ashore on the Shambles bank.

The Earl of Minto, governor general, will reach Winnipeg on Saturday next.

A gold brick worth $135,000 was brought down from the Cariboo mines.

A Illinois Central fast train was held up and robbed of all valuables near Wickliffe, Ky.

Two thousand employees of the Chicago Traction company have had their salaries raised.

Seven vessels will be required to take the British Columbia salmon pack to the European markets.

Large numbers of Christian Endeavor delegates are arriving in London to attend the world's convention on July 14th to 18th.

William Waldorf Astor's society career in England has been cut short by the Prince of Wales.

The Baptist convention devoted the day to education, prominent heads of colleges delivering addresses.

Fully 180 bodies have been recovered from burned steamers or from the river near the terrible New York dock fire.

The government sale of mining claims at Dawson City realized $26,000, Bunker and Bonanza properties were withdrawn.

Consular Agent Frisbee, of Rat Portage, reported the recent Indian trouble to the wrong quarters and was requested to make an explanation.

Martial law has been proclaimed at Cape Nome, the municipal authorities not being able to maintain order. Typhoid and small pox are prevalent in the camps.

The Hon. John Dryden, of the Ontario cabinet, is a visitor to Winnipeg, and in an interview spoke of the means necessary to promote the Canadian fruit industry.

A monster celebration of the Orange order will be held today in Winnipeg. The corner stone of the new hall will be laid, the ceremonies being participated in by 6,000 brethren.

With the W. C. P. A.

Six Thousand Miles Over Land and Water

No. 5 By One of the Pilgrims

While the game of bowls was proceeding, and while Daddy was explaining to the novices how much the result depended upon bias (N.B.: the word "bias" is here used in a strictly technical sense, and in no way refers to any personal feeling on the part of the umpire) a messenger arrived in haste with the information that it was time for us to go, as the fleet of the Royal Canadian Yacht club was rapidly approaching the shore to bear us away. Here was an opportunity for our funny man, or at least for one of them, for we had several always with us, and he at once rose to the occasion. "Ah," said he, "there is time to finish the game of bowls and we will lick the Spaniards afterwards." Great Drake! Invincible Armada! How we laughed. The joke seemed so spontaneous, and we cast side glances at the spectators to see if they were admiring our wag from the West. At length the game ended and we strolled down to the wharf. But the boat had gone and then we laughed again—a hollow laugh—and made pretence to enjoy the joke still, and each man muttered under his breath "Some people think they're funny, and some people are funny, but Soandso's an absolute ass." How fickle is human nature! Only a few moments ago and the "absolute ass" was a born wit.

There as nothing for it but to wait till the boat returned. One member of the party who had hitherto been silent said that when he was "out of luck" he always consoled himself with the thought that matters might be worse, and that there were many who had harder things to bear. He said that adversity brought out latent affection, and for that reason it was a necessity. In order to cheer us up he told us of a case which came under his especial notice when he was living in London, the city which contains the greatest splendor and the greatest squalor in the world. It was that of a young woman who lived with her husband in Lambeth, somewhere in the "Noo Cut." She was fond of her husband, but she was not a strong woman, and the children, of which there were several, tried her out. Perhaps she was cross when he came home from work, and perhaps she was impatient. Certainly thing was the cause of his taking to bad habits. Home had no attractions for him, other places had. Sometimes he came home, sometimes he didn't. Once he didn't return for several days; she searched the hospitals—he was not there. She enquired at the police station, "no man of that name.' Weeks passed and still he stayed away. It was not easy for her to earn enough to feed four children. She had plaited straw before she was married and had been able to make a shilling a day. A hat manufacturer gave her work now but her fingers were slower than they used to be and she had to work from 6 in the morning to 10 at night to earn a shilling. However her eldest girl, who stayed at home to take care of the three little ones, was aged six, and she was earning two pense a day for looking after a neighbors child. Seven shillings a week was not much to keep five bodies and souls togethert; but then it was only for a little while; her husband would surely be back soon. One day during dinner hour, having nothing to eat she walked through the busy streets and gazed in at the milliner's windows to make her forget that she was hungry, and something seemed to direct her steps to the Old Bailie. She went in. Sessions were on and the court was crowded. As she entered she saw the usher holding open a door on the opposite side of the court, and a man passed through. It was her husband! A piercing scream was heard and a fainting woman was carried out, and the next case began. She as in an outer office when she came to, attended by one of the factory girls who had been in court and heard her scream, and from her she learned that a prisoner who had refused to give his name had been sentenced to eight years penal servitude for burglary. Before she had time to think she saw through the office window, the prison van leaving the court house. She almost flew after it, but a half starved woman is no match for a well-fed pair of government horse, and before the Black Maria had gone 50 yards, she could run no further. With an almost superhuman effort she shouted: "Jim, good bye; its me—Polly. Forgive me Jim? Goodbye and God 'elp yer." Then she buried hed face in her hands and seemed to sob her heart out.

"Yes," said another member of the party at this juncture, "that's a pretty sad story. Eight years for burglary is undoubtedly hard on a man. But I knew a case of a dog which was much worse." This interruption was more than any of us could stand. The silent man, who had not yet reached his point, gave the intruder one look and walked away. As for ourself we told him very politely that a well known business man in our own town began a dog story some three and a half years ago, and though he had resumed it on every possible occasion, and at other times, he had not finished it yet, and that much as we wished to encourage him, the interrupter, in the art of story telling, we feared that there was not time for his story, and we did not care to have dog stories overlapped. While the dog man was preparing a crushing answer the boat arrived, and, not wishing to be left behind a second time, we all hurried on board and returned to Toronto. We were charmed with the Queen city in every way, and we observed that it contains a great number of Jews who in many cases sell second hand furniture and charms for the watch chain. A visit to the Massey Harris works filled up the next morning and after lunch we embarked on board the three-storey boat Toronto, for Montreal. The passenger list comprised the W.C.P.A., a large number of brides, a considerable quantum of Masons who were on Masonic business bent, and a few ordinary passengers. We were informed that Mr. Bert Woods, formerly of the Mail and Empire was on board on his bridal tour. The Press organized a concert for the evening and te Masons supplied most of the music. The weather was perfect and those who didn't like the brilliantly lighted drawing room of the boat, sorted themselves out in pairs, and enjoyed the summer air on deck in the darkest corners. We "took in" both. Everybody went to bed betimes so as to be up early on the following morning to see the Thousand islands. This was, from a scenic point of view, perhaps the most beautiful part of our whole trip. We say "perhaps", because there was a neavy fog and the Thousand islands were invisible, but we purchased a 25c book of views which we ought to have seen. Another part of our journey hich was very intersting was the shooting of the Lachine rapids. For a description of this also we must refer you to the guide book. The Toronto is too large a bat to go over the rapids, and the bat which should have carried us past this exciting place, had broken her rudder, so from Prescott to Montreal we travelled by train, and the rapids were missed. However we dined at Prescott at the expense of the Navigation company, and our anger at their failing, through no fault of their own, to carry us by water to Montreal, was thus apeased. Prescott is a nice little town and contains nine-tenths of all the Mayflies of the Universe. We should like to live at Prescott if we were a trout or possibly a swallow.

We reached Montreal at 6:30; most of us went round the city on electric cars, the rest of us went to the theater and saw the charming Miss Lotta Linthicum. Our official visit to Montreal was to come later, so at 11:15 we left on the Intercolonial railway for Quebec, the furthest point on our programme which we reached at 8 o'clock next morning.

The first thing to be done as to register our names at the Hotel Frontenac and have breakfast, and then the usual special cars were in waiting and we made a tour of the city. Leaving the cars we crossed on foot Abraham's Heights and saw the miserable looking monument erected in memory of General Wolfe. It is an insignificant thing in itself but it serves to remind the tourist of the glorious 13th of September, 1759 when two great generals were killed, both brave men and officers of great reputation, General Wolfe and the Marquis de Montcalm. As we stood on the heights and pictured to ourselves that terrible fight it was with a feeling of satisfaction that we called to mind the fact that the descendants of those who fought against each other on that day were now comrades in arms in South Africa. We shall never forget Abraham'h Heights but we wish that the people of Quebec would have them brought down lower. The glorious 13th fades from your mind long before you reach the bottom of the endless wooden stairs which bring you back to the hotel. The next time we visit the battlefield we shall don one of Captain Boynton's hot water bottle suits and roll down. Our legs ache still. In the afternoon a government launch, The Driad, took us to points of interest on the St. Lawrence, including the Montmorency falls. There was a piano on board, also refreshments; we hope we enjoyed ourselves, we tried to do so. The singer on the steamer was decidedly congregational everybody sang, but in the evening there was another kind of concert, a military band played all kinds of music from grand opera overtures to cakewalks, and the whole of Quebec turned out in its best clothes and promenaded up and down in front of the hotel. As for us we sorted ourselves into parties of twos and threes—more tos than threes—and promenaded too. Then we would sit down for a little while and watch the reflection of the moon on the St. Lawrence, and we would think of our past lives and say—well—never mind what we would say—we had a most enjoyable time.

"Homeward bound" was the thought that woke us next morning and it was a sad awakening. It seemed hard to think that in a few days more we should be home; we should no longer be an influential Press excursion; carriage drives, if any,would be at our own expense; tradespeople would expect us to pay overdue accounts, and might even go so far as to ask us to do so. "Home" in the abstract is a beautiful thought, but "home" looked at from a financial point of view is the poor man's nightmare. "Be it ever so humble there's no place like home." Thank goodness. However, breakfast at the Frontenac put us into a more cheerful state of mind, and we were tolerably resigned to our position when we got on the train and secured the armchair in the smoking compartment. We soon reached Montreal, and there we completed the day by a visit to Sohmer park. This park is a beer garden with an open air theatre. 'Twas a beautiful night, and the pale moon as it shone through the sycamores seemed whiter and more placid than usual, and lazier as if it was relieved of some work by the thousands of red, white and blue incandescent lamps which glistened among the foliage. Monsieur Lavigne's orchestra composed of 100 or more performers, gathered from all parts of Europe, heard under these circumstances, and a tall glass of golden fluid, sparkling and very cold, drove away dull care in an incredibly short time, and the thought that awakened us in the morning was changed to "home" in the abstract. The music was glorious, and the liquid gold looked rather like beer, or ginger ale, but it was useless to make inquiries as the waiter was a Frenchman and couldn't speak a word of English. On the following day, after being received by the mayor in the mayor in the city hall, an enormous procesion of private carriages took us up the Mount, where we had a view of the city, and a champagne lunch with the mayor and aldermen. After which we were handed over to the harbor commissioners who steamed us up and down the St. Lawrence, and on the Allan liner Parisian. At night Mr. Grove, lessee of Her Majesty's theatre invited us to the play and gave us each a souvenir programme printed especially for us, and as it was still only the same day when we left the theatre, the reception committee of the Montreal Press association entertained us at the hotel until ebd time.

This city is remarkable for champagne and hunchbank.s

An immense amount of self control had to be used the next morning to enable us to catch the train at 8:30, and even then one member was left behind. However by taking a fast train the lost one was in time to us on our arrival at Ottawa. Here the Western members of parliament took us in hand, and as they had no theatre to take us to they very kindly arranged for a farce in the house of commons. It was all done so naturalily too. One member insulted the speaker and then—pandemonium.

This performance was too good to receive only a passing notice, and a full account will appear later, written by an eyewitness. Personally we only saw it by heresay for we were very tired and went to bed before the play began.

This as practically the end of our excursion. On the following morning our cars were attached to the Imperial limited and then Westward Ho for Calgary. Never in our exeprience have we had so much kindness shown to us in aperiod of about 20 days as we had during this trip. Nothing seemed too good for us in the eyes of those who took charge of us at each city we visited. Americans and Canadians alike did everything in their power to amuse and entertain us, and it was a matter of much gratification to us that wherever we travelled in Uncle Sam's land we saw evidence of a desire to entwine the Stars and Stripes with the Union Jack, and never a suggestion of twisting the lion's tail. And now dear reader, if there is still one left reading us, you and I are thankful that we have completed our 6000 miles by land and water with the W.C.P.A.

The Revelstoke Herald

(SEMI-WEEKLY)

Is the leading newspaper of the great mining districts of West Kootenay. It gives all the latest mining, telegraphic and local news, written up in authentic, reliable and readable articles from unquestionable information. It enjoys a large circulation and is consequently unequalled as an advertising medium in the field in which it is published.

Subscription $2.00 Per Annum
$1.25 For Six Months,
Strictly in Advance.

It takes a foremost place in the race for prominence and popularity with business houses and as a consequence does more business with those requring printed stationery and office supplies than any other printing establishment in Eastern British Columbia. The class of work turned out has been pronounced equal to any thing of the kind executed in the large cities by much larger printeries.

Job Printing Department

Is equipped with the latest faces in type designs and all work entrusted to The Herald is handled by exprienced workmen who thoroughly understand the proper use of the material at their disposal. The Herald does not claim to be the only printing house in the district but it does claim to be

Thoroughly Up-To-Date In Every Particular

And in a position to give as good value for the money expended, either for advertising space in its publication or for job printing, as can be given by any other house of the kind in British Columbia. Write for estimates and samples of printing. All work turned out promptly and satisfactorily. One price to all. No job can be too large or too small for The Herald's consideration. Special attention given to orders by mail.

100,000 British Troops for China

The Allied Troops Badly Defeated

All Orange Free State Cabinet Except Steyn Have Surrendered

WOUNDED CANADIANS TO ARRIVE ON SATURDAY.

Shanghai, July 10.—News from official sources was received last night to the effect that the empress had on the 30th of June resumed the reins of government and had appointed Yung Lu prime minister. It is said that she sent a despatch to Nankin by courier at the rate of 100 miles per day, thanking the viceroys of the Yangtsekiang provinces for their loyalty and recommending that they protect foreigners at any cost.

London, July 10.—Chinese official sources furnish another surprise this morning in announcing that the dowager empress who had been reported within two weeks to be dead, to have fled, to have been poisoned, to have become hopelessly mad, has resumed the reins of power. The date given is June 30th, the name on which the date on which the wholesale massacre of foreigners is said to have occurred. The telegram of Sheng, the administrator of telegraphs and railroads to the Chinese minister at Washington, Wu Ting Fang, saying that the imperial government was protecting the legations, appears to fit in with the detspatch from Shanghai of this morning, particularly with reference to the alleged directions given by the dowager empress relative to the protection of foreigners. At the same time people continue to ask if the legations are protected why the ministers are not permitted to communicate with the outer world. Sheng's expressed fears that the food and ammunition of the legations have been exhausted are counteracted by the news that Prince Ching, the commander of the Manchu field force, is revictualling them. Besides this it is now known that in the last resort there are available for food several hundred ponies usually kept within the walls of the British legation. In the meantime according to the legation of Japan here the Japanese by no means share the general opinion that the advance on Pekin must be indefinitely delayed. The officials assert that the Japanese have no intention of halting at Taku or Tien Tsin, but propose to advance on Pekin during the present week. Their military authorities express the opinion that the 20,000 of their troops, in addition to the international forces already available will suffice to force an entrance into the Chinese capital. Emperor William despatched the German warship Buzzard from Kiel for China this morning while the German cruisers Geier and Seedwle have been ordered to proceed to China as rapidly as possible.

Tien Tsin, July 11.—It is reported from Chinese sources that the foreigners at Pekin have taken possession of one of the prince's palaces opposite and commanding the British legation and that the native Christians have been installed there.

Washington, July 11.—The secretary of state has received a despatch from Mr. Goodnow, United States consul general at Shanghai stating that it is given out by the governor of Shanghai that the legations were standing on July 5, and that the outlaws were dispersing. Mr. Goodnow adds that this statement obtains general credence.

London, July 10.—(3:25 a.m.)—With the foreigners in Pekin probably safe amidst the civil war; with Prince Ching on their side; with the powers united and their forces continually increasing, the outlook in China is rather more hopeful than it has been for a month past. It appears from cautious statements given out by Taiti Sheng, in Shanghai, that the reason the heavy guns on the legations at Pekin were not used is that Prince Ching, who is served by 10,000 troops, seized all the artillery ammunition. Sheng likewise intimates that Yung Lu, commander in chief of the northern army, is associated with Prince Ching in opposing Prince Tuan's serious designs and dictatorial ambitions. Sheng, who appears to be the sole Shanghai conduit of Pekin news, cheers the foreign consuls by these confidential communications, but takes excessive precaution to prevent the Chinese from thinking him friendly to the foreigners.

London, July 11—(4:15 a.m.)—No authentic news from Pekin, is still the burden of the despatches from the far east and although the disposition is to believe the optimistic reports from Chinese sources, no real confidence is possible until the legations, if they are still in existence are permitted to communicat e with their governments.

If, as alleged,, the Boxer movement is losing ground in Pekin, it might have been supposed that the Boxers would have endeavored to send up reinforcements from Tien Tsin, but instead of that, they are still in great force in the neighborhood of the latter place and are assisted by the imperial Chinese troops with ample and efficient artillery.

According to a special Chee Foo despatch the fighting around Tien Tsin on the 3rd and 4th instants was the severest yet experiecned. The British losses alone were 30 killed or wounded. The Chinese had 75,000 men attacking simultaneously from the west, north and east, and made excellent practice with over 100 guns. The defenders numbered 14,000 with scant supplies and it was only the presence of the newly arrived Japanese and Russian guns that prevented disaster. One Russian company of infantry numbering 120 had 115 killed and wounded. The German contingent suffered heavily. By the evening of the 4th the situation was very critical. The allies narrowly escaped total defeat. Providentially, when things were at their worst a torrential rainfall compelled the Chinese to retire. On July 6th the rain having abated, the Chinese renewed the attack, opening fire on Tien Tsin with two batteries of four-inch guns, but the allies, aided by two of H.M.S. Terrible's 4.7-inch guns, succeeded in silencing the Chinese artillery after eight hours of fighting.

London, July 11.—Furious fighting has taken place at Tien Tsin. After four days battling, hordes of Chinese were driven off by a brilliant bayonet charge by 10,000 picked men. Japan will land 23,000 men in China within the next few days. Kwong Cu, the Chinese emperor has implored the aid of the powers in suppressing the rebellion and upholding him on the throne. The United States announces that it will not consent to any partition of China.

According to a Chee Foo despatch the fighting around Tien Tsin on July 3rd and 4th was the severest yet experienced. The British losses alone are 30 killed or wounded.

Shanghai, July 10.—About 75,000 imperial troops and Boxers made a determined attack upon Tien Tsin on July 3rd and 4th. The fighting resulted in the most severe damage yet done the beleaguered city. The Chinese fired upon the city with 100 guns from the west, north and east and repulsed. But for the newly arrived Japanese contingent and additional Russian guns recently arrived from home they would surely have gotten inside the lines. The defenders numbered 14,000 and the causalties were heavy. One Russian company alone suffered a loss of 120. About 150 shells fell into the European city, damaging many houses. Women and children were sheltered in the cellars of the public buildings and hotels. A 12-pound gun from H.M.S. Terrible was put into action but the Chinese compelled a withdrawal by exploding two shells under it. A French gun took its place and was likewise silenced. A shell burst among the crew manning this gun. The Japanese three companies who were engaged in the fight with a body of Russians and a mounted battery, lost two men killed and 20 wounded on July 3rd. Several thousand men under the command of Generals Mah and Jung who recently joined the besiegers at Tien Tsin, took part in the attack. ViceAdmiral Alexieff has arrived at Tien Tsin to take command of the allies. A steamer with 200 refugees from Tien Tsin arrived this morning and several steamers started for Taku to take the European women and children who have arrived there from Tien Tsin. The attack on Tien Tsin was resumed on the 6th and repulsed after eight hours fighting.

London, July 12.—The Chinese situation again bears a most ominous aspect. Eighteen days ago Sir Robert Hart despatched a message, describing the situation as desperate. Since then no word has come from the Europeans in Pekin beyond untrustworthy and tangled Chinese reports. According to the Daily Mail's Shanghai correspondent Li Hung Chang has received an imperial decree ordering his immediate departure to Pekin, presumably to break the news of the Pekin tragedy to the powers. To add grimness to this suggestion, all advices from Tien Tsin confirm the reports of the perilous condition of the allied forces, which belie the optimistic Chinese rumors. Unless reinforcements reach Tien Tsin speedily another disaster may be expected. Tien Tsin correspondents say no advance will be made until September.

Russian papers report that the Boxers are ravaging Manchuria and have damaged prts of the railway and threatening Telin and Kirin. Port rthur and New Chawg are said to be endangered. Russia has informed the powers of her intention to despatch a large military force to Manchuria.

All sorts of stories come from Shanghai which are impossible to verify. It is said that the Boxers have murdered the chancellor of the Pekin university and 60 members of his family and retainers. A confidential officer of Ung Lu, disguised as a Boxer, is reported to have crept into Tuan's tent while the prince was sleeping, intending to stab him, but was caught by the sentries and murdered on the spot. The head was sent with Tuan's compliments to Yung Lu, warning him to beware.

The French consulate at Shanghai has reported that the Chinese prefect in Moulk has been murdered and the Catholic bishop, Monseigneur Galiler.

The Daily Express this morning published a despatch from Tien Tsin dated Friday last by way of Chee Foo, saying: "General Mas has defeated the allied troops and reoccupied the Chinese eastern arsenal, inflicting great loss upon the defenders. The engagement lasted six hours and was fought with determination on both sides."

Chee Foo, July 8.—(Via Shanghai, July 12.)—A courier from Sir Robert Hart has just arrived bringing a message dated June 25th:

"Close to good bye; near the end."

London, July 11.—It is strongly rumored in the service and parliamentary clubs this afternoon that the British government is preparing to send 100,000 Indian troops to China in the autumn.

The following is an extract from the edict of Prince Tuan: "The anger of our people knows no bounds. They cannot be restrained. The work of guarding the legations which before was difficult is made impossible. It is impossible for us to continue this protection of the legations. Let it be represented to the powers that we must be held blameless for the anger of our people which grows with the rising of each sun that sees more and yet more foreigners and soldiers coming over to run over and lay waste our country and slay our people.'

Tien Tsin via Shanghai, July 11.—Martial law now prevails. The allies propose to ravage the city in revenge for attacks by the Chinese. Seven thousand of the enemy fell prior to the battle on July 3rd, 4th and 6th, and 3000 were killed in those attacks. The fact that the thousands of dead bodies are unburied adds the breath of pestilence to the other horrors of the siege. Another menace lies in the fact that the food supply of the besieged is short. Of the civilians here, the following have been killed: One Englishman, one Jap and one Frenchman. The escape of the women and children from death has been wonderful. Every house in the European city was held during the bombardment. There is little hope of saving Pekin, as the relief of the ministers and other European besieged will take a long time. Captain McCalla says that 50,000 men are needed to suppress the uprising.

SOUTH AFRICAN WAR

Senekal, Orange River Colony, July 10.—An extended reconnaisance today resulted in the discovery that the Boers had evacuated all their positions around Senekal. A number of them appear to have gone towards Ficksburg and the remainder in the direction of Bethlehem. The British commander expresses the opinion that the retirement of the Boers foreshadows the war in this section as near an end.

London, July 11.—Lord Roberts yesterday telegraphed to the war office from Pretoria as follows: "The commanding officer at Heilbron reports that State Secretary Blignait, State Attorney Dickson, and members of the council, Van Lander and Kupper Vergen, came in yesterday and surrendered. General Hutton was attacked yesterday in a position he was holding by a large number of Boers. He cut them off without much difficulty, the five inch guns with him being found more successful. Our only casualty was Lieutenant Young, of the First Canadian Mounted troops, slightly wounded. The enemy left several wounded on the ground and sent a request that they might be received in our field hospitals. I regret to say that Captain Currie and Lieutenant Kirk, of the Imperial Light Horse, who were reported wounded in my telegram of yesterday, were both killed. One squadron of this corps pressed a very strong force of the enemy in a gallant attempt to carry off a wounded comrade. In addition to the officers a farrier sergeant and three troopers were killed, and the sergeant major and three troopers wounded."

London, July 11.—Lord Roberts has sent the following despatch to the war office: "Pretoria, July 10.—Generals Clements and Paget's forces entered Bethlehem July 7th. The former on nearing the town, sent a flag of truce, demanding its surrender, which was refused by General De Wet. Then Paget, making a wide turning movement, succeeded in getting hold of the enemy's most important position, covering the town. Then this was carried before dark by the Munster Fusiliers and Yorkshire Light Infantry. The following morning the attack was continued and by noon the town was in our possession and the enemy in full retreat. Our casualties are four officers and 32 men of the ranks wounded, and one missing. Captains Macpherson and Weekes, and Lieutenant Conway, severely, and Lieutenant Boyd Rochefort, of the Scottish Rifles, slightly wounded. Seven men of the Yorkshires were wounded. One killed and two wounded of the Imperial Yeomanry. Paget reports that but for the accurate practice of the Thirty-Eighth Royal Artillery and the Fourth City Imperial batteries the casualties would have been many more. General Baden Powell reached Rustenburg during the evening of July 8 without opposition. He found all quiet there and public confidence entirely satisfactory, thanks to the prompt and bold grasp of the situation taken by Major Hanbury-Tracy. The district to the west of this is somewhat unsettled, owing to the small force that attacked Rustenburg being still in that neighborhood. Measures are being taken to meet this. Further information regarding the capture of Bethlehem is now received from General Clements. He states the country there is broken and difficult, consequently his and Paget's cavalry were unable to make any wide turning movement. Clements attacked the position, while Paget attacked another. The position assailed by Clements was gallantly captured by the Royal Irish, who captured the guns of the Seventy-Seventh battery of the Royal Artillery lost at Stormberg. A full list of the casualties has not yet been received. Clements states that they are few considering the strength of the positions assaulted."

STRATHCONA CASUALTIES

Ottawa, July 11—The following cable was received today by Lord Minto from the general commanding the British troops at Standerton Headquarters:

"Standerton, July 10.—The following casualties are reported near Standerton on July 5th, in the Strathcona Horse. Wounded—Trooper John G. McDougall, Alex. McArthur, George A. Sparkes, Missing—Acting Sergeant Alfred Stringer, and Trooper Colin J. Isbester."

WOUNDED CANADIANS

Will Arrive by the Parisian on Saturday

Ottawa, July 12.—Colonel Vidal left yesterday for Quebec to make preparations for the invalided soldiers who are to arrive on the Steamship Parisian on Saturday or Sunday. Comforts will be provided for the men regardless of cost. The weaker men will be brought ashore in specially prepared conveyances. They will be sent to their respective homes at the government's expense.

Before leaving they will be paid the difference between the imperial and colonial pay.

BLOEMFONTEIN

Will be the Federal Capital of South Africa

Capetown, July 11.—It is understood that at the close of the war Bloemfontein will be the headquarters of the commander in chief, the seat of the South African court of appeals and the federal capital of South Africa.

TERRITORIAL CROPS

Will Be Phenomenal and in Manitoba Above the Average.

Winnipeg, July 12.—Enquiries made among the visitors now in the city from all quarters of the west establish the fact that the wheat yield of the province will be larger than was expected a while ago, and that of the Territories will be something phenomenal. Are the Calgary, Edmonton, Prince Albert and Regina districts good? was asked of some of the visitors. The authorities spoken to on this subject claim not less than 60 bushels to the acre, and in the Dauphin country the crops are large. Through Manitoba the crop will be above the average, despite the recent drought is the unanimous verdict of the farmers today.

ORANGE CELEBRATION

Ten Thousand People in Winnipeg for the Twelfth.

Winnipeg, July 12.—The greatest Orange celebration in the history of Manitoba takes place here today. Fully 5,000 of the order, representing lodges from Fort William, Ontario, to Calgary on the west, are in the parade which is joined in by thousads of visitors from outside points.

Prominent Orange orders from the United States and Canada are in attendance and the programme will end up this evening with the ceremony of laying the corner stone of the Scott memorial, which the Orange hall dedicated to the memory of Thos. Scott, murdered by Riel at Fort Garry in 1870. The building, which will be one of the finest in Canada, will cost $60,000. Excursion trains on the C. P. R. and other lines have landed no less than 10,000 people in the city today.

FRENCH HAVE TROUBLES TOO

Paris, July 11.—General Gallieni, governor and commander in chief of the French forces in Madagascar, has cabled the government asking that more men and munitions of war be sent immediately. The government sends tomorrow by the steamer Guadalquiver 800 tons of war material to Djibouiti, for fear of trouble from England in Madagascar and the French possessions in Africa(when the Transvaal war is finished.

A. R. B. HEARN.
Manager Revelstoke Branch.

YESTERDAY'S PARLIAMENT

tOtawa, July 12.—The post office act, reducing the postage on newspapers mailed from the office of publication, was read a third time. Mr. Davin's amendment was defeated. The government majority was 43.

The language used by the collector of customs at St. Johns, Quebec, to a Mr. Potvin will be inquired into.

Good progress was made in supply.

The senate refused to restore the clause in the judges bill providing for three new judges in Quebec.

This body also struck out a clause in the bill dealing with the criminal code favorable to labor organizations, which practically kills the bill.

Delays in the senate will necessitate prorogation being postponed until Wednesday of next week.

STRATHCONA'S HORSE

Casualties in the Gallant Fight at Standerton.

Ottawa, July 12.—Lord Minto has received a cable announcing that Troopers McDougall, McArthur and Spark, of Strathcona's Horse, were wounded near Standerton. Sergeant Stringer and Trooper Isbester are missing. All the members of the Orange Free State government have surrendered to the British with the exception of President Steyn. The collapse of General De Wet's forces is expected daily.

YUKON GARRISON

Made a Favorable Impression in Winnipeg.

Winnipeg, July 11.—A party of 78 men comprising the Yukon field force passed through the city last evening, and it is safe to say that a more robust body of soldiers has never been seen in Winnipeg. Their faces were pictures of health, but their hands and arms told of hard work. Despite this extra load the Imperial Limited arrived on time.

MONTREAL BOILER MAKERS

Have Resolved Upon a General Strike.

Montreal, July 11.—By order of the committee of the Boiler Makers Union the strike has been made general and this evening all the shops in the city were closed. Altogether it is expected that nearly a thousand men including the boiler makers and those depending upon their work will be affected by the strike.

SENTENCE RESPITED

Tessier Admitted to Bail Pending Reserved Case.

Montreal, July 11.—Sentence was to have been pronounced today upon German Tessier, the ex-clerk of the Bon Secours market, found guilty of stealing bonuses, but owing to an application by Tessier's counsel for a reserved case, sentence was suspended until a decision of the Court of Queen's bench has been obtained upon the points raised. The court admitted prisoner to bail.

GOLD FROM DAWSON

Steamer Rosalie Brngs $600,000 From the Yukon.

Seattle, July 11.—The steamer Rosalie has arrived from Lynn canal with $600,000 in Klondike gold, consigned to a Seattle assay office by a Dawson bank.

YESTERDAY'S PARLIAMENT

Ottawa, July 11.—Mr. Foster moved a long resolution in the house reflecting on the Liberal administration of affairs during the past four years and also spoke for some time upon it. Mr. Fielding vindicated the Liberal policy in respect to the tariff, railway subsidies, Yukon, emergency rations and other features.

Thos. Taylor, M.P.P., returned from Victoria on Saturday morning and went south to Nakusp on Sunday. He will go through here on his way to the capital to attend the session tonight.

The residents on "the Avenue" are petitioning the council to lay out the street so as to make a two foot road with a boulevard, sidewalk and line of shade trees on each side. A capital idea.

A. G. Fraser is acting quartermaster sergeant for A Co., 3rd Battalion R. C. R., with the rank of corporal. The company is stationed in the old red brick marine hospital on Hospital Point.

There was a pleasant informal hop given in the Conservative Association rooms by the Tennis Club on Friday evening, at which a large number were present and an enjoyable evening spent.

There is to be a meeting of the general committee of the celebration on the Queen's birthday on Wednesday evening in the No. 2 fire hall at 8 p.m. to settle up the accounts of the committee.

The Salmon Arm Liberal Association are asking for a convention at Revelstoke on about September 15th to nominate a candidate to contest the constituency in the interests of the Liberal party.

Among those registered at the Hotel Revelstoke on Saturday were R. P. Rithet and J. A. Rithet, of Victoria; D. J. Darraugh, Phoenix; J.E. Mannel, Hon. C. Wells. Geo. Alexander, Mrs. Alexander, Kaslo.

The Revelstoke Liberal Association have received a letter from Hewitt Bostock, M.P., stating that he does not intend to be a candidate for re-election in this constituency at the next Dominion election.

Mrs. McLellan, sister of Mrs. W. Morris, and family, arrived in town on Sunday morning from Australia, on their way to Europe. The party, accompanied by Mrs. Morris and R. R. Maclean, of the Revelstoke postoffice, took a trip on Monday to the Halcyon Hot Springs, where they intend to spend a couple of days before proceeding east.

Among the requirements of the Big Bend district is a ferry across the Columbia at Smith Creek. This ferry, which could be easily be constructed and operated at this point, would save five miles of difficult road at that end of the trip. The proposition was brought under Hon. W. C. Wells' notice, while he was here on Saturday and he promised to take it into consideration.

P. Stacy brought a curiosity into the HERALD office on Saturday in the shape of a chicken with four feet. The two extra feet, which are quite perfect, come out where the tail feathers ought to grow. The chicken was hatched on July 12th and lived for 24 hours, when the mother tramped on it by accident and killed it. C. H. McDonald has got the body in alcohol and it can be seen at the Canada Drug & Bookstore.

GREAT WESTERN MINES LTD.

The Annual Meeting Held Last Week Shares Increased to 50c.

At the meeting of the above company held here last Wednesday, at which 900,000 shares were represented, the old directors, W. B. Pool, A. E. Kincaid, F.W. Godsal and J.J. Young, were re-elected, and Thos. Taylor, M. P. P., W. F. Cochrane and G. S. McCarter were added to the board. The old officers, W. B. Pool, president and manager, F. W. Godsal, vice-president, A. H. Holdich, secretary, and G. S. McCarter, solicitor, were all reappointed. The financial report for the past year was very satisfactory. So far a sum of $30,0000 has been expended, of which $23,570 has been put into actual development work on the Nettie L, comprising about 1,400 feet of tunneling, drifting and shafts. The balance has been expended in buildings, steel rails, cars, trail building, etc. There has been more actual work done for the money spent than any other company in the province can show.

Great satisfaction is felt over the new strike, which adds several hundred thousand dollars to the assets of the company. Sixty tons of the richest ore ever taken out of the mine is now at Thomson's Landing and will be shipped this week. There is some $10,000 worth of ore at the Nettie L awaiting better shipping facilities. The mine is now in a position to turn out ten tons a day. Stoping will continue all summer and the ore will be sacked up and shipped as soon as snow is available for rawhiding.

Owing to the large amount of development done on the Nettie L and the fact that the mine now ranks as a regular producer and shipper and will probably place the company on a monthly dividend paying basis next winter, it was decided to raise the price of treasury stock from 25c. to 50c.

THOMSON'S LANDING NOTES

Revelstokers and Other Visitors at the Liverpool of the Lardeau.

THOMSON'S LANDING, July 12.—As I have not seen any mention in your valuable paper for some time concerning the doings in our little burg. I thought it about time to let all know that we are still very much alive, although la grippe has been rather severe with some of us.

The Landing enjoyed quite a treat on July 3rd, as the majority of the band boys of Revelstoke got here from Trout Lake too late to catch the outgoing boat and had to stay over; so they employed their time in giving us some very good music, and to the surprise of all they marched up the little hill to the residence of H. Needham and wife and gave them a very enjoyable serenade which lasted an hour or more. Mr. Needham kept time to their music by picking strawberries and then treated each and all to a good dish of the fruit, while Mrs. Needham pinned a bunch of flowers on the lappel of the boy's coats and prepared a handsome bouquet for each of the Revelstoke ladies.

A number of Revelstokers visited at the Landing during the holliday excursion, among them being Sam Needham, jr., and Miss Nellie Behrens.

Mrs. J. M. Green has had new potatoes for use since July 4th, two of them weighed 1¼ pounds; not bad.

Registered at the the Prospector Exchange are: A. G. Welch of London, Ont, who has came in to visit the camps again with the intention of investing, Mr. P Cuningham and Mr. Oliver; Mr. Mickle of Nelson came in today.

Miss. Mary McDonell who has been teaching the school at Port Haney came in on the 8th to spend her vacation with her sister Mrs. T. W. Grahame.

Mrs. Nicholson of Revelstoke with her little twins came in on the 11th to visit her sister, Mrs. Craig.

Our general merchant here, Mr. A. G. Fraser, is working hard to fill all orders and to please his numerous customers.

Craig & Hillman's teams are still on the road but the freighting business is a little light at present.

Black Bear.

The Black Bear on Pool Creek in the Fish creek camp is developing remarkable and at present there is about 150 tons of ore on the dump. This property is under the management of E. C. Wood, C. E., of Comaplix.—Topic.

HANDSOME TAILORING...
BY EXPERT DESIGNERS

When thinking of your Summer Suit you naturally dwell on the smartest and most effective to be had. Hardly a thought occurs of having a commonplace suit or trousers, no matter how indifferent you may be about other things. When you want the best, it is wise to place your order where you're likely to get the correct thing. If we make your Suit, we promise you a distinctly exclusive style with all the earmarks of the finest imported confections.
In the matter of price, we can set you at ease by saying that you'll be agreeably surprised at the moderateness.
Better let us design your suit or trousers; we promise you all the satisfaction you can possibly get from having a Suit with the air of the New York or Paris creations, and at prices which will appeal to you as being astonishingly low.
