LUMBERMEN IN REVELSTOKE

A Chat With Mr. A. McLeod, M. P., a Progressive Ontario Conservative, Who Has Lumbering Interests in Kootenay.

In an interview with Mr. McLeod, M. P. for North Ontario, who was in town on Saturday, the HERALD ascertained that very little has so far been decided by the Ontario lumbermen who have bought the old DeGraw mill at Arrowhead, beyond moving the plant to this side of the Arrow. Active operations will be postponed until the season is fairly opened. Mr. McLeod is very enthusiastic over the prospects of this section of Kootenay, which he considers has a bright future before it. He does not think the immense resources of Western Canada from Rat Portage to the Coast have their equal on the continent of America and expects in another ten or fifteen years to see a wonderful progress made in the west. Mr. McLeod is a Conservative of the progressive kind and his visits to the west have convinced him of the astonishing foresight of Sir John Macdonald, who in spite of the sneers of the opposition and the half hearted support of most of his own followers, could anticipate the immense value of the opening up of the west to Canada and carry his project through. Mr. McLeod said that he could not help regretting that the master mind had not survived to witness the great impetus given to the fulfillment of his anticipations by the development of Kootenay within the last few years. In reply to a suggestion of the HERALD, Mr. McLeod said he thought it would be an excellent idea to pass an appropriation to provide a special excursion and take every member in the house on a tour through western Canada. The average member of parliament knows nothing at all about it and the western members are too few to make their influence felt. In consequence the needs and requirements of the west and particularly British Columbia are neglected in favor of better known and more numerously represented provinces. One thing is certain, however, the province has gained a friend in Mr. McLeod, as it does with every member of progressive ideas, who takes the trouble to pay it a visit.

HERALD GUIDE TO XMAS BUYERS

(Concluded from page 2)

MISSES SHEPARD & BELL

Are shewing in the Madison Millinery Parlors a nice line of fancy work, fancy silks and materials from which a very suitable present could be selected for a lady's drawing room or for a friend with a hobby for fancy work.

R. S. WILSON

And staff are hard at work filling orders for their numerous customers. He has no particular announcement to make except that he is hard at work at the old stand, that his patrons know where to go for good cloth and a good fit and that he wishes them all the compliments of the season.

TAYLOR & GEORGE

Wishing to give their customers a big line to select from this Christmas, have just opened up a large consignment of dress goods, ribbons, blouse silks, etc., which has arrived direct from the factory in Scotland, so that patrons will reap the advantage of prices, from which the middleman's profit has been eliminated. The store is most tastefully decorated. Their stock of drygoods, furnishings, carpets, rugs, etc., is displayed to great advantage. The firm intend in a day or two to place a pumpkin in the window. The pumpkin, as not unusual with pumpkins, will have seeds in it and every customer who purchases a dollar's worth of goods at this store will obtain a right to guess at the number of the said seeds in the said pumpkin, the one who guesses most correctly being entitled to a suit of clothes.

Among the caterers to the Christmas must not be forgotten the cigar stores. J. W. Bennett has a nice line of specially selected Christmas cards in addition to his cigars and other articles for the smoker's use. Frank Brown is shewing a big stock of tobacco, cigars, cigarettes, pipes and nick nacks belonging to the devotees of the goddess nicotine. Roy Smythe is well up in line with a first-class stock of everything needed by the lovers of the wed and his stock of confectionery and candies is very high class and complete. A new pipe or a box of good cigars makes a nice present for hubby and tends to keep the creature at home. A word to the wise wife is sufficient.

JAS. I. WOODROW

Stands prepared, as usual, at this season to cater to the wants of the inner man with a fine stock of meats,

poultry, sausages and everything going. He knows that the Revelstoke people want the best of everything and is ready to supply it.

WRIGHT PORRITT

The new photographic studio established by Wright Porritt in Tapping's old hall is the place to get an original and artistic souvenir to send to one's friends this Christmas. The beauty and finish of Mr. Porritt's views of local scenery have already established a reputation for his work. He has bid himself out to supply the demand for the local color in Christmas cards and souvenirs which is now all the rage and anybody who wants to send away something in this line, which cannot be obtained anywhere but right at home in Revelstoke, should call and inspect Mr. Porritt's stock.

REVELSTOKE WINE & SPIRIT CO., LTD.

Are prepared to meet the wants of their customers during the festive season and will make up assorted cases from their extensive stock of wines, spirits and liqueurs to suit the tastes of their patrons. They invite the public to pay them a visit and see what the company are prepared to do in this way.

J. B. CRESSMAN

The tailor, merely wishes the Herald to state that trade is brisk and his staff are busy and that the best way to commence the New Year happily is in one of his neat, well fitting suits or overcoats. He begs to tender all his numerous friends and customers the very best wishes of the season.

Civic Elections

The nominations for the mayor and council take place on Monday, Jan. 13th, and the election on the following Thursday, Jan. 10th.

Although nothing definite on the point is laid down in the amendment to the school act passed at the last session, it appears to be the intention that the elections for school trustees in cities of the third class, like Revelstoke, shall be held at the same time and place and under the same return officer as the municipal elections, as the school act provided, should be done in the past in Victoria and Vancouver. There are three trustees to be elected as before, the two highest for two years and the last man for one year. The old trustees hold office until January, 1902, when their successors are elected. There is no property qualification for school trustees and everybody has a vote the same as before.

It is sometimes hard to know what to send for a Xmas present to a friend, but if you see the Canada Drug & Book Co.'s supply of new goods it will not take you long to decide. They have the largest and most varied up to date stock of Fancy Goods in North Kootenay.

CORRESPONDENCE

The Pro-Boers and the Papists.

To the Editor of the HERALD:

SIR.—Pardon me Mr. Editor for presuming to enter your sanctum, but being of a sympathetic disposition I take the liberty, as I am passing your door, to stop in and enquire if you have fully recovered from the effects

of the terrible berating you received from the pen of the bucolic individual who under the name de plume, "One of the Arch Enemies" has in last week's Kootenay Mail appended this startling pseudonym to a "stand and deliver" missive, in which he takes you to task for reprinting in your valuable journal the report, which has been going the "rounds" of the eastern as well as the coast papers to the effect that a certain philanthropic (with a big P) clergymen in Montclair, N. J., had offered up prayer for the repose of the souls of the Boers and Filipinos, who had fallen in defence of their glorious!! principles. Now, Mr. Editor, I do not think you instigated these poor people did not you pray for them and I wish them luck and as the Irishman says: "Much good it'll do them," but this champion of the sect whose headquarters are on the banks of the Tiber far away, (Tunc Watibus), is not satisfied with shaking his fist at you but he must bring in D'Arcy McGee, Billy Van Horne, Tommy Shaughnessy, Tommy Rot, and Braine and mixes them up in a veritable Irish stew, with the end of a shillelagh. And then "Ye Gods" he flies at the British Empire and tries to disturb the "Poor old Queen" with his arrant nonsense.

Now, Mr. Editor, please take warning, you must on no consideration presume to print any news without first approaching the head functionaries of the various sects, more especially the one whose champion signs himself "One of the Arch Enemies" fitting cognomen in many respects.

PRO PATRIA.

Confirmation at St. Peter's.

The bishop of New Westminster held a confirmation service on Sunday morning last in St. Peter's church. The building was crowded. The service commenced with morning prayer, after which the bishop administered the apostolic rite to eleven candidates. Seated in his throne at the chancel steps he delivered a most impressive and practical address, after which the solemn "laying on of hands" followed. His lordship then celebrated the Holy Communion at which there were a large number of communicants.

In the evening the bishop preached the sermon from the text of St. John the Baptist's message to Our Lord: "At Thine He that should come, or do we look for another?"

The very prettiest of Limoges, Haviland and Minton china in cups and saucers, sugar and cream and plates, etc. Something new for Revelstoke canada Drug & Book Co's.

AROUND THE RAILWAY YARD

Personal Paragraphs Pertaining to Railway Men Picked up By the Herald Man on His Daily Rounds.

J. R. Sullivan, C. P. R. engineer, went up to Field on Monday morning.

C. E. Paget, telegraph operator, is now stationed at Hector at the summit of the Rockies.

The snow is very deep at the Sun mit. Their rotaries are in constant use and another one needed at Rogers Pass.

Invitations are out from the captain and officers of the s.s. Rossland for a dance at Arrowhead on Monday evening, 23rd inst.

The intense cold prevailing on the plains for the last few days has caused some delay to the trains, it being found impossible to keep up steam.

Miss Duncan, C. P. R. telegraph agent at Calgary, has left for Montreal to assume an important position in the employ of the telegraph company.

The HERALD regrets to learn that car inspector Parsons, who went to work again Monday after an attack of grippe, has taken a relapse and is worse again.

For the present no further action seems likely to be taken by those favoring the formation of a Canadian Order of Railwaymen. The Ottawa convention adjourned sine die without taking any action.

Gen. Supt. Marpole came in from Vancouver on yesterday's train and went on to Field, accompanied by Supt. Kilpatrick. He returned on today's No. 1 and after a short stop leaves for England for a holiday.

"Chess" Armstrong and J. McCrum, of Kamloops, are spending a few days in town. McCrum announces that he has been buying one of the leading hotels since his arrival; "Chess" says, however, it is at retail.—Vancouver Ledger.

Two new C. P. R. appointments are announced. T. Hayes becomes superintendent of the section between White River and Cartier with headquarters at Chapleau; and C. Murphy is appointed to the division east of Cartier including the Soo branch and White River terminals.

The private car "Emmeline" arrived this afternoon attached to the Pacific express. Aboard were two prominent officials of the Canadian Pacific railway, Mr. Peterson of Winnipeg, chief engineer of the system, and Mr. Arthur Piers of Montreal, head of the department of steamships of the line. Though having lost their strike two weeks ago, the switchmen and freight handlers of the New York, New Haven and Hartford had their hours of labor reduced from ten to eight per day.—On Jan. 1 the freight train crews of the B. & O. will have their working time reduced from twelve to ten hours a day.

It is said that after January first the custom of exchanging annual passes for employees will be done away with. By this arrangement all the representatives of the various roads will have to pay regular fare. It is the opinion of several of the representatives of Eastern roads in this city that the plan will not be adhered to.

F. August Renize is said to be largely interested in the Vernon and Midway charter, obtained at the last session of the provincial legislature, with a bonus of \$1000 per mile for 125 miles. The road connects Vernon, the present southern terminus of the S. & O., with Midway, the western terminus of the Columbia & Western and will form a link, which will give a shorter route from the coast to Boundary points. In jumper and overalls a real prince of the imperial family of Japan is working side by side with dollar a day laborers in the Pennsylvania railroad shops at Altoona, Pa., and at the same work. He is a Prince-Yoshio Yamamoto and this is the beginning of his training to enter the imperial railway service. He intends to spend three years in the shops here to study locomotive building and repairs. Then he will spend two years in the transportation, freight, civil engineering and auditing departments before his return.—Railway Employers Journal.

The Engineers and Firemen have their chairman in Montreal endeavoring to settle some schedule matters with the C. P. R. officials. The business has taken far longer than it was expected to and there is admittedly some hitch, but the exact nature of it has not been communicated to the members. It is understood that one amendment to the schedule that the brotherhood men propose is a general increase of 15c. per 100 miles. This is to cover the extra work and time required by the new system of enormously long trains. On this account it is not thought likely this point can be settled that is causing delay in the negotiation.—Voice.

Employees of the New South Wales railways are at present allowed an all-lines pass when on annual leave and four additional passes during the year. They are now being asked to decide by referendum, whether the additional passes shall be discontinued and twelve privilege tickets which permit travel at one quarter the ordinary return fare substituted. Where a family would travel together at the one time, although the fare would be charged separately, it would count only as one of the twelve tickets. As additional passes are restricted to the use of the employee himself, while his family may participate in the privilege tickets, it is probable that the majority will favor the new proposal.—Railway Herald.

HERALD GUIDE TO XMAS BUYERS

**A Review of the Holiday Stocks
in Roselstoke Business Houses**
Published as a Pointer for
Purchasers.

In pursuance of usual custom at this season of the year the HERALD presents in this issue a comprehensive sketch and bird's eye view of the stocks of holiday goods as a guide to intending purchasers in Roselstoke. In conjunction with our advertising columns this article will be found to contain much interesting and valuable information, where to go and what to look for when you get there. Every body wants to purchase goods at this season, presents for Xmas, gifts for the New Year, good things for the innocent family festivities peculiar to the season. (With a gasp)—"Yes ma'am."

At the Ticket Window.

"When does the next train that
stops at McAllister's leave here?"

"You'll have to wait four hours."

"I think not."

"Well, maybe, you know better than
I do, ma'am."

"Yes, sir, and maybe you know
better than I do whether I am expect-
ing to travel on that train myself, or
whether I am enquiring for a relative
that's visiting at my house and wanted
me to call here and ask about it and
see her the trouble because she is
packing up her things and expects to
take that train herself, and not me,

and she will have to do the waiting,
and not me, and maybe you think it's
your business to stand behind there

and try to instruct people about
things they know as well as you do, if

not better, but my idea is that you're
put there because they could not use
you in the switching department, and

perhaps you'll learn some day to give

people civil answers when they ask
civil questions, young man, my opin-

ion is you won't!"

Redistribution.

Thos. Taylor, M.P.P., speaking to

the Herald, expressed an opinion

that the total votes cast in each

constituency, at the last provincial

general election should be taken into

account in framing a redistribution

measure quite as much as the census

figures. He is strongly in favor of

leaving the details of redistribution to

an impartial commission composed of

the judges of the B.C. Supreme Court.

Mr. Taylor does not credit that John

Ley of Victoria, whose extraordinary

election poster, has reached town, is

the recognized government candidate

although he calls himself so. Ley is a

man without weight, of strong socialistic principles.

A CHIEF

DISPATCHER

One Railroad Official Who Has
all Work and No Play.

The chief train dispatcher "handles
the power," distributes the cars to the
various stations, decides what freight
trains shall be run and is in immediate
charge of the countless details that
arise in the operation of trains. The
duties of the superintendent and the
trainmaster keep them away from the
office about half the time, traveling up
and down the line, stopping overnight
at important stations and terminals.

The chief dispatcher is always at
headquarters and is the man of details.
He is assisted by a "trick dispatcher"
for each dispatching district. Like
the sentinels at Gibraltar, the three
trick dispatchers never leave their
post unguarded. It may happen for a
few minutes some Sunday night that
there is not a train running, "not a
wheel a-turnin' on the division," as the
men say, but there sits the dispatcher,
the ever ready representative of the
official staff, the incarnation of alert
administration. Where business is
heavy and the management is pro-
gressive, there is a night chief also,
who thus renders the position of chief
dispatcher uninterrupted.

These chiefs work 12 hours each, as
nervous tension is less than that of a
trick dispatcher who is "glued to the
train wire" his entire tour. In the
absence of a night chief the details are
looked after by the trick dispatcher,
whose work becomes much more
responsible. The chief in such a case
usually comes down after supper and
maps out the night work and some
times breaks in later with instructions
on the train wire, which is "cut in" at
his room.

The railroad man is seldom entirely
out of touch with his work. The
telegraph sounder lulls the tired chief
to rest and wakes him in the morning.
So trained is his ear that if wanted at
night the dispatcher has to sound the
private call on the wire only a few
times to elicit a response from the
sleeping chief. On Sundays the chief
is on hand most of the day in obedience
to the unwritten railroad command-
ment "Six days shall thou labor, and
the seventh come down to the office and
catch up." In most occupations
"all work and no play, makes Jack a
dull boy," but in railroading it makes
him a bright boy, so stimulating and
fascinating is the excitement of the
work.—Ainslie's Magazine.

W. W. Bews' artistic taste is in evidence in the window of his drug store, where a dainty winter scene in the mountains has been built up. This style of window decoration is novel and effective.

The postmaster's report gives the total gross postal revenue of the two old offices here as follows: Revelstoke \$707.10 and Revelstoke Station \$275.73. These figures are a slight decrease on those of 1900.

No Christmas dinner is complete without some of the choice wines and spirits from the Revelstoke Wine & Spirit Co., Ltd., on your table.

Skating tonight in the rink commencing at 8 o'clock. There will be curling to night, on one rink as well.

The next issue of the Herald will be published on Monday, Dec. 23rd. This arrangement is made for the benefit of our advertisers, who will be enabled to make their special Christmas announcements just while the trade is briskest.

Santa Claus will be at Reid & Young's on Friday and Saturday of this week. A special invitation is extended to the children to visit him, particularly on Saturday, when he will give bag of candies to all the young who call.

The HERALD has to ask indulgence for partaking in the prevailing impression in the audience that the lady who took the old woman's part in the pantomime on Friday last was Mrs. Asan. It really was, as we have been informed, Mrs. Holton.

Jas. Walker, cigar maker, is away at Nelson spending his Christmas holidays in that city. Jimmy will probably make no more smokes until the New Year. He may go in for a few fillers, however, but we hope he will keep his word and be back at the old stand by that time.

Last week, and particularly last Saturday and Sunday, Revelstoke skaters took full advantage of a splendid natural open air rink, which was formed on a long pond on the flats below W. G. Watson's farm. The ice was perfect and the idea of open skating is a novelty at this time of year in Revelstoke.

C. M. Field returned from a business trip in the Larderay yesterday. He met J. E. Spurling, Tom Edwards and D. Cowan all working at the Silver Cup. J. W. Sanderson, W. Intending purchasers of Christmas fare or Christmas gifts will find on the inside pages of this issue a directory of Revelstoke business houses showing where to go and what to look for. Taken with our advertising columns, a careful perusal of this guide to buyers will furnish all the information necessary to those making purchases for the holidays in Revelstoke.

The talk in Vancouver is to the effect that Joseph Martin is out with the Dunsmuir government. The Premier refused to adopt the Martin plank of government ownership of the Coast to Kootenay road and Mr. Martin has quit him. As for Mr. Wells' mission to the east, it is the laughing stock of Vancouver, the general impression being that he has come back without any definite results at all.

A. McLeod, of Brantford, Ont., member for North Ontario in the Dominion House, who is one of the purchasers of the DeGraw mill at Arrowhead, Jas. A. Taylor, of Arrowhead, another of those interested and J. A. Kirk, P.L.S., of Peterboro, East Kootenay, spent Saturday in town. Mr. McLeod intends to return next summer and go up into the Big Bend, when the steamer makes travel up there easier.

THE BLUE JAY PLACER LEASE

The Duquesne Mining Co. Take Up the \$15,000 Bond On the Property.—The Last Payment Made.—Bright Prospects.

The last payment on the Blue Jay placet lease on Smith Creek, has been made by E. A. Bradley, manager of the Duquesne Mining Co. The amount of the payment was \$4,500, the total of the bond, being \$15,000. The gentlemen who got the money are J. Squires, W. H. Howard, Gis. Heddstrom, Chris Hansen and Charles Richards.

Mr. Bradley returned from the Blue Jay on Friday last. The shaft on the Blue Jay has been sunk thirty feet and the drift to the chamber has been started and Mr. Bradley anticipates that any day the drift may come some that they have anticipated. There was pay gold on one side of the shaft for twenty feet, but the values have not been demonstrated yet. Mr. Bradley is confident that in a short time an announcement will be made, which will justify the high opinion formed of the property. The company has before it the brightest prospects of any syndicate operating in the province. Mr. and Mrs. Bradley left last night to spend Christmas in Seattle and will return before the New Year.
