## OPEN LETTER TO THE PEOPLE

Premier Dunsmuir Defines the Policy of His Administration and Appeals to the Electors to Support it.

The Colonist of Sunday contained an open letter addressed to the people of British Columbia by Mr. Dunsmuir, in which the premier defines his policy and answers his opponents' objections. The document is a lengthy one and the HERALD is not able to reproduce it in extenso. After a retrospect of the past history of B. C. politics since he assumed office the premier lays down sundry planks of the policy with regard to Railways, Immigration, Redistribution and other heads, which he intends to assume.

### THE RAILWAY POLICY.

adopts the principle of a joint construction and ownership of railways within the province by the Dominion and provincial governments. The premier outlines it as follows:

"The letter addressed to Sir Wilfrid Laurier, copies of which have been sent to the several senators and representatives of the Dominion House of Commons from the province, asking for their co-operation in urging our claims on the government at Ottawa, clearly outlines our position in regard to railway matters and reviews the whole negotiations of last year.

As an earnest of our desire, now that we have a definite knowledge of the proposed route via Hope mountain, to afford direct communication to the Southern Interior, and in order that competition may be maintained, without discrimination to railway interests, the government has made a proposal to join hands with the Dominion government to build the line over the Hope mountain into the Similkameen, as a joint government undertaking, and give all railways full and equal running powers over it upon certain terms, the same as is proposed in the case of the New Westminster bridge. This would, of course, depend upon making suitable arrangements with the C. P. R. and the V. & E. to use it when built. In so doing, I have stipulated that it is not to be regarded as a precedent for or against the general principle of government ownership, so far as the province is concerned, or as applicable to other roads under consideration; but simply as a proposal that might wisely be adopted in a special case and under peculiar conditions. The province alone could not, nor do I believe it is the business of the province to, undertake the building of railways on its own behalf, but so far as this particular line is concerned, where some one company must be subsidized to the exclusion of all other lines, by the Dominion and the Province uniting on a certain division of cost, it would afford the competition desired and provide for all time to come against the trade of the country being monopolized by any railway corporation.

### IMMIGRATION.

Believing that the difficulty is not so much to get settlers in the province as to locate them, the government proposes a 'scheme for placing tracts of land from 1,000 acres in extent and upwards on the market for settlers on the easiest possible terms. I cannot very well outline the plan before the meeting of the legislature takes place, but a bill will be submitted very early in the session, and it will be found practicable and calculated to effect the settlement on small holdings of thousands of farmers in the most accessible districts. This we regard as the most businesslike immigration policy that can be adopted, and in conjunction with the Agent-General's office, London, will result in great good. No amount of advertising will avail if we have no definite location for settlers when they arrive. The government has already made arrangements under the present Land Act for the settlement of two colonies on the Coast and is making arrangements for a third.

### REDISTRIBUTION.

The government recognizes also the importance of redistribution, but recognizes as of still greater importance that when a measure is introduced it should be as fair and comprehensive as possible. I contend that in a province like this, it is impossible for the legislature to deal with all the details of a bill without having more information than is afforded by the bare census returns. Natural boundaries, resources and special conditions of each district should be considered, and having this in view, the government is prepared at the coming session to deal with the matter in a way that will make it satisfactory to all parts of the province. In the way proposed, all sections will be consulted, and all interests considered, so that when a measure is submitted, the House will be in a

position to judge intelligently and act accordingly.

### TAXATION OF MINES.

The memorial of the mine owners setting forth their grievances has had the consideration of the governments, and as a mine owner myself I naturally sympathize with them in what ever degree the laws may work a hardship, because as one of our principal industries, it deserves all encouragement possible and should be relieved of every unnecessary restriction. Hon. J. H. Turner announced as Minister of Finance, that the question of taxation as a whole, would be dealt with in a general act for which information would be forthcoming during the recess. One grievance complained of is the incidence of the two cent tax as between high grade and low grade ores. We recognize that in certain cases that may be inequitable and we are considering its readjustment in the proposed legislation. Mining is affected by measures both Dominion and Provincial in their nature, and if the Dominion government at Ottawa will join with us, we are willing to agree to a joint commission in which all phases of the industry may be investigated and reported upon at one time.

After touching on several other matters of great importance, but at the same time of less interest to this section, such as shipbuilding, the fisheries, cold storage, etc., the manifesto concludes as follows:

"Many other matters have had our attention and consideration, but I believe that in the foregoing I have outlined a sufficiently comprehensive and practical programme for any government to undertake and whether I remain in office or not I trust it will be fully carried into effect. I believe it will have the thorough endorsement of the people of British Columbia, and to them I am willing to leave the decision as to whether the government has been neglectful of their interests and has no policy except personal interest and office upon which to appeal for their support."

### JAMES DUNSMUIR.

From certain expressions in the letter such as "during the campaign to follow there will be an opportunity to go on the platform to go more fully into details" and so on it has been surmised that this manifesto is the signal for a general election may be anticipated very shortly. This is a matter which, however, another paragraph leaves in considerable doubt. The premier says:

"The defeat of the government candidate in Victoria would, I have no doubt, be regarded by many as tantamount to a defeat of the government,

and without the policy and intention of the latter being fully known, defeat in Victoria would be very probable; but, if, on the other hand, our position and policy were such as to justify the delay that has occurred, and such that, apart from my personal course in asking Mr. Brown to take a seat in the cabinet, could be defended, and approved by all, I feel that the government has pursued a wise course in not making haste too quickly. It may be assumed that if I had not invited Mr. Brown to join the government it could have counted on a large majority in the next meeting of the legislature, and, therefore, if our programme is now such as to warrant support on its merits, anything that might be regarded as a tactical mistake of my own, in regard to the personnel of the cabinet, could not be a sufficient cause for bringing on a new election and plunging the country into political chaos again, and that, too, before a redistribution bill could be passed, leaving the country hopelessly represented for four years more."

It appears to the HERALD, judging from the above paragraph, that the result of the Victoria bye-election will go a long way to decide whether we are going to have a general election in the near future or not. Much will also doubtless depend on the result of the convention of Mr. McBride's supporters at today's convention in New Westminster, to whom the document very cleverly leaves a large sized loop hole to return to the fold.

## AROUND THE RAILWAY YARD

Personal Paragraphs Pertaining to Railway Men Picked up By the Herald Man on His Daily Rounds.

The C. P. R. ore sheds at Trout Lake are filling up and are now almost full. Twenty five tons a day is coming in from the Silver Star. The C. P. R. is only shipping enough to keep the trail open, as they are busy with the appraisal and will not begin taking out ore in any quantity till it is finished. The ore sheds have a capacity of 900 or 1000 tons but there are piled up three times that quantity stacked up around the sheds before the winter is over.

According to a despatch from Montreal, the Minister of Railways and Canals has about made up his mind to establish a system of pensions for employees of the Intercolonial railway. The officials of the road have been instructed to prepare for him a report on the best method of carrying out this policy in the matter. They have not yet reported to the minister, but it is understood that these pensions will be the preparation of the scheme and to have formulated a scheme along the lines now established on the French Railways. The funds will be raised by contributions from the wages of all employees, which it is expected will be supplemented by a government grant.

## LATEST NEWS BY TELEGRAPH

Another Lot of Boers Scooped up.—Botha Narrowly Escapes Capture.—Chinese Soldiers Fire On a British Flagship.

LONDON, Jan. 15.—The court circular announces that the chief of the naval cabinet of Emperor William has been received in audience by the king and delivered a letter from the German Emperor. The Times newspaper suggests that the letter is intended to assuage the impending political estrangement between Great Britain and Germany.

HONG KONG, Jan. 15.—The British steamer Manning has been fired on by Chinese soldiers in the Tama Chan channel of West river, Hong Kong. The chaplain of the British flagship was severely wounded.

LONDON, Jan. 15.—Lord Kitchener reports for the week, 30 Boers killed, 9 wounded, 203 captured and 90 surrendered.

HALIFAX, Jan. 15.—Squadrons D, E and F and Troop 4 of Squadron A of the 2nd Canadian Mounted Rifles left Halifax yesterday for South Africa. A second troopship has arrived to take the remainder of the regiment.

CAPE TOWN, Jan. 15.—Bruce Hamilton chased the Boers near Knapdare and captured 52 Boers and quantities of ammunition and stock. Gen. Botha narrowly escaped capture in this affair.

PITTSBURG, Jan. 15.—Three negroes were blown to pieces and seven were hurt by a dynamite explosion at Karlhus, Pa. They were thawing the dynamite on the stove.

### Tabloids

The Secretary of the Dominion Alliance, Toronto, says that petitions are coming in very fast from country points, asking the government to pass a prohibitory law. 10,000 have been so far received.

A Grand Jury at London, England, found a true bill against Dr. Krause, the former governor of Johannesburg, on the charge of inciting to murder one of Lord Roberts' staff.

J. H. Isaacson, well known in Masonic circles, is dead at Montreal.

Gilbert Parker, the well known novelist, has offered to erect a public library at Belleville, Ont.

Andrew Carnegie has offered \$25,000 for the public library.

Lord Strathcona and his Secretary represented the Canadian government at the funeral yesterday of Hon. Mr. Dobell at Folkestone, Eng.

### The Nominations.

The following gentlemen were nominated for mayor, aldermen and school trustees:

For Mayor—W. M. Brown by H. A. Brown and W. R. Reid.

For Aldermen—Ward 1—J. H. Robinson by T. E. L. Taylor and A. E. Kincaid.

John McLeod by R. R. Copeland and John Palmer.

Horace Manning by Jas. Mathie and C. B. Hume.

Ward 2—T. E. L. Taylor by W. M. Lawrence and A. N. Smith.

C. B. Hume by F. McCarty and C. R. MacDonald.

Robt. Tapping by Alex. Hobson and W. G. Birney.

Ward 3—S. McMahon by R. Caley and Mark Hyatt.

W. J. Law by Chas. Holten and Mark Hyatt.

For School Trustees—John Lawson by W. A. Foote and A. Johnson.

C. F. Lindmark by F. McCarty and A. N. Smith.

W. J. Dickey by R. H. Sawyer and J. W. McCallum.

Henry Floyd by W. Cowan and Chas. Holten.

T. J. Graham by W. M. Lawrence and J. Guy Barber.

J. W. Bennett by C. W. Mitchell and F. Baker.

S. McMahon and W. J. Law were declared elected aldermen for Ward 3, and the poll for the mayoralty, the aldermen in Wards 1 and 2 and the school trustees will open at 8 a. m. in the opera house, tomorrow.

## CORRESPONDENCE

The Facts of the Case in the Mafeking Banner Episode

TO THE HERALD:

DEAR SIR—A report is being industriously circulated to the effect that Mr. Lindmark, who is a candidate for election as school trustee, did practically steal \$50 given by Mr. Pritchard Morgan, M.P., for the celebration here of the relief of Mafeking.

The plain facts of the matter are these: On the morning of the date of the relief of Mafeking, I was coming from the telegraph office with our war despatches, while No. 2 was at the depot on which were Mr. Morgan and his friends in a private car. Mr. Sam Saunders was standing in the door of Bourne Bros. hardware store, in which he was employed. I announced from the station platform to Mr. Saunders that Col. Baden Powell was free and Mafeking was relieved. Mr. Morgan who was standing on the steps of his car asked me if that was true, and I showed him my despatches, and Mr. Saunders came across the street and was reading them also. Mr. Morgan who was pleased at the news gave to Mr. Saunders \$50 with which to celebrate the good tidings of British success in South Africa. Mr. Saunders and I went over to the store and after consulting over the best way of spending the money, we called in Mr. Lindmark, who was then secretary of the school board, and asked him to give the children a treat and a holiday, which was done. The cost of the treat was \$27.10, the amount for which was presented to Mr. Saunders and myself and paid and the balance of \$22.90 placed in the bank, with the intention of purchasing a lasting memorial of the occasion in the shape of a silk banner. Miss McConnell was engaged to make the banner, which when completed will cost some sixty or seventy dollars, the balance of which sum is to be provided by subscription. A fair portion of the amount required has already been promised and will be forthcoming on the arrival of the banner here to be placed in the public school, Mr. Lindmark being one of the principal contributors.

So the readers of the HERALD will see that the \$50 given by Mr. Morgan was not given by him to the school board, which body has nothing to do with the fund at all. Mr. Lindmark simply carried out the suggestions made him by Mr. Saunders and myself. I consider this explanation of a much misunderstood and misrepresented matter, especially when an absurd and utterly unfounded charge is being twisted out of it in order to defeat Mr. Lindmark tomorrow. Those who believe in British fair play, whether opposed to Mr. Lindmark or not, should do their best to give a quietus to this baseless slander.

A. JOHNSON.

The "Australian Wonder" that prince of fakirs that passed through Kootenay a year or more ago, was lately operating in Vallego, Cal., where he worked the people to the tune of a few hundred dollars. After selling slips of paper, bits of string and bad cigars for \$2, \$5 or \$10, he began joshing the suckers, and they went upon the stage to interview him, but he held them at bay at the point of the revolver and finally escaped.

## An Unrivalled January Sale

Never before have we made such onslaught on prices. New, Fashionable, Seasonable and reliable merchandise will be sold in many cases at a mere fraction of their former value. This means a big loss to the Company.

THE STOCK MUST BE SOLD—Sweeping reductions will take place throughout every Department, so great that they will wash out buyers mistakes and clear out thousands of remnants and forgotten things. The power of clearing lies in the prices. Read them.

### Ladies' Jackets—\$3.00.

Black Beaver, regular \$4.75 and \$5.50.  
Fawns, grey and black, all this Season's goods, regular prices from \$10.75 to \$12.  
Sale Price.....\$8  
Children's Jackets and ulsters Half Price.

### Ladies' Furs.

All new, stylish goods, will be sold regardless of cost.

### Ladies' Blouses.

Regular lines at \$1.25 and \$1.50, will clear at 75c.  
Black Sateen and figured Lustre Blouses, Lined. Regular at \$2.50 and 3.50.  
Sale Price.....\$1.75

### Children's Dresses.

In Cashmere, Flannellette and Serges—all sizes—reduced to half price.

### Lace Curtains

A few pair of odd lines of regular goods at \$2 and \$2.50. Sale Price per pair. 75c

### Men's and Boy's Shirts.

\$1.50 Men's Navy Blue Flannel Shirts. 75c  
75c. Men's black sateen shirts .....50c  
90c. Boys' navy blue flannel shirts .....60c  
\$1 men's underwear, sale price.....75c  
\$2 and \$1.50 odd lines in men's underwear, to clear.....\$1.00  
\$1 men's heavy winter caps; sale price. 40c

### Flannelettes

A few pieces of flannelette in fancy stripes; Regular price 8c; sale price.....5c

### Shoe Bargains.

Ladies' Fine Dongola Lace or Button Boot medium weight, well made. Regular \$2.50—sale price.....\$2.00  
Ladies' fine Dongola Oxford shoe, machine sewn sole, well made; regular \$1.75; sale price.....\$1.25

### Ladies' Golf Capes.

Ladies' Golf Capes, extra long, regular \$13.50; sale price.....\$10  
36 in. Unbleached Cotton, good heavy weight; regular 10c; sale price .....8½c  
36 inch Bleached cotton; regular.....10c

matter must be signed with the proper name  
of the writer.

G. E. GOGAN, Editor.

WEDNESDAY, JANUARY 13, 1902.

THE NEXT STEP.

The Revelstoke is launched and  
ready for business next spring. So far,  
so good. But we must not rest on our  
oars on that account. The next point  
to tackle is to get a good appropriation  
from the Dominion government for the  
improvement of the navigation of the  
upper river and for a tramway  
round Death Rapids. There should be  
no delay in formulating our request for  
this grant. A great deal of work can  
be done this spring before high water  
and the new steamer will be a material  
assistance in carrying it out. We  
have always been promised a good  
grant of \$25,000 or \$30,000 for this  
object as soon as we could get a  
steamer on and she is there. The  
minister of the Interior is believed to  
be fully conversant with the situation  
and to have expressed himself very  
favorably with regard to the efforts  
being made in Revelstoke to open up  
the district of North Kootenay. The  
HERALD believes that we only have to  
state our case to get what we ask for.

With regard to the tramway at  
Death Rapids, that is also a project  
in which we are fully justified in  
asking liberal assistance from the  
Dominion government. The tramway  
is probably the only method by which  
without enormous expense, the diffi-  
culties can be overcome, which are  
encountered in the three and a half  
miles of successive rapids and canyons,  
which are usually collectively  
described by the very suggestive title  
of the worst stretch in the whole  
distance. We must have the tramway,  
if not constructed, at all events a  
certainty in the near future, before  
we can hope to see capital launching  
out in the building of a sister boat to  
the Revelstoke, to ply above the rapids  
and from there to Canoe River. But  
even if no second steamer is immedi-  
ately in sight, though the HERALD has  
no doubt in the world that with the  
Revelstoke running to Laporte and a  
tramway in existence round the  
rapids, the question of a second  
steamer would not be very difficult to  
handle, but even putting that to one  
side, a tramway would immensely  
facilitate mining operations above the  
rapids, such as are now going on at  
Smith Creek and will next season be  
started in other places fields in that  
district, in the mica deposits on Pot-  
latch Creek and in plenty of properties,  
which have for years been lying idle,  
owing to existing difficulties of trans-  
portation and communication. A  
tramway will land supplies at 12 mile  
and from there up the river permits  
of easy and comparatively safe naviga-  
tion by ordinary boats, enabling  
mining men and prospectors to take  
up supplies readily and cheaply. A  
strong case can be made out to have  
the tramway constructed early this  
spring by the Public Works Depart-  
ment. From all accounts it would not  
be either a difficult or expensive piece  
of work and it would prove of a value  
and assistance in the development of  
the Big Bend, impossible to over-  
estimate.

The HERALD is far from wishing to  
shove in its oar where it is not wanted.  
At the same time it seems that it is  
up to the Liberal Association of  
Revelstoke to take this matter up and  
shove it for all it is worth, while every  
possible assistance should be rendered  
by the city council and board of trade.  
If necessary a delegation should be  
sent to Ottawa to represent our case  
and ensure our requests being acceded  
to.

NOTE AND COMMENT.

The writ for the Dominion bye-  
election at Victoria has been issued  
and the date of the election has been  
fixed for the 28th. It is the current  
report in Victoria that Jos. Martin  
will run for the vacant seat. There is  
one thing certain. If he gets there,  
we shall no longer have to complain  
that British Columbia is never heard  
of at Ottawa. Joe will probably make  
the Laurier government wish that  
they never had heard of it.

The sixth report of the department  
of agriculture for British Columbia is  
to hand. It contains a great deal of  
interesting information, of a kind,  
which an intending settler in the  
province would find highly valuable.

The illustrations are fresh and  
attractive and supplement very suit-  
ably the information in the letterpress.  
This report, if circulated in Eastern  
Canada and the old country, would be  
certain to attract the attention of  
intending immigrants to the many  
desirable advantages to farmers, which  
this province affords in the way of  
climate, character of soil, markets for  
produce and other ways, advantages  
which no other part of Canada has to  
offer.

Molybdenite.

As much interest has been aroused  
by the recent discovery of a consider-  
able body of molybdenite—an ore of  
molybdenum—on the St. Paul group  
at Pitt Lake, we take this opportunity  
of giving the particulars of this metal  
available.

The earliest experiments regarding  
the commercial use of the mineral  
were made in Germany about 1853,  
when Krueger demonstrated that a  
combination of molybdenum with a  
salt of tin produced a pigment of a  
blue color. In dyeing silk this pig-  
ment showed a remarkable durability,  
but when applied to cotton was  
inferior. At that time it was proposed  
to substitute this pigment for indigo  
and we understand that the process  
employed by the so-called "Artificial  
Indigo" company, operating exten-  
sively in Europe, is to a certain extent the  
outcome of this suggestion.

In Canada, molybdenum is first  
mentioned in the Geological Survey  
Report for 1863, where it is noted as  
existing in a few places on the north  
shore of Lake Superior. The Ameri-  
can Institute of Mining Engineers also  
report its discovery, a few years later  
in what was then Hudson's Bay terri-  
tory.

Turning to the use of molybdenum  
in other branches of industry, as is  
generally known its chief use is in the  
preparation of special steels. For this  
purpose it is used in three forms:—(a)  
A dark blue powdered metal, contain-  
ing 95 to 99 per cent. molybdenum; (b)  
fero-molybdenum, with 50 to 55 per  
cent. molybdenum; and (c) molybdenum  
nickel, with 75 per cent. molybdenum  
and 25 per cent. nickel.

Its influence on iron is similar to that  
of tungsten, but the use of molybdenum  
in steel gives the steel a greater  
toughness, at the same time rendering  
it more readily worked when hot.  
Molybdenum steel also stands hard-  
ening better than that alloyed with  
tungsten. For tool steel 2 to 4 per  
cent. of molybdenum is added, for  
other qualities from 1 to 2 per cent.

Ores of molybdenum, which is never  
found in a native state, but generally  
in the form of molybdenite, a sulphate  
of molybdenum containing, when pure,  
41 per cent of sulphur and 59 per cent  
molybdenum, have been discovered in  
many places, notably in Sweden  
where extensive deposits occur at  
Veslansfors and on Ekholm Island.  
These deposits were worked up to 1897,  
but the price of the metal falling in  
that year, mining was discontinued.  
It has also been reported from the  
Thames, Goldfield, New Zealand, in  
Arizona and New Mexico, and more  
recently near Lake Chelan in the  
Okanagan district of Washington. A  
vein of molybdenite one foot wide was  
found on the line of the White Pass  
railway, and a company formed at  
Skagway to work it. This deposit is  
noticeable as it is reported to contain  
\$20 in gold to the ton.

Brotherhood Railway Employees.

Railway employees from all over the  
United States are holding a conven-  
tion in San Francisco from January  
13th to the 18th, inclusive. Over 250  
delegates are in attendance. They  
represent the new federation of the  
United Brotherhood of Railway Em-  
ployees. It was organized in that city  
a year ago and has had wonderful  
growth. The meeting is the first  
annual gathering of the organization.  
George Estes, formerly a telegraph  
operator for the Southern Pacific and  
at one time the head official of the rail-  
way telegraphers' order on this Coast,  
is the President of the new railroad  
labor union. B. A. Meyer is its Sec-  
retary and Treasurer and W. S. Morrill  
is the editor of the organization's  
paper, the Railway Employees Journal.  
The society has a hundred subordinate  
districts.

Every man drawing wages from a  
railroad is entitled to membership.  
The officers of the order state that  
since its birth a year ago it has in-  
creased 60,000 members. Of the latter  
30,000 are at work on roads west of  
Denver and El Paso. Having secured  
a firm hold on the Pacific Coast States,  
the brotherhood is now increasing its  
strength in the Middle West and  
Eastern States.

A great many of the engineers,  
brakemen, conductors and firemen of  
the Southern Pacific, Union Pacific,  
Oregon Short Line, Oregon Railway,  
Northern Pacific, Great Northern and  
Rio Grande systems have become  
members. They believe that a fed-  
eration of this kind will lessen friction  
among the several brotherhoods of  
railway men.

Railroad managers have been closely  
watching the growth of this order, but  
so far as is known have taken no overt  
steps to hamper it. The leaders of the  
order are conservative, but they be-  
lieve that a federation of all railway  
men is the only effective means of  
maintaining their rights.—S. F.  
Examiner.

City of Revelstoke

PUBLIC NOTICE is hereby given to the  
Electors of the Revelstoke School District that  
I require the presence of the said electors at  
my office in the City of Revelstoke, on the 13th  
day of January, 1902, at 12 o'clock noon, for  
the purpose of electing persons to represent  
them as School Trustees pursuant to the pro-  
visions of the "Public Schools Amendment  
Act, 1901."

The mode of nomination of candidates shall  
be as follows:—  
The candidates shall be nominated in writ-  
ing, the writing shall be subscribed by two  
voters of the school district as proposer and  
second, and shall be delivered to the return-  
ing officer at any time between the date of  
posting and 2 p.m. of the day of nomination;  
and in the event of a poll being necessary  
the poll will be opened in conformity to law  
on the 15th day of January, 1902, at 11 p.m.  
at the Opera House, on Second Street.

And under any law, and in the hour of  
eight in the forenoon and the hour of  
four in the afternoon, for taking and recording  
the votes of the electors, of which every per-  
son is hereby required to take notice and  
govern himself accordingly.

The persons qualified to be nominated and  
elected for the office of School Trustee shall be  
such as are householders in the School district  
and are British subjects of the full age of 21  
years and are otherwise qualified by said Act  
to vote at an election of School Trustees in  
said School district.

The persons qualified to be nominated and  
elected as electors of said city shall be such  
persons as are male British subjects of the full  
age of twenty-one years and are not disquali-  
fied under any law, and have been for the six  
months next preceding the day of nomination  
the registered owner in the City and Registry  
Office of land or real property in the city of  
Revelstoke, or of one hundred dollars or  
more, over and above any registered incum-  
brance or charge, and are otherwise  
qualified as municipal voters.

Every candidate nominated shall signify, by  
a writing accompanying the nomination  
paper, his consent to such nomination, except  
in case such person be absent from the munici-  
pality when such absence shall be stated in  
the nomination paper.

Given under my hand at Revelstoke, this 28th  
day of December, 1901.

CHARLES ERSKINE SHAW,  
Returning Officer.

NOTICE.

TAKE NOTICE that 60 days after date I  
intend to apply to the Chief Commissioner  
of Lands and Works for permission to cut and  
purchase a parcel of land described as follows:  
Commencing at a post marked Roger F.  
Perry's southeast corner post situate about 20  
feet from Scott Creek, thence west 40 chains;  
thence north 160 chains; thence east 10 chains;  
thence south 160 chains to the place of com-  
mencement; containing 640 acres.  
ROGER F. PERRY,  
Goldfields, B. C., Oct. 17th, 1901. Nov. 6th.

NOTICE.

TAKE NOTICE that sixty days after date I  
intend to apply to the Chief Commissioner  
of Lands and Works for permission to cut and  
purchase a parcel of land described as follows:  
Commencing at a post marked Alice Perry's  
No. 1 Post; thence west 20 chains; thence  
North 40 chains; thence East 20 chains; thence  
South 40 chains to point of commencement.  
This fraction of land commences North of R.  
F. Perry's pre-emption following McKenzie's  
North-West Line, containing about 80 acres,  
more or less.  
ALICE PERRY,  
Goldfields, Nov. 27, 1901. Dec. 4-11

# An Opportunity of a Lifetime

## Ground Floor Chance to Build a Fortune.

The foundation should be laid by buying Real Estate in the new Town of

# "GOLDFIELDS"

Situate right at the Doors of all the Famous Fish Creek Gold Mines.

**SOME FACTS:** FIFTEEN minutes  
walk from Main St.  
GOLDFIELDS, will take you to the mouth of the big  
5,500 foot tunnel on the Famous Camborne Group, or

## The Revelstoke Herald and Railwaymen's Journal

Is the recognized organ for all the latest mining news of North Kootenay. Particular attention is paid to securing early and reliable intelligence from the newly discovered Free-Milling Gold Camps on Fish River and from the placer and quartz mines of the Big Bend and district, in the immediate activity of Revelstoke, such as Illecillewaet, Albert Canyon, Jordan Pass and Isaac Creek. Next season will witness a big revival of activity throughout North Kootenay, and mining men and others desirous of gaining the earliest and most authentic news from the district will find the columns of the HERALD their best source of information.

Railway News is also a Specialty of the HERALD and articles of special interest to Railway men will also be found in its columns.

## AS AN ADVERTISING MEDIUM

THE HERALD offers advantages in its total Weekly circulation and the class of readers, which it reaches, unparalleled in the district. It appears twice to any other paper's once a week and is found in the homes of the wage-earning classes, the backbone of the business of the district. Businessmen want their announcements to reach the home people who have the money to take advantage of their offers and the homes and families which render it necessary for them to spend it. No other class of circulation is of any use to them. These are the kind of people who make up a big proportion of our Subscribers, people with homes, families, employment and interests right at home, the people Revelstoke merchants want to get at. A space in our advertising columns, judiciously and thoroughly utilized, constitutes a Twice A-Week letter to every home in Revelstoke, and in the Railway and Mining points, tributary to Revelstoke business.

## OUR JOB PRINTING DEPARTMENT

Is the completest in the district for appliances, material and Craftsmen. Our work speaks for itself. No other office in North Kootenay can touch it, because we not only have the tools to do good work with, but we know how to use them. Call and see our Samples and you will perhaps be surprised to see the artistic and finished class of work which we can turn out. Prices graded down to suit the times.

## Election of School Trustees.

To the Electors of School Trustees of  
the City of Revelstoke:

At the request of a number of  
citizens I beg to offer myself as a  
candidate at the forthcoming election  
of School Trustees. If elected, it will  
be my object to secure for the children  
the best that can be afforded, as  
regards both instruction and accom-  
modation.

HENRY FLOYD.  
Revelstoke, B. C. Jan. 7, 1902.

## MUNICIPAL ELECTIONS

### To the Electors.

Ladies and Gentlemen:  
I have the honor to intimate that at  
the request of a large number of  
electors I shall be again a candidate  
for the office of Mayor. If returned I  
shall endeavor to secure for the city  
the control of the electric light and  
water supply, the purchase of a  
centrally situated block for municipal  
buildings and central firehall. The first  
thing that should be taken in hand by  
the new council is to have an effective  
fire alarm system put in. It is very  
desirable that those holding office in  
the city should have its welfare at  
heart as a whole, sectional divisions  
being dropped and I should work  
towards that end.

Your obedient servant,  
W. M. BROWN.

### To the Electors.

Ladies and Gentlemen:  
Having been requested by a large  
and influential body of the ratepayers  
to come out as a candidate for mayor  
at the coming election, I beg to solicit  
your vote and influence in that  
contest.

M. J. O'BRIEN.

### To the Electors

Vote for Tapping, in Ward two, it  
means peace and prosperity.

### To the Electors.

Ladies and Gentlemen:  
In response to urgent solicitations  
from a number of electors in Ward 1,  
I now offer my services on your behalf  
for the forthcoming term as alderman.  
Trusting to be favored with your  
votes.

Your obedient servant,  
J. H. ROBINSON.

### To the Electors.

Ladies and Gentlemen:  
Having been requested by a number  
of ratepayers to become a candidate  
for Alderman for Ward 3, I have  
decided to do so and have the honor to  
request the favor of your support. If  
returned no effort will be spared on  
my part to advance the best interests  
of the city.

W. J. LAW.

### To the Electors.

Ladies and Gentlemen:  
Having consented to the request  
made me to become a candidate for  
Alderman for No. 3 Ward, I have the  
honor to solicit your support at the  
election about to take place, and if  
returned will do all in my power to  
advance the welfare of the city as a  
whole.

Yours respectfully,  
S. McMAHON.

### To the Electors.

Ladies and Gentlemen:  
I am a candidate for the office of  
Alderman for No. 1 Ward at the solici-  
tation of a number of electors and have  
the honor to request the favor of your  
support. If returned it shall be my  
endeavor to represent your interests  
as efficiently as possible.

I have the honor to be,  
Your obedient servant,  
HORACE MANNING.

### To the Electors

Ladies and Gentlemen:  
At the request of a large number  
of ratepayers of Ward two I have  
decided to offer myself for election as  
alderman for that ward and beg to  
solicit your votes and influence. If  
elected I shall always to the best of my  
ability further any measure which in  
my opinion is for the advantage and  
welfare of the city as a whole.

Yours respectfully,  
C. B. HUME.

### To the Electors.

Ladies and Gentlemen:  
Having been requested by a large  
number of electors to again offer my  
services as representative of Ward I  
on the Board of Aldermen, I have the  
honor of requesting you to favor me  
with your support, and assure you  
that it will be my utmost endeavor to  
represent your interests as faithfully  
in the future as in the past.

Your obedient servant,  
JOHN McLEOD.

### To the Electors.

Ladies and Gentlemen:  
I have been requested by a large  
number of friends and voters in this  
city to again place myself before you  
as a candidate for Alderman at the  
forthcoming Municipal election.  
Should you see fit to elect me, my  
services shall be faithfully and fear-  
lessly given towards straightening out  
a great deal of our municipal affairs  
which have drifted into a very bad  
condition. Especially would I direct  
my efforts towards establishing a  
thorough and systematic scavenging  
department, which at present is in  
such a deplorable condition; the  
securing of a suitable recreation  
ground as centrally situated as  
possible; also to place in working  
order the present fire alarm system,  
to advocate a sufficient supply of  
water, and to encourage the brigades;  
to construct and maintain a serviceable  
building and equipment for Fire Hall  
No. 1; a proper financing of the civic  
affairs; the careful management of the  
same, consistent with economy, and  
in dealings with companies or corpo-  
rate bodies to consider the interests and  
well being of the city principally.

I am,  
Your Obedient Servant,  
T. E. L. TAYLOR,  
Alderman.

## Mistakes

may be made in wearing

### Chest Protectors

But your greatest mistake will be made in not wearing one. They are a great preventative of cold and nobody should be without one when they can get them so cheap at the

## BORN.

FIELD—On January 13, to Mr. and Mrs. Chas. M. Field, a daughter.

## Notes of News.

Skating and curling at the rink this evening.

Vincent Lade of Ferguson returned from Ontario yesterday.

The Quadrille Club intends to give a masquerade ball on Feb. 10th.

The Talent Society of St. Peter's church are holding a meeting this afternoon.

Roll opens in the opera house at 8 p.m. tomorrow morning and remains open till 4 p.m.

W. J. Goepel, provincial auditor, came in from Nelson on Monday night to instal the new gold commissioner.

There has been both skating and curling in the rink since Saturday evening and a good attendance every night.

There is to be a meeting of St. Peter's vicarage this evening to discuss ways and means for raising the Sunday school of the church up to a high standard of usefulness and efficiency.

J. H. Jackson has severed his connection with the Revelstoke Wine & Liquor Co. and intends to open an insurance agency in J. E. Wood's old shop on First street.

Rev. H. Fienness Clinton, Supreme Grand, Supervisor of the S. O. E. Benefic Society, will inst. the new officers of Lodge Royalty at the next meeting on Tuesday, Jan. 28th.

Noah Abrahamson came up from the south on Monday bringing some furs including a handsome silver tip and a nice black bear from the Lardero, which H. Edwards, the taxidermist, has in his hands to fix up.

H. Bickley and a party of six, others came in from the Fred Robinson Co's logging camp at Wigwam on Tuesday and are going to work getting out logs at Williamson's ranch. Twelve men are left at Wigwam running the shingle mill.

Mr. and Mrs. J. E. Porritt and family are in town on their way to New Denver, where they will reside in future. The Laurie concentrator is being put up at the Payne, Sandon, and Mr. Porritt has accepted a position in connection with it.

At a recent meeting of the Ladies Hospital Aid Association it was decided to ask the ladies who showed considerable interest in the work of the institution at Nakusp, Ferguson, Trout Lake City and other points in the district and all those invited have consented.

January 24th is a week from next Friday and it is the date of the first Revelstoke Hospital Ball. This affair will be the event of the winter and everybody should make a point of combining a pleasant evening with assistance to a deserving institution by taking it in.

The Mining & Engineering Review of San Francisco predicts an advance in the price of copper within the next six months. The visible supply is shorter than usual and consumption in the United States is increasing rapidly. A sudden demand from Europe would require every pound of available copper in the United States to meet it.

There is an impression abroad that the Hospital Ball on the 24th is a dress affair. This is a mistake. There is no necessity for going to a big expense in ball dresses or dress suits to attend. Nothing can be further from the intention of the Ladies Aid Society, who simply want everybody to feel welcome to come and have a good time.

W. A. Foote, of the firm of Foote & Abrahamson, contractors, had a narrow escape on Monday. He was working on a scaffold thirty-five feet from the ground, when he slipped and fell. Had he not broken his fall by striking the projecting window, which is to furnish light to the operating room, he would almost certainly have been severely injured. As it was he was badly shaken up and has not been able to resume work since, though he is out and around.

There was an open installation of the officers for 1902 at the meeting of Court Mt. Begbie, I. O. F. on Monday night. The names of the officers were given in the HERALD at the date of election. The only change was the substitution of J. V. Samier as J. B. in place of Bert W. Temple, whose duties in the C. P. R. service prevent his regular attendance at lodge. After the installation ceremonies about 75 members and guests, including about 25 or 30 ladies sat down to a bountiful supper and the evening's entertainment wound up with an impromptu dance. The whole affair was most enjoyable and the evening will be a memorable one in the annals of Court Mt. Begbie.

## NOVELTY PHOTOS

Mr. King, Photographer, of Vancouver, has just arrived in town and secured rooms in the Taylor Block, where he will devote all his attention to making Photo Buttons, Broaches, Pins, etc. Stamp Photos 50c per dozen.

1. T. Brewster returned from Seattle on Sunday morning.

H. J. Bourne returned from the coast on Monday.

J. H. Woodside, who used to run a restaurant here on First street, has been elected alderman at Port Arthur.

Thos. Taylor, M.P.P., and Jas. Lade of Ferguson, came in on Monday's train from the south. Mr. Taylor went on to the coast yesterday.

A convention of the members of the local house in opposition to the Dunsmuir administration meets in New Westminster today.

Mr. King, a Vancouver photographer has opened a studio in the Taylor block. His specialty is photo buttons, broaches, pins, stamp photos and other photographic novelties. His ad. will be found elsewhere in this issue.

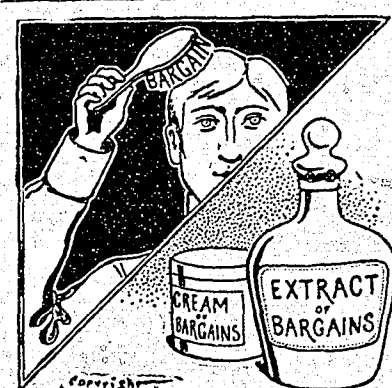

At the hospital ball on the evening of the 24th inst., a charge of 50c. will be made for spectators who take a seat in the gallery, which charge will include supper.

Regular monthly meeting of L. O. L. No. 1038 in the lodge room on Friday night. All members requested to attend.

The HERALD regrets to learn of the prolonged and serious illness of Mr. D. Robinson and is only expressing the wishes of every resident in town in hoping for his speedy recovery.

Miners in California are paying a great deal of attention to platinum and small lots are coming into the market in San Francisco from the northern mining counties of the State. There is a brisk demand \$20.50 is the current price in New York.

The following officers of Lodge Kootenay, No. 258, of the I. A. of M. were installed at the regular meeting on Saturday night: President, P. Donaldson; Vice President, W. A. McGuire; Recording Secretary, H. Keough; Financial Secretary, T. H. Dunne; Treasurer, J. Downey. After lodge the members held a smoking concert, at which a number of friends were present and a very pleasant time was spent.

## HOSPITAL BALL...

FRIDAY, JANUARY 24TH, 1902

Gentleman's Ticket, - \$2.00  
Lady's Ticket, - - - \$1.00

**EVERYBODY COME ALONG AND SPEND A SOCIABLE EVENING**

Mrs. Courcier is opening classes in china painting this week. She has some specimens of her work in this line on view in the Canada Drug & Book Co.'s store, which are sufficient proof of her artistic ability.

The Public Works department at Ottawa is instituting an inquiry into the improvements necessary at the narrows of the Arrow lakes to remove all obstacles to navigation. For a distance of about 20 miles there are places at which dangerous sand bars form and these shift in position from year to year. To keep this part of the lakes in good shape for navigation and to remove the bar at the head of the lake near Arrowhead will require about four months' work of a dredge every year, and a strong effort will be made to obtain the construction of a dredge for exclusive use on the Arrow lakes.

## CROWS NEST COAL AND COKE

To Supply the Great Northern, Northern Pacific and Burlington Lines and the Butte Smelters.

It has been definitely decided to build a connecting link between the Great Northern and the Northern Pacific west of the Rocky mountains. The line will extend from Kalispell, Mont., on the main line of the Great Northern, to a point on the Northern Pacific west of Missoula.

It is reported that the party of Great Northern surveyors which has been in the district for the past three months making a complete survey will be ready to report plans and specifications by March 1, and the work of construction will begin as soon thereafter as bids can be received and contracts let.

It develops that President James J. Hill had the building of this line in view when he began negotiations for the control of the output of the Crow's Nest Coal company's mines at Fernie, B. C., and the merging of the Great Northern with the Northern Pacific and the Burlington. The road will be constructed for the purpose of furnishing the Northern Pacific and the Burlington with coal.

It is also conceded that President Hill has in view the carrying out of the project first formulated by the late Marcus Daly to supply the Butte smelters with British Columbia coal and coke. There is no finer coal in existence for coking than the Crow's Nest coal and the building of the Kalispell cutoff will mean the construction of immense coking ovens in the country along the boundary.

## TWENTY-THREE MILES LAID

Tracklaying on the Lardo Line Reaches Poplar Creek

H. F. Forrest, Dominion Inspector of railways, and J. J. Sullivan, engineer in charge of the construction of C.P.R. returned here from the Lardo where Mr. Forrest was inspecting that part of the road on which the rails have been laid. Mr. Sullivan states that the track is now laid as far as Poplar creek, 23 miles from the lake. The tracklaying gang has been taken off and from this time on will be employed doing riprapping on the part already finished. This inspection is not final and trains will not run regularly. The same time as there is little ore to come down yet, most of it being held over till the spring. Clearing the right of way and grading will be continued all winter. There is about two and a half feet of snow.

Mr. Sullivan states that the spur to the Marysville smelter site is now completed. That work has been in charge of J. P. Vance, who was formerly in the office of Mr. Gutelius, in Nelson. Another work the C. P. R. has now in hand is the building of a cutoff at Ficht, on the main line. The cutoff is in the nature of a by-pass for though it does not shorten the route it will lessen the grade very much at a point where it was rather bad.—Nelson Miner.

**Notice.**  
A special meeting of the Board of License Commissioners will be held in the Provincial Police office, Revelstoke, on Tuesday, the 21st of January, to decide on the application of J. D. Gillis, of Dawson City.  
J. A. Uppel,  
Chief Inspector.
