### RESULT OF PEACE CONFERENCE

May Settle International Disputes.

THE HAGUE, July 7.—The text of the proposed convention is as follows:

Article 1. With the object of preventing as far as possible recourse to force in international relations, the signatory powers agree to use all endeavors to effeet by pacific means a settlement of differences which may arise among them.

Article 2. The signatory powers decide that in case of serious differences or confliet, they will before appealing to arms have recourse, as far as circumstances permit, to the good offices or mediation of one or the several of the friendly

Article 3. Independently of this, the signatory powers deem it useful that Erin, with a distinguished party on several of the powers not committed to this arbitration scheme, shall on their own initiative, offer, as far as circumstances permit, their good offices or mediation to the contending states. The right of offering their good offices belongs to powers not connected with the conflict, even during the course of hostilities, which act can never be regarded as an unfriendly act.

Article four sets out that the part of mediator consists in reconciling conflicting claims, and removing resentment which may have arisen between contending states. The functions of mediation cease from the moment it may be stated by one of the contending parties, or by the mediator himself, that the compromise or basis of amicable understanding proposed by him has not been accepted. Good offices and mediation have the exclusive character of counsel and are devoid of obligatory force.

Articles seven and eight provide that certain conventions must be entered into in an event of good offices being offered during the hostilities, in order to prevent mobilization or hostilities until the acceptance of good offices is decided on.

Articles nine to fourteen provide for the institution of an international commission of enquiry for the verification of facts, in cases of minor disputes not affecting the vital interest or honor of states, but impossible of settlement by ordinary diplomacy. The report of an enquiry committee will not force a judgment, leaving the contending parties full liberty to either conclude an amicable arrangement on the basis of the report or have recourse ulteriorly to mediation or arbitration.

Articles 14 to 19 set forth the general obccts and benefits it is loped to derive ion the arbitration court, and declare that signing the convention implies an niiderstanding to submit in good faith to ubitral judgment.

With the object of facilitating an in nediate recourse to arbitration for inter-diplomatic means. Article 20 provides ic signatory poyers organize a permanent court, of arbitraion; accessible at all the time and exercising its functions unless otherwise stipulited. Detycen the contending parties in conformity with the mules of procedire inscrided in the present convention.

### The Cable and Canadian Imports.

London, July 7.—It is believed in wellinformed circles here that the all-British cable conference will result in the scheme being carried out almost along the lines as originally proposed. The imports from Canada during the month of June reached the following proportions: 14,047 cattle, valued at £234,646; 52,428 sheep and lambs, valued at £8,013; 44,076 hundred weight of bacon, valued at £73,452; 11,480 hundredweight of hams, valued at £22,-037; 11,974 hundredweight of butter, valued at £22,037. 11974 hundredweight of butter, valued at £52,005; 147,752 hundredweight of cheese, valued at £319,-221; 478 great hundreds of eggs, valued at £130; 515 horses, valued at £13,998

### Venus Ore Tested by a Mill Run.

The recent test of Venus ore made at the Athabasca mill has given satisfactory results. Thirteen tons of ore were run through, and a gold brick weighing 141 ounces will be shipped east today. The assay returns of the concentrates have not yet been received. About twenty men are now employed at the Venus, and three eight-hour shifts are being worked in each tunnel. The upper tunnel is in 80 feet and the lower 50. Men will also be put to work crosscutting the lead on the surface lower down. The new cook house, 24 x 40, and office were completed yesterday.

### The Spirit Wrestlers on the Way.

WINNIPEG, July 7.—The first large contingent of the emigrants, chiefly Galicians and Doukhobors, is expected to arrive today for settlement in the Northwest. On Tuesday they passed through Ottawa in nine special trains. Of this number eight of the trains carried Doukhobors and Galicians. The Doukhobors remained in Ottawa only a short time and were hurried on to their new homes in the west. Each train had ten coaches and the number of immigrants on board numbered 3500.

### INFORMATION CIVEN

Reorganizing the Cape Forces.

LONDON, July 7.—There was some lively fencing in the house of commons today over the government's policy with respect to the Transvaal situation. Sir Henry Campbell Bannerman, leader of the Liberal opposition, led the demand for information. After several of his interrogations had been turned aside he said: "It is not with regard to the bringing the present military force to a proper standard of efficiency that I wish to inquire, but as to the paragraph which appears as an official communication. He then read the following extract: The commander in chief has been engaged in completing the composition and organization of a larger force, which it will be necessary to despatch should the negotiations with the Transvaal fail. "It is with regard to this statement of the Times, which is apparently a new declaration of government policy, that I wish to inquire." (Opposition cheers).

Mr. Balfour replied: "I do not think there is any new declaration of policy in the paragraph, but I conceive that the war office would be extraordinarily wanting in its most ordinary and obvious duties if it were not prepared for any emergency, however undesirable and however unlikely, that could possibly arise." (Ministerial cheers).

Henry Labouchere, radical member for Northampton, asked whether the officers spoken of in the communication as going to South Africa, were going into Cape Colony and Natal to organize the police and local forces, and if so whether it was with the consent of the colonial author-

Mr. Balfour replied: "I do not know." Communder George Richard Bethel. Conscivutive member for the Holderness division of Yorkshire, asked: "Would avhat circumstances the special officers are likely to be employed, and against

what enemies of the queen." Mr. Balfour answered: "My honorable friend is quite as competent a prophet as I am, and it will require a prophet to answer for circumstances which may

### The Flood in Texas a Disastrous One.

DALLAS, Texas, July 7 .- The flood sitution is more grave today. The Brazos liver rose two feet during the night and is still rising. Life savers from Galveston started out soon after daylight and are doing splendid work. The Galveston crew brought in sixty-eight refugees last night from the high embankment at the Santa Fe railway bridge over the Brazos, where the people had taken refuge. Refugees are flocking in from both sides of the river. Four deaths by drowning are reported near here in the last twentyfour hours. Governor Sayres today received a message from Scaley, over the long distance telephone, saying that 1000. people who had taken refuge on a mound three miles below there are slowly perishing for want of food. To add to their terror, the unfortunates are surrounded by poisonous reptiles. Huddled together with the human beings are several hundred head of live stock. A number of those on the mound have received bites from the reptiles and are in serious condition.

## HOLBROOK TOOK THE BURRS THE TOWN AND THE DISTRICT

It Cost Him Fifty Dollars.

The whole of yesterday afternoon and part of the evening was taken up in hearing the case against George Holbrook, who, as stated in the last issue of THE TRIBUNE, was accused by H. W. was driving for Holbrook, swore that on the night of the 15th or 16th of June to get two burrs off a wagon, afterwards | returning with them. He wrapped them up in paper, and placed them on the wagon, saying he had fixed the wagon the burrs belonged to for the summer. The night's work over, Holbrook put them in a sack and left them in a wagon box near the dumping ground, where witness found them the day of Holbrook's arrest. Though pressed very hard by A. M. Johnson, counsel for the defense, the witness identified the burrs and also the paper they were wrapped in. The line of defense was that the burrs and the wagon they belonged to were Holbrook's property, and accordingly a mass of evidence was adduced as to the deal. The story given by Hawley and William Ragless was practically identical and was to the effect that the latter had agreed to accept \$10 and a scraper for one of his wagons. Hawley agreed provided he could turn the wagon over again, and offered it to Holbrook, who agreed to take it in exchange for a truck that Hawley was then using and \$10 boot, providing the wagon suited him. The three went up to Ragless place on a Sunday evening, and Holbrook looked over the wagon and decided to take it, saying he would come for it in the morning, and Hawley and Ragless agreed that their transaction would be closed if he did so. Next morning Holbrook came down with a wagon of Hawkey's he had been using, with his scavenging tank on it. The tank did not fit the other wagon; however Holbrook drove off with it, saying he had another that would at home, and as he went threw Hawley a neck yoke and a pair of whilletrees to go with the truck he had traded with Hawley: Holbrook's story was very different

He claimed in effect that he took the wagon off on the understanding that it he could not make it fit his tanks it was the right honorable gentleman say in to be returned, and that on getting home he found the wagon three inches too small, whereupon he immediately turned it. He further said that Hawley promised to give him back his truck, but afterwards put him off.

At the close of the case for the crown. A. M. Johnson moved to dismiss the information on the ground that the witnesses for the prosecution differed as to when the alleged deal was concluded. saving that Hawley had stated it was concluded on Sunday, which would make the transaction void. S. S. Taylor disputed this, and the objection was not admitted. By the time George Holbrook evidence was concluded it was 6 p. m., and the court adjourned until eight o'clock, Holbrook in the meanwhile being liberated on his own recognizance.

After the recess S. S. Taylor began the cross-examination of the accused, whom he rather tangled up in matters of details. Counsel on both sides then addressed the court, and on their concluding Holbrook was sentenced to a \$50 fine or two months' imprisonment. The fine was paid.

The Wind up at Henley.

HENLEY, July 7 .- The Henley regatta came to an end today under the most favorable conditions. The weather was perfect but the attendance was not so numerous as usual. The racing contained no surprises and no close finishes. There was a feeling of relief however, when in the stewards' cup Magdalen disposed so easily of the German crew, that many predicted would win. The cheers which greeted the winners were much heartier than those given to the other victors, and emphasized the general joy that the trophy was not to be taken abroad. There was also much enthusiasm when the Etonians fairly rowed down their strong opponents, Pembroke college, in the ladies challenge plate, and re-established their claim as the holders of this handsome cup.

Howell's victory in the diamond challenge sculls was also immensely popular out he is regarded as an Englishmar ather than an American.

When lady Esther Smith presented the orizes after the races, colonel Willan, the impire, made a brief speech in which he velcomed the Canadian and foreign crews.

It employs men at good wages to solicit advertise-Holbrook left him, saying he was going ments, and no charge is made for either writing advertisements or making changes.

### KASLO.

Kaslo, July 7.—Judge Forin held a session of the county court here yester day. The chief case was that of Sansun vs. the Whitewater Mining Company in which the plaintiff claimed damages for injuries received while working in the defendant company's mine at Whitewater. However the case did not proceed to trial as an application had been made by the defendant company to have the case transferred to the supreme court. The plaintiffs claim for damage is based upon an alleged faulty construction of an ore chute in the Whitewater mine, in consequence of which the plaintiff was injured by a flying piece of ore.

Another case of considerable interest was that of Dr. Rogers vs. the city of Kaslo. This was an action in which Dr. Rogers sued the corporation for the sum of \$60, being the hospital fees on a patient sent to the hospital by the former council. The defence of the corporation was that there was no provision in any bylaw for the care of the indigent sick. This technical objection did not weigh with the court who took the ground that if Kaslo had no provision for the hospital treatment of its poor that it was time that such provision was made. Judgment was given for \$60, the full amount claimed.

### Kruger's Compromise Accepted.

LONDON, July 7.—The Digger News says that the Transvaal volksraad today agreed to the new franchise proposal whereby all persons now naturalized, and persons who settled in the country prior to January, 1891, shall receive the franchise. of Uitlanders at 21. The importance of the volksraads action, if the Digger News advice is correct, can scarcely be over estimated as it means a compromise which will do much to obviate a clash between Great Britain and the Transvaal. In the Bloemfontein conference the best president Kruger could offer sir Alfred Milner was the enfranchisement of the Uitlanders resident before 1900 in two years from now. This was rejected.

### CALLS IT A TORY CONSPIRACY

Wants a Show of Hands.

Attorney-general Martin has given to the public a two-column letter dealing with the recent split in the Semlin cabinet. In the first part of his letter the attorney-general enters a defence to the charges which were made against him, and from this he proceeds to state what he proposes to do and what he imagines premier Semlin and his colleague Cotton are up to. This part of his letter

"Now Mr. Semlin, having dealt with the three reasons given by you for asking my resignation, I beg to repeat in writing what I stated to you on Saturday, that I did not propose ta resign my position in the cabinet, and I charge that the reasons given by you are only pretenses, and that you have been induced to ask for my resignation by Mr. Cotton; that you and Mr. Cotton have entered into a conspiracy to wreck the present government and drive from it all the Liberals, with the idea of forming a Conservative gevernment.

"I am informed and believe that you have already negotiated with Mr. Helmcken and Mr. Higgins with a view of their entering a government of this kind. I know that you have not consulted either Dr. McKechnie or Mr. Hume with regard to asking for my resignation This contemplated course on the part of Mr. Cotton and yourself is in my opinion a gross outrage upon the electors of this province. Dominion party lines were expressly ignored by the late government and the present government parties in the last general election y Vhile it in mujority of Conservatives that is a In the Good Hopg, 100 feet in the tun- mere accident and they were not elected. as such. For you therefore to attempt depend for its support upon these gentle-Some line looking rock has been brought | men who happen to be Conservatives, would, it appears to me, entirely nullify the vote which took place on July 9th last. I feel satisfied that your attempt to carry out a conspiracy of this nature will not incet with success. At any rate you can depend upon every effort being made by me to frustrate it, and I feel certain that the Conservatives of the province who voted for the late opposition will be entirely opposed to any such attempt. I have urged you to call the supporters of the government in the house together in caucus, to consider the Deadman's Island question, which has created such an agitation in the city of Vancouver. I think that course should still be adopted, and I think in addition that it is absolutely necessary now that our supporters should be called together to determine whether your course in calling for my resignation is in accordance with their wishes. If it is I am prepared at once to resign, but I protest against your right to ask for my resignation."

### Conscription Bill Introduced in England.

LONDON, July 7.-In the house of lords. today the secretary of state for war, the marquis of Lansdowne, introduced a bill which is regarded as the thin end of the wedge of conscription, and therefore likely to render the government unpopular. The bill, which is untitled the 'Militia Ballot Act," is intended to simplify and regularize an existing act practically suspended in favor of volunteer enlistment. In his speech introducing the measure, lord Lansdowne carefully explained that the government only wanted it read the first time. He repudiated any intention of trying to introduce conscription by a side wind. Personsally, he said, he did not favor conscription, but he thought it advisable that such a bill should be in readiness if wanted and that the country should realize how it stands with regard to the question. Already the Liberal papers are attacking the government and asking what need there is of such a measure unless conscription is intended, and looking to the fact that recruiting is dwindling the bill will be regarded with great suspicion.

## LACROSSE BOYS COAST TRIP

Westminster Offers Them the Pot.

The management of the Nelson lacrosse team has received a favorable reply from the New Westminster lacrosse team with respect to the proposed visit to New Westminster of the local team. The New Westminster club offers the Nelson club the entire gate receipts of the game in their city if they will visit the Coast. It now depends upon the nature of the replies received from Vancouver, Victoria and Nanaimo whether the local boys will make the Coast trip or not. They have a team which can be counted upon to do Nelson justice and if anything in the way of favorable replies are received from the other cities on the Coast and Island they will make the trip.

Should the trip be decided upon they will take Messrs. Devlin, Lynch, Grant, Thompson, McNichol, Howden, Lackie, Jeffs, Hayer, Perrier, Archibald, Blackwood, O'Brien, Fraser, Rutherford and Revee. These men have had considerable experience upon the field and should make a good showing against the crack teams of the Coast.

Fred Lynch, who would probably play

point, has played on the Peterboro team and had an offer this year to play with Montreal. H. E. Devlin may be depended upon to give a good account of himself at goal. Joe Thompson is almost too well known to require any mention and at cover point he can be depended upon to give his check plenty to do. W. F. Grant was formerly a member of the Vancouver team and plays the first defence as it should be played. D. McNicholl who would probably play second defence did some good work on the Peterboro team last year. Howden has played in the intermediate league games with Toronto. Mike Lahey was a member of the Ingersoll team when Joe Thompson played there. A. W. Hayer played in the championship series in Toronto against the Cornwall team, the Shamrocks and the Capitals. Alf Jeffs would probably captain the team He played in the intermediate games in Ontario and has given a good account of himself on the local field. As a home player A. Perrier is rather well known and the same can also be said of Blackwood in the defence field. Revee, Archibald, Rutherford and Henderson are also good men and from them a team could be made up could be made up which would place Nelson in a lavorable position to pid for the lacrosse. championship of the province

So soon as the other cities of the coast are heard from the local team will go into training, and win or lose they will give a good account of themselves

### Senators Will Kill the Bill.

OTTAWA. July 7.—The Conservative senators have decided to throw out the Grand Trunk agreement bill unless the commons will consent to material amoud: ments. At a caucus on the bill the feeling was quanimous against the accentance of Mr. Blair's amendment to authorize the government to terminate the supplementary traffic agreement on one year's notice, and a large majority was in favor of putting both bills over until next year, so that the government could give the present experiment a longer trial. Two eastern Townships senators were the only ones in favor of the government's agreement with the Drummond county and Grand Trunk. A final decision was postponed in order to see whether the government would be disposed to substantially amend both bills.

Thrife will not be a provincial general ion as the supporters of the late Turner government predict. The Turner crowd were turned down for four years. The Sentin government should have nothing whatever to do with the squabbles of Vancouver politicians over the Deadman Island saymill dispute, which does not concern unybody in the province outside of Vancouver. It would be a pretty come to pass if a general election had to be held every time Vancouver politicians had a falling out. Vancouver has only about one-sixth of the relite population of the province, and it is about time it was told that the other five-sixths intend to run the show.

It is one that concerns Vancouver alone. It is one between two factions of that One faction is the local sawmill interest, which has borrowed so much money from a local bank, that were a rival sawmill started the mills already there would depreciate so much that their owners would be required to give the bank further security. This faction is backed up by minister Cotton. The other faction wants all the lumber used on earth sawed in Vanconver, and minister Martin stands in with them. ing the first few days, but in the case of Brayer vs. Harrison a decision was rendered that put at rest the fears of the Americans in the district that justice would be administered on the all-Canadian plan. Brayer, the plaintiff, located a bench claim on Spruce creek last fall, and upon attempting to record it was told by gold commissioner Rant that he had not then time to record bench claims. Rant was appointed by the Turner government. Soon after the mining recorder's office was closed for winter and Brayer was obliged to wait for spring. In the meantime the alien law was passed and Harrison, a British subject, was advised of the circumstances by a friend occupying the adjoining creek claim, and proceeding on the more less popular idea of jumping everything American, relocated the claim and commenced active work, spending, all told, about \$400 in development and taking out considerable gold. Brayer reappearing, the claim was laid over by gold commissioner Graham, who was appointed to office by the Semlin government, and on Friday judge Irving, in a scathing manner, rendered a decision against Harrison, and peremptorily ordered him to take his belongings and quit the ground now occupied by him, and pay all costs of the case.

Title to the claim will be awarded Brayer on July 3rd, the day set for granting title on disputed claims. As a great many claims were located by Americans last fall and not recorded for simi-

A Question of Manhood. Salt Lake Tribune.

The courage of the American people was on trial last year and they never faltered. The manhood of the American people is on trial this year and many are falling down. For the very meanest of partisan purposes there are reproaches at the government and daily impeachments of the motives behind those in power; though Havana has become more healthy than New Orleans and Santiago has a less proportunate death rate than Philadelphia; though school houses are spreading through Cuba, and order and the beginning of presperity reveal the benign work going on there; the hint is thrown out daily that there is a purpose to never surrender the island, and it can have but one purpose behind it, and that is to kindle an insurrection there. On the other hand, our soldiers in the Philippines are pictured as monsters of cruelty and Aguinaldo as an unselfish patriot struggling for freedom for himself and his people against a merciless foe. The truth is that the American people do not show up well unless some serious business is on hand, something so serious that it causes them to forget their selfishness and to kindle their honest pride. A writer from the Philippines declared recently that the American soldiers, the volunteers especially, were great growlers; that they were indifferent to details and that the only place where they show what they really are is on the firing line. It is a good deal so with the nation at home. Ours is a magnificent nation in action, a

Gold Brick Goes to Helena.

The Bank of Montreal yesterday exported to the United States assay office at Helena a gold brick valued at \$11,500. It is generally understood that the brick in question represents the last cleanup at the Ymir mine, saving of course the values saved in the concentrates.

### NELSON.

Those employed in the dressmaking department of Fred Irvine & Co, had an outing yesterday to the Collin ranch which is being managed this summer by Messrs. Walbey and Keefer. A very enjoyable time was spent.

W. Fleet Robertson, provincial minerologist who is getting together the mineral exhibit for the Paris exposition, has returned to Nelson. Yesterday A. H. Buchanan, of the Bank of Montreal, tendered him the several fine specimens which he has gathered during the past few years, and which has been on exhibition in the bank. The specimens are unusually large, but as Dr. Dawson has consented to allow large specimens from shipping mines Mr. Robertson was able to accept them. They will be packed for shipment by F. M. Chadbourn who has charge of the local exhibit.

W. G. Gillett has secured the contract for the erection of a \$2500 residence, which is to be erected on the corner of Victoria and Falls streets for J. M. Lay, manager of the Imperial Bank of Canada. W. A. Thurman left last night on the steamer Moyie for a month's visit to
